Degree Conferred:

M.S. in Construction Management (CSMG)

Program Description: The Department of Civil Engineering offers a Master of Science in Construction Management through a 30-hour online program. The curriculum includes construction scheduling, project finance, construction productivity, construction safety, and legal aspects of construction.

Requirements for M.S. in Construction Management

Program Admission Requirements: Applicants to the program must meet the following admissions requirements. This includes having a bachelor of science, bachelor of arts, or bachelor of architecture from an accredited university. The applicant should have an undergraduate grade point average (GPA) of 3.0 or better (A=4.0) on all course work taken prior to receipt of the bachelor degree, or a GPA of 3.0 or better on the last 60 hours of course work taken prior to receipt of the bachelor degree. An entrance exam, such as the GRE, is not required.

Requirements: In addition to the requirements of the Graduate School, the following requirements have been established by the Construction Management Program. Students must complete a minimum of 30 semester hours of graduate-level credit beyond the bachelor's degree. Students must earn a minimum cumulative grade-point average of 2.85 on all graduate courses attempted. At the completion of their course work, the students must pass a comprehensive final exam.

Course Requirements

Required Courses	15
Students must take 5 of the 6 courses listed below. Of the 6 courses listed below, the one not taken as a required course may be used as an elective.	
CVEG 55003 Construction Safety	
CVEG 55103 Construction Scheduling	
CVEG 55303 Legal Aspects of Construction	
CVEG 55603 Building Information Modeling (BIM) for Design and Construction	
CVEG 55703 Construction Project Management	
CVEG 55903 Cost Management: Ownership	
Select an additional five courses from any approved Master of Science in Engineering courses offered	15
Total Hours	30
