Degree Conferred:
Master of Social Work (M.S.W.)

Program Description: Professional social workers promote human well-being by strengthening opportunities, resources, and capacities of people in their environments and by creating policies and services to correct conditions that limit human rights and the quality of life. The social work profession works to eliminate poverty, discrimination, and oppression. Guided by a person-in-environment perspective and respect for human diversity, the profession works to effect social and economic justice worldwide. The purpose of the graduate social work program at the University of Arkansas is to prepare advanced-level professional social workers as leader/practitioners with the capacity to address complex personal, social, community, and economic problems preventing so many of Arkansas’ people (and people across the country and globally) from moving out of poverty to self-sufficiency. The M.S.W. program is accredited by the Council on Social Work Education (CSWE).

Areas of Study: The School of Social Work offers focused studies in multi-system life-course. The multi-system life-course perspective prepares students for advanced social work practice with a range of systems (individuals, families, groups, organizations, and communities) and for practice with individuals across the life course as they interact with multiple systems.

Primary Areas of Faculty Research: Healthy aging; human behavior and the social environment theory; gerontology; addictions; health and health disparities; poverty reduction; human diversity; international social work; social work history; women and asset development; children and families; domestic violence; and human trafficking.

The Department of Social Work and the School of Law cooperate in offering a dual degree program that allows a student to pursue the Master of Social Work and the Juris Doctor degrees concurrently in order to achieve the following program objectives:

1. To educate practitioners in social work and law to be able to effectively utilize the problem-solving strategies and techniques of both disciplines to the benefit of their clients, their colleagues, and the community.
2. To provide the core curriculum necessary for the education of students in each profession while enabling them to focus on areas of knowledge and practice that correspond to their professional goals.
3. To facilitate integration of the two disciplines through experiential learning opportunities.
4. To promote a philosophy of interdisciplinary collaboration between law and social work professionals and create a collaborative learning environment.
5. To prepare practitioners who have a commitment to a human condition that is free from violence, oppression, and discrimination, and that protects and promotes the development of all people.

J.D./M.S.W. Program

The Juris Doctor/Master of Social Work dual degree is awarded after completion of a four-year integrated course of study. This eliminates approximately one year of study, while meeting all accreditation requirements of the American Bar Association and Council on Social Work Education.

Upon completion of the dual degree, students have earned a total of 135 credit hours (as opposed to 153 credit hours if the degrees are earned separately). A total of 12 hours credit earned in the M.S.W. program count toward completion of the J.D. degree. A total of 6 hours credit earned in the J.D. program count toward completion of the M.S.W. degree. In order to receive dual credit, minimum grade standards for each program must be met.

Students who do not maintain the academic or ethical standards of either degree program may be terminated from the dual degree program. Students in good standing in one degree program but not the other may be allowed to continue in the program in which they have good standing and must meet the degree requirements of that program. If for any reason a student admitted to the dual degree program does not complete the M.S.W. degree, the student cannot count the 12 hours of M.S.W. courses toward the J.D. degree. If for any reason a student admitted to the dual degree program does not complete the J.D. degree, the elective policy for the School of Social Work applies.
To be eligible for admission to the J.D./M.S.W. Dual Degree Program, students must apply separately and be admitted to the master’s program at the School of Social Work, to the juris doctor program at the School of Law, and to the joint program. As such, applicants must meet all of the requirements for admission to each program. Upon application to the J.D./M.S.W. dual degree, the applicant shall provide a statement of intent for admission that includes a brief explanation of the reasons for pursuing this dual degree program as well as goals upon completion of the program. Each degree will be conferred when the student has met all the requirements of that degree.

Should a student enter one program and later become aware of the availability of the joint program, the student must be admitted to both programs and to the joint program during his or her first year of class work in the program of original enrollment.
