**Educational Technology (ETEC)**

**Courses**

**ETEC 5203. Foundations of Educational Technology. 3 Hours.**
Provides learners with a comprehensive survey of the major trends, issues, people, processes, and products that have significantly affected the evolution of the field of educational technology. (Typically offered: Spring and Summer)

**ETEC 5213. Designing Educational Media. 3 Hours.**
Instruction in the design, development and implementation of various types of web based audio and visual media for enhancing instruction. Prerequisite: Graduate standing. (Typically offered: Fall)

**ETEC 5243. Designing Technology Based Instruction: Theories and Models. 3 Hours.**
The study and application of theories, models and methods for designing and developing instruction which utilizes technology tools and applications. Prerequisite: Graduate standing. (Typically offered: Fall)

**ETEC 5263. Grant Writing in Educational Technology. 3 Hours.**
Students will have an opportunity to find grant funding sources, write a grant, and submit an actual grant proposal to an agency for consideration. Will survey research in instructional media over the past 60 years and learn specific criteria for reading and evaluating research reports and articles. Will investigate current issues and topics related to research and grant writing in instructional media. (Typically offered: Summer)

**ETEC 5303. Teaching with Technology in the K-12 Classroom. 3 Hours.**
A study of learning theories and technologies that can be utilized to support and to enhance instruction in multiple subject areas in the K-12 classroom. Prerequisite: Graduate standing. (Typically offered: Fall)

**ETEC 5313. Principles in Visual Literacy. 3 Hours.**
Students gain understanding of visual literacy research and learn to create graphics that support learning. Literature in the area of visual literacy and learning theories as well as tools that facilitate effective visual literacy will be used to create visuals that are clear, communicate well, and help enhance learner performance. (Typically offered: Spring and Summer)

**ETEC 5373. Designing Web Sites and ePortfolios. 3 Hours.**
Students design websites for content delivery with a focus upon multiple platforms, effective design principles, accessibility, and copyright compliance. They will apply these concepts in the design of an ePortfolio showcasing skills as an educational technology practitioner. Prerequisite: Educational Technology Master of Education (ETECME) major, and course must be taken in the final semester of ETECME program. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

**ETEC 5743. Internship. 3 Hours.**
A supervised field placement in educational technology that provides experience consistent with the student’s professional goals and training emphasis. Internship experiences are planning and directed under the guidance of a faculty member. On-campus and on-site supervision is required. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

**ETEC 5981. Eportfolio Production. 1 Hour.**
This is a capstone course that is typically taken in the last semester of coursework and designed to: 1) review key constructs presented within the Educational Technology curriculum; 2) provide ETEC students the opportunity for reflection relative to his/her learning of the key concepts; and 3) utilize technology to assemble student-created artifacts that demonstrate mastery of the key concepts. (Typically offered: Fall and Spring)

**ETEC 600V. Master’s Thesis. 1-6 Hour.**
Master’s Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

**ETEC 6223. Research and Strategic Planning in Educational Technology. 3 Hours.**
The course provides an overview of quantitative, qualitative, mixed methods research and experiences intended to develop strategic planning knowledge, values, attitudes, and skills in the management and leadership in educational technology and instructional design programs. (Typically offered: Fall)

**ETEC 6243. Advanced Instructional Design. 3 Hours.**
This course explores advanced topics in instructional design to facilitate understanding of grounded models, advanced theories, and research. This course focuses on: 1) design and development of contextualized technology-supported learning environments; 2) analysis and application of advanced theoretical foundations of design; and 3) examination and critique of instructional design research. Prerequisite: ETEC 5243 or equivalent. (Typically offered: Spring)

**ETEC 6253. Teaching and Learning at a Distance. 3 Hours.**
An examination of methods and technologies for teaching instructional content at a distance. Emphasis is on techniques for the development, utilization and evaluation of technology integration for instruction in a variety of learning environments. (Typically offered: Spring and Summer)

**ETEC 6393. Issues and Trends in Designing Instruction with Technology. 3 Hours.**
Critical challenges posed as a result of the increasing infusion of technology into the school and training environments are explored. The course prepares students to make and defend policy decisions and become conversant with current trends and issues in the field. (Typically offered: Fall)
