Arkansas Humanities Center Website (<https://fulbright.uark.edu/programs/humanities-program/>)

The Arkansas Humanities Center in the J. William Fulbright College of Arts and Sciences promotes humanistic scholarship and inquiry, innovative and interdisciplinary teaching, and humanities scholarship to the wider community.

The mission of the Arkansas Humanities Center is threefold: to support and advance cross-disciplinary research and inquiry in the humanities; sponsor special programs that engage the university and wider public in conversation on issues that bring the humanities to bear on salient topics of our times, and to foster a strong role for the humanities in an increasingly global society.
