

Secondary Education (SEED)

Courses

SEED 50103. Teaching Secondary Science: Theory to Practice. 3 Hours.

This course is a continuation of SEED 50003, Introduction to Teaching Secondary Science, and is taken concurrently with CIED 5280V, Secondary Cohort Teaching Internship. Students will receive instruction in advanced methodologies for teaching science and will reflect on their experiences in their internships. Corequisite: CIED 5280V. Prerequisite: STEM 50003. (Typically offered: Fall)

SEED 51003. Methods of Teaching Secondary Social Studies I. 3 Hours.

Study of the methods and materials in social studies. Includes philosophical, cognitive, and psychological dimensions of teaching. The planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to Teacher Education (EDUCMA) M.A.T. program. (Typically offered: Summer)

SEED 51103. Teaching History, Government and Economics. 3 Hours.

Study of the methods and materials in teaching history, government and economics. Includes philosophical, cognitive, and psychological dimensions of teaching, planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to Teacher Education (EDUCMA) M.A.T. program. (Typically offered: Fall)
