Program Description: Graduate programs in the Department of Curriculum and Instruction focus upon advanced preparation of practitioners who may serve in a variety of roles in K-12 schools, higher education, business, industry and clinical settings. Degrees and certificate programs focus on providing initial and/or additional licensure for teaching and educational leadership in K-12 schools. In addition doctoral degrees prepare practitioners for research, teaching and service roles in public education and/or higher education or positions with state, federal or community educational organizations.

Primary Areas of Faculty Research: The research areas of faculty vary widely based upon their area of expertise. Individual lines of inquiry range from a focus upon K-20 student, teacher, administrator and practitioner preparation and effectiveness, to content specific inquiry within the various sub-disciplines. Additional research areas cross disciplines with a focus on clinical applications and therapeutic interventions as well.

M.Ed. in Curriculum and Instruction

Admission to the Master's Degree Program

Students who already hold undergraduate degrees must apply to the U of A Graduate School before consideration for admission. The M.Ed. in Curriculum and Instruction will use a variety of inputs to determine the qualifications of applicants including:

1. Prior undergraduate and graduate work,
2. Curriculum vitae that includes related experiences,
3. Writing sample from prior educational or work setting,
4. Statement of purpose that addresses the fit between the applicant’s educational needs and the program’s learning outcomes; and
5. Two letters of recommendation that address the applicant’s potential for graduate study.

The GRE exam will be required for applicants with an undergraduate G.P.A. below 3.0 unless applicant has already successfully completed a graduate degree.

Curriculum and Instruction M.Ed. 4+1 Program

The CIED M.Ed. 4+1 Program affords undergraduate students in the Department of Curriculum and Instruction the opportunity to earn a master’s degree in 5 years by completing up to 12 hours of graduate coursework while enrolled at the undergraduate level. After graduating with their undergraduate degree, students complete the remaining M.Ed. program requirements in their 5th year of study.

Application to 4+1 M.Ed. Program in Curriculum and Instruction

Applicants to the M.Ed. program under the 4+1 Program must be a University Arkansas undergraduate pursuing a bachelor's degree in the Department of Curriculum and Instruction.

Students apply for admission to the 4+1 program before the end of their junior year. They may then take up to 12 hours of graduate coursework as undergraduates, which will apply towards the M.Ed. degree in Curriculum
and Instruction. After receiving their undergraduate degree, students spend a fifth year completing the M.Ed., which will involve some summer school coursework.

All prospective students who apply through the 4+1 program are evaluated by program faculty in the Department of Curriculum and Instruction and are judged on a case-by-case basis, looking at a variety of factors including: GPA in CIED coursework and coursework to satisfy undergraduate degree requirements, statement of purpose, and recommendation from at least one faculty member in the Department of Curriculum and Instruction. GRE Scores are not required to apply to the M.Ed. program through the 4+1 program.

Once admission is approved, 4+1 students may take up to 12 hours of graduate coursework (5000-level or above) that will be counted toward both their undergraduate and master’s degrees. Coursework must be approved by the student’s academic advisor and CIED Graduate Coordinator.

Upon completion of their undergraduate degree in Curriculum and Instruction, 4+1 students who meet all Graduate School requirements and have maintained a minimum 3.5 GPA in 12 hours of CIED graduate coursework will be admitted to the Graduate School and the Curriculum and Instruction M.Ed. program.

Concentration Requirements 15

Ed.S. Project Requirement 3  
CIED 680V Ed.S. Project

Total Hours 33
The decision to admit a student to graduate study particularly at the PhD level is multi-faceted. It involves not only a review of the students’ qualifications but also the department's capacity to help each student achieve their specific personal and career goals. We expect our successful applicants to have an earned master’s degree and a solid GPA and GRE scores at or above the 50th percentile (approximately 149 in Quantitative and 151 Verbal Reasoning). However, the final decision is not based solely on any single indicator, but rather through a holistic evaluation of the potential student’s application materials. Students bypass full Ph.D. Admission Committee review if they meet the following minimum criteria:

- GRE Scores at the 50th percentile or above in all three areas
  - Quantitative
  - Verbal
  - Writing
- Master’s degree G.P.A. of 3.5 or above
- An available faculty mentor in the desired area of interest
- Minimum of three years full-time professional teaching experience, clinical experience, or equivalent employment experiences prior to the application to the doctoral program.
- Favorable faculty mentor reviews of:
  - Writing sample which demonstrates professional writing competency
  - Letters of recommendation
  - Three years of field related experience in the desired area of interest

Students who do not meet these minimum requirements can still be admitted if their applications are approved by the Ph.D. Admissions Committee. Review by the Graduate Admissions Committee is required for any student who wishes to be considered for a Graduate Assistantship/Fellowship. Graduate Assistantships are awarded by the CIED Department Head in consultation with the Ph.D. Admissions Committee. GA positions are limited, and are not necessarily available to the department each year. Preference is given to candidates who would also have a strong case for a Doctoral Fellowship. More information regarding the fellowships is available here (http://graduate-recruitment.uark.edu/funding-degree/fellowships.php).

In addition to the Graduate School application requirements, students applying for the Ph.D. in Curriculum and Instruction must also submit the following through the application portal:

1. Resume or CV: Current resume or CV that outlines prior educational and professional experience.
2. Statement of Purpose: Brief personal narrative that describes applicants' personal, educational, and professional goals. Statements of Purpose typically include educational interests, future career plans, research interests, and a description of how a Ph.D. in Curriculum and Instruction will facilitate those goals.
3. Writing Sample: Original writing sample (20 page maximum) that illustrates applicant's ability to communicate in a clear and creative fashion. Writing samples can take many forms, both educational and professional, as long as they provide the department with an accurate representation of the applicant's writing style and ability.
