Catalog Home

This catalog of studies is a comprehensive reference for your years of study – a list of degrees, degree programs and courses offered at the University of Arkansas. In addition, it gives you valuable information such as suggested and required degree plans and information about costs, scholarships and financial assistance, and campus resources. Read it with pleasure and with care.

Take every opportunity to consult your academic adviser to ensure that you are taking advantage of courses and university resources that will help you reach your educational and career goals and graduate on time. Remember, the University of Arkansas is committed to your success.

The faculty and staff are here to support you as you work to achieve your goals. Ask for help and advice whenever you need it.

The University of Arkansas is committed to the policy of providing educational opportunities to all qualified students regardless of their economic or social status and will not discriminate on the basis of race, color, sex, creed, sexual orientation, disability, veteran’s status, age, marital or parental status, or national origin.

This is Volume 111; Publication Date: June 2017
General Information

Vision
By 2021, the University of Arkansas will be recognized as one of the nation's top 50 public research universities with nationally ranked departments and programs throughout the institution.

Quick Facts
- Location: Fayetteville, Arkansas
- Founded: 1871
- Enrollment: 27,194 (Fall 2016)
- Average ACT: 26
- Average high school GPA: 3.68
- Mission: The mission of the University of Arkansas is to provide an internationally competitive education for undergraduate and graduate students in a wide spectrum of disciplines; contribute new knowledge, economic development, basic and applied research and creative activity; and provide service to academic/professional disciplines and society, all aimed at fulfilling its public land-grant mission to serve Arkansas and beyond as a partner, resource, and catalyst.

History
Founded in 1871 as a land-grant college and state university, the University of Arkansas established its campus on a hilltop overlooking the Ozark Mountains. There were few facilities and little money that first academic year, but the eight students and three faculty members who gathered for the first classes in January 1872 showed the same dedication to learning and commitment to excellence that has carried the University of Arkansas into the 21st century.

More than 140 years later, the university’s enrollment has passed 27,000, and its students represent all 50 states and 120 countries. The university is the state’s foremost partner and resource for education and economic development. It serves as the major provider of graduate-level instruction in Arkansas. And its public service activities reach every county in Arkansas, throughout the nation, and around the world.

The University of Arkansas has 10 colleges and schools offering more than 200 academic programs including bachelor’s degrees in 75 areas of study. The university maintains a low student-to-faculty ratio of 19:1 that promotes personal attention and mentoring opportunities. Individual classes may range from a large general-lecture class of more than 400 to a focused special-topics class of 4 or 5 students. U of A students are given the tools and encouragement needed to excel. Over the last 15 years, Arkansas students have become Rhodes, Gates Cambridge, Madison, Marshall, Goldwater, Fulbright, Boren, Gilman and Truman scholars. More than 120 students have received National Science Foundation Graduate Research Fellowships.

Students pursue a broad spectrum of academic programs leading to baccalaureate, master’s, doctoral, and professional degrees, not only in traditional disciplines within arts, humanities, social sciences, and natural sciences, but also in the core professional areas of agricultural, food and life sciences; architecture; business; education; engineering; nursing; human environmental sciences; and law.

Students may also pursue a wide range of graduate degrees, including the Master’s, the Educational Specialist, the Doctor of Education, and the Doctor of Philosophy.

As you make your way around campus, you’re sure to notice something unique about many of the sidewalks. Historic Senior Walk showcases the names of more than 175,000 University of Arkansas graduates, grouped by year of graduation starting with the Class of 1876. A long tradition in both time and mileage, it’s concrete proof of the university’s commitment to students.

You won’t be able to discover everything the university has to offer in a day, but here are a few attractions that you don’t want to miss.

- **The Arkansas Union** — A primary gathering place for more than 40 years, the Arkansas Union serves as a place for students to attend educational and cultural events, access campus resources, eat, study and just meet friends between classes. The facility offers a food court, fitness center, technology center, bank, post office, Razorback shop, art gallery, theatre and much more.
- **Jim and Joyce Faulkner Performing Arts Center** — The university's old Field House, in which such legendary performers as Chuck Berry, Louis Armstrong and Peter, Paul and Mary have performed, was renovated recently into a 600-seat acoustically tuned performance hall. More than 200 musical concerts, operas and theatrical performances occur in the course of each year.
- **Chi Omega Greek Theatre** — The Chi Omega Greek Theatre, based on the designs of ancient Greece, is a popular place for concerts, pep rallies or just catching some rays between classes. Chi Omega, founded at the U of A in 1895 and now the largest women’s fraternity in the nation, donated the Greek Theatre in 1930.
- **Fulbright Peace Fountain and Statue** — These two impressive landmarks commemorate the legacy of the late U.S. Senator J. William Fulbright, a graduate and former president of the University of Arkansas. Fulbright famously helped create the Fulbright Scholarship Program, the largest international exchange program of its kind. Internationally renowned architect E. Fay Jones, a U of A graduate and former dean of the School of Architecture, designed the Peace Statue.
- **Old Main** — This architectural centerpiece of campus opened for classes in 1875, making it the oldest building at the University of Arkansas. Visit the restored classrooms, take a closer look at the inner workings of the tower clock on the fourth floor and enjoy the shade of the trees on the Old Main Lawn.
- **The Inn at Carnall Hall** — Built in 1905, the first women’s residence hall on campus is now a historic inn. The Inn at Carnall Hall is also home to the award-winning Ella’s Restaurant and Lambeth Lounge, the perfect spot for a little R&R on campus.
- **The Fine Arts Center** — Designed by renowned architect Edward Durell Stone, the Fine Arts Center at the University of Arkansas was the first complex to integrate the fine arts — theatre, music and art — in one building with the intention that students from each discipline would be inspired by each other. The center houses the University of Arkansas Theatre, the Fine Arts Gallery and the Stella Boyle Smith Concert Hall.
- **Silas Hunt Memorial Sculpture** — Near Old Main, you’ll find this tribute to the first black student to integrate a major Southern public university since Reconstruction. A veteran of World War II, Hunt was admitted without litigation into the University of Arkansas School of Law in 1948.
- **Pi Beta Phi Centennial Gate** — A new landmark, the gate serves as a formal entrance to the university’s historic core. The striking entranceway was a gift, commemorating the first 100 years of Pi Beta Phi on campus.
• Il Porcellino — This wild boar statue with fountain is a replica of the original Il Porcellino, in Florence, Italy. The Italian title of the statue means “piglet” and comes from the local Florentine nickname for the statue. One of many Razorback tributes on campus!

• Razorback Stadium/Hall of Champions Museum — Donald W. Reynolds Razorback Stadium is one of the finest collegiate football facilities in the nation and home to the Jerry Jones/Jim Lindsey Hall of Champions Museum, located in the Frank Broyles Athletic Center. Bud Walton Arena houses two more athletic museums.

• Walmart On Campus — The nation's first Walmart on Campus is also the smallest Walmart in the country. It's located in the Garland Center, which also includes the U of A Bookstore as well as boutiques, salons and dining options.

The campus features many other landmarks and noteworthy facilities including the Clinton House, the small brick home on campus on which future President Bill Clinton and future Secretary of State Hillary Rodham Clinton lived while both served on the U of A's law school faculty.

Fayetteville is routinely considered among the country’s finest college towns, and the area is regularly ranked as one of the best places in the United States to live, raise a family, work, play and retire. A thriving city of 77,000, Fayetteville is located in the hilly northwest corner of the state and has been named one of the top 5 cities in America the last two years by U.S. News & World Report.

Quickly gaining recognition as a nationwide center for arts and culture, the region is home to Crystal Bridges Museum of American Art. This world-class museum features a permanent collection of art spanning five centuries, from the Colonial era to the current day. The collection includes several works considered masterpieces. Crystal Bridges also offers miles of wilderness trails and a unique dining experience. If that's not enough, admission is free. Another major cultural amenity, the Walton Arts Center, is located just two blocks from campus, where Broadway touring shows appear regularly.

Dickson Street, one of the state’s most popular entertainment districts, is also just a short walk from campus. A part of Fayetteville's downtown historic district, Dickson Street offers a variety of restaurants, boutiques, galleries, and clubs unique to the area. Fayetteville’s historic square, College Avenue and the area around the Northwest Arkansas Mall are also great places for shopping and dining. The Fayetteville Farmers’ Market, an area tradition since 1974, was recently named one of “America’s Favorite Farmers’ Markets.”

Nearby Rogers offers the region’s newest open-air shopping experience with many of the nation’s most popular shops and eateries. And Eureka Springs, a Victorian mountain village known as the “Little Switzerland of the Ozarks,” offers more than 100 specialty shops and 70 restaurants about 45 minutes from campus.

Arkansas is a natural wonder of forests, mountains and lakes framed by picturesque rivers and streams. Some of the nation’s best outdoor amenities and most spectacular hiking trails are within a short drive of campus. Devil’s Den State Park is a short distance south of Fayetteville. Beaver Lake is 30 minutes to the northeast. Hawksbill Crag and the Buffalo National River, America’s first National River and one of the few remaining undammed rivers in the lower 48 states, are an hour's drive to the east. The Razorback Greenway, a 36-mile bicycle route, runs from campus north to Bella Vista. Even closer to campus, Fayetteville’s Botanical Garden of the Ozarks offers another outdoor option.

Northwest Arkansas is one of the most economically stable regions in the nation and serves as the base of operations for Walmart, Tyson Foods Inc. and J.B. Hunt Transport Services. Because of their presence, many other corporations have established primary or secondary headquarters in the region. Their close proximity to the U of A campus, along with their executives' and employees' active involvement in university life, offers students and faculty exceptional opportunities for research partnerships, internships, and post-graduation employment.

The Northwest Arkansas Regional Airport has direct flights to most major metropolitan areas, including Atlanta, Chicago, Cincinnati, Charlotte, Dallas, Denver, Houston, Las Vegas, Los Angeles, Minneapolis, San Francisco, New York, Newark and Orlando; and, Fayetteville is within a day's drive of several larger metropolitan areas, including Dallas, Kansas City, Little Rock, Memphis, St. Louis and Tulsa.

Board of Trustees

The trustees of the University of Arkansas System are appointed by the governor of Arkansas to 10-year overlapping terms. The board sets policy for the University of Arkansas as well as other universities, colleges and institutes within the system.

Ben Hyneman, chair

Ben Hyneman of Jonesboro is president of Southern Property & Casualty Insurance Co. He is former commissioner and chair of the Arkansas Soil and Water Conservation Commission. Hyneman is a 1971 graduate of the University of Arkansas. His term expires in 2018.

Mark Waldrip, vice chair

Mark Waldrip of Moro is owner of East Arkansas Seeds Inc. and Armor Seed LLC, companies that develop and sell soybeans, wheat, rice and corn. He also owns and manages Waldrip Farms Inc., a several thousand acre family farm. Waldrip is a 1977 graduate of the University of Arkansas. His term expires in 2020.

Morril Harriman, secretary

Morril Harriman of Little Rock has served as Governor Mike Beebe’s chief of staff since Beebe took office in 2007. Prior to that, Harriman served 16 years in the Arkansas Senate. He earned both his bachelor’s and law degrees from the University of Arkansas. His term expires in 2024.

Kelly Eichler, assistant secretary

Kelly Eichler of Little Rock is the public policy director for Gov. Asa Hutchinson. She previously served as a deputy prosecutor for Pulaski County and on the Arkansas Board of Corrections. She earned a bachelor’s degree from the University of Arkansas and a law degree from the University of Arkansas at Little Rock Bowen School of Law. Her term expires in 2026.

David Pryor

John Goodson

John Goodson of Texarkana is a law partner at Keil & Goodson, P.A. He earned his bachelor’s degree in 1987 and law degree in 1989 from the University of Arkansas. His term expires in 2021.

Stephen Broughton

Dr. Stephen Broughton of Pine Bluff is a staff psychiatrist for the Southeast Arkansas Behavioral Health System. Broughton earned his bachelor’s degree from the University of Arkansas at Pine Bluff and completed his medical education at the University of Arkansas for Medical Sciences. His term expires in 2022.

C.C. "Cliff" Gibson III

C.C. “Cliff” Gibson III of Monticello is founder of Gibson and Keith Law Firm and serves as county attorney for Drew County, Ark. The former president of the Monticello Economic Development Commission, Gibson attended the University of Arkansas at Monticello and earned his Juris Doctor at the UALR Bowen School of Law. His term expires in 2023.

Tommy Boyer

Tommy Boyer of Fayetteville, graduated from the University of Arkansas, Fayetteville in 1964, where he was also an All-American basketball player. He retired from the Eastman Kodak Company in 1989, and founded Micro Images in Amarillo, Texas. Within two years, Micro Images had become the largest Kodak document imaging systems broker and reseller in the United States. Boyer was inducted into the Arkansas Business Hall of Fame in 2013 and the Arkansas Sports Hall of Fame in 2000. His term expires in 2027.

Administrative Officers

System Administration

President, University of Arkansas System — Donald Bobbitt, B.S., Ph.D.

Chancellor and Vice Chancellors

Chancellor, University of Arkansas — Joseph E. Steinmetz, B.S., M.A., Ph.D.

Provost and Executive Vice Chancellor for Academic Affairs — Jim Coleman, B.S., M.S., M.Phil., Ph.D.

Vice Chancellor for Finance and Administration — Timothy J. O’Donnell, B.B.A.

Vice Chancellor for Government and Community Relations — Randy Massanelli, B.S.B.A.

Vice Chancellor for Intercollegiate Athletics — Jeff Long, B.A., M.A.

Vice Chancellor for Student Affairs — Charles F. Robinson II, B.A., M.A., Ph.D.

Vice Chancellor for University Advancement — Mark Power, B.A.

Deans and Vice Provosts

Dean of Honors College — Lynda Coon, B.A., M.A., Ph.D.

Dean of Dale Bumpers College of Agricultural, Food and Life Sciences, interim — Lona Robertson, B.S., M.S., Ed.D.

Dean of Fay Jones School of Architecture and Design — Peter MacKeith, B.A., M.Arch.

Dean of J. William Fulbright College of Arts and Sciences — Todd Shields, B.A., M.A., Ph.D.

Dean of Sam M. Walton College of Business — Matt Waller, B.S., M.S., Ph.D.

Dean of College of Education and Health Professions — Michael T. Miller, B.A., M.S., Ed.D.
Dean of College of Engineering — John English, B.S.E.E., M.S.O.R., Ph.D.

Dean of Graduate School and International Education — Kimberly LaScola Needy, B.S.I.E., M.S.I.E., Ph.D.

Dean of School of Law — Stacy L. Leeds, B.A., M.B.A., LL.M., J.D.

Dean of Students — Melissa Harwood-Rom, B.A., M.F.A., M.S.Ag.E.

Dean of University Libraries — Carolyn Henderson Allen, B.S., M.S.

Dean of Admissions and Vice Provost for Enrollment Services — Suzanne McCray, B.A., M.A., Ph.D.

Vice Provost for Academic Affairs — Terry Martin, B.S.E.E., M.S.E.E., Ph.D.

Vice Provost for Distance Education, interim — Donald Judges, B.A., J.D., Ph.D.

Vice Provost for Diversity — Open

Vice Provost for Faculty Development and Enhancement — Ro Di Brezzo, B.S., M.S., Ph.D.

Vice Provost for Planning — Kathy Van Laningham, B.A., M.A., Ph.D.

Vice Provost for Research and Economic Development — James Rankin, B.S.E.E., M.S.E.E., Ph.D.

University Profile

Vision
By 2021, the University of Arkansas will be recognized as one of the nation’s top public research universities with nationally ranked departments and programs throughout the institution.

Mission
The mission of the University of Arkansas is to provide an internationally competitive education for undergraduate and graduate students in a wide spectrum of disciplines; contribute new knowledge, economic development, basic and applied research and creative activity; and provide service to academic/professional disciplines and society, all aimed at fulfilling its public land-grant mission to serve Arkansas and beyond as a partner, resource, and catalyst.

History
Founded as a land-grant college and state university in 1871, the University of Arkansas opened its doors to students on January 22, 1872. Under the Morrill Land-Grant College Act of 1862, federal land sales provided funds for the new university, which was charged with teaching “agricultural and the mechanic arts,” “scientific and classical studies,” and “military tactics” to Arkansas scholars.

Statewide elections, held to establish bonds to help finance the university, eventually determined the school’s location. Washington County and the city of Fayetteville submitted the highest bid, a total of $130,000, to which was added a $50,000 state appropriation for the benefit of the institution and $135,000 from the sale of federal lands. With $12,000 of this money, the university purchased a 160-acre farm, the homestead of William and Martha McIlroy, and established its campus on a hilltop overlooking the Ozark Mountains.

There were few facilities and little money that first academic year, but the eight students and three faculty members who gathered for classes in 1872 showed the same dedication to learning and commitment to excellence that has carried the University of Arkansas into the 21st century. Over the past 140 years, the university has developed into a mature institution with 10 schools and colleges, more than 1,100 full-time faculty members, and more than 26,000 students. It serves as the major provider of graduate-level instruction in Arkansas. The research and scholarly endeavors of its faculty make it an economic and cultural engine for the state. And its public service activities reach every county in Arkansas, throughout the nation, and around the world. Find out more about the university’s history (http://www.uark.edu/about/history.php) or browse our timeline (http://uark.edu/about/time-line.php).

Today at the University of Arkansas Campus
Students pursue a broad spectrum of academic programs leading to baccalaureate, master’s, doctoral, and professional degrees, not only in traditional disciplines within arts, humanities, social sciences, and natural sciences, but also in the core professional areas of agricultural, food and life sciences; architecture; business; education; engineering; nursing; human environmental sciences; and law.

The University of Arkansas houses more than 200 academic programs and offers bachelor’s degrees in 75 areas of study. Students may also pursue a wide range of graduate degrees, including the Master’s, the Educational Specialist, the Doctor of Education, and the Doctor of Philosophy.

The Carnegie Foundation categorizes the University of Arkansas as a research institution with “very high research activity,” placing the university among the top 2 percent of universities nationwide and in a class by itself within the state of Arkansas. U.S. News and World Report consistently ranks the university among the top tier of institutions of higher education. Faculty members perform cutting-edge research for which they annually win prestigious grants and awards, and the university encourages undergraduates to participate in the research process. Such opportunities enhance the learning process by providing hands-on experience in lab and research techniques, by developing students’ abilities to implement, experiment, discover and teach, and by fostering a mentoring relationship early in students’ academic careers.

Research programs involving both faculty and students serve as vital sources of information on the economic and social needs of Arkansas. In many fields, research performed at the University of Arkansas reaches beyond the state to provide insight and guidance on issues of national and international concern. The university provides extensive technical and professional services to varied groups and individuals throughout the state, helping to further Arkansas’ economic growth. The university operates nationally respected self-paced (correspondence) courses; it assists other institutions in developing educational programs; it offers graduate programs, both cooperatively and singly, throughout the state; and it makes specialized campus resources such as computing services and library holdings available to other institutions in the state.

Classes at the university maintain a low average ratio of students to instructor, although individual classes may range from a large general-lecture class of 200 to a focused special-topics class of 4 or 5 students. University of Arkansas students are given the tools and encouragement needed to excel. Over the last 15 years, more than 200 undergraduate Arkansas students have become Rhodes, Gates Millennium, Madison, Marshall, Goldwater, Fulbright, Boren, Gilman and Truman scholars. More
than 100 graduate students have received National Science Foundation Graduate Research Fellowships. Find out more about the university’s numbers (http://www.uark.edu/about/by-the-numbers.php).

**Academic Resources and Facilities**

The University of Arkansas provides a variety of resources for students to enhance their ability to attend college, improve their studies in class, and aid their academic research as they advance through their curricula.

The programs and services listed at left provide advice, tools and inspiration for high school students; individual tutoring for students on campus and infrastructure such as libraries and technology support that offer University of Arkansas students ongoing support throughout their college careers.

**Center for Learning and Student Success**

The Center for Learning and Student Success is designed to provide assistance to all University of Arkansas students in meeting their academic goals. The center’s goal is for every University of Arkansas student who needs or wants academic assistance to participate in the programs and services of the center without hesitation or barrier.

Over 10,000 students took advantage of the center’s programs last year including:

- Tutoring in a variety of subjects (math, the sciences, world languages, business, economics, and other courses taught throughout the university);
- Writing Support;
- Supplemental Instruction in the sciences, economics, accounting, and data analysis;
- Academic Coaching;
- Self-help resources dealing with study skills, time management, test taking, anxiety reduction, and effective learning strategies;
- Study areas and access to state-of-the art computers.

The center partners with University Housing, Mullins Library, Mechanical Engineering, Sam M. Walton College of Business and the Multicultural Center to provide unique tutoring and other assistance to students in a variety of locations and formats. For all services or to make an appointment for tutoring, see class.uark.edu.

The center’s primary location is in Gregson Hall. The majority of CLASS+ SI, tutoring and writing support is available from 9 a.m. to 9 p.m. Mondays through Thursdays, and from 9 a.m. to 3 p.m. Fridays. Tutoring is also available on Sunday afternoons in the Multicultural Center (Arkansas Union) and Mullins Library.

Contact CLASS+ by phone at 479-575-2885 or visit class.uark.edu.

**Center for Multicultural and Diversity Education**

The Center for Multicultural and Diversity Education provides academic, cultural and social programs intended to promote inclusiveness, foster achievement and assist in the development and advancement of a diverse student body.

The center is located on the fourth floor of the Arkansas Union in Room 404, and can be contacted at 479-575-8405 or by visiting multicultural.uark.edu.

**Information Technology Services**

At the University of Arkansas, you can expect a high level of IT support.

Essential technology services hosted by IT Services include email, the campus network, Wi-Fi, technical support, computer labs, printing and the online student information system (UAConnect). New or returning students can use the Get Started Tech Selector (http://its.uark.edu/tech-selector/get-started.html) to learn about online services and UARK account activation.

The secure Wi-Fi network (http://its.uark.edu/internet/wireless) requires a UARK username and password and provides full Internet access, while the UARK Guest Wi-Fi network provides limited access using any email address. The eduroam Wi-Fi network provides access to visitors from participating institutions and is available to UARK users when traveling to participating institutions.

UARK Gmail at email.uark.edu is the official email service for students and can be set up to work with various email apps and mobile devices. Students can visit the About Student Email (http://its.uark.edu/email/gmail) page for information on UARK Gmail features and instructions for setting up email on a mobile device. The official email service for faculty and staff is Microsoft Exchange (http://its.uark.edu/email/exchange).

General Access Computing Labs (GACLs) offer Windows and Mac computers for use by students, faculty and staff. GACL locations and hours of operation are available on the Computer Labs (http://its.uark.edu/labs) page. PrintSmart provides a student printing quota equivalent to 700 single-sided black and white pages per student per semester. Printing is available in GACLs and at QuickPrint stations around campus.

The Student Technology Center (http://its.uark.edu/labs/student-tech-center) offers high-end single and multi-user online gaming computers and multimedia hardware and software. Laptops, cameras and other digital equipment are available for checkout from the center. Equipment, recording studios and a team room can also be reserved in advance. The Arkansas Union computer lab also has a team room and a quiet room available for reservation.

The IT Help Desk (http://its.uark.edu/help/help-desk) provides technical support to students, faculty and staff over the phone at 479-575-2905 or online at AskIT.uark.edu. Technical support is also available in person at the Arkansas Union, Administrative Services Building and J.B. Hunt building during regular business hours.

**Reasonable Accommodation for Students with Disabilities**

The Center for Educational Access (CEA), 209 Arkansas Union, is the central campus resource for students who require reasonable accommodations in order to access the programs, services and activities offered through the University. CEA staff work in partnership with the individual student to communicate and facilitate any accommodation needs to faculty and staff. Accommodation determination is based in part on medical or psychological documentation provided to the CEA by the student. Students must meet with one of the CEA staff for an access plan meeting to discuss their needs and provide such documentation before any accommodations can be granted.
To register for services or for more information, contact the Center for Educational Access, University of Arkansas, 209 ARKU, Fayetteville, AR 72701, phone 479-575-3104 ; e-mail: ada@uark.edu; Web: Center for Educational Access (http://cea.uark.edu) (online request for services available).

Student Support Services

The department of Student Support Services is designed to provide a powerful combination of programs and services to students who are first-generation, and/or modest-income, and/or individuals with disabilities. The services provided by Student Support Services place an emphasis on individual assessment, counseling, advising, and skill building. Some of these services include: academic/financial/personal counseling, financial scholarships, social etiquette instruction, career and graduate school preparation, academic/cultural enrichment, assistance with tutoring, and mentorship. The overarching goal of the University of Arkansas Student Support Services program is to empower students, assist them in achieving academic excellence, and seeing them through to graduation.

Student Support Services is a department in the Division of Student Affairs. The office is located on the Garden Level of Gregson Hall. For more details, call Student Support Services at 479-575-3546 or visit the Student Support Services website (http://sss.uark.edu).

Talent Search Programs

College Project Talent Search, Educational Talent Search, and University Access Talent Search

College Project, University Access and Educational Talent Search are early-intervention college preparatory projects. Serving more than 2,200 students in grades 6-12, the programs promote skills and information necessary for successfully completing a baccalaureate degree. With a developmental curriculum, staff prepare students to meet their college goals by emphasizing leadership and career development, technological and academic skills, ACT readiness/payment assistance, college preparatory workshops, financial aid and scholarship information, financial literacy, and support for completing a rigorous high school curriculum. Academic monitoring and advising are ongoing to guide and facilitate student progress.

Talent Search services are provided at participating schools on an outreach basis, while summer enrichment and campus-based events provide opportunities for institutional engagement. The programs are under the federal umbrella of “TRIO” and are grant-funded by the U.S. Department of Education. Eligibility requirements include but are not limited to having first-generation/low income status, exhibiting academic potential, and attending one of the 37 target schools served. For additional information, visit the Talent Search website (http://talentsearch.uark.edu).

Offices for the Talent Search program are at the university's Uptown Campus East, 1083 E. Sain Street, UPTE 128, Fayetteville, Arkansas. Call 479-575-3553 for more information.

Testing Services

Testing Services is charged with the responsibility of administering standardized academic tests at the University of Arkansas. The office administers such national tests as:

- the ACT Assessment
- the Law School Admission Test (LSAT)
- the Graduate Management Admission Test (GMAT)
- the Graduate Record Examination (GRE)
- the CLEP exams in addition to others throughout the year.

National testing companies determine testing dates and deadlines. Testing Services also offers a number of institutional tests such as the Test of English as a Foreign Language (TOEFL) and the Spoken Language Proficiency Test (SLPT). These tests are scheduled at various times as demand dictates. Test fees vary depending on the test.

To obtain a registration bulletin or information about exam dates and deadlines, please stop by the Testing Center at 1435 W. Walton St., Fayetteville, or call 479-575-3948.

University Libraries

The library system of the University of Arkansas, Fayetteville, includes the David W. Mullins Library, the main research facility on campus, and four branch libraries:

- The Robert A. and Vivian Young Law Library (http://law.uark.edu/library)
- The Fine Arts Library (http://libinfo.uark.edu/FAL)
- The Chemistry and Biochemistry Library (http://libinfo.uark.edu/chemistry)
- The Physics Library (http://libinfo.uark.edu/physics)

The spacious Helen Robson Walton Reading Room is Mullins Library’s most popular quiet study area, but group study space and graduate student study space is also available. More than 200 databases and thousands of electronic journals are accessible from anywhere with a University ID. Librarians onsite assist in locating and using library resources, or students may send questions by email, phone, or 24/7 chat.

Subject librarians (http://libinfo.uark.edu/info/specialists.asp) are also available for one-on-one research consultations tailored to individual research questions, whether onsite, over the phone, or even remotely by video software. Librarians conduct orientation sessions on research methods and software throughout the semester and the Quality Writing Center (http://qwc.uark.edu) has a satellite location inside Mullins Library.

With 2.1 million volumes and more than 56,000 journal titles, students will find research material for every subject. Other resources in the collections include several thousand maps, manuscripts, and more than 33,000 audio and visual materials, including music scores, recordings, and movies, available through the Performing Arts and Media (http://libraries.uark.edu/AV/default.asp) Department on the lower-level of Mullins Library.

A full-service computer commons (GACL) is located on the lobby level of Mullins, complete with printing stations and state-of-the-art scanners. Laptops and iPads are available to check-out to take advantage of wireless access anywhere in the library. Visit the University Libraries website (http://libinfo.uark.edu) to learn more about services and collections, or access My Library (https://library.uark.edu/patroninfo~S1) to check accounts, renew books, request holds, or save catalog searches.

Items not owned by the University Libraries may be obtained through Interlibrary Loan (http://libinfo.uark.edu/ill/default.asp). Requested items in electronic format will be sent directly to desktops, usually within 24 hours; physical items are held for pickup at the main service desk on the Lobby Level. The University Libraries have had official status as a United States government depository since 1907, and the Government
Documents Department has been a depository for Arkansas state publications since 1993. The University Libraries’ map collection and GIS (http://libinfo.uark.edu/GIS/default.asp) (geographic information systems) program, including a public GIS workstation equipped with ArcGIS Desktop Suite, are also available.

In Special Collections, students can read rare books from around the world; consult the largest book collection related to Arkansas; handle historic letters, diaries, magazines, and old photographs in the archives; and watch old black and white films made in or about the state. A number of digital collections and exhibits (http://libinfo.uark.edu/eresources/digitalcollections.asp) are available through the Special Collections website (http://libinfo.uark.edu/SpecialCollections). Special Collections also holds the University Archives, the Arkansas Collection, and the Arkansas Architectural Archives.

To stay up-to-date on the Libraries’ programs, resources, and events, follow @UARKLibraries on Facebook, Twitter, Instagram, and Pinterest. For information concerning collections and services, please inquire at 479-575-4104 or refer@uark.edu. For any other questions, please contact the Dean’s Office at 479-575-6702.

Upward Bound Programs

Upward Bound (http://ub.uark.edu) and Upward Bound Math and Science are early intervention programs that help low-income and potential first-generation college students prepare for higher education. These programs bring high school students in grades 9 – 12 to the University of Arkansas campus on weekends and during the summer to receive instruction in mathematics, laboratory sciences, composition, literature, and foreign languages. The programs also provide academic and social support through tutoring, counseling, mentoring, cultural enrichment, financial literacy, field trips, college planning, and financial aid assistance. For students just completing their senior year of high school, Upward Bound provides a summer residential bridge program that enables participants to earn up to six hours of college credit. Funding is provided through grants from the U.S. Department of Education.

Veterans Upward Bound

Veterans Upward Bound (http://vub.uark.edu) is designed to identify and serve the unique needs of veterans who have the academic potential and desire to enter and succeed in a program of higher education. Eligible veterans must have completed a minimum of 180 days of active duty in the military or Coast Guard and hold any discharge other than dishonorable. Services include tutoring; guidance counseling; assistance in filing financial aid and VA benefit forms; academic/career advisement; test preparation for entrance exams; and courses in English, Spanish, math, science, and computer technology. Courses are offered days and evenings each semester. Funding is provided through a grant from the U.S. Department of Education. Call 479-575-2442 for more information.

The Upward Bound and Veterans Upward Bound offices are located at the university’s Uptown Campus West, 1001 E. Sain Ave., Fayetteville.

Online Education

Academic colleges and schools at the University of Arkansas provide flexible learning options through distance education and online learning options for undergraduate and graduate students. Traditional online courses, self-paced online (correspondence) courses, and online degree programs remove the barriers of time and distance. Support units provide the web-based resources and services necessary for distance and online students to reach their educational and professional goals.

Global Campus

The Global Campus (http://globalcampus.uark.edu), School of Continuing Education and Academic Outreach, serves as a portal for online, distance and professional education programs and courses provided by the University of Arkansas. Experienced staff members collaborate with the university’s academic colleges and other academic units to develop and facilitate quality courses and programs that help students reach educational and professional goals.

State Authorization and Distance Education Beyond Arkansas

The University of Arkansas, Fayetteville delivers online education programs and courses throughout the United States and internationally. All programs have been approved by the Arkansas Department of Higher Education. Many states have prescribed an “authorization” process for out-of-state institutions delivering online programs to its state residents to ensure quality post-secondary education, to preserve the integrity of an academic degree and to instill greater consumer protection for its student citizens.

Authorization (sometimes referred to as “registration,” “licensure,” “approval,” etc.) indicates that certain minimum standards have been met by the institution under the laws and regulations of that state. Authorization does not constitute an endorsement of any institution, course or degree program. Credits earned at an institution may not transfer to all other institutions.

The University of Arkansas, Fayetteville, through the Global Campus, has taken steps to protect its students and operations through nationwide compliance and has been granted authorizations, exemptions and waivers from many states. In other states, the University of Arkansas, Fayetteville can operate without such authorization because the state’s laws do not pertain to a public institution, to an accredited institution or to the University of Arkansas activities in that state. More specific information about state authorization can be found at the University of Arkansas Online Web page (http://online.uark.edu/about/state-authorization.html). The Global Campus supports the university’s development and delivery of online and distance education.

Student Affairs

Vision Statement

The University of Arkansas Division of Student Affairs engages students to develop their strengths, inspiring leadership for a global society.

Mission Statement

The University of Arkansas Division of Student Affairs strengthens students for success.

Values

The University of Arkansas Division of Student Affairs values inclusion, service, inquiry, partnership, and excellence:

Inclusion: We embrace the uniqueness of individuals and engage every member of our diverse community.
Service: We connect students to resources, opportunities, and experiences transforming them into active, engaged citizens of a global society.

Inquiry: We engage ourselves and our students in the acquisition, application, and creation of knowledge for lifelong learning.

Partnership: We explore and welcome opportunities to collaborate with our students, colleagues, and members of our global community.

Excellence: We apply our varied talents and strengths with integrity to providing exceptional service to our students.

Strategic Goals
To achieve this Mission the University of Arkansas Division of Student Affairs will:

• Foster the ongoing development of an inclusive community.
• Enhance students learning through effective programs and services.
• Advocate rights and responsibilities through service to students and collaboration with partners.
• Steward all of the division’s resources responsibly.
• Communicate and collaborate effectively.

The Vice Chancellor for Student Affairs administers the departments of the Division of Student Affairs and provides leadership in the development of programs and services that supplement the classroom experience of students and enrich the quality of campus life. The Vice Chancellor serves as a liaison to other administrative offices, faculty, and student governing groups. The office is a central source of information concerning University policies and procedures affecting student life and co-curricular programs and services.

The Office of the Vice Chancellor for Student Affairs and the Office of the Dean of Students emphasize student advocacy while broadening the development of services and programs that address a range of student and campus needs. Departments in the Division of Student Affairs are dedicated to developing exceptional programs and services that enhance the University of Arkansas experience and enrich the quality of student and campus life. Staff members are available and willing to assist with any problem or question a student, staff, or faculty member may have regarding student and campus life at the University of Arkansas. The office is available for the clarification of university policies and procedures, confidential consultation, formal academic grievances, personal and family crisis assistance for students, and referral to all campus and community services. The office also seeks to assist students and faculty members in cases of emergency or extenuating circumstances. Staff members are firmly committed to addressing the challenges and individual needs of the University of Arkansas family.

Arkansas Union
The Arkansas Union is the community center of campus; serving students, faculty, staff, alumni, and guests. Through its facilities, programs, and services, the Arkansas Union is the place to build relationships, enrich academics, and experience campus life to the fullest. But more importantly, the Student Union plays a pivotal role in putting University of Arkansas students first. It is home to essential student needs, such as food service, computer technology, student accounts, banking, and the Campus Card Office. The Arkansas Union provides social and educational programming space, as well as lounge and study areas. Additionally, recreational opportunities are available in the Student Union, through the satellite fitness center, cinema, and Student Technology Center. Located inside the Arkansas Union are:

Retail Outlets
• ATMs (various banks)
• Au Bon Pain
• Catering and Dining Services
• Club Red Convenience Store
• Freshens
• Passport Office
• PMC - Drop-Off Copy Center
• Razorback Shop
• U.S. Post Office
• Union Hair Care

Union Market
• The Wok
• The Diner
• Papa John's®
• Burger King®
• Chick-Fil-A® Express
• Flying Burrito
• Mondo Subs
• Au Bon Pain Soups & Garden Emporium Salads

Facilities
• Anne Kittrell Art Gallery
• Computer lab
• Verizon Ballroom
• International Connections Lounge
• Student Technology Center
• Meeting rooms

• Union Theatre
• University Recreation Fitness Center
• UP Theater

Student Services
• Academic Initiatives and Integrity
• Arkansas Union Administration/Event Services
• Associated Student Government
• Campus Card Office
• Career Development Center
• Center for Community Engagement
• Center for Educational Access
• Multicultural Center
• New Student and Family Programs
• Off Campus Connections
• Student Activities
• Treasurer’s Office and Student Accounts
• University Productions
Campus Life
Center for Community Engagement

The purpose of the Center for Community Engagement is to promote civic engagement and leadership by connecting University of Arkansas students, faculty, and staff with nonprofit organizations in the Northwest Arkansas area and beyond.

In order to serve this purpose, the center maintains uark.givepulse.com (http://volunteer.uark.edu), which enables the University of Arkansas community to search for agencies and volunteer opportunities. It allows users to log volunteer hours, or “impacts,” and earn opportunities for community recognition, such as the Presidential Volunteer Service Award and Chancellor’s Community Service Award. Northwest Arkansas agencies and University of Arkansas registered student organizations also utilize the site to post service opportunities and recruit volunteers. Over 350 organizations and subgroups are registered on the site, such as Habitat for Humanity, Uark Cardinal Nights, and Potter’s House Thrift.

Volunteer Action Center

The Center for Community Engagement also houses the Volunteer Action Center, a student-led volunteer coordination board with 45 members who are dedicated to active service in the community. Each year the Volunteer Action Center provides meaningful service opportunities through events and ongoing projects that engage the university and Northwest Arkansas communities. The Volunteer Action Center sponsors programs and events, including the Jane B. Gearhart Full Circle Food Pantry, Make a Difference Day, Dream B.I.G. (Believing in Girls) Mentoring Program, VAC Literacy Program, and Razorback Food Recovery. The Jane B. Gearhart Full Circle Campus Food Pantry is a nationally recognized program; the pantry serves students, staff, and their families. Requests and more information can be found at fullcircle.uark.edu.

Get involved in the following ways:

• Drop by the Center for Community Engagement, Arkansas Union, Room A643, and chat with the office’s great staff and students.
• Look for service opportunities on uark.givepulse.com (http://volunteer.uark.edu) and log your hours. Just ten hours makes you a VAC member.
• Participate in events hosted by Volunteer Action Center and the Center for Community Engagement throughout the year.
• Become a Volunteer Action Center board member or weekly program volunteer. Applications are accepted each semester.

Greek Life

The Charles and Cappy Whiteside Greek Life Leadership Center facilitates the educational process and provides resources related to programs that strengthen the growth and development of students affiliated with fraternities and sororities on campus. The overall mission is to strengthen the academic, cultural, moral, and social development of students in Greek organizations; provide training in strengths-based leadership and other personal and social skills; promote involvement in extracurricular activities and community service projects; and promote Greek Life as a productive and viable lifestyle on campus. The Greek Life Leadership Center coordinates programs such as Recruitment, Greek Getaway, Greek Life Facilitators, and Greek Summit in collaboration with the Interfraternity Council, the National Pan-Hellenic Council, the Panhellenic Council, and the United Greek Council.
• **Governing** – An organization whose primary purpose is to serve as a governing body for a large or specific constituency of students.

• **Greek** – An organization with Greek letters who is a member of the National Inter-Fraternity Council, the Pan-Hellenic Council, National Pan-Hellenic Council, or the United Greek Council.

• **Honorary/Service** – An organization that requires a minimum grade point average as a prerequisite to membership and/or is affiliated with a national service or honorary organization.

• **International/Cultural** – An organization whose primary purpose is to provide a forum in which participants create awareness for a specific culture through educational, social, and recreational activities.

• **Professional** – An organization whose primary purpose is to provide a forum for participants to discuss and develop professional careers and/or is affiliated with a national or regional association.

• **Religious** – An organization whose primary purpose is to provide information and activities associated with one or more religions.

• **Special Interest** – An organization whose primary purpose is to provide an organized format for the practice and/or pursuit of a special or common interest.

**Associated Student Government**
The Associated Student Government (ASG) provides important services to the university community and is an integral part of the shared campus governance system. Associated Student Government is a student-led organization that enables students to have an active voice in the decisions and policy that directly affect all students at the University of Arkansas. Students involved in Associated Student Government have the opportunity to positively impact the quality of student life, work with and allocate student fees, provide a voice for student concerns as well as oversee programs and policies for all students. Through the executive, legislative, financial, and judicial branches of student government, as well as through the Freshmen Leadership Forum Program, students have the opportunity to work for and among their peers to make a difference on all levels of the university. Involvement levels and time commitment vary upon duties. Visit the student government website at asg.uark.edu or the Associated Student Government office (Arkansas Union A669) to find out more.

**University Programs**
University Programs is a volunteer student organization responsible for planning and coordinating more than 100 events annually for the campus community. University Programs provides students with cultural and educational experiences, entertainment, and fun. Seven committees, all made up of students, select, schedule and produce events such as concerts, movies, lectures, fine arts performances, gallery exhibitions, and daytime programs. Being a part of University Programs gives the student committee members leadership training and real opportunities to gain practical planning experience. Supported by a student activity fee, University Programs events are free to students. For further information, visit the University Programs website at up.uark.edu.

**Career Development Center**
The University Career Development Center educates and empowers students to fulfill their career goals. Students can take advantage of the center’s valuable resources:

**Career Advising:** Career Counselors in the CDC are available to assist students who may need help selecting a college major, seeking career information, researching or exploring careers, preparing for their job search, or considering graduate school.

**Career and Strength-Awareness Assessments:** The STRONG Interest Assessment, FOCUS 2 and TypeFocus are career assessments that can help students make career decisions based on their interests and values. StrengthsQuest is an assessment which helps individuals discover their talents and strengths. After discovering their talents, the Career Center assists students in learning how to use their talents to achieve academic, career, and personal success.

**Career Fairs:** In partnership with academic areas on campus, the CDC hosts a number of career fairs each year to provide opportunities for students to connect with employers and to learn more about companies and organizations. These connections could lead to valuable internships or full-time employment.

**Job Search Preparation:** The CDC offers resume critiques, interview skills training, mock interviews, networking opportunities, career presentations and several professional development events throughout the academic year to prepare students for internships, co-ops or full-time jobs.

**Cooperative Education Opportunities:** Cooperative Education is a program that enables students to gain professional work experience in paid, degree-related positions. Co-op students earn credit, a competitive wage and valuable “real world” work experience.

**Internet Job Search Resources:** Through the CDC’s website, students are able to access a number of job search sites, including Razorback CareerLink. These resources enable University of Arkansas students to apply for jobs online and to sign up for on-campus interviews.

**Professional Development Institute:** This nationally recognized program creates opportunities for UA students to develop professional career-building skills. Participation in this program can help students gain the valuable skills which give them the competitive advantage in their job or graduate school search.

For more information, check out career.uark.edu.

The University Career Development Center is conveniently located in Arkansas Union Room 607, or call 479-575-2805.

**Health and Wellness Center**
The Pat Walker Health Center supports the University of Arkansas campus community on their way to wellness. The health center provides professional and comprehensive medical and mental health care, wellness support and health promotion for students, faculty, and staff.

The university strongly recommends all students maintain health insurance. A student health insurance policy is available to all students, student spouses and dependent children. Students may enroll in this plan at the Pat Walker Health Center or at health.uark.edu.

With a diverse range of programs and services, the Pat Walker Health Center offers the university community an easy, convenient and affordable approach to health and wellness.

**Medical Care**
The Pat Walker Health Center offers a variety of medical services provided by board-certified physicians and advanced nurse practitioners. The campus community has access to the following clinics:
• The Primary Care Clinic offers illness and injury diagnosis and treatment, laboratory services, minor surgery, nurse triage, nutrition consultations, orthopedic consultations and X-ray.

• RazorCARE Clinic is an easy and convenient walk-in clinic that provides quick diagnosis and treatment of minor illnesses, with no appointment necessary. RazorCARE Clinic generally sees patients with ears, eyes, nose, mouth and skin symptoms.

• The Allergy, Immunization, and Travel Clinic offers allergy desensitization, immunizations, international travel consultations and tuberculosis screenings.

• The Women’s Clinic provides comprehensive gynecological services with sensitivity to the unique needs of female clients.

Mental Health

Counseling and Psychological Services (CAPS) works with the university community to help develop and improve mental well-being. Fully accredited by the International Association of Counseling Services, CAPS addresses common mental health issues that impact students such as anxiety, depression and stress.

Staffed with licensed psychologists, counselors and social workers, CAPS offers a variety of services including counseling, group therapy, mental health crisis intervention and psychiatry.

To access CAPS services or 24-hour emergency services, call 479-575-5276.

Wellness and Health Promotion

The department of Wellness and Health Promotion inspires, motivates, and supports student wellness and well-being through a variety of academic courses, outreach presentations and events, peer education and wellness coaching.

Based on a holistic approach to wellness, Wellness and Health Promotion helps the university community maximize their potential across eight essential elements of health and well-being – physical, mental, emotional, social, spiritual, occupational, environmental and financial. Using the principles of resilience and thriving, the university community has access to many engaging and interactive wellness programs and services.

Accreditation

The Pat Walker Health Center is accredited by Accreditation Association for Ambulatory Health Care.

The center is located at 525 N. Garland Ave. If you have questions about specific services, call 479-575-4451; TTY 479-575-4124. Visit us online at health.uark.edu.

Housing and Dining

University Housing

University Housing is committed to providing a safe, comfortable, convenient, and reasonably priced living and learning environment that promotes student success.

Success on Campus

National research shows that academic success in the first year and beyond is directly linked to residing in an on-campus residence environment. The University of Arkansas recognizes the benefits that students receive from living on campus their first year.

Freshman Residency Requirement

All single students who are admitted to the university with a freshman classification and under 21 years of age are required to live on campus in a residence hall, or in their parent or legal guardian’s permanent home.

Students who are admitted to the University of Arkansas as transfer students from another post-secondary institution, and who have completed at least 24 credit hours at that institution are not required to live on campus.

Requests for a newly admitted freshmen to live somewhere other than with parents or a legal guardian in their permanent home will not be approved under most circumstances.

Students planning to live with their parents or legal guardian in their permanent home should complete the Living with Parent Notification form (http://housing.uark.edu/Forms) prior to attending an orientation session.

Students requesting an exemption from the University of Arkansas Freshmen Residency Requirement (http://housing.uark.edu/Forms) should send all required paperwork to University Housing at least three weeks prior to attending an orientation session. This ensures the student receives approval or denial prior to attending orientation.

Failure to do so could cause long delays in the orientation process. Students who need a Living with Parent Notification Form or who wish to apply for an exemption to the university’s requirement for single freshmen to live on campus may refer to the information on the Housing website (http://housing.uark.edu/Contracting/contracts.php).

Residence Hall Leadership

Residence Halls are managed by a full-time coordinator for residence education, or CRE, who has completed a master’s degree program in higher education, counseling or a related degree. This individual is selected for his or her academic credentials and interest in helping others as well as his or her ability to work well with college students.

In addition, every area or floor is staffed by a resident assistant, or RA, who is an upper-class student with the knowledge to answer students’ questions and help students find their own answers.

Counselors in residence (doctoral graduate assistants) provide short-term counseling for students living in the residence halls in response to personal, social, academic, and developmental needs.

Living Learning Communities

University Housing offers several innovative Living Learning Communities (http://housing.uark.edu/Residence_Education/Living_Learning), or LLCs, for students. These communities enhance student’s academic success.

In an LLC, students get to live with peers who have similar interests, majors, or career plans. Living Learning Communities do not cost extra. LCC members have the opportunity to participate in fun experiences that connect learning in and out of the classroom.

Some of the initiatives include faculty-led events, major specific academic learning teams, more general thematic learning communities and other programs that assist students in their academic endeavors.

Living Facility Options

Living options include traditional halls, suites and apartments with designations of single-gender or co-ed. Rooms are available for visually or
hearing-impaired students as well as those who are physically challenged (http://housing.uark.edu/disability-accommodation.php).

Residence hall entry/exit doors are secured and/or monitored 24 hours a day. Some entries are unlocked to accommodate offices housed in our facilities and classes that are held in our classrooms. Most, but not all, of these areas have interior doors that secure the living floors.

Residents are provided access via an electronic access system. Students should be careful not to allow non-residents to follow them into their residence hall. Residents are provided access via a fob issued when they check-in. Students are responsible for escorting all visitors and guests at all times.

**Campus Dining**

Each of the three separate dining facilities (http://housing.uark.edu/campus_communities/dining_rates.php) on campus is managed by Campus Dining Services and provides a natural setting for socializing with friends and enjoying a wide variety of high quality, nutritious meals. All students living in a residence hall, except those residing in summer school housing, are required to have a meal plan. There are several meal plans available to meet the needs of both on-campus and off-campus students.

Learn more about Campus Dining Services online at campus dining services (http://dineoncampus.com/razorbacks).

**Inclusion and Leadership**

**Center for Multicultural and Diversity Education**

The Center for Multicultural and Diversity Education provides academic, cultural and social programs intended to promote inclusiveness, foster achievement and assist in the development and advancement of a diverse student body.

The center is located on the fourth floor of the Arkansas Union in Room 404, and can be contacted at 479-575-8405 or by visiting multicultural.uark.edu.

**Student Support Services**

The department of Student Support Services is designed to provide a powerful combination of programs and services to students who are first-generation, and/or modest-income, and/or individuals with disabilities. The services provided by Student Support Services place an emphasis on individual assessment, counseling, advising, and skill building. Some of these services include: academic/financial/personal counseling, financial scholarships, social etiquette instruction, career and graduate school preparation, academic/cultural enrichment, assistance with tutoring, and mentorship. The overarching goal of the Center for Multicultural and Diversity Education Student Support Services program is to empower students, assist them in achieving academic excellence, and seeing them through to graduation.

Student Support Services is a department in the Division of Student Affairs. The office is located on the Garden Level of Gregson Hall. For more details, call Student Support Services at 479-575-3546 or visit the Student Support Services website (http://sss.uark.edu).

**Talent Search**

College Project, University Access and Educational Talent Search are early-intervention college preparatory projects. Serving more than 2,200 students in grades 6-12, the programs promote skills and information necessary for successfully completing a baccalaureate degree. With a developmental curriculum, staff prepare students to meet their college goals by emphasizing leadership and career development, technological and academic skills, ACT readiness/payment assistance, college preparatory workshops, financial aid and scholarship information, financial literacy, and support for completing a rigorous high school curriculum.

Academic monitoring and advising are ongoing to guide and facilitate student progress.

Talent Search services are provided at participating schools on an outreach basis, while summer enrichment and campus-based events provide opportunities for institutional engagement. The programs are under the federal umbrella of “TRIO” and are grant-funded by the U.S. Department of Education. Eligibility requirements include but are not limited to having first-generation/low income status, exhibiting academic potential, and attending one of the 37 target schools served. For additional information, visit the Talent Search website (http://talentsearch.uark.edu).

Offices for the Talent Search program are at the university’s Uptown Campus East, 1083 E. Sain Street, UPTE 128, Fayetteville, Arkansas. Call 479-575-3553 for more information.

**Upward Bound**

**Upward Bound and Upward Bound Math and Science**

Upward Bound (http://ub.uark.edu) and Upward Bound Math and Science are early intervention programs that help low-income and potential first-generation college students prepare for higher education. These programs bring high school students in grades 9 – 12 to the University of Arkansas campus on weekends and during the summer to receive instruction in mathematics, laboratory sciences, composition, literature, and foreign languages. The programs also provide academic and social support through tutoring, counseling, mentoring, cultural enrichment, financial literacy, field trips, college planning, and financial aid assistance. For students just completing their senior year of high school, Upward Bound provides a summer residential bridge program that enables participants to earn up to six hours of college credit. Funding is provided through grants from the U.S. Department of Education.

**Veterans Upward Bound**

Veterans Upward Bound (http://vub.uark.edu) is designed to identify and serve the unique needs of veterans who have the academic potential and desire to enter and succeed in a program of higher education. Eligible veterans must have completed a minimum of 180 days of active duty in the military or Coast Guard and hold any discharge other than dishonorable. Services include tutoring; guidance counseling; assistance in filing financial aid and VA benefit forms; academic/career advisement; test preparation for entrance exams; and courses in English, Spanish, math, science, and computer technology. Courses are offered days and evenings each semester. Funding is provided through a grant from the U.S. Department of Education. Call 479-575-2442 for more information.

The Upward Bound and Veterans Upward Bound offices are located at the university’s Uptown Campus West, 1001 E. Sain Ave., Fayetteville.

**Student Life**

**Reasonable Accommodations for Students with Disabilities**

The Center for Educational Access (CEA), 209 Arkansas Union, is the central campus resource for students who require reasonable accommodations in order to access the programs, services and activities offered through the University. CEA staff work in partnership with the
individual student to communicate and facilitate any accommodation needs to faculty and staff. Accommodation determination is based in part on medical or psychological documentation provided to the CEA by the student. Students must meet with one of the CEA staff for an access plan meeting to discuss their needs and provide such documentation before any accommodations can be granted.

To register for services or for more information, contact the Center for Educational Access, University of Arkansas, 209 ARKU, Fayetteville, AR 72701, phone 479-575-3104; e-mail: ada@uark.edu; Web: Center for Educational Access (http://cea.uark.edu) (online request for services available).

Off-Campus Student Services

As of May 16, 2016, Off Campus Connections will be known as Off-Campus Student Services. For information, visit the Off-Campus Student Services website (http://occ.uark.edu) or make an appointment to visit with a staff member in Arkansas Union Room 632. Off-Campus Student Services can also be reached by calling 479-575-7351.

Off-Campus Student Services provides friendly and helpful resources, services and programs for off-campus undergraduates with an emphasis in three main areas:

• Freshman Commuter Programs
• Non-Traditional/Adult Learner Support
• Off-Campus Living Education and Services

Off-campus students are defined as undergraduates not living in a residence hall, fraternity, or sorority house. The University of Arkansas has 15,400 undergraduates living off-campus. Some off-campus students live very near the university while others commute from hours away. Some students take advantage of online classes or majors and seldom visit campus.

Freshman Commuters are first-time, full-time, degree-seeking students who live at home with a parent or guardian during their first year of college. Off-Campus Student Services reaches out to approximately 500 freshman commuters each fall to share campus and academic resources, to provide opportunities to meet other cohort members, and to provide mentorship opportunities.

Non-traditional/adult learners are also supported by Off-Campus Student Services. Non-traditional undergraduate students may have children; be married; work full-time; or be older than traditional students. Because their needs are different, various support and recognition programs are in place to encourage those who may have competing interests or other responsibilities in addition to school.

Finding a place to live is a basic need for many students beyond their freshman year. To help meet these needs, a free, housing website, offcampushousing.uark.edu is provided. The properties on the website have expressed a desire for student tenants. Off-Campus Living Fairs and educational resources are also offered to help those who are preparing to live on their own in the community. Off-Campus Meal Plans have also proven important to student success. Meal plans designed to meet students’ needs are available for purchase through Chartwells Campus Dining Services. Having a meal plan encourages students to eat regular meals so they can better focus on academics. Meal plans are charged to a student’s account, so costs may be covered with financial aid awards.

A friendly and comfortable Commuter Lounge with a refrigerator, microwave, television and study tables is located on the Sixth Floor West of the Arkansas Union. Timely tips and information about jobs, deadlines, campus, and community life are shared through a weekly email newsletter. Off-Campus Student Services’ desire is for each student living off-campus to feel an important part of the university, earn a degree, and have their name forever inscribed on Senior Walk.

Office of Student Standards and Conduct

It is the vision of the Office of Student Standards and Conduct to foster a campus community that values citizenship, personal and civic responsibility, peer accountability, and care/concern for the university and surrounding communities.

The mission of the Office of Student Standards and Conduct (OSSC) is to create a safe and inclusive community by upholding the Code of Student Life, which promotes responsibility, accountability, and student learning through;

• Educational opportunities and outreach.
• The adjudication of Code of Student Life violations.
• Providing a consistent, fair, equitable, educational, student conduct process.
• The development of ethics and adherence to personal values.
• Education on the norms and values of the University of Arkansas.

Students who are interested in involvement with the All-University Conduct Board should contact the Director of OSSC at judicial@uark.edu. The All-University Conduct Board comprises faculty, staff, and students and is responsible for the adjudication of cases of alleged student misconduct as outlined in the Code of Student Life. This board is an advanced leadership opportunity for students who would like to gain valuable experience working with faculty and staff on an impartial peer review board.

For more information regarding the Code of Student Life, please see the Student Handbook at handbook.uark.edu. The Office of Student Standards and Conduct is located in Tatum B 110, phone 479-575-5170; Web: ethics.uark.edu.

Veteran Resource and Information Center

The University of Arkansas Veterans Resource and Information Center contributes to the academic and professional success of current and prospective student veterans and their dependents by providing innovative resources and support; assisting with military educational benefits; and by serving as a central “Rally Point” for a seamless collaboration among various departments within the University of Arkansas, the U.S. Department of Veterans Affairs, and the diverse network of community partners supporting veterans.

Veterans and dependents of service members may be eligible to receive monthly educational assistance from the Veterans Administration while enrolled at the University of Arkansas. For more information, including GI Bill eligibility and scholarship opportunities, contact the Veterans Resource and Information Center at vric@uark.edu or 479-575-8742. Students may also visit the center in Arkansas Union Room 603 or online at veteranscenter.uark.edu.

Student Media

The Office of Student Media administers and advises the official student media outlets of the university. These outlets are: the student newspaper, The Arkansas Traveler; the University of Arkansas yearbook, The Razorback; the student magazine, The Hill; the student television station, UATV; and the student radio station, KXUA. All provide a forum for
student expression, entertainment, news and information of interest to the campus community. Other than a small support staff, these groups are entirely staffed by student employees and volunteers, including editors and station managers. For more information, contact Student Media at 479-575-3406.

Centers and Research Units

Research programs are the means by which the university contributes to the generation of knowledge as well as to the preservation and dissemination of it. With nationally recognized programs in many areas and funding from government, industry, and other private sources, the research effort of the university is strong and diversified and provides special learning opportunities for students as discoveries are made.

In addition to the extensive work performed by faculty through individual and team efforts in academic departments, special programs of research are conducted by the university divisions described below.

Graduate students are likely to be involved in research conducted by these research units, but the university encourages undergraduates as well to pursue research in their areas of academic interest. Students who wish to engage in research of any kind should seek the guidance of their advisers and professors to identify research teams and projects. In addition to the extensive work performed by faculty through individual and team efforts in academic departments, special programs of research are conducted by faculty members and staff in many associated university research centers. The university invites students to learn more about these centers and the research opportunities they offer by visiting the websites or by contacting the individuals listed below.

Applied Sustainability Center

Jon Johnson, director
479-575-3556

The Applied Sustainability Center in the Sam M. Walton College of Business has a mission to coordinate research and education efforts across the campus with the aim of meeting current demands without compromising the needs of future generations. Some existing research areas are in agile agriculture, life cycle assessment, and reducing the carbon footprint of commercial products. Sustainability projects are undertaken in collaboration with a broad spectrum of businesses, governmental and not-for-profit organizations and academic partners.

Arkansas Center for Space and Planetary Sciences

Larry Roe, director
Mechanical Engineering Building, 204D
479-575-3750

Arkansas Center for Space and Planetary Sciences website (http://spacecenter.uark.edu)

The Arkansas Center for Space and Planetary Sciences is a research institute of the University of Arkansas, created by faculty from six departments, including Biological Sciences, Chemical Engineering, Chemistry and Biochemistry, Electrical Engineering, Geosciences, Mechanical Engineering, and Physics. Those departments, representing the J. William Fulbright College of Arts and Sciences and the College of Engineering, work closely with the Graduate School and the Honors College.

The center operates world-class research facilities and cutting-edge research projects. It houses the only university-based, large-scale planetary simulation chamber in the country along with major facilities for the analysis of extraterrestrial samples. Major research interests include the analysis of returned samples from space, the nature of Mars, and instrumentation for use in space. The center also operates a number of programs of interest to the university community, grade school teachers and students, and the public.

The space center administers master’s and doctoral degree programs in space and planetary science. These provide a unique integrative interdisciplinary education and research training based on a suite of core courses spread across the departments and specialist courses appropriate to the student’s specific interests. Professional development in communications, ethics and space policy is also included. Such training gives graduates a competitive edge in today’s space and planetary job market.

Additionally, the Departments of Biological Sciences, Geosciences and Physics offer space and planetary science as an option in their own graduate programs. Admission procedures are outlined on the space center Web site along with detailed information about the programs, the research areas, and current research projects.

Arkansas High Performance Computing Center

Rick McMullen, director
479-575-6794

Arkansas High Performance Computing Center website (http://hpc.uark.edu)

The Arkansas High Performance Computing Center is a campuswide provider of supercomputing resources for teaching and research by students and faculty. For nearly a decade, the university has strongly supported high-performance computing as a tool for enabling scientific discovery and making researchers more productive. With support from the university, the National Science Foundation and the state of Arkansas, the center has fielded two Top500 supercomputers and currently offers 4,985 cores, 13.4TB of memory, about 73 TFLOPS CPU peak performance, 93TB of long-term storage, 374TB of scratch storage, and 96TB of backup storage making it among the largest and most capable academic systems in the world. Staff members of the Arkansas High Performance Computing Center support a broad range of research programs in computational condensed matter physics, computational chemistry, nanotechnology and materials science, bioinformatics, astrophysics, and geospatial image analysis. The center also provides education and training in computational science, parallel programming and high-performance computer operations to provide both tools and skills needed in computationally intensive research.

Arkansas Security Research and Education Institute

Jia Di, director
523 J.B. Hunt Transport Services Center for Academic Excellence
479-575-5728
Co-directors: Chase Rainwater, Steve Ricke and Dale Thompson

The University of Arkansas is well-positioned to become a leader in the state and nation in contributing to the research for security solutions and the training of students to become future security workforce. The Arkansas Security Research and Education Institute covers four research thrusts of security: cyber, transportation, critical infrastructure, and food and water. Working closely with local industry, the institute initiates and facilitates multidisciplinary collaborations among departments and colleges, leveraging the research strengths in existing on-campus centers such as the Center for Information Security and Reliability, the Mack-Blackwell National Rural Transportation Center, the Center for Excellence in Logistics and Distribution, the National Center for Reliable Electric Power Transmission, and Center for Food Safety among others.

Arkansas Water Resources Center

Brian E. Haggard, director
479-575-4403
awrc@uark.edu

Arkansas Water Resources Center website (http://www.uark.edu/depts/awrc)

The Arkansas Water Resources Center, a unit of the Division of Agriculture, was established by Public Law in 1964. The Center utilizes scientific personnel and facilities of all campuses of the University of Arkansas System (and other Arkansas colleges and universities) in maintaining a water resources research program. The center supports specific research projects throughout Arkansas, which often provide research training opportunities for undergraduate and graduate students, and it disseminates information on water resources via publications and conferences. The center works closely with federal, state, municipal, educational, and other public groups concerned with water resources in development of its research, training, and dissemination programs.

Bessie Boehm Moore Center for Economic Education

Rita Littrell, director
RCED 217
479-575-2855

Bessie Boehm Moore Center for Economic Education website (http://bmcee.uark.edu)

The Bessie Boehm Moore Center for Economic Education, established in 1978 and located in the Walton College of Business, promotes an understanding of the American economy among the people of Arkansas. Its major efforts are directed to elementary and secondary school children. The center’s faculty and staff hold workshops and seminars for public school teachers, conduct research in economic education, develop instructional materials, maintain a lending library, and sponsor adult economic educational programs for business, labor, industry, and the general community. In recent years, center personnel have been involved in educating teachers in transitional or developing economies about market economics. The center is officially certified by the Arkansas Council on Economic Education and the National Council on Economic Education.

Center for Advanced Spatial Technologies

Jackson Cothren, director
J.B. Hunt Center for Academic Excellence, Room 304
479-575-6159
info@cast.uark.edu

Center for Advanced Spatial Technologies website (http://cast.uark.edu)

The Center for Advanced Spatial Technologies (CAST) focuses on application of geospatial technologies in research, teaching, and service. These technologies include geomatics, GIS, GPS, remote sensing, photogrammetry, geospatial software and systems design, interoperability, and large (multi-terabyte) geospatial databases.

Established in 1991, CAST is a unit of the J. William Fulbright College of Arts and Sciences. CAST has a campus-wide focus, working with the departments of anthropology; architecture; crop, soil, and environmental science; biology; bioengineering; civil and industrial engineering; geosciences; entomology; and landscape architecture. Other related partners include the Environmental Dynamics Program, the Arkansas Water Resources Center, Mullins Library, and the Arkansas Archeological Survey.

CAST has been selected as a Center of Excellence by many corporations, including the Intergraph Corporation, Trimble Navigation Inc., the Oracle Corporation, Definiens Imaging, Sun Microsystems, Spatial Acquis, and PCI Geomatics. These and other corporate sponsors have provided more than $22 million of in-kind support of the research teaching facilities of the center. The center has extensive hardware and software capabilities, including more than 100 high-performance workstations, multiple Linux, Windows XP and Solaris servers (combined seven terabyte of on-line disk), large-format plotters, mapping and survey-grade GPS, MSS instruments, spectroradiometers, terrestrial laser scanners, and an extensive inventory of software.

University of Arkansas undergraduate and graduate students have a wide range of geomatics courses available to them that utilize CAST faculties and laboratories. These courses, taken along with related courses in cartography, remote sensing, image interpretation, photogrammetry, surveying, and spatial statistics, provide the student with a range of career options. In addition to classroom instruction, CAST facilities are used by students in both undergraduate and graduate research projects. The internship program in Applied Spatial Information Technologies offers students an opportunity to gain hands-on experience in geospatial technologies.

CAST staff are engaged in research projects in a wide range of areas. A few recent research projects focused on areas such as the creation of a seamless, on-line spatial data warehouse; K-12 GIS education; soil survey by remote sensing; land-use/land-cover identification; remote sensing for historic resources; natural resources wetlands analyses; multisensor remote sensing for historic resources; and predicting red oak borer populations.

Center for Business and Economic Research

Mervin Jebaraj, interim director
WJWH 545
479-575-4151
of intellectual growth, social development, literacy, the arts, and religion.

The Center for Children and Youth is designed to address issues of interpersonal, group, organizational, and media communication. The center sponsors outreach programs designed to help under-served populations, educational institutions, media companies, businesses, and non-profit organizations.

Multidisciplinary in nature, the center facilitates scholarship among allied disciplines such as journalism, law, business, political science, psychology, sociology, and computer science. Research topics include communication and advertising, dispute resolution, education, environmental concerns, family, health, information technology, legal concerns, life stages, media audiences, organizational concerns, politics, and religion.

Center for Children and Youth
Chris Goering, director
PEAH 305
479-575-4209
goering@uark.edu

Center for Children and Youth website (http://cied.uark.edu/center-for-children-and-youth.php)

The Center for Children and Youth is designed to address issues of intellectual growth, social development, literacy, the arts, and techniques for addressing generational or regional poverty issues. This will be accomplished through teacher professional development, pre-service education, research, as well as curriculum development and dissemination. The center was established by a generous gift of the Windgate Family Foundation in 2006 to the College of Education and Health Professions.

In 2010, the Center for Children and Youth hosted a national conference in Springdale, Ark., focused on the confluence of literacy and the arts. The conference featured speakers from the Kennedy Center for Performing Arts, Temple University, the National Council of Teachers of English, and local experts on arts integration approaches to teaching. Later in 2010, Dr. Chris Goering in the Curriculum and Instruction Department was appointed as the center’s first director.

Center for Excellence in Engineering Logistics and Distribution
Manuel D. Rossetti, director
BELL 4164
479-575-6756

celdi.org

The Center for Excellence in Logistics and Distribution (CELDi) is a multi-university, multidisciplinary, National Science Foundation sponsored Industry/University Cooperative Research Center located in the Department of Industrial Engineering. CELDi emerged in 2001 from The Logistics Institute (1994) to provide integrated solutions to logistics problems, through research related to modeling, analysis, and intelligent-systems technologies. Research endeavors are driven and sponsored by representatives from a broad range of member organizations, including manufacturing, maintenance, distribution, transportation, information technology, and consulting. Partner universities include the University of Missouri, Clemson University, Virginia Tech and University of California Berkeley. This partnership among academic institutions and industry represents the effective integration of private and public sectors to enhance a U.S. competitive edge in the global market place.

The Center was originally established as the Bureau of Business and Economic Research in 1943 to explore and report on economic, business, and social conditions in Arkansas. In addition to supporting research within the College, the Center supports economic development by providing economic and demographic data and analysis to business, government, and individuals. Over the years, the Center has grown to become a well-known point for communications and exchange of ideas, research, publications and data for universities, businesses, government, and individuals. In addition, the Center serves as a focal point in providing assistance to faculty and students in experimentation with their ideas and techniques in both theoretical and applied research.

Center for Communication and Media Research
Robert H. Wicks, director
KIMP 417
479-575-3046
rwicks@uark.edu

Center for Communication and Media Research website (http://fulbright.uark.edu/departments/communication/center-for-communication-and-media-research)

The Center for Communication and Media Research (CCMR) advances knowledge and supports scholarly and applied inquiry into the study of interpersonal, group, organizational, and media communication. The center sponsors outreach programs designed to help under-served populations, educational institutions, media companies, businesses, and non-profit organizations.

Director

Email: mmccaff@uark.edu

Center for Ethics in Journalism website (https://journalismethics.uark.edu)

The Center for Ethics in Journalism of the Walter J. Lemke Department of Journalism at the University of Arkansas’ J. William Fulbright College of Arts and Sciences fosters the study and practice of the journalistic principles of accuracy, fairness and service to the public in editorial/news; in broadcast, radio and television; and in advertising and public relations.

The University of Arkansas Center for Ethics in Journalism will play an integral role in shaping the future of journalism by educating students and professionals on the tenets of ethics, preparing them to employ those principles as a matter of course and teaching them to reach ethical decisions as routine and not exception.

Center for Business and Economic Research website (http://cber.uark.edu)

cber@walton.uark.edu

The Center for Business and Economic Research at the Sam M. Walton College of Business provides excellence in applied economic and business research to federal, state, and local government, as well as to businesses currently operating or those that desire to operate in the state of Arkansas. The Center further works to improve the economic opportunities of all Arkansans by conducting policy research in the public interest.

The Center was originally established as the Bureau of Business and Economic Research in 1943 to explore and report on economic, business, and social conditions in Arkansas. In addition to supporting research within the College, the Center supports economic development by providing economic and demographic data and analysis to business, government, and individuals. Center for Excellence in Engineering Logistics and Distribution
Manuel D. Rossetti, director
BELL 4164
479-575-6756

celdi.org

The Center for Excellence in Logistics and Distribution (CELDi) is a multi-university, multidisciplinary, National Science Foundation sponsored Industry/University Cooperative Research Center located in the Department of Industrial Engineering. CELDi emerged in 2001 from The Logistics Institute (1994) to provide integrated solutions to logistics problems, through research related to modeling, analysis, and intelligent-systems technologies. Research endeavors are driven and sponsored by representatives from a broad range of member organizations, including manufacturing, maintenance, distribution, transportation, information technology, and consulting. Partner universities include the University of Missouri, Clemson University, Virginia Tech and University of California Berkeley. This partnership among academic institutions and industry represents the effective integration of private and public sectors to enhance a U.S. competitive edge in the global market place.
CELDi helps industry partners excel by leveraging their supply chain to achieve a distinguishable, sustainable difference. Member companies realize a measurable return on their investment by creating competitive value chains in terms of cost and service quality. Through basic research, collaborative applied research with industry, technology transfer, and education, CELDi is a catalyst for developing the engineering logistics methodology necessary for logistics value chain optimization.

Center for Executive Education
Therese Steifer, director
RCED 140
479-575-2856
cmed@walton.uark.edu

Center for Executive Education website (http://exced.uark.edu)
The Center for Executive Education in the Sam M. Walton College of Business provides executive and middle management training opportunities designed to enhance quality in leadership, management decision making, and human resource skills and abilities for corporate and public clients. Programs are custom designed for individual clients. The center serves local, national, and multinational businesses. The center operates on a fee-for-service basis, and its activities are supported from fee-based revenues.

Center for Information Security and Reliability
Brajendra Panda, director
JBHT 504
479-575-2067
bpanda@uark.edu

Center for Information Security and Reliability website (http://isr.csce.uark.edu)
The center was established to promote education and research in the field of computer security and information assurance at University of Arkansas. The activities of this center includes, but not limited to the following: fostering multidisciplinary research, securing large-scale funding from federal, state, and other funding agencies, providing education and training to future work-force, increasing awareness in the field of information security and reliability by offering appropriate seminars and workshops.

Center for Innovation in Healthcare Logistics
Ed Pohl, director
BELL 4207
479-575-6029

Center for Innovation in Healthcare Logistics website (http://cihl.center)
Founded in March 2007, the Center for Innovation in Healthcare Logistics is located in the Department of Industrial Engineering and is an industry-university partnership based at the University of Arkansas that leads a nationwide effort to identify and foster systemwide adoption of groundbreaking healthcare supply chain and logistics innovations. It has achieved a leading role in healthcare supply chain progress through:

- Intensive collaboration with a variety of healthcare providers, industry organizations, and healthcare supply chain leaders in vigorous data and opinion gathering, including pilot testing at partner sites.
- Objective engineering analysis of healthcare challenges and innovations, free of commercial or institutional interests, that leverages the university’s broad background in engineering of logistics and supply chains.
- Avoiding “one-off” single-site investigations in favor of scalable projects with systemwide impact.
- Commitment to broad dissemination of findings from the center’s investigations in presentations, reports and computer-based decision aids.

Center for Interdisciplinary Study of Science and the Arts
Elizabeth Hellmuth Margulis, co-director
ehm@uark.edu, 479-575-5763
Padma Viswanathan, co-director
pviswana@uark.edu

The Center for Interdisciplinary Study of Science and the Arts seeks to advance cohesion in campuswide research and teaching that integrates science and the arts. The center will facilitate collaboration, provide an outlet for the dissemination of interdisciplinary work at the University of Arkansas, incubate ideas that introduce students to interdisciplinary modes of thinking, lend a unique identity to arts programs at the university, help attract top students whose interests often bridge science and the arts, and build on an existing strength on campus.

Center for Mathematics and Science Education
Lynne Hehr, director
346 N. West Avenue, No. 102
479-575-3875

Center for Mathematics and Science Education website (http://cmase.uark.edu)
The Center for Mathematics and Science Education – a University of Arkansas K-16 education outreach facility within the College of Education and Health Professions – works in conjunction with the Arkansas Department of Higher Education as part of a network of twelve mathematics and science centers on university and college campuses around Arkansas. The main objectives of the center are to:

1. Provide science, mathematics and technology professional development for K-16 pre-service and in-service teachers;
2. Assist in statewide K-16 education initiatives;
3. Coordinate regionally beneficial grant-funded programs among universities and colleges for K-16 education;
4. Provide science, mathematics and technology educational materials, resources, and information to the K-16 community; and
5. Link common K-16 education allies throughout the state.

University Day, Science/Engineering Fairs, Springfest, and various K-16 teacher and student programs are conducted through the center. Day-to-day educational outreach information is sent to local, regional, and statewide constituencies through the center’s website and various email
listservs. The Center for Mathematics and Science Education is a host site for the federally sponsored Eisenhower National Clearinghouse and the Southwest Educational Development Laboratory Consortium. The center also serves as the Arkansas National Aeronautics and Space Administration Educator Resource Center, responsible for warehousing and disseminating NASA materials and providing regular updates on NASA programs and materials to the state.

Web pages specifically designed to provide a wealth of material resources and information available for public, private and home-school educators across the state can be accessed at the website.

Center for Power Optimization and Electro-Thermal Systems
The Center for Power Optimization and Electro-Thermal Systems is an engineering research center run by the University of Arkansas, the University of Illinois at Urbana Champaign, Stanford University and Howard University. These four universities include a multidisciplinary team that will create new paradigms for power flow in complex systems.

The center’s long-term goal is to increase the power density of current mobile electrified systems by 10-100 times over current state-of-the-art systems. While ambitious, this would have a profound impact on a mobile electrified infrastructure of the United States and beyond. On-highway vehicles could save between 100-300 million liters of fuel per year and could nearly double the range of all-electric vehicles. Off-highway vehicles could save on the order of 100 billion liters of fuel since their electrification is starting from a less mature point than current on-highway vehicles. Similarly, aircraft could see 10-30 billion liters of fuel saved as well as prevention of up to 10 million tons of carbon dioxide from going into the high altitude atmosphere.

These economic and environmental impacts are just the beginning of the art of the possible with the achievement of the center’s vision. This center is a multi-disciplinary center involving several fields of study including mechanical engineering, electrical engineering and physics. The center functions under the assumption that a single discipline could not achieve the goals set by this team and must integrate multiple disciplines and domains to achieve such success.

Center for Protein Structure and Function
Frank Millett and Roger Koeppe, co-directors
CHEM 119
479-575-4601

Center for Protein Structure and Function Website (http://fulbright.uark.edu/departments/chemistry/research/center-for-protein-and-structure)

The Center for Protein Structure and Function is an interdisciplinary unit for research and teaching within the departments of chemistry/biochemistry and biological sciences in the J. William Fulbright College of Arts and Sciences. The center raises funds from federal, state, and private sources and sponsors faculty- and student-initiated basic research on the folded structures of protein molecules, their dynamic properties, and their diverse functions in biological systems. The center has been awarded funding from the National Science Foundation, the Arkansas Science and Technology Authority, and the National Institutes of Health.

Center for Social Research
Casey Harris, co-director
Patricia Herzog, co-director

Center for Social Research Website (https://fulbright.uark.edu/departments/sociology/center-for-social-research)

Since 1982 the Center for Social Research has provided research services to government agencies, communities and businesses. Located in the Department of Sociology, the center can conduct survey and public opinion research, impact assessment, evaluation and policy assessment. The center’s staff can provide assistance with research methodology and design, sampling, data collection and analysis.

The center’s professional staff has vast experience in virtually every aspect of social research. In addition, the center’s resources include computer-assisted telephone interviewing facilities; extensive archival data holdings, including online access to the archival holdings of the Inter-University Consortium for Political and Social Research at the University of Michigan; and, in-house statistical analysis.

Center for Statistical Research and Consulting
Joon Jin Song, director
SCEN 309B
479-575-6319
csrc@uark.edu

The Center for Statistical Research and Consulting is a service and research unit of the University of Arkansas, administratively housed in Department of Mathematical Sciences, providing faculty and graduate students in the university with an environment for collaboration in research and instruction emphasizing statistical and quantitative approaches. It offers statistical consulting and statistical software support to faculty, staff, graduate and undergraduate students conducting research at the university. The center will extend this statistical support to the state of Arkansas, directly providing some consulting services but primarily acting as a conduit for industry, government, and non-profit organizations to engage campus faculty and graduate students in consulting opportunities. The community support activities from the center will stimulate and enhance campus research and instructional efforts as well as provide important services to organizations throughout the region.

The mission of the Center for Statistical Research and Consulting is to participate in research to provide high quality statistical input to high quality research projects, train statisticians to interact effectively with investigators from other disciplines, and encourage collaborative research between statisticians and investigators from other disciplines.

The center is a fee-for-service unit. The initial consulting meeting with a client is provided at no cost. All subsequent and follow-up visits will require financial support.

Center for Utilization of Rehabilitation Resources for Education, Networking, Training and Services
Jeanne Miller, director
105 Reserve St., Building 35
Established in 1974, this center provides human resource and organization development services for a broad audience in the rehabilitation and disability communities. Projects managed by CURRENTS vary in scope from state and local to regional and national levels. The center is housed at the Hot Springs Rehabilitation Center, Hot Springs, Ark.

Center of Excellence for Poultry Science
Michael Kidd, director
POSC 114
479-575-3699

With designation by the University of Arkansas Board of Trustees to make poultry science a center of excellence in the state's university system, the department of poultry science became a reality in 1992.

The Center of Excellence for Poultry Science is comprised of full-time poultry science faculty members, full-time USDA/ARS Poultry Research Group faculty members, graduate assistants, adjunct faculty, and poultry science departmental staff. The center receives multidisciplinary contributions from several university departments including animal science; biological and agricultural engineering; biological sciences; crop, soil, and environmental sciences; entomology; food science; industrial engineering; the School of Human and Environmental Sciences; and the UALR College of Pharmacy.

The Department of Poultry Science and the research group are housed in the John W. Tyson Building, which is a 112,000-square-foot, state-of-the-art laboratory and office complex that was completed the fall of 1995 on the U of A campus. In addition to the John W. Tyson Building on the main campus, the Center of Excellence for Poultry Science comprises the following facilities:

- FDA-licensed feed mill;
- 10,000-square-foot processing plant used for teaching processing techniques and for ongoing food safety research projects;
- 12,000-square-foot John Kirkpatrick Skeeles Poultry Health Laboratory, which holds the highest bio-safety rating (P3) available in the country;
- A poultry research farm facility including hatchery, genetics unit, pullet-rearing facility, battery brooder, caged layer house, broiler breeder houses and turkey houses;
- Four full-sized broiler houses equipped with computerized environmental control and data collection systems capable of commercial-type production research; and
- A broiler breeder research facility that includes two full-size broiler breeder houses, a pullet-rearing facility, and quality assurance building with offices, classroom, and egg holding capacity.

Chemical Hazards Research Center
Jerry Havens, director
BELL 3157
479-575-3857
jhavens@uark.edu

The Chemical Hazards Research Center determines the consequences of atmospheric release of potentially hazardous materials with a present emphasis on liquefied natural gas in transportation and storage operations. Computational models are used in conjunction with the wind tunnel at the center, which is presently the largest low-speed wind tunnel suited for such studies.

Community Design Center
Stephen Luoni, director
104 N. East Ave., Fayetteville, AR 72701
uacdc@uark.edu

The mission of the University of Arkansas Community Design Center is to advance creative development in Arkansas through education, research, and design solutions that enhance the physical environment. As an outreach center of the Fay Jones School of Architecture and Design, the Community Design Center is developing a repertoire of new design methodologies applicable to community development issues in Arkansas, with currency at the national level. The center's design solutions introduce a multiple bottom line, integrating social and environmental measures into economic development. Integrative design solutions add long-term value and offer collateral benefits related to sustained economic capacity, enhanced ecologies, and improved public health. The design center also offers hands-on civic design experience to students who work under the direction of design professionals. The University of Arkansas Community Design Center was founded in 1995 and has provided design and planning services to more than 30 communities across Arkansas. The design center's planning has helped Arkansas communities and organizations to secure nearly $62 million in grant funding to enact suggested improvements.

Cybersecurity Center on Secure, Evolvable Energy Delivery Systems
Alan Mantooth
Director
Bell Engineering 3175
479-575-7962
mantooth@uark.edu

Shannon Davis
Managing Director
CSRC 232
479-575-6877
sgdavis@uark.edu
The Cybersecurity Center on Secure, Evolvable Energy Delivery Systems researches and develops innovative cybersecurity technologies, tools and methodologies to advance the energy sector’s ability to survive cyber attacks and incidents while sustaining critical functions. The center verifies and validates efficacy of the developed solutions and methodologies for transition to practice and commercialization in the energy sector. These solutions and methodologies will enhance the resilience of energy delivery infrastructure, which includes the electricity sub-sector and the oil and natural gas sub-sector.

The specific technical areas of research and development will focus on five areas:

- Secure grid control and operations.
- Secure emerging power grid components and services.
- Secure energy delivery system operation technology infrastructure.
- Cybersecurity management and visualization.
- Cybersecurity testing and validation.

### David and Barbara Pryor Center for Arkansas Oral and Visual History

**Randy Dixon, director**  
East Square Plaza  
1 East Center Street, Suite 216  
479-575-6829

Pryor Center website (http://pryorcenter.uark.edu)

The mission of the Pryor Center for Arkansas Oral and Visual History is to document Arkansas’ rich history by collecting the “living memories” of those who have been witness to various aspects of the state’s past. Using traditional oral history methodology, the center interviews individuals, transcribes those interviews, and maintains those collections for future generations. The center is responsible for preserving these memories and making them available to scholars and researchers interested in the culture and heritage of Arkansas. The center is located in East Square Plaza on the east side of the Fayetteville Square; to contact the center, call 479-575-6829, or visit the website.

### Diane D. Blair Center of Southern Politics and Society

**Angie Maxwell, director**  
MAIN 506-A  
479-575-3356

Blair Center website (https://blaircenter.uark.edu)

The Blair Center, located in the Department of Political Science, is dedicated to fostering political scholarship, public service, civic consciousness, and the study of Southern politics, history and culture. The center supports graduate students studying topics relevant to the South and hosts conferences and periodic speakers discussing issues relevant to Southern politics and society.

### Exercise Science Research Center

**exercise@uark.edu**  
**exercisescience.uark.edu**

The Exercise Science Research Center is a student-centered facility with a unique dual purpose that includes research and educational components. Faculty from the kinesiology and exercise science programs coordinate research efforts of the center, which initiates and conducts research focused on health, exercise and physical performance. The center also provides education outreach programs for targeted groups with an emphasis on collaborative and cooperative programs with agencies in Arkansas and the region. The center also provides educational experiences for undergraduate and graduate students in the exercise science and kinesiology programs.

### Family and Community Institute

**Kevin Fitzpatrick, director**  
MAIN 211  
479-575-3777  
kfitzpa@uark.edu

Family and Community Institute website (http://sociology.uark.edu/3550.php)

The Family and Community Institute is a joint effort of the University of Arkansas and the Harvey and Bernice Jones Center for Families in Springdale, Arkansas. The institute is a multidisciplinary research center in the J. William Fulbright College of Arts and Sciences that conducts basic and applied research, as well as policy-related studies on the critical issues facing families and communities in the region and the nation. The institute raises funds from federal, state, and private sources and sponsors applied research by faculty and students on the family and the community.

### Garrison Financial Institute

**Wayne Lee, executive director**  
RCED 205  
479-575-4505

Garrison Financial Institute website (http://gfi.uark.edu)

The Garrison Financial Institute is an institute organized within the Sam M. Walton College of Business to advance financial education and knowledge through practice. Its mission is to enhance student learning through experience, foster research that extends and perfects best practices, and contribute to the economic development of the State of Arkansas and the welfare of its citizens. The center was founded in 2005.

### Garvan Woodland Gardens

**Bob Byers, garden director**  
550 Arkridge Road, PO Box 22240  
Hot Springs National Park, AR 71913  
1-800-366-4664  
gardeninfo@garvangardens.org

Garvan Woodland Gardens website (http://www.garvangardens.org)

Garvan Woodland Gardens is the botanical garden of the University of Arkansas, established in 1993 by an endowment from Mrs. Verna C. Garvan. Her vision is the foundation of the Garden’s mission to serve the public and provide teaching and research opportunities for the
Department of Landscape Architecture and the Fay Jones School of Architecture and Design.

As early as 1985, the Department of Landscape Architecture was utilizing portions of the 210 acres on Lake Hamilton, in Hot Springs, AR, as a resource to teach local ecology and design principles. Teaching opportunities continue in these areas and currently feature urban forestry, wetland ecology, construction methods and materials, design implementation, and horticulture. Numerous designed features offer case studies for landscape architecture and architecture students as well as professionals, including the Asiatic Garden by David Slawson, a nationally recognized Japanese garden designer, and the Verna C. Garvan Pavilion, by internationally recognized architects Fay Jones and Maurice Jennings.

Research opportunities lie in wetland ecology and constructed wetland design, sustainable design, and therapeutic gardens. Ongoing public programs feature workshops on gardening techniques, bonsai collections, and perennials.

An annual symposium focuses on timely issues affecting the quality of life of people in Arkansas and the nation. Past topics include historic landscape preservation practice in Arkansas and sustainable golf course design.

Garvan Woodland Gardens is a member of the American Association of Botanical Gardens and Arboreta.

High Density Electronics Center
Simon Ang, director
HiDEC/ENRC 700
479-575-4627
HiDEC website (http://www.hidec.uark.edu)

The High Density Electronics Center (HiDEC) was established in 1991 as an interdisciplinary research program in advanced electronic packaging technologies, particularly the rapidly developing technology of multichip modules (MCMs), which allow electronic systems to be small, fast, and cheap.

With generous support from the Defense Advanced Research Projects Agency (DARPA), a large clean room was constructed, and an MCM fabrication facility, unique among universities, was installed. Current research programs focus on 3-D electronic packaging, high density laminate substrates, co-fired ceramic substrates for wireless applications, high temperature superconducting (HTSC) tunable filters, micro electromechanical systems (MEMS), and integrated passives development. The program is located in the Department of Electrical Engineering but involves faculty from six departments and more than 25 graduate students. Continuing funding comes from DARPA and several industrial sponsors. Significant national recognition has resulted from work performed at HiDEC.

HiDEC also houses the Center of Excellence for Nano-, Micro-, and Neuro-Electronics, Sensors and Systems (CENNESS).

Information Technology Research Institute
Eric Bradford, managing director
JPHT 409
479-575-4261

Information Technology Research Institute website (http://itri.uark.edu)

The Information Technology Research Institute is an interdisciplinary unit for research within the Sam M. Walton College of Business. The mission of the institute is to advance the state of research and practice in the development and use of information technology for enhancing the performance of individuals and organizations; provide a forum for multidisciplinary work on issues related to information technology; promote student interest in the study of information technology; and facilitate the exchange of information between the academic and business communities. The Information Technology Research Institute was established by a grant from the Walton Family Charitable Support Foundation.

Institute for Advanced Data Analytics
David Douglas, co-director
479-575-6114
Wanpracha Chaowalitwongse, co-director
479-575-5857
Mark Arnold, co-director
479-575-3351

Stored data doubles every two to three years and without extracting actionable value from the data, it serves as only an expense. Data analytics are the key to extracting value from the data. The application of analytics is the key basis for competition driving innovation and productivity growth. In response to the demand for this data ecosystem, a number of units on campus are conducting research related to data analytics and big data. The Institute for Advanced Data Analytics takes statistics and analytics to the next level, serving as the catalyst for big data research, innovation, and practice by partnering with organizations seeking solutions to their data problems. The institute’s vision is to initiate and facilitate multidisciplinary collaborations among departments, colleges, and industry partners to help solve the emerging data and analytics research problems and implementation opportunities. Faculty and students at the institute work on these problems and opportunities.

Institute for Nanoscience and Engineering
Gregory Salamo, director
NANO 104
479-575-4187

Institute for Nanoscience and Engineering website (http://nano.uark.edu)

The Institute for Nanoscience and Engineering is based in the Nanoscale Material Science and Engineering Building, opened in 2011 with the state-of-the-art equipment and clean rooms necessary for building materials one atom at a time. The institute provides an interdisciplinary team of researchers in the fields of physics, engineering, chemistry and biology whose mission, in part, is to develop businesses in Arkansas based on nanoscience and engineering.

Institute of Food Science and Engineering
Jean-Francois Meullenet, director
Food Science Building
2650 N. Young Ave., Fayetteville, AR 72704  
479-575-4040

Institute of Food Science and Engineering website (http://www.uark.edu/depts/ifse)

The Institute of Food Science and Engineering and its three technology centers grew from the commitment of the University of Arkansas Division of Agriculture to finding creative ways to bring its expertise and resources to bear on specific problems and issues that affect productivity and growth in the food processing industry, with the mission of strengthening that critical component of the agricultural sector and the entire economy.

The institute assists industry by fostering cooperative, multidisciplinary efforts that provide research to solve problems, technology transfer to put new information to work, and education in skills needed by specific industries. Alliances between the institute and private industry devise solutions to identified problems. This demand-driven approach assures a direct, positive impact on the value-added processing of food products.

The Center for Food Processing and Engineering’s primary objective is to facilitate research leading to value-added products and improving the efficiency and effectiveness of the processing of agricultural products. Activities of the Center for Food Safety and Quality seek to maintain or improve the safety of foods through production, harvest, processing, distribution, and storage. The main thrust of the Center for Human Nutrition is to develop new value-added functional foods with elevated levels of health-promoting compounds and ways to motivate people to include generous amounts of these foods in their daily diets. These efforts will assure food safety and improve the sensory and nutritional quality of food to meet the nutritional requirements and food preferences of a changing society.

The offices of the Institute of Food Science and Engineering are located in the Food Science Building at the Arkansas Agricultural Research and Extension Center.

International Center for the Study of Early Asian and Middle Eastern Musics

Rembrandt Wolpert, director  
MUSC 201  
479-575-4701  
ceam@cavern.uark.edu

International Center for the Study of Early Asian and Middle Eastern Musics website (http://www.uark.edu/ua/eeam)

The International Center for the Study of Early Asian and Middle Eastern Musics, established in 2000, is a research center located in the Department of Music in the J. William Fulbright College of Arts and Sciences.

The center coordinates the international Tang Music Project and is linked with the Ancient Asian Music Preservation Project of the Library of Congress, a partnership that includes internships at the Library as well as an acquisitions program. The center also functions as the base for graduate training in historical ethnomusicology and related fields, specifically tailored toward early documented repertoires of ritual- and art-music and present day performance practices in historically significant musical traditions of Asia and the Middle East. The recovery of early Asian musics and the design of music-centered algorithms and their implementation in computer programs are central aspects of the center’s research and teaching activities. The center works closely with both the Department of Music and the King Fahd Center for Middle East and Islamic Studies in sponsoring lectures, seminars, concerts, and workshops, and it collaborates in developing international ties to other institutions and in promoting student and performing-artist exchanges. For more information, contact Elizabeth Markham or Rembrandt Wolpert at 479-575-4702.

King Fahd Center for Middle East Studies

Todd Shields, interim director  
MAIN 202  
479-575-2175

King Fahd Center for Middle East Studies website (http://mest.uark.edu)

The King Fahd Center for Middle East Studies is an academic and research unit in the J. William Fulbright College of Arts and Sciences. It is an interdisciplinary and interdepartmental area studies center that offers diverse cultural, intellectual, and educational opportunities for the University of Arkansas community. Its functions include the promotion of research and teaching in interdisciplinary Middle East studies and global Islamic studies.

Through the King Fahd Middle East Studies Program, the center offers an undergraduate major in Middle East studies and supports graduate studies in Middle East-related departments and programs. Students of superior ability who are majoring in Middle East studies may apply for MEST scholarships to help fund their studies. The center also supports summer language study and research assistantships for graduate students and teaching and research by visiting scholars from affiliated universities and programs.

Through its core faculty, the center coordinates with university departments to offer a full range of Middle East courses, supports faculty research in Middle East and Islamic studies, engages in outreach activities, and supports an ambitious program of visiting speakers and workshops. The King Fahd Center currently maintains relationships with universities in Saudi Arabia, Jordan, Morocco, Tunisia, and Russia. The center also cooperates with the Aga Khan Humanities Program in Central Asia, the Middle East Institute in Washington, D.C., and the Elijah Center for the Study of Wisdom in World Religions in Jerusalem.

Mack-Blackwell National Rural Transportation Study Center

Heather Nachtmann, director  
BELL 4190  
479-575-5857

Mack-Blackwell National Rural Transportation Study Center website (http://mackblackwell.uark.edu)

The Mack-Blackwell National Rural Transportation Study Center was established by a grant from the U.S. Department of Transportation to provide educational opportunities and conduct research in the area of rural transportation. Additional support is received from the Arkansas Highway and Transportation Department.

The broad objective of the center is to improve the quality of life in rural areas through transportation. The educational objective is to provide
The University of Arkansas Membrane Research Center will:

- Conduct fundamental and applied research in the field of membranes via innovative materials and processes to facilitate the use of membrane technology for current and emerging industrial applications.
- Help sustain U.S. technological leadership in membrane materials and membrane-based separation processes and accelerate commercialization by Center sponsors of novel, sustainable and innovative technologies.
- Provide undergraduate, graduate and postdoctoral researchers with a superior educational and research experience that will enable them to become productive and effective professionals in the membrane community.

An underlying emphasis in all of these efforts is the understanding that new membrane technologies will lead to enhanced sustainability in our technological operations.

**National Agricultural Law Center**

Harrison Pittman, director
WATR 107
479-575-7646
nataglaw@uark.edu

National Agricultural Law Center website (http://www.NationalAgLawCenter.org)

The National Agricultural Law Center is a federally funded agricultural law research and information center located at the University of Arkansas School of Law. Created in 1987, the center fulfills its mission by conducting and sponsoring objective and authoritative agricultural and food law research and by providing bibliographic and other resources on agricultural and food law.

The center works closely with the UA School of Law Graduate Program in Agricultural Law, an academic program that awards the Master of Laws degree in Agricultural Law. Selected students in the graduate program serve as research fellows at the center during their residency in the graduate program.

The center is the only one of its kind in the United States and has received national recognition. It recently enhanced its national reach by establishing a collaborative relationship with the Agricultural Law Center at Drake University School of Law in Des Moines, Iowa.

Publications and research assistance are available in print and through the website.

**National Center for Reliable Electric Power Transmission**

Alan Mantooth, executive director
2055 South Innovation Way
479-575-4838

National Center for Reliable Electric Power Transmission website (http://ncrept.uark.edu)

The National Center for Reliable Electric Power Transmission in the College of Engineering is located in a new building at the Arkansas Research and Technology Park. The center seeks to research and develop prototypes of advanced power electronics systems for...
applications in the power grid, including both protection and storage devices.

The center also serves as a test facility for advanced power electronic circuit and package designs for distribution-level voltages and high currents. The center is a unique educational resource for students interested in working in the power utility and power electronics sectors.

**National Office of Research, Measurement, and Evaluation Systems**

Sean Mulvenon, director  
WAAX 302  
479-575-5593  
orme@cavern.uark.edu

The Office of Research, Measurement, and Evaluation, organized in 1998, is a research and service unit in the College of Education and Health Professions in the Department of Curriculum and Instruction. Its mission includes the analysis and dissemination of data to facilitate school improvement and reform in Arkansas. The faculty and staff of the office offer expertise in the areas of educational statistics, test measurement theory, research design, standardized assessment, program evaluation, and policy analysis. The mission of the office is to conduct targeted educational research, drawing on the talents of faculty from several disciplines. The research conducted through the office addresses significant issues affecting the educators and students of the public schools of the state.

**Office for Studies on Aging**

Michelle Gray and Barbara Shadden, co-directors  
HPER 321X  
479-575-5262  
aging@uark.edu

Office for Studies on Aging website (http://coehp.uark.edu/osa)

The Office for Studies on Aging in the College of Education and Health Professions was established in August 1999 to coordinate the resources of the university in addressing the needs of the aging population in Arkansas and beyond. The office was developed to be the center for research and study of the physical, social, and psychological aspects of the aging process drawing on a host of disciplines across campus. The office conducts research, provides services, and acts as an interface between the university and the variety of service modalities for the aging population. Initial efforts of the office are directed toward a variety of issues facing older Americans to provide meaningful solutions so that the process of aging is a positive experience, both emotionally and physically.

**Office of Education Policy**

Gary Ritter, director  
201 Graduate Education Building  
479-575-3773  
www.officeforeducationpolicy.org (http://www.officeforeducationpolicy.org)

The Office of Education Policy serves as a resource to state lawmakers, educators, administrators, and other leaders, providing them with current national, state, and regional research in education to support them in thoughtful decision-making concerning K-12 education in the state of Arkansas. The Office of Education Policy strives to look at pressing issues through the lens of academic research, bridging the gap between research and practice.

**Small Business and Technology Development Center**

Larry Brian, director  
RCED 210  
479-575-5148  
smallbusiness@uark.edu

Small Business and Technology Development Center website (http://sbtdc.uark.edu)

The Walton College Arkansas Small Business and Technology Development Center is part of a national network of more than 1,000 small business development centers that provide small business training seminars, as well as free market research and consulting services from three full-time business consultants to startup and existing small businesses. The Arkansas system also provides the services of a free innovation and technology consultant for the state. The Walton College center operates as a regional office of the Arkansas Small Business and Technology Development Center half funded by the United States Small Business Administration and the Walton College located in the Donald W. Reynolds Center for Enterprise Development.

The Arkansas system serves all of Arkansas through the University of Arkansas at Little Rock's lead center and six regional offices located on college campuses throughout the state of Arkansas. Any for-profit small business intending to locate or currently located within the Walton College center's service area may receive free assistance. This center serves the following counties: Benton, Boone, Carroll, Madison, Marion, Newton, Searcy, and Washington.

**Supply Chain Management Research Center**

John Kent, director  
WJWH 544  
479-575-6107  
jkent@walton.uark.edu

Supply Chain Management Research Center website (http://scmr.uark.edu)

The Supply Chain Management Research Center at the Sam M. Walton College of Business sponsors and promotes supply chain, logistics, and transportation research and education. Center faculty view the supply chain as the channel that integrates business processes from suppliers through end users, providing value-added products, services, and information. Supply chain management incorporates both inter- and intra-company logistics, transportation, and management systems.

The center undertakes research and training in all aspects of the supply chain. It has sponsored research on vendor-managed inventory, trained salespersons and developed systems for material requirements planning, and simulated supply chains for logistics executives. The center has a broad range of interests and capabilities and has close ties to and cooperative programs within the Walton College, such as the Center for Retail Excellence, the Information Technology Research Center and other centers at the university, such as the Logistics Institute in the College of Engineering. The Supply Chain Management Research Center is unique...
in that its capabilities span the technical and managerial arenas of supply chain management.

The center’s Board of Directors includes representatives of firms such as ABF Freight Systems, American Freightways, Colgate-Palmolive, Federal Express, J.B. Hunt Transport, Pillsbury, Sunbeam, Tyson Foods, Unilever HPC, and Wal-Mart. The Board of Directors, along with notable supply chain professionals from business and academia, meet annually to discuss the state of the art in supply chain management and to provide advice and direction for the center.

For additional information about the Supply Chain Management Research Center at the Sam M. Walton College of Business contact the center at 479-575-7334.

**Terrorism Research Center**
Brent L. Smith, director
MAIN 228
479-575-3401
bls@uark.edu

Terrorism Research Center website (http://trc.uark.edu)

The Terrorism Research Center in the J. William Fulbright College of Arts and Sciences houses the American Terrorism Study, the nation’s only comprehensive longitudinal database on American terrorism. Conducted in cooperation with the Federal Bureau of Investigation and sponsored by the U.S. Senate Judiciary Committee, the American Terrorism Study provides a record of federal terrorism cases resulting from indictment under an FBI “terrorism enterprise” investigation from 1980 to the present. The center is also engaged in several projects examining the spatial and temporal dimensions of terrorism, precursor and preparatory terrorist crimes, and prosecutorial and defense strategies in terrorism trials. The center’s research is funded by the Department of Homeland Security through the Memorial Institute for the Prevention of Terrorism and the Department of Justice through the National Institute of Justice.

**Tesseract Center for Immersive Environments and Game Design**
David Fredrick, director
J.B. Hunt Center for Academic Excellence, Room 255
479-308-8362
tesseract.uark.edu

The core mission of the Tesseract Center is to create immersive, real-time visualization environments and serious games for instruction and research. The center will be fundamentally interdisciplinary, with collaborative projects and affiliated faculty from colleges across the University of Arkansas campus. The center provides the infrastructure to develop and support new academic endeavors including new academic and outreach programs, as well as an engine for innovation, entrepreneurship, and economic development through the creation of intellectual property and the fostering of connections with industry and corporations.

**Tyson Center for Faith and Spirituality in the Workplace**
WJWH 518
479-575-3721

jan002@uark.edu

Tyson Center for Faith and Spirituality in the Workplace website (http://tfsw.uark.edu)

The center’s vision is to be recognized as an international center networked with other international centers, where students, academics, practitioners, business leaders and faith leaders come together to understand the effects of faith and spirituality in the workplace and develop methodologies to help transform organizations in a way that has a positive impact on the world. The center teaches courses on faith and spirituality in the workplace, provides resources to businesses and community, and maintains a database of relevant research, including conducting its own case studies.

The Tyson Center for Faith and Spirituality in the Workplace was established by a grant from Tyson Foods Inc. and the Tyson Family Foundation in 2009.
Undergraduate Catalog

This catalog of studies is a comprehensive reference for your years of study – a list of degrees and courses offered at the University of Arkansas. In addition, it gives you valuable information such as suggested and required degree plans and information about costs, scholarships and financial assistance, and campus resources. Read it with pleasure and with care.

Take every opportunity to consult your academic adviser to ensure that you are taking advantage of courses and university resources that will help you reach your educational and career goals and graduate on time. If you are not sure where to find your academic adviser, contact the dean’s office of your college; the phone numbers are listed under Contact Information (p. 35). If your major is “undecided,” contact the advising office in the J. William Fulbright College of Arts and Sciences at 479-575-3307.

Remember, the University of Arkansas is committed to your success. The faculty and staff are here to support you as you work to achieve your goals. Ask for help and advice whenever you need it.

The University of Arkansas is committed to the policy of providing educational opportunities to all qualified students regardless of their economic or social status and will not discriminate on the basis of race, color, sex, creed, sexual orientation, disability, veteran’s status, age, marital or parental status, or national origin.

For More Information

See the University of Arkansas Directory (http://directory.uark.edu) for a more comprehensive directory of offices and personnel.

ROTC

Air Force ROTC 319 Memorial Hall 479-575-3651
Army ROTC 207 Military Science Building 479-575-4251
The academic units of the University of Arkansas include the following:

- Undergraduate Programs of Study
- Veterans Affairs
- Testing (ACT, CLEP, LSAT, GRE, etc.)
- Transcripts, Academic Records
- University Switchboard
- Veterans Affairs
- University of Arkansas
- Undergraduate Programs of Study

The Global Campus, School of Continuing Education and Academic Outreach, serves as a portal for online, distance and professional education programs and courses provided by the University of Arkansas. Experienced staff members collaborate with the university’s academic colleges and schools and other academic units to develop and facilitate quality, cutting-edge courses and programs.

The School of Law and the Graduate School offer professional and graduate degrees. See the Graduate Catalog and the Law School Catalog for more information.

Accreditations

The University of Arkansas, Fayetteville, is accredited by the Higher Learning Commission.

Some colleges and programs are also accredited by other agencies, associations, or professional organizations, including those listed below.

Dale Bumpers College of Agricultural, Food and Life Sciences

The Bachelor of Science in Human Environmental Sciences (B.S.H.E.S.) degree programs are accredited by the Council for Professional Development of the American Association of Family and Consumer Sciences. The degree program in dietetics is accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics. The Jean Tyson Child Development Study Center is accredited by the National Association for the Education of Young Children (NAEYC). The Bachelor of Science in Agricultural, Food and Life Sciences (B.S.A.) in food science is accredited by the Institute of Food Technologists. Teacher education programs in agriculture and family and consumer sciences are coordinated with educational programs in the College of Education and Health Professions and are accredited by the National Council for Accreditation of Teacher Education (NCATE).

Fay Jones School of Architecture and Design

The Bachelor of Architecture (B.Arch.) program is accredited by the National Architectural Accreditation Board, and the Bachelor of Landscape Architecture (B.L.A.) program is accredited by the Council for Interior Design Accreditation (CIDA).

J. William Fulbright College of Arts and Sciences

The Bachelor of Science (B.S.) degree program in chemistry is accredited by the American Chemical Society. The American Council on Education in Journalism and Mass Communications has accredited the Bachelor of Arts (B.A.) degree program in journalism. The Bachelor of Arts (B.A.), Bachelor of Music (B.M.), and Master of Music (M.M.) degree programs in the Department of Music are accredited by the National Association of Schools of Music. The Doctor of Philosophy (Ph.D.) degree program in clinical psychology is accredited by the American Psychological Association. The Bachelor of Social Work (B.S.W.) and the Master of Social Work (M.S.W.) degree programs are accredited by the Council of Social Work Education.

Sam M. Walton College of Business

The Sam M. Walton College of Business offers degree programs for undergraduate students and for graduate students at both the master’s
and doctoral levels and has been a member of and accredited by AACSB International, the Association to Advance Collegiate Schools of Business, since 1931. The accounting program was separately accredited in 1986 at both the bachelor’s and master’s levels. The master’s in business administration program was approved in 1963. Accreditation by AACSB and membership in that organization signifies the college’s commitment to AACSB goals of promoting and achieving the highest standards of business education.

College of Education and Health Professions
The teacher education programs in the College of Education and Health Professions are accredited by the National Council for Accreditation of Teacher Education. The M.A.T. program in childhood education is in compliance with the standards of the National Association for the Education of Young Children. The various M.A.T. licensure programs in secondary education are in compliance with the standards of the specialty organizations including National Council of Teachers of English, National Council of Teachers of Mathematics, National Science Teachers Association, and National Council for the Social Studies. The Master of Science degree program in speech pathology-audiology is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association, but is currently on probationary status. See Graduate Catalog (http://catalog.uark.edu/graduatecatalog/programsofstudy/communicationdisorderscdis) for more information. The Bachelor of Science in Nursing (B.S.N.) degree program is accredited by the National League for Nursing Accrediting Commission (61 Broadway Street, New York, NY 10006, 212-363-5555, Ext. 153) and is approved by the Arkansas State Board of Nursing. The Bachelor of Science in Education (B.S.E.) degree program in health science, kinesiology, recreation, and dance is accredited by the Council on Accreditation of the National Recreation and Park Association. The Master of Science degree in rehabilitation counseling is accredited by the Council on Rehabilitation Education.

College of Engineering
The College of Engineering offers the following programs accredited by the Engineering Accreditation Commission of ABET (visit http://www.abet.org for more information): Bachelor of Science in Biological Engineering (B.S.B.E.), Bachelor of Science in Chemical Engineering (B.S.Ch.E.), Bachelor of Science in Civil Engineering (B.S.C.E.), Bachelor of Science in Computer Engineering (B.S.Cmp.E.), Bachelor of Science in Electrical Engineering (B.S.E.E.), Bachelor of Science in Industrial Engineering (B.S.I.E.), Bachelor of Science in Mechanical Engineering (B.S.M.E.), Master of Science in Environmental Engineering (M.S.En.E.), and Master of Science in Biomedical Engineering (M.S.B.M.E.)

The College of Engineering offers a Bachelor of Science in Computer Science (B.S.) that is accredited by the Computing Accreditation Commission of ABET (visit http://www.abet.org for more information).

School of Law
The degree programs in the School of Law on the Fayetteville campus are accredited by both the American Bar Association and the Association of American Law Schools.

Certificate Programs
Child Advocacy Studies Training (p. 348)
Geospatial Technical Certificate (p. 259)

Following is a list of major programs of undergraduate study – grouped by college and school – offered at the University of Arkansas, followed by a list of minors and certificates offered by each college and school.

**Majors**

**Dale Bumpers College of Agricultural, Food and Life Sciences**
- Agricultural Business (p. 96)
- Agricultural Education, Communication and Technology (p. 104)
- Animal Science (p. 114)
- Crop Science (p. 122)
- Environmental, Soil, and Water Science (p. 126)
- Food Science (p. 130)
- Horticulture, Landscape and Turf Sciences (p. 138)
- Poultry Science (p. 143)

**School of Human Environmental Sciences**
- Apparel Merchandising and Product Development (p. 146)
- Birth Through Kindergarten (p. 149)
- General Human Environmental Sciences (p. 151)
- Human Development, Family Sciences, and Rural Sociology (p. 152)
- Human Nutrition and Hospitality Innovation (p. 154)

**Fay Jones School of Architecture and Design**
- Architecture (p. 171)
- Architectural Studies (p. 167)
- Interior Design (p. 175)
- Landscape Architecture (p. 180)
- Landscape Architectural Studies (p. 177)

**J. William Fulbright College of Arts and Sciences**
- Anthropology (p. 200)
- Art (p. 204)
- Biology (p. 215)
- Chemistry (p. 221)
- Classical Studies (p. 231)
- Communication (p. 234)
- Criminal Justice (p. 236)
- Earth Science (p. 238)
- Economics (p. 240) (Bachelor of Arts)
- English (p. 243)
- French (p. 357)
- Geography (p. 252)
- Geology (p. 254)
- German (p. 357)
- Graphic Design (p. 204)
- History (p. 259)
- Interdisciplinary Studies (p. 264)
- International Studies (p. 266)
- Journalism (p. 269)
- Mathematics (p. 283)
- Music (p. 292)
- Philosophy (p. 323)
- Physics (p. 325)
- Political Science (p. 340)
- Psychology (p. 344)
Second (or dependent) Majors
A second (or dependent) major may be earned in a degree program when a student already is pursuing a first major that is authorized to be given independently.

- African and African American Studies (p. 198)
- Asian Studies (p. 214)
- European Studies (p. 250)
- Latin American and Latino Studies (p. 281)
- Middle East Studies (p. 291)

Sam M. Walton College of Business
Accounting (p. 385)
Business, General (p. 403)
Business, International (p. 373)
Economics (p. 388)
Finance (p. 391)
Information Systems (p. 399)
Management (p. 403)
Marketing (p. 409)
Retail (p. 409)
Supply Chain Management (p. 413)

College of Education and Health Professions
Career and Technical Education (p. 424)
Childhood Education (p. 431)
Communication Disorders (p. 442)
Educational Studies (p. 445)
Elementary Education (p. 454)
Human Resource and Workforce Development Education (p. 457)
Kinesiology (p. 459)
Nursing (p. 446)
Public Health (p. 464)
Recreation and Sport Management (p. 466)
Special Education (p. 468)

College of Engineering
Biological Engineering (p. 477)
Biomedical Engineering (p. 480)
Chemical Engineering (p. 495)
Civil Engineering (p. 482)
Computer Engineering (p. 484)
Computer Science (p. 484)
Electrical Engineering (p. 488)
Industrial Engineering (p. 491)
Mechanical Engineering (p. 493)

Undeclared Major
Degree-seeking students who are undecided about their choice of a major field of study should enroll in the college or school that best reflects their current academic interest. Advisors in each academic unit can provide guidance to students who are undecided about their choice of a major field of study. Each college has its own rules concerning the point at which a student must declare a major.

Dale Bumpers College of Agriculture and Food Life Sciences (AFLS)
- Undergraduate students are expected to officially declare a major prior to earning 30 college credit hours. Advisors in each academic unit can provide guidance regarding majors and career opportunities to students with undeclared status and transfer students who have not declared a major. An administrative advising hold, to be released after meeting with an academic advisor, will be placed on undeclared students’ records each term until a major has been declared to encourage thoughtful consideration and selection of majors.

Faye Jones School of Architecture and Design (ARCH)
- Undergraduate students must elect one of the three academic departments upon acceptance into the School. Undeclared status is not an option.

J. William Fulbright College of Arts and Sciences (ARSC)
- Undergraduate students are expected to officially declare a major prior to earning 30 college credit hours. The Fulbright College Advising Center will provide enhanced advising services specific to exploratory students regarding major and career decisions. An administrative advising hold, to be released after meeting with an academic advisor, will be placed on undeclared students’ records each term until a major has been declared to encourage thoughtful consideration and selection of majors.

College of Education and Health Professions (COEHP)
- Undergraduate students are admitted into pre-majors in selected fields, including Communication Disorders (PCDIS), Nursing (PNURS), Elementary Education (PELED), and Human Resource Development (PHRWD). Students must apply to the majors associated with their pre-major in certain semesters, and should work with their advisors to determine the most appropriate time to make this application. Students are admitted directly to programs in Recreation and Sport Management, Educational Studies, Kinesiology, and Public Health. Students may also be admitted to the College as an undeclared student and should work with an academic advisor to declare a major or pre-major prior to earning 30 credit hours.

College of Engineering (ENGR)
- All undergraduate engineering students are classified as pre-engineering students until they have successfully completed the two semester freshman engineering sequence and achieved a C or better in MATH 2554, Calculus 1.

Walton College of Business (WCOB)
- Students pursuing a degree in Walton College are classified as pre-business until all core-business requirements are fulfilled.

Minors
Each college and school of the University of Arkansas can determine whether to offer minors within their respective departments and whether to allow a student to pursue a minor in another college or school. Most, but not all, minors are offered in fields in which a major is also offered. Students should check with academic advisers in their college or school to determine the eligibility and requirements of a minor. They are listed below.

Interdisciplinary
- Microelectronics-Photonics (p. 85) (administered by the Graduate School)
- Nanotechnology (p. 86) (administered by the Provost’s Office)
- Planning (p. 88) (administered by the departments of Landscape Architecture and Political Science)
- Sustainability (p. 88) (administered by the Provost’s Office)
Dale Bumpers College of Agricultural, Food and Life Sciences
Agricultural Business (p. 96)
Agricultural Communications (p. 104)
Agricultural Education (p. 104)
Agricultural Leadership (p. 113)
Agricultural Systems Technology Management (p. 104)
Animal Science (p. 114)
Crop Biotechnology (p. 122)
Crop Management (p. 122)
Entomology (p. 126)
Equine Science (p. 114)
Food Science (p. 130)
General Foods and Nutrition (p. 154)
Horticulture (p. 138)
Human Development and Family Sciences (p. 152)
International Economic Development (p. 104)
Landscape Horticulture (p. 138)
Natural Resources Management (p. 129)
Pest Management (p. 142)
Plant Pathology (p. 142)
Poultry Science (p. 143)
Turf Management (p. 138)
Minors offered by any other UA college or school

Fay Jones School of Architecture and Design
Interior Design (p. 175) (available only to students in the School of Architecture and Design)
Planting Design (p. 177) (for Horticulture majors)
Minors offered by any other UA college or school

J. William Fulbright College of Arts and Sciences
African and African American Studies (p. 198)
Anthropology (p. 200)
Arabic (p. 357)
Art History (p. 204)
Asian Studies (p. 214)
Biology (p. 215)
Chemistry (p. 221)
Child Advocacy Studies Training (p. 348)
Chinese (p. 357) with Business Orientation
Classical Studies (p. 231)
Communication (p. 234)
Criminal Justice (p. 236)
Economics (p. 240), Fulbright College
English (p. 243)
European Studies (p. 250)
French (p. 357)
Gender Studies (p. 252)
Geography (p. 252)
Geology (p. 254)
German (p. 357)
Historic Preservation (p. 252)
History (p. 259)
Indigenous Studies (p. 264)
Japanese (p. 357)
Jewish Studies (p. 269)
Journalism (p. 269)
Latin American and Latino Studies (p. 281)
Legal Studies (p. 340)
Mathematics (p. 283)
Medieval and Renaissance Studies (p. 290)
Middle East Studies (p. 291)
Music (p. 292)
Philosophy (p. 323)
Physics (p. 325)
Political Science (p. 340)
Psychology (p. 344)
Religious Studies (p. 347)
Social Work (p. 348)
Sociology (p. 352)
Southern Studies (p. 354)
Spanish (p. 357)
Statistics (p. 283)
Theatre (p. 355)

Sam M. Walton College of Business
Accounting (p. 385)
Banking/Financial Management/Investment (p. 391) (available only to students in the Sam M. Walton College of Business)
Behavioral Economics (p. 388)
Business Analytics (p. 399)
Business Economics (p. 388)
Business minor (p. 417) for non-business students
Enterprise Resource Planning (p. 416)
Finance (p. 391)
Financial Economics (p. 416) (available only to students in the Sam M. Walton College of Business)
Information Systems (p. 399)
Insurance/Real Estate (p. 391) (available only to students in the Sam M. Walton College of Business)
International Business (p. 373)
Management (p. 403)
Marketing (p. 409)
Nonprofit Studies (p. 416) (available only to students in the Sam M. Walton College of Business)
Retail (p. 409)
Supply Chain Management (p. 413)
Minors offered by the J. William Fulbright College of Arts and Sciences

College of Education and Health Professions
Rehabilitation and Addictions Studies (p. 467)
UAteach (p. 444)
Minors offered by any other UA college or school

College of Engineering
Minors offered by any other UA college or school

- Honors Studies
- Reserve Officers' Training Corps
- Cooperative Education
- Study Abroad
- Graduate, Law, Pre-Law and other Pre-Professional Programs

Honors Studies

Interested students should write to the Director of Honors Program in the appropriate college.

The honors program in the Dale Bumpers College of Agricultural, Food and Life Sciences provides students with opportunities for intellectual enrichment beyond the traditional undergraduate experience. This is accomplished through honors courses, completion of an undergraduate capstone honors project or thesis, and other significant activities including interactions with students in honors programs in other colleges. The results of the student’s original research or creative project may be published in Discovery, the undergraduate research journal of the Bumpers College, or Inquiry, the university-wide journal of undergraduate research and creative activity. In support of these efforts, participants in the Honors Program are eligible to receive an honors stipend in support of their research projects. The transcript and diploma of each honors graduate will designate the student as an honors graduate of the college. At the college commencement ceremony, each honors graduate will wear special regalia and have the title of their honors thesis and their mentors’ names listed in the graduation program. Students must maintain a cumulative grade-point average of 3.50 and subscribe to the Statement of Ethical Standards to remain in the program. For additional information, see the Bumpers College (p. 89) section of this catalog.

The College of Engineering has established an honors program to challenge superior students with a more in-depth academic program and research experience and to provide a structure for working more closely with faculty members and other students in a team environment. An honors program is highly recommended for individuals planning academic or research-related careers that require considerable critical and original independent thinking. Students must formally apply for admission to the Engineering Honors Program. Once accepted into the program, honors students take a minimum of 12 hours of honors courses (a minimum of 6 of these 12 hours must be in engineering), participate in undergraduate research and write an undergraduate thesis, and must fulfill any additional departmental requirements. To graduate with honors, a student must hold a cumulative GPA of 3.50 or better for all course work, computed at graduation. For more information, see the College of Engineering (p. 470) chapter of this catalog.

Campuswide Academic Honor Societies

For other academic honor societies, see the various school and college sections of this catalog.

Golden Key is an academic honor society open to selected juniors and seniors who have a minimum grade-point average of 3.50.

Order of Omega honor society is exclusive to members of the Greek community on the university campus. Selection of members is based upon leadership in the inter-Greek activities, academic honors, and contributions to the University community. A 2.50 GPA is necessary for membership consideration.
Phi Eta Sigma is an academic honor society for freshman students. Membership is selected in the spring each year, and the only requirement is a minimum GPA of 3.50 or better for the first semester of the freshman year.

Phi Kappa Phi is a national honor society whose primary objective is the recognition and encouragement of superior scholarship in all academic disciplines. Junior and senior undergraduate students who have a minimum GPA of 3.85 are eligible for membership. Also eligible are graduate students, registered for one year, who have a minimum GPA of 3.85.

Tau Alpha Upsilon is an honor society that honors outstanding students who live in the University of Arkansas Residence Hall system.

Who’s Who, a general honor society, honors students who have excelled in scholarship, leadership and campus activities throughout their college careers. Membership requirements are a minimum cumulative GPA of 2.00, completion of 85 credit hours, and at least two full semesters attendance at the University of Arkansas, Fayetteville, prior to application.

Campuswide Leadership Honor Societies

Blue Key is a service-oriented honor fraternity that recognizes outstanding scholarship, leadership and involvement in campus activities. Applicants must be classified as juniors and meet a minimum GPA of 2.75 for membership consideration.

Cardinal Key is a junior service-oriented honor society whose membership selection is based on scholarship, leadership, and community and campus activities. A 3.00 GPA requirement must be met in order to be considered for membership at the end of the sophomore year.

Cardinal XXX is a service-oriented honor society whose membership consists of a select group of sophomores. Membership selection is based on scholarship, leadership, and community and campus service. A 3.00 GPA is required for consideration, and selection is made at the end of the freshman year.

Gamma Beta Phi is a service-oriented honor society established to recognize and encourage excellence in education. Membership in the organization is open to students who are in the top 20 percent of their class.

Mortar Board is a senior honor society that considers outstanding scholarship, leadership, and service to the campus and community when selecting members. Applicants must have a 3.00 GPA in order to be eligible for consideration.

Reserve Officers’ Training Corps

A true job training program, ROTC is offered at the University of Arkansas through both the U.S. Air Force and the U.S. Army. Each department provides a unique, career-oriented set of courses relevant to future leadership positions within its particular branch. In addition to studying Aerospace Education or Military Science, students interact with one another in a practical setting as they examine and apply the dynamics of leadership, management, ethics, communication, and teamwork. Participants are given the background and comprehensive building blocks to become commissioned officers in the U.S. military, if qualified. Physical activities and summer orientation programs are enhanced with continually updated curricula. Classes are taught by military personnel, ensuring realistic perspectives on the military professions.

In the finest traditions of the University of Arkansas and the ROTC programs, students are challenged to grow, develop and assume responsibilities throughout their academic years. Underlying that teaching is a foundation of service, integrity and excellence – expected and demanded of all officer candidates. Scholarships and details of the two programs are found in the ROTC chapter of this catalog. Army ROTC is located in the Army ROTC building, 479-575-4251 or toll free 1-866-891-5538, armyrotc.uark.edu. Air Force ROTC is located in 319 Memorial Hall, 479-575-3651, afrrotc.uark.edu.

Cooperative Education Program

Cooperative Education is a unique program offered by the Office of Career Services that allows students to alternate between going to school and working in their chosen vocation. In addition, the program allows employers the opportunity to train and evaluate future employees before offering them positions.

Employment assignments are diversified to provide students with a variety of experiences related to their major field and with work of increasing difficulty and responsibility. Although the primary objective is to supplement theoretical knowledge with practical experience, students earn full-time pay while on work assignments. This benefit produces welcome income while the students are still pursuing a degree.

Positions are available to students in many disciplines, primarily engineering, architecture, landscape architecture, business, agriculture, natural science and mathematics. Co-op students must be in good academic standing, must be at least 18 years of age, must be making normal progress toward a degree, and must meet the specific requirements of their college. (For example: the College of Engineering and Dale Bumpers College of Agricultural, Food and Life Sciences require completion of the freshman year; Fulbright College of Arts and Sciences requires 45 credit hours and a 2.5 grade-point average; the Walton College of Business requires completion of pre-business program requirements; and the Fay Jones School of Architecture requires completion of the junior year.) In addition, employers may establish their own academic criteria for selecting students.

For further information, contact the Career Development Center, 607 Arkansas Union, 479-575-2805.

Study Abroad

The university encourages the expansion of students’ educational experiences through study abroad. Student exchange programs have been established with Kansai University and Shimane University (Japan), Hankuk University (Korea), Al-Akhawayn University (Morocco), University of Graz (Austria), University of Essex (England), University of Maine (France), and Carlos III University of Madrid (Spain). Other UA study abroad programs include summer/semester/year-long programs in Austria, England, Scotland, Ireland, France, Germany, Italy, Mexico, and Spain. A limited number of scholarships and travel grants are available each year for these programs.

For more information about study, work, and travel abroad, contact the Office of Study Abroad, 722 W. Maple, 479-575-7582. Students in the Dale Bumpers College of Agricultural, Food and Life Sciences may contact Dr. Andrew Proctor, Director of International Agricultural Programs, Bumpers College Dean’s Office, E-108 AFLS Building, 479-575-2252, aproctor@uark.edu. Students in the Walton College of Business may contact the Undergraduate Programs Office at 479-575-4622. Students in the College of Engineering may contact the Assistant Dean for International Programs at 479-575-7236.
Graduate and Professional Study
The University of Arkansas is the major center for comprehensive graduate-level instruction in the state, offering students the opportunity to continue their studies or to specialize in a particular field through the Graduate School. The university offers a wide range of graduate degrees, including the master's, the Educational Specialist, the Doctor of Education, and the Doctor of Philosophy. Non-degree graduate certificates are also offered. Information about graduate programs may be found in the Graduate School Catalog or at grad.uark.edu.

The School of Law on the Fayetteville campus offers a juris doctor degree program for qualified students with a bachelor’s degree, and it offers the nation’s only master’s program in agricultural law for students with a law degree. Further information concerning professional study may be obtained by contacting the School of Law dean’s office for a copy of the current catalog: University of Arkansas School of Law, Leflar Law Center, 107 Waterman Hall, Fayetteville, AR 72701, 479-575-3102 or at law.uark.edu.

Pre-Law
The University of Arkansas School of Law does not prescribe a specific pre-law curriculum and does not require any single “pre-law major.” Prospective students are encouraged to select baccalaureate majors best suited to individual interests and abilities, and writing courses are often very valuable.

A baccalaureate degree is required for admission to the University of Arkansas School of Law, except for those students in the Dale Bumpers College of Agricultural, Food and Life Sciences or the Fulbright College of Arts and Sciences who are admitted to the special six-year program. All applicants for admission are required to take the Law School Admission Test.

Other Pre-Professional Programs
Fulbright College offers pre-professional programs and advisers in law, medicine, dentistry, optometry, medical technology, chiropractic, physical therapy, pharmacy, dental hygiene, occupational therapy, social work, and theology. The Dale Bumpers College of Agricultural, Food and Life Sciences coordinates the pre-veterinary medicine program.

Enrollment Services
Mission
Enrollment Services seeks to enroll a diverse group of capable students, who will engage and excel at the University of Arkansas, and to assist these students in achieving their academic and career goals.

The mission of the Enrollment Services Division of the University of Arkansas is to enroll and graduate students who will engage fully in academic and service programs, develop intellectually and personally, and contribute to the campus, the state, and the global community. Encouraging academic engagement from a diverse group of communities will create a dynamic educational environment that will promote a broad learning experience for the entire campus community. To carry out this mission, the Enrollment Services Division is comprised of nine professional and service-oriented offices: Admissions, Center for Learning and Student Success, Financial Aid, Graduation and Retention, Nationally Competitive Awards, Orientation, Registrar, Scholarships, and UAConnect. Through collaborative efforts, Enrollment Services strives to:

- Promote the University of Arkansas and the pursuit of higher education;
- Foster initiatives that support diversity as a key goal of the University of Arkansas community;
- Attract, admit, and prepare new and returning students for enrollment on campus while working with academic affairs to ensure planned and sustainable growth in accordance with institutional priorities;
- Accurately and efficiently reduce financial obstacles through federal, state, institutional scholarship and aid programs;
- Commit to preparing traditional and non-traditional students, including returning adult learners, for academic achievement and success in life;
- Assist future, current, and former students as they navigate administrative requirements to achieve their academic goals;
- Ensure accuracy for registration and academic records;
- Commit to retaining students who enroll at the University of Arkansas and assisting them through academic transitions on their path to graduation;
- Prepare students to be nationally competitive;
- Craft and maintain policy that facilitates effective administration to support Division goals, including coherence of policy across all divisions;
- Develop innovations in the use of technology and information systems aimed at supporting a research engine for best practices in enrollment services and data-based decision making;
- Increase state and global knowledge by achieving a net increase in Arkansas residents holding bachelor’s, master’s, and doctoral degrees;
- Support the university’s pursuit to become a nationally recognized research institution that puts students first.

Orientation

All new undergraduate students are expected to participate in an orientation experience. The orientation program is designed to introduce every aspect of the university community to our students, enabling them to establish a bond with the institution and those here to support them. A significant aspect of this experience will be to provide students with information about the learning opportunities, resources, policies, support systems, and student activities at the University. New freshmen must attend orientation before enrolling in classes. For more information on New Student Orientation, go to orientation.uark.edu.

Academic Bankruptcy

Students returning to the University of Arkansas after an absence of five or more years may be eligible to declare academic bankruptcy if they meet the following criteria:

1. Must have been enrolled previously at the University of Arkansas, Fayetteville, as an undergraduate student and be returning as an undergraduate student.
2. Must not have been enrolled at the university during the previous five years.
3. Students who have attended another institution since their last attendance at the university must meet requirements for transfer students (2.00 GPA on all coursework attempted more than five years after last enrollment at the University of Arkansas, Fayetteville) to be eligible for readmission.

4. Must submit an application for readmission and official transcripts of all college work attempted since last attendance at the University of Arkansas by the application deadlines and submit a Declaration of Academic Bankruptcy form (http://registrar.uark.edu/1621.php) to the Office of the Registrar. The following are the conditions of academic bankruptcy:
   a. Students will forfeit all credit hours previously awarded by the University of Arkansas, Fayetteville. This includes course work completed at the university (regardless of grades earned), courses accepted in transfer, credit by examination, and any self-paced (correspondence) course work awarded.
   b. A new calculation of GPA and credit hours will begin when the student returns to the University of Arkansas.
   c. The transcript will reflect the student’s complete record (including all previous college work) with an added notation of “Academic Bankruptcy Declared.”
   d. Courses taken at another institution within five years of the last University of Arkansas enrollment will not be accepted for transfer. Coursework completed more than five years after last attending the University of Arkansas may be accepted in transfer, subject to university transfer credit policies. For purposes of this policy, University of Arkansas self-paced (correspondence) coursework will be treated in the same manner as transfer work.
   e. For the university to provide appropriate advising and (as required by Arkansas Act 1052) appropriate assessment, a student may be required to submit ACT, SAT, or ACT COMPASS test scores prior to registration for classes if, as a result of academic bankruptcy, that student is returning to the university as a freshman with fewer than 24 transfer hours.

Admission

Undergraduate Admission

Any person who intends to register for a course at the University of Arkansas must first be admitted to the university. Students returning to the university after an absence of a fall or spring semester must also complete an application.

The University of Arkansas offers a variety of services to students with physical or learning disabilities through the Center for Educational Access. Students with any type of physical or learning disability are strongly encouraged to contact the CEA in Room 209 of the Arkansas Union or call 479-575-3104 (TDD/Voice) to learn more about specific services and the overall accessibility of the university.

The university reserves the right to modify admission requirements. Application forms and the most current information about admission requirements are available from the Office of Admissions. Please send all application materials and supporting documents to the following address:

Office of Admissions
232 Silas H. Hunt Hall
1 University of Arkansas
Fayetteville, AR 72701
479-575-5346 or 1-800-377-8632
admissions.arkansas.edu (http://admissions.uark.edu)
uofa@uark.edu

When to Apply

Students interested in applying to the University of Arkansas for the fall semester are encouraged to apply by the November 1 priority deadline.
By applying early, students take advantage of scholarship, housing, and orientation privileges; however, regular fall applications will be accepted until August 1 prior to the start of term. Applicants for freshman scholarships are encouraged to apply for admissions by November 1 and complete the separate scholarship application by the priority scholarship deadline, November 15. Applicants for entering transfer scholarships should submit completed applications to the Office of Admissions and the Office of Academic Scholarships no later than April 1, for the fall semester, and October 1, for the spring semester.

**Deadlines for Admission Consideration**

Applications and required transcripts must be received in the Office of Admissions by the following deadlines to be accepted for the respective enrollment periods:

- **Fall** – August 1
- **Spring** – December 20

Students who are unable to submit their applications by the deadline may be denied admission and considered for admission for the following term.

International students should refer to “International Students” in this section for application deadlines, procedures, and requirements.

**Graduate School**

Applications for admission to the University of Arkansas Graduate School and an official copy of transcripts of the applicant’s academic record at each college and university attended since high school graduation, and official test score on the Graduate Record Examination (GRE) or other national standard test, must be submitted to the graduate school admissions office and approved in advance of registration. The transcripts will become a part of the student’s permanent file at the University. Applications may be obtained by writing to the Graduate and International Admissions Office, 213 Gearhart Hall, 1 University of Arkansas, Fayetteville, AR 72701; by calling 479-575-6246; by e-mailing gradinfo@uark.edu; or by applying at apply.uark.edu.

Additional information and procedures for making application to the Graduate School are included in the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/admissions).

**Admission to Graduate Standing**

To be admitted to graduate standing, a student must have 1) earned a baccalaureate degree from a regionally accredited U.S. institution or from an institution with substantially equivalent requirements for a baccalaureate degree and must have a GPA of 3.0 or better on the last 60.0 credit hours of attempted coursework prior to receiving the baccalaureate degree and 2) present satisfactory scores on the Graduate Record Examination (GRE) or other national standard test.

Admission to graduate standing does not admit a student to a specific program of study leading to a graduate degree. Therefore, in addition to satisfying the general requirements of the Graduate School, the applicant must also comply with the specific requirements and have the approval of the department in which graduate study is desired.

For more details, go to the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/admissions).

**How to Apply**

1. **Submit a completed application for undergraduate admission and the non-refundable application fee to the Office of Admissions.** You may apply for admission online at apply.uark.edu.

2. **Request that all required transcripts be sent to the Office of Admissions.** Only official transcripts will be accepted. Transcripts are not considered official unless submitted in a sealed, stamped envelope, or sent via electronic data interchange from the previous institution. Questionable or unreadable transcripts may be refused.

3. **All new freshmen and transfer students with fewer than 24 transferable credit hours must submit ACT or SAT scores.** Non-traditional students applying three or more years after high school graduation have the option of submitting the ACT COMPASS or The College Board Accuplacer to satisfy testing requirements. The University of Arkansas will not accept test scores taken more than five years prior to enrollment. Test scores should be sent directly to the university by the testing agency. The university’s institutional codes are: ACT-0144; SAT-6866.

4. **All students born after January 1, 1957, must submit immunization health records to the Pat Walker Health Center after admission.** Immunization proof is required prior to first registration. See the Health Center’s immunization page (http://health.uark.edu/immunizations).

5. **English Proficiency:** Applicants whose native language is not English must submit a Test of English as a Foreign Language (TOEFL) score of at least 550 (paper based), 79 (internet based), or a minimum score of 6.5 on the IELTS (writing) taken within the preceding two years. Students who have completed grades 10-12 at a U.S. accredited high school and have a satisfactory ACT English subscore may request a review for waiver of this requirement. Students transferring from an accredited U.S. institution (or institution in a country where English is the native language) with at least 24 transferable credit hours and successful completion of English Composition I and II with a grade of “C” or above will not be required to submit the TOEFL or IELTS for admission consideration. For more information about the TOEFL, you may write to TOEFL Services, ETS, PO Box 899, Princeton, New Jersey 08541, or visit ets.org/toefl (http://www.ets.org/toefl).

6. **The university shall admit only those applicants whose enrollment will not be detrimental to the quality of life and the educational programs of the university.** The Admissions and Appellate Board has final authority to interpret university admission or transfer policy and to grant a variance. An applicant who has withheld pertinent information regarding educational background or who has falsified information or credentials may be denied admission to the university or, if enrolled, may be immediately withdrawn.

**International Students**

All international students must present officially certified academic credentials, evidence of adequate financial support, and, for non-native English speakers only, a minimum TOEFL score of 550 (paper based),
New Freshmen
Applications are reviewed on an individual basis with consideration given to the applicant’s overall grade-point average (GPA) and standardized test scores. New freshmen and those transfer students with fewer than 24 transferable credit hours should have completed or be in the process of completing the following college preparatory curriculum in high school:

16 Units Total
• English 4 units
• Mathematics 4 units (Units must be equivalent to or higher level than Algebra I)
• Social Studies 3 units
• Natural Sciences 3 units
  • 1 unit general sciences – 2 units lab sciences (Choose two courses from biology, chemistry, and physics laboratory. Two years of principles of technology will meet one unit of natural sciences [physics]. Two years of applied biology/chemistry will meet one unit of natural sciences [biology].)
• Electives 2 units (To be chosen from English, foreign languages, oral communication, mathematics, computer science, natural sciences, and social studies)

Arkansas residents who have taken these course requirements and who have an overall high school GPA of 3.00 or better and an ACT score of 20 or an equivalent 930 SAT (Pre-March 2016) combined critical reading and math score or an equivalent 1020 Redesigned SAT score or better meet the minimum admission requirements. Out of state applicants must meet minimum admission requirements and may be required to meet higher standards, depending on demand. Students not meeting minimum admission requirements are still encouraged to apply and will be reviewed for possible admission by the Admissions and Appellate Board.

Accelerated Admission
Superior high school students who have completed a rigorous college preparatory curriculum may seek admission to the freshman class at the end of their junior year of high school. Applicants for accelerated admission must complete certain required subjects during three years of high school study, submit letters of recommendation, and submit an ACT or SAT score equivalent to at least the 90th percentile of the university’s previous entering class. Additional information and application materials may be obtained at the Office of Admissions, by calling 1-800-377-8632, or visiting admissions.uark.edu.

Non-Degree Seeking Students
Applicants who are not interested in working toward a degree while taking classes may, under certain conditions, be approved to do so upon submitting an application for admission. Degree-seeking students attending part-time or as an “undeclared major” should not confuse their status with this special, non-degree seeking category. Students who are admitted provisionally and placed in a non-degree seeking status until they earn a minimum 2.0 GPA on 12 credit hours should also not confuse their status with this special category. The Office of Admissions reserves the right to determine the proper category of admission and to determine what credentials may be required.

Classification as a special student permits enrollment in credit classes (or as an auditor) on a space-available basis; however, special students are not eligible for financial aid, and the university incurs no particular obligation to provide academic advisement.
Admission as a special, non-degree seeking student is not intended to serve as a means of access to regular, degree-seeking status nor is it intended for a person who has earned unsatisfactory grades in previous high school or college course work. Students who have been denied regular undergraduate admission are not eligible for this status. All special students are subject to the same regulations concerning scholastic probation, suspension, and dismissal as other undergraduate students. Students who have previously been assessed developmental course requirements or high school course deficiencies will retain that status as a special non-degree student.

Non-degree seeking students must meet course prerequisites and should be prepared to verify to the department by official documentation that university course prerequisites have been met, if appropriate. Students planning to enroll in any upper-division education courses should verify admission to the Teacher Education Program prior to registration. A non-degree seeking student may not enroll for more than nine hours of courses in a term without approval of the student’s academic dean. No more than 24 semester hours earned while in a non-degree seeking status will apply to a degree at the university.

Unless otherwise specified, students with non-degree seeking status who wish to be admitted into a degree program at the University of Arkansas must apply for admission as such prior to the beginning of the term for which the change of status is requested. All requirements for admission to regular status must then be met, except for students in the provisional non-degree-seeking status.

When to Apply
Non-degree seeking students must meet the same application deadlines as other students. See the Deadlines for Admission Consideration (p. 43) on the previous page for deadlines.

How to Apply
The following students may be considered for non-degree seeking status:

1. Visiting students who attend other colleges or universities and wish to enroll at the university to earn credits that they plan to transfer back to their home institution. It is the student’s responsibility to verify with his or her college that courses taken here will be acceptable as transfer credit.
   **Application procedure:** Submit a completed application, a non-refundable application fee, and a letter of good standing verifying eligibility to return to the home institution.

2. Students who want to take courses of special interest for personal or professional development but who are not interested in working toward a degree. Applicants in this category are normally expected to have been out of high school for five or more years.
   **Application procedure:** Submit a completed application and non-refundable application fee. Students who have been out of high school less than five years should submit a transcript and test scores verifying that admission requirements have been met. The application fee is not required for residents of Arkansas who are 60 years and older and wish to participate in the senior tuition waiver program (https://admissions.uark.edu/apply/seniorkline.php) or the University of Arkansas Mathematical Sciences website (http://math.uark.edu).

3. Students who already have a college degree and who want to take credited classes but not earn credit toward another degree at this time. Credits earned under this classification will not count toward a graduate degree.
   **Application procedure:** Submit a completed application and non-refundable application fee. Students who wish to enroll for successive terms should submit a transcript showing their degree.

4. Dually enrolled high school students. Dually enrolled high school students must have at least a 20 ACT score and a 3.00 high school GPA to enroll. Dually enrolled high school students are ineligible to enroll in remedial courses.
   **Application procedure:** Submit a completed application, a non-refundable application fee, ACT or SAT scores, a high school transcript, a letter of intent regarding courses in which the student wishes to enroll, and a letter of recommendation from the high school principal or counselor. Admissions applications should be submitted at least one month in advance of the term.

Dually enrolled high school seniors who plan to enroll in the fall as regular freshmen must submit a separate application for regular admission for the fall.

Placement and Proficiency Tests
ACT, SAT, ACT COMPASS, and College Board Accuplacer scores are used to determine placement in university courses. Students whose scores indicate the need for additional preparation may be placed in courses designed to prepare them for college-level work. (See Arkansas Requirements for Developmental Course Placement (p. 57).) Credit earned in such courses does not count toward degrees in all colleges. (See Courses That Do Not Count toward Degrees (p. 57).)

Freshman Composition Placement
- Students with ACT English scores lower than 19, SAT verbal scores lower than 450, ACT COMPASS writing skills scores lower than 80, or College Board Accuplacer sentence skills scores lower than 83 should enroll in the course sequence ENGL 0002 (ENGL 1014 beginning Spring 2018 pending approval) and ENGL 1023.
- Students with ACT English scores of 19-27, SAT verbal scores of 480-620, ACT COMPASS writing skills scores of 80 or higher, or College Board Accuplacer sentence skills scores of 83 or higher should enroll in ENGL 1013 and ENGL 1023.
- Students with ACT English scores of 28-29 or SAT verbal scores of 630-670 may enroll in ENGL 1013 and ENGL 1023 or in ENGL 1013H and ENGL 1023H.
- Students with ACT English scores greater than 29 or SAT verbal scores greater than 680 may enroll in ENGL 1013H and ENGL 1023H or elect exemption. Some degree programs require credit in composition, and students should confer with their advisors before exempting.

The Math Placement Test
All new first-year freshman students will be required to take the online mathematics placement assessment, available starting in April. To take the assessment, or for more information regarding it and its requirements, visit the University of Arkansas Mathematical Sciences website (http://math.uark.edu).

Arkansas State Requirements for Developmental Course Placement
Arkansas law specifies that all first-time entering freshmen enrolled in a bachelor’s degree program will be placed in either college-level credit courses in English and mathematics or remedial courses in English...
composition, reading, and mathematics on the basis of their scores on specified tests.

- Students who score below 19 on the English section of the ACT, below 450 on the verbal section of the SAT, below 80 on the Compass English section, or below 83 on the Accuplacer reading section must enroll in ENGL 0002 concurrently with ENGL 1013. This sequence will be replaced by one course, ENGL 1014, beginning Spring 2018 pending approval.
- Students who score below 19 on the reading section of the ACT, below 470 (Pre-March 2016) on the verbal section of the SAT, below 82 on the Compass reading section or below 78 on the Accuplacer reading section must enroll in PLSC 2003. Completion of PLSC 2003 with a grade of "C" or better will satisfy the reading requirement.
- Students who score below 19 on the mathematics section of the ACT, below 460 (Pre-March 2016) / 500 (Post-March 2016) on the quantitative portion of the SAT, below 41 on the math Compass section, or below 42 on the Accuplacer college-level math section must enroll in MATH 1204C beginning in Spring 2018 pending approval. (The Mathematical Sciences Department requires higher ACT/SAT scores for students to be placed in Math courses above MATH 1204C. Please see the Course Descriptions (p. 731) for MATH for details.)

Students may place out of these prescribed remedial courses with appropriate scores on the relevant subject placement tests offered through the appropriate university department:

- Students may place out of ENGL 0002 (ENGL 1014 beginning Spring 2018 pending approval) by earning a score of 80 or higher on the Compass writing skills section or a score of 83 or higher on the Accuplacer sentence skills section, or by demonstrating college-level writing skills on a required essay administered during the first week of class. Students in ENGL 1013 who exhibit writing challenges in their first essay may be asked to enroll concurrently in ENGL 0002 (or move to ENGL 1014 beginning Spring 2018 pending approval).
- Students who earn 70% or higher on the PALG section of the Math Placement Test may enroll in MATH 1204, a course that combines a review of pre-college algebra with college-level algebra; students who earn 80% or higher on the PALG section of the Math Placement Test may enroll in MATH 1203. Refer to information about the Math Placement Test (http://fulbright.uark.edu/departments/math/undergraduate/math_placement_test.php).

Students will be required to register for these courses during their first term at the university and, if necessary, in subsequent terms until passing grades have been earned in all required courses. Students who need further information or clarification are encouraged to discuss their course placement with their academic advisor or dean.

**Courses That Do Not Count toward a Degree**

The following courses do not count toward degree credit in any college or school: ENGL 0002, ENGL 0013, and MATH 0003.

The following courses do not count toward any degree in the College of Engineering: MATH 1203, MATH 1213, MATH 1284C, and ENGL 2003.

**Speech Communication Exemption Examination**

Students who have had speech in high school and/or experience in public speaking may elect to take this test for exemption from or credit in COMM 1313. Both the written and oral (a five-minute impromptu speech) examinations must be passed to receive exemption or credit.

**World Language Placement Examinations**

Students with previous world language experience in French, German, or Spanish are encouraged to take language placement examinations offered during summer orientation. Those test scores will be used by academic advisers to determine an appropriate world language placement level. Students who omit one or more courses in the basic language sequence will receive credit for omitted courses when they have validated their high placement by passing the course into which they were placed with a "C" or better. Conversation courses (3033, 4033) and self-paced (correspondence) courses may not be used to validate such prior knowledge.

**General Chemistry Placement Examinations**

These tests will be offered throughout the year. Students who performed at above average levels in high school chemistry may find it to their advantage to enroll directly in the second semester of general chemistry. This examination is designed to provide guidance in making this course selection. Students who place into the second semester of general chemistry and earn a grade of "C" or better in the course will also receive credit for the first semester of the course.

**English Language Use by Non-Native Speakers**

Non-native speakers of English admitted to undergraduate study at the University of Arkansas are required to present an acceptable writing score on one of the following tests: Internet based TOEFL (iBT), IELTS PTE Academic, or ELPT. Depending on exam scores, a student may be required to take one or more English Language and Culture (ELAC) courses prior to the beginning of classes in their first term of study. Non-native speakers in the following categories are exempt from this requirement:

1. Undergraduate students who transfer at least 24 hours of credit from U.S. institutions, including courses that meet the freshman composition requirement;
2. Undergraduate students who have completed grades 10 through 12 in and graduated from a U.S. high school and have obtained an ACT English section score of 19 or above or a SAT verbal score of 500;
3. Undergraduate students with a TOEFL iBT writing score of 28 or IELTS writing score of 6.5 or PTE Academic writing score of 77 or ELPT writing score of 81.

Diagnostic and placement testing is designed to test students’ ability to use English effectively in an academic setting, and its purpose is to promote the success of non-native speakers in completing their chosen course of study at the University of Arkansas. Test results provide the basis for placement into English Language and Culture (ELAC) support courses or course sequences. Courses are offered by the Graduate School and International Education for those students whose language skills are diagnosed as insufficient for college-level work at the level to which they have been admitted (undergraduate or graduate study). Credit in ELAC courses may count toward University of Arkansas degrees. Non-
Readmission

Any former student who wishes to return to the University of Arkansas after missing a fall or spring semester should complete an application for readmission. Undergraduate and graduate students assessed ELAC courses are required to complete these courses during their first semester of enrollment at the university.

When to Apply

An early readmission will enable a student to register during priority registration. The student should submit an application and all appropriate credentials at least one month prior to the time of registration. Registration dates and procedures are found on the Schedule of Classes (http://registrar.uark.edu/465.php).

Deadlines for Admission Consideration

Applications and required transcripts must be received in the Office of Admissions by the following deadlines to be accepted for the respective enrollment periods:

- Fall – August 1
- Spring – December 20

Students who are unable to submit their applications by the deadline may be denied admission and considered for admission for the following term.

Requirements

1. Students must be academically eligible to return to the university and are readmitted with the same academic status as held during their last attendance. Course work taken at another institution will not affect a student’s probationary status or university GPA. Students may change degree programs on re-admission to the University of Arkansas regardless of academic status, except for students entering the College of Engineering. A student who is not in good standing may not enter the College of Engineering. Students who have not satisfied their initial provisions of admission (but are still eligible to return) will be required to satisfy those conditions upon their return.

2. Students who have attended another institution while away from the University of Arkansas will be considered returning transfer students and must have either a 2.00 GPA on all college work attempted and/or a 2.00 GPA on all course work attempted since last attending the University of Arkansas. Official transcripts of all course work attempted since last attendance at the university must be submitted. (See Admission of Transfer Students.)

3. Students who previously attended or currently attend the university as special, non-degree seeking students and wish to return as degree-seeking candidates must apply for admission as freshmen or transfer students, furnishing all appropriate admission credentials, including any required test scores. All requirements for admission to regular status must be met. (See appropriate section of this catalog for requirements.)

4. Former students who are submitting petitions to either the Academic Standards Committee or the Admission and Appellate Board to request readmission must have on file all required documents by the application deadlines. (See the Academic Standards Committee Calendar (http://registrar.uark.edu/508.php) for deadlines for submitting petitions.)

School of Law

A baccalaureate degree is required for admission to the University of Arkansas School of Law, except for those students in the J. William Fulbright College of Arts and Sciences or in the Dale Bumpers College of Agricultural, Food and Life Sciences who are admitted to the special six-year program. All applicants for admission are required to take the LSAT. (See the Fulbright College Pre-Law Program (p. 186) or the Dale Bumpers College of Agricultural, Food and Life Sciences (p. 96).)

For complete details concerning admission to the University of Arkansas School of Law, see the Admission page (p. 43) or write to Office of Admissions, Leflar Law Center, University of Arkansas, Fayetteville, AR 72701; or by calling 479-575-3102. Applications can be submitted online at apply.uark.edu.

Transfer Students

Transfer Admission Requirements

Applicants who have attended other colleges or universities after high school graduation are considered transfer students. Applicants must submit official transcripts of all previous college courses attempted, whether or not credit was earned and regardless of whether the applicant wishes to transfer any credit to the University of Arkansas. Transcripts from each institution attended should be sent directly to the Office of the Registrar. All transfer students must meet the following requirements:

1. Have a cumulative GPA of at least 2.00 on all course work attempted;
2. Be eligible to return to the last institution attended. Grade-point average is calculated on all coursework attempted.

Students who have completed fewer than 24 transferable semester hours must, in addition to the above requirements, meet all requirements for freshman admission (see Admission of Entering Freshmen (p. 45)). Test scores and transcripts are also evaluated to determine whether State of Arkansas requirements for developmental course placement have been met. (See Registration (p. 57).) For policies regarding transfer of credit from other institutions, see Academic Regulations (p. 79).

Financial Aid and Scholarships

Financial Aid

The University of Arkansas annually awards nearly $180 million of financial aid and scholarships to students. Financial aid is divided into categories of grants, work, loans, and scholarships. Unless otherwise specified, a student needs to complete only two forms to apply for federal aid: the Free Application for Federal Student Aid (FAFSA), which analyzes the ability of the student’s family to pay for college, and the university’s application for admission. These forms collect information used by the Office of Financial Aid in determining awards. In some cases, copies of the parents’ and/or student’s tax return transcripts and verification documents are needed.

The Financial Aid Office (http://finaid.uark.edu) is part of Enrollment Services and is housed in Silas Hunt Hall, Room 114.
Scholarships
The University of Arkansas Academic Scholarship Office awards scholarships totaling more than $12 million for students each year. This total does not include funds that support external scholarships held by U of A students such as Governor’s Scholarships, Arkansas Academic Challenge Scholarships, or non-resident tuition waivers. Scholarships funded by the university fall into three broad categories: distinguished fellowships, academic scholarships, and special interest/skills scholarships. The scholarship information contained in this section applies to students entering for the 2016-17 academic year. Current high school students interested in matriculating for the 2017-18 academic year are encouraged to consult the Office of Academic Scholarships for the most up-to-date information.

The Academic Scholarship Office (http://scholarships.uark.edu) is part of Enrollment Services and is housed in Silas Hunt Hall, Room 114.

College and Departmental Scholarships
The following college and departmental scholarships are available to both entering and currently enrolled students at the University of Arkansas. Complete addresses and phone numbers of the colleges, schools, or departments listed below may be found in the respective college or school sections of this catalog.

Fay Jones School of Architecture and Design
The Fay Jones School of Architecture and Design offers a limited number of scholarships at various amounts to entering freshman in any of the degree programs offered by the School. Several scholarships are renewable annually to the recipient who maintains all the requirements of the scholarship.

Many upper level scholarships are available to continuing students. Applications are available in the fall, and recipients are selected in the spring for the following academic year. Find out more information about the Jones School’s scholarship applications (http://fayjones.uark.edu/admissions).

J. William Fulbright College of Arts and Sciences
The J. William Fulbright College of Arts and Sciences offers many outstanding scholarship opportunities. For comprehensive information about these awards, call 479-575-5219 or visit the Fulbright College’s scholarships page (http://fulbright.uark.edu/deans-office/offices-and-services/scholarships-and-fellowships).

Three college-wide scholarships merit special attention: Through the Sturgis Fellowship Program, Fulbright College offers premier scholarships worth $70,000 over four years to exceptionally talented students with the intellectual potential to become future leaders in society. In addition, all honors students are eligible to apply for research and study abroad funding through the Sturgis Grants Program. For information or an application, contact the Director of Honors Studies at 479-575-2509.

The King Fahd Center for Middle East and Islamic Studies offers substantial four-year and two-year renewable scholarships to superior students majoring in Middle East Studies. The program also offers competitive funding for language study in Morocco, Tunisia, and Egypt. Funding for summer study abroad and research projects is considered on a case-by-case basis. Scholarship applications and information about the program can be obtained by contacting mest@uark.edu or calling 479-575-4157.

In honor of the Fulbright commitment to international education, the college offers the J.W. and Elizabeth W. Fulbright Endowed Scholarship, which supports a year of study abroad. To qualify, students must display an interest in one of the following fields: literature, history (including theatre, art, and music history), jurisprudence, philosophy, archaeology, comparative languages, and those aspects of the social sciences that employ philosophical or historical approaches. For more information about these opportunities, call 479-575-5219 or visit the Fulbright College’s scholarships page (http://fulbright.uark.edu/deans-office/offices-and-services/scholarships-and-fellowships).

Dale Bumpers College of Agricultural, Food and Life Sciences
Scholarships for students seeking rewarding careers involving food, family, or the environment are made possible by generous gifts from many firms and individuals. The criteria for these scholarships include academics, financial need, interests, organizational involvement, and leadership. Bumpers College scholarships include the Division of Agriculture Land Grant Scholars Endowment Program which offers renewable scholarships to high achieving students; The Dale Bumpers Distinguished Scholars Program which provides an annual scholarship to an outstanding transfer student, an outstanding Ph.D. graduate student, and an outstanding M.S. graduate student; and International Study Abroad scholarships for students expanding their experiences around the world.

Information and application procedures for the more than 200 Bumpers College and departmental scholarships are available at the Bumpers College scholarship page (http://bumperscollege.uark.edu/academics/services/scholarships-and-financial-aid) or by contacting the Associate Director of Scholarship at 479-575-2252, or via email to dbcafs@uark.edu.

Sam M. Walton College of Business
The Boyer Fellowship is offered to Walton College students who have achieved at an outstanding level both in and out of the classroom. High grades and standardized test scores are required along with a strong academic curriculum and exceptional academic performance. Applicants for the Boyer Fellowship also must demonstrate financial need, be an Arkansas resident, and graduate from an Arkansas high school.

Other scholarships are available through the departments of accounting, information systems, economics, finance, management, marketing, and supply chain management, as well as through the Walton College’s general scholarship program. Scholarships are primarily awarded on the basis of academic achievement and/or financial need.

For further information on Walton College scholarships, contact the Undergraduate Programs Office at 479-575-4622.

College of Education and Health Professions
The College of Education and Health Professions offers several scholarship awards in varying amounts each year. Recipient selection is based on a variety of attributes that are specific to each award. Attributes may include but are not limited to: academic achievement, financial need, and character.
Scholarship applications are available during the month of January each year. The application is electronic and can be found on the college’s scholarship website (http://coehp.uark.edu/scholarships). Applications must be submitted by January 31st. All current and future students are strongly encouraged to apply. For further information please contact Lori Foster at 479-575-3208 or llfoste@uark.edu.

College of Engineering
The College of Engineering awards numerous scholarships and fellowships beginning with the sophomore year to continuing students, transfer students, and graduate students. Most scholarships are based primarily on academic performance. However, some scholarships are also awarded on the basis of financial need and diversity. Scholarships are available from both the college and its individual departments.

College scholarships are available to any engineering student while departmental scholarships are intended for students enrolled in a particular discipline of engineering. Students must be admitted to the University of Arkansas and accepted into the College of Engineering to qualify and receive either a college or departmental scholarship. The college has a one-step application process that allows students to be considered for all college level scholarships and departmental scholarships.

For more information concerning scholarship and diversity opportunities, please see the college's scholarship website (http://engineering.uark.edu/academics/scholarships-and-financial-aid.php).

Music and Band
The Department of Music offers scholarships (both music scholarships and band scholarships) for talented students who sing or play instruments. All scholarships are based on musical ability, academic achievement, and potential contribution to music department ensembles. Scholarships are renewable for up to five years (ten semesters), as long as the student meets the conditions specified on the scholarship letter or contract.

Music and band scholarships are available to music majors and to students majoring in other areas who participate in certain ensembles. All scholarships require an audition. To set up an audition, contact the music department at 479-575-4701 or the band office at 479-575-4100.

Financial Aid
The University of Arkansas annually awards nearly $180 million of financial aid and scholarships to students. Financial aid is divided into categories of grants, work, loans, and scholarships. Students need to complete the Free Application for Federal Student Aid (FAFSA), which analyzes the ability of the student’s family to pay for college, as well as the various scholarship applications offered through the Academic Scholarship Office, the university’s colleges and departments, and the Arkansas Alumni Association. These forms collect information used by the Office of Financial Aid and the university’s scholarship committees in determining awards. In some cases, copies of the parents’ and/or student’s tax return transcripts and other verification documents are needed.

Determining Financial Need
To determine financial need, a student must complete the FAFSA. Students release their information to the University of Arkansas by completing the college release section with the University of Arkansas Title IV Code of 001108.

There is a priority date of March 1 for the submission of the FAFSA for the approaching school year for new students. Federally funded financial aid will be awarded on the basis of need as reflected by the FAFSA.

The Student Aid Report from the FAFSA (consisting of several pages) will be sent directly to the student by the Central Processing Service. A student needs to be enrolled or accepted for enrollment before a financial aid award may be generated. To continue receiving financial aid, the student needs to make satisfactory progress toward a degree, as defined by the University of Arkansas, and complete the FAFSA each year. (See Satisfactory Academic Progress below.)

Application Procedure
1. Apply for admission to the university, if not currently enrolled or admitted.
2. Complete the Free Application for Federal Student Aid (FAFSA) and submit it to the federal processor by mail or online. You may submit the FAFSA at the Federal Student Aid website (http://www.fafsa.ed.gov).

To receive priority consideration for financial aid, all forms and applications need to be submitted by March 1. Students are encouraged to apply even if they miss this priority date. Funds will be available after the priority date.

A student has a couple of choices concerning processing his or her FAFSA. These include mailing the form to the Federal Student Aid Programs or submitting it electronically on the Federal Student Aid website (http://www.FAFSA.ed.gov). The processing time for electronic applications is three days, and processing time for mailed applications is four to six weeks.

Satisfactory Academic Progress (SAP)
Federal regulation requires that a student must be making satisfactory academic progress regardless of whether he or she has previously received Title IV aid. All students enrolled at the University of Arkansas who receive financial aid through the Title IV Assistance Programs must meet satisfactory academic progress requirements as defined below to be eligible for further aid. Satisfactory academic progress is deemed to have been made by any undergraduate student who meets both the quantitative and qualitative requirements indicated below.

Quantitative Requirements
There are two quantitative requirements that the student must meet in order to remain eligible to apply for federal financial assistance. First, the student must pass, at a minimum, 67% of the credits attempted while attending the university. For the purpose of the 67% rule, grades of 'W' and 'I' are not considered passing grades and the completion percentage is truncated after the first decimal place and rounded to the nearest whole number. In addition, the student will remain eligible to apply for aid as long as the number of credits required for the student's published degree plan.

A transfer student may have earned credits at another school that will count toward his or her degree at the University of Arkansas. Class credits transferred to the University of Arkansas and classes taken for remediation at the University of Arkansas are used in both the 67% and 150% calculation.
Governor’s Scholarships, Arkansas Academic Challenge Scholarships, funds that support external scholarships held by UA students such as more than $12 million for students each year. This total does not include The Academic Scholarship Office awards over 4,000 scholarships totaling housed in Silas Hunt Hall, Room 114.

The Academic Scholarship Office is a part of Enrollment Services and is committed to ensuring students have access to financial aid. However, if a student fails to pass at least 67% of the credits attempted or has attempted more than 150% of the number of credits required for graduation, then the student must appeal for reinstatement of financial aid eligibility.

Qualitative Requirements
A student is deemed to have met the qualitative requirements for satisfactory academic progress if they have a cumulative GPA of 2.0 or greater. By default, students who do not have any university credit will pass the qualitative requirement. The determination of each student's meeting the qualitative requirement for satisfactory academic progress will be made annually following the conclusion of the spring semester.

Additional Information About SAP Calculations
Dual majors and degrees are calculated at 150% of the total unit requirements of the primary plan. Changing of major will mean future SAP calculations will use the new primary plan or degree but all previous completed and attempted hours will still be used in SAP calculations. All transfer hours will be added into calculations as completed and attempted. Once an undergraduate degree is earned, students are only eligible for direct loans whether the degree is indicated by graduation or not. For second degrees, the calculation will monitor progress from the date of the previous degree (excluding technical certificates and associate degrees).

Graduate and Law Students
Satisfactory academic progress for graduate and law students is determined as described above with one exception. In order to meet the quantitative requirement that students pass at least 67% of credits attempted, graduate and law students must pass each course with a grade of C or better while attending the university at the graduate level.

Satisfactory Academic Policy Appeals
When a student loses federal aid eligibility because they failed to make satisfactory progress, they may appeal that result because of their injury or illness, the death of a relative, or other special circumstances. Their appeal must explain why they failed to make satisfactory progress and what has changed in their situation that will allow them to make satisfactory progress at the next evaluation. The only way to regain aid eligibility without a successful SAP appeal is by meeting the SAP criteria above.

Students who fail to meet the above requirements will be notified that their financial aid has been denied. Each student denied aid will automatically be given an option to appeal to the Student Aid Committee. The Committee will review each appeal on an individual basis to determine whether there are circumstances beyond the student's control that prevented him or her from maintaining satisfactory progress. The decision of the Committee is final in appeal matters.

Scholarships for New Students
Prestigious Fellowships
The University of Arkansas offers approximately 90 prestigious fellowships per year. The fellowships are given in one of four different programs: Honors College Fellowships, established in 2002; Bodenhamer Fellowships, established in 1998; Sturgis Fellowships, established in 1985; and Boyer Fellowships, established in 2000. The prestigious fellowships are among the most competitive in the nation and are awarded to the top 2 percent of students. U of A Fellowships are awarded competitively. Students who wish to apply should visit the Honors College website (http://honorscollege.uark.edu).

Graduate and Law Students
Satisfactory academic progress for graduate and law students is determined as described above with one exception. In order to meet the quantitative requirement that students pass at least 67% of credits attempted, graduate and law students must pass each course with a grade of C or better while attending the university at the graduate level.

Satisfactory Academic Policy Appeals
When a student loses federal aid eligibility because they failed to make satisfactory progress, they may appeal that result because of their injury or illness, the death of a relative, or other special circumstances. Their appeal must explain why they failed to make satisfactory progress and what has changed in their situation that will allow them to make satisfactory progress at the next evaluation. The only way to regain aid eligibility without a successful SAP appeal is by meeting the SAP criteria above.

Students who fail to meet the above requirements will be notified that their financial aid has been denied. Each student denied aid will automatically be given an option to appeal to the Student Aid Committee. The Committee will review each appeal on an individual basis to determine whether there are circumstances beyond the student's control that prevented him or her from maintaining satisfactory progress. The decision of the Committee is final in appeal matters.

Scholarships
The Academic Scholarship Office is a part of Enrollment Services and is housed in Silas Hunt Hall, Room 114.

The Academic Scholarship Office awards over 4,000 scholarships totaling more than $12 million for students each year. This total does not include funds that support external scholarships held by UA students such as Governor’s Scholarships, Arkansas Academic Challenge Scholarships,
Scholarships for New Students

Bodenhamer Fellowship
$17,500 per year and includes partial out-of-state tuition differential based on hours enrolled.

Requires application for admission along with the Honors College Fellowship application.
Priority Deadline: November 15 (Scholarship Priority Consideration Deadline)
Cumulative 3.00 GPA and 30 hours earned by the end of the second semester of each academic year.
Renewable for 4 years or 8 semesters total.
(For programs with degree plans longer than 4 years, extra semester(s) of funding may be available.)

32 ACT/1400 SAT (Pre-March 2016) or 1450 SAT (Redesigned SAT) and 3.80 GPA or higher. Strong academic curriculum and exceptional academic performance. Demonstrated leadership. Letters of recommendation required. Competitively awarded.

Sturgis Fellowship
$17,500 per year and includes partial out-of-state tuition differential based on hours enrolled.

Requires application for admission along with the Honors College Fellowship application.
Priority Deadline: November 15 (Scholarship Priority Consideration Deadline)
Cumulative 3.00 GPA and 30 hours earned by the end of the second semester of each academic year.
Renewable for 4 years or 8 semesters total.
(For programs with degree plans longer than 4 years, extra semester(s) of funding may be available.)

32 ACT/1400 or 1450 SAT (Redesigned SAT) and 3.80 GPA or higher. Strong academic curriculum and exceptional academic performance. Demonstrated leadership. Letters of recommendation required. Competitively awarded.

For majors in Fulbright College of Arts & Sciences. 32 ACT/1400 SAT (Pre-March 2016) or 1450 SAT (Redesigned SAT) and 3.80 GPA or higher. Strong academic curriculum and exceptional academic performance. Demonstrated intellectual curiosity and creative pursuits. Letters of recommendation required. Competitively awarded.

Requires application for admission along with the Honors College Fellowship application.
Priority Deadline: November 15 (Scholarship Priority Consideration Deadline)
Cumulative 3.00 GPA and 30 hours earned by the end of the second semester of each academic year.
Renewable for 4 years or 8 semesters total.
(For programs with degree plans longer than 4 years, extra semester(s) of funding may be available.)

For majors in the Sam M. Walton College of Business. 32 ACT/1400 SAT (Pre-March 2016) or 1450 SAT (Redesigned SAT) and 3.75 GPA or higher OR National Merit or National Achievement semifinalist. Strong academic curriculum and exceptional academic performance. Letters of recommendation required. FAFSA demonstrated financial need required. Graduation from an Arkansas high school and Arkansas residency required. Competitively awarded.

Academic Scholarships
A number of academic scholarships also are awarded to entering freshmen. Selection criteria include national test scores (ACT or SAT), grade-point average, National Merit or National Achievement recognition, quality and quantity of courses taken, application materials, and other pertinent factors. For online information, go to scholarships.uark.edu.
Transfer student scholarships are awarded to students transferring from two-year colleges in Arkansas in conjunction with the Arkansas Association of Two Year Colleges’ (AATYC) Academic All-Star program.
Nominations are submitted to the AATYC and recognized at their annual conference. Additional transfer student scholarships are also available. See scholarships.uark.edu.

University Enrichment Scholarship $2,000 non-renewable Students who have demonstrated outstanding academic leadership qualities and potential and are from under-represented communities, which include but are not limited to: underrepresented ethnic and minority groups; students with interest in fields of study that do not attract members of their ethnicity or gender; under-represented counties in Arkansas; or first-generation college students. Competitively awarded.

Jewel Minnis Scholarship $2,000 non-renewable Students who have demonstrated outstanding academic achievement. Competitively awarded.

Arkansas Academic All Star Transfer Scholarship AATYC Academic All Star receives annual award that pays tuition and tuition related fees up to $5,000 per year. Students nominated as AATYC Academic All Star by their Arkansas two-year college. Scholarship application is not required. Maintain 3.00 cumulative U of A GPA after each semester. Renewable up to five semesters.

Chancellor’s Transfer Scholarship $3,000 per year Arkansas residents with strong academic performance at Arkansas two-year colleges. Competitively awarded.

Phi Theta Kappa Transfer Scholarship $2,500 per year Awarded to top applicants from two-year colleges who are members of Phi Theta Kappa. Competitively awarded.

Transfer Scholarship $2,000 per year. Renewable for one year. Strong academic performance at another 2-year or 4-year college or university. Competitively awarded.

UA Scholarships – General Information

1. **November 15** is the priority scholarship deadline for entering freshmen. Applicants must apply to the university by November 1 to be considered for these scholarships.

2. An “entering freshman” is defined as a student who has not enrolled in another post-secondary institution in a fall or spring semester following graduation from high school.

3. Eligibility for renewal of the Chancellor’s Scholarship and general university scholarships is determined at the end of the second semester each award year. Students may “catch up” in summer terms by taking classes at their own expense on the Fayetteville campus.

4. These scholarships are generally awarded per academic year to cover the fall and spring terms, up to an eight-semester maximum for most students, or a ten-semester maximum for students in the Bachelor of Architecture, Bachelor of Landscape Architecture and the Master of Arts in Teaching programs, each of which is a five-year program. Renewal criteria are evaluated every two semesters.

**Special Scholarships and Conditions**

**ACT 1185**

Arkansas income taxpayers who earn a minimum of $5,500 in wages and, with their dependents, reside in a bordering state in a county or parish contiguous to an Arkansas county in which a public institution of
higher education is located may enroll at the University of Arkansas and receive the non-resident tuition award under the provisions of ACT 1185 of 1995, Section 34. The availability of funds may vary each year, and the students must provide certain documentation. Please contact the Academic Scholarship Office at 479-575-4464 for more information.

**Arkansas Alumni Association Scholarships**
The Arkansas Alumni Association, through its members, donors, chapters, and societies, sponsors five scholarship and grant programs. See brief information in the chart below. For information on the association’s scholarship program, visit the Arkansas Alumni Association website (http://www.arkansasalumni.org/s/1429/start.aspx).

**Air Force and Army ROTC**
The Air Force and Army Reserve Officers’ Training Corps programs offer a number of scholarship opportunities for entering freshmen and on-campus students. See the Reserve Officers’ Training Corps section of this catalog for detailed information.

**Military Benefits**
The University of Arkansas is approved by the Arkansas Department of Higher Education and the U.S. Department of Veterans Affairs to participate in military educational benefit programs for veterans, current military members, reservists, national guard, and dependents of veterans who are working toward a degree. For more information regarding programs and eligibility please contact the university’s Veterans Affairs Office.
can be used as a debit card for purchases at various locations throughout
Identification cards are made at orientation and at the ID Card Office
important academic announcements are frequently sent to the students
through university-assigned email accounts. Students must check this
addresses with the university and to report any change of address
failure to do so may result in undelivered official correspondence and announcements. Emergency
information is also required.

Military Student Scholarships
The University of Arkansas provides three different scholarships to
current and former military service members and the dependents of
service members. The military service member scholarship provides
35 one-year scholarships in the amount of $4,000 to support current
and former service members. The military dependents scholarship
provides 10 one-year scholarships in the amount of $1,500 to support
dependents of service members. The military book scholarship provides
10 one-semester scholarships (each fall and spring semester) in the
amount of $500 to support service members and dependents with book
expenses. Students should contact the Academic Scholarship Office at
479-575-4464 or http://scholarships.uark.edu for further information.

Registration
Undergraduate students, including students not declaring a major, must
enroll in one of six academic units: the J. William Fulbright College of
Arts and Sciences; the Dale Bumpers College of Agricultural, Food and
Life Sciences, the Sam M. Walton College of Business, the College of
Education and Health Professions, the College of Engineering, or the
Fay Jones School of Architecture and Design. Information regarding
registration periods and procedures is found on the Registrar's website
(http://registrar.uark.edu).

Registration Periods
Students must register during one of the formal registration periods.
Currently enrolled students are expected to register during the priority
registration held each semester for the following semester. New freshmen
are expected to register during orientation. New freshmen not already
registered during orientation should register during the open registration
period that immediately precedes the beginning of classes each semester.
New transfer students should contact their academic college for advising
and registration information. There is a late registration period of five days
at the beginning of fall and spring semesters, a one-day late registration
period at the beginning of intersessions and a one- or two-day late
registration period at the beginning of the summer sessions, but students
may find that many classes are filled.

Student Addresses
It is the responsibility of all students to maintain and correct their
addresses with the university and to report any change of address
promptly either in writing to the Office of the Registrar or on the Student
Information System (http://isis.uark.edu). Failure to do so may result in
undelivered official correspondence and announcements. Emergency
contact information is also required.

Important academic announcements are frequently sent to the students
through university-assigned email accounts. Students must check this
account frequently to avoid missing critical notices.

Identification Cards
Identification cards are made at orientation and at the ID Card Office
during the year. Several privileges on campus require an ID card, and it
can be used as a debit card for purchases at various locations throughout
the campus. Part-time students are also eligible for a card.

Academic Advising
Academic advising is an active, ongoing exchange between the advisers
and students, grounded in teaching and learning. Advising is based on
students gaining accurate and appropriate information and direction
to help make their educational experience relevant, coherent, and
meaningful. It is a process that assists students in connecting with the
University of Arkansas, making thoughtful decisions related to their
academic experiences, and maximizing their educational and career
opportunities. Quality academic advising is essential to achieving the
university’s vision. (Academic Advising Council Mission Statement, 2010)

While procedures may vary among schools and colleges, all successful
academic advising should include the following:

• A mutual respect between adviser and student with the student
  possessing final responsibility for successful completion of a degree.
• Respect for students’ ethnic and racial heritage, age, gender, culture,
national origin, sexual orientation, and religion, as well as their
  physical, learning, and psychological abilities.
• A developmental and educational process that occurs over time.
• Consideration of individual students’ interests, abilities, and needs.
• A collaborative effort to connect students to campus resources and
  services.
• Reasonable availability and accessibility to advisers.
• Interpretation of University of Arkansas, college, and departmental
  rules and courses.
• A student’s understanding of the purpose and nature of the university
  core courses.
• Recommendation of appropriate courses.
• A student’s understanding of and progress toward academic
  requirements.
• General information regarding career options and opportunities, with
  appropriate referrals as necessary.
• An understanding of and adherence to laws and regulations that
  relate to academic advising.
• Adherence to the highest principles of ethical behavior.

The University of Arkansas is committed to developing each student to his
or her fullest potential. To this end, programs in each college have been
established to improve the academic achievement and persistence of
students on academic warning and of other students in need of academic
assistance. Such assistance is provided through a variety of instructional
and informational services.

Courses That Do Not Count toward a Degree
The following courses do not count toward degree credit in any college
or school: ENGL 0002 Basic Writing (Sp, Su, Fa), ENGL 0013 Reading
Strategies for College Students (Sp, Su, Fa), and MATH 0003 Beginning
and Intermediate Algebra (Sp, Su, Fa).

The following courses do not count toward any degree in the College of
Engineering: MATH 1203 College Algebra (ACTS Equivalency = MATH
1103) (Sp, Su, Fa), MATH 1213 Plane Trigonometry (ACTS Equivalency
= MATH 1203) (Sp, Su, Fa), MATH 1284C Precalculus Mathematics
(ACTS Equivalency = MATH 1305) (Sp, Su, Fa), and ENGL 2003
Advanced Composition (Sp, Su, Fa).
Adding and Dropping Courses

A currently enrolled student who has registered during the advance registration period should make any necessary or desired schedule adjustments such as adding or dropping courses or changing course sections during the schedule-adjustment period of the same semester. Students may also add or drop courses during the first five class days of a fall or spring semester. Students who drop classes by the fifth day of classes in the fall and spring semesters will have their fees adjusted. (Refer to the Office of the Treasurer’s website (http://treasurer.uark.edu/Drop_Add_Class.asp) for summer dates and other sessions). Fee adjustments are not done for classes dropped after the first week of class. Drops and withdrawals are two different functions. In a drop process, the student remains enrolled. The result of the withdrawal process is that the student is no longer enrolled for the term. The two functions have different fee adjustment policies. Fee adjustment deadlines for official withdrawal are noted on the Treasurer’s Web site.

A student may drop a full-semester course during the first 10 class days of a fall or spring semester without having the drop shown on the official academic record. After the first 10 class days, and before the drop deadline of the semester, a student may drop a course, but a mark of “W,” indicating the drop, will be recorded. A student may not drop a full-semester course after the Friday of the thirteenth week of classes in a fall or spring semester. Drop-add deadlines for partial semesters, intersessions, and summer sessions are listed on the semester calendars located on the Office of the Registrar’s website (http://registrar.uark.edu).

Audit Registration

Students wishing to audit a class should contact the instructor teaching that class and request permission to audit. If the instructor approves the audit, the academic department will register the student in that class as an audit. Auditing of a class is allowed on a space-available basis, and a student must pay fees for that class. The instructor shall notify the student of the requirements for receiving the mark of “AU” for the course being audited. The instructor and the student’s dean may drop a student from a course being audited if the student is not satisfying the requirements specified by the instructor. The student is to be notified if this action is taken. The only grade or mark that may be awarded is “AU.”

Enrollment Status and Course Load

The enrollment status of undergraduate students is based on the number of hours enrolled in a term. The university recognizes full-time status as carrying a minimum of 12 semester hours in a regular (fall and spring) and summer term. Students should be aware that the minimum number of hours is insufficient for completion of a four-year degree program in eight academic semesters (four years). Since most university degree programs require a minimum of 120 semester hours, or 30 hours per year, a student should earn 15 hours per semester to complete most degree programs in four years (eight semesters). The university offers degree-completion plans; see the Office of the Registrar’s website (http://registrar.uark.edu/425.php) or the Academic Regulations (p. 73) section of this catalog.

The chart below shows the enrollment status for each term, based on hours enrolled.

<table>
<thead>
<tr>
<th>Term</th>
<th>Hours</th>
<th>Enrollment Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall, Spring, Summer</td>
<td>1-5</td>
<td>Less than half-time</td>
</tr>
</tbody>
</table>

Number of Hours Allowed per Semester

The number of hours in which a student is allowed to register includes self-paced (correspondence) courses taken through Global Campus, School of Continuing Education and Academic Outreach.

1. Undergraduate students who wish to enroll in more than 18 hours in a regular term must be approved by their academic dean’s office. Enrollment in an intersession is limited to a maximum of one lecture or lab course, with the exception of co-requisite courses, for a maximum of four hours.

2. Undergraduate students who wish to enroll in more than 21 hours in a regular term must get a recommendation from their academic dean’s office and be approved by the Academic Standards Committee. (http://registrar.uark.edu/student-records/academic-standards-committee-petition.php)

3. Undergraduate students who wish to take more than 7 hours in one five-week summer session or more than 14 hours total in the summer term must get a recommendation from their academic dean’s office and be approved by the Academic Standards Committee. (http://registrar.uark.edu/student-records/academic-standards-committee-petition.php)

4. For students with severe injury or illness of a temporary or permanent nature, less than 12 hours may be certified on a semester-by-semester basis as full-time with the approval of the student’s dean and the concurrence of a physician or licensed examiner.

Online Credit

Online Credit Hours for On-Campus Undergraduate Students

Any student pursuing an on-campus (face-to-face) undergraduate degree from the University of Arkansas may take up to 35 percent, of the total credit hours required to complete the degree, of regular online (semester/summer) and self-paced online (correspondence) courses for degree credit.

- A freshman (first 30 hours) may take no more than two courses (8 hours) online.
- No student can enroll in more than 12 hours of online courses in any given semester.
- For students that have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular (semester/summer) online and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for.
- Exemption from this policy may apply for students in their last semester. All exemption requests must be signed by the department chair and Dean’s office that oversee the degree program the student is pursuing.
- All online courses must include the course limits in the class notes presented to students when they register on UAConnect. For instance, the class notes for each class section should include:

<table>
<thead>
<tr>
<th>Hours</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>6-8</td>
<td>Half-time</td>
</tr>
<tr>
<td>9-11</td>
<td>Three-quarter</td>
</tr>
<tr>
<td>12 or more</td>
<td>Full-time</td>
</tr>
</tbody>
</table>
"Students pursuing an on-campus (face-to-face) undergraduate degree at the University of Arkansas have the following credit-hour restrictions for online and self-paced courses:

- "Only 35 percent of the total credit hours required to complete the degree can be obtained through online and self-paced course
- "A freshman (fewer than 30 credit hours earned) may take no more than two online and self-paced courses (8 credit hours)
- "No student can enroll in more than 12 online and self-paced courses in any given semester
- "For students that have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular (semester/summer) online and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for.
- "Other restrictions may apply due to federal financial aid policies."

* For students on financial aid, no more than 6 of these 12 credit hours can come from self-paced online (correspondence) courses. Other financial aid regulations and policies may be applicable on a case by case basis.

‡ International students enrolled full-time are limited to 3 credit hours of online courses per academic term due to federal policies.

Pass Fail
Registration for Grades of Pass-Fail for Undergraduates

Undergraduate students in some programs may register to take certain courses on a pass-fail basis. In such cases, a mark of "P" (passed) or a grade of "F" (failed) will be recorded. The grade will remain either "P" or "F" and may not be changed at a later date.

Students in the J. William Fulbright College of Arts and Sciences, the Fay Jones School of Architecture, and the Dale Bumpers College of Agricultural, Food and Life Sciences are eligible to enroll for certain courses on a pass-fail basis under the following conditions:

1. Students should contact the instructor teaching that class and request permission to enroll for a pass-fail grade. Instructors may deny this request when it is not consistent with course goals or methods (e.g., if there is significant group work or other types of collaboration by students). If the instructor approves, students should then seek approval from their adviser. (Students in Agricultural, Food and Life Sciences must also have the approval of their academic dean.)

2. That the student has attained sophomore rank or higher.

3. That the student is not on academic probation and has achieved a cumulative grade-point average of at least 2.00.

4. That such enrollment is limited to one course per semester.

5. That the total enrollment on a pass-fail basis be limited to no more than 18 hours in any student’s degree program.

6. That the courses involved are general electives and are not required as part of the student’s program, including major, minor, concentration, etc., or State Minimum Core requirements. Courses being used to fulfill any specific program requirement or to complete a State Minimum Core requirement are excluded from the pass/fail grading option and must be taken as a regularly graded course.

7. Registration for pass-fail credit must be completed prior to the final date for changing registration by adding a course.

Instructors can submit only a "P" or "F" grade on the final grade roster for a student approved for the pass-fail option. In order to receive a "P" the student must earn a grade of "C-minus" or above in the course. The "P" mark will not be counted in grade point average but will increment hours earned; the "F" grade will be counted in the grade point average.

Students in the College of Education and Health Professions may enroll in courses on a pass-fail basis under the same conditions but only in courses offered by the Fulbright College of Arts and Sciences or the College of Education and Health Professions. Walton College of Business and College of Engineering students may not take courses on a pass-fail basis.

Student Classification

Definitions of undergraduate student classification are as follows:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Course Hours Passed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>Less than 30 hours</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30 or more hours but less than 60</td>
</tr>
<tr>
<td>Junior</td>
<td>60 or more hours but less than 90</td>
</tr>
<tr>
<td>Senior</td>
<td>90 or more hours</td>
</tr>
</tbody>
</table>

Withdrawal from the University

Withdrawal from the University of Arkansas means withdrawing from all classes that have not been completed up to that time. A student who leaves the university voluntarily before the end of the fall or spring semester must withdraw from all classes on the student registration system or notify the Office of the Registrar in writing. Withdrawal may occur anytime during the semester through the last day of classes.

Withdrawal deadlines for summer sessions are listed on the semester calendars located on the Office of the Registrar’s website (http://registrar.uark.edu). Students who do not withdraw officially from a class they fail to complete will receive an “F” in that class. Students withholds on their registration should contact the Office of the Registrar for assistance in processing their official withdrawal from the university.

The deadline for a full fee adjustment for an official withdrawal is the day before the start of classes for that term. After that date a $45.00 withdrawal fee will be charged, and a percentage of the fees will be refunded. Refer to the Treasurer’s Web site for the deadlines and percentages.

Fee and Cost Estimates

Educational expenses will vary according to a student’s course of study, personal needs, and place of residence. Student progress or general course of action in pursuit of higher education at the University of Arkansas is determined during the application and acceptance process. At the conclusion of the application and acceptance process, the progress or general course of action for each student will be assigned a category, called a career.

The career categories at the University of Arkansas — in order of magnitude by the cost of tuition per credit hour — are Agricultural & Food Law, Law, Graduate, and Undergraduate. Students concurrently enrolled
in multiple careers will be assigned one primary career for all tuition billing purposes, called a billing career, based on the order of magnitude listed above. The Office of the Registrar is responsible for assigning the appropriate billing career. Students pursing an Undergraduate career will also be classified by undergraduate program. The undergraduate programs of College of Education and Health Professions’ plan of Nursing and the Fay Jones School of Architecture and Design’s undergraduate program of Architecture have specific tuition rates, while all other undergraduate programs are the Undergraduate tuition rate. Similar to career, although a student may be concurrently enrolled in multiple undergraduate programs, the Office of the Registrar will assign each student only one primary undergraduate program for tuition billing purposes based on the order of magnitude by the cost of tuition per credit hour. All fees, charges, and costs quoted in this catalog are subject to change without notice. A survey tool for tuition and fee estimation is available at the Treasurer’s website (http://treasurer.uark.edu/Tuition.asp?pagestate=Estimate).

Financial obligations to the University of Arkansas must be satisfied by the established deadlines. Payment may be made at the University Cashier’s Office in the Arkansas Union, Room 214, by cash, personal check, money order or certified check. E-check (electronic check) and credit/debit payments are made online on UAConnect (http://uaconnect.uark.edu). If you pay with a debit or credit card, there is a convenience fee charged of 1.8 percent.

Acceptance of payment for fees does not imply academic acceptance to the university.

**Estimated Expenses**

**Estimated Necessary Expenses for an Academic Year**

Estimates of necessary expenses listed below are for the 2017-18 academic year for a typical undergraduate student taking 30 credit hours per academic year at the University of Arkansas:

<table>
<thead>
<tr>
<th>Name</th>
<th>Undergraduate Resident</th>
<th>Undergraduate Non-Resident</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

* The standard undergraduate in-state tuition rate Is $246.12 per credit hour. Students enrolled in College of Business courses are charged $319.96 per credit hour in-state tuition. Students in the School of Architecture and Design are charged $270.66 per credit hour in-state tuition. Nursing students are charged $290.94 per credit hour in-state tuition.

** University fees per year include the following student-initiated and student-approved fees:
- Student Activity fee calculated at $2.64/credit hour $79.20
- Student Health fee, calculated at $7.25/credit hour $217.50
- Media fee, calculated at $0.86/credit hour $25.80
- Transit fee, calculated at $2.95/credit hour $88.50
- Network Infrastructure and Data Systems fee at $10.48/credit hour $314.40
- Facilities Fee, calculated at $15.60/credit hour $468.00
- College of Arts and Sciences Fee at $13.40/credit hour $402.00
- Library Fee, calculated at $2.77/credit hour $83.10

*** Weighted average expenses for living in a residence hall, double occupancy, with an unlimited meal plan. Actual room and board fees vary from $9,582.00 to $13,106.00 per academic year.

**** Budget amounts were adjusted for rounding to accommodate UAConnect budgetary rules.

When paying tuition, room and board, and associated fees, anticipated financial aid for a current semester may be deducted when it is listed as anticipated aid on the student's account. Students receiving financial aid are strongly encouraged to have sufficient personal funds available to purchase books and to meet necessary expenses for at least one month at the start of school as some aid funds may not be available for disbursement.

The latest information regarding costs and other aspects of university life may be obtained by calling or writing the Office of Admissions, 200 Hunt Hall, University of Arkansas, Fayetteville, AR 72701. In Arkansas call 1-800-377-8632; from outside of Arkansas call 479-575-5346.

**Fee Adjustments**

**Academic Semesters and Summer Sessions**: Students who officially withdraw (dropping ALL classes that have not been completed up to that time) from the University of Arkansas during the regular fall or spring semesters receive a cancellation of fees (see chart below), less an Administrative Withdrawal fee of $45. Students who officially withdraw from a summer session or who drop classes in the summer also receive a cancellation of fees (see chart below).

<table>
<thead>
<tr>

enrollment or deployment for military service, an original or official copy of the military activation or deployment orders to the university’s Veterans Resource and Information Center. A student whose spouse is a service member shall provide proof of registration with the Defense Enrollment Eligibility Reporting System (DEERS) of the Department of the Defense that establishes that dependent children reside in the household of the student and the service member.

Upon leaving the University of Arkansas because of active duty or deployment, the student may choose one of three compensatory options. The student may officially withdraw and receive full adjustment and refund of tuition and non-consumable fees for the term involved; the student can remain enrolled and arrange for a mark of “Incomplete” for each class and finish the courses 12 months after deactivation; or the student may receive free tuition and fees for one semester after deactivation. For more detailed information, read Fayetteville Policy 504.2 (http://vcfa.uark.edu/policies/fayetteville/avcf/5042.php).

<thead>
<tr>
<th>Title</th>
<th>Description</th>
<th>Amount**</th>
</tr>
</thead>
<tbody>
<tr>
<td>Facilities Fee</td>
<td>Provides support dedicated specifically to campus facilities needs, including major projects and deferred maintenance.</td>
<td>$15.60</td>
</tr>
<tr>
<td>Media Fee</td>
<td>The university’s student publications, specifically the Arkansas Traveler newspaper and the Razorback yearbook, are partially funded by the media fee. Students reserving a copy are provided with a Razorback yearbook.</td>
<td>$0.86</td>
</tr>
<tr>
<td>Network Infrastructure And Data Systems Fee</td>
<td>Provides support for the development and operation of the campus network, including electronic equipment, servers with software, and cabling. The network systems serve computer labs, academic and administrative buildings, residence halls and off-campus access facilities. Data systems will enable Web-based access to the university’s information systems for students, faculty, and staff. Also provides support for upgrades and replacement of the student information system.</td>
<td>$10.48</td>
</tr>
</tbody>
</table>
### Other General Fees

**Student Activity Fee**
Empowers the Associated Student Government (ASG) to make funding available to over 300 Registered Student Organizations and program activities on campus to develop lasting friendships and leadership abilities and provide all students with a unique opportunity to participate in cultural, educational, and recreational events throughout the year.

$2.64

**Student Health Fee**
Covers wellness and health promotion educational programs and healthy student behavior programs to maintain health and safety. Covers individual consultations with a certified wellness coach, consultation with a registered dietician and consultation with an orthopedic specialist from the community. Student Health Fee also covers sexual assault counseling, prevention and advocacy services. The Student Health Fee also covers mental health services, such as 24-hour mental health emergency care, the cost for two intake assessments with a mental health clinician per semester, most group counseling sessions, case management/referral services, psychiatric nurse consultations, refill requests and outreach/advocacy.

$7.25

**Transit Fee**
Helps fund the Razorback Bus Transit System, which services the campus and neighboring community year round.

$2.95

**Library Fee**
Provides additional support for library materials acquisition

$2.77

**Autism Support Program Fee**
$5,000.00/semester

**English Language Placement Test (ELPT)**
$15.00

**CLEP Registration Fee**
$30.00

**Compass Fee**
$45.00

**Developmentally Disabled Program Fee**
$5,000/semester

  - $35.00
- **International Student Mandatory Health Insurance**
  - $1,943/year
- **International student (non-immigrant) application fee**
  - $60.00
- **International student per semester service fee (non-immigrants)**
  - $95.00
- **Sponsored Student Management Fee**
  - $350.00
- **International Visiting Student Program Fee**
  - $300.00
- **Jean Tyson Child Development Study Center**
  - Materials per semester
    - $42.00
  - Infants/Toddlers/Pre-School per week
    - $250.00
- **Late payment:**
  - On Sept. 30 or Feb. 28 if balance has not been paid
    - $50.00
  - Additional fee at Nov. 30, April 30, and July 31 for fall, spring, and summer, respectively, if payment has not been made
    - $50.00
  - Mandatory international student health insurance
    - $1,836/year
- **Late Registration Fee – Prior to Census Day**
  - $25.00
- **Late Registration Fee – After Census Day**
  - $50.00
- **Late Test Registration Fee**
  - $20.00
- **New student orientation fees:**
  - First Year Experience (New Admits Only)
    - $55.00
  - Students (New Admits Only)
    - $85.00
  - Parents
    - $50.00
- **Nursing Application Fee (B.S.N. & R.N.-B.S.N.)**
  - $45.00
- **Nursing Application Fee (M.S.N. and D.N.P.)**
  - $40.00
- **Parking Permit (per vehicle)**
  - Remote
    - $66.96
  - Student
    - $99.55
  - Resident Reserved
    - $645.35
  - Parking Garage Reserved
    - $879.67
  - Motorcycle
    - $66.96

---

* Assessed each academic semester for which the student is enrolled: fall, spring, and summer

** Program/Service Specific Fees **
Some individual services at the university assess fees related to their respective service, such as the cost of administering national tests, late payments or choosing to park on campus.

**Teaching Equipment and Laboratory Enhancement Fees**

These fees provide and maintain state-of-the-art classroom equipment and instructional laboratory equipment. These fees vary, based upon the student’s college of enrollment.

During the regular fall, spring and summer academic semesters, these fees are assessed on a per credit hour basis (see chart below).

**Other General Fees**

Checks tendered to the university are deposited immediately. The university does not accept postdated checks. Checks returned for “insufficient funds” (NSF checks) are generally presented for payment only once. Each check returned by a bank for any reason will be assessed a returned check fee. The university may, at its discretion, verify available bank funds for any checks written for payment of indebtedness before accepting a check.

The University of Arkansas reserves the right to withhold transcripts or priority registration privileges, to refuse registration, and to withhold diplomas for students or former students who have not fulfilled their financial obligations to the university. These services may also be denied students or former students who fail to comply with the rules governing the audit of student organization accounts or to return property entrusted to them.

Requests for exceptions to university’s fees, charges, and refund policies must be made in writing. Instructions for submitting requests for exceptions to the various fees, charges, and refund policies of the university may be obtained as follows:
• For residence life and dining services fees, charges, and refund policies contact University Housing Assistant Director for Business, housing@uark.edu (housing@uark.edu) or (479) 575-3951.
• For parking services fees, charges, and refund policies contact: Parking and Transit, Administrative Services Building, 155 Razorback Road, (479) 575-3507.
• For other fees, charges, and refunds, contact the Treasurer’s Office, 214 Arkansas Union, Attention: Treasurer, (479) 575-5651.

Students receiving financial aid are strongly encouraged to have sufficient personal funds available to purchase books and to meet necessary expenses for at least one month at the start of school as some aid funds may not be available for disbursement.

Students are allowed to have automobiles at the university, although parking is quite limited. There is a parking permit and registration fee for each vehicle, varying in cost depending upon the parking option selected.

Resident Status
Student Residence Status for Tuition and Fee Purposes
Board Policy 520.8 (January 18, 1985, revised)

Determination of Residence Status

1. Purpose
The purpose of these regulations is to enable the administrative officers of the University of Arkansas to classify students for the purpose of paying student fees, as either “in-state” or “out-of-state,” so as to accord fairness and equity to the students of the university and to the public that provides support for the educational services provided by the university.

2. Initial Classifications
a. A student shall be admitted to the university in an “in-state” or “out-of-state” status for university fee purposes, as established under these regulations.
   Except as otherwise provided under these regulations, a student classified as “in-state” for university fee purposes at the time of admission must have established a bona fide domicile in Arkansas and must have resided continuously in this state in that bona fide domiciliary status for at least six consecutive months prior to the beginning of the term or semester for which fees are paid.

b. A bona fide domicile is a home of apparent true, fixed, and permanent nature, a place of actual residing for all purposes of living that may be distinguished from a temporary sojourn in this state as a student. The person claiming domicile in Arkansas must provide evidence of permanent connection with the State of Arkansas and demonstrate the expectation of remaining in this state beyond graduation. For purposes of implementing these policies, the administration is directed to articulate standards that will be applied in making the determination of residence.

c. Except as otherwise provided under these regulations, the domicile of an adult (18 years of age or older) or emancipated minor student shall be determined on the basis of his or her own domicile.

d. Except as otherwise provided under these regulations, the domicile and residence of an unemancipated minor student (less than 18 years of age) or an unmarried dependent who has not attained the age of 23 is legally that of the parents or surviving parent; or such other person legally standing in the place of a parent to the student and with whom the student in fact makes his or her home and who has been making substantial contributions to the support of the student for at least six consecutive months prior to the term or semester for which the fees are paid.

e. A student who cannot satisfy the criteria for Arkansas domicile and residence will be classified as an “out-of-state” student and will pay fees and tuition accordingly. The student on a temporary visa will be classified as a foreign student and will pay non-resident tuition and fees. A student who has been granted a permanent visa and has been domiciled in Arkansas for six consecutive months following receipt of the permanent visa shall be classified as an Arkansas resident for fee purposes.

f. The responsibility for registering under a proper classification for student fee purposes is placed upon the student. It is the duty of each student at each time of registration to call any question about residency classification status to the attention of the campus classification review officer in a timely fashion in order that the question may be settled (see 4. Procedures).

g. The six-month period required in paragraph A of these regulations may be waived for persons, their spouse, and their unmarried children who have not yet attained the age of 23 (dependents are the spouse and unmarried children who are legal dependents as defined by the IRS) and who move to Arkansas with attendance at the university only a by-product of the primary purpose of establishing domicile in this state.

h. An unmarried student who has not reached the age of 23 years having one parent residing in Arkansas (for at least six consecutive months immediately prior to the beginning of the term or semester in which the fees are to be paid) may be considered an “in-state” student for fee purposes, even if that student resided outside the state with the other parent before coming to Arkansas to attend the university.

i. Marriage is recognized as emancipation for both females and males.

j. The spouse of a person continuously domiciled in Arkansas (for at least six consecutive months immediately prior to the beginning of the term or semester in which the fees are to be paid) upon request shall be classified as “in-state” for fee purposes.

3. Reclassifications
a. The initial classification of a student will not prejudice a different classification for following terms or semesters. However, a student’s prior domicile is assumed to continue until he or she clearly establishes a new domicile in Arkansas (see #4 below).

b. A student previously classified as "out-of-state" may be reclassified as "in-state" for fee purposes if he or she has established a bona fide domicile in Arkansas and has resided continuously in this state in that bona fide domiciliary status for at least six consecutive months prior to his or her reclassification by the university. In order for an adult or an emancipated minor to establish a bona fide domicile in Arkansas, he or she must have left the parental home, must have established in this state a home of a permanent character as manifested objectively by good faith acts, and must have the expectation of remaining in this state beyond graduation. The single fact of presence in Arkansas for at least six months of attendance as a student enrolled in the University of Arkansas, or any other educational institution, neither constitutes nor necessarily precludes reclassification as one domiciled in Arkansas, but will be a factor to be considered.
4. Procedures
   a. A student shall have the burden of establishing any claim that he or she is entitled to be treated as “in-state” for fee purposes. Persuasive evidence to that effect must be presented in writing and verified under oath by the student. Mere claims of local domicile and duration of stay are of little weight. A student who knowingly gives erroneous information in an attempt to evade the payment of “out-of-state” fees may be subject to dismissal from the university.
   b. All disputed classifications for student fee purposes, whether at initial enrollment or subsequent enrollments, and all disputed reclassifications will be decided initially on each campus by a classification review officer designated by each chancellor.
   c. The chancellor of each campus will designate a campus classification appeal officer to receive petitions from decisions made by the campus classification review officer. Each campus classification appeal officer may, in his or her discretion, make investigations, receive evidence, and conduct informal hearings. After considering the case, the campus classification appeal officer will render a decision and notify the affected student of the decision in writing. Any decision of the campus classification appeal officer may be appealed to the vice president for academic affairs of the University of Arkansas System, who shall recommend final disposition to the president of the university.
   d. Written notice of the appeals procedure will be provided to each student raising a question about his or her status with the campus residency classification review officer.
   e. Determination of domicile will be based on a review of all pertinent facts, evidence, and circumstances that collectively show, in an objective and clear manner, the actual domicile of the student.

NOTE: In implementing these policies, it is presumed that dependent students who are classified as non-residents based upon parental/guardian domicile outside of Arkansas do not acquire Arkansas residency under Board of Trustees Policy 520.8 unless and until their parent(s)/guardian(s) have established a domicile in Arkansas, or the student has left the parental home and established a domicile in Arkansas evidenced by proof that he or she has established a home of a permanent character as manifested objectively by good faith acts, resided in Arkansas in bona fide domiciliary status for at least six consecutive months prior to his or her reclassification as an Arkansas resident, and demonstrates the expectation of remaining in this state beyond graduation.

Reclassification Deadlines
Students who have established a bona fide domicile in Arkansas following initial classification as a non-resident must request reclassification if they want their status recognized for fee purposes. Applications and appropriate documentation must be received by the Office of the Registrar no later than the fifth class day (second class day of a summer session) of the term for which in-state fee assessment is requested. Applications received after the deadline will be considered for the next term. All fees are to be paid by published due dates. Students who receive a favorable decision after payment will be provided a refund of out-of-state fees paid. Please direct questions about residence classification review procedures to the Office of the Registrar, 146 Silas H. Hunt Hall.

Resident Status of Native Americans
(Board Policy 520.1, “Waiver of Non-Resident Tuition for Native Americans.”)

Native American people in other states belonging to tribes that formerly lived in Arkansas before relocation, and whose names are on the rolls in tribal headquarters, shall be classified as in-state students of Arkansas for tuition and fee purposes, on all campuses of the University of Arkansas. Tribes so identified include the Caddo, Cherokee, Chickasaw, Choctaw, Creek, Delaware, Kickapoo, Osage, Peoria, Quapaw, Shawnee, and Tunica.

Resident Status of Members of the Armed Forces and Their Dependents
(Board Policy 520.7, “Fees for Members of Armed Forces and Dependents.”)

For the purpose of tuition and fees applicable for all programs of study, including distance learning programs, effective July 1, 2017, all campuses of the University of Arkansas System shall classify a student as in-state or resident, if the student meets any of the following criteria regardless of his or her residence:

1. A veteran who was honorably discharged or released from a period of not less than ninety (90) days of active duty in the United States Armed Forces within three (3) years before the date of enrollment in a program of study.
2. A dependent or spouse of a veteran under Paragraph 1.
3. A member of the armed forces.
4. A spouse of a member of the armed forces.
5. A Reserve Officers’ Training Corps cadet who has an executed armed forces service contract.
6. A dependent of a member of the active duty armed forces, when the member of the armed forces:
   a. is stationed in the State of Arkansas pursuant to permanent change of station (PCS) military orders;
   b. is continuously domiciled in Arkansas for at least six consecutive months before entering active military service and who maintains Arkansas as the permanent home of record while on active military duty, or
   c. demonstrates a change of bona fide domicile from another state to Arkansas at least 12 consecutive months prior to separation, discharge, or retirement from active military duty. This provision is forfeited if the military person does not return to Arkansas within 36 months after separation, discharge, or retirement from active duty.

7. A veteran using educational assistance under either Chapter 30 (Montgomery G.I. Bill–Active Duty Program) or Chapter 33 (Post-9/11 G.I. Bill), of Title 38 of the United States Code, who lives in the State of Arkansas while attending a school located in the State of Arkansas (regardless of his/her formal state of residence) and enrolls in the school within three years of separation and discharge or release from a period of active duty service of 90 days or more.
8. Anyone using transferred Post-9/11 G.I. Bill benefits (38 U.S.C. §3319) who lives in the State of Arkansas while attending a school located in the State of Arkansas (regardless of his/her formal state of residence) and enrolls in the school within three years of the transferor’s discharge or release from a period of active duty service of 90 days or more.
9. Anyone described in paragraphs 7 and 8 while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three year period following discharge or release.
as described in paragraphs 7 and 8 and must be using educational
benefits under either chapter 30 or chapter 33, of title 38 of the United
States Code.
10. Anyone using benefits under the Marine Gunnery Sergeant John
David Fry Scholarship (38 U.S.C. §§3311(b)(9)) who lives in the State
of Arkansas while attending a school located in the State of Arkansas
(regardless of his/her formal state of residence).
3319) who lives in Arkansas while attending a school located in
Arkansas (regardless of his/her formal state of residence) and the
transferor is a member of the uniformed service who is serving on
active duty.
12. A member of the armed forces or “covered individual” as identified in
Section 702 of the Veterans Access, Choice and Accountability Act of
2014.

This system-wide policy and procedure has been amended as necessary
for compliance with the requirements of 38 U.S.C. 3679, as amended, and

1 For the purpose of this policy, dependents are unmarried children
who are legal dependents of the military person as defined by the
IRS.

Resident Status of Students from Texarkana,
Texas, and Bowie County, Texas
(Board Policy 520.10)

In accordance with the reciprocity agreement described in H.C.R. 32,
signed by the governor of Arkansas on February 12, 1965, Board Policy
520.10 states, “Residents of Texarkana, Texas, and Bowie County,
Texas, will be classified as in-state students for university fee purposes at
the University of Arkansas.”

Room and Board

Campus Housing
(Rates are subject to change)
Single freshmen under 21 years of age are required to live in University
of Arkansas residence halls, fraternity or sorority houses, or with their
parents, unless permission to live off-campus has been obtained through
University Housing. Permission to reside off-campus is granted on a
semester basis and must be obtained prior to enrolling or prior to the
semester in which off-campus residency is desired.

Costs of room and board in university residence halls during the 2017-18
academic year range from $9,582.00 to $13,106.00 for double occupancy
rooms and with an unlimited meal plan. Single rooms are additional and
are available on a first-come, first-serve basis.

Housing for married students, students with family status, nontraditional,
graduate, and law students is limited and requires early application.

Summer rates for a room in a university residence hall during summer
sessions are $34.30 per day for single-occupancy rooms. Charges start
on the requested move-in day and run through the date of check-out.

Dining
Specific questions concerning on-campus meal plans may be directed to
University Housing 479-575-3951 or visit the Dining on Campus website

Fraternities and Sororities
Specific questions concerning sorority and fraternity living may be directed
to the Office of Greek Affairs 479-575-5001.

Off-Campus Housing
Students eligible to live off-campus may contact local real estate offices
for rental information or check the Off-Campus Housing website (http://
offcampushousing.uark.edu).

Senior Citizens
Waiver of Tuition and Fees for Senior Citizens
Arkansas residents who are 60 years of age or older and show proper
proof of age may choose to have tuition and fees waived for on-campus
courses under the senior citizen waiver of fees. Admission and enrollment
under these conditions is open only on a “space available” basis in
eexisting classes, and students choosing to use this waiver may not
register until just prior to the beginning of the term.

Tuition Fees
Fees below reflect those approved for the 2017-18 academic year.

Students classified as “in-state” for fee payment purposes are assessed
tuition. Students classified as “out-of-state” for fee payment purposes are
assessed additional non-resident tuition.

Official policies of the University of Arkansas Board of Trustees provide
the basis for classifying students as either “in-state” or “out-of-state” for
purposes of paying student fees. Board policies relating to residency
status for fee payment purposes are included at the end of this chapter of
the catalog. Out-of-state students who question their residency
classification are encouraged to contact the Registrar’s Office, 146 Silas
H. Hunt Hall, for more information about residency classification review
procedures.

The Arkansas Non-Resident Tuition Scholarship Award Fee will be
assessed for undergraduate non-residents (including transfer students)
and international students who are receiving the Non-Resident Tuition
Award. The fee will be 10, 20, 30 or 50 percent of the difference between
the in-state and out-of-state tuition per semester as long as students are
receiving the award. To view eligibility requirements, please view the
Academic Scholarship Office website (http://scholarships.uark.edu/nrta).

Academic Year
Undergraduate students are assessed tuition of $246.12 per credit
hour. Students with out-of-state residency status are assessed tuition of
$754.31 per credit hour.

Undergraduate students enrolled in developmental instruction courses are
charged tuition of $131.27 per credit hour in-state and $632.66 per credit
hour for out-of-state students.

Undergraduate students enrolled in the Walton College of Business
courses are charged tuition of $319.96 per credit hour in-state and
$1,010.78 per credit hour for out-of-state students.

Undergraduate students enrolled in the Fay Jones School of Architecture
and Design are charged tuition of $270.66 per credit hour in-state and
$825.59 per credit hour for out-of-state students.
Undergraduate nursing students are assessed tuition of $290.94 per credit hour. Students with out-of-state residency status are assessed tuition of $891.67 per credit hour.

Undergraduate students enrolled in College of Engineering courses are charged tuition of $283.04 per credit hour in-state and $867.46 per credit hour for out-of-state students.

Undergraduate students enrolled in Global Campus self-paced online correspondence courses are charged tuition of $130.00 per credit hour.

**Academic Regulations**

**Academic Integrity**

As a core part of its mission, the University of Arkansas provides students with the opportunity to further their educational goals through programs of study and research in an environment that promotes freedom of inquiry and academic responsibility. Accomplishing this mission is only possible when intellectual honesty and individual integrity prevail. Each University of Arkansas student is required to be familiar with and abide by the university’s Academic Integrity Policy (http://honesty.uark.edu/policy) at honesty.uark.edu. Students with questions about how these policies apply to a particular course or assignment should immediately contact their instructor.

**Excusable Absences:**

- There may be times, however, when illness, family crises, or university sponsored activities require a student to be absent from class. In these situations, the student is responsible for making timely arrangements with the instructor to make up work missed. The make-up work should be completed in a timeframe that has been arranged with the instructor. Such arrangements should be made in writing and prior to the absence, when possible.

- Examples of absences that should be considered excusable include those resulting from: 1) student illness, 2) serious illness or death of a member of the student’s immediate family or other family crisis, 3) University sponsored activities for which the student’s attendance is required by virtue of scholarship or leadership/participation responsibilities, 4) religious observances (see Students’ Religious Observances policy below), 5) jury duty or subpoena for a court appearance, and 6) military duty. The instructor has the right to require that the student provide appropriate documentation for any absence for which the student wishes to be excused.

**Religious Observances**

When students seek to be excused from class for religious reasons, they are expected to provide their instructors with a schedule of religious holidays that they intend to observe, in writing, before the completion of the first week of classes. The Semester Calendar (http://registrar.uark.edu/academic-dates/academic-semester-calendar) on the Office of the Registrar’s website will inform students of the university calendar of events, including class meeting and final examination dates, so that before they enroll they can take into account their calendar of religious observances. Scheduling should be done with recognition of religious observances where possible. However, faculty members are expected to allow students to make up work scheduled for dates during which they observe the holidays of their religion.

**Final Examination Policy**

Each faculty member is required to give final examinations at times specified in the final examination schedule. All final examinations must be given at times scheduled within the official final examination period designated for the course. A final examination represents the final assessment of each student’s knowledge of the subject material within a course. Whenever circumstances make necessary a deviation from the announced schedule, clearance for such deviation must be obtained from the appropriate dean and the Provost and Vice Chancellor for Academic Affairs.

During finals week, students are required to sit for no more than two final exams in a single calendar day period. Students with three or more finals in a single calendar day period have the right to an alternative exam date(s) for each exam exceeding two. They must submit a formal request for an alternative date in writing, along with an official copy of their class schedule for verification purposes, to the professors of those classes involved to see if one will voluntarily move the exam. If voluntary accommodation is not achieved, instructors of classes with lower enrollments will have to accommodate before classes with higher enrollments.

Requests must be submitted on or before the last day to drop a full semester class or classes with a mark of ”W”. Professors will provide the student with an alternative exam date and time no later than one week after the last day to drop a full semester class or classes with a mark of ”W”. All rescheduled final exams are to take place during the university designated final exam dates and times. If a student has an objection to the alternative exam date/time, she or he may appeal to the instructor’s department chair.

It is the policy of the University to minimize student participation in extracurricular activities during the final examination period. No meetings, social activities, athletic events, or other extracurricular activities that require student participation will be scheduled on Dead Day or during the final examination period. Any exceptions to this policy must receive prior approval from the Provost and Vice Chancellor for Academic Affairs.

**Grades And Marks**

Final grades for courses are “A,” “B,” “C,” “D,” and “F” (except for courses taken in the Fay Jones School of Architecture and the Dale Bumpers College of Agricultural, Food and Life Sciences).

<table>
<thead>
<tr>
<th>Grade/Mark</th>
<th>Given For</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Outstanding achievement, given to a relatively small number of excellent scholars</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Good achievement</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Average achievement</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Poor but passing work</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failure, unsatisfactory work</td>
<td>0</td>
</tr>
<tr>
<td>XF</td>
<td>Failure, academic dishonesty</td>
<td>0</td>
</tr>
</tbody>
</table>
No credit is earned for courses in which a grade of "F" is recorded. A
final grade of "F" shall be assigned to a student who is failing on the
basis of work completed and who has not completed all requirements.
The instructor may change an "F" so assigned to a passing grade if
warranted by satisfactory completion of all requirements. Students who
fail to present an acceptable reason for not having completed all course
requirements including the final examination will receive the grade they
would have received had they failed such requirements. In the case of an
"XF" grade given for reasons of academic dishonesty, upon graduation or
completion of the period of suspension, the student may request that the
"X" be removed from the transcript by submitting a written request to the
Provost/Vice Chancellor for Academic Affairs.

A mark of "I" may be assigned when a legitimate good cause has
prevented the student from completing all course requirements, and the
work completed is of passing quality. It is the discretion of the
instructor that determines what qualifies as a legitimate good cause. It is
recommended that the instructor, prior to the assignment of an "I" mark,
document the legitimate good cause and conditions for completing course
requirements. An "I" so assigned may be changed to a grade provided
all course requirements have been completed within 12 weeks from the
beginning of the next semester (excluding summer semesters) of the
student's enrollment after receiving the "I." If the instructor does not report
the grade within the 12-week period, the "I" shall be changed to an "F." When a mark of "I" is changed to a final grade, the grade points and
academic standing are appropriately adjusted on the student's official
academic records.

A mark of "AU" (Audit) is given to a student who officially registers in a
course for audit purposes (see Registration for Audit (p. 58)).

A mark of "CR" (Credit) is given for a course (for example, practice
teaching, certain seminars, certain honors colloquia, and courses where
credit is earned by examination) for which the university allows credit
toward a degree, but for which no grade points are earned.

A mark of "R" (Registered) is given to a student who is registered in a
course for no credit or grade points. This is typically used at the
undergraduate level for Study Abroad or other situations where a
placeholder mark is needed.

A mark of "S" (Satisfactory) is assigned in courses such as special
problems and research when a final grade is inappropriate. The mark
"S" is not assigned to courses or work for which credit is given (and thus
no grade points are earned for such work). If credit is awarded upon the
completion of such work, a grade or mark may be assigned at that time,
and, if a grade is assigned, grade points will be earned.

A mark of "W" (Withdrawal) will be given for courses from which students
withdraw after the first 10 days of the semester and before the drop
deadline of the semester.

"I," "AU," "CR," "R," "S," and "W" marks will not be counted in the grade-
point average. Grades of plus and minus are assigned grade-point values
in the Bumpers College of Agricultural, Food and Life Sciences (p. 89)
and the Fay Jones School of Architecture (p. 160). The grade-point
average is computed by dividing the total number of grade points by the
total number of credit hours attempted in courses for which grades (rather
than marks) are given. Students who utilized grade renewal or grade
forgiveness in retaking courses (prior to fall Semester 1986 and after fall
1996) have only the last grade used in computing grade-point averages.

**Undergraduate Grade Forgiveness Policy**

Under the Grade Forgiveness Policy, a student may improve the
undergraduate cumulative GPA by repeating a maximum of two courses
(up to nine hours) in which a grade of "D" or "F" was received and
requesting that the repeat grade be the only one that is counted in the
calculation. Only two such requests are available to any student in his or
her undergraduate career. The repeated grade must be the same
course taken at the University of Arkansas, Fayetteville. Only a course
in which a grade of "D" or "F" was earned may be repeated under the
Forgiveness Policy. The student must file a written petition to use grade
forgiveness indicating which course(s) he/she chooses to grade renew:
the petition must be completed and approved prior to graduation. Both
attempts at the course will remain on the transcript, but only the second
will be used to calculate both credit and GPA. The first attempt and the
grade earned will be recorded on the transcript with the symbol "R" to
denote that it has been repeated. Students considering grade forgiveness
should be aware that many graduate schools, professional schools,
employers or other institutions, in considering admission or employment,
recompute the GPA and include all courses attempted even though a
course was repeated. This means that if the cumulative GPA has been
raised because of grade renewal or forgiveness, the recomputed GPA
will be lower. The Grade Forgiveness Policy begins with the Fall 1996
semester. This policy may be used to forgive the grade of courses taken
prior to that semester as long as the retaken course was in or after the
Fall 1996 semester.

**Academic Bankruptcy**

Students returning to the University of Arkansas after an absence of five
or more years may be eligible to declare academic bankruptcy if they
meet the following criteria:

1. Must have been enrolled previously at the University of Arkansas,
   Fayetteville, as an undergraduate student and be returning as an
   undergraduate student.
2. Must not have been enrolled at the university during the previous five
   years.
3. Students who have attended another institution since their last
   attendance at the university must meet requirements for transfer
   students (2.00 GPA on all coursework attempted more than five years
   after last enrollment at the University of Arkansas, Fayetteville) to be
   eligible for readmission.
4. Must submit an application for readmission and official transcripts of
   all college work attempted since last attendance at the University of
   Arkansas by the application deadlines and submit a Declaration of
   Academic Bankruptcy form (http://registrar.uark.edu/1621.php) to the
   Office of the Registrar. The following are the conditions of academic
   bankruptcy:
   a. Students will forfeit all credit hours previously awarded by the
      University of Arkansas, Fayetteville. This includes course work
      completed at the university (regardless of grades earned),
courses accepted in transfer, credit by examination, and any self-paced (correspondence) course work awarded.

b. A new calculation of GPA and credit hours will begin when the student returns to the University of Arkansas.

c. The transcript will reflect the student’s complete record (including all previous college work) with an added notation of “Academic Bankruptcy Declared.”

d. Courses taken at another institution within five years of the last University of Arkansas enrollment will not be accepted for transfer. Coursework completed more than five years after last attending the University of Arkansas may be accepted in transfer, subject to university transfer credit policies. For purposes of this policy, University of Arkansas self-paced (correspondence) coursework will be treated in the same manner as transfer work.

e. For the university to provide appropriate advising and (as required by Arkansas Act 1052) appropriate assessment, a student may be required to submit ACT, SAT, or ACT COMPASS test scores prior to registration for classes if, as a result of academic bankruptcy, that student is returning to the university as a freshman with fewer than 24 transfer hours.

**Academic Probation, Suspension and Dismissal**

A student’s academic status at the university is determined at the end of each regular term of enrollment (fall, spring, or summer) on the basis of the student’s cumulative and/or term grade-point average (GPA) and number of hours attempted. The student’s academic status governs his or her re-enrollment status and determines any conditions associated with re-enrollment or denial of enrollment for a subsequent term. Normally, students are notified of their status individually by the university shortly after the end of each term. However, this policy statement is the formal notification to all students of the conditions that determine academic status and the consequences for each term, regardless of individual notification.

**Good Status:** Upon initial admission and during a student’s first term of enrollment, except for students conditionally admitted on academic probation, the student is in good status. A student remains in, or returns to, good academic status at the end of any regular term (spring, summer, fall) when the cumulative GPA is at or above the required minimum of 2.0.

**Academic Probation:** When a student’s cumulative grade-point average at the end of any fall, spring, or summer term is less than 2.00 with more than three cumulative hours attempted, the student will be placed on academic probation.

**First-Year Freshmen:** First-year freshmen who have less than a 2.00 cumulative grade-point average at the end of their first semester of enrollment are considered at risk. During the first six weeks of their second semester, these at risk students must, at a minimum, consult with an academic adviser to develop a plan to get off of probation before being eligible to register for their third semester courses.

**Removal from Academic Probation:** When a student’s cumulative GPA at the end of any fall, spring, or summer term is 2.00 or above, he or she will be removed from academic probation.

**Continuing on Academic Probation:** The semester grade point average a student on academic probation must earn to continue on academic probation and avoid academic suspension depends on the cumulative grade hours attempted as outlined in the academic probation chart below.

**Academic Probation Chart**

<table>
<thead>
<tr>
<th>Hours Attempted (excludes grades of W)</th>
<th>Placed on Probation If Cumulative GPA Is:</th>
<th>Continued on Probation If Semester GPA Is:</th>
<th>Removed From Probation If Cumulative GPA Is:</th>
</tr>
</thead>
<tbody>
<tr>
<td>4-30 hours attempted</td>
<td>Less than 2.0</td>
<td>Greater than or equal to 1.8</td>
<td>Greater than or equal to 2.0</td>
</tr>
<tr>
<td>Greater than 30 hours attempted</td>
<td>Less than 2.0</td>
<td>Greater than or equal to 2.0</td>
<td>Greater than or equal to 2.0</td>
</tr>
</tbody>
</table>

**Academic Suspension:** A student on academic probation who does not earn the minimum required term GPA will be academically suspended. No student may be academically suspended who has not spent the prior term of enrollment on academic probation. A student on academic suspension will be on academic leave from the university for one major semester (spring or fall) and all contiguous summer and intersessions from the close of the term which resulted in the academic suspension. Thus, a student academically suspended at the end of the spring semester would not be eligible to enroll until the next spring semester; a student academically suspended at the end of the summer semester would not be eligible to enroll until the following spring term; and a student academically suspended at the end of a fall semester would not be eligible to enroll until the next fall semester. The first enrollment when returning from academic suspension may not be in an intersession.

Students who sit out for one major semester after the term of the academic suspension may apply for readmission to the university.

A student who does not earn credit from another institution may be readmitted on academic probation following academic suspension. A student who earns credit from another institution(s) during or subsequent to the academic suspension must apply to the university for admission as a transfer student and, if readmitted, will be on academic probation following academic suspension. A student readmitted on academic probation after academic suspension must make a semester grade-point average of at least 2.00 for each semester, (fall, spring, or summer) until he or she is removed from probation. Failure to do so will result in academic dismissal.

**Academic Dismissal:** A student who returns to the university after an academic suspension is continued on academic probation following suspension and must make a semester grade-point average of at least 2.00 for each fall, spring, or summer term until he or she is removed from academic probation. Failure to do so will result in academic dismissal.

**Returning after Academic Dismissal:** Students who sit out for at least one full academic year and submit at least 12 hours of general education core classes or upper-level classes with at least a 3.0 grade-point average in this coursework will be eligible for automatic readmission from their first academic dismissal. This can be done by taking self-paced courses through the Global Campus (http://globalcampus.uark.edu) at the University of Arkansas or by courses taken at another regionally accredited institution of higher education. Students meeting these requirements must complete a petition to the Academic Standards Committee (http://registrar.uark.edu/student-records/academic-standards-committee-petition.php) and submit official transcripts for all work attempted since being academically dismissed. The petition is to be
submitted to the Office of the Registrar (http://registrar.uark.edu) before applying (http://admissions.uark.edu) for readmission.

Students who do not meet these conditions, and students who have been academically dismissed more than once, must petition to the Academic Standards Committee (http://registrar.uark.edu/student-records/academic-standards-committee-petition.php) to be considered for readmission. It is strongly recommended that students meet with an academic adviser to develop a plan for returning from academic dismissal. Students approved for readmission from academic dismissal must reapply (http://admission.uark.edu) for admission.

A student who reenters the university by favorable action of the Academic Standards Committee after an academic dismissal is continued on academic probation after academic dismissal and must make a semester grade-point average of at least 2.00 for each semester until the cumulative GPA reaches 2.00 and he or she is removed from academic probation. Failure to do so will result in academic dismissal.

Individual colleges or programs have the discretion to set academic admission and continuation standards for specific programs that are higher than university standards.

Students who are not in good academic standing at the University of Arkansas may be enrolled in no more than six hours of self-paced Global Campus courses at any one time.

Waiver of Academic Policies

The Academic Standards Committee (http://registrar.uark.edu/student-records/academic-standards-committee-petition.php), composed of faculty and students, serves as a referral body for matters of academic probation, suspension, dismissal, and other rules and regulations related to academic progress and graduation. Petitions for waiver of academic rules and information on the petitioning process may be obtained on the Office of the Registrar’s website (http://registrar.uark.edu/418.php). Students should note petitioning deadlines.

Advanced-Standing Programs

Credit by Examination

There are two ways a student enrolled at the University of Arkansas, Fayetteville, may establish undergraduate credit by examination in courses offered by the university: either through the University of Arkansas Credit by Examination Program (see the next section), or through approved national testing programs, such as the College Level Examination Program (CLEP), the Advanced Placement Program (AP), or the International Baccalaureate Program (IB).

Credit established by examination must be evaluated in terms of the specific program the student wishes to pursue. The decision regarding the appropriate application of such credit to a degree program will be made in each college or school. Credit established by examination will be applied to a degree program in the same manner as credit established in any other way. If credit is earned by examination, the mark of CR will be entered in the student’s record. Grades are not assigned.

In certain instances, however, instead of actually receiving credit in semester hours, a student may receive advanced standing and be authorized to enroll for advanced courses in the subject matter area.

Credit by examination may not be used to satisfy minimum residency requirements as established by each college or school. Credit by examination is recorded only for students currently enrolled at the University of Arkansas, Fayetteville.

University of Arkansas Program

The following conditions apply to the departmental programs for credit by examination:

1. The student must apply for such examination using forms available in the academic dean or department office. Permission to take the examination must be obtained from the faculty of the department offering the course. The faculty of each department is responsible for designating the courses in that department that may be challenged by examination.
2. The appropriate department or college offering the course will designate and administer the examination.
3. A passing grade on the examination must be “B” or above. A second trial for credit by examination in that course will not be permitted.
4. A $25 credit by examination fee will be assessed per course.

National Testing Programs

When credit by a national examination is granted, the student’s academic record will list the score used as a basis for credit as well as the type of examination used to establish credit, such as CLEP subject examination or general examination, AP examination or IB examination.

Credit is awarded on the basis of official score reports, which must be sent by the national testing service directly to the Office of the Registrar, 141 Uptown East, University of Arkansas, Fayetteville, AR 72701. Minimum score requirements as established by the University of Arkansas, Fayetteville, must be met to receive credit.

College Level Examination Program (CLEP)

The University of Arkansas is a CLEP testing center and is authorized to administer CLEP examinations both on a national basis and on an institutional basis. However, CLEP examinations may be taken at scheduled times at any national test center, and the results sent to the University of Arkansas. The test center code number and score recipient code number for the University of Arkansas is 6866. For information or to make application, write to the Office of Testing Services, 1435 W. Walton Street, 1 University of Arkansas, Fayetteville, AR 72701, or telephone 479-575-3948.

Approval has been granted by the appropriate governing body, upon recommendation of the academic department, to award credit in the following courses by the use of CLEP examinations. Minimum scores for the paper-based version and the new computer-based version were established by the departments of the subject areas concerned.

Please note that minimum scores for credit for computer-based CLEP exams may differ from paper-based CLEP examinations.

**Advanced Placement Program (AP)**

The Advanced Placement (AP) Program of the College Entrance Examination Board gives students the opportunity to pursue college-level studies while still in high school and, with an appropriate score on an AP exam, to receive advanced placement and/or credit upon entering the University. The AP examinations are offered annually by high schools that participate in this program. The appropriate UA governing body, upon recommendation of the academic department, has authorized credit and/or placement for students who present qualifying scores in the AP courses listed below.

**Symbols for placement and credit:**
- P = placement;
- Pq = qualified placement (student may be placed in an advanced course, with credit awarded for prerequisite courses upon satisfactory completion, subject to departmental review.);
- C = credit;
- Cq = qualified credit (placement and credit subject to departmental review);
- E = Exempt.

* Students must pass a departmental test to receive credit.
** To receive credit for courses preceding the course for which AP credit has been granted, students must enroll in and complete with a grade of “C” or higher, that course which follows in sequence the course for which AP credit was granted.
*** At most, 3 hours credit allowed for AP Statistics.

**International Baccalaureate**

The International Baccalaureate (IB) program is a comprehensive and rigorous two-year high school curriculum offered in the United States and in 72 countries around the world. The IB program provides students with a balanced education, facilitates geographic and cultural mobility, and promotes international understanding through a shared academic experience. The IB program gives students the opportunity to pursue college-level studies while in upper secondary school and to receive credit for final examinations upon entering the University.

The IB examinations are offered annually, usually in May, by high schools participating in this program. Students seeking credit for examinations must request that a final, official IB transcript of certificate or diploma results be sent by mail to the Office of the Registrar, 146 Silas H. Hunt Hall, University of Arkansas, Fayetteville AR 72701. These materials may be requested from International Baccalaureate North America, 200 Madison Avenue, Suite 2007, New York, NY 10016, telephone: 212-696-4464.

Approval has been granted by appropriate academic departments to award credit in the following courses. The minimum scores were established by the departments of the subject areas concerned.

**Eight-Semester Degree Completion Policy**

The University of Arkansas is committed to helping all of its students identify and achieve their educational goals. The many University of Arkansas programs of study and activities provide opportunities to students to follow varied career and learning paths and enjoy educational experiences of different kinds. Plans for degree completion are available in the Catalog of Studies and from colleges, schools, and departments. Academic advising services in each college and school assist students in making plans for their own degree completion and in carrying them out consistent with students’ abilities, circumstances, and preferences.
The Eight-Semester Degree Completion Program (DCP), makes it possible for qualified degree-seeking freshmen to express their intention - and assume the associated obligations - to complete identified bachelor's degree programs of study in four academic years. The list of majors and degrees designed to be completed in eight semesters and for which the DCP is available is maintained by each college and school. It may be accessed from the DCP Web site and is published in the Catalog of Studies. Colleges, schools and individual departments can provide this list as well. Before registering for their first semester of study, all freshmen entering the university must accept participation, decline participation, or acknowledge ineligibility for participation in the DCP by signing the Participation Document. New freshmen will be notified regarding how to view the Participation Document on-line and learn more about registering for a Degree Completion Program. A student's participation or nonparticipation in the DCP will not affect scholarship eligibility.

Students who are admissible to the DCP and who choose to participate have the responsibility for meeting all requirements specified by the university and their degree completion plan and the responsibility for complying with the DCP policy. The university is responsible for providing academic support and for ensuring that students can complete university, program and course requirements within eight consecutive semesters. The university will also provide students with timely notifications to the student's official university e-mail address regarding advising, registration, and other requirement completion information.

A student may choose at any time to discontinue participation in the DCP without penalty. Students are encouraged to discuss such choices with an authorized academic adviser for the program of study. Participation and subsequent withdrawal from the DCP will not jeopardize the student's opportunity to complete the degree program, to do so in a timely manner, or to complete another degree program or major by fulfilling program requirements.

In some circumstances it may be in a student's best interest to decline participation or withdraw from the DCP. Examples include students who are not prepared to choose a major before enrolling for the first semester and students who feel that a full semester class load of 15 or 16 hours will be too heavy given other responsibilities. Other students may plan to study abroad for a semester in an institution where the required courses are not offered or to participate in a semester-long internship program not included in the program plan. A decision or need to work or participate in certain time-intensive curricular and extra-curricular activities such as band and intercollegiate athletics may make it impossible to schedule all requirements in some programs. A student may be required to withdraw from the DCP as a result of illness or other personal circumstances that make it impossible to do his or her best work, continue as a full-time student, or complete requirements in the time available. There are also a number of acts and events that may or will cause the DCP agreement to be voided; these are identified below in the section "Student acts and other events that will or may void the degree completion plan agreement."

Requirements for Admission to the Eight-Semester Degree Completion Program (DCP):

1. Participants must begin their program of study in the fall semester as first-time, full-time freshmen and must be committed to be full-time students able to enroll in and successfully complete at least 31-36 hours each academic year.

2. Participants must have chosen a major included in the DCP, must meet all admission requirements for the chosen program of study including applicable program grade point average and other grade requirements, and must have been admitted to programs requiring formal program admission.

3. Participants must be qualified to begin enrollment in the fall semester without being required to take remedial courses in math, English, or reading or other course prerequisites to entry-level courses in the chosen program of study.

Requirements for Continuance and Completion of the Eight-Semester Degree Completion Program:

1. Students must follow exactly the degree completion plan for the chosen major and must meet all the specified requirements in their degree plan each semester unless an alternative is approved by an authorized academic adviser for their program or unless they have already met the requirement.

2. Students must be continuously enrolled in and successfully complete at least 31-36 semester credit hours of appropriate course work each academic year as outlined in their degree completion plan.

3. Students must make satisfactory academic progress as defined by the university and degree program and must maintain the grade point average required by the university and the program of study.

4. Students must monitor their own progress in meeting the requirements identified in their degree completion plan, consistent with the program plan.

5. Students must register for classes at the first/earliest assigned time during their designated registration period each semester for the following term. For courses required for graduation, students must accept any available course or class section that does not conflict with other required courses. Students should understand that special scheduling accommodations cannot be guaranteed for work or other activities including athletics and band. Students must seek assistance from an authorized academic adviser for their chosen program of study if they are unable to identify or register for any course(s) required for that semester in their degree program. For situations in which an authorized academic adviser for the program cannot identify a required course for the student to take, the adviser must notify the department chair and dean for the student's program of study that it has not been possible for the student to complete registration for a required course for the next semester of enrollment. Notification must be made in writing immediately following the unsuccessful attempt to register. Consistent with the terms of the degree completion program, the chairperson or dean will identify an alternate course, in writing, to fulfill graduation requirements or will provide an override to allow the student to enroll in the required course(s). Students must complete registration no later than the last official day of class for the fall or spring term preceding the next term of enrollment, unless the identification of an appropriate course to complete the student's registration is still in progress.

6. Students must have prior written approval by an authorized academic adviser before enrolling in any course at another institution (such as concurrent enrollment, enrollment during a summer term, or study abroad) if the student wishes to transfer the course and have the course included in the coursework submitted for the degree completion plan.

7. Students must confer with an authorized academic adviser for their program before withdrawing from a required course as such a withdrawal will void the DCP agreement.

8. Students must at all times maintain an accurate local address, and telephone number in official university records. Students may make
changes to such information in the Student Information System Self Service component as needed and should make them immediately following any change. Students may also make changes by written notice to the Registrar.

9. Students must respond in a timely way to any official notice or message from an authorized academic adviser and to any official notice regarding registration, degree progress, financial obligations or aid, or any other university requirement.

10. Students must make timely application for all necessary financial assistance, consistent with deadlines.

11. Students must meet all university degree requirements (including formal application for graduation consistent with deadlines and requirements as established by the Registrar for the semester in which the student is scheduled for graduation).

**Student Acts and Other Events That Will or May Void the Degree Completion Plan Agreement:**

1. Withdrawing from ("dropping") a required course
2. Receiving a failing grade in a required course or receiving a grade below that required by the program
3. Changing one’s major or degree program
4. Withdrawing from the University of Arkansas
5. Failure to meet any degree requirement(s) as specified and in the time specified
6. Unauthorized non-payment or delayed payment of any tuition or fees
7. Incurring a disciplinary action affecting the student’s enrollment
8. Failing to comply with any other requirement of the Eight-Semester Degree Completion Policy.

**Appeal Process**

A student may appeal the voiding of the DCP to the dean of the college or school in which the student is enrolled. The appeal process requires that the student submit a statement of the basis for the appeal to the dean in writing within 30 days following notification of the voiding of the program, with a copy to an authorized academic adviser for the program. The dean will notify the student and the adviser of the outcome of the appeal within 60 days after receiving the statement.

**Graduation Rates**

In accordance with the Student Right-to-Know and Campus Security Act of 1990, the following table is a summary of the institution’s six-year graduation rates, those degree-seeking freshmen who enrolled in 2010 and graduated by 2016:

<table>
<thead>
<tr>
<th>Year</th>
<th>Total Graduate Men</th>
<th>Total Graduate Women</th>
<th>Total Graduate Overall</th>
<th>Percent of Total Men</th>
<th>Percent of Total Women</th>
<th>Percent Overall</th>
</tr>
</thead>
<tbody>
<tr>
<td>All</td>
<td>1,100</td>
<td>1,333</td>
<td>2,433</td>
<td>59.6%</td>
<td>69.1%</td>
<td>64.5%</td>

**Honors and Scholars**

**Dean’s and Chancellor’s List**

After the end of each semester, all colleges and schools in the university publish an honor roll of the names of the undergraduate students who achieve a 3.75 to 4.00 grade-point average. Students are eligible for the honor roll if they are carrying at least 12 semester hours normally required for graduation by their college for their respective year. This honor roll is the Dean’s List.

In addition, a Chancellor’s List is published each semester that recognizes those undergraduate students who achieve a 4.00 grade-point average. Students must also be carrying at least 12 semester hours normally required for graduation to be eligible for the chancellor’s list.

**First-Ranked Senior Scholars**

A first-ranked senior scholar must have a cumulative grade-point average of 4.00 on all course work completed at the time selection is made, must have applied for graduation for a semester to be a member of the appropriate class and must have completed all courses required for the baccalaureate degree at the University of Arkansas, Fayetteville, or in a program of study approved by the Director of Honors or other designee in the college in which the student is enrolled. In determining the cumulative grade-point average for the purposes of such awards, grade forgiveness is not accepted.

**Senior Scholar**

Selected graduating seniors who are among those with the highest grade-point average and who have completed at least half of their degree work at the University of Arkansas are recognized by each undergraduate college as a Senior Scholar.

**Graduation Honors**

For detailed, discipline-specific information, see the honors section for each college or school major. Students must be members of the Honors College to earn the distinction of graduating *cum laude, magna cum laude* or *summa cum laude*. The honors program in the college or school of major sets specific requirements for graduating with honors including a minimum of 12 honors credit hours and the completion of an undergraduate thesis. A combination of honors credit hours, thesis quality, and GPA requirements lead to Latin designation of *cum laude, magna cum laude* or *summa cum laude*.

**Requirements for Graduation**

**University Core Requirements**

In addition to the requirements listed below, undergraduate students must successfully complete 35 hours of courses in the University Core, also known as the “State Minimum Core.” See more on the University Core page (p. 81).
Enrollment Requirement
To ensure the opportunity to engage with faculty and peers in their area of study at the University of Arkansas, students must fulfill the U of A Enrollment Requirement:

1. Earn a minimum of 30 semester hours at the University of Arkansas, Fayetteville campus—this includes UA faculty-led study abroad classes, online/on-campus classes, and courses offered through the Global Campus (School of Continuing Education and Academic Outreach); and all other courses paid toward Fayetteville campus tuition and fees;
2. These 30 semester hours are to be upper-division semester hours required for the completion of a degree program;
3. Additional hours in residence can be required for completing a minor;
4. Hours earned in another school or college at the University of Arkansas, Fayetteville, may be used to satisfy this requirement — with appeal of appropriate faculty curriculum committee;
5. Appeals to the standards identified in this policy should be made to the Academic Standards Committee.

Minimum Credits
All students awarded a baccalaureate degree must have a minimum of 120 credit hours. Individual programs may require additional hours. Courses not marked in the course description as eligible to be repeated for degree credit may be included in this total only once.

Minimum Grade-Point Average
No student will be allowed to graduate if the student has earned below a 2.00 GPA in credit earned at this institution. No student will be allowed to graduate if that student’s academic standing is other than good standing.

Online Credit Hours for On-Campus Undergraduate Students
Any student pursuing an on-campus (face-to-face) undergraduate degree from the University of Arkansas may take up to 35 percent of the total credit hours required to complete the degree, of regular online (semester/summer) and self-paced online (correspondence) courses for degree credit.

• A freshman (first 30 hours) may take no more than two courses (8 hours) online.
• No student can enroll in more than 12 hours of online courses in any given semester.
• For students that have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular (semester/summer) online and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for.
• Exemption from this policy may apply for students in their last semester. All exemption requests must be signed by the department chair and Dean’s office that oversee the degree program the student is pursuing.
• All online courses must include the course limits in the class notes presented to students when they register on UAConnect. For instance, the class notes for each class section should include:

“Students pursuing an on-campus (face-to-face) undergraduate degree at the University of Arkansas have the following credit-hour restrictions for online and self-paced courses:

• “Only 35 percent of the total credit hours required to complete the degree can be obtained through online and self-paced course
• “A freshman (fewer than 30 credit hours earned) may take no more than two online and self-paced courses (8 credit hours)
• “No student can enroll in more than 12 online and self-paced hours in any given semester
• “For students that have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular (semester/summer) online and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for.
• “Other restrictions may apply due to federal financial aid policies.”

For students on financial aid, no more than 6 of these 12 credit hours can come from self-paced online (correspondence) courses. Other financial aid regulations and policies may be applicable on a case by case basis.

† International students enrolled full-time are limited to 3 credit hours of online courses per academic term due to federal policies.

Freshman Course Requirement
University Perspectives is an innovative required one-hour freshman course designed to enhance student success. A “flipped” class, it will have an online component in addition to in-class interaction. The course will emphasize the transition to the university and university-level work by addressing topics such as critical thinking and civic engagement. Other units intended to enhance overall student success include — note-taking, time management, and academic integrity. All freshmen must complete UNIV 1001 by the end of the first academic year.

Application for Graduation
Students who plan to graduate must file an official application to do so. Applications should be filed for the term in which degree requirements will be completed. A graduation fee will be required at the time of application.

To ensure that students will be certified for graduation in a timely manner, the following graduation application deadlines have been established:

<table>
<thead>
<tr>
<th>Date</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>October 1</td>
<td>for students graduating in Fall</td>
</tr>
<tr>
<td>March 1</td>
<td>for students graduating in Spring</td>
</tr>
<tr>
<td>July 1</td>
<td>for students graduating in Summer</td>
</tr>
</tbody>
</table>

Students must apply by the established deadline for that term. Any student missing the deadline may apply to graduate in a subsequent term.

A student who fails to complete the degree during the intended semester must contact the Office of the Registrar to renew the application for the term in which the degree requirements will be completed.
Other Graduation Requirements

Individual colleges and schools may have special graduation requirements, in addition to degree program requirements. Consult the college or school section in this catalog for statements of additional requirements.

Degree Program Requirements

A student’s degree program requirements are normally those specified in the catalog for the student’s first year of enrollment. However, students may choose to meet the program requirements specified in a catalog for a later year and, under some circumstances, students may be required to meet degree program requirements incorporated into the curriculum at a level beyond that at which the student is enrolled.

Students who transfer from institutions with articulation agreements with the university may also be allowed to meet the university program requirements in effect during their first year of enrollment in those institutions, subject to the time limits described below and the availability of course work. Students who transfer to a different degree program may be required to meet the program requirements specified in the catalog for the year of entry into that program. Students who are not enrolled for a period of two years or longer may be required to reenter under program requirements in the current catalog. Students who wish to be granted a degree on the basis of requirements specified in a catalog more than seven years old may be required to petition the college or school to be allowed to do so.

Students are expected to keep themselves informed regarding program requirements and changes.

Additional Bachelor’s Degree

A person with a bachelor’s degree from the University of Arkansas, or from any other institution, may not receive another bachelor’s degree without completing in residence at least 30 hours of additional, not necessarily subsequent, courses selected from the courses leading to a degree for which the person is a candidate.

More than 30 hours of course work may be required. In addition to the college or school requirements, the candidate must also meet all university requirements as stated in the catalog, including graduation and core requirements, except when course work for the first degree satisfies requirements for the second.

Student Grievances and Appeals

Informal Resolution

Undergraduate students who wish to seek further review of an academic or non-academic decision or action by the University or a University employee (in an official capacity) that the student contends was in violation of written campus policies, or constitutes unfair or unequal application of such policies, should first seek to resolve such concerns through informal discussions. In particular, grievances regarding academic matters should generally begin with informal discussions with the student’s instructor or with the faculty member supervising a course.

If such informal discussions do not reach a satisfactory resolution, then the student may pursue a grievance following the steps in this policy.

Applicability of Policy

This policy applies to undergraduate students enrolled in traditional courses as well as online courses. This policy does not apply to matters which are covered by other campus policies or appeal procedures, including, but not limited to, the following:

- grade appeals (see description of process below);
- allegations of discrimination or harassment (including sexual harassment) under the university’s non-discrimination policy;
- allegations of failure to provide reasonable accommodations for a disability;
- financial aid;
- enforcement of campus parking regulations;
- violations of the Code of Student Life or the university’s Academic Dishonesty Policy; or
- violations of the university’s Research Misconduct Policy.

In particular, matters involving allegations of unlawful harassment (including sexual harassment), discrimination and/or retaliation should be reported to the university’s Office of Equal Opportunity and Compliance, and matters involving alleged failure to provide reasonable accommodations for a disability should be pursued through the grievance process described on the university’s Center for Educational Access website. Additional information about each of the above policies is available on the university’s website and through the Office of the Dean of Students.

Furthermore, this grievance process is intended to address alleged violations of university policy with respect to individual students, rather than disagreements with existing policies. Questions regarding the applicability of this grievance policy to a particular issue will be determined by the dean of students, in consultation with the provost and other university officials, as necessary.

Formal Grievance Process

If efforts to resolve a grievance informally are not successful, no later than 60 calendar days following the decision or action that the student seeks to have reviewed, the student shall put the grievance in writing, clearly and succinctly stating the facts relating to the grievance and which policies the student contends have been violated or misapplied.

For an academically related grievance, the written grievance shall be submitted to the academic unit chair, head or his or her designee; if the concern relates to the chair, then the written grievance may be submitted to the Dean who may appoint an alternate official to consider the grievance. For a non-academic matter, the grievance should be considered by an administrator with authority over the relevant area.

The administrator considering the grievance will review the material provided by the student, and may, at the administrator’s discretion, gather any additional information that will be helpful to a decision, whether in writing or through meeting with the student or other persons involved. The administrator reviewing the grievance shall make a decision, in writing, within 10 working days after receiving the student’s grievance (excluding the day of receipt), or as soon as possible thereafter. The decision will explain the basis for the decision, remedial steps required, if any, and the procedure for requesting an appeal.

Appeals

If the student believes the grievance decision is in error, then that person may, within 10 working days after the date of the written decision, appeal the decision to the relevant dean (for an academic matter) or to the relevant vice chancellor or a designee (for non-academic matters). The administrator considering the appeal will review the material provided by the student, the grievance decision, any other material which has been assembled regarding the matter, and any applicable university policies.
and may, at his or her discretion, gather any additional information that will be helpful to a decision, whether in writing or through meeting or consulting with any individuals deemed necessary in the administrator’s discretion. The administrator reviewing the appeal shall make a decision, in writing, within 10 working days of receiving the student’s grievance, or as soon as possible thereafter. The appeal decision shall be final.

External Complaint Resolution

If a grievance cannot be resolved internally within the university, a student may file a complaint with the appropriate authority in his/her state of residence. Arkansas residents must file complaints in writing with the Arkansas Department of Higher Education (ADHE), 423 Main Street, Suite 400, Little Rock, AR 72201, within 20 days of completing the institution’s grievance process. As required by ADHE, the grievant must provide a statement from the institution verifying that the institution’s appeal process has been followed. ADHE inquiries are limited to courses/degree programs certified by the Arkansas Higher Education Coordinating Board (AHECB) under Ark. Code § 641#301 and to matters related to the criteria for certification. For other states, the State Higher Education Executive Officers Association website (http://www.sheeo.org/node/434), provides a list of appropriate state officials and/or entities for each state. Students may also contact the Higher Learning Commission of the North Central Association of Colleges and Schools (http://www.ncahlc.org), which is the university’s regional accrediting body, at 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604, or at inquiry@hlcommission.org or 1-800-621-7440. This information is provided pursuant to 34 CFR § 668.43(b).

Grade Appeal Structure for Undergraduate Students

If a student questions the fairness or accuracy of a grade, there is recourse through a student grade appeal structure. Disagreements shall be heard that allege the instructor’s policy was not applied consistently to all students, differed substantially from the announced policy, or that a policy was not announced. All grievances concerning course grades must be filed within one calendar year of the end of the term in which the grade that is being appealed was assigned. The procedures are:

The student should first discuss the matter with the instructor involved, doing so as soon as possible after receiving the grade. The instructor should be willing to listen, to provide explanation, and to be receptive to changing the grade if the student provides convincing argument for doing so. The student’s questions may be answered satisfactorily during this discussion.

If the student chooses to pursue the grievance and submits an appeal, the student shall take the appeal in written form to the appropriate department or unit chairperson of the program in which the course was instructed. The appeal should present the basis of the appeal and merits of the grievance with evidence the student may have to support the appeal. If that person determines the case has no merit, that person will inform the student and the instructor. If that person believes the complaint may have merit, that person will discuss it with the instructor. In the case that the department or unit chairperson is the instructor, the student should submit an appeal in written form to the appropriate dean of the college in which the course was instructed.

If the matter remains unresolved, it will be referred to an ad hoc committee composed of programmatic or departmental faculty. This committee would be appointed by the department or unit chairperson and should have at least three faculty representing the program or department in which the course was instructed. In the case where there are fewer than three faculty within the program or department to serve on the committee, faculty members from a closely related discipline will be appointed to serve. In the case where the department or unit chairperson is the instructor of the grievance, the ad hoc committee would be appointed by the appropriate dean of the college in which the course was instructed. The instructor whose grade is being challenged shall not serve on this ad hoc committee. The committee will examine available written information on the dispute, will be available to meet with the student and with the instructor, and will meet with others as it sees fit.

If the ad hoc faculty committee majority determines, through its inquiries and deliberations, that the grade should not be changed, the committee should communicate this conclusion to the student, the faculty member, and the chairperson. If the ad hoc faculty committee majority determines that the grade should be changed, the committee will request that the instructor make the change and provide the instructor with a written explanation. Should the instructor decline, he or she must provide an explanation for refusing in writing to the ad hoc faculty committee.

If the ad hoc faculty committee, after considering the instructor’s written explanation, concludes it would be unjust to allow the original grade to stand, it may then recommend to the department chairperson, or dean in the case where the department chairperson is the faculty whose grade is being challenged that the grade be changed. That individual (department chair or dean) will provide the instructor with a copy of the recommendation and will ask the instructor to implement it. If the instructor continues to decline, the chairperson or dean is then obligated to change the grade, notifying the instructor and the student of this action. Only the chairperson or dean has the authority to effect a grade change over the objection of the instructor who assigned the original grade, and only after the foregoing procedures have been followed.

Student Privacy

Annual Notice of Student Rights Under the Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are as follows:

1. The right to inspect and review the student’s education records, with some exceptions under the Act, within 45 days of the day the university receives a request for access. Students should submit to the Office of the Registrar written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. A sample form, which may be used in making this request, is contained in the appendix to university-wide Administrative Memorandum 515.1.

If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing
procedures will be provided to the student when notified of the right to
a hearing and is also contained in the university-wide Administrative
Memorandum 515.1.

3. The right to withhold consent of disclosure of directory information,
defined as the following information: the student’s name; address;
telephone number; email address; major field of study; classification
by year; number of hours in which enrolled and number completed;
participation in officially recognized activities and sports; weight and
height of members of athletic teams; dates of attendance including
withdrawal dates; degrees, scholarships, honors, and awards
received, including type and date granted; and photograph.
This information will be subject to public disclosure unless the
student restricts such information through the appropriate settings in
UACONnect, the student information system, or informs the Office of
the Registrar in writing that he or she does not want this information
designated as directory information.

4. The right to consent to disclosures of personally identifiable
information contained in the student’s education records, except to the
extent that FERPA authorizes disclosure without consent.
One exception, which permits disclosure without consent, is
disclosure to school officials with legitimate educational interests.
A school official is a person employed by the university in an
administrative, supervisory, academic or research, or support staff
position (including law enforcement unit personnel and health staff);
a person or company with whom the university has contracted (such
as an attorney, auditor, or collection agent); a person serving on the
Board of Trustees; or a student serving on an official committee, such
as a disciplinary or grievance committee, or assisting another school
official in performing his or her tasks. A school official has a legitimate
educational interest if the official needs to review an educational
record to fulfill his or her professional responsibility.
Upon request, the university also discloses education records without
consent to officials for another school in which a student seeks or
intends to enroll.

5. The right to file a complaint with the U.S. Department of Education
concerning alleged failures by the university to comply with the
requirements of FERPA. The name and address of the office that
administers FERPA is as follows:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington DC 20202-4605

6. UA System Policy and Procedure 515.1 (http://www.uasys.edu/wp-
content/uploads/2016/04/UASP-515.1-Student-Education-Records-
and-FERPA.pdf) serves as a supplement to the campus FERPA
policy.

Photographic and Video Images
The university is proud to publish and display photographic and video
images of U of A students, their activities and accomplishments. Any
student who does not wish to be represented in such photographic and
video images by the university should choose to withhold photos on the
FERPA option on the university’s student information system.

Transfer of Credit
The following policies control the granting of credit for course work taken
at other institutions:

1. Transfer credits are subject to a two-stage evaluation process.
First, the eligibility of the hours for transfer is evaluated by the
Office of the Registrar based upon decisions of appropriate faculty,
the Arkansas Course Transfer System (http://acts.adhe.edu/
studenttransfer.aspx), and the Transfer Course Equivalency Guide
(https://courseseequivalency.uark.edu). Credits found to be eligible for
general transfer may not count toward the minimum requirements for
every degree at the University of Arkansas. The second step in the
evaluation, performed by the academic dean’s office or department
responsible for the program of study, determines which hours
evaluated will satisfy degree program requirements.

2. Grades earned at other institutions are not calculated in the student’s
grade-point average earned at the university.

3. General transfer credit is awarded for courses in which a grade of
“C” or higher has been earned. Course work must be applicable to
a baccalaureate degree; credit is not granted for course work that is
remedial or technical in nature.

4. Students can petition to have up to six hours of “D” grades transfer
for degree credit to the University of Arkansas. Students must have
a 2.00 GPA on a 4.00 scale to be considered, and courses must
meet core or elective requirements in the student’s degree program.
Courses outside the degree program and courses in the major cannot
be considered for transfer. The Admissions and Appellate Committee
makes all decisions regarding “D” transfers. Petitions can be obtained
from the Office of the Registrar.

5. In the case of course work taken at institutions not fully accredited
by a regional accrediting agency, transfer credit may be denied
altogether or may be granted provisionally subject to successful
completion of specified courses at the university. Normally, credit is
provisionally granted only if the institution is a candidate for regional
accreditation.

6. The State Minimum Core (SMC): Act 98 of 1989 requires each
institution of higher learning in Arkansas to identify a minimum core
of general education courses that shall be fully transferable between
state-supported institutions. Under guidelines from the State Board
of Higher Education, the SMC consists of 35 hours distributed among
the following education areas: English, U.S. history or government,
mathematics, science, fine arts and humanities, and social sciences.
Students transferring credit with grades of “C” or better from the
approved SMC of another state-supported institution in Arkansas
may expect to have all these hours applied toward their degree at the
University of Arkansas.

7. Transfer credit policy under Arkansas Act 182 from 2009 requires a
four-year public institution of higher education in Arkansas to
accept all credits earned from students earning an Associate of Arts,
Associate of Science or Associate of Arts in Teaching degree from a
state-supported public institution in Arkansas.

Major stipulations of Act 182 are outlined below:

• The transfer degree contains the curriculum that is approved by the
  Arkansas Higher Education Coordinating Board.
• The four-year public institution of higher education is to admit a
  transfer student to junior status in a baccalaureate degree program at
  the four-year public institution of higher education.
• A four-year public institution of higher education receiving a transfer
  student shall not require additional lower division coursework if the
  additional course is considered a general education lower division
course.
Military Transfer Credit

The University of Arkansas accepts transfer credit based upon completed military training as evaluated by the American Council of Education (ACE) guidelines and recommendations. The evaluation must be presented to the university on an official transcript from ACE, or a Joint Services Transcript (JST). Equivalencies for military credit as recommended by ACE are evaluated by departmental faculty and may not be exactly the same as ACE. University of Arkansas equivalencies for ACE credit are displayed on the website of the Office of the Registrar in the Transfer Credit section (http://registrar.uark.edu/transfer-and-test-credit). Students may elect to receive 6 hours of general military science credit for basic training as evaluated by presentation of the military DD214 with honorable discharge. Officer training would qualify the student for 6 additional hours of general military science credit. The same training may not be presented for both general military science credit and ACE credit.

More information on transfer credit can be found online by going to the Office of the Registrar website (http://registrar.uark.edu/410.php).

Arkansas Course Transfer System (ACTS)

The Arkansas Course Transfer System (ACTS) is a postsecondary education resource service coordinated by the Arkansas Department of Higher Education (ADHE) that provides comparable course information to facilitate student transfer within Arkansas public colleges and universities. The ACTS database contains faculty-generated comparable course information for a number of courses offered at public institutions in Arkansas. Comparable courses within ACTS are guaranteed to transfer for full credit to any Arkansas public institution. Course transferability is not guaranteed for courses listed in ACTS as “No Comparable Course.” Find out more at the Arkansas Course Transfer System website (http://acts.adhe.edu/studenttransfer.aspx). Questions regarding ACTS may be directed to an academic adviser or the Office of the Registrar.

The chart below provides the University of Arkansas course equivalents for each of the ACTS courses offered on the campus. The ACTS course numbers are also identified in the course title of the equivalent U of A course. For instance, the course title for the university’s ANTH 1023 Introduction to Cultural Anthropology is listed as:

**ANTH 1023 Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2013).**

Both this chart and the information in the course description are designed to assist students with identifying U of A courses that are guaranteed to transfer between Arkansas public institutions.

• The receiving four-year public institution of higher education may only require the additional lower division course if the additional lower division course is:
  • A prerequisite for courses in the transfer student’s baccalaureate degree program;
  • A discipline-specific course that is required by the transfer student’s baccalaureate degree program and the student has not completed a course at the two-year public institution of higher education that is comparable to the discipline-specific course at the four-year public institution of higher education in the Arkansas Course Transfer System;
  • A requirement of an independent licensing or accrediting body
  • Act 182 does not remove the requirement that a transfer student must meet total baccalaureate degree program credit hour and course requirements in order to be eligible for a baccalaureate degree.
  • The receiving four-year public institution of higher education shall determine whether to accept a grade of “D” for academic course credit for a student transferring from a two-year public institution of higher education.

University Core

University Core Requirements

The University of Arkansas has adopted a “State Minimum Core” of 35 semester-credit-hours of general education courses that are required of all baccalaureate degree candidates. This is in compliance with Arkansas Act 98 of 1989 and the subsequent action of the Arkansas State Board of Higher Education. Since 1991, all state institutions of higher education in Arkansas have had a 35-hour minimum core requirement with specified hours in each of seven academic areas in the table below. The university has identified those courses that meet the minimum requirement, and they are listed in the chart below.

Students should consult the requirements for specific colleges and programs when choosing courses for use in the University Core.

State Minimum Core

<table>
<thead>
<tr>

<td>English</td>
<td>6</td>
<td>ENGL 1013, ENGL 1014 (pending approval; effective spring 2018), ENGL 1023, ENGL 1033</td>
</tr>
</tbody>
</table>
In order to prepare its students for lives of the highest individual quality and the greatest potential contribution to the making of a better world, the University of Arkansas has developed a comprehensive program of general education. Although the basic skills, knowledge, methodologies, and judgments derived from experience in the core area set forth here may provide the basis for a major or professional concentration, the aims of these core requirements are not career specific. Rather, the following areas are designed to develop the tools for critical thinking and effective communication, an understanding of our richly diverse human heritage, the flexibility to adapt successfully to a rapidly changing world, a capacity for lifelong learning, and an enthusiasm for creativity.

English/Communication (6 hours)
Courses offered in this area are designed to develop the ability to organize ideas and to communicate them in grammatically correct written English with clarity, precision, and syntactical maturity. Freshman English courses taken at other universities will satisfy this requirement only if they are courses in composition. Students whose ACT scores in English are 18 or below must enroll in the sequence of courses ENGL 0002, ENGL 1013, and ENGL 1023. Students whose ACT scores in English are between 19 and 27 should enroll in ENGL 1013 and ENGL 1023. Students with English ACT scores of 28 or above may enroll in Honors English (ENGL 1013H and ENGL 1023H) or regular English (ENGL 1013 and ENGL 1023). Students with English ACT scores of 30 or above may take ENGL 1013H and ENGL 1023H or elect exemption. Some programs require credit in composition, and students should confer with their advisers before choosing exemption.

Fine Arts/Humanities (6 hours)
Courses presented in this area are drawn from the study of human thought, emotion, values, culture, and aesthetics. They are designed to develop the capacity for reflection, an appreciation of our own diverse culture and a tolerance of those foreign to us, and a heightened aesthetic and ethical sensibility. The courses are not performance-based, but offer students a basis for the gradual acquisition of broad cultural literacy.

Mathematics (3 hours)
Courses offered in this area are designed to develop the student’s ability to understand the diverse mathematical concepts that shape our increasingly technical culture. Core mathematics courses presuppose the ability to apply mathematical techniques at the level of high school algebra and geometry. The specific course(s) selected will depend upon each student’s curriculum, but no course below college algebra may be used to fulfill core requirements.

Science (8 hours)
A primary goal of these courses is to develop an appreciation of the basic principles that govern natural phenomena and the role of experiment and observation in revealing these principles. Students should acquire an understanding of the relationship between hypothesis, experiment, and theory, and develop the skills common to scientific inquiry, including the ability to frame hypotheses and defend conclusions based on the analysis of data. These courses are designed to prepare a student for informed citizenship by illustrating the importance of science and technology to the present and future quality of life and the ethical questions raised by scientific and technological advances.

Social Science (9 hours)
The purpose of the social science core is to introduce students to the breadth of inquiry in the social sciences—such as the study of ideas, the behavior of individuals, groups, institutions, and their interactions. The core should expose students to the history of and the challenges encountered in our complex, culturally diverse world.

---

**Rationale for U of A General Education Core**

In order to prepare its students for lives of the highest individual quality and the greatest potential contribution to the making of a better world, the University of Arkansas has developed a comprehensive program of general education. Although the basic skills, knowledge, methodologies, and judgments derived from experience in the core area set forth here may provide the basis for a major or professional concentration, the aims of these core requirements are not career specific. Rather, the following areas are designed to develop the tools for critical thinking and effective communication, an understanding of our richly diverse human heritage, the flexibility to adapt successfully to a rapidly changing world, a capacity for lifelong learning, and an enthusiasm for creativity.

The core should expose students to the history of and the challenges encountered in our complex, culturally diverse world.
American History and Civil Government (3 hours)
Under Arkansas law, no undergraduate degree may be granted to any student who has not passed a college course in American history and civil government. Courses offered by the University of Arkansas, any one of which will meet this requirement, are HIST 2003, HIST 2013, and PLSC 2003.

Colleges and Schools
Five colleges and six schools offer academic programs leading to undergraduate degrees.

- The Dale Bumpers College of Agricultural, Food and Life Sciences (p. 89), which includes the School of Human Environmental Sciences (p. 146)
- The Fay Jones School of Architecture and Design (p. 160)
- The J. William Fulbright College of Arts and Sciences (p. 183), which includes the School of Art (p. 204), the School of Journalism and Strategic Media (p. 269), and the School of Social Work (p. 348)
- The Sam M. Walton College of Business (p. 364)
- The College of Education and Health Professions (p. 419), which includes the Eleanor Mann School of Nursing (p. 446)
- The College of Engineering (p. 470)

Freshmen and current students in all of the colleges and schools may also be eligible for admission to the Honors College. Students may also enroll in courses offered through the University of Arkansas Global Campus. Last, there are also two interdisciplinary minors that are administered outside these colleges and schools but which use the resources of more than one of them.

Honors College
Mission and Objectives
The Honors College at the University of Arkansas brings together more than 3,000 high-achieving students and 700 of the university’s top faculty members in a learning environment characterized by discovery, creativity, and service. Founded in 2002 with a large portion of the $300 million gift from the Walton Family Charitable Support Foundation, the Honors College has a substantial endowment for undergraduate research and study abroad.

The mission of the Honors College is to build a vibrant, diverse learning community that engages in transformative experiences that prepare our students to excel professionally, flourish personally and lead globally. To achieve this mission, the Honors College collaborates with honors programs across campus to provide a flexible, interdisciplinary honors curriculum that fosters creative and critical thinking and inspires action. The Honors College encompasses the honors programs from each undergraduate college or school.

Facilities and Resources
The Honors College is housed in a new, 21,000-square foot addition to Gearhart Hall, a historic Collegiate Gothic structure located in the heart of campus. Honors students enjoy a spacious lounge, study areas and rooms for group discussions. A 216-seat auditorium below provides space for classes, lectures, film screenings and other events.

The freshly renovated Hotz Honors Hall, situated in the heart of the northwest housing area, provides housing for 400 first-year honors students in spaces designed to foster community. Hotz offers a large room for relaxation on the main floor, a computer lounge, music room, conference rooms and a small theater. Each floor is equipped with study areas, alcoves for TV viewing and video gaming, and spa-style bathrooms. The Honors College offers special programming for Hotz residents and upper-level honors students in nearby dorms.

Degrees Offered
Honors programs are offered in all disciplines, tailored to students’ academic interests, with interdisciplinary collaborations encouraged. The college or school of major confers honors degrees. Only Honors College students can earn the distinction of graduating cum laude, magna cum laude or summa cum laude.

Other Programs
Honors College Grants
Each year the Honors College awards more than $1 million in study abroad and undergraduate research grants, which are available to honors students who submit competitive proposals and meet all other requirements. Honors College faculty and staff work closely with the Office of Study Abroad and International Exchange to help honors students find programs that best meet their academic and professional goals. Research grants support laboratory or other creative work and travel to an archive or conference. Deadlines and application instructions are available on the Honors College website at honorscollege.uark.edu.

Nationally Competitive Awards
The Honors College coordinates with the Office of Nationally Competitive Awards to provide assistance to all students who are applying for national and international graduate fellowships and scholarships (i.e. Marshall, Rhodes, Gates Cambridge, Rotary, Fulbright, and National Science Foundation). For more information, refer to the Enrollment Services section of this catalog.

Advanced Placement Summer Institute
The Honors College coordinates the annual Advanced Placement Summer Institute (APSI), a College Board-endorsed summer program. The institute provides training to high school and middle school teachers for AP certification in various subjects. Course listings and registration information are available at honorscollege.uark.edu/apsi.

College Admission Requirements
To apply for honors, students should visit the Honors College website at honorscollege.uark.edu and click on Apply. There they can review admission requirements and the honors program requirements in their college. Honors-eligible new freshmen should fill out the Honors College Application, available online. To register for honors classes in their first semester, they should apply before attending freshman orientation.

> New transfer students and current students should contact the honors program director or assistant director in their college to determine eligibility and, for some programs, which form of honors (four-year or departmental) would best meet their needs. Then they should fill out the Honors College Application form. The list of honors program directors and both honors application forms are available online at honorscollege.uark.edu.

The chart below contains basic requirements for each of the honors programs. For detailed information, see the individual honors program
sections for each college or school in this catalog. Note that honors admission is based on the highest composite ACT or SAT score, not on superscores. In calculating GPA, extra weight is given only for Advanced Placement and International Baccalaureate courses.

**Fellowships and Scholarships**

The Honors College administers the most prestigious new freshman awards at the University of Arkansas. The Honors College, Sturgis and Bodenhamer Fellowships provide from $70,000 in support over a four-year period, are highly competitive and require an in-depth application process and interview. For more details, visit the Honors College website at honorscollege.uark.edu and click on Future Students.

The Academic Scholarship Office awards scholarships to a variety of students. Students do not have to be in the Honors College to receive these scholarships. For additional information, visit the Academic Scholarship Office website at scholarships.uark.edu and see the chapter on Financial Aid and Scholarships in this catalog.

**Student Organizations**

All honors students are eligible to apply for the Honors College Ambassadors program. This group supports the honors community by participating in campus recruiting events and meeting with prospective students. The Honors College Student Advisory Council offers a select group of student leaders an opportunity to make a real impact on the Honors College. Honors College students in all disciplines also have the opportunity to share their research and study abroad experiences with Advanced Placement and honors classes in their hometown high school through the Celebrating Discovery program.

**College Academic Regulations**

The college or school of major sets specific requirements for graduating with honors including a minimum of 12 honors credit hours and the completion of an undergraduate thesis. A combination of honors credit hours, thesis quality, and GPA requirements lead to Latin designation of *cum laude*, *magna cum laude* or *summa cum laude*. Registration for honors courses is restricted to honors students or other students who meet the honors criteria and who have been approved by the honors program offering the course. For more information, see the honors sections for the college or school major.

**Interdisciplinary Studies**

**Mission and Objectives**

The University of Arkansas provides several options for students to pursue education more broadly than one field of undergraduate study might allow, including interdisciplinary and multidisciplinary programs. These programs allow broader instruction and research opportunities, especially in emerging fields that haven’t reached the academic breadth to constitute a full academic department or in cases in which collaboration between one or more departments allows faculty from each existing department to contribute to the interdisciplinary or multidisciplinary major. In the Catalog of Studies (http://catalog.uark.edu/catalogofstudies), requirements for each interdisciplinary program are listed in the chapter of the college or school that oversees the program.

Four interdisciplinary minors — Microelectronics-Photonics (p. 85), Nanotechnology (p. 86), Planning (p. 88), and Sustainability (p. 88) — are not administered by a single academic department. The minor in Microelectronics-Photonics is administered by the Division of Interdisciplinary Studies in the Graduate School. The minors in Nanotechnology and Sustainability are administered by the Provost’s Office. The minor in Planning is jointly administered by the departments of Landscape Architecture and Political Science. The requirements for completing each minor are at their respective links.

Microelectronics-Photonics (microEP) is an interdisciplinary program based in the Division of Interdisciplinary Studies in the Graduate School that prepares students for careers involving micro/nano materials, processing, and devices applied in areas such as photonics, microelectronics, bio/chemical analysis, etc. The microEP Graduate Program offers M.S. and Ph.D. degrees, as well as an undergraduate minor in Microelectronics-Photonics.

The purpose of this minor is to allow undergraduates in science and engineering to be able to capitalize on the research and educational core of the microEP Graduate Program as they prepare to enter the job market or compete for positions in top level graduate programs.

Requirements for a minor in Microelectronics-Photonics:

Select one of the following:
- INEG 4323 Quality Engineering and Management (Irregular)
- INEG 4433 Systems Engineering and Management (Fa)
- INEG 4443 Project Management (Irregular)

Select four of the following:
- BENG 4123 Biosensors & Bioinstrumentation (Odd years, Sp)
- CHEM 4213 Instrumental Analysis (Sp)
- ELEG 4203 Semiconductor Devices (Irregular)
- ELEG 4223 Design and Fabrication of Solar Cells (Irregular)
- MEEG 4303 Materials Laboratory (Irregular)
- MEPH 488V MicroEP Undergraduate Research (Sp, Fa)
- PHYS 3603 Introduction to Modern Physics (Fa)
- PHYS 4713 Solid State Physics (Even years, Sp)
- PHYS 4213 Physics of Devices (Odd years, Fa)

Or from other appropriate courses not on this list if approved first by the microEP Program and by the course instructor.

Total Hours

1 See examples at the microEP Web site.

Students accepted into the microEP minor must attend an orientation session at the beginning of each semester as well as the monthly microEP graduate student research presentations. Students enrolled in the microEP minor must attend at least one public presentation of a Master of Science thesis in microEP or a Doctor of Philosophy dissertation in microEP each semester. Students wishing to declare
this minor must apply through the microEP Program Web site, http://microEP.uark.edu, and be accepted into the minor at least two regular semesters before their graduation date.

Nanotechnology Minor Faculty Coordinators and Curriculum Committee
• Gregory Salamo, Distinguished Professor, Physics
• Min Zou, Associate Professor, Mechanical Engineering
• Jin-Woo Kim, Professor, Biological and Agricultural Engineering
• David Zaharoff, Assistant Professor, Biomedical Engineering
• Donald Keith Roper, Associate Professor, Chemical Engineering
• Gregory J. Thoma, Professor, Chemical Engineering
• Jingyi Chen, Assistant Professor, Chemistry and Biochemistry
• Fisher Yu, Assistant Professor, Electrical Engineering
• Steve Tung, Associate Professor, Mechanical Engineering
• Po-Hao Adam Huang, Associate Professor, Mechanical Engineering

The Nanotechnology minor is an interdisciplinary program that provides students with foundational knowledge and skills related to the emerging field of nanotechnology, including hands-on experience in several major areas of nanotechnology, such as synthesis of nanomaterials, nanoscale imaging, nanostructure assembly and manipulation, device and system integration, and performance evaluation. The Nanotechnology minor draws faculty expertise and coursework from the College of Engineering and the J. William Fulbright College of Arts and Sciences as well as the NWMO Nanotechnology Laboratory.

The Nanotechnology minor is intended to prepare participating students for a career in which nanotechnology is playing an increasingly important role, and increase students' research competitiveness for graduate study. The Nanotechnology minor is designed to be accessible to students majoring in engineering, physics, or chemistry and biochemistry. It is open to all students who have the necessary prerequisites to enroll in the courses that constitute the minor.

Requirements for the Nanotechnology Minor
Students wishing to participate in the Nanotechnology minor must declare participation formally. The students are required to meet with the faculty coordinator of an individual department who will help the student to develop a list of courses suitable for the minor and a schedule for taking those courses. Examples of model programs for each participating department are given below.

Students need to take a total of 15 credit hours, which includes 6 credit hours of required courses and 9 credit hours of elective courses and must earn a grade of "C" or better for all courses used to fulfill the requirements of the Nanotechnology minor.

Required Courses (6 hours)

Below are model programs for students from different participating departments. Students also have the flexibility to design their own programs according to the stated requirements above.

**Model program for a student majoring in Biological Engineering**

**Required Courses (6 hours)**

- BENG 4753L Nanotechnology Laboratory (Fa)
- BENG 450V Special Problems (Sp, Su, Fa)
- BENG 4123 Measurement and Control for Biological Systems (Sp)

**Elective Courses (9 hours)**

- BENG 3113 Honors Measurement and Control for Biological Systems (Sp)
- BENG 4743 Food and Bio-Product Systems Engineering (Fa)
- BENG 4123 Biosensors & Bioinstrumentation (Odd years, Sp)

**Model program for a student majoring in Biomedical Engineering**

**Required Courses (6 hours)**

- BMEG 4103L Nanotechnology Laboratory (Fa)
- BMEG 450V Special Problems (Sp, Su, Fa)
- BMEG 3634 Biomaterials (Fa)
- BMEG 4243 Advanced Biomaterials and Biocompatibility (Irregular)

**Elective Courses (9 hours)**

- BMEG 4203 Nanotechnology in Engineering & Medicine (Irregular)
- BMEG 4303 Introduction to Nanomaterials and Devices (Irregular)

**Model program for a student majoring in Chemical Engineering**

**Required Courses (6 hours)**

- CHEM 4153L Nanotechnology Laboratory (Fa)
- CHEM 400V Chemistry Research (Sp, Su, Fa)
- CHEM 4123 Advanced Inorganic Chemistry I (Fa)

**Elective Courses (9 hours)**

- CHEM 4123 Instrumental Analysis (Sp)
- CHEM 4283 Energy Conversion and Storage (Even years, Fa)

**Model program for a student majoring in Electrical Engineering**

**Required Courses (6 hours)**

- ELEG 488V Special Problems (Sp, Su, Fa)
- ELEG 4253 Nanotechnology in Engineering & Medicine (Irregular)
- ELEG 498V Special Problems (Sp, Su, Fa)

**Elective Courses (9 hours)**

- ELEG 4303 Introduction to Nanomaterials and Devices (Irregular)
- ELEG 4003 Chemical Engineering Materials Technology (Sp)
- ELEG 5023 Nano Bio Photonics (will be co-listed 4000-level course in the future)
- ELEG 4043 Colloids and Surfaces

**Model program for a student majoring in Mechanical Engineering**

**Required Courses (6 hours)**

- MEEG 4323L Nanotechnology Laboratory (Fa)
- MEEG 450V Special Problems (Sp, Su, Fa)
- MEEG 491V Special Topics in Mechanical Engineering (Sp, Su, Fa)

**Elective Courses (9 hours)**

- MEEG 4313 Introduction to Tribology (Irregular)
- MEEG 4903H Honors Mechanical Engineering Research (Sp, Fa)

**Model program for a student majoring in Physics**

**Required Courses (6 hours)**

- PHYS 4793L Nanotechnology Laboratory (Fa)
- PHYS 498V Senior Thesis (Sp, Su, Fa)

**Elective Courses (9 hours)**

- PHYS 4773 Introduction to Optical Properties of Materials (Even years, Sp)
- PHYS 4073 Introduction to Quantum Mechanics (Fa)
**Planning (PLAN)**

Noah Billig, Landscape Architecture  
WALK 304  
nsbillig@uark.edu  

John Gaber, Political Science  
MAIN 428  
479-575-3356  
jgaber@uark.edu

**Minor in Planning**

The departments of Landscape Architecture and Political Science collaboratively offer an interdisciplinary minor in Planning for students interested in regional and urban planning. A student who wants to minor in Planning should notify either the Department of Landscape Architecture or Political Science and consult an academic adviser. A Planning minor consists of 18 hours of required and elective courses subdivided into three concentrations. A student should choose one concentration and take 6 hours of elective courses in that concentration. The minor’s required and elective courses include:

**Required Courses:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

<td>3</td>
</tr>
<tr>
<td>PLSC 4103</td>
<td>Introduction to Urban Planning (Fa)</td>
<td>3</td>
</tr>
</tbody>
</table>

**Electives:**

Select two courses from one group

**Policy Group:**

- ANTH 4443 Cultural Resource Management I (Sp)  
- ANTH 5113 Anthropology of the City (Irregular)  
- ENSC 3413 Principles of Environmental Economics (Sp)  
- LARC 4033 Theory (Fa)  
- LARC 4743 Public Participation in Design and Planning (Irregular) (Public Participation in Design and Planning not offered until 2014)  
- PLSC 390V Special Topics (Sp, Su, Fa)  
- PLSC 4283 Federalism and Intergovernmental Relations (Even years, Sp)  
- HDFS 4603 Environmental Sociology (Fa)  
- SCMT 3443 Transportation and Distribution Management (Sp, Fa)

**Spatial Group:**

- ARCH 5493 History of Urban Form (Irregular)  
- ARCH 5933 Preservation and Restoration (Irregular)  
- ANTH 5113 Anthropology of the City (Irregular)  
- ENSC 3413 Principles of Environmental Economics (Sp)  
- GEOS 4073 Urban Geography (Sp)  
- LARC 402V Special Studies (Irregular)  
- LARC 4033 Theory (Fa)  
- LARC 4753 Incremental Sprawl Repair (Irregular) (Incremental Sprawl Repair not offered until 2014)  
- LARC 5053 Historic Landscape Preservation (Irregular)  
- HDFS 4603 Environmental Sociology (Fa)  

**Sustainability (SUST)**

**Faculty**

Steve K. Boss, Professor

Stephen K. Boss  
Director  
216 OZAR

sboss@uark.edu  
sustainability.uark.edu

**Sustainability Curriculum Steering Committee**

- Professor Myria Allen, Communication  
- Professor Stephen Boss, director, Geosciences  
- Professor Kevin Fitzpatrick, Sociology  
- Associate Dean Carol Gattis, Honors College  
- Clinical Assistant Professor David Hyatt, Supply Chain Management  
- Professor Jon Johnson, Management  
- Professor Kim LaScola#Needy, Industrial Engineering  
- Professor Marty Matlock, Biological and Agricultural Engineering  
- Clinical Associate Professor Zola Moon, Human Environmental Sciences  
- Professor Jennie Popp, Agricultural Economics and Agribusiness

The minor in Sustainability is interdisciplinary, drawing from faculty and course work across all colleges of the University of Arkansas. The minor is accessible to all undergraduate students, regardless of degree program. The purpose of the minor in Sustainability is to provide foundational knowledge and skills related to the emerging discipline of sustainability, organized around four thematic areas reflecting strength in scholarship of University of Arkansas academic colleges: Sustainability of Social Systems, Sustainability of Natural Systems, Sustainability of Built Systems, and Sustainability of Managed Systems. Students who complete the minor in Sustainability will be expected to:

- Articulate commonly accepted definitions of sustainability and discuss various nuances among those definitions;
• Have an understanding of the interdisciplinary nature of sustainability issues, particularly as they pertain to the thematic areas of knowledge addressed by the minor (sustainability of natural systems, sustainability of managed systems, sustainability of built systems, and sustainability of human social systems);
• Be conversant regarding acquisition and analysis of data pertinent to sustainability issues;
• Communicate orally and in writing organized thoughts defining sustainability issues;
• Identify appropriate potential strategies to address sustainability issues using data and provide results of rudimentary analyses of data using novel metrics or statistics;
• Make recommendations, based on data analysis and interpretation, to advance sustainability of individuals or institutions.

**Required Courses for a Minor in Sustainability**

Students must earn a grade of ‘C’ or better for all courses used to fulfill requirements of the minor in Sustainability.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SUST 1103</td>
<td>Foundations of Sustainability (Sp)</td>
<td>3</td>
</tr>
<tr>
<td>SUST 2103</td>
<td>Applications of Sustainability (Fa)</td>
<td>3</td>
</tr>
</tbody>
</table>

Elective courses with sustainability focus selected from a broad menu of offerings in four thematic areas:

- Sustainability of Social Systems
- Sustainability of Natural Systems
- Sustainability of Built Systems
- Sustainability of Managed Systems

Elective courses are categorized as Tier 1 and Tier 2. Tier 1 courses are those with dominant sustainability content or fundamental principles related to understanding sustainability. Tier 1 courses must comprise at least 6 hours of the 9 elective hours. Tier 2 courses are those with subordinate sustainability content or associated principles related to understanding sustainability, but with content useful in preparing students with prerequisite knowledge for Tier 1 courses. Only 3 hours of Tier 2 courses will be accepted in fulfillment of the elective hours in the Minor in Sustainability.

Complete lists of Tier 1 and Tier 2 courses by thematic areas are presented below.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SUST 4103</td>
<td>Capstone Experience in Sustainability (Sp)</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Hours**

18

**List of Available Elective Courses:** Students choose 9 hours from menus provided on the Sustainability website (http://sustainability.uark.edu/academics/minor/minor-courses.php); at least six hours must be chosen from Tier 1 courses (with prerequisites, if applicable).

**Capstone Experience**

All students participating in the minor in Sustainability must complete a capstone experience focused on service learning, research learning, or internship in sustainability. Student engagement in community service, research, or relevant work on sustainability through a summer internship provides opportunities for students to apply sustainability theories and principles learned from prior coursework toward advancing sustainability across society.

Students may formally petition the University of Arkansas Sustainability Curriculum Steering Committee to substitute sustainability-oriented senior design projects, Honors College research projects, other service learning courses, or equivalent internship experiences for SUST 4103 to satisfy the capstone element of minor in Sustainability. Details of the procedure to substitute alternative experiences for SUST 4103 can be found in the Foundations of Sustainability Program Handbook.

To qualify for SUST 4103 or other sustainability capstone experience, students must have successfully completed SUST 1103, SUST 2103, and 6 hours of elective course work toward the minor in Sustainability.

**Dale Bumpers College of Agricultural, Food and Life Sciences**

**Mission and Vision**

The vision of the Dale Bumpers College of Agricultural, Food and Life Sciences is to lead Arkansas and the world by delivering pre-eminent programs in agricultural, food and life sciences that produce leaders through education, research and outreach.

The mission of the Dale Bumpers College of Agricultural, Food and Life Sciences is to improve the quality of life for Arkansans by preparing students for successful careers, conducting impactful research, and sharing knowledge to promote viable food and agricultural systems, sustainable environments, healthy families and vibrant communities.

**History and Organization**

As the state’s land-grant university, the University of Arkansas has the responsibility for leadership in teaching, research, and service in the agricultural and human environmental sciences. This responsibility is shared with the Division of Agriculture.

The Bumpers College is an integral component of the University of Arkansas and addresses the teaching responsibility of the land-grant university. Its roots lie in the First Morrill Act of 1862, which created the land-grant system by providing a grant of land to each state for the establishment of a college “where the leading objective shall be, without excluding other scientific and classical studies and including military tactics, to teach such branches of learning as are related to agriculture and the mechanical arts in such manner as the legislatures of the state may prescribe to promote the liberal and practical education of the industrial classes in the several pursuits and professions of life.” Agricultural sciences have been taught at the University of Arkansas almost from the beginning of the institution in 1872. The university conferred the first degrees in agriculture in 1904.

Early instruction and outreach efforts focused on improving rural life for men, women, and children. Farm wives were interested in beautifying the home, food preparation and safety, and gardening. Foods and nutrition, bacteriology, chemistry, and other related subjects held a common scientific interest for both agriculture and home economics, so it naturally evolved that studies in home economics should develop within the realm of agricultural education. Domestic science classes were offered as early as 1909, and a department of home economics was established in 1913. The department was elevated to school status in 1994, and its name was changed to the School of Human Environmental Sciences.

The passage of the Hatch Act in 1887 and subsequent legislation made possible the Agricultural Experiment Station, the research component of the Division of Agriculture. Most faculty who teach in the Bumpers
College also hold appointments in the Experiment Station and are able to incorporate active research into their teaching.

The dissemination of university research in agriculture and human environmental sciences is carried out by personnel in the Cooperative Extension Service, created by the Smith-Lever Act of 1914. Many Extension specialists also hold adjunct faculty status and bring their expertise to the teaching program.

It is this blending of teaching, research, and service functions that create a unique learning environment in the college. As students learn to relate basic areas of science to human needs, they study in laboratory-based classes and are taught in research facilities supported by the Division of Agriculture. Similarly, students are encouraged to intern with professionals in industry and governmental agencies, including the Cooperative Extension Service.

In recognition of the land-grant mission of the university and its commitment to serve the entire state, the Dale Bumpers College of Agricultural, Food and Life Sciences has worked cooperatively with numerous community colleges to facilitate the “seamless” transfer of students to the Bumpers College. Coordinated advising, recruiting, and curricula development are working goals of the Bumpers College and students interested in transferring while enrolled at a community college should contact the Bumpers College dean’s office at 479-575-2252 or afsdean@uark.edu.

**Facilities and Resources**

The Dale Bumpers College of Agricultural, Food and Life Sciences is composed of nine academic departments and the School of Human Environmental Sciences. The college offers both undergraduate and graduate level degrees.

The Agricultural, Food and Life Sciences Building houses the dean’s office and the department of Animal Science and serves as the headquarters for the college academic functions. There are six other buildings on campus operated by the college including the Agriculture Building, Human Environmental Sciences Building, Rosen Center, Plant Science Building, Agricultural Annex, and the Center of Excellence for Poultry Science. Additionally, the Food Science Building, Alzheimer Laboratory, Abernathy Agriscience and Technology Center, Pauline Whitaker Animal Science Arena, and the Dorothy E. King Equine Science facilities are located at the Research and Extension Center north of the main campus. These serve as additional teaching laboratories or classroom facilities. Also, the Jean Tyson Child Development Study Center is managed by the college to provide instructional training for the child development program.

Several classrooms are equipped with “class capture” technology to allow students to view lectures online and to aid distance education courses. Students can receive academic assistance through resources provided by the dean’s office. Students can also seek assistance through the Class+ a campus-wide resource.

**College Scholarships**

In addition to the scholarships awarded by the university, there are a number of scholarships available to students in agricultural and human environmental sciences made possible by generous gifts from many firms and individuals. To be considered for a college scholarship, students must first be admitted to the university. Most scholarships require students to be enrolled full-time, at least 12 credit hours per semester. A college scholarship application, which serves as an application to all available scholarships offered by the college and/or individual departments, must be submitted each year. For additional information, please see the Bumpers College Scholarship website (http://bumperscollege.uark.edu/academics/scholarships-and-financial-aid). A listing of various outside scholarships is available for review on the college’s web site. There are also miscellaneous outside scholarships for which applications are available in some departmental offices. For more information on scholarships, contact the dean’s office.

**Student Organizations**

**Agricultural Business Club** is for students interested in agricultural business and economics.

**Agricultural Communicators of Tomorrow (ACT)** is designed for students with an interest in agricultural communications.

**Agricultural Mechanization Club** is a student organization for those with an interest in agricultural systems technology management.

**American Association of Family and Consumer Sciences (AAFCS)** offers student membership to all human environmental sciences majors. Monthly meetings highlight various phases of human environmental sciences and provide social contact with other majors. In addition, members become involved in local service projects and may attend statewide workshops and leadership training sessions.

**Association of Apparel Merchandising and Product Development (AAMPD)** is an organization open to all students interested in the fashion industry.

**Collegiate FFA** is for any student who has been active in 4-H or FFA or has a current interest in service to these youth-oriented organizations. This club is especially designed for students interested in teaching agricultural education or working for the Cooperative Extension Service.

**Collegiate Farm Bureau** helps prepare tomorrow’s agricultural leaders. Through Collegiate Farm Bureau, members get the opportunity to take part in shaping agricultural issues and in setting the current Farm Bureau legislative agenda at the county, state, and national level.

**Crop, Soil, and Environmental Science Club** is a student organization for those interested in crops and soils through both an agricultural and environmental perspective.

**Food Science Club** is an organization for those students interested in food science.

**Horticulture Club** is a student organization for those interested in horticulture including floriculture, ornamentals, turf, small fruits and vegetables.

**Isely-Baerg Entomology Club** is open to those who wish to stimulate interest in the field of entomology, perform outreach programs for the public and to promote and encourage professional exchange of ideas in the field of entomology.

**Minorities in Agriculture, Natural Resources Related Sciences (MANRRS):** The purpose of this organization is to promote and implement initiatives which foster inclusion and advancement of members of ethnic/cultural groups under-represented in the agricultural and natural sciences and related fields in all phases of career preparation and participation.

**Block and Bridle Club** is for students who are interested in any phase of animal science. Students with interests in horses, cattle, sheep, dogs, cats, or swine will find this club a good place to become involved.
Plant Pathology Graduate Student Association (PPGSA) is an organization open to graduate students interested in plant pathology or related fields.

Poultry Science Club is open to all students interested in any phase of the poultry industry or related fields.

Pre-Vet Club is for students interested in veterinary medicine and is especially designed for those students in the pre-veterinary medicine curriculum.

Professional Convention Management Association is for students who are interested in the food and beverage, hotel operations and tourism aspects of the hospitality industry.

Student Dietetic Association (SDA) is an organization for students who are interested in the profession of dietetics. The goals are to promote growth in professional attitudes and to provide various programs of interest to the members.

Turf Club is a student organization open to all students interested in turfgrass management.

There are also numerous general organizations on the university campus, and students of the Dale Bumpers College of Agricultural, Food and Life Sciences participate in most of them. These include fraternities, sororities, honor and scholarship organizations, religious and music groups, sports organizations, and others.

Alpha Tau Alpha is a national honorary professional fraternity for those preparing to become teachers of agricultural education. Its mission is to develop a true professional spirit in the teaching of agriculture, to help train teachers of agriculture who shall be leaders in their communities, and to foster a fraternal spirit among students in teacher training in agricultural education.

Alpha Zeta is the professional honor fraternity for students of agriculture. To be invited to become a member, a student must rank in the upper two-fifths of the class and be recognized for leadership and character.

Eta Sigma Delta is the professional honor society for those students studying within the Hospitality Innovation concentration in the School of Human Environmental Sciences.

Gamma Sigma Delta is the honor fraternity for graduating seniors, graduate students, faculty, and alumni of the Dale Bumpers College of Agricultural, Food and Life Sciences. Seniors must rank in the upper 25 percent of their class to be eligible for membership, but not more than 15 percent of the class may be elected for membership. The highest-ranking sophomore and the highest-ranking senior are recognized annually by the society.

Phi Upsilon Omicron is the professional honor society for human environmental sciences students. To be eligible for invitation to membership, a student must rank in the upper 35 percent of the class and be recognized for character and leadership.

Research demonstrates that the more contact students have with faculty, the more likely they are to persist and complete their educational goals in a timely manner. The Bumpers College adviser serves as a facilitator to assist students in maximizing their education potential. The advising relationship is a partnership between the student and the Bumpers College adviser that is dependent on effective communication and regular contact.

Selection of a Major
A student who elects to major in some area of study in the college should plan the program with a Bumpers College adviser. While undecided students are welcome, early selection of a major will permit better planning and proper sequencing of courses. The student and Bumpers College adviser work closely to ensure that curriculum requirements are met in a timely fashion. A student uncertain about a major will be advised as an undeclared major through the Bumpers College dean’s office (AFLS E108).

Degrees Offered
All entering students (including freshmen, international and transfer students) admitted to the University of Arkansas, Fayetteville, are eligible to pursue a degree program in the Dale Bumpers College of Agricultural, Food and Life Sciences. Undergraduate degrees offered are as follows:

- The Bachelor of Science in Agricultural, Food and Life Sciences (B.S.A.)
- The Bachelor of Science in Human Environmental Sciences (B.S.H.E.S.)

Graduate Studies
The Graduate School of the university, in cooperation with the Dale Bumpers College of Agricultural, Food and Life Sciences, offers the Master of Science degree in each of its nine departments and in the School of Human Environmental Sciences. Six doctoral degrees are offered. More detailed information regarding individual programs may be obtained by contacting the administrative office of each department, or by consulting the Graduate School Catalog.

Accreditations
The Bachelor of Science in Human Environmental Sciences (B.S.H.E.S.) degree programs are accredited by the Council for Professional Development of the American Association of Family and Consumer Sciences. The degree program in nutrition is accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics. The Jean Tyson Child Development Study Center is accredited by the National Association for the Education of Young Children (NAEYC). The Bachelor of Science in Agricultural, Food and Life Sciences (B.S.A.) in food science is accredited by the Institute of Food Technologists. Teacher education programs in agriculture and family and consumer sciences are coordinated with educational programs in the College of Education and Health Professions and are accredited by the National Council for Accreditation of Teacher Education (NCATE).

Study Abroad
An educational experience outside the U.S. has become an integral component for today’s student in higher education. The ability to compete and perform in the global arena requires an understanding of world cultures, economic systems, religions, trends, governments and politics. Students in the Bumpers College are encouraged to engage in study abroad that will lead to life-long partnerships, cultural awareness and
understanding of the global dimensions of their majors. The college years provide the best opportunity for students to gain this understanding and experience through faculty-led study tours; summer, semester or year-long study abroad; and international internships or research experiences which closely relate to their career goals.

The mission of the International Programs Office is to provide structured international experiences that enhance the marketability of students for career and academic opportunities through faculty driven, sustainable initiatives. The IPO serves to support faculty, students, international partners, and university leadership to increase opportunities for students to engage in faculty-led programs, internships, exchange programs, and study abroad activities that include research. The IPO works closely with the UA Study Abroad Office and seeks opportunities for students to engage in international career preparation and workforce ready development. The IPO provides $65,000 annually to support students and faculty. In 2016, 80 Bumpers College students studied abroad. For more information, visit our website at bumpersinternational.uark.edu.

Graduate opportunities are available for study in agricultural economics, agribusiness and related subjects via the UA’s TransAtlantic Master of Science program at Ghent University, Belgium. Second language capability is helpful, but not required.

Bumpers students interested in a study abroad program or internships with full-time status usually can maintain their scholarships while abroad. Limited funding is available for travel grants through Bumpers and Honors colleges.

College Admission Requirements
All students seeking admission to the Dale Bumpers College of Agricultural, Food and Life Sciences must meet the general requirements for admission to the university. Students transferring from other colleges at the University of Arkansas or from other institutions are expected to meet the same entrance standard.

College Academic Requirements
All students must satisfy the following university graduation requirements
1. Complete a minimum of 120 semester hours.
2. Fulfill University Core Requirements of 35 hours. Go to the University Core (p. 81) for a list of courses that meet the requirements. Check requirements for each major as some majors require specific core courses as prerequisites to upper level courses.
3. Earn a grade-point average of 2.00 (“C” average) on all work attempted at the University of Arkansas.
4. All students must meet the university enrollment requirements found on the Academic Regulations (p. 75) page.

Specific Degree Requirements
1. To fulfill the residency requirements of the degree of Bachelor of Science in Agricultural, Food and Life Sciences, students must complete a minimum of 36 hours of courses at the 3000-level or above. In addition, a minimum of 9 hours of broadening electives (Bumpers College courses taken outside the departmental code) must be completed.
2. To fulfill the residency requirements of the degree of Bachelor of Science in Human Environmental Sciences, students must complete a minimum of 30 hours within the School of Human Environmental Sciences at the University of Arkansas.
3. In addition to university requirements students must meet other defined degree requirements specific to each major and concentration. Bumpers College courses outside of the major may be included in degree requirements.
4. General electives will vary by major. Electives may be selected to meet the requirements for a minor; however, all elective credits are subject to approval of the academic adviser.

Rules Applying to Course Work Used for Degree Credit
1. No credit will be given for duplicate coursework.
2. A maximum of six hours of internship and six hours of special problems may be counted for degree credit.
3. A total of six semester hours of elective credits in university band, chorus, judging teams, drama, debate, physical education, etc., may be counted toward a degree.
4. Any self-paced online (correspondence) course taken must be approved in advance in the dean’s office if the credits earned in the course are to be applied toward a degree. This rule applies regardless of the school from which the course is taken. Responsibility to secure approval is the student’s.
5. All transfer course work to be applied toward the degree must be an approved course listed in the transfer equivalency guide maintained by the Registrar’s office. For courses not listed in the guide, petitions can be submitted to the Dean’s office by the student and his or her academic adviser.
6. All study abroad courses must be approved in advance in the student’s academic department and by the Study Abroad Office if the credits earned in the courses are to be applied toward a degree.
7. Former students of the college who are readmitted after an absence of one year may be expected to meet the curriculum requirements in effect at the time of their readmission. Students should consult their academic adviser for degree planning before registering for classes.
8. Students interested in earning an additional bachelor’s degree should refer to the university requirements (p. 75).

Honors and Scholars
After the end of each semester, all colleges and schools in the university publish an honor roll of the names of the undergraduate students who achieve a 3.75 to 4.00 grade-point average. Students are eligible for the honor roll if they are carrying at least 12 semester hours normally required for graduation by their college for their respective year. This honor roll is the Dean’s List.

In addition, a Chancellor’s List is published each semester to recognize those undergraduate students who achieve a 4.00 grade-point average. Students must also be carrying at least 12 semester hours normally required for graduation to be eligible for the chancellor’s list.

Requirements to Graduate with Honors
Students who have demonstrated exceptional academic performance in baccalaureate degree while completing the Honors Program in the Bumpers College will be recognized at graduation by the honors designations of cum laude, magna cum laude, or summa cum laude. To earn such designation, students must meet the following criteria:
1. Must have completed at least one-half of his or her degree work at the University of Arkansas.
2. Must have at least a 3.5 GPA on University of Arkansas course work, computed at graduation.
3. Must successfully complete the Bumpers College Honors Program, which includes a minimum of 9 hours of honors course work, 6 hours of honors thesis, and a completed honors capstone research or creative project culminating in a written thesis documenting the project.
4. For summa cum laude, the student must achieve a cumulative U of A GPA of 3.9 to 4.00.

These criteria may be evaluated and changed periodically by the College of Agricultural, Food and Life Sciences.

Requirements to Graduate with Distinction
Students who have not completed the Bumpers College Honors Program, but have demonstrated excellent academic performance in baccalaureate degree programs in the Bumpers College will be recognized at graduation by the designation of “with distinction,” “with high distinction,” and “with highest distinction.” To earn this designation, students must meet the following criteria:

1. Must have completed at least one-half of his or her degree work at the University of Arkansas.
2. Must have at least a 3.5 GPA on University of Arkansas course work, computed at graduation.
3. For “with distinction,” the student must achieve a cumulative U of A GPA of 3.5 to 3.74.
4. For “with high distinction,” the student must achieve a cumulative U of A GPA of 3.75 to 3.89.
5. For “with highest distinction,” the student must achieve a cumulative U of A GPA of 3.9 to 4.00.

These criteria may be evaluated and changed periodically by the College of Agricultural, Food and Life Sciences.

Grading System
The Dale Bumpers College of Agricultural, Food and Life Sciences utilizes a plus/minus grading system that assigns numerical values to 12 different grades. These values are used for courses when grade-point averages are calculated.

The 12-step grading system with assigned values is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>

</tbody>
</table>
• Food and Culinary Sciences (FCU)
• Horticulture, Landscape and Turf Sciences (p. 138) (HLTS)
• Poultry Science (p. 143) (POSC)

Minors Offered
• Agricultural Business (AGBS-M)
• Agricultural Communications (ACOM-M)
• Agricultural Education (AGED-M)
• Agricultural Leadership (AGLE-M)
• Agricultural Systems Technology Management (ASTM-M)
• Animal Science (ANSC-M)
• Crop Biotechnology (CPBT-M)
• Crop Science (CPSC-M)
• Entomology (ENTO-M)
• Equine Science (EQSC-M)
• Food Science (FDSC-M)
• Horticulture (HRT-M)
• International Economic Development (INDV-M)
• Landscape Horticulture (LHRT-M)
• Natural Resources Management (NRMT-M)
• Pest Management (PMGT-M)
• Plant Pathology (PLPA-M)
• Poultry Science (POSC-M)
• Soil Science (SOIL-M)
• Turf Management (TURF-M)

School of Human Environmental Sciences
B.S.H.E.S. Degree

 Majors and Concentrations
• Apparel Merchandising and Product Development (p. 146) (AMPD)
• Birth Through Kindergarten (BRKD)
• General Human Environmental Sciences (p. 151) (HESC)
• Human Development and Family Sciences (p. 152) (HDFS)
• Human Nutrition and Hospitality Innovation (p. 154) (HNHI)
  • Nutrition and Dietetics (NUTR)
  • General Foods and Nutrition (GFNU)
  • Hospitality Innovation (HOSP)

Minors Offered
• General Foods and Nutrition (GFNU-M)
• Human Development and Family Sciences (HDFS-M)

Minors in Other Colleges
Students in the Dale Bumpers College of Agricultural, Food and Life Sciences may pursue an academic minor in any other college at the University of Arkansas. These minors usually consist of 15 to 20 hours of course work. For requirements regarding minors, check the catalog under the department offering the minor. Students must notify the Bumpers College Dean’s Office (AFLS E108) of their intention to pursue a minor.

Special (Non-Degree Seeking) Students
While most students enrolled in the Dale Bumpers College of Agricultural, Food and Life Sciences work toward a degree, students who desire additional education of a specific nature but who do not wish to fulfill all requirements for a degree may enroll as special students. It is recommended that students declare a minor by the end of their sophomore year.

Other Programs
Pre-veterinary Medicine

Because Arkansas does not have a college of veterinary medicine, the Arkansas General Assembly has authorized funds for education in veterinary medicine at out-of-state institutions. The State Board of Higher Education is the designated agent for the State of Arkansas, and the Student Loan Authority is authorized to administer the program. Terms and conditions prescribed by the Student Loan Authority are as follows: the grant will cover only out-of-state tuition, and the student will pay his or her own fees and expenses. Additional information regarding this program can be found at: www.adhe.edu (http://www.adhe.edu)

Contracts have been negotiated with the Board of Control for Southern Regional Education for education in veterinary medicine at Louisiana State University and at Tuskegee University. Arrangements have also been made with the University of Missouri and Oklahoma State University. Under the provisions of the legislation, only citizens of Arkansas are eligible. They must enroll in and complete the pre-veterinary medicine curriculum to satisfy the admission requirements of these colleges of veterinary medicine.

Arkansas Act 881, passed in 2011, established a loan repayment program for Arkansas residents who attend Mississippi State University College of Veterinary Medicine. The loan repayment program will assist Arkansas residents with the repayment of federally funded student loans incurred while attending veterinary school at Mississippi State University. Beginning in April 2012, participants in the program will be required to practice in the state of Arkansas for up to five consecutive years with a minimum of 30 percent of their practice devoted to food or mixed animal medicine in rural areas of Arkansas. This may include corporate or private veterinary practice.

The pre-veterinary medicine program at the University of Arkansas is administered in the departments of Animal Science and Poultry Science of the Dale Bumpers College of Agricultural, Food and Life Sciences. There are faculty in these departments who help counsel and advise students regarding their pre-veterinary medicine program. There are also faculty veterinarians who provide some insight into the practice of veterinary medicine and are knowledgeable about many of the considerations encountered in establishing a practice upon graduation. Some of these veterinarians have been in private practice; others have been involved in full-time agricultural research since graduation from veterinary medicine and graduate school. Because there is a wide cross-section of experience among these faculty, students find their counsel valuable in planning a future in veterinary medicine.

While it is possible to complete requirements for admission to some colleges of veterinary medicine in two years, most students take three years or more to complete the requirements, and most complete a B.S. degree before being admitted. Students who carefully plan their work may complete a B.S. degree by transferring hours earned in the first two years at an accredited college of veterinary medicine back to the University of Arkansas, provided they complete certain degree requirements at the university prior to entering a school or college of veterinary medicine. These students must complete a minimum of 94 hours of a 124-hour program of prescribed courses. This will require three years and one or two 6-week summer terms for most students. Therefore, students should...
inform their advisers early in their program that they wish to be in a pre-veterinary degree program.

The Bumpers College of Agricultural, Food and Life Sciences is ready to assist students in fulfilling their pre-veterinary medicine requirements whether they desire to complete them in a two-year span or over three or four years. The supporting departments at the university, including chemistry, English, and biological sciences, all offer quality courses that give a student an excellent background for the pursuit of a degree in veterinary medicine.

To earn the professional degree, a student must complete the pre-veterinary medicine requirements and the four-year prescribed curriculum in one of the colleges of veterinary medicine.

**Required Examinations:** All required examinations are given on campus and administered by testing services (97 N. Razorback Road, phone: 479-575-3948, email: testing@uark.edu). Exams must be taken by late summer of the year prior to entering vet school. Students interested in taking examinations should contact testing services to schedule an examination date. All contract schools accept the Graduate Records Exam (GRE), which is given frequently.

**Applications:** Students applying to Louisiana State University, Oklahoma State, Tuskegee University, Mississippi State University and University of Missouri must fill out a Veterinary Medical College Application Service (VMCAS) form, available at their online site (www.aavmc.org (http://www.aavmc.org)). Students must complete the application and have it submitted by September 15th of the year prior to beginning studies. Since requirements for the various veterinary schools periodically change, it is important that students check with their advisers about specific school requirements as they progress through the pre-veterinary requirements.

All students should contact the Coordinator of Veterinary Medicine, Dale Bumpers College of Agricultural, Food, and Life Sciences, AFLS B114, University of Arkansas, Fayetteville, AR 72701, phone 479-575-4351 in the spring prior to making fall application for admission to a veterinary school to verify that they can complete the requirements for the school they wish to attend. Pre-professional requirements and specific requirements for admission to colleges of veterinary medicine at Louisiana State University, Oklahoma State University, University of Missouri, Mississippi State University and Tuskegee University are listed with information on the Web at www.aavmc.org.

**Bumpers College Honors Program**

The Bumpers College Honors Program provides students with opportunities to participate in academic, research and creative activities beyond the traditional undergraduate experience. This is accomplished through honors courses, completion of an undergraduate honors thesis, and other significant activities. Students must maintain a GPA of 3.50 and subscribe to the Statement of Ethical Standards to remain in the program.

**Statement of Ethical Standards:**

“As a member of the Bumpers College Honors Program, I pledge to uphold the ethical standards of honesty and trustworthiness in all academic and research/creative activities. I recognize that it is a privilege to be a member of the University of Arkansas Honors College and will dedicate my efforts to ensure that the highest levels of ethical standards are maintained.”

**Student Eligibility Requirements**

There are several avenues by which qualified candidates can become eligible to participate in the Bumpers College Honors Program. Students will receive an invitation to participate in the Honors Program if they are incoming freshmen with an ACT of at least 28 or a high school GPA of at least 3.50. Transfer students will be invited if they transfer no more than 62 hours with a college GPA of at least 3.50. Currently enrolled freshman and sophomore students who have completed less than 62 hours with a college GPA of 3.50 or greater may apply for admission to the Honors Program through the Honors College website (http://honorscollege.uark.edu). Students wishing to join the Honors Program after completing 62 hours of college credit may petition for admission by submitting a plan of study to the Bumpers College Honors Program Director documenting how they propose to incorporate the Honors Program requirements into their remaining degree requirements.

To be eligible for continued participation in the Honors Program, students must maintain a cumulative 3.5 GPA and actively work toward earning an Honors degree designation. Students will be considered academically ineligible when:

- A student’s cumulative GPA is below 3.5 for two consecutive terms or
- A student’s cumulative GPA is below 3.0 for one term.

Students are required to prepare a proposal for study and identify an honors mentor who mutually agrees to the topic proposed by the end of 80 hours of course credit completion.

**Honors Orientation**

All entering freshman honors students are required to complete AFLS 1023H. This course will cover the requirements of UNIV 1001 and provides an overview of the Bumpers College Honors Program, program requirements, research and creative project requirements, and to introduce all honors students to potential undergraduate student mentors as a part of the Honors Mentor/Mentee program.

**Honors Curriculum**

Graduation with Honors Distinction from the College requires that each student must complete 15 credit hours in the Honors Program. Each student must complete at least 9 credit hours of Honors courses and at least 3 credit hours of thesis hours with a faculty mentor on the student’s honors committee and thesis culminating their program. In addition to honors courses taken within Bumpers College, students are also encouraged to take Honors courses in other colleges as well.

Students are encouraged to complete 6 credit hours of Honors courses during their freshman year. This will qualify students for research and international program funding from the Honors College.

**Honors Project**

All honor students are required to develop and complete an honors thesis or creative project appropriate for their degree and interests to graduate from the Honors Program. Traditional research projects, such as laboratory and field studies and surveys are encouraged and welcomed in addition to novel methods of research that may be accomplished at sites other than on campus or on research stations. Creative projects are also allowed with the approval of the student’s Honors Committee and a final written document is required. The thesis or creative project should consist of at least one semester of proposal preparation, one semester of data collection or creative design, and one semester of thesis preparation. Honors students are encouraged to develop proposals for funding of their projects, as well as to conduct and present their results.
Incentives for student participation in the Honors Program include:

- To 3.89, or above 3.9 are maintained, respectively.

- Honors Distinction if cumulative grade point averages of 3.5 to 3.74, 3.75 to 3.89, or above 3.9 are maintained, respectively.

- Magna cum Laude with Honors Distinction, or Summa cum Laude with highest distinction) by graduating cum Laude with Honors Distinction, or above 3.9 are maintained, respectively.

- Recognition of scholastic achievement (distinction, high distinction, or distinction, high distinction) by graduating cum Laude with Honors Distinction, or above 3.9 are maintained, respectively.

- Members of the Honors Program at the College Commencement each spring. Separate regalia consisting of appropriate honors hood, stole, braid, tassel, and/or mortarboard will distinguish all students in the Honors Program. Students who have fulfilled the requirements of the Bumpers College Honors Program will be recognized as graduating with Honors Program Distinction. The transcript and diploma will designate the student as an honors program graduate of the college. At the college commencement ceremony, each honors graduate will wear special regalia, have the title of his or her honors thesis and mentor’s name listed in the graduation program, and be recognized separately as part of the Bumpers College Honors Program graduates.

Honors Graduation

Honors students enrolled in the Honors Program will be expected to perform at very high levels of achievement, earning credentials beyond the classroom experiences. Therefore, they will be eligible for several privileges during commencement not accorded to other students in the College.

Bumpers College honors students will graduate as a body and as members of the Honors Program at the College Commencement each spring. Separate regalia consisting of appropriate honors hood, stole, braid, tassel, and/or mortarboard will distinguish all students in the Honors Program. Students graduating from the Honors Program will be further distinguished from students receiving traditional College and University recognition of scholastic achievement (distinction, high distinction, or highest distinction) by graduating cum Laude with Honors Distinction, Magna cum Laude with Honors Distinction, or Summa cum Laude with Honors Distinction if cumulative grade point averages of 3.5 to 3.74, 3.75 to 3.89, or above 3.9 are maintained, respectively.

Incentives for student participation in the Honors Program include:

- Transcripts of honors students will specify that they are graduates of the College Honors Program.
- Honors students may request project support by applying for a grant from Bumpers College Undergraduate Research and Creative Project Grant Program.
- Honors students have the benefit of working one-on-one with faculty members on research or creative projects.
- Honors students will be eligible to apply for competitive scholarships supporting undergraduate honors studies or research (i.e., SURF grants).
- Honors students will receive all other rights and privileges as outlined in the Honors College benefits.

http://agribus.uark.edu/

The Department of Agricultural Economics and Agribusiness offers a major with three concentrations that lead to a Bachelor of Science in Agriculture degree. The department also offers a minor in Agricultural Business.

The agricultural business major provides education suited to career opportunities in farm management, agricultural business management, and agricultural marketing in both the domestic and international areas.

Managers of farms and agricultural businesses are continually required to make organizational and operational decisions. The basic skills and knowledge needed for making sound decisions are provided by the agricultural business curriculum. Students may elect to specialize in areas compatible with their personal objectives, depending upon the extent of accounting and business orientation desired.

Students educated in agricultural business are in demand for positions in agricultural industries, farm operation, marketing agencies, agricultural service organizations, state and federal agencies, and numerous other positions. For those who go on to graduate school, teaching and research positions are available with land grant colleges as well as with other institutions. Three concentrations are available to meet career objectives:
1. Agricultural Business Management and Marketing (ABMM)
2. Pre-Law, for students preparing to attend law school (PRLW)
3. Agricultural Economics, which emphasizes quantitative and analytical skills to prepare students for graduate school (AGEC).

Requirements for a Major in Agricultural Business (AGBS)

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

### Communications

Select English Core Courses (6 hours unless exempt)

- COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa)

Select one of the following:

- AGED 4003 Communicating Agriculture to the Public (Sp, Su, Fa)
- AGED 4343 Communication Campaigns in Agriculture (Odd years, Sp)
- COMM 2303 Advanced Public Speaking (Sp, Su, Fa)
- COMM 2323 Interpersonal Communication (Sp, Su, Fa)
- COMM 2343 Introduction to Small-Group Communication (Sp, Su, Fa)
- COMM 3383 Persuasion (Sp, Su, Fa)
- CSES 3023 Crop, Soil, and Environmental Sciences Colloquium (Fa)
- ENGL 2003 Advanced Composition (Sp, Su, Fa)
- ENGL 2013 Essay Writing (Sp, Su)
- ENGL 3053 Technical and Report Writing (ACTS Equivalency = ENGL 2023) (Sp, Fa)

### U.S. History or Government

Select U.S. History or Government Core Course

### Mathematics

Select one of the following:

- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa) (or higher MATH course from the University Core excluding MATH 2183)

### Science

Select 2 Science Courses from University Core (8 total hours)

### Fine Arts and Humanities

Select Fine Arts and Humanities Core Courses

### Social Sciences (9 hours)

Select one of the following:

- PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103) (Sp, Su, Fa)
- SOCI 2013 General Sociology (ACTS Equivalency = SOCI 1013) (Sp, Su, Fa)
- HESC 2603 Rural Families and Communities (Sp)

Select one of the following:

- AGEC 1103 Principles of Agricultural Microeconomics (Sp, Su, Fa)
- ECON 2023 Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa)

### AEAB Requirements

Select one of the following:

- AGEC 2103 Principles of Agricultural Macroeconomics (Sp, Fa)
- ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa)

### AEAB Requirements

Select two of the following:

- AGEC 2142 Agribusiness Financial Records (Sp, Fa)
- AGEC 2141L and Agribusiness Financial Records Lab (Sp, Fa)
- or ACCT 201 Accounting Principles (Sp, Su, Fa)
- AGEC 2303 Introduction to Agribusiness (Sp, Su, Fa)
- AGEC 3303 Food and Agricultural Marketing (Sp, Su, Fa)
- AGEC 3403 Farm Business Management (Sp, Fa)
- AGEC 3503 Agricultural Law I (Fa)

Select two of the following:

- AGEC 3413 Principles of Environmental Economics (Sp)
- AGEC 4163 Agricultural and Rural Development (Fa)
- AGEC 4613 Political Economy of Agriculture and Food (Fa)
- AGEC 4623 International Agricultural Trade and Commercial Policy (Sp)

Select two of the following:

- AGEC 3313 Agribusiness Sales (Sp)
- AGEC 3373 Futures and Options Markets (Fa)
- AGEC 4113 Agricultural Prices and Forecasting (Sp)
- AGEC 4303 Advanced Agricultural Marketing Management (Sp)
- AGEC 4373 Basis Trading: Applied Price Risk Management (Sp, Su)

Select two of the following:

- AGEC 4143 Agricultural Finance (Fa)
- AGEC 4313 Agricultural Business Management (Fa)
- AGEC 4323 AgriBusiness Entrepreneurship (Sp)
- AGEC 4403 Advanced Farm Business Management (Fa)

### Additional Requirements for Agribusiness Management and Marketing Concentration (45-52):

#### Statistics

Select one of the following:

- AGEC 2403 Quantitative Tools for Agribusiness (Sp, Su, Fa)
- WCOB 4033 Data Analysis and Interpretation (Sp, Su, Fa)

#### Agribusiness Management and Marketing Concentration

Select two of the following unless used to meet Departmental Core hours:

- AGEC 3313 Agribusiness Sales (Sp)
- AGEC 3373 Futures and Options Markets (Fa)
- AGEC 3413 Principles of Environmental Economics (Sp)
- AGEC 4113 Agricultural Prices and Forecasting (Sp)
- AGEC 4143 Agricultural Finance (Fa)
- AGEC 4163 Agricultural and Rural Development (Fa)
- AGEC 4303 Advanced Agricultural Marketing Management (Sp)
- AGEC 4313 Agricultural Business Management (Fa)
- AGEC 4323 AgriBusiness Entrepreneurship (Sp)
- AGEC 4403 Advanced Farm Business Management (Fa)
- AGEC 4373 Basis Trading: Applied Price Risk Management (Sp, Su)

Year Total: 15

Total Units in Sequence: 120

### Minor in Agricultural Business (AGBS-M)

The Agricultural Business Minor will consist of 18 semester hours to include:

- AGEC 1103 Principles of Agricultural Microeconomics (Sp, Su, Fa) 3
- AGEC 2103 Principles of Agricultural Macroeconomics (Sp, Fa) 3
- AGEC 2303 Introduction to Agribusiness (Sp, Su, Fa) 3

Select two of the following core electives: 6
- AGEC 3303 Food and Agricultural Marketing (Sp, Su, Fa)
- AGEC 3313 Agribusiness Sales (Sp)
- AGEC 3373 Futures and Options Markets (Fa)
- AGEC 3403 Farm Business Management (Sp, Fa)
- AGEC 3413 Principles of Environmental Economics (Sp)
- AGEC 4313 Agricultural Business Management (Fa)
- AGEC 4323 AgriBusiness Entrepreneurship (Sp)

Select six hours from the following controlled electives: 6
- Any AGEC course not already used
- ECON 3033 Microeconomic Theory (Sp, Su, Fa)
- ECON 3133 Macroeconomic Theory (Sp, Fa)
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)
- POSC 4213 Integrated Poultry Management Systems (Fa)

Additional upper-division courses in the Sam M. Walton College of Business may be substituted with approval, provided prerequisites for those courses have been satisfied outside the minor. A minimum of six hours of upper-division AGEC courses without substitution is required for the minor.
A student planning to minor in Agricultural Business should contact the program adviser for consultation and more detailed information.

**Minor in International Economic Development (INDV-M)**

**Course Requirements**

Successfully complete four of the following five courses: 12

- AGEC 4163 Agricultural and Rural Development (Fa)
- AGEC 4623 International Agricultural Trade and Commercial Policy (Sp)
- ECON 3843 Economic Development, Poverty & the Role of the World Bank and IMF in Low-Income Countries (Sp, Fa)
- ECON 3853 Emerging Markets (Fa)
- ECON 4633 International Trade (Sp, Fa)

Take a minimum of 3 hours of pre-approved study abroad experience 3

Total Hours 15

George W. Wardlow
Head of the Department
205 Agriculture Building
479-575-2035
http://aect.uark.edu/

The department of agricultural education, communications and technology offers a degree program with three concentrations that lead to a Bachelor of Science in Agriculture.

- The Agricultural Communications concentration is designed to produce graduates with both technical knowledge about the food and fiber industry and the communication skills needed to convey in an effective manner the story of agriculture to consumers, policy makers, and the public at large. Interpersonal and group communication, public relations, graphic art, video and television production, electronic communication, distance learning, video conferencing, and writing for the media are emphasized in this program.
- The Agricultural Education concentration is designed for students who wish to receive initial teacher licensure to teach agricultural science in public schools.
- The Agricultural Systems Technology Management concentration is for students who are planning a professional career related to technical operations and management in agricultural industry. Graduates assume positions of leadership and responsibility in such areas as agricultural services and sales, agricultural management, agricultural production systems, product service, product testing, and service management. The program focuses on preparing students as problem solvers in the application, management and/or marketing of agricultural technology.

The department also offers programs for three minors: Agricultural Communications, Agricultural Education, and Agricultural Systems Technology Management.

Students with this major are in constant demand due to the rapidly changing educational needs of the agricultural and natural resources industries. Graduates with this degree have a broad knowledge of agricultural disciplines. They are prepared as agricultural technology transfer specialists to enter a variety of careers in formal and nonformal teaching roles in either the public or private sector as agricultural educators, Extension agents, industry-based trainers, information specialists, or technology-management specialists. Students in agricultural education, communication and technology may choose one of three areas of concentration listed below, or, with adviser’s approval, select courses from more than one concentration area.

**Requirements for a Major in Agricultural Education, Communication and Technology (AECT)**

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

**Additional Requirements for AGED Concentration**

Complete an evaluation for internship. Students must also meet the following criteria to be cleared for the internship:

1. Successful completion of the PRAXIS I test by meeting or exceeding the Arkansas Department of Education cut-off scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013 (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/artarts), ENGL 1023 (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/artarts), and MATH 1203 (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/artarts).
2. Obtain a “C” or better in the following pre-education core courses: AGED 1123, AGED 1031, CIED 3023/CIED 4023, and CIED 3033 (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/artarts).
3. Obtain a “C” or better in concentration education courses: AGED 3133, AGED 3143, AGED 4843, AGED 4233, and AGED 475V Internship in Agricultural Education (Sp, Su, Fa).
4. Complete and submit online application to teacher education (See the Teacher Education Application Fee (p. 61)) through the university-wide Teacher Education Office GRAD 339 by Jan. 15 prior to the fall semester of the junior year. Complete degree with a cumulative GPA of 2.5 or higher. The degree must be posted to your University of Arkansas transcript in order to be eligible for licensure.
5. Obtain departmental clearance for GPA requirements, course work requirements, an interview, and/or other requirements. Obtain clearance through an Arkansas Department of Education background check. Note: Another background check will be required prior to graduation in order to be eligible for licensure.
6. Submit completed application on the Office of Field Placement and Licensure website (http://coehp.uark.edu/licensure.php). Please contact the Director for the Office of Field Placement and Licensure, Graduate Education Building, Room 339, College of Education and Health Professions for more information.

For Teacher Certification (41-42 hours):

**Mechanical Technology Courses 8**

**Total Units in Sequence:** 120

**Minor in Agricultural Communications (ACOM-M)**

The Agricultural Communications Minor will consist of 18 hours to include the following:

AGED 2143 Introduction to Agricultural Communications (Fa) 3  
AGED 3143 Communicating Agriculture to the Public (Sp, Su, Fa) 3  
JOUR 1033 Fundamentals of Journalism (Sp, Su, Fa) 3  
Select 9 hours from the following:  
AGED 3243 Ag Reporting and Feature Writing (Odd years, Fa)  
AGED 3943 Professional Development in Agricultural Communications (Even years, Fa)  
AGED 4143 Electronic Communications in Agriculture (Even years, Sp)  
AGED 4243 Graphic Design in AFLS (Sp, Su, Fa)  
AGED 4343 Communication Campaigns in Agriculture (Odd years, Sp)  
AGED 4543 Ag Publications (Even years, Sp)  

**Total Hours:** 18

A student planning to minor in Agricultural Communications should contact the program adviser for consultation and more detailed information.

**Minor in Agricultural Leadership (AGLE-M)**

The Agricultural Leadership Minor will consist of 18 semester hours to include:

AGED 2143 Introduction to Agricultural Communications (Fa) 3  
AGED 3153 Leadership Development in Agriculture (Sp) 3  
AGED 4153 Survey of Leadership Theory in Agriculture (Fa) 3  
Select 9 hours from the following:  
AGEDC 3313 Agribusiness Sales (Sp)  
AGED 3133 Instructional and Presentation Strategies (Fa)  
AGED 3943 Professional Development in Agricultural Communications (Even years, Fa)  
AGED 4163 Leadership Analysis Through Film (Sp)  
AGED 4443 Principles of Technological Change (Odd years, Fa)  
EXED 4183 Management of Volunteer Programs (Irregular)  

A student planning to minor in Agricultural Leadership should contact the program adviser for consultation and more detailed information.

**Minor in Agricultural Systems Technology Management (ASTM-M)**

The Agricultural Systems Technology Management Minor will consist of 18 hours to include the following:

AGME 1613 Fundamentals of Agricultural Systems Technology (Fa) 3  
AGME 2903 Agricultural and Human Environmental Sciences Applications of Microcomputers (Sp, Su, Fa) 3  
Select 12 hours from the following:  
AGME 1611L Fundamentals of Agricultural Systems Technology Laboratory (Fa)  
AGME 2123 Metals and Welding (Sp, Fa)  
AGME 3153 Surveying in Agriculture and Forestry (Fa)  
AGME 3102 Small Power Units/Turf Equipment (Sp)  
& AGME 3101L Small Power Units/Turf Equipment Laboratory (Sp)  
AGME 3173 Electricity in Agriculture (Sp)  
AGME 4203 Mechanized Systems Management (Even years, Fa)  
AGME 4973 Irrigation (Sp)  

**Total Hours:** 21

Teacher Education Requirements: To gain teacher certification, students must apply during the Fall semester of their sophomore year. We recognize not all programs can follow this timeline, but applying early will allow ample time to complete the requirements for clearance through Teacher Education.
A student planning to minor in Agricultural Systems Technology Management must notify the program adviser for consultation and more detailed information.

Animal Science (ANSC)

Faculty

Chelsey Ahrens, Assistant Professor
Jason Apple, Professor
Clayton Bailey, Adjunct Assistant Professor
Douglas H. Baird, Adjunct Professor
Paul Arthur Beck, Professor
Steve Breeding, Adjunct Associate Professor

Head of the Department
B114 Agricultural, Food, and Life Sciences Building
479-575-4351
http://animal-science.uark.edu/

The animal science major offers three areas of concentration designed to provide the scientific and technical education to prepare students for positions of leadership and responsibility. Students gain valuable experience pertaining to the production of beef and dairy cattle, swine, horses, sheep, and companion animals. In addition, extensive study is offered in the specialized areas of animal health, breeding and genetics, meat science, nutrition, and physiology.

Students majoring in animal science are prepared for a variety of careers. Pre-veterinary, pre-medical, and pre-professional course requirements may be fulfilled while meeting degree requirements. Specific career opportunities include positions and services related to the production, merchandising, processing and distribution of meat, milk, and related products. Additional opportunities include field persons, farm and herd managers, and other agribusiness-related positions. With additional academic training, animal science majors may become extension livestock specialists, nutritionists, geneticists, and physiologists.

The General Animal Science Concentration is a science-based degree program designed for students desiring a broader general background in animal science and offers students the greatest degree of flexibility in adapting their degree program to a wide variety of career paths. It offers a larger list of elective classes and opportunity to minor in other disciplines.

The Pre-Professional/Science Concentration is designed primarily for students who intend to compete for admission to professional schools, advanced post-graduate degree programs, or other career paths that require a strong background and understanding of basic and applied sciences.

The Equine Concentration is designed for students who desire a sound science-based background in Animal Science, but desire a more intense study of equine management and equine science.

Students should consult an animal science adviser for specific course selections in the elective areas. With appropriate advising, students have an opportunity to complete at least one minor within the 120-hour degree program.

Requirements for a Major in Animal Science (ANSC) with Animal Science concentration

</tbody>
</table>
PHYS 2013  College Physics I (ACTS Equivalency = PHYS & PHYS 2011L 2014 Lecture) (Su, Fa) 
and College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab) (Su, Fa)

PHYS 2033  College Physics II (ACTS Equivalency = PHYS & PHYS 2031L 2024 Lecture) (Sp, Su) 
and College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab) (Su)

Discipline-Related Electives  10
Select 10 hours from the following:
Suggested:
BIOL 2533  Cell Biology (Sp, Fa)
MATH 2554C  Calculus I (ACTS Equivalency = MATH 2405) (Sp, Fa)
STAT 2303  Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)
or STAT 2022 Biostatistics (Sp)

Other discipline related electives:
ANSC 2003  Introduction to Equine Industry (Sp)
ANSC 2213  Behavior of Domestic Animals (Fa)
ANSC 2303  Introduction to Horsemanship (Sp, Fa)
ANSC 3072  Equine Selection and Evaluation (Sp)
ANSC 3282  Livestock Judging and Selection (Fa)
ANSC 3291  Livestock Junior Judging Team Activity (Sp)
ANSC 3491L  Artificial Insemination in Cattle (Sp)
ANSC 3723  Horse and Livestock Merchandising (Fa)
ANSC 400V  Special Problems (Sp, Su, Fa)
ANSC 401V  Internship in Animal Sciences (Sp, Su, Fa)
ANSC 4072  Advanced Equine Selection and Evaluation (Fa)
ANSC 410V  Special Topics in Animal Sciences (Irregular)
ANSC 4123  Legal Issues in Animal Agriculture (Odd years, Sp)
ANSC 4173  Thoroughbred Horse Industry (Odd years, Sp)
ANSC 4291  Livestock Senior Judging Team Activity (Fa)
AFLS 400VH  Honors Thesis (Sp, Su, Fa)
AGEC 1103  Principles of Agricultural Microeconomics (Sp, Su, Fa)
AGEC 2103  Principles of Agricultural Macroeconomics (Sp, Su, Fa)
AGEC 2303  Introduction to Agribusiness (Sp, Su, Fa)
AGME 2903  Agricultural and Human Environmental Sciences Applications of Microcomputers (Sp, Su, Fa)
Biol 2531L  Cell Biology Laboratory (Sp, Fa)
CSES 1203  Introduction to Plant Sciences (Sp, Fa)
CSES 2013  Pest Management (Sp)
CHEM 2261L  Analytical Chemistry Laboratory (Sp, Fa)
CHEM 2263  Analytical Chemistry Lecture (Sp, Fa)
FDSC 2503  Food Safety and Sanitation (Sp, Fa)
POSC 2353  Poultry Breeder Management (Sp)
ACCT 2013  Accounting Principles (Sp, Su, Fa)
BLAW 2013  The Legal Environment of Business (ACTS Equivalency = BLAW 2003) (Sp, Su, Fa)

Or any upper division course in AGEC, AGED, AGME, AGST, BIOL, CHEM, CSES, FDSC, POSC, or WCOB.

General Electives  5-12
Total Hours  120

Animal Science B.S.A. with Pre-Professional Science Concentration

Requirements for a Major in Animal Science (ANSC) with Equine concentration

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

University Requirements 0-1
Communications 6-12
UNIV 1001 University Perspectives (Sp, Su, Fa) 1
ENGL 1013 Composition I (ACTS Equivalency = ENGL 1013) (Sp, Su, Fa) (unless exempt) 3
ENGL 1023 Composition II (ACTS Equivalency = ENGL 1023) (Sp, Su, Fa) (unless exempt) 3
Communication Intensive Elective 6 hours (See adviser for approved list.)
History or Government 3
HIST 2003 History of the American People to 1877 (ACTS Equivalency = HIST 2113) (Sp, Su, Fa) 3
or HIST 201 History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123) (Sp, Su, Fa) 3
or PLSC 200 American National Government (ACTS Equivalency = PLSC 2003) (Sp, Su, Fa) 3
Mathematics 3
MATH 1203 College Algebra (ACTS Equivalency = MATH 1103) (Sp, Su, Fa) 3
Sciences 16
BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014) & BIOL 1541L Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) (Sp, Su, Fa) 4
BIOL 2013 General Microbiology (ACTS Equivalency = BIOL 2004) & BIOL 2011L General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab) (Sp, Su, Fa) 4
Select one of the following
CHEM 1073 Fundamentals of Chemistry (ACTS Equivalency = CHEM 1214) & CHEM 1071L Chemistry 1214 Lecture (Sp, Su) and Fundamental of Chemistry Laboratory (ACTS Equivalency = CHEM 1214 Lab) (Fa) 4
or CHEM 1121 University Chemistry II (ACTS Equivalency = CHEM 1224) & CHEM 1121L University Chemistry II Laboratory (ACTS Equivalency = CHEM 1224 Lab) (Sp, Su, Fa) 4
Select one of the following
CHEM 2613 Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224) & CHEM 2611L Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab) (Sp, Su, Fa) 4
or CHEM 360 Organic Chemistry I (Sp, Su, Fa) & CHEM 360L Organic Chemistry Laboratory (Sp, Su, Fa) 4
Fine Arts and Humanities 6
Select one Fine Arts and one Humanities course from state minimum core approved list
Social Sciences 9

Total Units in Sequence: 120
Select three Social Sciences courses from state minimum core approved list

**Minor in Equine Science (EQSC-M)**

A minor in Equine Science prepares students for jobs in the equine industry. A student planning to minor in Equine Science should meet with an Animal Science adviser for more information. The Equine Science minor is only available to students outside of the ANSC major.

The minor consists of 19 hours to include the following:

**Core Requirements** 13

U.S. History or Government
Select one U.S. History Core Course

Mathematics and Computer Science
Select from MATH Core courses
Select one of the following:  
AGME 2903 Agricultural and Human Environmental Sciences Applications of Microcomputers (Sp, Su, Fa)  
AGST 4023 Principles of Experimentation (Fa)  
STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)

**Sciences**

AGME 2903 Agricultural and Human Environmental Sciences Applications of Microcomputers (Sp, Su, Fa)  
AGST 4023 Principles of Experimentation (Fa)  
CSES 4103 Plant Breeding (Even years, Fa)  
CSES 4112 Forage Management (Irregular)

**Electives for a Minor (Students must declare minor with the Bumpers College Dean's Office)**

Choose 9 hours from Group C or 12 hours from Group D

**Group D (Agricultural Business minor)**

Select two of the following:  
AGEC 2303 Introduction to Agribusiness (Sp, Su, Fa)  
AGEC 3403 Farm Business Management (Sp, Fa)  
UNIV 1001 University Perspectives (Sp, Su, Fa) (Required of all new freshmen)

**Crop Science B.S.A.**

**Nine-Semester Degree Program**

Because the Crop Science program requires an internship, it doesn't qualify for the Eight-Semester Program. See more about the Eight-
Semester Degree Policy (p. 73) for university requirements of the program.

Minor in Crop Science (CPSC-M)

A student planning to minor in Crop Science must notify the program adviser for consultation and more detailed information. The Crop Science Minor consists of 18 semester hours of 2000-level courses or above, including the following:

- CSES 2103 Crop Science (Sp) 3
- CSES 2203 Soil Science (Sp, Fa) 3
- Select 12 hours with at least 4 hours coming from Group A: 12
  - CSES 3112 Forage Management (Irregular)
  - CSES 3312 Cotton Production (Even years, Fa)
  - CSES 3332 Rice Production (Odd years, Fa)
  - CSES 3342 Cereal Grain Production (Even years, Sp)
  - Group B
    - CSES 3214 Soil Resources and Nutrient Cycles (Odd years, Sp)
    - CSES 4013 Advanced Crop Science (Fa)
    - CSES 4103 Plant Breeding (Even years, Fa)
    - CSES 4133 Ecology and Morphology of Weedy and Invasive Plants (Fa)
    - CSES 4143 Principles of Weed Control (Sp)
    - CSES 4224 Soil Fertility (Fa)

Total Hours 18

Minor in Crop Biotechnology (CPBT-M)

A student planning to minor in Crop Biotechnology must notify the program adviser for consultation and more detailed information. The Crop Biotechnology Minor consists of 16 hours of courses and to include the following:

- Select one of the following: 3
  - BIOL 2323 General Genetics (Sp, Fa)
  - ANSC/POSC 3123 Principles of Genetics (Fa)
- PLPA 4333 Biotechnology in Agriculture (Fa) 3
- CSES 402V Special Topics (Irregular) 1-3
- Select two of the following: 6
  - BIOL 4303 Plant Physiology (Fa)
  - CHEM 3813 Elements of Biochemistry (Sp, Su, Fa)
  - CSES 4103 Plant Breeding (Even years, Fa)

Total Hours 13-15
science, soil and water conservation, and the sustainable productivity of natural resources.

Many graduates from both majors also choose to continue their education in graduate programs in a wide variety of disciplines both related and complementary to the B.S.A. degrees.

**Entomology (ENTO)**

**Faculty**

Ashley Patrick Gregg Dowling, Associate Professor  
Fiona Goggin, Professor  
John D. Hopkins, Associate Professor

Robert N. Wiedenmann, Professor  

Richard Roeder, Interim Head of the Department  
319 Agriculture Building  
479-575-2451  
http://entomology.uark.edu/

Entomology is the branch of science concerned with the study of insects and related organisms. It involves studies of their biology, structure, identification, economic significance, and population management. The major emphasis of the curriculum is understanding insect biology and applying that knowledge in an integrated approach to insect-pest management.

Entomology is a graduate degree at the University of Arkansas. Undergraduate students interested in entomology can pursue a minor in entomology or pest management.

**Minor in Entomology (ENTO-M)**

The Entomology minor will consist of a minimum of 15 semester hours to include the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Semester</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENTO 3013</td>
<td>Introduction to Entomology (Fa)</td>
<td></td>
<td>3</td>
</tr>
<tr>

Opportunities for employment and post-graduate study are numerous for graduates of the Department of Crop, Soil, and Environmental Sciences. Environmental, Soil, and Water Science graduates find jobs with environmental consulting companies, environmental education organizations, state agencies (e.g., Extension Service, Department of Environmental Quality, Health Department), federal agencies (e.g., Environmental Protection Agency, Natural Resources Conservation Service), municipalities and local environmental services (e.g., waste management and recycling, water and wastewater treatment facilities, parks and tourism departments), a wide variety of private businesses, and environmental research.
The Environmental, Soil, and Water Science major includes courses in areas such as environmental science, water quality, soil science, soil and water conservation, and the sustainable productivity of natural resources.

Requirements for a Major in Environmental, Soil, and Water Science (ESWS)

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

UNIV 1001 University Perspectives (Sp, Su, Fa) (Counts as General Elective) 1

Communication
Choose from English Core course (6 hours) If exempt, see adviser for communication courses.

COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa) 3
CSES 3023 Crop, Soil, and Environmental Sciences Colloquium (Fa) 3
or AGED 3143 Communicating Agriculture to the Public (Sp, Su, Fa) 3

U.S. History and Government
One U.S. History Core Courses

Mathematics
MATH 1203 College Algebra (ACTS Equivalency = MATH 1103) (Sp, Su, Fa) 3
MATH 1213 Plane Trigonometry (ACTS Equivalency = MATH 1203) (Sp, Su, Fa) (Higher level MATH is encouraged for students with an ACT of 26 or higher and considering graduate school.) 3

Select one of the following: 3

AGST 4023 Principles of Experimentation (Fa) 3
STAT 2023 Biostatistics (Sp) 3
STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa) 3

Sciences
BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa) 4
& BIOL 1541L and Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) (Sp, Su, Fa) 1

BIOL 2013 General Microbiology (ACTS Equivalency = BIOL 2004 Lecture) (Sp, Su, Fa) 4
& BIOL 2011L and General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab) (Sp, Su, Fa) 1

BIOL 3863 General Ecology (Sp, Fa) 4
& BIOL 3861L and General Ecology Laboratory (Fa) 1
or ENSC 3223 and Ecosystems Assessment (Even years, Fa) 4
& ENSC 3221L and Ecosystems Assessment Laboratory (Even years, Fa) 1

CSES 1203 Introduction to Plant Sciences (Sp, Fa) 3
CSES 1204 Surveying in Agriculture and Forestry (Fa) 3
& CHEM 1101L and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab) (Sp, Su, Fa) 1
CHEM 1201L University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) (Sp, Su, Fa) 4

CHEM 1121L University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa) 4

Selection of courses for the major must be approved by the adviser in the department of Crop, Soil, and Environmental Sciences.

ESWS Requirements

Environmental Science Core

CSES 2203 Soil Science (Sp, Fa) 3
CSES 2201L Soil Science Laboratory (Sp, Fa) 3
ENSC 1003 Environmental Science (Sp, Fa) 3
ENSC 1001L Environmental Science Laboratory (Sp, Fa) 3
ENSC 3003 Introduction to Water Science (Sp) 3

Soil Science Core

Select one of the following: 3-4

CSES 3214 Soil Resources and Nutrient Cycles (Odd years, Sp) (with Lab Component) 3
CSES 4224 Soil Fertility (Fa) (with Lab Component) 3
CSES 4253 Soil Classification and Genesis (Odd years, Fa) (with Lab Component) 3
ENSC 4263 Environmental Soil Science (Even years, Sp) (with Lab Component) 3

Water Science Core

Select one of the following: 3

ENSC 4023 Water Quality (Fa) 3
GEOS 3333 Oceanography (Even years, Sp) 3
GEOS 4033 Hydrogeology (Sp) 3

**Environmental, Soil, and Water Science (ESWS)**

**Environmental, Soil, and Water Science B.S.A.**

Students wishing to follow the degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program.
Minor in Natural Resources Management (NRMT-M)

A student planning to minor in Natural Resources Management must notify the program adviser for consultation and more detailed information. No more than 9 hours can be counted towards a Natural Resources Management minor with an ESWS major. The Natural Resources Management Minor consists of 18 hours to include the following:

**Required courses**

- ENSC 3223 Ecosystems Assessment (Even years, Fa) & ENSC 3221L Ecosystems Assessment Laboratory (Even years, Fa)
- BIOL 3863 General Ecology (Sp, Fa) & BIOL 3861L General Ecology Laboratory (Fa)
- Statistics or Natural Resources Core 3
- Soil Science or Natural Resources Core 3-4
- Natural Resources Core or General Elective (Could apply elective toward a minor) 3
- Natural Resources Core or General Elective 3
- Statistics or Natural Resources Core 3
- General Elective or Natural Resources Core 3
- General Elective as Broadening Elective (Could apply toward a minor) 2-3
- General Elective (May wish to take another elective. Could apply toward a minor) 2-3

**Year Total:** 16 13

**Total Units in Sequence:** 120

**Minor in Soil Science (SOIL-M)**

A student planning to minor in Soil Science must notify the program adviser for consultation and more detailed information.

The Soil Science minor will consist of a total of 18 hours comprising the following required and elective courses. No more than 9 hours can be counted towards a Soil Science minor with an Environmental Soil and Water Science major. Those students interested in obtaining certification in the area of soil science will need at least 15 soil science hours, preferably covering each of the sub-disciplines (i.e., fertility, genesis, morphology, and classification, chemistry, physics, soil biology and ecology, and land use and management).

**Required Courses**

- ENSC 3223 Ecosystems Assessment (Even years, Fa) & ENSC 3221L Ecosystems Assessment Laboratory (Even years, Fa)
- ENSC 3263 Soil and Water Conservation (Fa)
- ENSC 3603 GIS for Environmental Science (Odd years, Sp)
- ENSC 4021L Water Quality Laboratory (Fa)
- ENSC 4023 Water Quality (Fa)
- ENSC 4034 Analysis of Environmental Contaminants (Even years, Sp)
- ENSC 4263 Environmental Soil Science (Even years, Sp)
- ENSC 4401 Professional Certification Preparation (Sp)
- GEOS 3043 Sustaining Earth (Sp, Su, Fa)
- GEOS 3543 Geospatial Applications and Information Science (Sp, Fa)

**Total Hours** 18
Food Science (FDSC)

Faculty
Griffiths Odhiambo Atungulu, Assistant Professor
Jamie I. Baum, Assistant Professor
Franck Carbonero, Assistant Professor
Philip G. Crandall, Professor
Kristen Elizabeth Gibson, Associate Professor
Navam S. Hettiarachchy, University Professor
Luke R. Howard, Professor
Sun-Ok Lee, Associate Professor
Jean-François Meullenet, Professor, Endowed Professorship in Food Sensory Science
Ruben O. Morawicki, Associate Professor
Andy Proctor, University Professor
Steven C. Ricke, Professor, Donald “Buddy” Wray Chair in Food Safety
Han-Seok Seo, Associate Professor
Terrence J. Siebenmorgen, Distinguished Professor
Ya-Jane Wang, Professor

N-201 Food Science Building
479-575-4605

Department of Food Science Website (http://food-science.uark.edu)

Food science is the application of science and technology to processing, packaging, safety, product invention and distribution of food products. Food science deals with all aspects of food between production and consumption and involves many disciplines, including chemistry, microbiology, nutrition, engineering and sensory science.

Food science prepares students for many interesting, rewarding and challenging professional career opportunities in industry, business, governmental and educational organizations associated with food and food-related products. Due to the diversity and abundance of opportunities available, students graduating with a B.S.A. in food science readily obtain employment or continue studies for graduate school. Additionally, requirements for several pre-professional programs can be fulfilled while meeting requirements for the food science degree.

Students may choose one of three areas of concentration for their degree program: Food Science (FDSC), Food Technology (FDTN) or Food and Culinary Sciences (FDCU). The FDSC concentration at the University of Arkansas is one of only 40 programs in the United States and the only one in Arkansas that is approved by the Institute of Food Technologists. It provides students with a strong background in basic and applied sciences and food chemistry, microbiology, analysis, quality and engineering.

The FDTN concentration provides students interested in food industry careers with an integrated background in food science and business or nutrition. Students in the food technology concentration will complete a minor in agribusiness, general business, or nutrition while completing their core requirements, thus leaving elective hours available for further educational enhancement.

The FDCU concentration provides students interested in product development careers with an interdisciplinary background in food science and culinary arts. This concentration is a partnership program with Northwest Arkansas Community College (NWACC). Students complete their culinary arts coursework on the NWACC campus for transfer credit to the UA and are eligible to receive a Certificate of Proficiency in Culinary Arts from NWACC with no additional coursework. Culinary coursework can be taken prior to admission to the UA or taken while in residence at the UA. Food and Culinary Sciences concentration will provide students with the course work necessary to be eligible to become a Certified Culinary Scientist through the Research Chef’s Association.

Students in each concentration are offered opportunities for research, internships, international experiences and selection of a minor.

Requirements for a Major in Food Science (FDSC)
State minimum core and discipline specific general education requirements:
(Course work that meets state minimum core requirements is in bold.)

Communication (6-12 hours)

<table>
<thead>
<tr>

Physical and Biological Sciences (20-31 hours)
Biology 1543 & BIOL 1541L
Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa) and Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) (Sp, Su, Fa) 4

Biology 2013 & BIOL 2011L
General Microbiology (ACTS Equivalency = BIOL 2004 Lecture) (Sp, Su, Fa) and General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab) (Sp, Su, Fa) 4

Chemistry 1103 & CHEM 1101L
University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) (Su, Fa) and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab) (Sp, Su, Fa) 4

Chemistry 1123 & CHEM 1121L
University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) (Sp, Su, Fa) and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa) 4

Select one of the following concentrations:

FDSC Concentration: 11-15

CHEM 2613 & CHEM 2611L
Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture) (Sp, Su, Fa) and Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab) (Sp, Su, Fa) 4

or CHEM 36 Organic Chemistry I (Su, Fa) & CHEM 361 Organic Chemistry I Laboratory (Su, Fa) & CHEM 362 Organic Chemistry II (Sp, Su) & CHEM 361L Organic Chemistry II Laboratory (Sp, Su) 4

CHEM 3813 Elements of Biochemistry (Sp, Su, Fa) 3

PHYS 2013 & PHYS 2011L
College Physics I (ACTS Equivalency = PHYS 2014 Lecture) (Su, Fa) and College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab) (Sp, Su, Fa) 4

FDTN Concentration: 4-7

CHEM 2613 & CHEM 2611L
Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture) (Sp, Su, Fa) and Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab) (Sp, Su, Fa) 4

CHEM 3813 Elements of Biochemistry (Sp, Su, Fa) (for students declaring General Foods and Nutrition minor only) 3

FDSC Degree Requirements (26 hours)

UNIV 1001 University Perspectives (Sp, Su, Fa) 1

FDSC 1011 Exploring Topics in Food Science (Fa) 1

FDSC 1103 Introduction to Food Science (Sp) 3

FDSC 3103 Principles of Food Processing (Fa) 3

FDSC 3202 Introduction to Food Law (Sp) 2

FDSC 4304 Food Chemistry (Fa) 4

FDSC 4113 Food Analysis (Sp) 4

& FDSC 4111L and Food Analysis Lab (Sp) 2

FDSC 431V Internship in Food Science (Sp, Su, Fa) 3

FDSC 4413 Sensory Evaluation of Food (Fa) 3

FDSC 4713 Product Innovation for the Food Scientist (Sp) 3

General Electives (9-19 hours) 9-19

Additional Requirements for Food Science Concentration (10 hours)

NUTR 1213 Fundamentals of Nutrition (Sp, Fa) 3

FDSC 4122 Food Microbiology (Fa) 3

& FDSC 4121L and Food Microbiology Lab (Fa) 2

FDSC 4754 Engineering Principles of Food Processing (Even years, Sp) 4

Food Science B.S.A., Food Science Concentration

Nine-Semester Degree Program

Because the Food Science Concentration requires an internship one summer, students cannot enroll in an Eight-Semester Program. See the Eight-Semester Degree Policy (p. 73) for requirements of the eight-semester programs.

Complete one of the following options (students must declare chosen minor with Bumpers College Dean’s Office)

Option 1: Agribusiness Minor (AGBS-M)  
15

- ISYS 1120 Computer Competency Requirement (Sp, Su, Fa)
- AGEC 2142 Agribusiness Financial Records (Sp, Fa)
  & AGEC 2141L and Agribusiness Financial Records Lab (Sp, Fa)
- AGEC 2303 Introduction to Agribusiness (Sp, Su, Fa)
- AGEC 3303 Food and Agricultural Marketing (Sp, Su, Fa)
- AGEC 4313 Agricultural Business Management (Fa)

Select one 3000-4000 level business course from the departmental codes: ACCT, AGEC, ECON, FINN, MGMT, MKTG, SPCM or WCOB

Option 2: General Business Minor (GBUS-M)  
15

- ISYS 1120 Computer Competency Requirement (Sp, Su, Fa)
- ACCT 2013 Accounting Principles (Sp, Su, Fa)
- MGMT 3563 Management Concepts and Organizational Behavior (Irregular)
- MKTG 3433 Introduction to Marketing (Sp, Su, Fa)

Select two 3000-4000 level Walton College courses chosen from departmental codes: ACCT, ECON, FINN, ISYS, MGMT, MKTG, SPCM or WCOB

Option 3: General Foods and Nutrition Minor (GFNU-M)  
18

- NUTR 1213 Fundamentals of Nutrition (Sp, Fa)
- NUTR 2111 Principles of Foods (Sp, Fa)
  & NUTR 2111L Principles of Foods Laboratory (Sp, Fa)
- NUTR 3203 Human Nutrition (Sp)
- NUTR 4213 Advanced Nutrition (Fa)

Select two of the following:

- NUTR 2203 Sports Nutrition (Sp, Fa)
- NUTR 4223 Life Cycle Nutrition (Fa)
- NUTR 4243 Community Nutrition (Sp)

Food Science B.S.A., Food Technology Concentration

Nine-Semester Degree Program

Because the Food Technology Concentration requires an internship one summer, students cannot enroll in an Eight-Semester Program. See the Eight-Semester Degree Policy (p. 73) for requirements of the eight-semester programs. Students in the Food Technology Concentration must also minor in agribusiness, general business or nutrition.

NUTR 2203 Sports Nutrition (Sp, Fa)  
& General Elective  
University Core in Fine Arts/Humanities or Social Science or History  
Year Total: 15  12

**Requirements for a Major in Food Science (FDSC)**  
State minimum core and discipline specific general education requirements:  
(Course work that meets state minimum core requirements is in bold.)

**Communication (6-12 hours)**
- ENGL 1013 Composition I (ACTS Equivalency = ENGL 1013) (Sp, Su, Fa) (unless exempt)  
  3
- ENGL 1023 Composition II (ACTS Equivalency = ENGL 1023) (Sp, Su, Fa) (unless exempt)  
  3
- Select two courses from approved list of communication intensive courses (FDCU must choose 3000-4000 level courses)  
  6

**U.S. History and Government (3 hours)**
- Select one U.S. History Core courses  
  3

**Mathematics and Statistics (9-13 hours)**
- MATH 1203 College Algebra (ACTS Equivalency = MATH 1103) (Sp, Su, Fa)  
  3
- FDSC Concentration:  
  10
  - MATH 1213 Plane Trigonometry (ACTS Equivalency = MATH 1203) (Sp, Su, Fa)  
  3
  - MATH 2554 Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa)  
  3
  - Select one of the following:  
    - STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)  
    3
    - STAT 2023 Biostatistics (Sp)  
    3
    - AGST 4023 Principles of Experimentation (Fa)  
    3
  - FDTN Concentration:  
    6
    - MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)  
      3
    - MATH 2053 Finite Mathematics (Sp, Su, Fa) for students declaring Agricultural Business or General Business minors only  
      3
    - Select one of the following:  
      - AGEC 2403 Quantitative Tools for Agribusiness (Fa)  
      - WCOB 1033 Data Analysis and Interpretation (Sp, Su, Fa)  
      - STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)  
      - AGST 4023 Principles of Experimentation (Fa)  
      3
  - FDCU Concentration:  
    6
    - MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)  
      3
    - STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)  
      3

**Physical and Biological Sciences (20-31 hours)**
- BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa)  
  and Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) (Sp, Su, Fa)  
  4
- BIOL 2013 General Microbiology (ACTS Equivalency = BIOL 2004 Lecture) (Sp, Su, Fa)  
  and General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab) (Sp, Su, Fa)  
  4
- CHEM 1103 University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) (Sp, Su, Fa)  
  and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab) (Sp, Su, Fa)  
  4
- CHEM 1123 University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) (Sp, Su, Fa)  
  and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa)  
  4
- Select one of the following concentrations:  
  FDSC Concentration:  
    11-15
    - CHEM 2613 Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture) (Sp, Su, Fa)  
      and Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab) (Sp, Su, Fa)  
      4
    - or CHEM 36/Organic Chemistry I (Sp, Su, Fa)  
      & CHEM 36/Organic Chemistry II Laboratory (Sp, Su, Fa)  
      4
    - CHEM 3813 Elements of Biochemistry (Sp, Su, Fa)  
    3
  - FDTN Concentration:  
    4-7
    - CHEM 2613 Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture) (Sp, Su, Fa)  
      and Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab) (Sp, Su, Fa)  
      4
    - CHEM 3813 Elements of Biochemistry (Sp, Su, Fa) for students declaring General Foods and Nutrition minor only  
    3
  - FDCU Concentration:  
    4
    - CHEM 2613 Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture) (Sp, Su, Fa)  
      and Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab) (Sp, Su, Fa)  
      4

**Fine Arts and Humanities (6 hours)**
- Select two Fine Arts, Humanities Core courses  
  6

**Social Sciences (9 hours)**
- Select three Social Science Core courses  
  9
  - Students declaring Agricultural Business minor must take AGEC 1103 Agricultural Microeconomics and students declaring General Business minor must take ECON 2143 Basic Economics - Theory & Practice, or both ECON 2013 Macroeconomics and ECON 2023 Microeconomics

**FDSC Degree Requirements (26 hours)**
- UNIV 1001 University Perspectives (Sp, Su, Fa)  
  1

A student planning to minor in food science must consult a Department of Food Science adviser.

### Horticulture (HORT)

#### Faculty

- Janet B. Carson, Associate Professor
- John R. Clark, Distinguished Professor
- Michael R. Evans, Professor
- M. Elena Garcia, Professor
- Douglas Edward Karcher, Professor
- Jacquelyn A. Lee, Associate Professor
- Wayne A. Mackay, Professor
- Garry Vernon McDonald, Clinical Assistant Professor
- Amanda L. McWhirt, Assistant Professor
- Mike Richardson, Professor
- James A. Robbins, Professor
- Curt R. Rom, University Professor
- Angela M. Shaw, Adjunct Assistant Professor
- Ainong Shi, Assistant Professor
- Margaret L. Worthington, Assistant Professor

Wayne A. Mackay
Head of the Department
316 Plant Sciences Building
479-575-2603
http://hort.uark.edu

The Department of Horticulture offers a broad, science-based degree with comprehensive and technical training: Horticulture, Landscape and Turf Sciences (HLTS).

Horticulture, landscape, and turf management involves selection, production, management, marketing, use, and research of ornamental crops (shrubs, trees, flowers, and turf), edible crops (herbs, vegetables, and fruits) and turf grasses for the economic, nutritional, aesthetic and recreational well-being of society. The major provides education and training in basic and applied sciences, arts and humanities, communication, and business and economics to provide an understanding of the underlying principles in plant growth and development and use of new technologies, and the operation of a horticultural enterprise.

In consultation with an academic adviser and mentor, students may individually focus their academic programs through required and elective courses to focus training in specialized areas such as production, greenhouse and floriculture sciences, turfgrass management, golf course management, nursery production and management, edible crop production, pest management, sales and support services, education and training, and horticultural consulting. An internship in the industry is required to gain practical, hands-on experience.
Job opportunities for horticulturists include horticulture crop production and management, horticulture merchandising and business, consulting, inspection, research, teaching, Extension, communications, allied industries serving horticultural producers, journalists, and developing private business. Students who specialize in landscape and aspects of ornamental horticulture will be prepared for careers in the landscape service industry, landscape nurseries, landscape design firms, private and public gardens, and public agencies such as parks and recreation. Job opportunities for students studying turfgrass management include golf course superintendent, sports field manager, turfgrass science companies, seed or sod production, commercial landscape turfgrass management, research, sales, teaching, or private consulting. Advanced study may be required for some careers.

Requirements for a Major in Horticulture, Landscape and Turf Sciences (HLTS)
The HLTS major will consist of 120 hours to include the following:

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in **bold**.)

**Communications** 0-6

**Two English Core Courses (unless exempt)**

Total Units in Sequence: 117-122

### Minor in Horticulture (HORT-M)

The minor will consist of 18 hours to include:

- **HORT 2003** Principles of Horticulture (Sp) 3
- **HORT 4403** Plant Propagation (Sp) 3
  - Select 9-11 hours from the following: 9-11
  - **HORT 2303** Introduction to Turfgrass Management (Fa)
  - **HORT 3303** Vegetable Crops (Irregular)
  - **HORT 400V** Special Problems (Sp, Su, Fa)
  - **HORT 4103** Fruit Production Science and Technology (Odd years, Sp)
  - **HORT 4503** Sustainable Nursery Production (Even years, Sp)
  - **HORT 4703** Greenhouse Management and Controlled Environment Horticulture (Fa)
  - **HORT & HORT 4701L** and Greenhouse Management and Controlled Environment Horticulture Laboratory (Odd years, Fa)

Total Hours 18

### Minor in Landscape Horticulture (LHRT-M)

The minor will consist of 18 hours to include:

- **HORT 2003** Principles of Horticulture (Sp) 3
- **HORT 4043** Professional Landscape Management (Odd years, Fa) 3
  - Select 3 hours from the following: 3
  - **HORT 4603** Practical Landscape Planning (Even years, Sp)
  - **LARC Studio Course**
  - Select one of the following: 3
    - **HORT 3103** Woody Landscape Plants (Fa)
    - **HORT 3113** Herbaceous and Indoor Plant Materials (Odd years, Sp)
  - Select 6-8 hours from the following: 6-8
    - **HORT 2303** Introduction to Turfgrass Management (Fa)
    - **HORT 3103** Woody Landscape Plants (Fa)
    - **HORT 3113** Herbaceous and Indoor Plant Materials (Odd years, Sp)
    - **HORT 3403** Turfgrass Management (Even years, Sp)
    - **HORT 400V** Special Problems (Sp, Su, Fa)
    - **HORT 4033** Professional Landscape Installation and Construction (Even years, Fa)
    - **HORT 4403** Plant Propagation (Sp)
    - **HORT 4503** Sustainable Nursery Production (Even years, Sp)
    - **HORT 4703** Greenhouse Management and Controlled Environment Horticulture (Fa)
    - **HORT & HORT 4701L** and Greenhouse Management and Controlled Environment Horticulture Laboratory (Odd years, Fa)
    - **HORT 4803** Greenhouse Crops Production (Even years, Sp)
    - **HORT & HORT 4801L** and Greenhouse Crops Production Laboratory (Even years, Sp)
    - **LARC 3734** Landscape Architecture Construction III (Sp)

Total Hours 18

### Minor in Turf Management (TURF-M)

18 to 20 hours to include the following:

- **HORT 2303** Introduction to Turfgrass Management (Fa) 3
- **HORT 3403** Turfgrass Management (Even years, Sp) (with lab component) 3
  - Select one of the following: 3
    - **HORT 4903** Golf and Sports Turf Management (Odd years, Fa) (with lab component)
    - **HORT 4913** Rootzone Management for Golf and Sports Turf (Odd years, Sp) (with lab component)
  - Select 3-4 hours from the following: 3-4
Pest Management (PMGT)

CSES 2003 Introduction to Weed Science (Irregular)
ENTO 3013 Introduction to Entomology (Fa) (with lab component)
PLPA 3004 Principles of Plant Pathology (Fa) (with lab component)

Select two of the following: 6-8
AGME 4973 Irrigation (Sp)
AGME 3102 Small Power Units/Turf Equipment (Sp)
& AGME 3101L and Small Power Units/Turf Equipment Laboratory (Sp)
CSES 2003 Introduction to Weed Science (Irregular) (with lab component)
CSES 2203 Soil Science (Sp, Fa)
& CSES 2201L and Soil Science Laboratory (Sp, Fa)
ENTO 3013 Introduction to Entomology (Fa) (with lab component)
PLPA 3004 Principles of Plant Pathology (Fa) (with lab component)
HORT 4903 Golf and Sports Turf Management (Odd years, Fa) (with lab component)
HORT 4913 Rootzone Management for Golf and Sports Turf (Odd years, Sp) (with lab component)
HORT 3103 Woody Landscape Plants (Fa) (with lab component)
HORT 4033 Professional Landscape Installation and Construction (Even years, Fa)
HORT 4043 Professional Landscape Management (Odd years, Fa)

Total Hours 18-20

PLPA 4304 Applied Plant Disease Management (Irregular)
Total Hours 19

Plant Pathology (PLPA)

Faculty
Burt H. Bluhm, Associate Professor
Richard D. Cartwright, Extension Professor

Yeshi Andenow Wamishe, Assistant Professor

Craig Rothrock
Head of the Department
217 Plant Sciences Building
479-575-2445
http://plantpathology.uark.edu

Plant pathology is the study of interrelationships of plants with the abiotic and biotic agents that affect plant health and productivity. The goal of the discipline is to minimize the impact of plant diseases on agricultural production and human health. Scientific training within the department focuses on the nature, cause, and management of plant diseases.

Plant pathology is a graduate degree program. Undergraduate students interested in plant pathology should pursue a minor in pest management or plant pathology. See Pest Management (p. 142) for degree requirements.

Minor in Plant Pathology (PLPA-M)

A student planning to minor in plant pathology should notify the Department of Plant Pathology and consult an adviser. A minor in Plant Pathology consists of 19 hours to include the following:

PLPA 3004 Principles of Plant Pathology (Fa) 4
PLPA 400V Research (Sp, Su, Fa) 3
Select one of the following: 3
PLPA 4223 Plant Disease Control (Fa)
PLPA 4304 Applied Plant Disease Management (Irregular)
Select three of the following: 9
BIOL 4233 Genomics and Bioinformatics (Sp)
BIOL 4303 Plant Physiology (Fa)
BIOL 4353 Ecological Genetics/Genomics (Odd years, Fa)
BIOL 4424 Mycology (Irregular)
BIOL 4753 General Virology (Sp)
PLPA 4333 Biotechnology in Agriculture (Fa)

Total Hours 19
degrees. Advanced degrees are offered but not limited to the areas of nutrition, genetics, physiology, product technology, and poultry health.

Fine Arts and Humanities (6 hours)
### Poultry Science (POSC)

- **One Fine Arts and one Humanities Core Courses** 6 hours
  - AGEC 1103 Principles of Agricultural Microeconomics (Sp, Su, Fa) 3 hours
  - or ECON 2023 Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa) 3 hours

### Choose two Social Sciences Core Courses 6 hours

#### Social Sciences Core
- AGEC 1103 Principles of Agricultural Microeconomics (Sp, Su, Fa) 3
- or ECON 2023 Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa) 3
- Choose two Social Sciences Core Courses 6

### Poultry Science Core
- POSC 1002 Introduction to Careers in Poultry Science (Fa) 2
- POSC 1012 Avian Biology (Sp) 2
- POSC 2343 Poultry Production (Fa) 3
- POSC 2353 Poultry Breeder Management (Sp) 3
- POSC 3223 Poultry Diseases (Fa) 3
- POSC 3554 Avian Anatomy (Sp) 4
- Select one of the following: 3
  - POSC 3123 Principles of Genetics (Fa)
  - POSC 4333 Poultry Breeding (Odd years, Fa)
  - BIOL 2323 General Genetics (Sp, Fa)
- POSC 4314 Egg and Meat Technology (Fa) 4
- POSC 4343 Poultry Nutrition (Sp) 3

### Poultry Science Controlled Electives

Select 6 hours from the following: 6
- AGEC 2303 Introduction to Agribusiness (Sp, Su, Fa)
- PHYS 2013 College Physics I (ACTS Equivalency = PHYS 2011L 2014 Lecture) (Su, Fa) and College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab) (Su, Fa)
- PHYS 2033 College Physics II (ACTS Equivalency = PHYS 2031L 2024 Lecture) (Sp, Su, Fa) and College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab) (Su, Fa)
- POSC 3032 Animal Physiology I (Fa)
- POSC 3042 Animal Physiology II (Sp)
- POSC 4213 Integrated Poultry Management Systems (Fa)

Select 3 hours from the following: 3
- POSC 4801 Seminar: Research Topics (Odd years, Sp)
- POSC 4811 Seminar: Professionalism (Odd years, Fa)
- POSC 4821 Seminar: Problem Solving (Even years, Sp)
- POSC 4831 Seminar: Processing Regulations (Even years, Fa)

Select 6 hours from the following: 6
- POSC 4801 Exotic Companion Birds (Odd years, Fa)
- POSC 3381 Poultry Judging and Selection (Sp, Fa)
- POSC 400V Special Problems (Sp, Su, Fa)
- POSC 401V Internship in Poultry Science (Sp, Su, Fa)
- POSC 4033 Statistical Process Control in the Food Industry (Irregular)
- POSC 4233 Value Added Muscle Foods (Odd years, Sp)
- POSC 4923 Brain and Behavior (Fa)

- POSC Elective

- Discipline-Related Electives (12 hrs) 12

- General Electives (4-19 hours) 4-19

### Total Hours 120

**Poultry Science B.S.A. Eight-Semester Degree Program**

Students wishing to follow the degree plan should go to the Eight-Semester Degree Policy (p. 73) for university requirements of the program.

³ If CHEM 3603/CHEM 3601L taken previously.
Minor in Poultry Science (POSC-M)

A student planning to minor in poultry science should consult a departmental adviser. The minor consists of 15 hours to include the following:

- POSC 1002 Introduction to Careers in Poultry Science (Fa) 2
- POSC 1012 Avian Biology (Sp) 2
- POSC 2343 Poultry Production (Fa) 3
- POSC 2353 Poultry Breeder Management (Sp) 3

Select 5 hours from any POSC course listing.

Total Hours 15

Requirements for Undergraduate Certificate of Excellence in Poultry Science

Students entering the Certificate of Excellence Program must 1) meet the admission requirements for the University of Arkansas and 2) have completed 90 hours of coursework with a 2.0 or higher from a regionally accredited institution of higher education.

Students who have completed a Bachelor of Science degree may also consider this program. Typical careers include production/processing/allied positions in the poultry industry, graduate studies are also an option.

Curriculum Outline:

- POSC 3032 Animal Physiology I (Fa) 2
- POSC 3042 Animal Physiology II (Sp) 2
- POSC 3223 Poultry Diseases (Fa) 3
- POSC 3554 Avian Anatomy (Sp) 4
- POSC 4213 Integrated Poultry Management Systems (Fa) 3
- POSC 4314 Egg and Meat Technology (Fa) 4
- POSC 4343 Poultry Nutrition (Sp) 3
- POSC 4801 Seminar: Research Topics (Odd years, Sp) 1
- or POSC 4821 Seminar: Problem Solving (Even years, Sp) 1
- POSC 4811 Seminar: Professionalism (Odd years, Fa) 1
- or POSC 4831 Seminar: Processing Regulations (Even years, Fa) 1
- POSC 401V Internship in Poultry Science (Sp, Su, Fa) 3
- POSC 410V Special Topics in Poultry Science (Irregular) 3

The School of Human Environmental Sciences at the University of Arkansas prepares students for a wide variety of professional careers in education, industry, business, government, and community services. The school is concerned with improving the quality of life for individuals and families as they exist and function in society. Human environmental sciences draw knowledge from research, from the physical, biological, and social sciences, and from arts and humanities. It relates this knowledge to an understanding of individuals’ and families’ needs and goals for food, clothing, shelter, management of resources, and human development and relationships. The School of Human Environmental Sciences has made a substantial contribution to the development of individuals and families through undergraduate and graduate preparation of human environmental scientists and through research in human nutrition, foods, human development, family sciences, apparel and textiles.

Four majors are offered in the School of Human Environmental Sciences:

- Apparel Merchandising and Product Development (AMPD)
- General Human Environmental Sciences (p. 151)
- Human Development and Family Sciences (p. 152)
- Human Nutrition and Hospitality Innovation (p. 154)

The four majors of the B.S.H.E.S. degree have been accredited by the Council for Professional Development of the American Association of Family and Consumer Sciences.

Apparel Merchandising and Product Development (AMPD)

Kathy Smith
Assistant Director
204 Home Economics Building
479-575-2577
The Apparel Merchandising and Product Development (AMPD) program opens the door to careers in the fashion industry. Buyer, product development specialist, fashion coordinator, sales consultant, visual display artist, and quality assurance technician are only a few of the possibilities. Classes in business, retailing, apparel production, science, and the liberal arts give students a basic knowledge about the textile and apparel industries. By selecting from a variety of minors, students can tailor this program to meet their goals. Program strengths include guest speakers who provide insight into today’s careers, tours of major fashion centers, and internships, which provide valuable career experience.

### Requirements for a Major in Apparel Merchandising and Product Development (AMPD)

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

**AMPD 4011** History of Apparel Through Film to 1900 (Sp, Fa)

**AMPD 4103** Evolution of Fashion and Society Through Television Media (Sp, Fa)

**AMPD 4111** History of Apparel Through Film from 1900 to Present (Sp, Fa)

**MKTG 3433** Introduction to Marketing (Sp, Su, Fa) ((Required for Business Minor -- additional pre-reqs required))

Any 3000-4000 level MKTG

**TOTAL HOURS** 120

1. Students may substitute AGEC 1103 and AGEC 2103 or ECON 2013 and ECON 2023 for ECON 2143.
2. Elective hours will vary based on exemptions and study tour credits.
3. A minimum of 36 hours must be completed at the 3000-4000 level, a maximum of 42 hours of online courses allowed. UNIV 1001 must be taken for incoming freshmen.

### Apparel Merchandise and Product Development B.S.H.E.S.

**Ten-Semester Degree Program**

Because the Apparel Merchandise and Product Development program requires a summer tour and an internship, it doesn’t qualify for the Eight-Semester Degree Program. Go to the Eight-Semester Degree Policy.
(p. 73) for university requirements of the program. The program plan
below, though, gives a path for completing required courses in a four-year
period.

Elective hours will vary based on exemptions and study tour credits.

## Birth through Kindergarten (BRKD)

**Timothy Killian**  
Assistant Director  
104 Home Management House  
479-575-7214

The major in Birth through Kindergarten prepares educators to teach infants, toddlers, preschoolers and kindergarteners including those children with disabilities. The program offers students a chance to work in settings that serve young children, including public schools, early-intervention programs, child care and education centers, and residential placement centers. Successful completion of this degree, as specified in the requirements for a major in Birth through Kindergarten, leads to Arkansas’ Integrated Birth through Kindergarten/Special Education teacher license.

Passing scores on the Praxis Core (Reading, Writing, and Math) or equivalent ACT or SAT scores is a requirement for formal admission into the Birth through Kindergarten major. Passing scores on the relevant Praxis Content exams (Interdisciplinary Early Childhood Education 5023 & Education of Young Children 5024) are requirements for teacher licensure. Other specific application procedures and degree requirements are available from Birth through Kindergarten faculty advisers.

### Other Requirements for the B.S.H.E.S. Degree in Birth through Kindergarten major:

Both candidacy and retention eligibility for the Arkansas Birth through Kindergarten Integrated Licensure Program require that students meet a set of criteria listed in the catalog. These include the submission of a transcript showing a cumulative grade point average of at least 3.0, with grades of C or better in all BRKD courses. Students should consult their academic adviser as they near completion of the above requirements to discuss the application process for the Integrated Birth through Kindergarten/Special Education teacher license in Arkansas. Additional requirements for application to teacher licensure with the State of Arkansas Department of Education include: Praxis Core: (Reading,
Writing, and Mathematics) Praxis Content: (Interdisciplinary Early Childhood Education 5023 & Education of Young Children 5024).

1 Please visit the Bumpers College Majors and Minors page (http://bumperscollege.uark.edu/academics/majors-and-minors) for a list of communication/intensive courses.

2 Go to the University Core Requirements (p. 81).

3 HDFS 2473/HDFS 2471L Child Guidance/Lab must be taken prior to enrolling in HDFS 4463.

4 Child Maltreatment Certification must be completed.

**Birth through Kindergarten B.S.H.E.S. Eight-Semester Degree Program**

Students wishing to follow the degree plan should go to the Eight-Semester Degree Policy (p. 73) for university requirements of the program.

The general human environmental sciences curriculum serves students seeking a background in all of the subject-matter areas of human environmental sciences. The general curriculum prepares students for careers in social services, business, and the Cooperative Extension Service. Liberal elective hours allow students to select courses and programs to meet individual needs.

Students may be certified by the Arkansas State Board of Education to teach family and consumer sciences in Arkansas public schools by combining the pre-professional education courses as electives and completing the Master of Arts in Teaching (M.A.T.) degree requirements under College Academic Regulations. At the beginning of the sophomore year, students should consult with their advisers to schedule the general education and pre-professional education courses.

Human Development and Family Sciences (HDFS)
Timothy Killian
Assistant Director
104 Home Management House
479-575-7214

Students majoring in human development and family sciences prepare for one of the fastest growing employment opportunities in the country. The human services area includes jobs that serve people from conception through the last stages of life. Students develop skills for working with individuals and families in governmental, private, and nonprofit organizations. In addition to the major in Human Development and Family Sciences, the program offers a major in Birth through Kindergarten (p. 149).

General Electives

Year Total: 16 15
The curriculum in Human Nutrition and Hospitality Innovation allows students to prepare for a career in a specialized area of foods and nutrition by completing a common set of basic courses and one of the concentrations:

1. Nutrition and Dietetics (NUTR)
2. General Foods and Nutrition (GFNU), and
3. Hospitality Innovation (HOSP)

Interest and aptitude for the biological and physical sciences that support nutrition science are needed to successfully complete concentrations in Nutrition and Dietetics and General Foods and Nutrition. Hospitality Innovation is the best choice for those students who have an interest in management and who enjoy working with people.

Nutrition and Dietetics (NUTR)
Nutrition and Dietetics is for the student who intends to become a Registered Dietitian (RD), a credential that is required for one to counsel individuals related to any type of diet. Courses required are those necessary as prerequisites to application for a post-baccalaureate dietetic internship. Upon successful completion of the post-baccalaureate dietetic internship, the graduate is eligible to take the Registration Exam, the board examination for the RD credential. Graduates of this program who choose not to apply for a post-baccalaureate dietetic internship are eligible upon completion of the Bachelor's degree to take the board examination to become a Dietetic Technician, Registered (DTR).

Hospitality Innovation Concentration (HOSP)

Students in the hospitality innovation concentration prepare themselves for managerial positions in the restaurant and hospitality industry. This dynamic curriculum provides students with skills in foods and business, as well as hospitality and restaurant management. Students have the opportunity to manage and operate a restaurant on campus. Students obtain hands-on experience by completing 500 hours of satisfactory, verifiable work experience in the hospitality and restaurant industry, usually completed during the summer and on part-time jobs during the school year. This work experience must be completed prior to graduation. A management internship, which allows students to acquire practical management experience and specialized knowledge from supervised work in a hotel, restaurant, or other hospitality-related business, is also part of this degree. Students in this program can complete a minor in business.

Hospitality Innovation Concentration Requirements:

All HOSP students must maintain a minimum of a "C" average in all hospitality core required courses. State minimum core and discipline specific general education requirements:
(Course work that meets state minimum core requirements is in bold.)

Communications 6-12
ENGL 1013  Composition I (ACTS Equivalency = ENGL 1013) (Sp, Su, Fa) (unless exempt)
ENGL 1023  Composition II (ACTS Equivalency = ENGL 1023) (Sp, Su, Fa) (unless exempt)
AGED 3143  Communicating Agriculture to the Public (Sp, Su, Fa)
COMM 1313  Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa)

U.S. History and Government
Choose from U.S. History and Government Core courses

Mathematics and Computers
Choose from University Core science courses

Fine Arts and Humanities
Choose from Fine Arts, Humanities Core courses (choose one from category "a" and one from category "b"

Social Sciences

ECON 2143  Basic Economics: Theory and Practice (Sp, Su, Fa)
HESC 2413  Family Relations (Sp, Fa)
PSYC 2003  General Psychology (ACTS Equivalency = PSYC 1103) (Sp, Su, Fa)
or SOCI 201  General Sociology (ACTS Equivalency = SOCI 1103) (Sp, Su, Fa)

HOSP Requirements

HESC 1501  Issues and Trends in Human Environmental Sciences (Sp, Fa)
NUTR 1213  Fundamentals of Nutrition (Sp, Fa)
HOSP 1603  Introduction to Hospitality Management (Sp, Fa)
HOSP 2603  Purchasing and Cost Control (Sp, Fa)
HOSP 2633  Hotel and Resort Operations Management (Sp, Fa)
HOSP 3603  Menu, Layout & Food Preparation (Sp, Fa)
HOSP 3601L  Menu, Layout & Food Prep Lab (Sp, Fa)
HOSP 3633  Front Office Revenue Management (Sp)
HOSP 3653  Food Systems Management (Fa)
HOSP 4633  Hospitality Operations and Financial Analysis (Sp, Fa)
HOSP 4643  Meetings, Events and Convention Management (Fa)
HOSP 4653  Global Travel and Tourism Management (Sp)
HOSP 4693  Hospitality Management Internship (Sp, Su, Fa) 1

Additional Requirements

AGME 2903  Agricultural and Human Environmental Sciences Applications of Microcomputers (Sp, Su, Fa)
or ISYS 1123  Business Application Knowledge - Computer Competency (Sp, Su, Fa)
BLAW 2013  The Legal Environment of Business (ACTS Equivalency = BLAW 2003) (Sp, Su, Fa)

Additional Professional and Business courses
From the departmental codes ACCT, AGEC, ECON, FDSC, FINN, ISYS, MGMT, MKTG, SCMT, OMGT, WCOB and HOSP. Recommended that student takes HESC/HOSP related courses.

General Electives 2

Total Hours 120

1  Additional 3 hours credit may be earned if second experience is distinctly different from first internship.
2  Recommend world language 6 hours.

Human Nutrition and Hospitality Innovation B.S.H.E.S., Hospitality Innovation Concentration Eight-Semester Degree Program

Students wishing to follow the degree plan in Human Nutrition and Hospitality Innovation should go to the Eight-Semester Degree Policy (p. 73) for university requirements of the program.

**Fay Jones School of Architecture and Design**

**Mission and Objectives**

The Fay Jones School of Architecture and Design, founded in 1946 by John G. Williams at the University of Arkansas, houses professional design programs of architecture, landscape architecture and interior design together with liberal studies programs. The architecture and landscape architecture departments offer five-year accredited professional degree programs and four-year pre-professional degrees; the interior design department offers a four-year accredited professional degree program, all of which combine studio design education with innovative teaching in history and theory; building and intelligent technologies and urban design and resiliency. A broad range of course offerings equips graduates with the knowledge and critical agility required to meet the challenges of designing for a changing world. Design instruction occurs in studio sequences that provide educational experiences appropriate for students who wish to pursue both traditional and non-traditional forms of professional practice. Fundamental principles and techniques design and design thinking are stressed and all curriculums empower students by developing skill, knowledge, and a deep sense of responsibility to their environment and to the cultures they will serve. The school's curriculum surveys issues and opportunities in built and natural settings, as well as addressing complex social, physical, and cultural relationships that constitute the human-made environment. In summary, the school prepares its students with critical frameworks for professional skills, and applied learning experiences that equip them to assume leadership roles in the profession and in their communities.

**Facilities and Resources**

The three academic units of the Fay Jones School — architecture, interior design and landscape architecture — together with its administrative
offices are located in Vol Walker Hall and its state of the art addition, the Steven L. Anderson Design Center. Harmoniously combining traditional and contemporary architecture, our renewed facilities not only offer students in the Fay Jones School extraordinary opportunities for collaboration among its three design disciplines, but also model best practices for new and historic preservation construction, all adhering to high standards of sustainable design. Similarly, the university’s location in Northwest Arkansas, affords opportunity to study the impact of urbanization in a traditionally agricultural setting. At the same time, we value making connections with the entire state and our nation, pursuing learning experiences for our students that foster civic engagement and responsibility. So too, the school is aware of the increasing global nature of design practice and offers field trips, guest lectures, learning opportunities in applied design and research, and, especially, a variety of study abroad programs in the University of Arkansas Rome Center as well as our Latin America Program and diverse options across Europe.

Design Studio
The design studio sequence is the core of each discipline within the school. Studio projects are complemented by topical lectures that inform the design process. These learning experiences develop and nurture the intellectual and creative skills of students and allow them to approach problem solving in a disciplined, logical, and analytical manner.

The amount and complexity of material covered, the fast pace of assignments, and the presentation of work for critical discussion among faculty and other students combine to produce a challenging learning atmosphere.

Library Resources
The Fine Arts Library, a branch of the University Libraries, serves the school. Collections include traditional print resources on architecture, landscape architecture, interior design and the visual arts (painting, drawing, sculpture, ceramics, printmaking and photography) electronic resources including Art Full Text, Avery Index, Bibliography of History of Art and Grove Dictionary of Art among others. The Fine Arts Library also maintains course reserves for Fay Jones School classes. The library offers full wireless coverage.

The C. Murray Smart Multimedia Center, located in Vol Walker Hall contains an online digital image database with more than 90,000 images relating to architecture, architectural history, interior design, landscape and urban design. This resource, along with an archival collection of approximately 40,000 slides and photographs and 800 video programs, is available to faculty and students of the school. The center also provides assistance to students with digital imaging technology, including the use of scanners and digital cameras.

Digital Drawing and Fabrication Resources

Design Shop web page (http://designSHOP.ualr.edu)

The school maintains two fabrication labs, the DesignSHOP for use by all students and the DFAB Lab, a research facility located off campus. The DesignSHOP houses traditional and digital fabrication equipment including two three-axis computer numerically controlled (CNC) router, five laser cutters, vacuum-form, and a three-dimensional FDM printer that allow students and faculty to transform digital models into physical 3D components, prototypes and scale models. Students work with wood, fiber board, metals, plastics, cardboard and paper products. They are encouraged to work with both conventional and CNC machines to develop prototypes, casting molds, furniture, models, and other products. The DFAB Lab houses a 5-axis CNC router and plasma cutter, a three-dimensional plastic printer, digital paper cutter, metal press, vacuum-form, and robotic arm. The labs are staffed during the day and evening hours by students and full-time professional assistants; hours vary by semester.

The school also supports multiple stations for 2D digital scanning and printing. The stations house a selection of flatbed and roll scanners, large-format plotters, and color and B&W laser printers. There is a computer technology specialist and student assistants who run and maintain these 24-7 output stations. Students are charged a minimal per-print fee. The average annual expenditure for students in the professional degree programs is $150. All ink, toner and several types of paper are provided to give students the opportunity to craft digital and hybrid representations merging hand and digital drawing techniques. The school also operates a 30-seat teaching lab with output devices used for course lectures, short workshops and to allow students access to design software that supports individual work and allows online collaborative projects between architects, landscape architects, interior designers, artists, engineers, mathematicians and fabricators.

The Materials Shop
The Materials Shop supports construction projects ranging from light fixtures and furniture to three-dimensional models. The facility is staffed by one full-time technician and is available to students and faculty for design, coursework, and research projects. The workshop houses multiple table saws, band-saws, chop saw, scroll saw, drill presses, jointer, planer, lathe, belt sanders, metal break and many hand tools.

The materials laboratory is a learning resource providing access to timeless, innovative, emerging, and sustainable materials and technologies that enables students to grow creatively and to become socially and environmentally responsible professionals. The tangible collection offers students the opportunity to engage a material’s composition, physical structure, function, and environmental impact while exploring diverse design applications and assemblies. Searching materials is available through an online database organized by composition, manufacturing process, form, and application.

Garvan Woodland Gardens
Located on Lake Hamilton in Hot Springs, Arkansas, Garvan Woodland Gardens is an integral unit of the school. The land and endowment were the result of a bequest to the department of landscape architecture in 1985. This 210-acre woodland habitat features a variety of garden settings and unique architectural structures designed and developed by world-renowned specialists in botanical gardens, landscape architecture and architecture. An internship program offers opportunities for summer study and employment.

University of Arkansas Community Design Center
Since 1995 the University of Arkansas Community Design Center (UACDC) has provided award-winning, innovative planning to communities and organizations throughout Arkansas. A nationally recognized leader in urban design, sustainable development, and education UACDC design solutions advance triple-bottom line thinking: simultaneously solving for economic, ecological, and social criteria. The center’s work is multi-disciplinary as it addresses new challenges in affordable housing, context sensitive highway design, low impact development, transit-oriented development, big box urbanism, watershed urbanism, and agricultural urbanism. In the tradition of a teaching office,
students collaborate with the center’s professional design staff and allied consultants while authoring their own proposals. The goal is to prepare designers for leadership in “wicked problem solving” that leads to intelligent development of the built environment.

Degrees Offered

The Fay Jones School of Architecture and Design offers five-year professional programs in architecture and landscape architecture and a four-year professional program in interior design. Each program culminates in a professional degree, the Bachelor of Architecture (B.Arch.), Bachelor of Landscape Architecture (B.L.A.) or Bachelor of Interior Design (B.I.D).

The Bachelor of Architecture prepares students for registration and licensure to practice architecture. Architects are licensed professionals trained in the art and science of the design and construction of buildings and structures that primarily provide shelter. Additionally, architects may be involved with designing the total built environment—from how a building integrates with its surrounding landscape to architectural or construction details that involve the interior of the building to designing and creating furniture to be used in a specific space. An architect will create the overall aesthetic and look of buildings and structures, but the design of a building involves far more than its appearance. Buildings also must be functional, safe and economical and must suit the specific needs of the people who use them. Most importantly, they must be built with the public’s health, safety and welfare in mind.

The Bachelor of Landscape Architecture prepares student practice landscape architecture as a licensed professional. The discipline of landscape architecture balances human requirements with landscape concerns. Landscape architects design, plan, and manage the land through understanding the interrelationships among the spirit of place, local ecology, individuals, and communities. They create outdoor spaces and rebuild ecological systems that meet societal needs, protect or enhance the natural environment, and respond to cultural conditions. Design and planning projects span the breadth of the profession to include urban design and town planning, public parks, land conservation, stormwater management systems, ecological rehabilitation, historic landscape preservation, private gardens, housing developments, institutional and business campuses, and golf courses.

Interior Design elevates the human experience as it operates at the intersection of human aspirations and the constructed environment. Students rigorously investigate contemporary physical, socio-cultural, psychological, aesthetic and sensory forces to craft the complete spatial experience. Interior Design at the Fay Jones School of Architecture and Design educates and prepares its students for a rewarding and successful career in the profession. Students develop strong design and technical skills through experimentation, discovery and invention. Study abroad opportunities; transdisciplinary collaboration; and minors in sustainability and business enrich students’ creative expression, deepens knowledge bases and builds critical thinking skills. The program requires practice-based internships and builds connections between students and potential employers. Graduates leave the school prepared to succeed as design professionals in growing global markets.

The Bachelor of Science in Architectural Studies and the Bachelor of Science in Landscape Architectural Studies serve students who are interested in the design disciplines, but not professional practice. The four-year programs are well suited for students who seek careers in allied design disciplines, including historic preservation, environmental law, and history of architecture, as well as for students looking forward to graduate education in architecture, landscape architecture and the allied disciplines.

Minors

Students in architecture, landscape architecture and interior design may pursue academic minors in approved degree programs of other colleges on campus, providing they meet the specific requirements for that minor, as well as any of the school’s minors in History of Architecture and Design, Planting Design and Planning. An Interior Design minor is available only to students in the Fay Jones School of Architecture and Design.

Accreditations

The architecture program was founded in 1946 and has been accredited by the National Architectural Accrediting Board (NAAB) since 1958. The landscape architecture program was established in 1975 and has been accredited by the Landscape Architecture Accreditation Board (LAAB) of the American Society of Landscape Architects (ASLA) since 1983. The Interior Design program was established in 1974 and has been accredited by the Council for Interior Design Accreditation (CIDA) since 1993. The school holds memberships in the Association of Collegiate Schools of Architecture (ACSA) and the Council of Educators in Landscape Architecture (CELA) and the Interior Design Educators Council (IDEC), organizations that comprise North American schools of architecture, landscape architecture and interior design.

Architecture – National Architectural Accrediting Board

In the United States, most state registration boards require a degree from an accredited professional degree program as prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture and the Doctor of Architecture. A program may be granted a six-year, three-year, or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The University of Arkansas Fay Jones School of Architecture and Design’s department of architecture offers the following NAAB-accredited degree program:

- B.Arch. (159 undergraduate credits)

The last accreditation visit for the B.Arch. programs was conducted in February 2014; the date of the next visit will be announced in spring 2022.

The National Architectural Accrediting Board (NAAB) only accredits professional programs offering the Bachelor of Architecture, which requires a minimum of five years of study, and the Master of Architecture degrees. These professional degrees are structured to educate those who aspire to registration and licensure to practice as architects. The curricular requirements for awarding these degrees must include three components — general studies, professional studies, and electives. Together these three components comprise a liberal education in architecture and ensure that graduates will be technically competent, critical thinkers who are
capable of defining multiple career paths within a changing societal context.

No four-year degrees are accredited by NAAB, but the Bachelor of Science in Architectural Studies degree is excellent for those who want a foundation in the field of architecture as preparation for either continued education in a professional degree program or for employment in fields related to architecture.

**Landscape Architecture – Landscape Architectural Accreditation Board**

The Landscape Architecture Accreditation Board (LAAB) is the sole agency authorized to accredit U.S. professional degree programs in Landscape Architecture. LAAB recognizes the Bachelor of Landscape Architecture, Bachelor of Science in Landscape Architecture, and Masters of Landscape Architecture. It accredits each program every six years, evaluating degree of conformance with established education standards.

Masters degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree, which, when earned sequentially, comprise an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The University of Arkansas Fay Jones School of Architecture and Design's department of landscape architecture offers the following LAAB-accredited degree program:

- B.Larc. (160 undergraduate credits)

The next accreditation visit for the B.Larc program is 2022.

**Interior Design – Council for Interior Design Accreditation**

The Bachelor of Interior Design (B.I.D.) degree is accredited by the Council for Interior Design Accreditation (CIDA). CIDA, an independent, nonprofit accrediting organization, is the sole agency authorized to accredit professional degree programs in interior design. To ensure conformance with educational standards, programs must seek re-accreditation every six years. The program is the oldest accredited interior design program in the state of Arkansas.

The University of Arkansas Fay Jones School of Architecture and Design's department of Interior Design offers the following CIDA-accredited degree program:

- B.I.D. (121 undergraduate credits)

The last accreditation visit for the Interior Design program was conducted in April 2012; the next site visit is spring 2018.

**Off-Campus Study Requirement**

Each student in the professional program in architecture, landscape architecture and interior design is required to complete an approved off-campus study experience focusing upon complex urban relationships, and fostering cultural diversity. Approved programs in the Fay Jones School vary. They range from a semester in Rome to five- to ten-week programs in Europe or Latin America.

A special international programs fee supports the school’s international programs. These fees are assessed to all students participating in the professional (five-year) degrees in architecture, landscape architecture and interior design designated in the “Fees and Cost Estimates” section of this catalog. The international program and any travel fees offsets the costs of maintaining off-campus programs that are not a part of the school’s university-funded budget, as well as enhancing student-centered activities. Students are assessed the international fee each semester up until the semester they study abroad. At that time, they will be assessed for any remaining semesters plus any additional program costs not covered by the international study fees. The fee is assessed for each study abroad program and is not regulated by the catalog year of the students’ first enrollment in the Fay Jones School of Architecture and Design. All travel fees are non-refundable under any circumstances including withdrawal from the respective professional programs. For further information, see notes on related program fees under “Fees and Cost Estimates” for the university.

**School Academic Regulations**

**Plus/Minus Grading System**

The Fay Jones School of Architecture and Design utilizes a plus/minus grading system that assigns numerical values to 12 different grades. These values are used for architecture, interior design and landscape architecture courses when grade-point averages are calculated. The 12-step grading system with assigned values is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

**School Scholarships**

More than 90 awards and scholarships, including both merit and need-based scholarships, are available to students in the Fay Jones School of Architecture and Design. Most are awarded annually on the basis of recommendations made by the scholarship committee of the school. Only work accomplished since entering the school will be considered in determining merit awards based on grade-point averages.

Applications for scholarships are available for prospective and currently enrolled students at scholarships.uark.edu.

**Student Organizations**

**American Institute of Architecture Students**

The American Institute of Architecture Students (AIAS) is a national organization whose purpose is “to organize architecture students and combine their efforts to advance the science and art of architecture, to promote excellence in architectural education, training and practice, and to foster an appreciation of architecture and related disciplines among all persons.” All students in the school’s architecture program are eligible for membership.
American Society of Landscape Architects, Student Chapter
The purpose of the student chapter of the American Society of Landscape Architects is to bring together the landscape architecture students to combine their interests and efforts, to extend their knowledge of the profession of landscape architecture, and to help advance the profession while preparing for a professional career. All students in the school’s landscape architecture program are eligible for membership.

American Society of Interior Designers Student Chapter
The American Society of Interior Design Student Chapter (ASID) is dedicated to representing the entire profession and encouraging the highest possible standards for the practice of interior design. Their purpose is to encourage interaction with professionals in interior design and allied professions and to develop leadership qualities. All students in the school’s interior design program are eligible for membership.

National Organization of Minority Architects
The National Organization of Minority Architects (NOMA) mission is to champion diversity within the design professions by promoting the excellence, community engagement, and professional development of its members.

Tau Sigma Delta Honor Society
The Alpha Eta Chapter of Tau Sigma Delta is the only national collegiate honor society recognized in the fields of architecture, landscape architecture, interior design and allied arts. All students in the school are eligible for membership.

Elections to membership are made by the existing membership, subject to approval by the faculty, from the top 20 percent of each class of fourth-year and fifth-year students maintaining a minimum 3.00 cumulative grade-point average. In addition, leadership, character, and promise of professional merit are considered in making selections.

Sigma Lambda Alpha
Sigma Lambda Alpha, founded and chartered by the Council of Educators in Landscape Architecture (CELA), is an international honor society that encourages, recognizes and rewards academic excellence in preparation for the profession of landscape architecture. Any landscape architecture junior or senior with an average of 3.2 or higher is eligible for membership.

Ownership of Work
All original work submitted for credit, including design studio projects, becomes the property of the Fay Jones School of Architecture and Design. Students are required to maintain portfolios documenting all academic and design studio work. Digital copies (compact discs) of all work completed in a studio must be submitted to the studio year coordinator in order to receive a grade for the studio.

School Computer Policy
archlabs.uark.edu
All students enrolled in the school are required to purchase, for their first year, a personal computer matching or exceeding specifications issued by school. The specifications are the same for all departments. All students will need their computers in the fall semester of the first year. The specifications, which are updated annually, are available through the advising center or on the school’s computer tip page (http://architecture.uark.edu/172.php).

A substantial amount of software may be required depending on specific course requirements, most of which is free for students to download at school’s Technical Support page (http://fayjones.uark.edu/people/current-students/technical-support.php).

Other software is available educational discount prices through the UA Computer Store (https://shop.uofastore.com/c-297-software.aspx).

School Admission Requirements
Each program within the Fay Jones School of Architecture and Design has its own requirements for admission to their general and professional programs. The page below provides admission requirements for:

- The Department of Architecture
- The Department Interior Design
- The Department of Landscape Architecture

Department of Architecture Admissions
The department of architecture maintains two distinct tracks of study for entering freshmen to accommodate all students interested in pursuing a degree in architecture. The two tracks of study are designed to foster learning and to build strong foundations for entering students with different skill levels and high school backgrounds. Students accepted to the University of Arkansas with the intention to participate in the B.Arch. or B.S. programs in the department of architecture will be classified as fall/spring studio students or summer/summer studio students and assigned to either the fall/spring studio track or summer/summer studio track based upon department admissions policies described below.

Fall/Spring Studio
Students must meet all of the following requirements:

- 25 ACT or better
- 3.5 GPA in high school
- College preparatory curriculum to include physics and an upper level math (Pre-Calculus or higher)

Space in the studio is limited to 120 students with priority given to first year students who are admitted to the University of Arkansas and indicate...
architecture or architectural studies as their intended degree program by Nov. 15.

Students are reviewed at the end of the fall semester and may continue in the program if they meet the following criteria:

- "C" or better in ARCH 1015, Architectural Design I
- "C" or better in PHYS 1044, Physics for Architects I or an approved equivalent
- "C" or better in ARCH 1212, Design Thinking I: Foundations in Technology
- Present a 2.0 GPA

Students who do not meet those criteria will receive a letter and be advised accordingly.

Summer/Summer Studio

Summer studio students meet the University of Arkansas minimum requirements for admission but do not meet the above noted department criteria for the fall/spring studio. These students can enroll in ARCH 1015, Architectural Design I in the summer if they meet the following criteria:

- "C" or better in PHYS 1044, Physics for Architects I or an approved equivalent
- Present a 2.0 GPA

Students who do not meet these criteria will be delayed until they satisfy the admissions criteria for the Department of Architecture. Students will be reviewed at the end of the first summer session and will not be allowed to continue in the program if they do not meet the following criteria:

- "C" or better in ARCH 1015, Architectural Design I
- "C" or better in ARCH 1212, Design Thinking I: Foundations in Technology
- Maintain a 2.0 GPA

Architecture Department Transfer Students

Transfer students who are admitted to the Fay Jones School of Architecture start the design studio sequence in the summer and must meet the following requirements:

- Completion of an approved general physics course and an approved mathematics course.
- To enter Design I in the summer, students must successfully pass Physics for Architects I (or another approved upper level physics course) with a minimum of C or better, complete an approved math course and present a 2.0 GPA overall.
- Students admitted to the university with a completed two-year associate of arts or associate of science degree from an Arkansas state-supported two-year or four-year college or university, as stated in ACT 182, will have general education (core) requirements waived. All students must complete any lower division discipline specific courses required for the major, as well as all courses required to comply with the conditions of accreditation.

Lack of knowledge or misinterpretation of policies and/or regulations on the part of individual students will not be considered a valid reason for failure to fulfill requirements.

Transferring from Accredited Schools of Architecture: Students transferring from an accredited professional program in architecture must have their architecture courses reviewed for acceptance and for determination of studio placement by submitting materials for review. Please contact the school's advising center for a specific list of required materials.

NOTE: All students must complete or receive transfer credit for either PHYS 1044 Physics for Architects I or PHYS 2013 and PHYS 2011L College Physics I, MATH 1213 Plane Trigonometry, MATH 2033 Mathematical Thought, MATH 2043 Survey of Calculus or MATH 2053 Finite Mathematics and all other first year university core curriculum courses prior to entry into ARCH 1616 Architectural Design III and its co-requisites in architectural structures and history.

Ultimate responsibility for completion of entrance requirements rests with each student. For questions concerning admissions, please contact the school’s advising center for additional information.

Admission to the Professional Program

The department of architecture offers students the opportunity to prepare for architectural practice or related endeavors. With this opportunity comes a responsibility for demonstrating a commitment to personal growth and success in the professional program.

Students are admitted to the first year of the architecture curriculum based on the above described by the university and the school. Every semester, students’ grades in all architecture courses, especially the design studio, are evaluated to assess their progress and performance.

Upon completion of the third year of the five-year architecture curriculum, including completion of the 35 semester-credit hour university’s state minimum (general education) core required, students will be evaluated for admission to the professional program. Admission to the Professional Degree Program in the Department of Architecture requires a minimum 2.00 grade-point average in the University Core and each of the sub-disciplines of Architecture: History/Theory, Technology and Design.

Students admitted to the professional program will continue in the established studio curriculum sequence and are to complete the final two years of design studio at the school. In addition to completing the design studio sequence, students are encouraged to take maximum advantage of the opportunities that professional and free electives provide for pre-professional development, cultivation of specialization in and related to the profession, and/or preparation for graduate education.

Interior Design Program Admissions

Students are admitted to the first year of the interior design curriculum based on criteria established by the university and by the program. They are evaluated each semester by grades in lecture courses and by grades for performance and progress in the design studio sequence.

Admission to the Professional Program for Interior Design

The interior design program offers prospective students the opportunity to prepare for professional practice or related endeavors. With this opportunity comes a responsibility for demonstrating a commitment to personal growth and success in the professional program.

At the completion of the first year of the interior design curriculum, students will be evaluated for admission into the professional program on the basis of academic performance in the university core and the required interior design and architecture curriculum. Admission is based on available desks and requires a majority vote of a departmental admissions committee. Students admitted to the professional program will continue
in the established studio curriculum sequence and are to complete the final three years of design studio at the school. Students with less than a cumulative 2.5 GPA in IDES and ARCH courses will not be admitted to the professional program. Students who are not admitted are encouraged to consider alternative programs in the school and the university.

Students are encouraged to maximize opportunities that professional and free electives provide for pre-professional development, specialization in areas related to the profession, and/or preparation for graduate education.

Department of Landscape Architecture Admissions

All students (including freshmen, international, and transfer students) admitted to the University of Arkansas are eligible for participation in the landscape architecture program in the school. Space in the studio is limited with priority given to first year students who are admitted and indicate landscape architecture or landscape architectural studies on their admissions application by November 15th. Students who require developmental work because of low ACT or SAT scores or university-administered math placement examinations or who require courses to remove deficiencies may not register for courses carrying LARC departmental designations. Upon completion of required developmental work and maintaining a grade-point average of 2.00 or more on at least 12 credit hours, students may enroll in landscape architecture (LARC) courses.

Admission to the Professional Program in Landscape Architecture

The department of landscape architecture offers a professional education grounded in liberal arts studies, which prepares students for landscape architecture practice in the private, public, and not-for-profit sectors. Successful completion of the program requires commitment to personal growth and excellence.

Students are admitted to the first year of the landscape architecture program based upon the established criteria by the University of Arkansas. Academic and professional performance is evaluated by grades in the course work, design studios, and construction labs. After two years in the program, students submit a portfolio of work at the end of the spring semester for application to continue in the program. Applicants who have a grade-point average below 2.5 will not be allowed to continue in the program. Contact the department head for specific portfolio submission requirements and schedule of deadlines. All candidates will be notified of their acceptance or rejection in writing, normally by the first of August.

Students will be evaluated on general academic performance and in the landscape architecture curriculum as well as professional conduct. All department faculty serve on the admissions committee. Any appeal to the committee’s decision may be made by submitting a letter to the department head one week before the first week of the subsequent fall semester. The appeal will be presented to the entire faculty for consideration and will require the candidate to present their case in person.

Students who fail to gain admission to the Bachelor of Landscape Architecture degree program will be referred to the department head and the school’s academic adviser for appeal procedures and alternative degree programs in the school and the university.

Honors

Fay Jones School of Architecture and Design Honors Program

The Honors Program of the Fay Jones School of Architecture and Design is proud to be one of the six individual honors programs partnered with the University of Arkansas Honors College. The Fay Jones School Honors Program is rooted in the best traditions of design education: responsibility and service to the societies and cultures to which we are inextricably connected, and the nurturing of the individual curiosity and capabilities of our students. Honors requirements are the same in all departments (Architecture, Interior Design and Landscape Architecture) and can be found below.

The Fay Jones School of Architecture and Design Honors Program provides opportunities for students of superior academic and creative ability to enhance and enrich their professional and liberal education. Students in the Architecture Honors Program are eligible to graduate cum laude, magna cum laude, and summa cum laude. All other students who attain a cumulative GPA of 3.5 or higher will be eligible to graduate with distinction, a classification separate from the cum laude awards.

The school's Honors Program requires 18 credits of honors coursework.

Admission to the Fay Jones School Honors Program

The Honors College will automatically enroll freshmen who are accepted as honors students before summer orientation in the Fay Jones School Honors Program. At summer orientation, these honors students will fill out the Fay Jones School Honors Program enrollment form.

Freshmen who were not admitted by the Honors College before orientation but who come to orientation with the qualifying 28 composite ACT score and 3.5 high school GPA will also fill out the Fay Jones School Honors Program Enrollment form at orientation. Students who do not present both 28 composite ACT and 3.5 high school GPA, but who subsequently earn and maintain a 3.5 GPA in their coursework at the U. of A., will be invited to enroll in the Fay Jones Honors Program as soon as they attain a 3.5 GPA, provided it is still possible for them to complete all of the Honors program requirements at the time of their enrollment.

From the second semester of the third year onward, the Fay Jones School Honors Scholars are required to maintain a minimum cumulative GPA of 3.33 to remain in the program.

Transfer students may be invited to join the Fay Jones School Honors Program if they maintain a cumulative GPA of 3.5 or higher in courses completed at the University of Arkansas by the end of the first semester of their third year of study, and a 3.33 GPA thereafter.

Every semester, the school's advising center will apprise the Fay Jones School Honors Program Committee of students who have achieved this level of excellence and are eligible to join the Fay Jones School Honors Program. Invitations are extended to students by the end of the semester in which the candidacy is advanced.

Confirmation of Intent to Complete the Fay Jones School Honors Program

At the end of the first semester of the third year, students will sign a form, confirming their intention to complete the remaining requirements for their honors degree. Students found not to have successfully completed the honors core course(s) needed to satisfy their Honors degree requirements
(i.e., sufficient credits in University Core and/or Professional Core Honors courses) will be dismissed from the honors program at this time.

**Dismissal from the Fay Jones School Honors Program**

The Fay Jones School Honors Program students who fail to maintain a 3.5 or 3.33 cumulative GPA, depending on their year level, will receive a one-semester probation period prior to dismissal from the program.

**Honors Independent Study Policy**

Honors students may take as many regular or honors independent study credits as they deem desirable, but only one three-credit honors independent study course may be substituted for an Honors Professional Elective course. Furthermore, the substitution will be permitted only if all of the following conditions are satisfied:

- That the honors independent study course not be taken concurrently with capstone credit studio.
- That the honors independent study course not be taught by the student’s capstone director.
- That honors independent study course be substituted for no more than three credits of a student’s required professional electives credits.

It is recommended that students considering this option seek special advising from their faculty mentor. As it is helpful for students to know what is expected of them, the work of the honors independent study (research paper, models, prototypes, etc.) should be determined, and agreed upon, by the professor and student before the student registers for the credits. The school's advising center will register a student for a Honors Special Projects course only upon request of a syllabus or prospectus for the independent study from the student.

**Honors Capstone**

All honors students will pursue a capstone project during the final year of their undergraduate program. Honors students will invest three credit hours in the development of a capstone project that will articulate research topics identified in the FJAD 3153H Honors Methods of Design Inquiry course taken spring semester in a students' third year. Additionally, honors students are required to enroll in three credit hours of upper-level elective course-work related to the topic of the honors capstone. Guidelines for topic selection and preparation of the honors thesis/research project are available from the Honors Committee.

The honors capstone is a student-directed project supervised by a capstone director with expertise in the capstone topic. The capstone director, who must be a faculty member in the Fay Jones School chairs a capstone committee to be comprised of two other members, typically, a departmental faculty member and a non-departmental faculty member who brings additional fields of knowledge to the project. In rare cases when the capstone director, in consultation with the School's Honors Committee and the student, determines that a non-departmental faculty member with expertise appropriate to the capstone in question cannot be identified on campus, an extra-disciplinary member from within the Fay Jones School (e.g., faculty in architectural history, technology, or other allied field) may fill the position of the non-departmental member. Any such exceptions to the standard membership of a capstone committee should be infrequent. The point of including non-departmental participation is to help ensure that a student's research is understandable and valid to an informed community outside of the disciplines of architecture, interior design or landscape architecture. Additional faculty, both departmental or non-departmental, as well as non-academic experts, may participate in any honors capstone as non-committee members, if capstone director welcomes their involvement.

Students will complete and present a written prospectus for the Honors Capstone no later than the Friday before summer break in their third year of study. The prospectus will be a product of the FJAD 3153H Honors Methods in Design Inquiry course.

Students shall meet a schedule of interim requirements established by the capstone committee in consultation with the School's Honors Committee.

**Fay Jones School of Architecture and Design Honors Program Committee**

The chair of the Fay Jones School's Honors Program and faculty members representing the allied fields of studio design, history/theory and building technologies comprise the School's Honors Program Committee. The committee serves to:

- Review courses for honors designation.
- Participate as ambassadors for the Department and its Honors Program.
- Participate in recruiting efforts of the Fay Jones School of Architecture and Design and the Honors College.
- Review Honors Capstone Prospectuses (developed in the FJAD 3153H Honors Methods in Design Inquiry course) in the fall semester of a student's fourth year of study.

The committee shall meet at least once each semester, and at the discretion of the dean, associate dean and the chair of the School's Honors Program.

**Requirements for Fay Jones School of Architecture and Design Honors Program Scholars**

Completion of 18 hours of honors designated courses, to include a minimum of:

- Honors elective (any Honors course at the university) 3
- Honors Professional Core (any Honors professional core in the Fay Jones School) 3
- Honors Professional Electives or upper-level (3000+) university honors courses
- FJAD 3153H Honors Methods of Design Inquiry (Sp) 3
- FJAD 5143H Honors Capstone (Sp, Fa) 3

**Total Hours** 18

**Architectural Studies (ARCH)**

**Faculty**

Marlon Blackwell, Distinguished Professor  
David Buege, Professor  
Emilio Del Gesso, Assistant Professor  
Lynn Fitzpatrick, Assistant Professor  
Ethe1 S. Goodstein-Murphree, Professor  
Greg Herman, Associate Professor  
Frank R. Jacobus, Associate Professor  
Stephen D. Luoni, Professor  
Peter MacKeith, Professor  
Marc A. Manack, Assistant Professor  
Tahar Messadi, Associate Professor
Requirements for a Bachelor of Science Degree in Architectural Studies:

1. Completion of the following 31-hour architectural studies program:

   **Architectural Design**
   
   ARCH 1015  Fundamental Design Skills (Su, Fa)  5
   ARCH 1025  Fundamental Design Methodology (Sp, Su)  5

   **Architectural Technology**
   
   ARCH 1212  Design Thinking I: Foundations in Technology (Su, Fa)  2
   ARCH 2132  Environmental Technology I (Fa)  2

   **History and Theory of Architecture**
   
   ARCH 1013  Diversity and Design (Su)  3
   ARCH 1222  Design Thinking II: Foundations in History (Sp, Su)  2
   ARCH 2233  History of Architecture I (Fa)  3
   ARCH 2243  History of Architecture II (Sp)  3
   ARCH 4433  History of Architecture III (Fa)  3
   ARCH 4523  Architectural Theory (Sp)  3
   (Students interested in Landscape Architecture may substitute LARC 3413 for ARCH 2233 or ARCH 2243.)

   **Total Hours**  31

2. Completion of the following 35-hour general education program:

   **English Composition**
   
   ENGL 1013  Composition I (ACTS Equivalency = ENGL 1013) (Sp, Su, Fa)  3
   ENGL 1023  Composition II (ACTS Equivalency = ENGL 1023) (Sp, Su, Fa)  3

   **American History or Government**
   
   Select one of the following:  3

   **Total Hours**  35

3. Completion of 45 hours of electives as follows:

   **Professional Concentration Electives**  24
   Concentration tracks can include: M.Arch. preparation; historic preservation; environmental technologies and sustainability; urban and regional planning; a recognized minor in an allied discipline; and other similar programs of study, subject to approval; including at least nine hours of upper-level courses in FJSOA.

   **Upper Division Electives outside of FJSOA**  9

   **Interdisciplinary Core**  9
   Nine hours to include at least one course in IDES and one course in LARC

   **Total Hours**  42

4. **Free Electives**  12

5. A minimum of 120 hours with a 2.00 cumulative grade-point average at this institution both in all work attempted and in course work completed in the Fay Jones School of Architecture.

6. Presentation of at least 40 semester hours in courses numbered 3000 or above or courses in the Fay Jones School of Architecture (or allied discipline) numbered 2000 with specific course prerequisites.

7. University Perspectives (UNIV 1011) does not count towards degree credit.

Architectural Studies degree candidates may pursue an academic minor. The minor must be in a field other than the major area, and students must notify the department of their intention to minor. An academic minor ordinarily consists of 15-18 hours. Although students in architectural studies may choose from any recognized minor offered by the university, they are encouraged to consider the following fields:
Although foreign study is not required of candidates for the four-year degree, students in the architectural studies curriculum are encouraged to participate in the school's off-campus study programs in Rome and Latin/Central America.

To take maximum advantage of the opportunities the four-year degree offers for pre-professional development (cultivation of specialization in and related to the field, and/or preparation for graduate study) each candidate for the Architectural Studies degree will work with a faculty adviser to develop a program of study emphasizing a student's special interests.

A sample curriculum for the Bachelor of Science in Architectural Studies degree can also be obtained from the school's advising center.

Architectural Studies B.S.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. During the first year, students who have been admitted to the fall-spring design studio and students who have been to the summer-summer design studio follow different schedules, both of which are listed below, with the fall-spring studio first and then the summer-summer studio. The second, third and fourth years are identical for both scenarios.

These students may continue into ARCH 1015 Architectural Design I in the summer if they meet the following criteria: "C" or better in PHYS 1044 Physics for Architects I or an approved equivalent; Maintain a 2.0 GPA. Students who do not meet these criteria will be delayed until they satisfy the admissions criteria for the Department of Architecture. Students will be reviewed at the end of the first summer session and will not be allowed to continue in the program if they do not meet the following criteria: "C" or better in ARCH 1015 Architectural Design I; "C" or better in ARCH 1212 Design Thinking I: Foundations in Technology; Maintain a 2.0 GPA.

Academic Policies

In addition to the requirements of the university, the following academic policies are applicable to all students in the Department of Architecture.

1. Any student receiving a grade of “D (+/−)” in a pre-professional program studio course is subject to a comprehensive review of his/her semester’s work by the Design Review Committee. The committee can require the student to retake the studio, prior to advancing to the next studio in sequence, in order to demonstrate competence by achieving a grade
of “C” (2.00) or better. A student receiving an “F” in any required design studio must repeat that studio before progressing.

2. Each student’s progress through the Design Studio sequence is monitored and governed by the faculty and subject to a design review process.

3. Admission to the Professional Degree Program in the Department of Architecture requires a minimum 2.00 grade-point average in the University Core and each of the sub-disciplines of Architectural History/ Theory, Technology, and Design.

4. Enrollment in any 4th year design studio, including comprehensive design studio (ARCH 4016 or ARCH 4026), the Rome Center Design Studio (ARCH 4116), and the Latin American summer studio (ARCH 4126) is contingent upon admission to the professional program in architecture as described above.

5. Successful completion of the upper level studios of the professional degree program (ARCH 4016, ARCH 4026, ARCH 4116, ARCH 4126, ARCH 5016, and ARCH 5026) requires demonstration of competence as evidenced by achieving a grade of “C” (2.00) or better in those courses. Failure to achieve this minimum standard will require retaking the studio.

6. Any student receiving an “I” in a design studio must complete all work necessary to receive a grade in that studio prior to the first day of the next studio in the student’s prescribed sequence. Students carrying a grade of “I” will not be permitted to enroll in subsequent studios.

7. Prior to graduation, a student must present a 2.00 cumulative grade-point average in all work at this institution.

Design Review (Grade Appeal) Procedure

The Design Review Process

Design Review is a process initiated by a faculty member, the Department Head or a student in order that (1) a faculty member may review a student’s design work within a studio course, or (2) a student may appeal grades and/or seek resolution of conflicts with studio faculty in which it is believed that questions of fairness and equity have been raised by the application of the published grading policy of the faculty member. Faculty reviews are predicated upon, but are not limited to, the review of student work that has received a “D” grade or lower.

The Department Head will appoint a Design Review (Appeals) Committee at the beginning of each academic year. The Committee shall be composed of three (3) members of the permanent faculty. Additional or alternate members of the Committee may be appointed at the discretion of the Department Head or the Associate Dean.

Grade appeals initiated by students will occur during the week prior to the start of classes in the subsequent semester. Grade appeals may be filed through petition to the Office of the Associate Dean as soon as the student receives his or her final grade, but no later than the first day of the subsequent semester, (Monday of the week prior to the start of classes). In instances when the appeal concerns a change of an incomplete grade, petition for review should be made as soon as possible after the award of the final grade, and the review will be scheduled at the discretion of the Associate Dean.

Protocol for the Design Review (Appeal) Process

1. Students are encouraged to meet with the faculty member(s) who has awarded the contested grade prior to filing a grade appeal. The student may request that his/her faculty advisor, a member of the professional advising staff, or the Associate Dean facilitate this meeting.

2. When a Design Review (Appeal) has been scheduled, the student shall exhibit, at the place and time specified by the Associate Dean’s office, ALL work assigned and attempted for the studio in the semester under review. Faculty are required to provide the Design Committee with the course syllabus, grading policy, semester assignments, mid-term course assessment, and a written evaluation (a one-page rationale) of the full semester’s work at least 48-hours in advance of the Design Review.

3. The Design Review (Appeal) will consist of separate and independent meetings of the Design Review (Appeal) Committee with the student and the faculty member(s). Following these meetings, the Committee will convene to evaluate the merits of the review (appeal). The Committee is expected to serve as both objective reviewers of the work and as advisers to the student.

4. The Design Review (Appeal) committee will keep minutes of its deliberations. All recommendations from the Committee shall have written explanations and/or justifications, which will be provided to the student, the faculty member, and the Associate Dean, and made part of the student’s academic file. The Associate Dean will be responsible for communicating the results of a Review (Appeal) to the student.

The outcome of the Design Review

1. A recommendation to the faculty member regarding the grade appeal of the student. Action upon that recommendation is undertaken solely at the discretion of the faculty member. No faculty member is compelled to change a grade in response to the recommendation of the Design Review Committee.

2. A requirement for the student to repeat the design studio course and any co-requisite.

3. A recommendation for enrollment in the subsequent studio course, while advising the student of the need to achieve and maintain a cumulative 2.00 (in the studio sequence) for admission to the professional program.

4. An academic advising plan to guide the student toward successful completion of his/her degree requirements or the pursuit of an alternate career path.

All efforts shall be made to achieve clarity and reconciliation, so that the student is able to move forward positively in his/her academic career.

Bachelor of Architecture Degree

Course List

1. Completion of the following 94-hour professional program:

<table>
<thead>
<tr>
<th>Architectural Design</th>

ARCH 4523 Architectural Theory (Sp) 3

Professional Practice
ARCH 5314 Architectural Professional Practice (Fa) 4

Total Hours 94

Free Electives
Total Hours 13

4. A minimum of 157 hours with a 2.00 cumulative grade-point average at this institution both in all work attempted and in all professional course work attempted is required.

5. Participation for at least one semester in an approved international educational experience. (See Off-Campus Study Requirement (p. 160).)

NOTE: No more than three hours of physical education and/or R.O.T.C. may be counted toward a degree. Courses not acceptable toward degree credit include those of a remedial or orientation nature and whose content are considered to be measurably duplicated elsewhere in the curriculum. ARCH 1003 is not counted toward degree credit for architecture majors. University Perspectives (UNIV 1001) does not count towards degree credit.

By following the preceding curriculum, students will meet the state-mandated University Core Requirements. They must also meet all other university requirements for graduation. See the university Academic Regulations (p. 68).

Sample curriculum for the Bachelor of Architecture degree can be obtained from the school’s advising center.

Professional Licensure Degree Requirement

The National Architectural Accrediting Board (NAAB) only accredits professional programs offering the Bachelor of Architecture, which requires a minimum of five years of study, and the Master of Architecture degrees. These professional degrees are structured to educate those who aspire to registration and licensure to practice as architects. The curricular requirements for awarding these degrees must include three components — general studies, professional studies, and electives. Together these three components comprise a liberal education in architecture and ensure that graduates will be technically competent, critical thinkers who are capable of defining multiple career paths within a changing societal context.

While no four-year degrees are accredited by NAAB, the Bachelor of Science in Architectural Studies degree is excellent for those who want a foundation in the field of architecture as preparation for either continued education in a professional degree program or for employment in fields related to architecture.

History of Architecture and Design Minor

This minor will provide students with a structured curriculum for developing skills of scholarship and applied research in the history of architecture and design. Students in our professional design programs will broaden their opportunities in professional practice or prepare to pursue graduate education in this area; students in allied disciplines from the larger campus will have the opportunity to complement and enhance majors in humanities and social science disciplines with close study of the history of the made and natural environments. In addition, the minor will...
encourage cross-disciplinary and interdisciplinary learning experiences for students through methods of architectural historical inquiry.

**Pre-requisites for the Minor in History of Architecture and Design (HARD-M):**

---

1. A Fay Jones School student can present only 9 hours of courses required for the major field of study for credit for the minor. 3000-plus courses that are not required for the major can be presented for \(^{2}\) Only 3 hours of credit earned in Study Abroad courses can be presented for credit toward the History of Architecture and Design minor. 3. A menu of variable topics courses that will qualify for credit toward the History of Architecture and Design Minor is published every semester.

**Architecture B.Arch. Ten-Semester Degree Program**

The professional program for a Bachelor of Architecture Degree requires 10 semesters of coursework and is not eligible for the Eight-Semester Degree Completion Program. It also requires admission to the professional program after the third year of classes. However, the following 10-semester sample plan shows how a first-year student could obtain a Bachelor of Architecture Degree in five years if the student is admitted to the Fall-Spring Architectural Design Studio and subsequently is admitted to the professional program. Students not accepted into the fall studio will begin ARCH 1015 in the first summer session (granted all fall requirements are met) followed by ARCH 1025 in the second summer session.

Students should be aware that PHYS 1044, PHYS 1054 (or an approved alternate laboratory science in the University Core) and one of the listed MATH courses must be completed before students can begin second-year courses in Architecture. Transfer students and students who change majors and seek exceptions to the sample curriculum will be reviewed on an individual basis.

Students in the professional program are required to participate in an approved study abroad experience. Students can choose from either a fall or spring semester of 4th year in Rome, Italy or a summer program (summer prior to 4th or 5th year) in a designated Latin or Central American country. Students can elect to participate in both but only one program can serve as a substitution for ONE fourth year studio semester. Should a student participate in both study aboard programs, the additional program would go to professional elective hours.

Total Units in Sequence: 159

Note 1: Students are reviewed at the end of the fall semester and may continue the program if they meet the following criteria: “C” or better in ARCH 1015, Architectural Design I; “C” or better in PHYS 1044, Physics for Architects I or an approved equivalent; “C” or better in ARCH 1212, Design Thinking I: Foundations in Technology; Maintain a 2.0 GPA. Students who do not meet these criteria will receive a letter and be advised accordingly.

Note 2: All university core courses must be completed by the end of the third year. Admission to ARCH 4016 is contingent upon admission to the professional program.

Note 3: If the student participates in the Rome program in the spring semester, the course plan for fourth year is reversed. Students may also choose to participate in the 10-week Latin American study abroad program in the summer before their 3rd or 4th year. If a student chooses to do both programs, only one studio will count towards the required studio sequence. The additional hours may count towards professional programs.

Interior Design (IDES)

Faculty
Kimberley J. Furlong, Assistant Professor
Marie Gentry, Associate Professor
Carl W. Matthews, Professor
Jennifer D. Webb, Associate Professor

Carl Matthews, Department Head
Vol Walker Hall, room 111
479-575-7599

The Interior Design faculty is composed of well-qualified educators and practitioners who foster an attitude of inquiry and learning based on their individual skills and interests. A professional advisory board supports the program and serves as external critics/jurors. Intellectual development of students is stimulated and leadership qualities enhanced throughout the four-year curriculum. The Interior Design Organization (IDO) and American Society of Interior Designers Student Chapter (ASID) allow for interaction of students with professionals in interior design and allied professions. Both faculty and students participate in professional design association activities.
The studio sequence increases in complexity throughout the curriculum. The rigor of the program requires a significant commitment of time and energy. Students can expect to spend much time independent of studio classes to complete projects.

To promote a broader perspective of design, students are required to participate in a study abroad experience. In addition, both overnight and day field trips are required for studio courses.

A supervised 200-hour internship experience is required for graduation. The one-credit hour summer internship generally occurs in the summer before the fourth year. Students have been placed in interior design firms, architectural offices, Main Street programs, governmental agencies, hospitality and casino design firms, and a wide range of other allied industries. Geographically, students have completed internships in Los Angeles, San Francisco, Seattle, New York, Las Vegas, Washington, D.C., Denver, Dallas, Chicago, Kansas City, and other major cities in the United States, as well as international locations such as London and Edinburgh.

Academic Policies – Department of Interior Design

The following academic policies, beyond the requirements of the university, are applicable to all students in the Interior Design Program.

1. Successful completion of all IDES coursework requires demonstration of competence as evidenced by achieving a grade of "C" or better in those courses. Failure to achieve this minimum standard will require retaking the studio or lecture course.

2. Each student's progress through the design studio sequence is monitored and governed by the faculty and subject to a Design Review process.

3. Any student receiving an "I" in a design studio must complete all work necessary to receive a grade prior to the first day of the next studio in the student's prescribed sequence to be eligible to enroll in that studio.

4. Prior to graduation, a student must present a 2.00 cumulative grade point average at this institution in all work attempted including the university state minimum core, electives and in each interior design course.

Design Review Procedure – Department of Interior Design

Design Review is a process initiated by a faculty member, department head, or by a student. The committee composed of interior design faculty may review a student's design work within a studio course as well as other professional courses. The review process may be used by students to appeal grades and to seek resolution of conflicts with faculty when there are questions of fairness and equity in grading. Grade appeals initiated by students will occur during the week prior to the start of class in the subsequent semester. Petitions for this review must be made through the advising center prior to the scheduled meeting of the Design Review Committee. Grade appeals may be filed as soon as the student receives his or her final grade. In all cases, the student shall exhibit, at the place and time specified by the Design Review Committee, ALL work assigned and attempted for the course in the semester under review. Faculty are required to provide appropriate documentation including, but not limited to, the course syllabus, grading policy, and semester assignments. In the case of an appeal, the appeal will be presented to the entire Interior Design faculty for consideration and may require the students to present their case in person.

The outcome of the Design Review process may include:

1. A recommendation to the faculty member regarding the grade appeal of the student.

2. A requirement for the student to repeat the design studio course or lecture course.

3. A recommendation for enrollment in the subsequent studio course, while advising the student of the need to achieve and maintain a cumulative 2.00 (in the studio sequence) to progress in the program.

Interior Design B.I.D.

Nine-Semester Degree Plan

The Bachelor of Interior Design can be completed in nine semesters that includes a summer internship. The one-credit hour summer internship occurs in the summer before fourth year. University Perspectives (UNIV 1001) does not count towards degree credit. Please see the Fay Jones School of Architecture Advising Center for specific core course requirements and elective options.

Minor in Interior Design
All students in the Fay Jones School of Architecture seeking an Interior Design minor are required to complete 28 hours in the following courses or their equivalencies:

IDES 1035 Fundamental Design Skills (Su, Fa) 5
IDES 1045 Fundamental Design Methodology (Sp, Su) 5
IDES 2804 Interior Design Studio III (Fa) 4
IDES 2823 Interior Design Materials (Sp) 3
IDES 2883 History of Interiors (Fa) 3
IDES 3843 Lighting Systems (Sp) 3
IDES 4813 Human Factors for Design (Sp) 3
IDES 465V Special Topics (Irregular) 1-6

Total Hours 28

Landscape Architectural Studies (LARC)

Faculty
Scott Biehle, Clinical Assistant Professor
Noah Scott Billig, Assistant Professor
Kimball Douglas Erdman, Associate Professor
Phoebe M. Lickwar, Assistant Professor
Carl Alan Smith, Associate Professor

Bachelor of Science in Landscape Architectural Studies
The Bachelor of Science in Landscape Architectural Studies degree is offered to those who wish to gain considerable knowledge of the ecological, social, cultural and historical factors that have shaped landscapes of the western and non-western world. This degree will provide a comprehensive theoretical framework that will suit students wishing to enter careers at the municipal, state and federal levels. This degree will also serve students who wish to pursue a career in environmental design but do not seek landscape architecture licensure.

The program utilizes existing professional courses within the Departments of Landscape Architecture, Architecture, Interior Design and the university to fulfill the required course work. The minimum number of hours of credit required for graduation is 120.

Requirements for a bachelor of Science in Landscape Architectural Studies
1. Completion of the following 26-hour landscape architecture studies program:

Landscape Architecture Design
LARC 1003 Basic Course in the Arts: The American Landscape (Sp) 3
ARCH 1212 Design Thinking I: Foundations in Technology (Sp, Fa) 2
ARCH 1222 Design Thinking II: Foundations in History (Sp, Su) 2
LARC 1315 Fundamental Design Skills (Fa) 5
LARC 1325  Fundamental Design Methodology (Sp, Su)  5

History and Theory of Landscape Architecture
LARC 3413  History of Landscape Architecture I (Fa)  3
LARC 4413  History of Landscape Architecture II (Sp)  3
LARC 4033  Theory (Fa)  3

Total Hours 26

2. Completion of the following 35-hour state minimum core requirements
3. Completion of UNIV 1001 University Perspectives (Sp, Su, Fa), which does not count for credit
4. Completion of 59 hours of electives:

Professional Concentration Electives 22

Credits may be from upper-level (3000 or above) courses from the departments of landscape architecture and architecture, sociology, geography, horticulture or other approved courses in an allied discipline or other courses that contribute to the fulfillment of a recognized minor.

Free Electives 15

to include at least one course in ARCH and one course in IDES

Departmental Electives 16

Select 16 hours from the following departmental electives:

</tbody>
</table>

A minimum of 120 hours with a 2.00 cumulative grade-point average at this institution both in all work attempted and in course work completed in the Department of Landscape Architecture and the School of Architecture.

Course work taken to remove course deficiencies assigned during admission or transfer will not be counted toward the degree. Similarly, courses considered to be remedial or developmental will not count toward the degree.

Students admitted to the university with a completed two-year associate of arts or associate of science degree from an Arkansas state-supported two-year or four-year college or university will receive credit for general education (core) requirements in accordance with ACT 182. All students also must complete any lower division discipline specific courses required for the major.

Although not a requirement in the four-year degree, students are encouraged to participate in the department’s summer study abroad program. The course work will count towards professional elective requirements.

Landscape Architectural Studies B.S. Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan while pursuing a Bachelor of Science in Landscape Architectural Studies should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program.

Minors for Landscape Architectural Studies Students

Landscape Architectural Studies candidates may pursue an academic minor. The minor must be in a field other than the major area, and the students must notify the department of their intention to minor. An academic minor ordinarily consists of 15-18 hours, which are dictated by the department of the minor. Students in Landscape Architectural Studies may choose from any recognized minor offered by the University; however, they are encouraged to consider the following fields:

Public Policy, Planning, History, Geography, and Horticulture, and further encouraged to consider cross-disciplinary study in African-American Studies, Anthropology, Art History, Business Administration, Classical Studies, Communication, Computer Sciences, Economics, English, European Studies, Gender Studies, Latin-American Studies, Philosophy, Political Science, Psychology, Sociology and Sustainability.

Although foreign study is not required for candidates in Landscape Architectural Studies, students in the curriculum are encouraged to participate in the School of Architecture's off-campus study abroad programs in Europe, Rome and Latin or Central America. Community planning projects are offered through the University of Arkansas Community Design Center (UACDC).

To take maximum advantage of the opportunities of the four-year degree program, each student in the Landscape Architectural Studies program shall work with the department faculty advisers to develop a program of study emphasizing special interests, to cultivate a specialization related to the field, and to guide preparation for graduate study, if desired.

Minor in Planning

The departments of Landscape Architecture and Political Science collaboratively offer an interdisciplinary minor in Planning for students interested in regional and urban planning. A student who wants to minor in Planning should notify either the Department of Landscape Architecture or Political Science and consult an academic adviser. A Planning minor consists of 18 hours of required and elective courses subdivided into three concentrations. A student should choose one concentration and take 6 hours of elective courses in that concentration. The minor's required and elective courses include:

Grade Appeals – Department of Landscape Architecture

Students in the Department of Landscape Architecture may appeal grades in the design studios as well as other professional courses in which it is believed that there are questions of fairness or equity in the application of the published grading policy of the faculty member. Appeals must be made in writing to the department head one week before the first week of the subsequent semester. The appeal will be presented to the entire Landscape Architecture faculty for consideration and may require the students to present their case in person. Outcomes of grade appeals may result in one of the following:

1. A recommendation to the faculty member regarding the grade appeal of the student.
2. A requirement for the student to repeat the design studio course and any co-requisite.
3. A recommendation for enrollment in the subsequent studio course, while advising the student of the need to achieve and maintain a cumulative 2.00 (in the studio sequence) for admission to the professional program.

Professional Licensure Degree Requirement

The School's Bachelor of Landscape Architecture program is accredited by LAAB, which requires that specific criteria be met in a professional program. This five-year professional program gives its graduates the required prerequisite degree to qualify to take the licensing exam and prepares them for practice.

All fifty states require licensure for landscape architects. The primary purpose of this licensure is to “protect the health, safety, and welfare of the public.” Most states require that candidates possess an accredited degree in landscape architecture and complete a period of professional experience, working with a licensed landscape architect. Once these requirements are complete, candidates must pass a national, uniform exam, sometimes with additional sections unique to that state.

Minor in Planning

The departments of Landscape Architecture and Political Science collaboratively offer an interdisciplinary minor in Planning for students interested in regional and urban planning. A student who wants to minor in Planning should notify either the Department of Landscape Architecture or Political Science and consult an academic adviser. A Planning minor consists of 18 hours of required and elective courses subdivided into three concentrations. A student should choose one concentration and take 6 hours of elective courses in that concentration. The minor's required and elective courses include:

Ten-Semester Degree Program

The professional program for a Bachelor of Landscape Architecture Degree must be completed in 10 semesters of coursework and is not eligible for the Eight-Semester Degree Completion Program. However, the following 10-semester sample plan shows how a first-year student could obtain a Bachelor of Landscape Architecture degree in five years if the student is admitted to the Landscape Architecture Design Studio and subsequently is admitted to the professional program.

the use of historical perspective, cultural relativity, and scientific objectivity require, above all, an educated citizenry, he urged with unflagging energy. Committed to the idea that a free society and a peaceful world can be achieved through international relations or promote human understanding than J. William Fulbright. Few in 20th century America did more to advance the study of the arts and sciences.

J. William Fulbright College of Arts and Sciences

Mission and Objectives

Few in 20th century America did more to advance the study of international relations or promote human understanding than J. William Fulbright. Committed to the idea that a free society and a peaceful world require, above all, an educated citizenry, he urged with unflagging energy the use of historical perspective, cultural relativity, and scientific objectivity in the study of human affairs. Senator Fulbright, like Thomas Jefferson, Andrew Jackson, and Abraham Lincoln before him, was committed to the belief that an educated, enlightened electorate will act not only in its own self-interest but also in the interest of all the people of the world.

In recognition of J. William Fulbright’s contribution to the cause of liberal education and of his many services to his native state, the Board of Trustees of the University of Arkansas on November 20, 1981, resolved... The College of Arts and Sciences at the University of Arkansas, Fayetteville, shall be named, henceforth, the J. WILLIAM FULBRIGHT COLLEGE OF ARTS AND SCIENCES. His name will imbue that college, and the University, with his reputation and image for a devoted interest in higher education and its accomplishments through its scholars as reflected in its students.

The college has adopted as its mission the following statement from Fulbright’s writings:

... the highest function of higher education is the teaching of things in perspective, toward the purposes of enriching the life of the individual, cultivating the free and inquiring mind, and advancing the effort to bring reason, justice, and humanity into the relations of men and nations.

Consisting of 19 departments and numerous centers and research units, Fulbright College has a twofold mission: to provide a broad, liberal education to all students within the university community and to furnish specialized knowledge at the upper division and graduate levels leading to a professional career. The general education curriculum within the college is designed to assure students’ mastery of the English language, provide knowledge of the historical, social, intellectual, and linguistic bases of human culture, provide habits of thought useful in later life, encourage the development of aesthetic, political, and ethical values, and offer the necessary foundation for professional competence or further training in professional or graduate schools. The general education curriculum of the college is based on the Platonic assumption that the pursuit of knowledge is an intrinsically good activity and that it is incumbent upon all members of an enlightened society to engage in that pursuit.

Recognizing that its students must become productive members of contemporary American society, Fulbright College offers undergraduate majors in fields ranging from chemistry and art to journalism, physics, social work and psychology. In addition, the college, in cooperation with the Graduate School, offers course work leading to master’s degrees and doctoral degrees. As a natural corollary of their instructional role, faculty members of the college pursue active research programs that enable them simultaneously to provide state-of-the-art education to their students and bring national and international recognition to the university.

In sum, Fulbright College lies at the very heart of the university. The seat of liberal learning within the institution and the state, it is committed to providing excellent general education to all members of the student body and specialized instruction of the highest quality to its own majors.

Facilities and Resources

Academic Advising Services

The Fulbright College of Arts and Sciences provides an adviser for each student enrolled in the college. Freshman- and sophomore-level students, including departmental honors students, are advised in the Fulbright College Advising Center in Old Main 518. All four-year honors undeclared major students and all freshman-level four-year honors declared major students receive advising from the Fulbright Honors Program office in Old Main 517. Advisers in the Fulbright College Advising Center will
assist students in program planning and will help them to become aware of and familiar with the academic offerings of the university. Students should consult their advisors on a regular basis, not limited to registration matters but including all areas of their academic careers. Personnel in the Fulbright College Advising Center or the Dean’s office will direct students to the appropriate advising office.

Students should discuss with their advisors opportunities for individual variations as well as regular course requirements. Programs and facilities of particular interest to individuals may include the Honors Program, programs for advanced placement and credit by examination, study abroad and the services of the University Career Development Center.

The Career Development Center administers and interprets tests that measure individual ability, interest, and achievement, and thus may aid also in counseling students about the field of study in which they are most likely to be effective and successful.

For questions regarding advising, contact the Fulbright College Advising Center at 575-3307 or visit online at http://fcac.uark.edu.

**Degrees Offered**

The J. William Fulbright College of Arts and Sciences offers four-year curricula leading to the degrees of Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), Bachelor of Music (B.M.), and Bachelor of Social Work (B.S.W.). Each candidate for the B.A. and B.S. degrees selects a major field for specialized study. In addition to usual departmental majors there are interdepartmental majors and special programs for students preparing for professional degrees in law, medicine, dentistry, and teaching.

**College Admissions Requirements**

Students seeking admission to the J. William Fulbright College of Arts and Sciences must meet the general requirements for admission to the university. In addition, students are expected to present two units (years) of a single modern or ancient world language. Those unable to meet this standard will be expected to begin their collegiate world language study as soon as possible after matriculation. For these students, completion of one semester of language study will be considered to satisfy the admission deficiency. Students transferring from other colleges at the University of Arkansas or from other institutions are expected to meet the same entrance standard.

Students transferring from other colleges at the University of Arkansas or from other institutions are expected to meet the same entrance standard.

**College Scholarships**

Foremost among scholarships available in the J. William Fulbright College of Arts and Sciences is the Sturgis Fellowship. This scholarship enables Fulbright College to offer outstanding graduates of secondary and preparatory schools undergraduate fellowships valued at $50,000 for four collegiate years.

Students studying in the humanities or classics may qualify for the J. William and Elizabeth W. Fulbright Scholarship for study abroad. This award is for students who are at least juniors and is intended to support a year of study abroad.

The King Fahd Center for Middle East Studies offers two-year undergraduate scholarships for superior students interested in pursuing the study of the Middle East or Islam.

In addition, students may compete for a number of privately endowed scholarships, which are awarded on a competitive basis to those who qualify. Application for these general Fulbright College scholarships and awards is made through the Office of the Dean, 525 Old Main. Students may obtain more detailed information about the above-named scholarships and other Fulbright College scholarships at http://fulbright.uark.edu/scholarships/index.php.

Other scholarships are available from the departments of Fulbright College. Information may be sought from the departmental chair of the student’s major.

**Student Organizations**

There are many general-interest societies and organizations to which students may belong, and nearly every department of the university maintains an honor society through which high scholarship is rewarded. Students in Fulbright College may aspire to membership in the following organizations:

- Alpha Chi Sigma (chemistry)
- Alpha Epsilon Delta (pre-medical, medical technology, pre-dental)
- Alpha Kappa Delta (sociology)
- Alpha Phi Sigma (criminal justice)
- Alpha Psi Omega (drama)
- American Association of Petroleum Geologists (geoscience)
- American Chemical Society (chemistry)
- American Society for Photogrammetry and Remote Sensing (geoscience)
- Delta Phi Alpha (German)
- Eta Sigma Phi (Greek and Latin)
- Gamma Theta Upsilon (geography)
- Kappa Kappa Psi (band, men)
- Kappa Tau Alpha (journalism)
- Lambda Alpha (anthropology)
- Lambda Pi Eta (communication)
- Lambda Tau (writers)
- Omicron Delta Epsilon (economics)
- Phi Alpha (social work)
- Phi Alpha Theta (history)
- Phi Beta Delta (international scholarship)
- Phi Beta Kappa (arts and sciences)
- Phi Kappa Phi
- Phi Mu Alpha (music, men)
- Pi Kappa Delta (forensics)
- Pi Mu Epsilon (mathematics)
- Pi Sigma Alpha (political science)
- Psi Chi (psychology)
- Sigma Alpha Iota (music, women)
- Sigma Delta Pi (Spanish)
- Sigma Gamma Epsilon (geology)
- Sigma Pi Sigma (physics)
- Tau Beta Sigma (band, women)
College Academic Regulations

Courses of study in the Fulbright College of Arts and Sciences are designed to give students the comprehensive view of society that the modern world requires. Students who enroll in Fulbright College, or who elect some of its courses, have an opportunity to gain a broad cultural education, which is a part of intelligent living and, at the same time, to prepare for professions or to acquire technical training in the sciences. The college has two major teaching functions: to provide basic general education in the arts and sciences necessary to all persons for effective participation in the complex world in which we live; and, second, to furnish the student an opportunity to specialize in the field of the student’s choice.

To implement the first of these aims and to furnish a broad base for the accomplishment of the second, the faculty of Fulbright College has adopted the requirements listed below for each degree.

Specific course requirements may be fulfilled in one of four ways:

1. Establishing credit in approved courses:
   a. By enrolling in and completing the required work in the course.
   b. By examination (credit will be entered as CR on a student’s record as explained in Advanced-Standing Programs (p. 71)).
   c. By advanced achievement, i.e., by satisfactory completion of a more advanced course of a sequence. For example, students who earn a grade of “C” or better in a third-semester foreign language course may be granted credit for the second semester course upon recommendation of the Department of World Languages, Literatures, and Cultures, and approval by the Dean of the college. (This does not apply to work taken as a self-paced online [correspondence] course or in transfer.)

2. Gaining exemption by examination. Announced exemption examinations are routinely offered in several courses. Students may consult any department or the dean’s office concerning exemption examinations.

3. Advanced placement by examination. A student who is granted advanced placement may elect to substitute a more advanced course for the listed required course.

4. Transfer credit. Students presenting transfer credit in lieu of stated requirements may be asked to present official course descriptions, etc. Transfer work with grades of “D” or “F” will not be accepted.

Degree Completion Program Policy

Fulbright College of Arts and Sciences Graduation Requirements

In addition to the specific course requirements for the degree plan and major, be aware that there are general graduation requirements that every student in Fulbright College must complete.

1. Minimum Total Semester Hour Requirement
   B.A., B.S. and B.S.W. Degrees: 120 hours
   B.M.: 120 - 124 hours
   B.F.A.: 120 - 123 hours

2. Residency Requirement
   a. University Residency (Enrollment) Requirement
      Students must earn a minimum of 30 semester hours at the University of Arkansas, Fayetteville campus – this includes UA faculty-led study abroad classes, online/on-campus classes, and Global Campus courses; and all other courses paid towards Fayetteville campus tuition and fees. These 30 semester hours are to be upper-division semester hours required for the completion of a degree program. Additional hours in residence can be required for completing a minor. Hours earned in another school or college at UA, Fayetteville, may be used to satisfy this requirement with approval of appropriate faculty curriculum committee.

b. College Residency Requirement and 24 Hour Rule
   A student graduating from Fulbright College must have completed at least 30 hours of credit in courses offered by Fulbright College, at least 24 of which must be 3000 and 4000 level courses from departments in Fulbright College.

c. Major/Minor Residency Requirement (50 Percent Rule)
   A student graduating with a major or a minor from Fulbright College must have completed a minimum of 50 percent of degree credit work within the Fulbright College major or within the Fulbright College minor at the University of Arkansas through courses completed at the University of Arkansas, Fayetteville campus as defined in the University Residency Requirement. This percentage completion requirement may be higher for some majors and minors. Students should review individual departmental requirements to verify if a higher percentage is required by their specific major or minor department.

3. 40-Hour Rule
   Students must present for degree credit at least 40 hours of work in courses numbered 3000 and above. Included in these 40 hours can be courses numbered 2000 if each has a specific course designated as a prerequisite. It is highly recommended that students complete all 40 hours in courses numbered 3000 and higher. These courses may be taken from other colleges or universities as long as the college residency requirement and the 24-hour rule are satisfied.

4. Grade-Point Average
   Students graduating from Fulbright College must have a minimum cumulative GPA of 2.00.

5. 68-Hour Rule
   Students who transfer into the university may present for degree credit no more than 68 hours of lower division course work (1000 and 2000 level).

6. Writing Requirement
   Students graduating from Fulbright College must write a research/analytical paper for at least one upper-division course in his or her major. Each department has determined its own procedures for certifying completion of this requirement. Questions should be referred to the departmental chairperson. A student may choose to write a senior thesis in a major area of study. The thesis may be accorded up to six hours of credit. Defense of the thesis before a committee is required. Satisfactory completion of an honors project or a senior thesis may be submitted to meet the college writing requirement.

7. Students must complete the stated requirements for a Fulbright College major in addition to all university requirements for graduation, including the University Core requirements.

Questions concerning fulfilling the requirements should be referred to the student’s advisor or to the dean’s office, which will maintain current lists of approved courses, experimental offerings approved to fulfill requirements for a specified period of time, examination schedules, and other options available to the student.
Graduation with Distinction

Students who have not completed a Fulbright college or departmental honors degree program but have otherwise demonstrated academic excellence in baccalaureate degree programs in the J. William Fulbright College of Arts and Sciences will be recognized at graduation by the designation of “with high distinction” or “with highest distinction.” To earn this designation, the student must meet the following criteria upon degree completion:

1. The student must have completed at least one-half of his or her degree work at the University of Arkansas.
2. For “with high distinction,” the student must achieve a cumulative U of A GPA of 3.8 to 3.899.
3. For “with highest distinction,” the student must achieve a cumulative U of A GPA of 3.9 or higher.

The criteria may be evaluated and changed periodically by the Fulbright College of Arts and Sciences.

Combined Academic and Medical or Dental Degree

Fulbright College offers a Bachelor of Science degree in medical science or medical science (dentistry). A student may substitute the first year of regular medical or dental work taken in any standard, approved medical or dental school for 33 hours of the 120 hours required for the Bachelor of Science degree provided that the following requirements are met:

1. Completion of all university/state core requirements for a B.S. degree, as appropriate, prior to student’s entrance in medical or dental school.
2. Completion of a minimum of 12 hours of courses numbered above 3000 taken in Fulbright College.
3. Completion of at least 30 hours immediately prior to student’s entrance in medical or dental school in residence in Fulbright College.

Students interested in this degree should consult with their adviser or with the Fulbright College dean’s office early in their program. Formal application for the degree should be made to the Registrar.

This program is for highly qualified students with outstanding academic records who may be eligible for early admission to medical school or dental school programs. The year of a medical or dental study substitutes for the major in the B.S. degree program.

Additional Majors

Students fulfilling all requirements for the B.S., B.S.W., B.F.A. and B.M. degrees, including all core requirements and at least one major in these degree programs, may also claim an additional major in a humanistic discipline, social science, or interdisciplinary program associated with a B.A. degree. Upon completion of all major requirements of the additional discipline, the additional major will be made part of the student’s transcript; however, a B.A. degree is not awarded. Students interested in this option should consult regularly with an academic adviser in the additional major and must notify the Fulbright College dean’s office (MAIN 525) when degree application is made.

Graduate Studies

The Graduate School, in cooperation with the faculty of Fulbright College of Arts and Sciences, offers work leading to the graduate certificate or to the degrees of Master of Arts, Master of Science, Master of Music, Master of Fine Arts, Master of Public Administration, Master of Social Work, and Doctor of Philosophy.

Students interested in any of these advanced degrees should consult the Graduate School Catalog or the Dean of the Graduate School.

Accreditations

The American Council on Education in Journalism and Mass Communications has accredited the Bachelor of Arts (B.A.) degree program in journalism. The Bachelor of Arts (B.A.), Bachelor of Music (B.M.), and Master of Music (M.M.) degree programs in the Department of Music are accredited by the National Association of Schools of Music. The Doctor of Philosophy (Ph.D.) degree program in clinical psychology is accredited by the American Psychological Association. The Bachelor of Social Work (B.S.W.) degree and the Master of Social Work (M.S.W.) degree are accredited by the Council on Social Work Education.

- Social Work
- Sociology
- Southern Studies
- Spanish
- Statistics
- Theatre

Fulbright College also recognizes all official minors offered by sister colleges at the University of Arkansas. Students wishing to have such minors made a part of their transcript must notify the Fulbright College dean’s office (MAIN 525) no later than when degree application is made.

Other Programs

Undergraduate Preparation for Professional Programs

The Fulbright College of Arts and Sciences offers comprehensive support for students pursuing a wide array of professional and graduate programs. Because undergraduate preparation for these programs requires diligent planning, students should contact the Advising Center or appropriate faculty advisor as soon as possible. The Fulbright College Advising Center is in Old Main 518 and can be reached at 479-575-3307 or fcac@uark.edu. Supported programs include (but are not limited to) the following:

- Dentistry
- Law
- Medicine
- Occupational Therapy
- Optometry
- Pharmacy
- Physical Therapy
- Physician Assistant
- Secondary Education

Pre-Dental Program: All dental schools require a minimum of three years of college work, and most schools give preference to applicants who have completed a baccalaureate degree. The minimum requirements
for admission to most dental schools can be met at the University of Arkansas by completing the following courses:

<table>

CLEP and AP credit is not accepted. Dental schools have a variety of additional course requirements and pre-dental students should check each school’s website.

Mathematics is not a general requirement, but students are expected to have a background equivalent to college algebra and trigonometry.

Students who complete a minimum of 90 hours of work may qualify for the combined degree program provided that they complete the requirements for graduation in Fulbright College of Arts and Sciences.

All dental schools require the Dental Admissions Test. It is suggested that applicants take the DAT one year prior to the time they plan to enter dental school. A student planning a career in dentistry should contact Dr. J.C. Rose, Department of Anthropology, 479-575-2508.

Pre-Law Program: While there is no prescribed pre-law curriculum, Fulbright College offers a minor in legal studies administered through the department of political science. Students considering a career in law may consult the School of Law Catalog or the Fulbright College Advising Center for information concerning certain categories of courses that may be helpful to the study and practice of law. Students uncertain about a major degree program should contact the Fulbright College Advising Center.

A baccalaureate degree is required for admission to the University of Arkansas School of Law, except for those students in the Fulbright College of Arts and Sciences who are admitted to the special six-year program referred to in the paragraph immediately following. All applicants for admission are required to take the Law School Admission Test. (See page 281.)

The University of Arkansas School of Law at Fayetteville and the Fulbright College of Arts and Sciences jointly administer a six-year program whereby highly qualified students may earn both the bachelor’s degree and the Juris Doctor degree. Any student enrolled in the J. William Fulbright College of Arts and Sciences during a spring semester shall be permitted to matriculate in the School of Law in the following fall semester if the admission complies with Section 1 of Part A of the law school’s admission policies and if the student meets the following conditions:

1. At least 30 consecutive hours of course work in Fulbright College,
2. At least 94 hours credited toward a bachelor’s degree by Fulbright College,
3. Completion of Fulbright College’s requirements for a major in connection with the bachelor’s degree,
4. A cumulative grade-point average in all college or University course work of at least 3.50, without grade renewal,
5. An LSAT score of at least 159.

A student may substitute law school course work for the remaining total hours required for the bachelor’s degree from Fulbright College. Formal application for the degree should be made to the Registrar. Information about the program may be obtained in the dean’s office or the Fulbright Advising Center.

Pre-Medical Program: Medical schools in general require a minimum of 90 semester hours of college credit exclusive of military science and physical education, and most recommend that the student complete a baccalaureate degree. All medical schools have specific course requirements, and the student should determine those requirements for the school or schools of his or her choice. The minimum requirements for many medical schools can be met by completion of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 1013</td>
<td>Composition I (ACTS Equivalency = ENGL 1013)</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>(Sp, Su, Fa)</td>
<td></td>
</tr>
<tr>
<td>ENGL 1023</td>
<td>Composition II (ACTS Equivalency = ENGL 1023)</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>(Sp, Su, Fa)</td>
<td></td>
</tr>
<tr>
<td>BIOL 1543</td>
<td>Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa)</td>
<td>4</td>
</tr>
<tr>
<td>&amp; BIOL 1541L</td>
<td>Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) (Sp, Su, Fa)</td>
<td>4</td>
</tr>
</tbody>
</table>

Plus one other course in biological sciences, or equivalent. UAMS specifically requires:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 2323</td>
<td>General Genetics (Sp, Fa)</td>

</tr>
</tbody>
</table>
Pre-medical students are encouraged to complete the requirements for the B.A. or B.S. degree. As part of these requirements the student must choose a major, but the choice of a major has no direct bearing upon admission to medical school and should reflect the particular interests of the student. If a student is admitted to a medical school prior to completion of the baccalaureate degree requirements, he/she may wish to take advantage of the combined degree program in medical science. If that program is elected, the student should complete all of the basic University and college requirements for graduation during residence on the UA campus.

Most medical schools require the Medical College Admissions Test (MCAT), which is administered at several testing sites in Arkansas on specific dates from January to September each year. The MCAT normally should be taken in the spring preceding application to medical school. Admission to medical school is highly competitive, and a good grade-point average is demanded. A grade-point average of 3.30 is the minimum likely to receive favorable consideration. A grade of “D” in any course required by the medical school is not considered satisfactory. Advising is available through Dr. Neil Allison, Department of Chemistry and Biochemistry, 479-575-5179, and Dr. Jeanne McLachlin, Department of Biological Sciences, 479-575-5348. Dr. Allison serves as chair of the University of Arkansas Pre-medical Advisory Committee. For information, visit the University of Arkansas pre-medical website at http://premed.uark.edu.

### Additional Requirements

**Pre-Pharmacy Program:** Entrance requirements for pharmacy schools vary; therefore, students should research the schools of their choice to determine specific prerequisite course work. The University of Arkansas for Medical Sciences College of Pharmacy requires 69 hours of pre-professional courses to include: 4 hours of calculus, 9 hours of English/Communication, 16 hours of chemistry, 12 hours of biology, 4 hours of physics, 3 hours of economics, 6 hours of critical thinking/problem solving, and 15 hours of humanities.

Students are advised to begin taking humanities electives during the second semester of their freshman year. Since pharmacy schools have many more applicants than they can accept, the student is urged to earn a grade point average much higher than the minimum of 2.00.

Grades are a major consideration when admission committees evaluate a student’s qualifications for acceptance. The University of Arkansas College of Pharmacy and other pharmacy schools also require applicants to take the Pharmacy College Admission Test (PCAT). This may be taken in November or February. The pre-pharmacy adviser for the University of Arkansas is Lorraine Brewer, Department of Chemistry and Biochemistry, 479-575-3103.

#### Secondary Education Programs:

Acceptance in a teacher education program is governed by regulations approved by the University Teacher Education Board for Initial Licensure and administered by the College of Education and Health Professions and the Fulbright College of Arts and Sciences. Students in Fulbright College can pursue secondary education licensure in the following areas: Art, Drama/Speech, English, World Languages, Mathematics, Music, Life/Earth Science, Physical/Earth Science, or Social Studies. Students in all subject areas, except Art and Music, must meet the admission requirements for the Master of Arts in Teaching (M.A.T.) (http://cied.uark.edu/2068.php) degree.

All students pursuing entrance into the M.A.T. degree program must complete specific coursework prior to acceptance. Pre-MAT transcript evaluation forms are available on the College of Education and Health Professions website. Pre-MAT transcript evaluation forms provide the undergraduate courses required for admission to the M.A.T. degree program for each of the following designated licensure areas:

- Communication/Drama 7-12 (http://coehp.uark.edu/PreMatDramaSpeech.pdf)
- English 7-12 (http://coehp.uark.edu/PreMAT_english_transcriptEval8-11.pdf)
- French 7-12 (http://coehp.uark.edu/PreMAT_French.pdf)
- German 7-12 (http://coehp.uark.edu/PreMAT_German.pdf)
- Life/Earth Science 7-12 (http://coehp.uark.edu/PreMAT_ReqTransEvalLifeEarthSci7_12.pdf)
- Mathematics 7-12 (http://coehp.uark.edu/PreMAT_math_sec_ed.pdf)
- Physical Science 7-12 (http://coehp.uark.edu/PreMAT_ReqTransEvalPhysicalSci7_12.pdf)
- Physics/Math 7-12 (http://coehp.uark.edu/PreMAT_ReqTransEvalPhysicsMath7_12.pdf)
- Social Studies 7-12 (http://coehp.uark.edu/PreMAT_ReqTransEvalSocSci7_12.pdf)
- Spanish (http://coehp.uark.edu/PreMAT_Spanish7_12.pdf)

For more information on entry into the secondary education Master of Arts in Teaching (http://cied.uark.edu/2068.php) degree program, please consult with a College of Education and Health Professions advisor: Peabody Hall 109, 479-575-4209 or with an advisor in the Fulbright College advising office.

Most medical schools will not accept CLEP credit, and in some cases, AP credit for the required courses above is not accepted. Most medical schools will not accept on-line or web-based classes to fulfill requirements. Additional courses are recommended. Special opportunities and experiences are available to pre-medical students through the Liebolt Premedical Program (http://premed.uark.edu).

---

For more information on entry into the secondary education Master of Arts in Teaching (http://cied.uark.edu/2068.php) degree program, please consult with a College of Education and Health Professions advisor: Peabody Hall 109, 479-575-4209 or with an advisor in the Fulbright College advising office.
College of Arts and Sciences Advising Center, Old Main, Room 518, 479-575-3307.

Students intending to obtain licensure in Mathematics or the Sciences may either pursue the requirements for Fulbright College students seeking entrance into and certification through the M.A.T. (http://cied.uark.edu/2088.php) program or follow the requirements set forth in the UATeach undergraduate curriculum in addition to their major requirements. Students wishing to pursue licensure through the UATeach undergraduate curriculum should consult with a UATeach adviser, uateach@uark.edu (I). UATeach Additional Curriculum Requirements for Mathematics and Science Majors

ARSC 1201 Inquiry Approaches to Teaching: UATeach Step I (Sp, Fa)
ARSC 1221 Inquiry-Based Lesson Design: UATeach Step II (Sp, Fa)
BIOL 3273, CHEM 3273 or PHYS 3273 UATeach Research Methods (Sp)
STEM 2103 Knowing and Learning in Science and Mathematics (Sp, Fa)
STEM 2203 Classroom Interactions (Fa)
STEM 3303 Project Based Instruction for Secondary Mathematics and Science (Fa)
STEM 4333 Perspectives on Science and Mathematics
STEM 4409 Supervised Clinical Teaching in Science and Mathematics Education (Sp)

Students intending to obtain teacher licensure in Art or Music will follow the education requirements set forth in the Bachelor of Fine Arts and Bachelor of Music degrees, respectively.

Cooperative Education

The Cooperative Education program is designed to offer students an opportunity to participate in a work experience directly related to their academic major. The program also insists that at least minimal academic credit be awarded, thus ensuring that the work experience will be directly related to the student’s academic program. Cooperative Education offers advantages to students needing assistance in financing their education, and it offers the college a tangible way to demonstrate our conviction that although we do not stress vocational or professional training per se, there is nothing inimical between a liberal arts education and the world of work. Prerequisites include 45 credit hours, a cumulative GPA of 2.50, and consent of the academic coordinator. A maximum of 4 credit hours of ARSC 310V (Cooperative Education) may be applied toward the student’s degree.

Detailed information about Cooperative Education may be obtained from the Office of the Dean, Fulbright College, 525 Old Main.

Honors Program

Sidney Burris
Director of Honors Studies
517 Old Main
479-575-2509
http://fulbrighthonors.uark.edu

To create an intellectual environment that challenges the best of students, the J. William Fulbright College of Arts and Sciences provides a comprehensive program of honors studies. This includes the College Honors Program, a four-year interdisciplinary honors program for students of superior academic ability or artistic talent, and the Departmental Honors Program, an honors program emphasizing directed independent study within a department or discipline of the college.

For admission into the Fulbright College Honors Program, an incoming student must have at least a 3.5 high school grade point average and a minimum ACT composite score of 28 or 1310 SAT. A current Fulbright College student must have a University of Arkansas grade point average of 3.5 or above and a faculty recommendation from the department of study.

A student who successfully completes a program of honors studies within Fulbright College is eligible to receive a baccalaureate degree with the distinction College Scholar cum laude, or Departmental Scholar cum laude in the major field of study. Higher distinctions of magna cum laude or summa cum laude may be awarded to outstanding honors students by recommendation of the Fulbright College Honors Council.

To earn the distinction Fulbright College Scholar cum laude at graduation, a student must successfully complete the honors core curriculum, maintain a minimum grade-point average of 3.5, and satisfy requirements for departmental honors in the major field of study, including preparation and oral defense of an honors thesis. The Honors Council may award the higher distinctions of magna cum laude or summa cum laude based upon a student’s total academic performance, including the academic transcript, the quality of the scholarly activity pursued within the major field of study, and the breadth of college study as a whole.

To earn the distinction of Departmental Scholar cum laude at graduation, a student must successfully complete requirements prescribed by the major department, including an honors thesis and oral examination, maintain a minimum grade-point average of 3.5, and take 12 hours (which may include six hours of thesis) in honors studies. If a student demonstrates superior academic performance or an exceptionally high level of scholarly activity, the Honors Council may award the distinction of magna cum laude. In exceptional instances where truly outstanding work within the major field is coupled with the superior understanding of its relationship to the college work as a whole, the distinction summa cum laude may be awarded.

For more information about honors studies within Fulbright College, visit the web site at http://fulbrighthonors.uark.edu.

Degrees with Honors

The J. William Fulbright College of Arts and Sciences is dedicated to providing students a liberal education in the arts, humanities, and sciences. Such an education should be soundly based, innovative, and enriched by a creative faculty. This is especially true for students with superior academic ability or artistic talent. To achieve these aims, the college faculty has developed and participates in the College Honors Program and the Departmental Honors Program.

Requirements for the College Honors Program: Credit or exemption for University Core in English composition, including ENGL 1013 and ENGL 1023, and in American history or American government, completion of the requirements for honors in a department or study area of the college, including preparation and oral defense of an honors thesis, a cumulative grade-point average of 3.5 or above, and completion of the honors core curriculum. Students who do not have at least a 3.5 GPA will not be allowed to graduate with honors.

Requirements for the Departmental Honors Program: Specific academic requirements including course work, participation in departmental honors colloquia or seminars, and independent study projects are established by the faculty of the individual departments or study areas and are approved by the Honors Council. However, all departmental honors students must have a 3.5 cumulative grade-point
average, complete and defend an honors thesis, and take 12 hours (which may include six hours of thesis) in Honors Studies. Information concerning these requirements is given within each department’s catalog listings.

The minimum academic requirements of the honors core curriculum for the B.A./B.S.W., B.S., B.M., and B.F.A. degree programs can be found in the degree requirements for each program listed below.

Honors Core Curriculum

Bachelor of Arts or Bachelor of Social Work Degree

Requirements for graduating with honors: Specific academic requirements including course work, participation in departmental honors colloquia or seminars, and independent study projects are established by the faculty of the individual departments or study areas and are approved by the Honors Council. However, all honors students must have a 3.5 cumulative grade-point average, complete and defend an honors thesis, and take 12 hours (which may include six hours of thesis) in Honors Studies. Information concerning these requirements is given within each department’s catalog listings.

The following outlines the minimum academic requirements of the honors core curriculum for the B.A. and B.S.W. degree programs. The university/state minimum core is fulfilled by completing the college honors core.

Honors Core Curriculum

Humanities and Social Sciences Option 1

Core – 27 hours; 15 hours must be at honors level

World Civilization

HIST 1113H Honors Institutions and Ideas of World Civilizations I (Irregular) 3
or HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) (Sp, Fa)

HIST 1123H Honors Institutions and Ideas of World Civilizations II (Irregular) 3
or HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) (Sp, Fa)

World Literature

WLIT 1113H Honors World Literature I (Sp, Su, Fa) 3
or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa)

Select one of the following: 3

WLIT 1123H Honors World Literature II (Sp, Su, Fa)
or WLIT 1123 World Literature II (ACTS Equivalency = ENGL 2123) (Sp, Su, Fa)

World Language Literature Course

Any other WLIT Course

CLST 1003H Honors Introduction to Classical Studies: Greece (Odd years, Fa) 3
or CLST 100 Introduction to Classical Studies: Greece (Odd years, Fa)

CLST 1013H Honors Introduction to Classical Studies: Rome (Even years, Sp) 3
or CLST 101 Introduction to Classical Studies: Rome (Even years, Sp)

Philosophy

PHIL 2003H Honors Introduction to Philosophy (Sp, Su, Fa) 3
or PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa)

Fine Arts

Select two of the following: 6

ARCH 1003H Honors Basic Course in the Arts: Architecture Lecture (Fa) 3
or ARCH 10 Basic Course in the Arts: Architecture Lecture (Sp, Fa)

ARHS 1003H Honors Basic Course in the Arts: Art Lecture (Irregular) 3
or ARHS 10 Basic Course in the Arts: Art Lecture (ACTS Equivalency = ARTA 1003) (Sp, Su, Fa)

COMM 1003H Honors Basic Course in the Arts: Film Lecture (Sp, Su, Fa) 3
or COMM 10 Basic Course in the Arts: Film Lecture (Sp, Su, Fa)

DANC 1003H Honors Basic Course in the Arts: Movement and Dance (Sp, Su, Fa) 3
or DANC 10 Basic Course in the Arts: Movement and Dance (Sp, Su, Fa)

MLIT 1003H Honors Experiencing Music (Sp, Fa) 3
or MLIT 10 Basic Course in the Arts: Music and Society (Sp, Fa)

MLIT 1013H Honors Experiencing Music (Sp, Fa) 3
or MLIT 10 Basic Course in the Arts: Music and Society (Sp, Fa)

THTR 1003H Honors Basic Course in the Arts: Theatre Appreciation (Sp, Fa) 3
or THTR 10 Basic Course in the Arts: Theatre Appreciation (ACTS Equivalency = DRAM 1003) (Sp, Su, Fa)

THTR 1013H Musical Theatre Appreciation (Sp, Fa) 3

Social Sciences

Select two of the following: 6

ANTH 1023H Honors Introduction to Cultural Anthropology (Sp, Fa) 3
or ANTH 10 Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2013) (Sp, Su, Fa)

ECON 2013H Honors Principles of Macroeconomics (Fa) 3
or ECON 20 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa)

ECON 2013H Honors Principles of Microeconomics (Sp) 3
or ECON 20 Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa)

ECON 2143H Honors Basic Economics: Theory and Practice (Sp, Su, Fa) 3
or ECON 21 Basic Economics: Theory and Practice (Sp, Su, Fa)

ECON 2143H Honors Basic Economics: Theory and Practice (Sp, Su, Fa) 3
or ECON 21 Basic Economics: Theory and Practice (Sp, Su, Fa)

GEOS 2003H Honors World Regional Geography (Sp, Fa) 3
or GEOS 20 World Regional Geography (ACTS Equivalency = GEOG 2103) (Sp, Su, Fa)

PSYC 2003H Honors General Psychology (Sp, Fa) 3
or PSYC 20 General Psychology (ACTS Equivalency = PSYC 1103) (Sp, Su, Fa)

SOCI 2013H Honors General Sociology (Sp, Su, Fa) 3
or SOCI 20 General Sociology (ACTS Equivalency = SOCI 1103) (Sp, Su, Fa)

Total Hours 27
### Humanities and Social Sciences Option 2

**Honors Colloquia**—one from each approved area. No more than 3 hours of required colloquia may be earned either abroad or in an intersession.

### Humanities Colloquium

### Social Science Colloquium

### Natural Science or Math Colloquium

### World Language

0-12

See your adviser. Students must demonstrate proficiency in a single modern or classical language other than English (2013 Intermediate II of a world language). Usually this is accomplished by completing a sequence of world language courses (1003, 1013, 2003, 2013). See Fulbright College Admission Requirements. Students meeting the normal admission standard (two years of high school language) may expect to satisfy this requirement with fewer courses, depending upon placement. In cases of unusually thorough preparation, or in the case of international students, exemption may be sought from the department of world languages.
Natural Science and Mathematics 15-17

Core – 15-17 hours; 8 hours must be at honors level

Natural Sciences (12 hours)

At least 4 hours must be chosen from biological and 4 hours from physical sciences.

Biological Sciences

ANTH 1013H Honors Introduction to Biological Anthropology (Fa)
& ANTH 1011N and Honors Introduction to Biological Anthropology Laboratory (Fa)
or ANTH 101: Introduction to Biological Anthropology (Sp, Su)
& ANTH 101 and Introduction to Biological Anthropology Laboratory (Fa)

Biology for Majors (Sp, Fa) 1

Biology Majors (Sp, Fa)

BIO 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa)
& BIOL 1541M Principles of Biology Laboratory (Sp, Su, Fa)
or BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa)
& BIOL 1541M Principles of Biology Laboratory (Sp, Su, Fa)

Biology Majors (Sp, Fa)

BIO 1584 Biology for Majors (Sp, Fa) 1

Biology Majors (Sp, Fa)

BIO 1603 Principles of Zoology (ACTS Equivalency = BIOL 1054 Lecture) (Sp, Su, Fa)
& BIOL 1601M Principles of Zoology Laboratory (Sp, Su, Fa)
or BIOL 1603 Principles of Zoology (ACTS Equivalency = BIOL 1054 Lecture) (Sp, Su, Fa)
& BIOL 1601M Principles of Zoology Laboratory (Sp, Su, Fa)

Biology Majors (Sp, Fa)

BIO 1613 Plant Biology (ACTS Equivalency = BIOL 1034 Lecture) (Sp, Su, Fa)
& BIOL 1611M Plant Biology Laboratory (Sp, Su, Fa)
or BIOL 1613 Plant Biology (ACTS Equivalency = BIOL 1034 Lecture) (Sp, Su, Fa)
& BIOL 1611M Plant Biology Laboratory (Sp, Su, Fa)

Biology Majors (Sp, Fa)

& BIOL 2011M General Microbiology Laboratory (Sp, Su, Fa)
or BIOL 2013 General Microbiology (ACTS Equivalency = BIOL 2004 Lecture) (Sp, Su, Fa)
& BIOL 2011M General Microbiology Laboratory (Sp, Su, Fa)

Biology Majors (Sp, Fa)

Chemistry Courses

CHEM 1103 University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) (Sp, Su, Fa)
& CHEM 1101L University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab) (Sp, Su, Fa)

Chemistry Majors (Sp, Fa)

CHEM 1123H Honors University Chemistry II (Sp, Fa)
& CHEM 1121M Honors University Chemistry II Laboratory (Sp, Fa)
or CHEM 1123 University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) (Sp, Su, Fa)
and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa)

GEOS 1113H Honors General Geology (Irregular)
& GEOS 1111H and Honors General Geology Laboratory (Fa)
or GEOS 11 General Geology (ACTS Equivalency = GEOL 1114 Lecture) (Sp, Su, Fa)
and General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab) (Sp, Su, Fa)

PHYS 1023H Honors Physics and Human Affairs (Sp, Su, Fa)
& PHYS 1021M Honors Physics and Human Affairs Laboratory (Sp, Su, Fa)
or PHYS 1023 Physics and Human Affairs (Sp, Su, Fa)
& PHYS 1021 Physics and Human Affairs Laboratory (Sp, Su, Fa)

GEOS 1133 Earth Science (ACTS Equivalency = GEOL 1124 Lecture) (Sp, Fa)
& GEOS 1131L Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab) (Sp, Fa)

PHYS 2054H Honors University Physics I (Sp, Su, Fa) (with lab)
or PHYS 2054 University Physics I (ACTS Equivalency = PHYS 2034 Lecture) (Sp, Su, Fa)

PHYS 2074H Honors University Physics II (Sp) (with lab)
or PHYS 2074 University Physics II (ACTS Equivalency = PHYS 2044 Lecture) (Sp, Su, Fa)

Mathematics (3-5 hours)

MATH 2033 Mathematical Thought (Sp, Su, Fa)
& MATH 203 Mathematical Thought (Sp, Su, Fa)
& MATH 203M Honors Mathematical Thought Lab (Sp, Fa)

MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203 Lecture) (Sp, Su, Fa)

MATH 2053 Finite Mathematics (Sp, Su, Fa)

MATH 2183 Mathematical Reasoning in a Quantitative World (Sp, Fa)

MATH 2445 Calculus I with Review (Sp, Su, Fa)

MATH 2545H Honors Calculus I (Sp, Fa)
or MATH 2545 Calculus I (ACTS Equivalency = MATH 2405 Lecture) (Sp, Su, Fa)

MATH 2564H Honors Calculus II (Sp)
or MATH 2564 Calculus II (ACTS Equivalency = MATH 2505 Lecture) (Sp, Su, Fa)

MATH 2574H Honors Calculus III (Sp, Fa)
or MATH 2574 Calculus III (ACTS Equivalency = MATH 2603 Lecture) (Sp, Su, Fa)

STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103 Lecture) (Sp, Su, Fa)

Total Hours 33-47

1 This science course is applied as honors credit for Fulbright College Honors.

Bachelor of Science Degree

Requirements for graduating with honors: Specific academic requirements including course work, participation in departmental honors colloquia or seminars, and independent study projects are established by the faculty of the individual departments or study areas and are approved.
by the Honors Council. However, all honors students must have a 3.5 cumulative grade-point average, complete and defend an honors thesis, and take 12 hours (which may include six hours of thesis) in Honors Studies. Information concerning these requirements is given within each department's catalog listings.

The following outlines the minimum academic requirements of the honors core curriculum for the B.S. degree program. The university/state minimum core is fulfilled by completing the college honors core.

**Honors Core Curriculum**

**Humanities and Social Sciences Option 1**

Core – 18 hours; 9 hours must be at honors level

**World Civilization**

Bachelor of Music Degree
Requirements for graduating with honors: Specific academic requirements including course work, participation in departmental honors colloquia or seminars, and independent study projects are established by the faculty of the individual departments or study areas and are approved by the Honors Council.

All honors students must have a 3.5 cumulative grade-point average, complete and defend an honors thesis, and take 12 hours (which may include six hours of thesis) in Honors Studies. Information concerning these requirements is given within each department’s catalog listings.

The following outlines the minimum academic requirements of the honors core curriculum for the B.F.A. degree program. The university/state minimum core is fulfilled by completing the college honors core.

Honors Core Curriculum

Humanities Option 1
World Civilization
HIST 1113H: Honors Institutions and Ideas of World Civilizations I (Irregular) 3
HIST 1123H: Honors Institutions and Ideas of World Civilizations II (Irregular) 3

World Literature
WLIT 1113H: Honors World Literature I (Sp, Su, Fa) 3

Fine Arts
MLIT 1013H: Honors Music and Society (Sp, Fa) 3

Colloquium in Humanities 1 3

Total Hours 15

Humanities Option 2
Honors Roots of Culture
HUMN 1114H: Honors Roots of Culture to 500 C.E. (Fa) 4
HUMN 1124H: Honors Equilibrium of Cultures 500-1600 (Sp) 4
HUMN 2114H: Honors Birth of Modern Culture 1600-1900 (Fa) 4

Fine Arts
MLIT 1013H: Honors Music and Society (Sp, Fa) 3

Colloquium
Humanities Colloquium 1 3

Total Hours 18

Students pursuing either option must also complete the following:

English
ENGL 1013H: Honors Composition I (Fa) 3

or ENGL 1013: Composition I (ACTS Equivalency = ENGL 1013) (Sp, Su, Fa)
ENGL 1023H: Honors Composition II (Sp) 3

or ENGL 1023: Composition II (ACTS Equivalency = ENGL 1023) (Sp, Su, Fa)

U.S. History/American National Government
HIST 2003: History of the American People to 1877 (ACTS Equivalency = HIST 2113) (Sp, Su, Fa) 3

or HIST 203: History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123) (Sp, Su, Fa)
or PLSC 2003H: Honors American National Government (Fa)

World Language: (depending upon placement) 0-6
See your adviser. Typically this is satisfied by completion of a 1013 Elementary II world language course.

Social Science
3

Select one of the following:
ANTH 1023H  Honors Introduction to Cultural Anthropology (Sp, Fa)
ECON 2013H  Honors Principles of Macroeconomics (Fa)
ECON 2023H  Honors Principles of Microeconomics (Sp)
ECON 2143H  Honors Basic Economics: Theory and Practice (Sp, Su, Fa)
GEOS 2003H  Honors World Regional Geography (Sp, Fa)
PSYC 2003H  Honors General Psychology (Sp, Fa)
SOCI 2013H  Honors General Sociology (Sp, Su, Fa)

**Colloquia in Social Sciences**  3
Course offerings vary each semester. See adviser.

**Natural Sciences**  8
Eight hours of honors credit to be chosen from the lab sciences. See adviser for specific science course listing.

**Mathematics**  3-5
Fulbright Scholars must fulfill the math requirement with one of the following:
- MATH 2043  Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)
- MATH 2053  Finite Mathematics (Sp, Su, Fa)
- MATH 2183  Mathematical Reasoning in a Quantitative World (Sp, Su, Fa)
- MATH 2445  Calculus I with Review (Sp, Su, Fa)
- MATH 2554  Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa)
- STAT 2303  Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)

**Total Hours**  26-34

1  No more than a total of 3 hours of required colloquia may be earned either abroad or in an intersession.

**Bachelor of Fine Arts Degree**
Specific academic requirements including course work, participation in departmental honors colloquia or seminars, and independent study projects are established by the faculty of the individual departments or study areas and are approved by the Honors Council. All honors students must have a 3.5 cumulative grade-point average, complete and defend an honors thesis, and take 12 hours (which may include six hours of thesis) in Honors Studies. Information concerning these requirements is given within each department’s catalog listings.

The following outlines the minimum academic requirements of the honors core curriculum for the B.F.A. degree program. The university/state minimum core is fulfilled by completing the college honors core.

**Honors Core Curriculum**

**Humanities Option 1**

**World Civilization**
- HIST 1113H  3
- HIST 1123H  3

**World Literature**
- WLIT 1113H  Honors World Literature I (Sp, Su, Fa)  3

**Fine Arts, World Literature II, and Philosophy**  6
Select two of the following from two different areas:

- **Fine Arts**
- **World Literature II**
- **Philosophy**
- **Humanities Option 2**

**Honors Roots of Culture**
- HUMN 1114H  Honors Roots of Culture to 500 C.E. (Fa)  4
- HUMN 1124H  Honors Equilibrium of Cultures 500-1600 (Sp)  4
- HUMN 2114H  Honors Birth of Modern Culture 1600-1900 (Fa)  4

**Philosophy and Humanities**
- PHIL 2003H  Honors Introduction to Philosophy (Sp, Su, Fa)  3

**Humanities Colloquium – course offerings vary each semester.**  3

**Total Hours**  18

**Students pursuing either option must also complete the following:**

**English**
- ENGL 1013H  Honors Composition I (Fa)  3
  or ENGL 1013  Composition I (ACTS Equivalency = ENGL 1013) (Sp, Su, Fa)
- ENGL 1023H  Honors Composition II (Sp)  3
  or ENGL 1023  Composition II (ACTS Equivalency = ENGL 1023) (Sp, Su, Fa)

**U.S. History/American National Government**
- HIST 2003  History of the American People to 1877 (ACTS Equivalency = HIST 2113) (Sp, Su, Fa)  3
  or HIST 2013  History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123) (Sp, Su, Fa)
  or PLSC 2003  American National Government (ACTS Equivalency = PLSC 2003) (Sp, Su, Fa)
  or PLSC 2003H  Honors American National Government (Fa)

**World Language: (depending on placement)**  0-9
See your adviser. (This is usually accomplished by successful completion of a 2003 Intermediate I world language course.)

**Social Science**  3
- ANTH 1023H  Honors Introduction to Cultural Anthropology (Sp, Fa)
- ECON 2013H  Honors Principles of Macroeconomics (Fa)
- ECON 2023H  Honors Principles of Microeconomics (Sp)
- ECON 2013 & ECON 2023  Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa)
  and Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa)
Requirements for a Second Major in African and African American Studies:
A total of 21 hours in African and African American Studies courses in addition to the requirements for the departmental major including the following:

**Requirement 1**

<table>

</table>
The Honors Program in African and African American Studies gives junior and senior students of high ability the opportunity to enroll in enriched courses and conduct independent research culminating in an honors thesis. In addition to satisfying the general Fulbright College requirements for graduation and the basic eligibility requirements for honors as established by the Honors Council, candidates for honors in African and African American Studies must complete 12 hours of honors as established by the Honors Council, candidates for honors in African and African American Studies must complete 12 hours of honors credit in partial satisfaction of requirements for the co-major. One to six of these may be thesis hours (AAST 399VH). The remaining six hours must be relevant honors colloquia or graduate courses (with permission) approved by the AAST Director. Check the program website for a list of these approved courses.

Interested students or those wanting further information should consult with the African and African American Studies Director for selection of appropriate classes and for information on other courses that can apply to the major and/or minor.

**Requirements for Honors in African and African American Studies:**

The Honors Program in African and African American Studies gives junior and senior students of high ability the opportunity to enroll in enriched courses and conduct independent research culminating in an honors thesis. In addition to satisfying the general Fulbright College requirements for graduation and the basic eligibility requirements for honors as established by the Honors Council, candidates for honors in African and African American Studies must complete 12 hours of honors credit in partial satisfaction of requirements for the co-major. One to six of these may be thesis hours (AAST 399VH). The remaining six hours must be relevant honors colloquia or graduate courses (with permission) in one of the departments contributing to this interdisciplinary area of study. The 12 hours of honors credit will satisfy elective requirements in the major and/or minor.

**Requirements for a Minor in African and African American Studies:**

A total of 15 hours in African and African American Studies courses in addition to the requirements for the departmental major including the following:

- **AAST 1003** Introduction to African and African American Studies (Sp, Fa) 3
- or **AAST 2023** The African American Experience (Sp, Su, Fa) 3

Select one of the following 3

- **AAST 3233/HIST 3233** or
- **AAST 3243/HIST 3243** or
- **AAST 3253/HIST 3253** or
- **AAST 3293/PLSC 3293** or
- **AAST 3853/ENGL 3853** or
- **AAST 4153/SOCI 4153**

The remaining nine hours shall be selected from the courses listed in Requirement 3 of the Requirements for a Second Major in African and African American Studies. A maximum of six of the nine hours may be submitted from courses taken in any one department.

**Total Hours** 15

Interested students or those wanting further information should consult with the African and African American Studies Director for selection of appropriate classes and for information on other courses that can appear to the major and/or minor.
Scholar Cum Laude" at graduation. Higher degree distinctions are recommended only in exceptional cases and are based upon the whole of the candidate's program of honors studies.

Courses in anthropology provide an introduction to world peoples, their ways of living, and world views. Anthropology helps students to better understand human similarities and differences.

The Department of Anthropology offers both a Bachelor of Science and a Bachelor of Arts degree in anthropology.

The Bachelor of Science degree program is geared toward students with specialized in anthropological sciences. It is recommended for students planning to continue their education in basic or applied anthropological sciences in graduate or professional school. A B.S. degree in anthropology is also useful students planning to continue their education toward health or medical related careers.

Requirements for a B.S. Degree with a Major in Anthropology:
A minimum of 120 hours is required, including 57 hours specified as designated below.

Required Anthropology Core Courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 1013 &amp; ANTH 1011L</td>
<td>Introduction to Biological Anthropology (Sp, Su) and Introduction to Biological Anthropology Laboratory (Fa)</td>
<td>4</td>
</tr>
<tr>
<td>ANTH 1023</td>
<td>Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2013) (Sp, Su, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 1033</td>
<td>Introduction to Archaeology (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 4013</td>
<td>History of Anthropological Thought (Fa)</td>
<td>3</td>
</tr>
</tbody>
</table>

Anthropology Electives: 18 hours selected from courses numbered 3000 or higher

Science
A minimum of 20 hours of electives from BIOL, CHEM, GEOL, and/or PHYS

Math: Minimum of 6 hours of math beyond College Algebra (MATH 1203) selected from among the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1213</td>
<td>Plane Trigonometry (ACTS Equivalency = MATH 1203) (Sp, Su, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>or MATH 1284</td>
<td>Precalculus Mathematics (ACTS Equivalency = MATH 1305) (Sp, Su, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>MATH 2554</td>
<td>Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa)</td>
<td>4</td>
</tr>
<tr>
<td>MATH 2564</td>
<td>Calculus II (ACTS Equivalency = MATH 2505) (Sp, Su, Fa)</td>
<td>4</td>
</tr>
<tr>
<td>or STAT 2303</td>
<td>Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)</td>
<td>4</td>
</tr>
</tbody>
</table>

The following courses that are strongly recommended for those students pursuing a health or medical-related career:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 3423 &amp; ANTH 3421L</td>
<td>Human Osteology (Sp) and Human Osteology Laboratory (Sp)</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 1603 &amp; BIOL 1601L</td>
<td>Principles of Zoology (ACTS Equivalency = BIOL 1054 Lecture) (Su, Fa) and Principles of Zoology Laboratory (ACTS Equivalency = BIOL 1054 Lab) (Su, Fa)</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 2013 &amp; BIOL 2011L</td>
<td>General Microbiology (ACTS Equivalency = BIOL 2004 Lecture) (Sp, Su, Fa) and General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab) (Sp, Su, Fa)</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 2213 &amp; BIOL 2211L</td>
<td>Human Physiology (ACTS Equivalency = BIOL 2414 Lecture) (Sp, Fa) and Human Physiology Laboratory (ACTS Equivalency = BIOL 2414 Lab) (Sp, Fa)</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 2323 &amp; BIOL 2321L</td>
<td>General Genetics (Sp, Fa) and General Genetics Laboratory (Sp, Fa)</td>
<td>4</td>
</tr>
</tbody>
</table>
### Writing Requirement

The Fulbright College research/analytical paper requirement for anthropology majors is fulfilled by completing an intensive writing requirement (15 pages) with a grade of "B" or higher in a successfully completed 4000-level ANTH course and with instructor approval.

### Anthropology B.S.

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Anthropology (ANTH)

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Bachelor of Arts in Anthropology

Requirements for a Bachelor of Arts Degree with a Major in Anthropology:

34 Semester Hours including:

- ANTH 1013 Introduction to Biological Anthropology (Sp, Su) 3
- ANTH 1011L Introduction to Biological Anthropology Laboratory (Fa) 1
- ANTH 1023 Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2013) (Sp, Su, Fa) 3
- ANTH 1033 Introduction to Archaeology (Sp, Fa) 3
- ANTH 4013 History of Anthropological Thought (Fa) 3

These 34 hours must also include:

- One course in each ANTH subfield (Cultural, Archeology, Biological) beyond the core (9 hours).
- 3 hours from each of two different geographical areas in ANTH for a total of 6 hours.
- 6 elective credit hours in anthropology. These may satisfied in concert with an optional focused study as described below.

Focused Studies

Focused Study in Archaeology:

To complete the focused study, a student is required to fulfill the following course requirements:

- ANTH 3023 Approaches to Archaeology (Sp) 3

Two of the following method and theory courses or equivalent classes offered under ANTH 3903 and ANTH 4903, approved as having an archeological method and theory focus.

- ANTH 4093 The Archeology of Death (Irregular)
- ANTH 4353 Laboratory Methods in Archeology (Irregular)
- ANTH 4443 Cultural Resource Management I (Sp)
- ANTH 4603 Landscape Archaeology (Fa)
- ANTH 4633 Archeological Prospecting and Remote Sensing (Irregular)
- ANTH 4813 Ethnographic Approaches to the Past (Irregular)
- ANTH 4256 Archeological Field Session (Su)

Focused Study in Biological Anthropology:

To complete the focused study, a student is required to fulfill the following course requirements:

Four of the following courses in biological anthropology, including any 3000-4000 special topics or seminar courses offered that are deemed appropriate for training in any of the subdisciplines of biological anthropology (12-13 credits).

- ANTH 3423 Human Osteology (Sp) 4
- ANTH 3421L Human Osteology Laboratory (Sp) 4
- ANTH 3433 Human Evolution (Fa) 3
- ANTH 3443 Criminalistics: Forensic Sciences (Irregular) 3
- ANTH 3533 Medical Anthropology (Irregular) 3
- ANTH 3923H Honors Colloquium (Irregular) 3
- ANTH 4523 Dental Science (Fa) 3
- ANTH 4613 Primate Adaptation and Evolution (Sp) 3

Focused Study in Cartography/Remote Sensing/GIS:

This focused study gives students an opportunity to develop expertise in (1) cartography, map design and computer-assisted map production, (2) remote sensing and image interpretation, including photographic systems, sensor systems, and digital image processing, and (3) geographic information systems, including data sources, analytical techniques, and hardware/software systems.

To complete the focused study, a student is required to fulfill the following course requirements.

Required Courses:

- GEOS 3023 Introduction to Cartography (Fa) 3
- GEOS 4413 Principles of Remote Sensing (Fa) 3
- ANTH 3543 Geospatial Applications and Information Science (Sp, Fa) 3

Elective Courses - Select three of the following: 9

- GEOS 4523 Cartographic Design and Production (Sp)
- GEOS 5423 Remote Sensing of Natural Resources (Even years, Sp)
- ANTH 4553 Introduction to Raster GIS (Fa)
- ANTH 4563 Vector GIS (Sp)
- ANTH 4593 Introduction to Global Positioning Systems and Global Navigation Satellite Systems (Sp)
- STAT 4003 Statistical Methods (Sp, Fa) (or other approved statistics course)
- CVEG 2053 Surveying Systems (Sp, Fa) (or other approved surveying course)

Focused Study in Cultural Anthropology:

To complete the focused study, a student is required to fulfill the following course requirements:

Students must take a world language through the 2013 level 12

Two of the following method and theory courses or equivalent classes offered under ANTH 3903 and ANTH 4903 approved as having a cultural anthropology method and theory focus.

- ANTH 3123 The Anthropology of Religion (Sp)
- ANTH 3143 Language and Expressive Culture (Irregular)
- ANTH 3163 Male and Female: A Cultural and Biological Overview (Fa)
- ANTH 3533 Medical Anthropology (Irregular)
- ANTH 4033 Popular Culture (Irregular)
- ANTH 4143 Ecological Anthropology (Irregular)
- ANTH 4363 Museums, Material Culture, and Popular Imagination (Fa)
ANTH 4813  Ethnographic Approaches to the Past (Irregular)

Writing Requirement: The Fulbright College research/analytical paper requirement for anthropology majors is fulfilled by completing an intensive writing requirement (15 pages) with a grade of "B" or higher in a successfully completed 4000-level ANTH course and with instructor approval.

Anthropology B.A. Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Minor in Anthropology

Requirements for a Minor in Anthropology: 15 hours including ANTH 1023. At least 9 hours must be in courses numbered 3000 or above. Students who minor in anthropology should consult with an anthropology adviser to select appropriate courses. A student must notify the department of his or her intent to minor.

Requirements for Departmental Honors in Anthropology: The Departmental Honors Program in Anthropology provides an opportunity for outstanding undergraduate majors to conduct independent research under the supervision of a faculty member. The research project culminates in an honors thesis, which is primary for the award "Anthropology Scholar Cum Laude." Higher degree distinctions are recommended only in truly exceptional cases and are based upon the candidate's entire program of honors studies.
Honors candidates must meet the college requirements for an honors degree. They must complete and defend an honors thesis and take 12 hours, which may include 6 hours of thesis, in Honors Studies. The candidate is expected to maintain a minimum 3.5 cumulative grade-point average in anthropology and other course work.

Please refer to the Secondary Education Requirements (http://catalog.uark.edu/undergraduatetcatalog/collegesandschools/ jwilliamfulbrightcollegeofartsandsciences/#fieldsofstudytext) for Fulbright College Students.

Students wishing to pursue licensure through the UAteach undergraduate curriculum should consult with a UAteach adviser, uteach@uark.edu.

Jeffrie J. Hulen
Chair of the School of Art
116 Fine Arts Building
479-575-5202
http://art.uark.edu

Under direction of accomplished faculty, the School of Art offers professional art degrees in many media areas, including art education, art history, ceramics, drawing, painting, photography, printmaking, sculpture, and visual design. Students enjoy a close proximity to the Crystal Bridges Museum of American Art, with which the School of Art has a strong relationship. The school also works closely with other local arts organizations and maintains an active presence in the communities of Northwest Arkansas. The school’s Fine Arts Gallery (http://art.uark.edu/fineartsgallery), in the impressive Fine Arts Center designed by architect Edward Durell Stone, shows both student and professional works on a near-constant basis.

Bachelor of Arts Degree

Transfer students should confer with the departmental advisers prior to entrance for information concerning entrance requirements and transfer credits. Transfer credit will be allowed from other accredited and recognized art departments and schools if the credit earned is compatible with program and course requirements within the University of Arkansas School of Art and reflects a grade of “C” or higher. In addition, a student must spend a minimum of 2 semesters in residence. Credit for advanced studio classes in the school is contingent upon presentation of a portfolio of works created in a college-level class equivalent to the class the student is seeking credit for in the School of Art. Professors in the relevant studio area will evaluate portfolios and determine transfer credits.

Requirements for a Major in Art with a Concentration in Studio Art

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met.

A minimum of 57 semester hours to include:

- 6 hours of courses, taken outside the department of art (beyond courses applied to the state minimum core and as approved by a departmental adviser)

51 Hours to include:

<table>
<thead>
<tr>

The School of Art offers two undergraduate programs leading to degrees:

- Bachelor of Arts
- Bachelor of Fine Arts

Separate requirements for each program and its concentrations are listed under the tabs. Requirements for honors are also listed with each program. The School of Art also offers a minor in art history.

204 Art (ARTS)
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Program Art B.A. with a Concentration in Studio Art history. or by successful completion (a grade of at least a "C") in a thesis in art history.

Art B.A. with a Concentration in Studio Art Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Primary concentration requires 12 hours in one area chosen from ceramics, drawing, painting, photography, printmaking or sculpture.

Students may take ARHS 4973 Seminar in Art History to fulfill an ARHS requirement, but designation as Group 1 or 2 will depend on the topic of the specific seminar taken.

Bachelor of Arts Degree

Transfer students should confer with the School of Art advisers prior to entrance for information concerning entrance requirements and transfer credits. Transfer credit will be allowed from other accredited and recognized art departments and schools if the credit earned is compatible with program and course requirements within the University of Arkansas School of Art and reflects a grade of “C” or higher. In addition, a student must spend a minimum of 2 semesters in residence. Credit for advanced studio classes in the school is contingent upon presentation of a portfolio of works created in a college-level class equivalent to the class the student is seeking credit for in the School of Art. Professors in the relevant studio area will evaluate portfolios and determine transfer credits.

Requirements for a Major in Art with a Concentration in Art History

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

A minimum of 51 semester hours:

Completion of 2013 Intermediate II of a world language. ¹ 3-9
Nine hours of courses from outside the department of art (as approved by a departmental adviser) 9
39 Semester Hours Including:
6 hours in ARTS courses 6
ARHS 2913 | Art History Survey I (ACTS Equivalency = ARTA 2003) (Sp, Fa) 3
ARHS 2923 | Art History Survey II (ACTS Equivalency = ARTA 2103) (Sp, Fa) 3

In addition to the preceding requirements, 18 hours of upper division art history courses to include:

At least two courses selected from: (Group 1)

</table>

And at least two courses selected from: (Group 2)
ARHS 4763  Seminar in Critical Theory (Sp)
ARHS 4813  The History of Photography (Irregular)
ARHS 4883  18th and 19th Century European Art (Irregular)
ARHS 4893  20th Century European Art (Irregular)
ARHS 4913  American Art to 1860 (Irregular)
ARHS 4923  American Art 1860-1960 (Irregular)
ARHS 4933  Contemporary Art (Fa)
ARHS 4993  Special Topics in Modern Art (Irregular)

And 2 additional courses (6 hours) from any upper-division ARHS courses
In addition, two seminar courses in art history, and one elective course in art history or studio art.

Total Hours 51-57

1 This is usually accomplished through completion of a sequence of language courses: 1003, 1013, 2003 and 2013.

Art majors must complete a basic fine arts course that satisfies the University Core requirement from outside the department of Art.

Writing Requirement: Students majoring in art will satisfy the Fulbright College writing requirement by successful completion (a grade of at least a "C") in the final paper in one of the following:

ARHS 3923H  Honors Colloquium (Irregular) 3
ARHS 4563  Pre-Columbian Art (Irregular) 3
ARHS 4573  Artists of New Spain (Irregular) 3
ARHS 4743  Medieval Architecture (Irregular) 3
ARHS 4753  Renaissance and Baroque Architecture (Irregular) 3
ARHS 4763  Seminar in Critical Theory (Sp) 3
ARHS 4833  Ancient Art (Irregular) 3
ARHS 4843  Medieval Art (Irregular) 3
ARHS 4853  Italian Renaissance Art (Irregular) 3
ARHS 4863  Northern Renaissance Art (Irregular) 3
ARHS 4873  Baroque Art (Irregular) 3
ARHS 4883  18th and 19th Century European Art (Irregular) 3
ARHS 4893  20th Century European Art (Irregular) 3
ARHS 4913  American Art to 1860 (Irregular) 3
ARHS 4923  American Art 1860-1960 (Irregular) 3
ARHS 4933  Contemporary Art (Fa) 3
ARHS 4963  Individual Research in Art History (Sp, Fa) 3
ARHS 4973  Seminar in Art History (Irregular) 3
ARHS 4983  Special Topics in Art History (Irregular) 3
ARHS 4993  Special Topics in Modern Art (Irregular) 3

or by successful completion (a grade of at least a "C") in a thesis in art history.

Art B.A. with a Concentration in Art History Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

1,2 Approved non-Art elective
Students earning a grade-point average of 3.00 or higher in art, after the completion of ARTS 1919C, ARTS 1929C, and who have maintained a 3.00 grade-point average within the UA School of Art and a 2.00 grade-point average overall. Students in the B.F.A. program whose grade point average falls below 3.0 in art classes for two consecutive semesters will be dismissed from the B.F.A. program.

Each student is required to complete an approved off-campus study experience each semester in the program. Transfer credit will be allowed from other accredited and recognized art departments and schools if the credit earned is compatible with program and course requirements within the UA School of Art and reflects a grade of “C” or higher. The UA School of Art will not accept more than 50 percent of the required B.F.A. professional degree credits from another institution. The School of Art will require portfolio review for acceptance of all studio art transfer courses above the foundations level.

Degree Requirements: The Bachelor of Fine Arts degree will be awarded to students, who, upon the completion of the approved program, have maintained a 3.00 grade-point average within the UA School of Art and a 2.00 grade-point average overall. Students in the B.F.A. program whose grade point average falls below 3.0 in art classes for two consecutive semesters will be dismissed from the B.F.A. program.

A faculty-supervised critique of the work of each student, once each two semesters with a minimum of three credit hours of course work in their major studio area each semester.

Transfer credit will be allowed from other accredited and recognized art departments and schools if the credit earned is compatible with program and course requirements within the UA School of Art and reflects a grade of “C” or higher. The UA School of Art will not accept more than 50 percent of the required B.F.A. professional degree credits from another institution. The School of Art will require portfolio review for acceptance of all studio art transfer courses above the foundations level.

Off-Campus Study Requirement: Each student is required to complete an approved off-campus study experience each semester in the program. This may involve a field trip to an urban center that includes visits to major art collections.

Requirements for the Bachelor of Fine Arts Degree with a Concentration in Studio Art

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183) (see under College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

A Minimum of 84 Semester Hours Including:

- ARTS 1919C  Studio Foundation I (Sp, Fa)  9
- ARTS 1929C  Studio Foundation II (Sp, Fa)  9
- ARTS 4923  Professional Development (Sp)  3
- PHIL 2003  Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su)  3
- PHIL 4403  Philosophy of Art (Sp)  3
- Plus a Minimum of 18 Semester Hours in the Selected Studio Major  18
- A Minimum of 24 Semester Hours in Art Electives  24
- At Least 15 Semester Hours in Art History including:  15
  - ARHS 2913  Art History Survey I (ACTS Equivalency = ARTA 2003) (Sp, Fa)  9
  - ARHS 2923  Art History Survey II (ACTS Equivalency = ARTA 2103) (Sp, Fa)  9
  - ARHS 4933  Contemporary Art (Fa)  3

Bachelor of Fine Arts Degree

Admission: Students earning a grade-point average of 3.00 or higher in art, after the completion of ARTS 1919C, ARTS 1929C, and who have maintained an overall grade-point average of 2.00 are eligible to make application to the B.F.A. degree program. In addition to meeting the required grade-point average, all students must submit, as part of their application, a portfolio of current representative work for evaluation by the art faculty. Acceptance into the B.F.A. program is contingent upon favorable evaluation by the art faculty of the applicant’s portfolio. Upon acceptance into the B.F.A. degree program, each student will be assigned a major adviser for the purpose of completing a degree plan, which must meet school approval.

After entry into the B.F.A. program, the student is required to complete two semesters with a minimum of three credit hours of course work in their major studio area each semester.

Transfer credit will be allowed from other accredited and recognized art departments and schools if the credit earned is compatible with program and course requirements within the UA School of Art and reflects a grade of “C” or higher. The UA School of Art will not accept more than 50 percent of the required B.F.A. professional degree credits from another institution. The School of Art will require portfolio review for acceptance of all studio art transfer courses above the foundations level.

Degree Requirements: The Bachelor of Fine Arts degree will be awarded to students, who, upon the completion of the approved program, have maintained a 3.00 grade-point average within the UA School of Art and a 2.00 grade-point average overall. Students in the B.F.A. program whose grade point average falls below 3.0 in art classes for two consecutive semesters will be dismissed from the B.F.A. program.

A faculty-supervised critique of the work of each student, once each two semesters with a minimum of three credit hours of course work in their major studio area each semester.

Transfer credit will be allowed from other accredited and recognized art departments and schools if the credit earned is compatible with program and course requirements within the UA School of Art and reflects a grade of “C” or higher. The UA School of Art will not accept more than 50 percent of the required B.F.A. professional degree credits from another institution. The School of Art will require portfolio review for acceptance of all studio art transfer courses above the foundations level.

Off-Campus Study Requirement: Each student is required to complete an approved off-campus study experience each semester in the program. This may involve a field trip to an urban center that includes visits to major art collections.

Requirements for the Bachelor of Fine Arts Degree with a Concentration in Studio Art

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183) (see under College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

A Minimum of 84 Semester Hours Including:

- ARTS 1919C  Studio Foundation I (Sp, Fa)  9
- ARTS 1929C  Studio Foundation II (Sp, Fa)  9
- ARTS 4923  Professional Development (Sp)  3

- PHIL 4403  Philosophy of Art (Sp)  3
- Plus a Minimum of 18 Semester Hours in the Selected Studio Major  18
- A Minimum of 24 Semester Hours in Art Electives  24
- At Least 15 Semester Hours in Art History including:  15
  - ARHS 2913  Art History Survey I (ACTS Equivalency = ARTA 2003) (Sp, Fa)  9
  - ARHS 2923  Art History Survey II (ACTS Equivalency = ARTA 2103) (Sp, Fa)  9
  - ARHS 4933  Contemporary Art (Fa)  3
6 additional hours in ARHS

| Total Hours | 84 |

1 Must include a minimum of one course from each of the following areas, excluding primary media tracks: drawing, painting, sculpture, printmaking, visual design, photography, and ceramics. Up to six credit hours may be taken outside of the department with approval.

**Writing Requirement:** Students majoring in art will satisfy the Fulbright College writing requirement by successful completion (a grade of at least a "C") in the final paper in one of the following:

| ARHS 3923H | Honors Colloquium (Irregular) | 3 |
| ARHS 4563  | Pre-Columbian Art (Irregular) | 3 |
| ARHS 4573  | Artists of New Spain (Irregular) | 3 |
| ARHS 4743  | Medieval Architecture (Irregular) | 3 |
| ARHS 4753  | Renaissance and Baroque Architecture (Irregular) | 3 |
| ARHS 4763  | Seminar in Critical Theory (Sp) | 3 |
| ARHS 4833  | Ancient Art (Irregular) | 3 |
| ARHS 4843  | Medieval Art (Irregular) | 3 |

| ARHS 4863  | Northern Renaissance Art (Irregular) | 3 |
| ARHS 4873  | Baroque Art (Irregular) | 3 |
| ARHS 4883  | 18th and 19th Century European Art (Irregular) | 3 |
| ARHS 4893  | 20th Century European Art (Irregular) | 3 |
| ARHS 4913  | American Art to 1860 (Irregular) | 3 |
| ARHS 4923  | American Art 1860-1960 (Irregular) | 3 |
| ARHS 4933  | Contemporary Art (Fa) | 3 |
| ARHS 4963  | Individual Research in Art History (Sp, Fa) | 3 |
| ARHS 4973  | Seminar in Art History (Irregular) | 3 |
| ARHS 4983  | Special Topics in Art History (Irregular) | 3 |
| ARHS 4993  | Special Topics in Modern Art (Irregular) | 3 |

or by successful completion (a grade of at least a "C") in a thesis in art history.

**Art B.F.A. with a Concentration in Studio Art Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Primary concentration requires 18 hours in one area chosen from ceramics, drawing, visual design, painting, photography, printmaking or sculpture.

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Bachelor of Fine Arts Degree

Admission: Students earning a grade-point average of 3.00 or higher in art, after the completion of ARTS 1919C, ARTS 1929C, and who have maintained an overall grade-point average of 2.00 are eligible to make application to the B.F.A. degree program. In addition to meeting the required grade-point average, all students must submit, as part of their application, a portfolio of current representative work for evaluation by the art faculty. Acceptance into the B.F.A. program is contingent upon favorable evaluation by the art faculty of the applicant’s portfolio. Upon acceptance into the B.F.A. degree program, each student will be assigned a major adviser for the purpose of completing a degree plan, which must meet school approval.

After entry into the B.F.A. program, the student is required to complete two semesters with a minimum of three credit hours of course work in their major studio area each semester.

Transfer credit will be allowed from other accredited and recognized art departments and schools if the credit earned is compatible with program and course requirements within the UA School of Art and reflects a grade of “C” or higher. The UA School of Art will not accept more than 50 percent of the required B.F.A. professional degree credits from another institution. The School of Art will require portfolio review for acceptance of all studio art transfer courses above the foundations level.

Degree Requirements: The Bachelor of Fine Arts degree will be awarded to students who, upon the completion of the approved program, have maintained a 3.00 grade-point average within the UA School of Art and a 2.00 grade-point average overall. Students in the B.F.A. program whose grade point average falls below 3.0 in art classes for two consecutive semesters will be dismissed from the B.F.A. program. A faculty-supervised critique of the work of each student, once each semester in the program, is required. A senior review and exhibition will be required prior to the granting of the degree.

Off-Campus Study Requirement: Each student is required to complete an approved off-campus study experience each semester in the program.

This may involve a field trip to an urban center that includes visits to major art collections.

Requirements for the Bachelor of Fine Arts Degree with a Concentration in Art Education

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183) (see under College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

A minimum of 72 hours to include:

2003 Intermediate I of a world language. This is usually accomplished 3-6 through completion of a sequence of two language courses: 1013 and 2033.

Stage I: Complete an evaluation for internship. Students must also meet the following criteria to be cleared for the internship:

1. Successful completion of the PRAXIS I test by meeting or exceeding the Arkansas Department of Education cut-off scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013, ENGL 1023, and MATH 1203.

2. Obtain a “C” or better in the following pre-education core courses: CIED 1013, CIED 3023, and CIED 3033.

3. Obtain a “C” or better in ARED 3613, ARED 3643, ARED 3653.

4. Complete and submit online application to teacher education (see the Teacher Education Application Fee (p. 51)) through the university-wide Teacher Education Office, Graduate Education Building, Room 339, by Oct. 1 prior to doing a fall internship or March 1 prior to doing a spring internship. Complete the B.F.A. degree with a cumulative GPA of 2.50 or higher. The degree must be posted to your University of Arkansas transcript at the Registrar’s Office prior to internship.

5. Obtain departmental clearance for internship based on successful completion of portfolios, evaluation for internship, GPA requirements, course work requirements, selected written recommendations, an interview, and/or other requirements specified by your program.

6. Complete licensure packet available from the Licensure Office in Graduate Education Building, Room 338. All requirements in Stage I must be met to be cleared for the internship. Please contact the Director of Field Placement and Licensure, Graduate Education Building, Room 339, College of Education and Health Professions for more information.

Stage II: Internship

1. Complete the one-semester internship at an approved site in Washington or Benton counties.

2. Complete Praxis II requirements. See your adviser for completion dates.

NOTE: Students should always consult the Coordinator of Teacher Education for any licensure requirement changes. Students will not be licensed to teach in Arkansas until they have met all requirements for licensure as set forth by the Arkansas Department of Education.

Usually licensure in another state is facilitated by qualifying for a license in Arkansas. An application in another state must be made on the application form of that state, which can be obtained by request from the State Teacher Licensure office in the capital city. An official transcript should accompany the application. In many instances the applications are referred to the Coordinator of Teacher Education to verify program completion in teacher education.

Writing Requirement: Students majoring in art will satisfy the Fulbright College writing requirement by successful completion (a grade of at least a “C”) in the final paper in one of the following:

or by successful completion (a grade of at least a “C”) in a thesis in art history.

Art B.F.A. with a Concentration in Art Education

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

\(^1\) Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).

\(^2\) Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Note: In addition to and after completion of the program listed above, for certification, the student must complete an additional 12 hours of Student Teaching in Art, ARED 476V and take the Praxis II exams (concurrent with enrollment in ARED 476V).

For requirements for the M.F.A. degree program in art, see the Graduate School Catalog.

**B.F.A. in Graphic Design**

The Bachelor of Fine Arts degree in Graphic Design — often also referred to as visual design, visual communication design or visual communication — will prepare students to be proficient makers and thoughtful problem seekers and solvers in a four-year professional degree program. Students will work seamlessly across a range of media, working to identify appropriate solutions for audience and context. Students will be exposed to a rigorous curriculum covering research, theory, critical thinking, professional practices, conceptual idea-making, all while asking them to formally experiment and refine. The Graphic Design degree focuses on: typography, interactivity, branding and design research, each identified as strongly connected to the design industry, while incorporating the university research initiatives of the School of Art at the University of Arkansas.

**Requirements for Admission to the Fine Arts Degree in Graphic Design**

For admission to the B.F.A. in Graphic Design, a student must be a declared Art major in the School of Art and successfully complete the art foundation course sequence of ARTS 1919C Studio Foundation I (Sp, Fa) and ARTS 1929C Studio Foundation II (Sp, Fa). Students also must be enrolled in, or have completed, ARTS 2313 Digital Tools and Concepts (Sp, Fa) and ARTS 3313 Introduction to Typography (Fa). Students must have a 3.0 grade point average and submit an application and a portfolio for review.

**Requirements for the Bachelor of Fine Arts Degree in Graphic Design**

In addition to the University Core requirements and the Fulbright College of Arts and Sciences Graduation Requirements (see under College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the university/state minimum core requirements.

A student must notify the department of his or her intent to minor. The minor is especially suitable for students majoring in anthropology, English, foreign languages, history, philosophy, and music.

Requirements for Departmental Honors in Art: As part of the Honors Studies Program of the J. William Fulbright College of Arts and Sciences, the School of Art provides the opportunity for academically superior junior- and senior-level students to acquire broader and deeper knowledge and skills in the visual arts and related disciplines. This is accomplished through independent research projects in studio art and/or art history under the direction of the art faculty. Outstanding achievement is recognized by awarding the distinction "Art Scholar Cum Laude." Students may apply for honors studies beginning in the second semester of their sophomore year and normally will not be accepted into the program after completion of the second semester of their junior year. The school requires each applicant to have a minimum cumulative grade-point average of 3.5 in all college course work, a minimum grade-point average of 3.5 in all course work taken in the School of Art, completed ARHS 2913 and ARHS 2923, completed at least 20 semester hours of work in art school courses, and at least 30 semester hours of general education requirements. Included in those hours, a student must complete and defend an honors thesis and take 12 hours, which may include 6 hours of thesis, in honors studies. Higher degree distinctions take into consideration the student’s entire academic career and are recommended for only those students whose honors projects and programs of study demonstrate a truly exceptional degree of creativity and scholarship.

Arts and Sciences (ARSC)  
Yvette Murphy-Erby  
Chair of Studies  
Old Main 526D  
479-575-4443

Students may enroll in college and off-campus programs (ARSC) under special circumstances and with the approval of the Associate Dean of Fulbright College.

Asian Studies (AIST)  
Ka Zeng  
Chair of Studies

Students may pursue Asian studies as a second major alongside a primary major. The program also offers a minor in Asian Studies.

The Asian Studies Program draws on the strength of faculty both in the Fulbright College of Arts and Sciences and in other colleges on campus to provide resources and training in Asian languages, cultures, history, politics and economics. The program strives to provide students with a well-rounded education essential for careers in which knowledge of Asia is vital, promote interdisciplinary research on the Pacific region, and serve as a source of knowledge and expertise for the community.

Requirements for the Asian Studies Second Major:

Language Competence: Students must complete CHIN 2013 (or equivalent) or JAPN 2013 (or equivalent). Subject to the approval of the Director of Studies, students with language competence in one language (Chinese or Japanese) may receive some elective credit for competence level courses in the other language. Proficiency in other Asian languages may also satisfy this requirement.

In addition to the above language requirement, students must complete 21 hours in Asia-related courses, subject to the following conditions:

Colloquium (3-6 hours): Students must complete at least three hours in the interdisciplinary colloquium, AIST 4003/AIST 4003H. The AIST Colloquium may be repeated, provided the topic is different.

Electives (15-18 hours): In addition to the above requirements and the requirements for the departmental major, students must complete 15-18 hours of Asia-related courses (AIST-approved electives listed below) subject to the following conditions of distribution:

1. Students must complete 6 hours of history courses;
2. Students must complete 6 hours of social science courses;
3. Courses must be selected from at least three different departments;
4. A maximum of nine hours may be submitted from any one department;
5. In addition, the following may be applied toward the major:
   a. Up to 6 hours of upper-level language courses (such as CHIN 3003, CHIN 3033, CHIN 3103, JAPN 3003, JAPN 3013, JAPN 3033);
   b. Up to 6 hours of credits in an approved study-abroad program;
   c. Up to 6 hours of CHIN 3983 or JAPN 3983/JAPN 3983H (Special Studies)
   d. Other Asia-related courses with approval of the director of Asian Studies

**Requirements for a Minor in Asian Studies:**

Students may earn a minor in Asian Studies by taking courses in art, anthropology, economics, geography, history, languages, sociology, political science, and literature of Asia. Students must fulfill the language requirement described below and complete 15 hours in Asia-related courses in order to earn the minor.

**Language Requirement:** Students must complete CHIN 2013 (or equivalent) or JAPN 2013 (or equivalent). At the discretion of the chair of studies, proficiency in other Asian languages may also satisfy this requirement.

Beyond the language requirement, students must complete 15 credit hours of approved courses, including at least three hours in the Asian Studies Colloquium (AIST 4003). The following courses may be taken in fulfillment of the elective requirements:

Students may also apply three hours of credit in an approved study-abroad program in an Asian country and three hours of upper-level Chinese or Japanese toward the minor.

Other courses that include Asia-specific content may be taken for credit toward the secondary major or minor with the approval of the Chair of Asian Studies.

Department of Biological Sciences Website (http://fulbright.uark.edu/departments/biology)

The Department of Biological Sciences offers a supportive training environment across the full spectrum of biology, bridging the disciplines of cell and molecular biology, physiology, development, genetics, molecular systematics, microbiology, neurobiology, ecology, and evolutionary biology. Through course selection both within and outside the department, our students are prepared to enter research and professional training programs (health, secondary education, law, etc.) or enter careers in government and a broad range of businesses that rely on a technology-literate workforce with analytical and problem-solving skills.

For information on advanced degrees in biology, see the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programs/ofstudy/biologicalsciencesbisc).

Requirements for a B.S. Degree with a Major in Biology
A minimum of 120 hours is required, including 40 hours in the major as specified below.

1. BIOL 1584 Biology for Majors

2. Biology Core (13 hours):
   - BIOL 2533 Cell Biology (Sp, Fa) 3
   - BIOL 2323 General Genetics (Sp, Fa) 3
   - BIOL 3023 Evolutionary Biology (Sp, Fa) 3
   - BIOL 3863 General Ecology (Sp, Fa) 3
   and a minimum of 1 hour of Core Laboratory selected from:

3. An additional 23 hours of electives in biology and/or biology related electives including:
   a. At least 2 elective courses numbered 2000 or higher which are lab courses. This includes Core Labs taken in addition to the basic Core requirement. Courses whose catalog description explicitly excludes them from counting toward the major may not be used to meet this requirement. (Laboratory courses also include BIOL 480V, BIOL 4801H, BIOL 499V, and BIOL 4991H.)
   b. At least 18 hours in BIOL courses numbered 3000 or higher, of which at least 12 hours must be from courses numbered 4000 or higher.
   c. A course meeting the Fulbright College writing requirement. (The means of meeting the writing requirement are listed following the description of Requirements for Departmental Honors in Biology.)
   d. No more than 4 hours of elective courses at the 1000 level are permitted. BIOL 1543/BIOL 1541L Principles of Biology/Principles of Biology Laboratory may not be applied to the elective requirement.

Note: Biology related electives that are not taught by the Department of Biological Sciences must be approved using the “Exception Request for Major or Minor Requirements” form.

A student who, after completing BIOL 1543/BIOL 1541L Principles of Biology/Lab with a grade of B or better in both courses, wishes to substitute BIOL 1543/BIOL 1541L for the required BIOL 1584 may petition the Department of Biological Sciences to do so. These petitions will be considered on a case by case basis for approval.

Requirements in cognate science and mathematics include the following:

**Chemistry**
- BIOL 1103 & CHEM 1101L University Chemistry I (ACTS Equivalency = CHEM 1144 Lecture) (Su, Fa) and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1144 Lab) (Sp, Fa, Su) (may be completed by advanced placement) 4

**Physics**
- BIOL 2531L Cell Biology Laboratory (Sp, Fa) 3
- BIOL 2321L General Genetics Laboratory (Sp, Fa) 3
- BIOL 3861L General Ecology Laboratory (Fa) 3

3. An additional 23 hours of electives in biology and/or biology related electives including:
   a. At least 2 elective courses numbered 2000 or higher which are lab courses. This includes Core Labs taken in addition to the basic Core requirement. Courses whose catalog description explicitly excludes them from counting toward the major may not be used to meet this requirement. (Laboratory courses also include BIOL 480V, BIOL 4801H, BIOL 499V, and BIOL 4991H.)
   b. At least 18 hours in BIOL courses numbered 3000 or higher, of which at least 12 hours must be from courses numbered 4000 or higher.
   c. A course meeting the Fulbright College writing requirement. (The means of meeting the writing requirement are listed following the description of Requirements for Departmental Honors in Biology.)
   d. No more than 4 hours of elective courses at the 1000 level are permitted. BIOL 1543/BIOL 1541L Principles of Biology/Principles of Biology Laboratory may not be applied to the elective requirement.

Note: Biology related electives that are not taught by the Department of Biological Sciences must be approved using the “Exception Request for Major or Minor Requirements” form.

A student who, after completing BIOL 1543/BIOL 1541L Principles of Biology/Lab with a grade of B or better in both courses, wishes to substitute BIOL 1543/BIOL 1541L for the required BIOL 1584 may petition the Department of Biological Sciences to do so. These petitions will be considered on a case by case basis for approval.

Requirements in cognate science and mathematics include the following:

**Chemistry**
- BIOL 1103 & CHEM 1101L University Chemistry I (ACTS Equivalency = CHEM 1144 Lecture) (Su, Fa) and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1144 Lab) (Sp, Fa, Su) (may be completed by advanced placement) 4

**Physics**
- BIOL 2531L Cell Biology Laboratory (Sp, Fa) 3
PHYS 2033  College Physics II (ACTS Equivalency = PHYS & PHYS 2031L 2024 Lecture) (Sp, Su) and College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab) (Su)

Or

PHYS 2054  University Physics I (ACTS Equivalency = PHYS 2034) (Sp, Su, Fa)

and

PHYS 2074  University Physics II (ACTS Equivalency = PHYS 2044 Lecture) (Sp, Su, Fa)

Mathematics

MATH 2554  Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa) (MATH 2564 is recommended)

Statistics

Select one of the following:

- STAT 2023  Biostatistics (Sp)
- STAT 4003  Statistical Methods (Sp, Fa)
- & STAT 4001L and Statistics Methods Laboratory (Sp, Fa)

Requirement in Philosophy, must include one of the following:

PHIL 2103 or PHIL 2203 or PHIL 3113 or PHIL 4213.

Writing Requirement: The college writing requirement for majors in biology may be met by one of the following:

1. Completion of an honors thesis,
2. Completion of a senior thesis (BIOL 498V) supervised by a faculty member in biological sciences,
3. Completion of a required term paper with a grade of B or above in a BIOL course numbered 3000 or above on a topic approved by the instructor, or
4. Completion of a paper, supervised by a Biological Sciences faculty member, in Special Topics (BIOL 480V)

Note: A student exercising Option 3 or 4 may not use the paper written for that option for credit in BIOL 498V

Biology B.S.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area. Students must complete at least 120 hours, and this must be considered when scheduling upper-level hours in the senior year.

### Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See 3 on Graduation Requirements Checklist or see the Catalog of Studies.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See 2b on Graduation Requirements Checklist or see the Catalog of Studies.

### Requirements for a B.A. Degree with a Major in Biology:

A minimum of 120 hours is required, including:

1. BIOL 1584 Biology for Majors. Majors may substitute another 1000-level BIOL course (BIOL 1603/BIOL 1601L Principles of Zoology or BIOL 1613/BIOL 1611L Plant Biology) for BIOL 1584; a maximum of four 1000-level credits may be applied toward the major. A student who, after completing BIOL 1543/BIOL 1541L Principles of Biology/Lab with a grade of B or better in both courses, wishes to substitute BIOL 1543/BIOL 1541L Principles of Biology for BIOL 1584 may petition the Department of Biological Sciences to do so. These petitions will be considered on a case by case basis for approval.

2. An additional 26 hours of biological sciences, including:
   a. Biology Core (13 hours):
      - BIOL 2533 Cell Biology (Sp, Fa) 3
      - BIOL 2323 General Genetics (Sp, Fa) 3
      - BIOL 3023 Evolutionary Biology (Sp, Fa) 3
      - BIOL 3863 General Ecology (Sp, Fa) 3
      and a minimum of one hour of Core Laboratory selected from: 1
      - BIOL 2531L Cell Biology Laboratory (Sp, Fa)
      - BIOL 2321L General Genetics Laboratory (Sp, Fa)
      - BIOL 3861L General Ecology Laboratory (Sp, Fa)
   b. Biology Electives (13 hours): must include at least 9 hours in BIOL courses numbered 3000 or higher and at least one course numbered 2000 or higher with a laboratory. (Laboratory courses also include BIOL 480V, BIOL 480VH, BIOL 499V, and BIOL 499VH.)

3. Requirements in cognate science and mathematics include:
   a. CHEM 1103 University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) (Su, Fa) 4
      & CHEM 1101L University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab) (Sp, Su, Fa)
   b. CHEM 1123 University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) (Sp, Su, Fa) 4
      & CHEM 1121L University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa)
   Select one of the following: 4-8
   - CHEM 2613 Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture) (Sp, Su, Fa)
   & CHEM 2611E Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab) (Sp, Su, Fa)
### Biology B.A.

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

BIOL 2323 General Genetics (Sp, Fa)  
& BIOL 2321L General Genetics Laboratory (Sp, Fa)\textsuperscript{1}

University/state core from Social Science 3

University/state core from Social Science (as needed) or General Elective 3

General Elective 3

Select one of the following: 3-4

- BIOL 2323 General Genetics (Sp, Fa)  
  & BIOL 2321L General Genetics Laboratory (Sp, Fa)\textsuperscript{1}

Select one of the following: 4

- CHEM 3613 Organic Chemistry II (Sp, Su)  
  & CHEM 3611L Organic Chemistry II Laboratory (Sp, Su)\textsuperscript{1,2}

Select one of the following: 3

- CHEM 2613 Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture) (Sp, Su, Fa)  
  & CHEM 2611L Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab) (Sp, Su, Fa)\textsuperscript{1}

Select one of the following: 3-4

- PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa)  
- PHIL 2203 Logic (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa)\textsuperscript{1}

- PHIL 3113 Environmental Ethics (Irregular)\textsuperscript{1,2}

- PHIL 4213 Philosophy of Science (Irregular)\textsuperscript{1,2}

Select one of the following: 3-4

- BIOL 3863 General Ecology (Sp, Fa)  
  & BIOL 3861L General Ecology Laboratory (Fa)\textsuperscript{1,2}

- BIOL 3023 Evolutionary Biology (Sp, Fa) ((if still needed) or)\textsuperscript{1,2}

- BIOL 3000-4000 Level Elective\textsuperscript{1,2}

- PHYS 2013 College Physics I (ACTS Equivalency = PHYS 2014 Lecture) (Su, Fa)  
  & PHYS 2011L College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab) (Su)\textsuperscript{1}

- PHYS 2033 College Physics II (ACTS Equivalency = PHYS 2024 Lecture) (Sp, Su)  
  & PHYS 2031L College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab) (Su)\textsuperscript{1}

General Electives 6

Year Total: 18

### Third Year

BIOL 3000-4000 Level Biology Elective\textsuperscript{1,2} 3-4

BIOL 3000-4000 Level Biology Elective\textsuperscript{1,2} 3-4

General Electives 6

BIOL 3000-4000 Level Elective\textsuperscript{1,2} 3-4

BIOL 3000-4000 Level Elective\textsuperscript{1,2} 3-4

Upper Level Elective in Fulbright College (if needed for 24-hour rule) or General Elective 3

General Electives (as needed to total 120 degree hours) 3-4

Year Total: 12 9

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

### Requirements for a Minor in Biology:

Students must complete at least 19 credit hours of BIOL courses that include:

- STAT 2023 Biostatistics (Sp)\textsuperscript{1}
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)\textsuperscript{1}
- STAT 4003 Statistical Methods (Sp, Su)  
  & STAT 4001L Statistics Methods Laboratory (Sp, Su)\textsuperscript{1,2}
- MATH 2183 Mathematical Reasoning in a Quantitative World (Sp, Fa)\textsuperscript{1,2}

Select one of the following as needed: 3-4

- Core from social science (if needed)
- PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa)
- PHIL 2203 Logic (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa)\textsuperscript{1}
- PHIL 3113 Environmental Ethics (Irregular)\textsuperscript{1,2}
- PHIL 4213 Philosophy of Science (Irregular)\textsuperscript{1,2}

Select one of the following: 3-4

- BIOL 3863 General Ecology (Sp, Fa)  
  & BIOL 3861L General Ecology Laboratory (Fa)\textsuperscript{1,2}

- BIOL 3023 Evolutionary Biology (Sp, Fa) ((if still needed) or)\textsuperscript{1,2}

- BIOL 3000-4000 Level Elective\textsuperscript{1,2}

- BIOL 3000-4000 Level Elective\textsuperscript{1,2} 3-4

- PHYS 2033 College Physics II (ACTS Equivalency = PHYS 2024 Lecture) (Sp, Su)  
  & PHYS 2031L College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab) (Su)\textsuperscript{1}

General Electives 6

Year Total: 18 18
1. BIOL 1584 Biology for Majors (Sp, Fa) or BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa)/BIOL 1541L Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) (Sp, Su, Fa)

2. Three of the four biology core courses: BIOL 2533 Cell Biology (Sp, Fa), BIOL 2323 General Genetics (Sp, Fa), BIOL 3023 Evolutionary Biology (Sp, Fa), BIOL 3863 General Ecology (Sp, Fa).

3. Two additional BIOL courses, one of which must be a BIOL course numbered 3000 or above. This may include an additional BIOL core course.

Students must notify their academic dean’s office of their intent to minor in biology.

Requirements for Departmental Honors in Biology: The biological sciences honors program is designed to provide students an opportunity to investigate questions in biology through an expanded reading program and research experience. Biological science majors may apply to enter the program between the second semester of the sophomore year and the end of the junior year. Application is made through both Honors Studies (MAIN 517) and the Department of Biological Sciences (SCEN 601). Applicants must have a 3.5 grade-point average. Students should consult with their adviser to identify and contact a potential faculty research mentor. The student’s research activities will then be directed by the departmental faculty member who agrees to sponsor the student.

Students may enroll for up to four hours of credit in BIOL 499VH during the junior year and up to eight hours of credit in BIOL 499VH during the senior year. A maximum of six of these credits may be applied toward a major. Participants must complete and defend an honors thesis and take 12 hours in Honors Studies, which may include six hours of thesis. The honors thesis is based on an original research project and presented orally before a committee composed of two faculty from the biological sciences, a person from outside the biological sciences, and a representative from the Honors Council. This committee makes a recommendation concerning the award of the honors distinction to the Honors Council. Students who successfully complete the departmental honors program usually graduate as “Departmental Scholar Cum Laude.” Higher degree distinctions are recommended only in exceptional cases and are based upon the candidate’s entire involvement in the honors program. Completion of an honors thesis fulfills the writing requirement in biological sciences, which precludes credit for BIOL 498V (Senior Thesis) for the same body of work.

Biology (B.A. or B.S.) Life/Earth Science Teacher Licensure Requirements: Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students.

Students wishing to pursue licensure through the UTeach undergraduate curriculum should consult with a UTeach adviser, uteach@uark.edu.

Chemistry and Biochemistry (CHBC)

cheminfo@uark.edu

Department of Chemistry and Biochemistry Website (http://fulbright.uark.edu/departments/chemistry)

The Department of Chemistry and Biochemistry offers two degree programs leading to either Bachelor of Science degree or a Bachelor of Arts degree.

The Bachelor of Science degree offers students one of three concentrations: a chemistry concentration, a biophysical concentration and a biochemistry concentration.

The Bachelor of Arts degree offers students the choice of two concentrations: a chemistry concentration and a biochemistry concentration.

Students with satisfactory performance on the chemistry proficiency exam and who completed CHEM 1123 on the Fayetteville campus with grade of “C” or better can request credit for CHEM 1103.

Chemistry, Bachelor of Science Degree Requirements for a B.S. degree with a Major in Chemistry: In addition to the University Core requirements and the Fulbright College of Arts and Sciences Graduation Requirements, the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

A Minimum of 40 Semester Hours in Chemistry including:
8 hours of one of the two following sequences: 8

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Sequence 1</th>
<th>Sequence 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1203 &amp; CHEM 1201L</td>
<td>Chemistry for Majors I (Fa) &amp; Chemistry for Majors I Laboratory (Fa)</td>
<td>CHEM 1223 &amp; CHEM 1221L</td>
<td>Chemistry for Majors II (Sp) &amp; Chemistry for Majors II Laboratory (Sp)</td>
</tr>
</tbody>
</table>

or

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Sequence 1</th>
<th>Sequence 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1103 &amp; CHEM 1101L</td>
<td>University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) (Su, Fa)</td>
<td>University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) (Sp, Su, Fa)</td>
<td></td>
</tr>
</tbody>
</table>

CHEM 2263 & CHEM 2261L | Analytical Chemistry Lecture (Sp, Fa) & Analytical Chemistry Laboratory (Sp, Fa) |
| CHEM 3504 | Physical Chemistry I (Fa) |
| CHEM 3512L | Physical Chemistry Laboratory (Sp) |
| CHEM 3514 | Physical Chemistry II (Sp) |
| CHEM 3703 & CHEM 3702L | Organic Chemistry I Lecture for Chemistry Majors (Fa) & Organic Chemistry I Lab for Chemistry Majors (Fa) |
| CHEM 3713 & CHEM 3712L | Organic Chemistry II Lecture for Chemistry Majors (Sp) & Organic Chemistry II Lab for Chemistry Majors (Sp) |
| CHEM 4123 | Advanced Inorganic Chemistry I (Fa) |
| CHEM 4213 | Instrumental Analysis (Sp) |
| CHEM 4211L | Instrumental Analysis Laboratory (Sp) |
| CHEM 4723 | Experimental Methods in Organic Chemistry (Fa) |

And at least one additional Advanced Lecture course is required. 3

A minimum of 18 hours of science outside of chemistry are required, including math through:

MATH 2574 | Calculus III (ACTS Equivalency = MATH 2603) (Sp, Su, Fa) (Mathematics through MATH 2574) |

and physics through:

PHYS 2074 | University Physics II (ACTS Equivalency = PHYS 2044 Lecture) (Sp, Su, Fa) (Physics through PHYS 2074) |

These mathematics and physics courses are prerequisites for some advanced courses and should be scheduled early in the student’s program. Some work in the biological sciences is recommended.

This program meets the minimum requirements for certification by the American Chemical Society if CHEM 3813 (or CHEM 4813H/CHM 4843H or CHEM 5813/CHEM 5843) is included.

Writing Requirement: Chemistry majors will satisfy the Fulbright College writing requirement by satisfactory completion of the formal research/analytical reports required in Physical Chemistry Laboratory, CHEM 3451L or CHEM 3512L.

---

**Chemistry B.S. Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area. Students must complete at least 124 hours and this must be considered when scheduling upper-level hours in the senior year.

This program meets the minimum requirements for certification by the American Chemical Society if CHEM 3813 (or CHEM 4813H/CHM 4843H or CHEM 5813/CHEM 5843) is included.

</table>
CHEM 3713 & CHEM 3712L (Sp)  Organic Chemistry II Lecture for Chemistry Majors and Organic Chemistry II Lab for Chemistry Majors (Sp)

CHEM 3514 & CHEM 3512L (Sp)  Physical Chemistry II (Sp) and Physical Chemistry Laboratory (Sp)

CHEM 4213 & CHEM 4211L (Sp)  Instrumental Analysis (Sp) and Instrumental Analysis Laboratory (Sp)

and either:

CHEM 4853  Biochemical Techniques (Sp)

Or completion of a senior thesis based on independent research wherein at least one credit hour is earned in:

CHEM 400V  Chemistry Research (Sp, Su, Fa)

during each of 3 different semesters.

Select six hours from one of the following sequences:

CHEM 5813 & CHEM 5843
CHEM 4813H & CHEM 4843H
CHEM 3813 & CHEM 4723

MATH 2554  Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa)  4

MATH 2564  Calculus II (ACTS Equivalency = MATH 2505) (Sp, Su, Fa)  4

PHYS 2054  University Physics I (ACTS Equivalency = PHYS 2034) (Sp, Su, Fa) (With Lab Component)  4

PHYS 2074  University Physics II (ACTS Equivalency = PHYS 2044 Lecture) (Sp, Su, Fa) (With Lab Component)  4

11 hours from the Biological Sciences to include:

BIOL 1543 & BIOL 1541L (Sp, Su, Fa)  Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa) and Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) (Sp, Su, Fa)

BIOL 2533 & BIOL 2531L (Sp, Fa)  Cell Biology (Sp, Fa) and Cell Biology Laboratory (Sp, Fa)

And one additional lecture course numbered above 3000.

The mathematics and physics courses are prerequisites for some advanced courses and should be scheduled early in the student's program.

Total Hours  70-72

The mathematics and physics courses are prerequisites for some advanced courses and should be scheduled early in the student's program.

Writing Requirement: Chemistry majors will satisfy the Fulbright College writing requirement by satisfactory completion of the formal research/analytical reports required in Physical Chemistry Laboratory, CHEM 3451L or CHEM 3512L.

Chemistry B.S. with Biophysical Option Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.

Requirements for a B.S. degree with a Major in Chemistry, Biochemistry Concentration: In addition to the University Core (p. 81) requirements and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183) (see College Academic Regulations and Degree Completion Policy (p. 73)), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

A Minimum of 38 Semester Hours in Chemistry including:

One of the following sequences of courses: 8

| CHEM 1203 Chemistry for Majors I (Fa) & CHEM 1201L Chemistry for Majors I Laboratory (Fa) |
| and |

| CHEM 1223 Chemistry for Majors II (Sp) & CHEM 1221L Chemistry for Majors II Laboratory (Sp) |

or

| CHEM 1103 University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) (Su, Fa) & CHEM 1101LCHEM 1414 Lecture) (Su, Fa) and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab) (Sp, Su, Fa) |
| and |

| CHEM 1123 University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) (Sp, Su, Fa) & CHEM 1121LCHEM 1424 Lecture) (Sp, Su, Fa) and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa) |

and

| CHEM 2263 Analytical Chemistry Lecture (Sp, Fa) & CHEM 2261L Analytical Chemistry Laboratory (Sp, Fa) |

Select from the following: 4 - 10

| CHEM 3504 Physical Chemistry I (Fa) |

and

| CHEM 3514 Physical Chemistry II (Sp) & CHEM 3512L Physical Chemistry Laboratory (Sp) |

or

| CHEM 3453 Elements of Physical Chemistry (Fa) & CHEM 3451L Elements of Physical Chemistry Laboratory (Fa) |

| CHEM 3703 Organic Chemistry I Lecture for Chemistry Majors (Fa) & CHEM 3702L and Organic Chemistry I Lab for Chemistry Majors (Fa) |

| CHEM 3713 Organic Chemistry II Lecture for Chemistry Majors (Sp) & CHEM 3712L and Organic Chemistry II Lab for Chemistry Majors (Sp) |

Either 3

| CHEM 4853 Biochemical Techniques (Sp) |

Or completion of a senior thesis based on independent research wherein at least 1 credit hour is earned in CHEM 400V (chemistry research) and/or CHEM 498V (senior thesis) during each of 3 different semesters.

One of the following sequences: 6

| CHEM 4813H and CHEM 4843H |

| CHEM 3813 and CHEM 4723 |

| CHEM 4213 Instrumental Analysis (Sp) & CHEM 4211L Instrumental Analysis Laboratory (Sp) |

or

| CHEM 4123 Advanced Inorganic Chemistry I (Fa) |

Additional Required Courses to Include:

| MATH 2554 Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa) |

| MATH 2564 Calculus II (ACTS Equivalency = MATH 2505) (Sp, Su, Fa) |

Select one of the following physics sequences: 8

| PHYS 2013 College Physics I (ACTS Equivalency = PHYS 2011 Lecture) (Su, Fa) & PHYS 2011L 2014 Lecture) (Su, Fa) and College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab) (Su, Fa) |

and

| PHYS 2033 College Physics II (ACTS Equivalency = PHYS 2031 Lecture) (Sp, Su) & PHYS 2031L 2024 Lecture) (Sp, Su) and College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab) (Su) |

or

| PHYS 2054 University Physics I (ACTS Equivalency = PHYS 2034) (Sp, Su, Fa) (With Lab Component) |

and

| PHYS 2074 University Physics II (ACTS Equivalency = PHYS 2044 Lecture) (Sp, Su, Fa) (With Lab Component) |

15 Hours of Biological Sciences to include:

| BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa) & BIOL 1541L Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) (Sp, Su, Fa) |
| BIOL 2533 & BIOL 2531L | Cell Biology (Sp, Fa) and Cell Biology Laboratory (Sp, Fa) | 4 |
| BIOL 2013 & BIOL 2011L | General Microbiology (ACTS Equivalency = BIOL 2004 Lecture) (Sp, Su, Fa) and General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab) (Sp, Su, Fa) | 4 |
| BIOL 4233 | Genomics and Bioinformatics (Sp) or BIOL 2323 | 3 |

The mathematics and physics courses are prerequisites for some advanced courses and should be scheduled early in the student's program.

Total Hours: 69-76

**Writing Requirement:** Chemistry majors will satisfy the Fulbright College writing requirement by satisfactory completion of the formal research/analytical reports required in Physical Chemistry Laboratory, CHEM 3451L or CHEM 3512L.

### Chemistry B.S. with Biochemistry Option

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

This program meets the minimum requirements for certification by the American Chemical Society if CHEM 3813 (or CHEM 4813/H/CHEM 4843H) is included.

</table>

**Total Units in Sequence:** 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations on page 131 of this chapter.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations on page 131 of this chapter.
3. PHYS 2054 Calculus Based University Physics (pre- or co-requisite MATH 2554) and PHYS 2074 (pre- or co-requisite MATH 2564), is a better choice for students interested in graduate school.

### Requirements for a B.A. degree with a Major in Chemistry with Chemistry Concentration:

In addition to the University Core requirements and the Fulbright College of Arts and Sciences Graduation Requirements, the following course requirements must be met. Bolded courses from the list below may be applied to portions of the university/state minimum core requirements.

**Completion of a World Language Course at the 2003 Intermediate I level.**

**Select one of the following:**

- CHEM 1203 Chemistry for Majors I (Fa) & CHEM 1201L Chemistry for Majors I Laboratory (Fa) & CHEM 1223 and Chemistry for Majors II (Sp) & CHEM 1221L Chemistry for Majors II Laboratory (Sp)
- CHEM 1103 University Chemistry I (ACTS Equivalency = CHEM 1110L / CHEM 1414 Lecture) (Su, Fa) & CHEM 1123 and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1112L Equivalency = CHEM 1414 Lab) (Sp, Su, Fa) & University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa)

**CHEM 2263 Analytical Chemistry Lecture (Sp, Fa) & CHEM 2261L Analytical Chemistry Laboratory (Sp, Fa)**

**Select one of the following:**

- CHEM 3703 Organic Chemistry I Lecture for Chemistry Majors & CHEM 3702L (Fa) & CHEM 3713 and Organic Chemistry I Lab for Chemistry Majors & CHEM 3712L (Fa) & Organic Chemistry II Lecture for Chemistry Majors (Sp) & Organic Chemistry II Lab for Chemistry Majors (Sp)
- CHEM 3603 Organic Chemistry I (Su, Fa) & CHEM 3601L Organic Chemistry I Laboratory (Su, Fa) & CHEM 3613 and Organic Chemistry II (Sp, Su) & CHEM 3611L Organic Chemistry II Laboratory (Sp, Su)

**Select one of the following:**

- CHEM 3453 Elements of Physical Chemistry (Fa) & CHEM 3451L Elements of Physical Chemistry Laboratory (Fa)
- CHEM 3504 Physical Chemistry I (Fa) & CHEM 3514 and Physical Chemistry II (Sp) & CHEM 3512L Physical Chemistry Laboratory (Sp)

- Two Additional Lecture Courses Numbered Above 3000.

**Total Hours:** 30-36

1. PHYS 2033/PHYS 2031L and MATH 2554 or MATH 2043 are prerequisites for CHEM 3453
2. PHYS 2074 and MATH 2574 are prerequisites for the alternate physical chemistry course sequence CHEM 3504 and CHEM 3514/CHEM 3512L.

These physics and mathematics prerequisite requirements are substantial, and these courses and their prerequisites should be scheduled early in the student’s program. Sample schedules may be obtained from the department of chemistry and biochemistry. Prospective students should consult a departmental adviser.
Writing Requirement: Chemistry majors will satisfy the Fulbright College writing requirement by satisfactory completion of the formal research/analytical reports required in Physical Chemistry Laboratory, CHEM 3451L or CHEM 3512L.

Chemistry B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence:  &  120  

\(^1\) Meets 40-hour advanced credit hour requirement. See College Academic Regulations.  
\(^2\) Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.  
\(^3\) Depends on placement; MATH 2043 Survey of Calculus is another option for this degree. Student may also choose to take MATH 1284C Precalculus in Fall Semester 1 and MATH 2554 Calculus in Spring Semester 1. Another option is to complete MATH 1203 in Fall Semester 1 and MATH 2043 Survey of Calculus in Spring Semester 1.

### Requirements for a B.A. degree with a Major in Chemistry with Biochemistry Concentration

In addition to the University Core requirements and the Fulbright College of Arts and Sciences Graduation Requirements (see College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

A minimum of 32 semester hours in chemistry including:

Select one of the following:  &  8  
CHEM 1203 Chemistry for Majors I (Fa)  &  
\& CHEM 1201L and Chemistry for Majors I Laboratory (Fa)  &  
\& CHEM 1223 and Chemistry for Majors II (Sp)  &  
\& CHEM 1221L and Chemistry for Majors II Laboratory (Sp)  &  
CHEM 1103 University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) (Su, Fa) (CHEM 1101L, CHEM 1123, CHEM 1121L)  &  
CHEM 2263 Analytical Chemistry Lecture (Sp, Fa)  &  4  
\& CHEM 2261L and Analytical Chemistry Laboratory (Sp, Fa)  &  
Select one of the following:  &  4-10  
CHEM 3453 Elements of Physical Chemistry (Fa)  &  
\& CHEM 3451L and Elements of Physical Chemistry Laboratory (Fa)  &  
CHEM 3504 Physical Chemistry I (Fa)  &  
\& CHEM 3514 and Physical Chemistry II (Sp)  &  
\& CHEM 3512L and Physical Chemistry Laboratory (Sp)  &  
Select one of the following:  &  8  
CHEM 3603 Organic Chemistry I (Su, Fa)  &  
\& CHEM 3601L and Organic Chemistry I Laboratory (Su, Fa)  &  
\& CHEM 3613 and Organic Chemistry II (Sp, Su)  &  
\& CHEM 3611L and Organic Chemistry II Laboratory (Sp, Su)  &  
CHEM 3703 Organic Chemistry I Lecture for Chemistry Majors  &  
\& CHEM 3702L (Fa)  
\& CHEM 3713 and Organic Chemistry I Lab for Chemistry Majors  &  
\& CHEM 3712L (Fa)  
\& CHEM 3713 and Organic Chemistry II Lecture for Chemistry Majors  &  
\& CHEM 3712L (Fa)  
\& CHEM 3713 and Organic Chemistry II Lab for Chemistry Majors (Sp)  &  
\& CHEM 498V (senior thesis) during each of 3 different semesters.

Select one of the following:  &  6-7  
CHEM 5813-5843 (same as CHEM 4813H-4843H)  &  
CHEM 3813 Elements of Biochemistry (Sp, Su, Fa)  &  
\& CHEM 4213 and Instrumental Analysis (Sp)  &  
\& CHEM 4211L and Instrumental Analysis Laboratory (Sp)  &  
CHEM 3813 Elements of Biochemistry (Sp, Su, Fa)  &  
\& CHEM 4123 and Advanced Inorganic Chemistry I (Fa)  &  
CHEM 3813 Elements of Biochemistry (Sp, Su, Fa)  &  
\& CHEM 4723 and Experimental Methods in Organic Chemistry (Fa)  &  
MATH 2554 Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su)  &  4  
or MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)  &  
Select one of the following:  &  8  
PHYS 2013 College Physics I (ACTS Equivalency = PHYS & PHYS 2011L 2014 Lecture) (Su, Fa)  &  
\& PHYS 2033 and College Physics I Laboratory (ACTS & PHYS 2031L Equivalency = PHYS 2014 Lab) (Su, Fa)  &  
\& PHYS 2034 and College Physics II (ACTS Equivalency = PHYS 2024 Lecture) (Sp, Su)  &  
\& College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab) (Su)  &  
PHYS 2054 / PHYS 2074  
Four courses from the Biological Sciences (at least 3 hours of which must be upper-level courses)  &  11  
Completion of a World Language Course at the 2003 Intermediate I Level.  &  
Total Hours  &  56-63  

The mathematics and physics courses are prerequisites for some advanced courses and should be scheduled early in the student’s program.

**Writing Requirement:** Chemistry majors will satisfy the Fulbright College writing requirement by satisfactory completion of the formal research/analytical reports required in Physical Chemistry Laboratory, CHEM 3451L or CHEM 3512L.

### Chemistry B.A. with Biochemistry Option

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. The following eight-semester plan refers to additional B.A. Core requirement hours may vary
by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

University/State Core Fine Arts or Humanities requirement

University/State Core Social Science requirement

CHEM 2263 Analytical Chemistry Lecture (Sp, Fa) & CHEM 2261L Analytical Chemistry Laboratory (Sp, Fa)
Chemistry (B.A. or B.S.) Physical/Earth Science Teacher Licensure Requirements: Students wanting to pursue licensure through the MAT program should please refer to the Secondary Education Requirements for Fulbright College Students. Students wishing to pursue licensure through the UAteach undergraduate curriculum should consult with a UAteach adviser, uteach@uark.edu.

Students wanting to teach science in middle school should consult with a middle level adviser in the College of Education and Health Professions.

http://fulbright.uark.edu/departments/world-languages/undergraduate/our-languages/classics.php

The Classical Studies Program offers a major leading to a Bachelor of Arts degree. The program also offers a minor in classical studies.

Classical studies are the oldest discipline in the humanities and will teach you a lot about why our world is the way it is. Based on the Greek and Latin literature, the Classics remain essential to many fields in the liberal arts, including the study of ancient art, architecture, history, mythology, and philosophy. Based on Greek and Latin literature, the program draws faculty from five different departments. In addition to Greek and Latin, courses are offered on various aspects of classical civilization. Study abroad options in Greek and Italy are available.

**Requirements for a Major in Classical Studies:** In addition to the University Core (p. 81) requirements and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following departmental and major course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

<table>
<thead>

</tr>
</tbody>
</table>

**Student should also complete appropriate courses from the following:**
15 hours of Ancient Greek or 15 hours of Latin. 15
18 hours of additional work in classical languages and/or specific classical studies-related electives, to be selected from the following courses: 3

- ARCH 2233 History of Architecture I (Fa)
- ARHS 4833 Ancient Art (Irregular) (prerequisite ARHS 2913 Art History Survey I)
- ARHS 4843 Medieval Art (Irregular) (prerequisite ARHS 2913 Art History Survey I)
- CLST 2323 Greek and Roman Mythology (Irregular)
- CLST 4003H Honors Classical Studies Colloquium (Sp)

Total Hours 54

1 Honors students who complete the HUMN 1114H, HUMN 1124H, HUMN 2114H, HUMN 2124H (H2P) sequence will have fulfilled the World Civilization HIST 1113 and HIST 1123 requirement for this major as well as the major's 6-hour Humanities requirement (equivalent of WLIT 1113 and WLIT 1123).

2 This fulfills 6 hours of social science university/state core; the remaining 3 hours in the social science core must be fulfilled by a non-HIST social science university/state core course.

3 No more than nine hours of electives from the medieval period may be applied to the major requirements.

Classical Studies B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

3. Three hours of a classical studies colloquium (CLST 4003H).

### Requirements for Honors in Classical Studies:

The Honors Program in Classical Studies gives students of high ability the opportunity to strengthen their study of classics by intensifying their experience with ancient languages and cultures.

In addition to the requirements for graduation with a major in classical studies and the general college requirements for a B.A. degree, honors candidates in classical studies must

1. Be accepted as honors candidates by the Classical Studies Committee,
2. Complete at least three semesters in a second classical language,
3. Enroll in at least two 1-hour units of CLST 399VH and pursue independent-study topics under the guidance of classical studies faculty,
4. Enroll for two hours of CLST 399VH and write an honors thesis, and
5. Defend and discuss their entire honors program in an oral examination.

Successful completion of the requirements will be recognized by the award of the distinction “Classical Studies Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

The Department of Communication offers a major leading to Bachelor of Arts degree in communication as well as a minor in communication.

As a subject for academic study, communication bridges the humanities and the social sciences. It focuses on relationships – personal, group, and societal – and the factors and processes that affect important relationships. Friendships and families, business relationships and political systems, cultural interaction and technological advances are important areas of study in communication. Communication students may concern themselves with the dynamics of interpersonal persuasion, the effects of media technologies, the nature of gender stereotypes, the function of roles within the family, the structure of organizational authority, the influence of cultural myths, the impact of social movements, and the history of rhetoric. Because the program offers many diverse interests, there is a place for anyone with a genuine curiosity about human communication and its effect upon society.

Communication majors from recent graduating classes now hold responsible positions in government and public affairs, in management, marketing, and public relations within private business, and in television and mass media organizations. Many others are successfully pursuing further education in graduate and professional schools.

The department of communication offers general studies of the discipline, as well as concentration in three specific emphasis areas:
1. Rhetoric and public communication,
2. Interpersonal, small group, and organizational communication, and

Students may also select a program for acquisition of teaching certification in the field.

Admission Requirements for a Major in Communication: For standing as a major, entering freshmen must have ACT composite scores of 20 or higher, and those transferring into the program after the first semester of college study must have a cumulative grade-point average of 2.00 or higher.

University and College Requirements for a Major in Communication: In addition to the university/state core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (see under College Academic Regulations and Degree Completion Policy (p. 183)), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

* These courses are highly recommended.

3-6 hours – Completion of a world language course at the 2003 Intermediate I level is preferred. (This is usually accomplished through completion of a sequence of two language courses: 1013 and 2003.) Alternatively, 6 hours of courses from a single culture or world region including African, Asian, European, Latin American and Latino, or Middle Eastern and Islamic may be used to fulfill this requirement. Courses must be approved by a departmental adviser.

9 hours – Fine arts and Humanities courses to include: COMM 1003, one additional University/state fine arts core course, and one University/state humanities core course

42 hours – Communication courses:

Total Hours 42

* With a minimum grade of “C”.

Communication courses that may satisfy the college or University Core requirements will not count toward the communication electives. To graduate, students must have a cumulative grade-point average of 2.00 or above within the major.
Writing Requirement: The college writing requirement may be satisfied by a research paper achieving a grade of "C" or better submitted for an upper-division communication class and approved by the chair of the department.

Communication B.A.
Eight-Semester Degree Program
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).

Meet 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Requirements for a Minor in Communication: 21 hours including at least 12 hours must be numbered 3000 or above. A student should consult with an adviser in the department for appropriate courses.

Requirements for Honors in the Department of Communication: The Honors Program in communication gives an opportunity for a student to achieve an additional level of intellectual growth and a satisfaction of accomplishment. A student engages in independent research and writing, under the supervision of a member of the communication faculty, and participates in special honors classes, seminars, and colloquia.

Faculty recognize outstanding achievement by a student by recommending that the bachelor's degree in communication be awarded with the distinction “Communication Scholar Cum Laude.” Higher distinctions may be awarded to truly outstanding students based upon the whole of their academic program and quality of honors research.

To enter the Honors Program, a student must possess a 3.5 minimum grade-point average on all academic work and receive the recommendation of a faculty member in communication to the Honors Council of Fulbright College. A student may pursue an independent research program of a historical, critical, descriptive, or experimental nature, within any of the areas of rhetorical or communication theory, history of public address, interpersonal, small-group, or organizational communication, persuasion, argumentation, political communication, freedom of speech, communication education, or in any closely related areas of inquiry. A student interested in mass communications, broadcasting, or film may choose to pursue either a research project or a creative study. In addition to satisfying the general college and departmental requirements for a bachelor's degree, a student must satisfy departmental honors requirements, which include the following:

1. Become an honors candidate no later than the junior year of study. Students are encouraged to establish honors candidacy as early as possible.
2. Enroll in COMM 3991H no later than the junior year of study.
3. Enroll in COMM 499VH a minimum of one hour of credit each semester after the completion of COMM 3991H and until completion of the honors thesis.
4. Achieve a 3.5 minimum grade-point average in communication
5. Complete 12 hours (which may include 6 hours of thesis) in Honors Studies, and
6. Write and successfully defend before a faculty examining committee a thesis based on the investigative or creative project undertaken in COMM 499VH.

For a full description of the Honors Program and its requirements, consult with the Undergraduate Director in the Department of Communication.

Communication (B.A.) Drama/Speech Teacher Licensure Requirements: Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students in the "Other Programs" section of the page.

The Department of Sociology offers a major leading to a Bachelor of Arts degree in criminal justice. The program in criminal justice is designed to prepare candidates for a variety of entry-level positions in criminal justice and to enable experienced personnel to expand their knowledge and skills. Drawing on a strong interdisciplinary base in the social sciences, the program provides education in the complexities of human behavior and problems of interpersonal relations in an increasingly urbanized America. The overall goal of the program is to enable men and women to contribute to the development and implementation of a fair and effective system of criminal justice.

Requirements for the B.A. Degree with Major in Criminal Justice: Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 81), the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), and the following major course requirements. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

Select one of the following: 3-4

Three hours of a world language at the 1013 Elementary II level or higher 3

A minimum of 37 additional semester hours to include: 37

2
CMJS 2003  Introduction to Criminal Justice (ACTS Equivalency = CRJU 1023) (Sp, Su, Fa)  
SOCI 2013  General Sociology (ACTS Equivalency = SOCI 1013) (Sp, Su, Fa)  
CMJS 2043  Criminal Law and Society (Sp, Fa)  
CMJS/SOCI 3023  Criminology (Sp, Fa)  
CMJS 3043  The Police and Society (Sp, Fa)  
CMJS/SOCI 3203  Corrections (Sp, Fa)  
SOCI 3301L  Social Data and Analysis Laboratory (Sp, Fa)  
SOCI 3303  Social Data and Analysis (Sp, Fa)  
SOCI 3313  Social Research (Sp, Fa)  
12 hours of 3000- and 4000-level criminal justice or sociology courses not taken above  

Total Hours  46-47  

For transfer students, a minimum of 18 hours of coursework in the major at the University of Arkansas is required.  

Writing Requirement: To fulfill the Fulbright College writing requirement, each criminal justice major will submit, prior to graduation, a substantial research or analytical paper, with a grade of “A” or “B” from an upper-division criminal justice course (3000-, 4000-, or 5000-level) to their departmental adviser. Satisfactory completion of an honors project or a senior thesis may fulfill this requirement.  

Criminal Justice B.A.  
Eight-Semester Degree Program  
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

### Requirements for a Minor in Criminal Justice:
18 semester hours in criminal justice and sociology to include CMJS 2003, CMJS 3023, SOCI 3313, and at least nine hours of 3000-level classes or above (no more than 3 hours may be SOCI). A student must notify the department of her or his intent to minor.

### Requirements for Departmental Honors in Criminal Justice:
The Departmental Honors Program in Criminal Justice is an upper-division course of study based on a topic in the area of criminal justice. To be eligible for criminal justice honors candidacy, students normally will have completed 28 semester hours and not more than 85 semester hours with a minimum cumulative grade-point average of 3.5. They must take 12 hours (which may include 6 hours of thesis) in Honors Studies. The honors project may be an intensive study of a topic in criminal justice or an empirical research investigation. The candidate is expected to pass an oral examination given by an Honors Council Committee. Projects of extraordinarily high quality may be designated High Honors by the Committee. Successful completion of the requirements will be recognized by the award of the distinction Criminal Justice Scholar cum laude at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

### Earth Science (ERSC)
Fulbright College offers a major in earth science leading to the Bachelor of Science degree. Prospective secondary teachers may plan a program, in cooperation with the College of Education, which will satisfy the teacher licensure requirements. Students interested in environmental problems, teaching earth science in public schools, or wishing to pursue graduate work in either geography or geology will obtain much of the necessary foundation through this degree. Because the program outlined below lists only minimum science requirements, it is expected that most students will use some of their elective credit hours to strengthen their mathematics and science backgrounds in areas other than geography and geology. These areas of additional study will be determined through consultation between the student and the adviser. Students interested in this major should contact either Professor Ralph Davis or Professor J.C. Dixon.

### Requirements for the B.S. Degree with a Major in Earth Science:
In addition to the University Core (p. 81) requirements and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

#### Basic Courses

<table>
<thead>
<tr>
<th>Biology</th>
<th>8</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chemistry or Physics</td>
<td>8</td>

</tr>
<tr>
<td>GEOS 1133 &amp; GEOS 1131L</td>
<td>Earth Science (ACTS Equivalency = GEOL 1124 Lecture) (Sp, Fa) and Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab) (Sp, Fa)</td>
</tr>
</tbody>
</table>

Select one of the following: 3-4

| MATH 2043 | Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa) |
| MATH 2053 | Finite Mathematics (Sp, Su, Fa) |
| MATH 2183 | Mathematical Reasoning in a Quantitative World (Sp, Fa) |
| MATH 2554 | Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa) |

6 hours in a single world language at the 1013 Elementary II level or higher 1

| ASTR 2003 & ASTR 2001L | Survey of the Universe (ACTS Equivalency = PHSC 1204 Lecture) (Sp, Su, Fa) and Survey of the Universe Laboratory (ACTS Equivalency = PHSC 1204 Lab) (Sp, Su, Fa) |

#### Advanced Courses

| GEOS 3023 | Introduction to Cartography (Fa) |
| GEOS 3043 | Sustaining Earth (Sp, Su, Fa) |
| GEOS 4353 & GEOS 4363 | Meteorology (Fa) or Climatology (Sp) |
| GEOS 2313 | Mineralogy and Petrology (Fa) |
| GEOS 3413 | Sedimentary Rocks & Fossils (Sp) |
| GEOS 4033 | Hydrogeology (Sp) |
| GEOS 4924 | Earth System History (ACTS Equivalency = PHSC 1104) (Sp) |

At least 6 additional hours, at the 3000 level or above, in GEOS. 6

Total Hours 65-66

1. World language courses taken are dependent on placement level in sequence.

### Writing Requirement:
The college writing requirement is to be met by completion of a term paper deemed satisfactory by the student’s adviser.
and instructor of an upper-level geoscience course. The college writing requirement may also be met by the completion of an honors thesis.

**Earth Science B.S.**  
**Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Department of Economics website (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/williamfulbrightcollegeofartsandsciences/economicsecon%20http://waltoncollege.uark.edu/ECON/default.asp)

Students in Fulbright College may pursue one of two degree plans leading to a Bachelor of Arts degree in economics. The first is a traditional major in business economics and the second includes a concentration in international business and economics.

The concentration in business economics is intended for those students who are interested primarily in business, but at the same time have a desire to understand the more advanced tools of economic analysis. Such a background is excellent preparation for careers in corporate research and planning, as well as careers with government and regulatory agencies, for graduate study in business and economics, and for law school.

The international economics and business concentration is intended for students who wish to learn more about the international aspects of economics and business. It provides preparation for a broad range of careers in business, including management, marketing, and finance.

Requirements for a Major in Economics
In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

30 hours of ECON courses including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 2013</td>
<td>Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa)</td>
<td></td>
</tr>
<tr>
<td>ECON 2023</td>
<td>Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa)</td>
<td></td>
</tr>
<tr>
<td>ECON 3033</td>
<td>Microeconomic Theory (Sp, Su, Fa)</td>
<td></td>
</tr>
<tr>
<td>ECON 3133</td>
<td>Macroeconomic Theory (Sp, Fa)</td>
<td></td>
</tr>
<tr>
<td>Choose two of the following three courses:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ECON 4743</td>
<td>Introduction to Econometrics (Sp) or ECON 4753 Forecasting (Fa) or ECON 4033 History of Economic Thought (Sp)</td>
<td>12</td>
</tr>
</tbody>
</table>

12 hours of ECON Electives

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 1313</td>
<td>Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa)</td>
<td></td>
</tr>
</tbody>
</table>

Select one of the following: 4-6

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2043</td>
<td>Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)</td>
<td></td>
</tr>
<tr>

<td></td>
</tr>
<tr>
<td>or STAT 2303</td>
<td>Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)</td>
<td></td>
</tr>
</tbody>
</table>

Note: It is strongly recommended that economics majors who plan to continue their studies at the graduate level take at least two semesters of calculus (MATH 2554 and MATH 2564) and linear algebra (MATH 3083).

Writing Requirement: Students may satisfy their senior writing requirement with a paper in any 3000 or 4000-level ECON class. A student must inform their professor in writing by the end of the second week of class that they would like to use a particular course to fulfill this requirement. Work cannot involve a group project, and students must have senior standing. Completion of an honors thesis will also satisfy this requirement.

Economics B.A.
Eight-Semester Degree Program
Students wishing to follow the eight-semester degree plan should see the Eight Semester Degree Policy (p. 73) for requirements. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Requirements for a Major in Economics with Concentration in International Economics and Business

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Thirty Semester Hours of Courses, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 2023 Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 3033 Microeconomic Theory (Sp, Su, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 3133 Macroeconomic Theory (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 4633 International Trade (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 4643 International Macroeconomics and Finance (Sp, Fa)</td>
<td>3</td>
</tr>
</tbody>
</table>

Twelve hours of international economics and business electives that may be selected from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 3843 Economic Development, Poverty &amp; the Role of the World Bank and IMF in Low-Income Countries (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 3853 Emerging Markets (Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 3933 The Japanese Economic System (Sp)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 410V Special Topics in Economics (Irregular)</td>
<td>1-6</td>
</tr>
<tr>
<td>ECON 468V International Economics and Business Seminar (Irregular)</td>
<td>1-6</td>
</tr>
</tbody>
</table>
Course pre-requisites for non-economics international business courses will count toward this 12-hour requirement and include FINN 3703, MGMT 4583, MKTG 4633 and SCMT 3643. Thus, if a student wants to take MKTG 4633 as an international economics and business elective, the student must also take the prerequisite MKTG 3433. These two courses would then satisfy 6 hours of the elective requirement.

9 hours of upper-division course work in the world language, which might include upper-division courses in the same language, which should emphasize literature or cultural topics. Courses must be approved by the departmental adviser. Students who meet the requirements of the Fulbright College area studies programs in Asian Studies, Middle East Studies, Latin American and Latino Studies, or European Studies will be considered to have fulfilled this requirement.

Select one of the following sequences:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2043</td>
<td>Survey of Calculus (ACTS Equivalency = MATH 2203)</td>
<td>3</td>
</tr>
<tr>
<td>&amp; MATH 2053</td>
<td>and Finite Mathematics (Sp, Su, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>MATH 2554</td>
<td>Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>&amp; MATH 2564</td>
<td>Calculus II (ACTS Equivalency = MATH 2505) (Sp, Su, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>COMM 1313</td>
<td>Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa)</td>
<td>3</td>
</tr>
</tbody>
</table>

Nine hours of Business/Stat courses to include:

- WCOB 1033 Data Analysis and Interpretation (Sp, Su, Fa)
- ACCT 2013 Accounting Principles (Sp, Su, Fa)
- ACCT 2023 Accounting Principles II (Sp, Su, Fa)
- MGMT 2053 Business Foundations (Sp, Su, Fa)
- ECON 4743 Introduction to Econometrics (Sp)
- ECON 4753 Forecasting (Fa)

Six hours of a World Language at the intermediate level, or above.

Three hours of upper-division world language in the same language covering business communications, or equivalent. Any student whose minimum 6-hour requirement under (#6) above includes an upper-division course may choose to include business communications among the 6 hours of required University course work in the world language.

<table>
<thead>
<tr>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>65-75</td>
</tr>
</tbody>
</table>

Note: It is strongly recommended that economics majors who plan to continue their studies at the graduate level take at least two semesters of calculus (MATH 2554 and MATH 2564) and linear algebra (MATH 3083).

Writing Requirement: Students may satisfy their senior writing requirement with a paper in any 3000 or 4000-level ECON class. A student must inform their professor in writing by the end of the second week of class that they would like to use a particular course to fulfill this requirement. Work cannot involve a group project, and students must have senior standing. Completion of an honors thesis will also satisfy this requirement.

**Economics B.A. with Concentration in International Economics and Business**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program.

Total Units in Sequence: 120

**Requirements for a Minor in Economics:** 18 hours in economics. Required courses are ECON 3033 Microeconomic Theory, and ECON 3133 Microeconomic Theory, plus 12 additional hours in economics, six of which must be in courses numbered 3000 or above.

**Requirements for Departmental Honors in Economics:** The Departmental Honors program provides upper-division students the opportunity to engage in independent study or research under the guidance of an individual member of the faculty. In addition to satisfying the general college requirements for the bachelor’s degree with honors, honors candidates in economics are required to complete and orally defend an honors thesis based upon independent study under ECON 399VH (for 3 to 6 hours) and to have a minimum grade-point average of 3.5. Outstanding student achievement will be recognized by awarding the bachelor’s degree with the distinction “Economics Scholar Cum Laude.” Higher distinctions may be awarded to truly outstanding students based upon the whole of their academic program and quality of honors research.

Some courses in the Walton College of Business are given credit toward an economics major for the B.A. degree. See departmental adviser for designation.

**Economics (B.A.) Social Studies Teacher Licensure Requirements:**

Please refer to the Secondary Education Requirements for Fulbright College Students (p. 186). Students wanting to teach social studies in middle school should consult with a middle level adviser in the College of Education and Health Professions.

**English (ENGL) Faculty**

- Constance Bailey, Assistant Professor
- Grant Bain, Instructor
- M. Keith Booker, Professor
- Geoffrey Arthur Brock, Professor
- Sidney J. Burris, Professor
- Joseph D. Candido, Professor
- Robert Brady Cochran II, Professor
- Jeffery Davis, Assistant Professor
- Sean A. Dempsey, Assistant Professor
- Elías Dominguez Barajas, Associate Professor
- John Tabb DuVal, Professor
- James S. Gamble, Instructor
- Ellen Louise Gilchrist, Clinical Professor
- Laura Virginia Gray, Instructor
- LewEllyn Hallett, Instructor
- Allison Hammond, Instructor
- Michael Joseph Heffernan, Professor
- Lisa Hinrichsen, Associate Professor
- Toni Jensen, Assistant Professor
- David Alton Jolliffe, Professor, Brown Chair in English Literacy
- Mohja Kahf, Associate Professor
- Casey Lee Kayser, Assistant Professor
- Mary Beth Long, Visiting Assistant Professor
- Raina Smith Lyons, Instructor
- Karen Madison, Instructor
- Susan M. Marren, Associate Professor
- Davis McCombs, Associate Professor
- Yajaira Padilla, Associate Professor
- Adam Pope, Visiting Assistant Professor
- William A. Quinn, Professor
- Robin Roberts, Professor
- Patrick Joseph Slattery, Associate Professor
- Joshua Byron Smith, Assistant Professor
- Leigh Pryor Sparks, Instructor
- Dorothy Anne Stephens, Professor
- Lissette López Szwydky-Davis, Assistant Professor
- Sean Kicummah Teuton, Associate Professor

engl@uark.edu (English@cavern.uark.edu)

The Department of English offers a major in English, a minor in English, and a combined major in English and Journalism.

Contrary to popular opinion, English majors do quite well on the general job market. Businesses know that in addition to being good communicators, English majors are trained to approach problems creatively and from multiple angles. Through careful course selection, the student may prepare for postgraduate work in literature and language; meet the English requirements for secondary teaching licensure; develop writing skills; or receive preparation for careers outside academia (including law and business). Within the major, a student may explore many areas of special interest, such as composition pedagogy, creative writing, gender studies, literature of the American south, film as text, folklore, postcolonial literature, and literature in English by Native American, African American, Arab American, and Latino/Latina American authors, as well as the more traditional historical fields of English and American literature. All of these areas help students develop the broad, deep, flexible understanding of human expression that will help them for the rest of their lives — both culturally and in practical terms.

Requirements for B.A. in English

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met.

Bolded course(s) from the list below may be applied to portions of the University Core requirements.

**English majors are required to complete the following:**

<table>
<thead>
<tr>
<th>The 35-hour University Core</th>

</tbody>
</table>

1. This is usually accomplished through completion of a sequence of three world language courses: 1013, 2003 and 2013.
2. Not counting ENGL 0002, ENGL 1013, ENGL 1023, and ENGL 2003.

All English majors are strongly encouraged to complete a minor or a second major in one of the following: African and African American Studies, Anthropology, Art History, Classical Studies, Communication, Drama, European Studies, Gender Studies, History, Indigenous Studies,
Journalism, Latin American Studies, Legal Studies, Medieval and Renaissance Studies, Middle East Studies, Music, Philosophy, Political Science, Psychology, Religious Studies, or in a world language (Arabic, French, German, Japanese, Russian, Spanish or any other language that offers a minor).

English majors are strongly encouraged to fill their elective hours with courses from the departments or programs of study listed above.

Note About Transfer Credit: In order to receive a B.A. in English from the University of Arkansas, a student must take at least 24 hours of credit at the 3000 or 4000-level in this department.

Writing Requirement: All upper-division English courses require a research or an analytical paper except ENGL 4003 and the courses in creative writing (ENGL 3013, ENGL 4013, ENGL 4023, ENGL 4073). For this reason all students who fulfill the requirements for a major in English thereby fulfill the Fulbright College writing requirement. In addition, 4000-level courses (except for those noted above) require more intensive research by, and more active participation from, students than 3000-level courses do and require each student to complete a paper that can be included as a writing sample with applications to graduate programs or professional schools.

Assessment Requirement: Every senior English major must take the program assessment exam administered by the department each spring semester to graduate. Exam results will not affect GPA, although the student’s score will be noted on his or her permanent academic record. This requirement may be waived in extraordinary circumstances by the department’s Director of Undergraduate Studies. Contact your adviser for more information.

English B.A. Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

</table>

Select one from one of the following remaining survey courses:

- ENGL 2313: Survey of English Literature from 1700 to 1900 (ACTS Equivalency = ENGL 2683) (Sp, Fa) 3
- ENGL 2323: Survey of Modern and Contemporary British, Irish, and Postcolonial Literature (Sp, Fa) 3
- ENGL 2343: Survey of American Lit from the Colonial Period through Naturalism (ACTS Equiv=ENGL 2653) (Sp, Fa) 3
- ENGL 2353: Survey of Modern and Contemporary American Literature (ACTS Equivalency = ENGL 2663) (Sp, Fa) 3

Total Hours: 12

**Group B**

Select one of the following:

- ENGL 3713: Topics in Medieval Literature and Culture (Irregular) 3
- ENGL 3723: Topics in Renaissance Literature and Culture (Irregular) 3
- ENGL 3733: Topics in Restoration and Eighteenth-Century Literature and Culture (Irregular) 3
- ENGL 3743: Topics in Nineteenth-Century British Literature and Culture (Irregular) 3
- or ENGL 3753: Topics in Modern and Contemporary British Literature and Culture (Irregular) 3

Select one of the following:

- ENGL 3833: Topics in American Literature and Culture to 1900 (Irregular) 3
- ENGL 3843: Topics in Modern and Contemporary American Literature and Culture (Irregular) 3
- ENGL 3853: Topics in African-American Literature and Culture (Irregular) 3
- ENGL 3863: Topics in Literature and Culture of the American South (Irregular) 3

Total Hours: 12

**ENGL 4303**  Introduction to Shakespeare (Sp, Su, Fa) 3

Total Hours: 12

**Group C**

Twelve additional hours in English courses numbered above 3000, at least six of which must be numbered above 4000.

Total Hours: 12

**Requirements for B.A. in English with a Concentration in Creative Writing**

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded course(s) from the list below may be applied to portions of the University/State minimum core requirements.

**English majors are required to complete the following:**

- The 35-hour University Core 35
- PHIL 2003  Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa) 3
- Any world language at the 2013 Intermediate II level 1 3-9
- WLIT 1113  World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa) 3
- WLIT 1123  World Literature II (ACTS Equivalency = ENGL 2123) (Sp, Su, Fa) 3

### 36 Semester Hours 2

- ENGL 3203  Poetry (Sp, Fa) 3
- ENGL 3213  Fiction (Sp, Fa) 3
- ENGL 2023  Creative Writing I (ACTS Equivalency = ENGL 2013) (Sp, Fa) 3
- ENGL 3013  Creative Writing II (Sp, Fa) 3
- ENGL 4013  Undergraduate Poetry Workshop (Irregular) 3
- or ENGL 4023  Undergraduate Fiction Workshop (Irregular) 3
- ENGL 2303  English Literature from the Beginning through the 17th Century (ACTS = ENGL 2673) (Sp, Fa) 3

Select three of the following:

- ENGL 2313  Survey of English Literature from 1700 to 1900 (ACTS Equivalency = ENGL 2683) (Sp, Fa) 3
- ENGL 2323  Survey of Modern and Contemporary British, Irish, and Postcolonial Literature (Sp, Fa) 3
- ENGL 2343  Survey of American Lit from the Colonial Period through Naturalism (ACTS Equiv=ENGL 2653) (Sp, Fa) 3
- ENGL 2353  Survey of Modern and Contemporary American Literature (ACTS Equivalency = ENGL 2663) (Sp, Fa) 3
- ENGL 4303  Introduction to Shakespeare (Sp, Su, Fa) 3

Six additional hours chosen from ENGL courses numbered above 3000 and WLIT courses numbered above 2333.

### Note About Transfer Credit:

In order to receive a B.A. in English from the University of Arkansas, a student must take at least 24 hours of credit at the 3000 or 4000-level in this department.

1. This is usually accomplished through completion of a sequence of three world language courses: 1013, 2003 and 2013.
Not counting ENGL 0002, ENGL 1013, ENGL 1023, and ENGL 2003

Writing Requirement: All upper-division English courses require a research or an analytical paper except ENGL 4003 and the courses in creative writing (ENGL 3013, ENGL 4013, ENGL 4023, ENGL 4073). For this reason all students who fulfill the requirements for a major in English thereby fulfill the Fulbright College writing requirement. In addition, 4000-level courses (except for those noted above) require more intensive research by, and more active participation from, students than 3000-level courses do and require each student to complete a paper that can be included as a writing sample with applications to graduate programs or professional schools.

Assessment Requirement: Every senior English major must take the program assessment exam administered by the department each spring semester to graduate. Exam results will not affect GPA, although the student’s score will be noted on his or her permanent academic record. This requirement may be waived in extraordinary circumstances by the department’s Director of Undergraduate Studies. Contact your adviser for more information.

English B.A. with a Concentration in Creative Writing

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

**Group C**

Six additional hours chosen from English or World Literature courses numbered above 3000

**Total Hours** 6

### Requirements for a Combined Major in English and Journalism

All university students must fulfill the minimum University Core requirements (p. 81). A minimum of 72 hours in non-journalism courses must be applied toward the 120 hours required by the college for a Bachelor of Arts degree. Bolded courses from the list below may be counted toward some part of the University Core/state minimum core requirements, as applicable.

Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2033</td>
<td>Mathematical Thought (Sp, Su, Fa)</td>
</tr>
<tr>
<td>MATH 2043</td>
<td>Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)</td>
</tr>
<tr>
<td>MATH 2053</td>
<td>Finite Mathematics (Sp, Su, Fa)</td>
</tr>
<tr>
<td>MATH 2183</td>
<td>Mathematical Reasoning in a Quantitative World (Sp, Fa)</td>
</tr>
<tr>
<td>STAT 2303</td>
<td>Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)</td>
</tr>
</tbody>
</table>

Or Higher Level MATH

**Intermediate I (course number 2003) of a World Language.**  

Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>WLIT 1113</td>
<td>World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa)</td>
</tr>
<tr>
<td>WLIT 1123</td>
<td>World Literature II (ACTS Equivalency = ENGL 2123) (Sp, Su, Fa)</td>
</tr>
</tbody>
</table>

An Advanced Literature Course

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHI 2003</td>
<td>Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa)</td>
</tr>
<tr>

<td>Introduction to Ethics (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa)</td>
</tr>
</tbody>
</table>

Any Philosophy Course at the 3000-level or higher (recommended: PHIL 3103 Ethics and the Professions) higher

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
</table>

A second PLSC Course (the following are recommended options):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PLSC 2813</td>
<td>Introduction to International Relations (Sp, Fa)</td>
</tr>
<tr>
<td>PLSC 3233</td>
<td>The American Congress (Fa)</td>
</tr>
<tr>
<td>PLSC 4233</td>
<td>The American Chief Executive (Sp)</td>
</tr>
<tr>
<td>ECON 2143</td>
<td>Basic Economics: Theory and Practice (Sp, Su, Fa)</td>
</tr>
<tr>
<td>ECON 2013</td>
<td>Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa)</td>
</tr>
</tbody>
</table>

3 hours of cultural/diversity studies to be selected from the following or as approved by the School of Journalism and Strategic Media

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 4533</td>
<td>Middle East Cultures (Sp)</td>
</tr>
<tr>
<td>COMM 4343</td>
<td>Intercultural Communication (Sp)</td>
</tr>
<tr>
<td>HIST 3233</td>
<td>African American History to 1877 (Sp, Fa)</td>
</tr>
<tr>
<td>HIST 3243</td>
<td>African American History Since 1877 (Sp, Fa)</td>
</tr>
<tr>
<td>HIST 3263</td>
<td>History of the American Indian (Fa)</td>
</tr>
<tr>
<td>SCWK 3193</td>
<td>Human Diversity and Social Work (Sp, Su, Fa)</td>
</tr>
<tr>
<td>JOUR 3263</td>
<td>African Americans in Film (Irregular)</td>
</tr>
<tr>
<td>JOUR 4923</td>
<td>History of the Black Press (Even years, Sp)</td>
</tr>
<tr>
<td>SCWK 3193</td>
<td>Human Diversity and Social Work (Sp, Su, Fa)</td>
</tr>
<tr>
<td>SOCI 3193</td>
<td>Race, Class, and Gender in America (Sp, Fa)</td>
</tr>
</tbody>
</table>

**Total Hours** 3

Other cultural/diversity-related topics as approved by the School of Journalism and Strategic Media

1 The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.

* A cultural/diversity-approved HIST course is allowed to also satisfy the major’s 3000-4000 level HIST course requirement.

** A cultural/diversity-approved JOUR course is also allowed to satisfy a JOUR elective.

### The Journalism requirements for this combined major are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 4923</td>
<td>History of the Black Press (Even years, Sp)</td>
</tr>
<tr>
<td>SCWK 3193</td>
<td>Human Diversity and Social Work (Sp, Su, Fa)</td>
</tr>
<tr>
<td>SOCI 3193</td>
<td>Race, Class, and Gender in America (Sp, Fa)</td>
</tr>
</tbody>
</table>

(SOCI 2013 prerequisite)
The journalism requirement may be satisfied by 24 semester hours of courses, including JOUR 1023, JOUR 1033, and JOUR 3633. The remaining 15 hours are filled from the following concentrations.

### News/Editorial Concentration:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 2013</td>
<td>News Reporting I (Sp, Fa)</td>

<td><strong>15</strong></td>
<td></td>
</tr>
</tbody>
</table>

### Broadcast Concentration:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 2032 &amp; JOUR 2031L</td>
<td>Broadcast News Reporting I (Sp, Fa) and Broadcast News Reporting I Laboratory (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 3072 &amp; JOUR 3071L</td>
<td>Broadcast News Reporting II (Sp, Fa) and Broadcast News Reporting II Laboratory (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 4863</td>
<td>Television News Reporting I (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 4873</td>
<td>Television News Reporting II (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>One Additional Journalism Course</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td><strong>15</strong></td>
<td></td>
</tr>
</tbody>
</table>

The English requirements for this combined major are as follows:

24 hours of English courses (not counting ENGL 0002, ENGL 1013, ENGL 1023, and ENGL 2003) to include any nine hours of survey courses chosen from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 2303</td>
<td>English Literature from the Beginning through the 17th Century (ACTS = ENGL 2673) (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 2313</td>
<td>Survey of English Literature from 1700 to 1900 (ACTS Equivalency = ENGL 2683) (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 2323</td>
<td>Survey of Modern and Contemporary British, Irish, and Postcolonial Literature (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 2343</td>
<td>Survey of American Lit from the Colonial Period through Naturalism (ACTS Equiv=ENGL 2653) (Sp, Fa)</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 2353</td>
<td>Survey of Modern and Contemporary American Literature (ACTS Equivalency = ENGL 2663) (Sp, Fa)</td>
<td>3</td>
</tr>
</tbody>
</table>

and 15 additional hours chosen from English courses numbered above 3000 and WLIT courses above 2333.

In addition, students are strongly recommended to complete up through the 2013 Intermediate II level of a world language.

### Writing Requirement:

All upper division English courses require a research or an analytical paper except ENGL 4003 and the courses in creative writing: (ENGL 3013, ENGL 4013, ENGL 4023, and ENGL 4073). For this reason, all students who fulfill the requirements for the combined major in Journalism and English thereby fulfill the Fulbright College writing requirement.

### Assessment Requirement:

Every senior English major must take the program assessment exam administered by the department each spring semester to graduate. Exam results will not affect GPA, although the student’s score will be noted on his or her permanent academic record. This requirement may be waived in extraordinary circumstances by the department’s Director of Undergraduate Studies. Contact your adviser for more information.

### Combined Major in English and Journalism Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

### First Year

<table>
<thead>
<tr>

Total Units in Sequence: 120  

### Requirements for a Minor in English: 18 hours of English (not counting ENGL 0002, ENGL 1013, ENGL 1023, and ENGL 2003) to include any nine hours of survey courses (chosen from ENGL 2303, ENGL 2313, ENGL 2323, ENGL 2343, and ENGL 2353) and nine additional hours chosen from English courses numbered above 3000 and WLIT courses above 2333.  

### Requirements for Graduation with Honors in English: Both the College and the Departmental Honors Program in English allow upper-division undergraduates to strengthen their study of English and adapt it to their interests. Honors candidates enroll in special courses and do directed independent study and research. In addition to the college and departmental requirements for the major in English and the general college requirements for the B.A. degree, each honors candidate in English must  
1. Be accepted as an honors candidate by the department (requiring a minimum, cumulative grade-point average of 3.5 in all course work),  
2. Complete at least nine hours of non-thesis honors course work, at least three hours of which must be in English,  
3. Enroll in at least three hours of Senior Thesis ENGL 498V and write an honors thesis (either a critical study or a creative writing project) under the direction of a faculty member in the Department of English, and  
4. Defend the candidate’s entire honors program in an oral examination.  

Candidates may petition to enroll in a departmental graduate seminar. To complete the required thesis successfully, candidates should choose an honors thesis adviser as early as possible. An adviser should be selected, and an Honors Agreement completed, no later than the first semester in a candidate’s junior year. Candidates who complete the honors program with merit will graduate with the distinction “English Scholar Cum Laude.” The distinctions of Magna Cum Laude and Summa Cum Laude will be awarded only for exceptional work and will be based on the candidate’s entire honors program.  

### English (B.A.) Teacher Licensure Requirements:  
Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students.  

Students wanting to teach English in middle school should consult with a middle-level adviser in the College of Education and Health Professions.  

---  

**European Studies (EUST)**  
J. Laurence Hare  
Director of Studies  
513 Old Main
The following courses may be taken in fulfillment of elective requirements:

Students wishing to maximize their knowledge of European studies and wishing to prepare for graduate training and/or employment in the private sector or government in positions related to the area may earn a second major in European studies together with a major in another discipline. Students are required to coordinate their academic programs both with their advisers in the primary major department and with the director of the European Studies program. New students entering the program are required to notify both the major adviser and the director of studies of their intention to participate. Freshmen and sophomores considering this program are advised to begin their study of an appropriate foreign language as early as possible.

Requirements for a Second Major in European Studies

In addition to the requirements of a primary departmental major, students pursuing a combined major in European Studies must complete the following:

Language Requirement: Students must complete the equivalent of a third year of a modern European language, e.g., six hours of advanced 3000- or 4000-level work in French, German, or Spanish. Less commonly taught languages such as Portuguese, Russian, or Italian may be used, subject to the availability of courses. Three to six hours in one of these languages in an approved study abroad program in Europe may substitute for all or part of this requirement. For native speakers of a European language other than English, this requirement is waived.

Introduction to Europe: Students must complete EUST 2013 Introduction to Europe (Fa), preferably before taking the colloquium.

European Studies Colloquium: Students must complete three hours of EUST 4003 European Studies Colloquium (Sp).

Electives: Students must complete at least 18 hours of credit, in addition to the language requirement and the European studies colloquium, from among the following or in individualized studies under the direction of faculty participating in the program. Students choosing to take individualized reading or directed research courses as part of the major or minor must obtain the approval of the director of the area studies program and their major adviser. In addition, the following conditions apply:

1. A maximum of nine hours may be submitted from any one department, and
2. A maximum of six hours may be submitted from courses taken in the student’s major department.

The following courses may be taken in fulfillment of elective requirements:

### Art History

Requirements for a Minor in European Studies

Students wishing to minor in European studies must fulfill the EUST 2013 Introduction to Europe (Fa) and EUST 4003 European Studies Colloquium (Sp) requirements and the language requirements described under the requirements for the major. They also must complete at least 12 hours from among the electives listed for the major. Three of these credit hours may come from a study abroad experience. A maximum of six hours of electives may be submitted from any one department.

Honors Requirements in European Studies

Requirements for Honors in EUST: The Honors Program in European Studies gives junior and senior students of high ability the opportunity to enroll in enriched courses and conduct independent research culminating in an honors thesis. In addition to satisfying the general Fulbright College requirements for graduation and the basic eligibility requirements for honors as established by the Honors Council, candidates for honors in European Studies must complete 12 hours of honors credit in partial satisfaction of requirements for the co-major. One to six of these may be thesis hours (EUST 399VH). The preferred method for satisfying the remaining hours is to enroll in the colloquium at least once for honors credit (EUST 4003H) and to take relevant honors colloquia or graduate courses (with permission) in one of the departments contributing to this interdisciplinary area study. The thesis committee shall include a representative from the major discipline (in the case of multiple majors, from the discipline contributing most significantly to the topic). Successful completion of these requirements will be recognized by the award of the distinction “European Studies Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in exceptional cases and are based upon the whole of the candidate’s program of honors studies.

Gender Studies (GNST)

Lisa Corrigan
Director of Studies
417 Kimpel Hall
479-575-3046

The gender studies minor introduces students to the ways that various academic disciplines have examined women’s and men’s differing participation in work, the family, political systems, and creative endeavors. Courses explore sex and gender differences and such concepts as masculinity and femininity, essence and performance; distributions of power, work, and resources; and the symbolic representation of gender and identity in literature, religion, and art. The minor is often chosen by students interested in investigating materials previously neglected by scholars and in fresh perspectives on traditional subject matter.

Requirements for a Minor in Gender Studies: The student must complete 15 credit hours of regular courses.

Total Hours: 15

Geography (GEOG)

The Geography Program offers an undergraduate major leading to a Bachelor of Arts in geography. Students may choose either the normal geography degree program or the concentration in cartography and remote-sensing GIS. The program also offers two minors: geography and historic preservation.

Undergraduates who wish to major in geography should identify themselves to the department as soon as possible in order that they may develop a meaningful sequence of courses and take part in departmental activities.

Those interested in the graduate program should consult the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programsofstudy/ geosciencesdepartmentofgeos).

Requirements for a Major in Geography: In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.
GEOS 1123  Human Geography (ACTS Equivalency = GEOG 1113) (Sp, Su, Fa)  3
GEOS 2003  World Regional Geography (ACTS Equivalency = GEOG 2103) (Sp, Fa)  3
GEOS 1113 & GEOS 1111L General Geology (ACTS Equivalency = GEOL 1114 Lecture) (Sp, Su, Fa) and General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab) (Sp, Su, Fa)  4
GEOS 1133 & GEOS 1131L Earth Science (ACTS Equivalency = GEOL 1124 Lecture) (Sp, Fa) and Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab) (Sp, Fa)  4

Six hours in a single world language at the 1013 Elementary II level or higher.  
GEOS 3023  Introduction to Cartography (Fa)  3
GEOS 3543  Geospatial Applications and Information Science (Sp, Fa)  3

In addition, students must complete a minimum of 15 hours of GEOS at the 3000-level or above, classes must include one technical, two regional and two topical courses.

Total Hours  41

1 World language courses taken are dependent on placement level in sequence.

Students who expect to enter graduate school are encouraged to register for GEOS 410V their senior year. Electives in closely related fields are considered a part of the program and, upon prior approval of the department, six hours may be counted toward the major. Those planning to teach in secondary schools should note that they can both earn their degree in geography and qualify for a teaching certificate; they should consult with the department as early as possible.

Writing Requirement: The college writing requirement is to be met by completion of a term paper deemed satisfactory by the student’s adviser and instructor of an upper-level geoscience course. The college writing requirement may also be met by the completion of an honors thesis.

Geography B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

*University of Arkansas*
3000-plus Upper Level Elective 1 3
General Elective 1
Year Total: 15 13

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Cartography/Remote Sensing GIS Concentration
Requirements for a Major in Geography with Cartography/Remote Sensing GIS Concentration: This program gives students an opportunity to develop expertise in (1) cartography, map design and computer-assisted map production, (2) remote sensing and image interpretation, including photographic systems, sensor systems, and digital image processing, and (3) geographic information systems, including data sources, analytical techniques, and hardware/software systems.

To complete the concentration, a student is required to fulfill certain course requirements.

Required Courses
GEOS 3023 Introduction to Cartography (Fa) 3
GEOS 4413 Principles of Remote Sensing (Fa) 3
GEOS/ANTH 3543 Geospatial Applications and Information Science (Sp, Fa) 3

Elective Courses
Select three of the following: 9
GEOS 4523 Cartographic Design and Production (Sp)
GEOS 5423 Remote Sensing of Natural Resources (Even years, Sp)
GEOS/ANTH 4553 Introduction to Raster GIS (Fa)
GEOS/ANTH 4583 Vector GIS (Sp)
GEOS/ANTH 4593 Introduction to Global Positioning Systems and Global Navigation Satellite Systems (Fa)
STAT 4003 Statistical Methods (Sp, Fa) (or other approved statistics course)
CVEG 2053 Surveying Systems (Sp, Fa) (or other approved surveying course)

Total Hours 18

GEOS 3033 Building Materials Field Studies (Irregular) is the required field capstone course that will require two weekends (Saturday and Sunday) for completion. The course has been specifically designed for this program and will discuss the nature of building materials (wood, brick, mortar and stone), their identification and properties, weathering and erosion theory, assessment and mitigation (i.e. cleaning, consolidants, innovative trends). It is suggested that this class be taken last in the program series.

One semester participation in the University of Arkansas’ Rome Program will substitute for six (6) credits from class requirements in Architectural History and Urban Studies listed above. A supplemental program internship is suggested in addition to the classes required if the student’s career path is in Historic Preservation.

Requirements for Departmental Honors in Geography: Admission to the Departmental Honors Program in Geography is open to geography majors with a minimum grade-point average of 3.5 in all their work. All honors candidates must take 12 hours, which may include 6 hours of thesis, in Honors Studies. During the fall semester of either the junior or senior year the candidate will enroll in GEOS 399VH (no more than three hours of credit), an undergraduate seminar in geographical philosophy and methodology. During the senior year the honors candidate will complete the program by writing a senior honors paper under GEOS 399VH (no more than three hours of credit). Successful completion of the requirements will be recognized by the award of the distinction “Geography Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

Geology (GEOL)
The Department of Geosciences offers the Bachelor of Science degree in geology and the Bachelor of Science degree in earth science (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/earthsciences). It is emphasized that students wishing to become practicing professional geologists should hold the Bachelor of Science degree in geology at a minimum. It is further recognized that practicing professional geologists typically hold a Master of Science degree. The education of students pursuing the Bachelor of Science in earth science degree should reflect general education in the liberal arts with emphasis in geology.

The goal of the program leading to the Bachelor of Science degree in geology is to provide students with a broad spectrum of the various topics and techniques that make up geology. Geology is a scientific discipline that encompasses the study of the Earth’s history, composition, processes, and evolution. It involves the examination of rocks, minerals, fossils, and other geological materials to understand the Earth’s past and present environment.

The program is designed to provide students with a strong foundation in the fundamental principles of geology, as well as opportunities to specialize in areas of interest. Students will have the option to pursue a concentration in Cartography/Remote Sensing GIS or another area of focus.

Required Courses
GEOS 1123 Earth Science (ACTS Equivalency = GEOL 1124)
GEOS 3023 Introduction to Cartography (Fa) (or equivalent class in architecture)
GEOS 4073 Urban Geography (Sp) (or LARC 3413)
GEOS 1133 Earth Science (ACTS Equivalency = GEOL 1124)
ANTH 4443 Cultural Resource Management I (Sp) (or equivalent class in cultural resources)
GEOS 3023 Introduction to Cartography (Fa) (or equivalent class in spatial representation and visualization)
GEOS 3033 Building Materials Field Studies (Irregular)

Total Hours 18

Writing Requirement: The college writing requirement is to be met by completion of a term paper deemed satisfactory by the student’s adviser and instructor of an upper-level geoscience course. The college writing requirement may also be met by the completion of an honors thesis.

Requirements for a Minor in Geography: 15 hours in geography to include GEOS 1123. At least 6 hours must be numbered 3000 or above and must include one regional and one topical course.

Requirements for a Minor in Historic Preservation: 18 hours from:
subdisciplines of geology, while at the same time honoring an emphasis in the traditional areas of mineralogy, igneous, metamorphic and sedimentary petrology, structural geology and stratigraphic principles. This curriculum will prepare students to enter graduate programs without deficiencies at the University of Arkansas or other established programs.

Along with the normal degree program, the department offers a B.S. in geology with a concentration in geophysics.

For requirements for the M.S. degree in geology, see the Graduate School Catalog.

Requirements for a Major in Geology leading to the B.S. Degree: In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

CHEM 1103 & CHEM 1101L
University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) (Su, Fa)
and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab) (Sp, Su, Fa)

CHEM 1123 & CHEM 1121L
University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) (Sp, Su, Fa)
and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa)

Select one of the following: 8

PHYS 2013
College Physics I (ACTS Equivalency = PHYS 2011 Lecture) (Su, Fa)
& PHYS 2011L 2014 Lecture) (Su, Fa)
& PHYS 2033
and College Physics I Laboratory (ACTS Equivalency = PHYS 2033 Lab) (Su, Fa)
& PHYS 2031L 2014 Lecture) (Su, Fa)
and College Physics II (ACTS Equivalency = PHYS 2024 Lecture) (Sp, Su)
and College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab) (Su)

or

PHYS 2054 & PHYS 2074
University Physics I (ACTS Equivalency = PHYS 2034) (Sp, Su, Fa)
and College Physics II (ACTS Equivalency = PHYS 2044 Lecture) (Sp, Su, Fa)

MATH 2554
Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa)

MATH 2564
Calculus II (ACTS Equivalency = MATH 2505) (Sp, Su, Fa)

Six hours in a single world language at the 1013 Elementary II level or higher. 1

Three hours of upper-level science as approved by adviser

A minimum of 40 semester hours of GEOS courses to include:

GEOS 1113 & GEOS 1111L
General Geology (ACTS Equivalency = GEOL 1114 Lecture) (Sp, Su, Fa)
and General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab) (Sp, Su, Fa)

or GEOS 3052
Geology for Engineers (Fa)

GEOS 1133 & GEOS 1131L
Earth Science (ACTS Equivalency = GEOL 1124 Lecture) (Sp, Fa)
and Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab) (Sp, Fa)

GEOS 2313
Mineralogy and Petrology (Fa)

GEOS 3383
Principles of Landscape Evolution (Fa)

GEOS 3413
Sedimentary Rocks & Fossils (Sp)

GEOS 3514 Structural Geology (Sp)

GEOS 4063 Principles of Geochemistry (Fa)
or GEOS 4433 Geophysics (Irregular)

GEOS 4223 Stratigraphy and Sedimentation (Fa)

GEOS 4686 Geology Field Camp (Su)

GEOS 4873 Geological Data Analysis (Sp)

GEOS 4924 Earth System History (ACTS Equivalency = PHSC 1104) (Sp)

And an additional 9 hours of geology courses selected from GEOS courses numbered 3000 or higher.

Total Hours 80-82

1 World language courses taken are dependent on placement level in sequence.

Writing Requirement: A scholarly writing assignment will be included in all geoscience courses numbered 2000 and above. Those papers submitted in geoscience courses 3000 and above will fulfill the Fulbright College writing requirement. The college writing requirement may also be met by the completion of an honors thesis.

Geology B.S.
Nine-Semester Degree Program

Students wishing to follow the nine-semester degree plan should see the University Core requirements (p. 81). Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

This program does require a summer field camp after the junior year.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

### Requirements for a Major in Geology with a concentration in geophysics leading to a B.S. degree:

Completion of these requirements will result in a double major in both geology and physics. In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met.

<table>
<thead>
<tr>
<th>Units</th>
<th>Fall</th>
<th>Spring</th>

</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1103 University Chemistry I (Acts Equivalency = CHEM 1414 Lecture) (Su, Fa) &amp; CHEM 1101L University Chemistry I Laboratory (Acts Equivalency = CHEM 1414 Lab) (Sp, Su, Fa)</td>
<td>4</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
CHEM 1123 University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) (Sp, Su, Fa) and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa) 4

PHYS 2054 University Physics I (ACTS Equivalency = PHYS 2034) (Sp, Su, Fa) 4

PHYS 2074 University Physics II (ACTS Equivalency = PHYS 2044 Lecture) (Sp, Su, Fa) 4

PHYS 2094 University Physics III (Fa) 4

MATH 2554 Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa) 4

MATH 2564 Calculus II (ACTS Equivalency = MATH 2505) (Sp, Su, Fa) 4

MATH 2574 Calculus III (ACTS Equivalency = MATH 2603) (Sp, Su, Fa) 4

MATH 2584 Elementary Differential Equations (Sp, Su, Fa) 4

A minimum of 45 semester hours of GEOS and PHYS courses to include:

GEOS 1113 General Geology (ACTS Equivalency = GEOL 1114 Lecture) (Sp, Su, Fa) & GEOS 1111L General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab) (Sp, Su, Fa) 4

GEOS 2313 Mineralogy and Petrology (Fa) 3

GEOS 3383 Principles of Landscape Evolution (Fa) 3

GEOS 3413 Sedimentary Rocks & Fossils (Sp) 3

GEOS 3514 Structural Geology (Sp) 4

GEOS 4223 Stratigraphy and Sedimentation (Fa) 3

GEOS 4433 Geophysics (Irregular) 3

GEOS 4924 Earth System History (ACTS Equivalency = PHSC 1104) (Sp) 4

GEOS 4686 Geology Field Camp (Su) 6

PHYS 3113 Analytical Mechanics (Fa) 3

PHYS 3414 Electromagnetic Theory (Sp) 4

PHYS 3613 Modern Physics (Sp, Su, Fa) 3

PHYS 4073 Introduction to Quantum Mechanics (Fa) 3

PHYS 4991 Physics Senior Seminar (Sp, Su, Fa) 1

Total Hours 81-83

Writing Requirement: A scholarly writing assignment will be included in all geoscience courses numbered 2000 and above. Those papers submitted in geoscience courses 3000 and above will fulfill the Fulbright College writing requirement. The college writing requirement may also be met by the completion of an honors thesis.

Geology B.S. with Geophysics Concentration
Nine-Semester Degree Program

Students wishing to follow the nine-semester degree plan should see the University Core requirements (p. 81). Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Requirements for a Minor in Geology: A minor in geology shall be awarded upon completion of the following course work:

- GEOS 1113 General Geology (ACTS Equivalency = GEOL 1114 Lecture) (Sp, Su, Fa) 2-4
- or GEOS 3052 Geology for Engineers (Fa)

- GEOS 1111L General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab) (Sp, Su, Fa)
- or GEOS 3052 Geology for Engineers (Fa)

- GEOS 1133 Earth Science (ACTS Equivalency = GEOL 1124 Lecture) (Sp, Fa) 4
- or GEOS 3052 Geology for Engineers (Fa)
- and Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab) (Sp, Fa)

- GEOS 2313 Mineralogy and Petrology (Fa) 3
- Two GEOS Courses at the 3000-level 6

One GEOS Course at the 4000-level 3
Total Hours 18-20

Students are advised to consult with a geology faculty member to develop the course work program that best complements their major area of study.

Requirements for Departmental Honors in Geology: The Departmental Honors Program in Geology provides upper-division undergraduate students with an opportunity to formally participate in geologic research activities. Honors candidates carry out independent study and research under the guidance of the geology faculty. Outstanding student achievement will be recognized by awarding the distinction "Geology Scholar Cum Laude" at graduation. Higher degree distinctions may be awarded to truly outstanding students based upon the whole of their academic program and quality of honors research.

Honors candidates in geology must do the following:

1. Satisfy departmental and college requirements for a bachelor's degree with honors,
2. Become a candidate no later than the second semester of their junior year,
3. Enroll in six hours of honors research GEOS 3901, GEOS 3911, GEOS 4972H, GEOS 4982H,
4. Take 12 hours in Honors Studies, which may include 6 hours of thesis,
5. Complete junior and senior honors courses GEOS 3901, GEOS 3911, GEOS 4972H, GEOS 4982H, and
6. Achieve a cumulative grade-point average of 3.30 in geology courses.

Geology (B.S.) Teacher Licensure in Life/Earth Science or Physical/Earth Science Requirements: Students wanting to teach science in middle or secondary school should consult with an adviser in the College of Education and Health Professions.

Geosciences (GEOS)

Faculty

Spencer L. Allen, Lecturer
Mohamed H. Aly, Assistant Professor
Paula Anderson, Instructor
Steve K. Boss, Professor
Jackson David Cothren, Associate Professor
Matthew D. Covington, Assistant Professor
Fiona M. Davidson, Associate Professor
Rashauna Mickens Hintz, Instructor
Edward C. Holland, Assistant Professor
Phil Hays, Associate Professor
John G. Hehr, Professor
Rashauna Mickens Hintz, Instructor
Fred Limp Jr., University Professor
Christopher L. Liner, Professor
Steven Edward Milligan, Instructor
Thomas R. Paradise, University Professor
Adriana Potra, Assistant Professor
The Department of Geosciences offers three majors, two leading to a Bachelor of Science and one leading to a Bachelor of Arts:

- Earth Science (p. 238), B.S.
- Geography (p. 252), B.A.
- Geology (p. 254), B.S.

The department also offers coursework leading to a Geospatial Technologies Certificate.

- Certificate in Geospatial Technologies, the requirements of which are in the tab at right.

Requirements for Geospatial Technologies Certificate

The Department of Geosciences also offers an online Geospatial Technologies Certificate through the University of Arkansas Global Campus (http://globalcampus.uark.edu). The certificate is designed for working professionals who wish to develop basic skills in the emerging field of geospatial technologies. Instruction prepares these individuals for employment in the geosciences and collateral disciplines as well as providing a foundational skill set for additional advanced work if desired. The certificate will also benefit students in two-year associate degree programs as well as undergraduates in four-year programs who wish to strengthen their skills.

Requirements for admission: Candidates should possess an associate's degree, two years of college, or equivalent work experience.

Requirements for a Geospatial Technologies Certificate: A total of 12-18 hours are required for the certificate. Students must complete:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOS 3013</td>
<td>Foundations of Geospatial Data Analysis (Sp, Fa)</td>

History Department website (http://fulbright.uark.edu/departments/history)

The Department of History offers an undergraduate major leading to a Bachelor of Arts in history as well as a minor in history.

The Department of History offers specialized study of world societies and their evolution to the present. Students may concentrate on areas such as Africa, the Middle East, Latin America, Asia, Europe, or the history of the United States. Undergraduate majors and minors prepare students for careers in government service, law, publishing, teaching, business school, diplomacy, journalism, archival management, communications, or graduate studies.

The Department of History also offers a highly competitive graduate program. Graduate faculty members direct both seminars and specialized training leading to the Master of Arts and Doctor of Philosophy degrees.
The Department of History also offers junior and senior history majors an opportunity to secure valuable experience working in the field of history. Previous interns have worked for the Washington County Historical Society and the Arkansas Historical Association.

For requirements for advanced degrees in history, see the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programsofstudy/historyhist).

For information regarding departmental scholarships, visit the History Department's scholarships page (http://fulbright.uark.edu/departments/history/undergraduate/scholarships.php).

### Requirements for a Major in History

Minimum of 45 semester hours to include:

Any World Language at the Intermediate II 2013 level. $^1$ 3-9

3 hours from the following list of introductory courses in area studies programs:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AAST 1003</td>
<td>Introduction to African and African American Studies (Sp, Fa)</td>
</tr>
<tr>

<td>Introduction to Middle East Studies (Fa)</td>
</tr>
</tbody>
</table>

HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) (Sp, Fa) 3

or HIST 1113H Honors Institutions and Ideas of World Civilizations I (Irregular) 3

HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) (Sp, Fa) $^2$ 3

or HIST 1123H Honors Institutions and Ideas of World Civilizations II (Irregular) 3

HIST 2003 History of the American People to 1877 (ACTS Equivalency = HIST 2113) (Sp, Su, Fa) 3

HIST 2013 History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123) (Sp, Su, Fa) 3

HIST 4893 Senior Capstone Seminar (Sp, Fa) 3

24 additional hours in history courses numbered 3000 or above. At least 12 of these hours must be numbered 4000 or above. $^3$ 24

**Total Hours** 45-51

$^1$ This is usually accomplished through completion of a sequence of three language courses: 1013, 2003 and 2013.

$^2$ 4-year honors students must take HIST 1113H, HIST 1123H, HIST 3973H and at least 3 hours of HIST 399VH. Four-year honors students may not apply more than 6 hours of HIST 399VH to the history major.

$^3$ Students may not receive credit for both HIST 3383 and HIST 4583.

Students must select 3 hours from each of the following groups:

#### Group 1: Europe, including Britain and Russia

</table>
Courses listed in more than one group may fill only one group requirement. In consultation with an adviser, students who are history majors are encouraged to design a program of study with both breadth and depth.

History majors are strongly encouraged, but not required, to take a minor or combined major in one of the following:

- African and African American Studies
- American Studies
- Art History
- Asian Studies
- Classical Studies
- European Studies
- Gender Studies
- International Studies
- Jewish Studies
- Latin American and Latino Studies
- Medieval and Renaissance Studies
- Middle East Studies
- Religious Studies
- World Languages, Literatures, and Culture

**Writing Requirement:** To fulfill the Fulbright College writing requirement, each history major will submit, prior to graduation, a substantial research or analytical paper, with a grade of “A” or “B” from an upper-division history course (3000, 4000, 5000 level) to his or her departmental adviser. The required senior capstone seminar, HIST 4893, is designed to give history majors the opportunity and guidance to produce a paper to meet the Fulbright College requirement, but students may also submit a paper from another course. Satisfactory completion of a thesis may also fulfill this requirement.

**History B.A.**

**Eight-Semester Degree Program**

Students who elect to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. State/University Core and world language requirement hours may vary by individual, based on placement and previous credit granted. Once all state/university core requirements and the world language 2013 requirement are met, students may substitute a three hour (or more) general elective in place of a core or world language area.

</tr>
</tbody>
</table>

In addition, complete 12 hours of upper-level credit, at least 6 hours of which must be at the 4000-level.

Requirements for Departmental Honors in History: Both the College and the Departmental Honors Program in History provide undergraduates with an opportunity to carry out independent study and research under the guidance of history faculty and to participate in special honors classes, seminars, and colloquia. Admission to the Fulbright Honors Program is open to history majors with a minimum, cumulative grade-point average of 3.5 in all of their coursework. Honors candidates must complete a minimum of 12 hours in honors courses, including HIST 3973H and at least 3 but no more than 6 hours of HIST 399VH. College honors students majoring in history must also complete either HIST 1113H or HUMN 1114H, and either HIST 1123H or HUMN 2114H. To complete the required thesis, honors candidates should choose a faculty thesis director as early as possible but no later than the first semester of the student's junior year. Honors candidates must meet the college's requirements for an honors degree. Students graduating with honors typically graduate with the distinction cum laude. Higher distinctions (magna cum laude, summa cum laude) are awarded by the Honors.
Council in truly exceptional case and are based upon the whole of the candidate’s program of honors studies.

History (B.A.) Social Studies Teacher Licensure Requirements:
Please refer to the Secondary Education Requirements for Fulbright College Students (p. 186).

Students who desire to teach social studies in middle school should consult with a middle-level adviser in the College of Education and Health Professions.

### Humanities (HUMN)

#### Faculty
- Laurie Marie McAlister Apple, Associate Professor
- Julia Atiles, Instructor
- Mechelle Bailey, Clinical Instructor
- Mahendran Balasubramanian, Assistant Professor

- Lisa T. Washburn, Assistant Professor
- Kelly Ann Way, Associate Professor
- Amanda Williams, Assistant Professor
- David Fredrick
  - Chair of Studies
  - 425 Kimpel Hall
  - 479-575-6776

The Humanities Program supports the Honors Humanities Project (H2P) as well as interdisciplinary coursework in Digital Humanities, Gender Studies, Medieval and Renaissance Studies, and Arts and Aesthetics. The Humanities Program also sponsors courses in Classics, Medieval, and Renaissance cultures taught every semester and every other summer (during even years) at the Rome Study Center.

### Indigenous Studies (INDS)

Sean Teuton
- Director of Indigenous Studies
- 479-575-6000
- Kimpel Hall 333
- steuton@uark.edu

The Indigenous Studies minor invites discovery of alternative world views, ecological relationships, societies, religions, arts, and governments of indigenous peoples in North America and beyond from antiquity to the present. Immersed in this inherently interdisciplinary field of study, students have the opportunity to master and employ its many theories and methodologies, debates and issues, in often comparative contexts. Such exposure and training prepares those who achieve the minor for graduate work in the humanities, business, law, and the sciences as they pertain to indigenous peoples, but also for any career that requires a supple knowledge of cultural difference between Arkansas and an increasingly global world.

### Requirements for a Minor in Indigenous Studies

Students seeking the minor in Indigenous Studies must complete three courses, one from each of three core groups: Culture, History and Literature. Students then complete two additional elective courses from the list below for a total of 15 credit hours. Other courses not listed below may serve the requirements, although only as approved by the Indigenous Studies program director. Only 6 credit hours can count toward requirements of other majors or minors.

#### Course Listing

**Culture**

- **ANTH 3213** Indigenous Peoples of North America: Anthropological Perspectives (Irregular) 3
- **ANTH 3263** Indians of Arkansas and the South (Odd years, Sp) 3
- **ANTH 3473** North American Prehistory (Irregular) 3
- **ANTH 3533** Medical Anthropology (Irregular) 3
- **ANTH 4143** Ecological Anthropology (Irregular) 3

**History**

- **HIST 3263** History of the American Indian (Fa) 3

**Literature**

- **COMM 3983** Special Topics (Sp, Su, Fa) 3
- **ENGL 3553** Topics in Native American Literature and Culture (Irregular) 1
- **ENGL 4553** Studies in Native American Literature and Culture (Irregular) 1
- **WLLC 4043** The Early French in North America (Fa) 2
- **WLLC 4053** The Colonial French in the Mississippi Valley (Sp) 2

1. Topics and studies include over a dozen courses.
2. Courses focus on early indigenous and French encounters in the Canadian Quebec region and along the Lower Mississippi River Valley, including the Arkansas area, respectively, combining ethnohistory and literary study of accounts found in original documents. Taught in English language.
The Interdisciplinary Studies Program is targeted toward highly motivated students whose interests, needs, and talents are not reflected or met by existing majors. It is a major in which students will pursue coursework from two or more traditional disciplines in sufficient depth and breadth to prepare them for employment or graduate/professional study. The major will lead to a Bachelor of Arts in interdisciplinary studies.

There are two options for students who wish to pursue a B.A. in Interdisciplinary Studies:

- **Option 1 – Construction of an Interdisciplinary Studies major** consisting of at least two of three thematically linked minors from within the Fulbright College of Arts and Sciences. One of the three minors may be selected from a program in another college at the university. Students interested in Option 1 will follow the specific program requirements as specified by each minor. For Option 1, a course plan of study must contain a minimum of 45 credit hours with a maximum number of hours dependent on which group of three minors are selected (in most instances this number would range from 45-57 hours). Students selecting Option 1 must consult during their first semester of enrollment with the IDSTBA Program Director to develop their course plan of study.

- **Option 2 – Construction of an Interdisciplinary Studies major** consisting of a thematically linked set of coursework primarily selected from, but not limited to, courses in Fulbright College. Students selecting Option 2 must consult during their first semester of enrollment with the IDSTBA Program Director to develop an individualized course plan of study. The course plan must contain a minimum of 45 credit hours with a maximum of 21 hours of course work from a single discipline. Thirty credit hours of the proposed coursework must be at the 3000 or 4000 level. At least two-thirds of the advanced level coursework must be completed on the UA-Fayetteville campus.

In addition to the Plan of Study, students wishing to pursue the interdisciplinary studies major must also submit a narrative statement that (1) expresses how the proposed coursework (or group of minors) fit together thematically; (2) expresses why the student's interests and needs are not met by existing degree programs; and (3) expresses how the interdisciplinary studies major contributes to the student's career goals and post-graduate opportunities.

**Interdisciplinary Studies Program Requirements:** A student interested in pursuing a degree in Interdisciplinary Studies must have earned less than 75 credit hours in order to select the IDSTBA major.

Students must maintain a GPA of 2.5 or better on coursework constituting the major (e.g., Option 1 or Option 2) for continuation in the program and in order to graduate with an Interdisciplinary Studies major. Should a student's GPA in the major fall below 2.50, he or she will have one semester to bring the GPA back to an acceptable level.

Students in Option 2 of the Interdisciplinary Studies Program are strongly encouraged to include an Independent Study/Research Project as a component of the major. Students pursuing an independent study research project may add up to 6 credit hours of such activity to the 21-hour maximum in a single discipline.

In addition to the coursework defined in the student's Interdisciplinary Studies major, the student must satisfy all College and University requirements related to the University Core (p. 81) and advanced-level courses (p. 183).

**Writing Requirement:** To complete the Fulbright College writing requirement, students must submit one of the following:

1. Complete at least one upper-division course that satisfies the College Writing Requirement in one of the disciplines contributing to the student's course plan (Option 1 or Option 2).
2. Submit to the program director a research paper that is no less than 12 pages in length, includes 10 references, and is written in an upper-division course in one of the disciplines contributing to the student's course plan (Option 1 or Option 2).

**Interdisciplinary Studies B.A. Eight-Semester Degree Plan**

Students wishing to follow the eight-semester degree plan should see the Academic Regulations chapter for university requirements. University Core requirements may vary by individual, based on placement and previous credit granted. Once all University Core requirements are met, students may substitute a 3-hour (or more) general elective in place of a core area.

Students in the Interdisciplinary Studies Program develop individualized course plans. These courses are referred to in the plan below as IDST Course Plan hours.

### First Year

International Studies (INST)

J. Laurence Hare  
Chair of Studies  
416 Old Main  
479-575-5890  
http://ir.uark.edu

The International Studies Program offers a major leading to a Bachelor of Arts degree.

The J. William Fulbright College of Arts and Sciences is strongly committed to the study of global interactions, and this program offers students a strong foundation for more advanced study as well as preparation for careers in an increasingly global economy and society. The degree offers a broad interdisciplinary course of study with a strong intercultural and international focus. Intensive language study and study abroad are especially encouraged.

Requirements for a Major in International Studies: In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

A minimum of 48 credit hours to include:

International Studies Requirement

<table>
<thead>
<tr>

</table>

or ECON 20 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa)

or ECON 20 Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa)

Note: Students are encouraged to take ECON 2143 which will satisfy the prerequisite for most upper-level ECON courses. Students who select either ECON 2013 or ECON 2023 to meet the Economics Requirement for the major will have to complete both ECON 2013 and ECON 2023 if they wish to take upper-level ECON courses.

World Culture Requirement

</table>

Any one course numbered 3000 or higher specific to the countries, politics, cultures, people or geography of continental Africa listed under Requirement 2 or Requirement 3 of the African and African-American Studies secondary major.

Asian Studies
the same department. Courses selected for the Global Studies Requirement may come from any combination of the groups below. Selected courses may not count for both the Global Studies Requirement and the Area Studies Requirement. With the exception of INST courses, no more than two courses listed in the course catalog as approved Middle East Studies electives.

### Group 1: International Diplomacy, Governance, and Security

- **ECON 4173** Nation Model United Nations (Fa) 1
- **GEOS 4243** Political Geography (Odd years, Fa)
- **HIST 3063** Military History (Irregular)
- **HIST 3443** Modern Imperialism (Odd years, Fa)
- **HIST 3453** Modern Terrorism (Irregular)
- **HIST 3533** World War II (Sp)
- **HIST 3573** World War I (Even years, Fa)
- **HIST 3583** The United States and Vietnam, 1945-1975 (Fa)
- **HIST 4303** Transatlantic Relations, 1919-Present (Irregular)
- **HIST 4323** Wars of Religion: From the Crusades to 9/11 (Irregular)
- **HIST 4753** Diplomatic History of the United States, 1776-1900 (Even years, Fa)
- **HIST 4763** Diplomatic History of the United States, 1900-1945 (Odd years, Sp)
- **HIST 4773** Diplomatic History of the US, 1945 to Present (Odd years, Fa)
- **PLSC 3803** International Organization (Sp)
- **PLSC 3823** Theories of International Relations (Sp)
- **PLSC 3853** American Foreign Policy (Fa)
- **PLSC 4513** Creating Democracies (Even years, Fa)
- **PLSC 4803** Foreign Policy Analysis (Irregular)
- **PLSC 4873** Inter-American Politics (Irregular)

### Group 2: International Economics and Trade

- **ECON 3853** Emerging Markets (Fa) 1
- **ECON 4633** International Trade (Sp, Fa) 1
- **ECON 4643** International Macroeconomics and Finance (Sp, Fa) 1

### Group 3: World Cultures and Geographies

Any modern world language course beyond the language chosen for the international studies Language Requirement above at the Intermediate II 2013 level.

- **ANTH 3563** Culture and Medicine (Irregular)
- **ANTH 4033** Popular Culture (Irregular)
- **COMM 4343** Intercultural Communication (Sp)
- **ENGL 3763** Topics in Postcolonial Literature and Culture (Irregular)
- **GEOS 4073** Urban Geography (Sp)
- **SOCI 4603** Environmental Sociology (Sp)
- **HIST 3033** Islamic Civilization (Irregular)
- **HIST 3593** The 1960s: A World Transformed (Odd years, Sp)
- **HIST 4233** The Atlantic World, 1400-1850 (Irregular)
- **HIST 4273** Comparative Slavery (Irregular)
- **HIST 4333** Modern Islamic Thought (Irregular)
- **HIST 4403** Islam in Asia (Irregular)
- **HIST 4473** Environmental History (Irregular)
- **JWST 4013** Contemporary Jewish Thought (Odd years, Sp) or **PHIL 4313** Contemporary Jewish Thought (Irregular)
- **SOCI 3103** Religion and Society (Irregular)
- **SOCI 3153** Urban Sociology (Irregular)

### Group 4: Applied Global Topics

- **INST 300V** Internship in International Studies (Su)
- **INST 399VH** Honors Thesis (Sp, Su, Fa)
- **INST 4003** International Studies Seminar (Fa)
- **INST 406V** Independent Study in International Studies (Irregular)

1 Students planning to take upper-level ECON courses are advised to complete ECON 2143 to satisfy the major's Economics Requirement. ECON 2143 is a prerequisite for upper-level ECON courses. Students who opt to take ECON 2013 or ECON 2023 to fulfill the Economics Requirement must complete both ECON 2013 and ECON 2023 in order to satisfy the prerequisite for entry into upper-level ECON courses.

### Independent Study

With prior approval of the International Studies program director or designee, up to six credit hours of independent study (INST 406V) may be earned and applied to the Global Studies requirement.

### Internships

All International Studies majors are strongly encouraged to seek out an internship of international focus. Up to six hours of INST 300V Internship in International Studies may be earned and applied to the Global Studies requirement.

### Capstone Experience and Fulbright College Writing Requirement

The International Studies Seminar (INST 4003/INST 4003H) provides

---

1. University of Arkansas
the capstone experience for International Studies majors. Successful completion of INST 4003 or INST 4003H with a grade of "C" or better satisfies the Fulbright College Writing Requirement for International Studies majors.

**International Studies B.A. Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

---

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

**Honors:** Admission to the Fulbright Honors Program is open to international studies majors with a minimum cumulative grade-point average of 3.5 in all of their coursework. College and Departmental Honors candidates must complete a minimum of 12 hours in honors courses, including at least 3 but no more than 6 hours of INST 399VH. Hours earned in INST 399VH may be applied to the Global Studies Requirement for the international studies major.
To complete the required thesis, honors candidates should choose a faculty thesis director as early as possible but no later than the first semester of the student's junior year. Honors candidates must meet the college's requirements for an honors degree. Students graduating with honors typically graduate with the distinction cum laude. Higher distinctions (magna cum laude, summa cum laude) are awarded by the Honors Council in truly exceptional cases and are based upon the whole of the candidate's program of honors studies.

**Jewish Studies (JWST)**

Jennifer Hoyer  
Director of Jewish Studies  
Kimpel Hall 425  
479-575-2951  
jhoyer@uark.edu

Jewish Studies website (http://www.uark.edu/admin/arsc/public_html/jewishstudies)

The Jewish Studies minor introduces students to Jewish history, thought, and lifeways, through the millennia and around the globe. Students take courses introducing them to the basic tenets of Judaism, to fundamentals of Jewish languages (Aramaic, Biblical Hebrew, Modern Hebrew, and Yiddish), and to major strands in European, American, and Middle Eastern Jewish thought. Affiliated courses will cover Jewish literature; religious dialogue and history; current politics; ancient, medieval, early modern, and modern Jewish history; and discourse on gender, multiculturalism, and social justice. Jewish Studies offers a broad interdisciplinary context of coursework that can complement most programs of study.

**Requirements for a Minor in Jewish Studies:** Students who minor in Jewish Studies will take JWST 2003 Introduction to Judaism (Odd years, Fa), a 3-credit hour introductory interdisciplinary course that lays out historical, religious, cultural, linguistic, and philosophical foundations and questions critical to any exploration of any branch of Jewish Studies. Students must take an additional 12 hours of elective coursework from among options listed below. Other courses with significant Jewish Studies-related content and the possibility for an additional Jewish Studies project (for example Religious Studies courses, Middle East Studies courses, or appropriate literature or cinema courses), subject to approval by the chair of the Jewish Studies program, will also be considered.

**Choose 12 hours from the following:**

Larry Foley  
Chair of the School  
116 Kimpel Hall  
479-575-3601  
http://fulbright.uark.edu/departments/journalism

The School of Journalism and Strategic Media offers an undergraduate major leading to a Bachelor of Arts degree and gives students a choice of three concentrations. The school also offers two combined majors – a Journalism/English combined major and a Journalism/Political Science combined major – as well as a minor in journalism.

The purpose of the School of Journalism and Strategic Media is to provide students with knowledge of the history, theory, and ethics of mass communications, to educate students in journalistic skills, including the ability to express themselves logically and clearly, and to guide them in securing specialized knowledge of society appropriate to journalistic careers.

**Concentrations**

Journalism majors must also fulfill the requirements for either the news/editorial concentration, the advertising/public relations concentration, or the broadcast concentration. Students must select a concentration when they enter the department. Specific non-journalism courses in addition to the journalism courses are required for the advertising/public relations concentration. The requirements for each concentration are listed in the tabs.
Combined Majors
The School of Journalism and Strategic Media cooperates with the Department of Political Science and the Department of English to offer two combined majors, each of which leads to a Bachelor of Arts degree. Requirements for each combined major are listed in the tabs.

Requirements for a B.A. degree in Journalism and Strategic Media: All university students must fulfill the minimum University Core requirements (p. 81). A minimum of 72 hours in non-journalism courses must be applied toward the 120 hours required by the college for a Bachelor of Arts degree.

Bolded courses from the list below may be counted toward some part of the University Core requirements, as applicable.

Select one of the following: 3

- MATH 2033 Mathematical Thought (Sp, Su, Fa)
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)
- MATH 2053 Finite Mathematics (Sp, Su, Fa)
- MATH 2183 Mathematical Reasoning in a Quantitative World (Sp, Fa)
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)
- Or a higher level math.

Intermediate I (course number 2003) of a World Language 1 3-6

Select one of the following: 3

- WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa)
- WLIT 1123 World Literature II (ACTS Equivalency = ENGL 2123) (Sp, Su, Fa)
- An Advanced Literature Course
- A Language Literature Course

Select one of the following: 3

- PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa)
- PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa)
- Any Philosophy Course at the 3000-level or higher (recommended: PHIL 3103 Ethics and the Professions)

- A second PLSC course (the following are recommended options): 3
  - PLSC 2813 Introduction to International Relations (Sp, Fa)
  - PLSC 3233 The American Congress (Fa)
  - PLSC 4233 The American Chief Executive (Sp)

- ECON 2143 Basic Economics: Theory and Practice (Sp, Su, Fa)
- or ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa)
  - and Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa)

- COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa)

- 3000-4000 level HIST course

- Cultural/Diversity Requirement: 3 hours of cultural/diversity studies to be selected from the following or as approved by the School of Journalism and Strategic Media:
  - ANTH 4533 Middle East Cultures (Sp)
  - COMM 4343 Intercultural Communication (Sp)
  - HIST 3233 African American History to 1877 (Sp, Fa) 2
  - HIST 3243 African American History Since 1877 (Sp, Fa) 2
  - HIST 3263 History of the American Indian (Fa) 2
  - JOUR 3263 African Americans in Film (Irregular) 3
  - JOUR 4923 History of the Black Press (Even years, Sp) 3
  - SCWK 3193 Human Diversity and Social Work (Sp, Su, Fa)
  - SOCI 3193 Race, Class, and Gender in America (Sp, Fa) 4

- Other cultural/diversity courses as approved by the School of Journalism and Strategic Media.

Journalism and Strategic Media Courses
A minimum of 34 semester hours in journalism are required, including 21 hours of journalism in one of the concentrations below. A minimum grade of “C” is required in all journalism courses that serve as prerequisites for advanced journalism courses. In certain courses a minimum grade of “B” is required.

Journalism and Strategic Media Core
- JOUR 1023 Media and Society (Sp, Fa) 3
- JOUR 1033 Fundamentals of Journalism (Sp, Su, Fa) 3
- JOUR 3633 Media Law (Sp, Fa) 3
- JOUR 4333 Ethics in Journalism (Sp, Fa) 3
- JOUR 4981 Journalism Writing Requirement (Sp, Su, Fa) 1

1 The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.

2 A cultural/diversity-approved HIST course is allowed to also satisfy the major’s 3000-4000 level HIST course requirement.

3 A cultural/diversity-approved JOUR course is also allowed to satisfy the major’s 3000-4000 level HIST course requirement.

4 SOCI 2013 is a prerequisite to SOCI 3193.

Advertising/Public Relations Concentration:
- JOUR 3723 Advertising Principles (Sp, Fa) 3
- JOUR 3743 Public Relations Principles (Sp, Fa) 3
- JOUR 4143 Public Relations Writing (Sp, Fa) 3
- JOUR 4423 Creative Strategy and Execution (Sp, Fa) 3
- JOUR 4453 Media Planning & Strategy (Sp, Fa) 3
- JOUR 4473 Account Planning (Sp, Fa) 6

Plus any two additional journalism courses. It is recommended that one course choice be an internship.

- MKTG 3433 Introduction to Marketing (Sp, Su, Fa) 3
- MKTG 3553 Consumer Behavior (Sp, Fa) 3

Students seeking admission to the Advertising/Public Relations Concentration must have an overall GPA of 2.5 or higher: 1) to be admitted to the Ad/PR Sequence, and 2) to enroll in JOUR 3723 and JOUR 3743.

Students in the Advertising/Public Relations Concentration are required to earn a grade of “B” or higher in both JOUR 3723 and JOUR 3743 to qualify to take all upper level Advertising/Public Relations Concentration...
Writing Requirement: Successful completion of JOUR 4981 with a grade of "C" or better satisfies the Fulbright College Writing Requirement for journalism majors.

Journalism B.A. with Advertising-PR Sequence
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. The journalism major includes three sequences: News/Editorial, Broadcast, and Advertising/Public Relations. Each is shown below. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all university/state core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

NOTE: Students must have 90 hours completed, an overall GPA of 2.5 or higher, and must have completed JOUR 3723 and 3743 with a grade of "B" or better to enroll in JOUR 4143, JOUR 4423, JOUR 4453 and JOUR 4473. There are no exceptions.

JOUR 4143 Public Relations Writing (Sp, Fa) (or in Spring Semester 4)‡‡ 3
JOUR 4423 Creative Strategy and Execution (Sp, Fa) (or in Spring Semester 4)‡‡ 3
JOUR 4453 Media Planning & Strategy (Sp, Fa) (or in Spring Semester 4)‡‡ 3
or JOUR 4473 Account Planning (Sp, Fa) 3
JOUR Elective 3
Non-JOUR Advanced Level Elective† 3
JOUR 4981 Journalism Writing Requirement (Sp, Su, Fa) (or in Spring Semester 4) 1
JOUR 4981 Journalism Writing Requirement (Sp, Su, Fa) (if still needed) 0-1
JOUR Elective 3
PLSC course or Cultural/diversity studies course as needed 3
Non-JOUR General Electives 6
Year Total: 16 12

Total Units in Sequence: 120

† Meets 40-hour advanced credit hour requirement. See Fulbright College Academic Regulations.
‡ Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College) in addition to meeting the 40-hour rule. See Fulbright College Academic Regulations.

Requirements for a B.A. degree in Journalism and Strategic Media: All university students must fulfill the minimum University Core requirements (p. 81). A minimum of 72 hours in non-journalism courses must be applied toward the 120 hours required by the college for a Bachelor of Arts degree.

Bolded courses from the list below may be counted toward some part of the University Core requirements, as applicable.

Select one of the following: 3

<table>
<thead>
<tr>
<th>Units</th>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
</table>

MATH 2033 Mathematical Thought (Sp, Su, Fa) 3
MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa) 3
MATH 2053 Finite Mathematics (Sp, Su, Fa) 3
MATH 2183 Mathematical Reasoning in a Quantitative World (Sp, Fa) 3
STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa) 3

Or a higher level math.

Intermediate I (course number 2003) of a World Language 1 3-6

Select one of the following: 3

<table>
<thead>
<tr>
<th>Units</th>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
</table>

WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa) 3

WLIT 1123 World Literature II (ACTS Equivalency = ENGL 2123) (Sp, Su, Fa) 3

An Advanced Literature Course
A Language Literature Course
Select one of the following: 3

PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa) 3
PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa) 3

Any Philosophy Course at the 3000-level or higher (recommended: PHIL 3103 Ethics and the Professions) 3
A second PLSC course (the following are recommended options): 3
PLSC 2813 Introduction to International Relations (Sp, Fa) 3
PLSC 3233 The American Congress (Fa) 3
PLSC 4233 The American Chief Executive (Sp) 3
ECON 2143 Basic Economics: Theory and Practice (Sp, Su, Fa) 3-6
or ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa) 3
ECON 2023 Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa) 3

COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa) 3

3000-4000 level HIST course 3

Cultural/Diversity Requirement: 3 hours of cultural/diversity studies to be selected from the following or as approved by the School of Journalism and Strategic Media:

<table>
<thead>
<tr>
<th>Units</th>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
</table>

ANTH 4533 Middle East Cultures (Sp) 3
COMM 4343 Intercultural Communication (Sp) 3
HIST 3233 African American History to 1877 (Sp, Fa) 2
HIST 3243 African American History Since 1877 (Sp, Fa) 2
HIST 3263 History of the American Indian (Fa) 2
JOUR 3263 African Americans in Film (Irregular) 3
JOUR 4923 History of the Black Press (Even years, Sp) 3
SCWK 3193 Human Diversity and Social Work (Sp, Su, Fa) 3
SOCI 3193 Race, Class, and Gender in America (Sp, Fa) 4

Other cultural/diversity courses as approved by the School of Journalism and Strategic Media.

Journalism and Strategic Media Courses
A minimum of 34 semester hours in journalism are required, including 21 hours of journalism in one of the concentrations below. A minimum grade of "C" is required in all journalism courses that serve as prerequisites for advanced journalism courses. In certain courses a minimum grade of "B" is required.

Journalism and Strategic Media Core

<table>
<thead>
<tr>
<th>Units</th>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
</table>

JOUR 1023 Media and Society (Sp, Fa) 3
JOUR 1033 Fundamentals of Journalism (Sp, Su, Fa) 3
JOUR 3633 Media Law (Sp, Fa) 3
JOUR 4333 Ethics in Journalism (Sp, Fa) 3
JOUR 4981 Journalism Writing Requirement (Sp, Su, Fa) 1

1 The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.
A cultural/diversity-approved HIST course is allowed to also satisfy the major's 3000-4000 level HIST course requirement.

A cultural/diversity-approved JOUR course is also allowed to satisfy a JOUR elective.

SOCI 2013 is a prerequisite to SOCI 3193.

Broadcast Concentration:

| JOUR 2032 | Broadcast News Reporting I (Sp, Fa) | 3 |
| & JOUR 2031L | and Broadcast News Reporting I Laboratory (Sp, Fa) | |
| JOUR 3072 | Broadcast News Reporting II (Sp, Fa) | 3 |
| & JOUR 3071L | and Broadcast News Reporting II Laboratory (Sp, Fa) | |
| JOUR 4863 | Television News Reporting I (Sp, Fa) | 3 |
| JOUR 4873 | Television News Reporting II (Sp, Fa) | 3 |

Plus any two additional journalism courses 6

It is recommended that one course choice be an internship and another choice be JOUR 4883.

Writing Requirement: Successful completion of JOUR 4981 with a grade of "C" or better satisfies the Fulbright College Writing Requirement for journalism majors.

Journalism B.A. with Broadcast Concentration

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

General Elective

Science university/state core lecture and corequisite lab
Requirements for a Combined Major in English and Journalism

All university students must fulfill the minimum University Core requirements (p. 81). A minimum of 72 hours in non-journalism courses must be applied toward the 120 hours required by the college for a Bachelor of Arts degree. Bolded courses from the list below may be counted toward some part of the University Core/state minimum core requirements, as applicable.

Select one of the following:

- **MATH 2033** Mathematical Thought (Sp, Su, Fa) 3
- **MATH 2043** Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)
- **MATH 2053** Finite Mathematics (Sp, Su, Fa)
- **MATH 2183** Mathematical Reasoning in a Quantitative World (Sp, Su, Fa)
- **STAT 2303** Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)

**Intermediate I (course number 2003) of a World Language.** 1 3-6

Select one of the following:

- **WLIT 1113** World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa)
- **WLIT 1123** World Literature II (ACTS Equivalency = ENGL 2123) (Sp, Su, Fa)

An Advanced Literature Course

A Language Literature Course

Select one of the following: 3

- **PHIL 2003** Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa)
- **PHIL 2103** Introduction to Ethics (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa)

Any Philosophy Course at the 3000-level or higher (recommended: PHIL 3103 Ethics and the Professions) higher

- **PLSC 2003** American National Government (ACTS Equivalency = PLSC 2003) (Sp, Su, Fa)

A second PLSC Course (the following are recommended options): 3

- **PLSC 2813** Introduction to International Relations (Sp, Fa)
- **PLSC 3233** The American Congress (Fa)
- **PLSC 4233** The American Chief Executive (Sp)

**ECON 2143** Basic Economics: Theory and Practice (Sp, Su, Fa) 3-6

or **ECON 2013** Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa) and **ECON 2023** Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa)

**COMM 1313** Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa) 3

3 hours of cultural/diversity studies to be selected from the following or as approved by the School of Journalism and Strategic Media 3

- **ANTH 4533** Middle East Cultures (Sp)
- **COMM 4343** Intercultural Communication (Sp)
- **HIST 3233** African American History to 1877 (Sp, Fa)
- **HIST 3243** African American History Since 1877 (Sp, Fa)
- **HIST 3263** History of the American Indian (Fa)
- **SCWK 3193** Human Diversity and Social Work (Sp, Su, Fa)
- **JOUR 3263** African Americans in Film (Irregular)
- **JOUR 4923** History of the Black Press (Even years, Sp)
- **SCWK 3193** Human Diversity and Social Work (Sp, Su, Fa)
- **SOCI 3193** Race, Class, and Gender in America (Sp, Fa) (SOCI 2013 prerequisite)

Other cultural/diversity-related topics as approved by the School of Journalism and Strategic Media

1 The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.

* A cultural/diversity-approved HIST course is allowed to also satisfy the major's 3000-4000 level HIST course requirement.

** A cultural/diversity-approved JOUR course is also allowed to satisfy the major's 3000-4000 level HIST course requirement.

The Journalism requirements for this combined major are as follows:

The journalism requirement may be satisfied by 24 semester hours of courses, including JOUR 1023, JOUR 1033, and JOUR 3633. The remaining 15 hours are filled from the following concentrations.

**News/Editorial Concentration:**

- **JOUR 2013** News Reporting I (Sp, Fa) 3
- **JOUR 3013** Editing (Sp, Fa) 3
Combined Major in English and Journalism
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. ## Total Units in Sequence: 120

### Requirements for the Combined Major in Journalism and Political Science

All university students must fulfill the minimum University Core requirements (p. 81). A minimum of 72 hours in non-journalism courses must be applied toward the 120 hours required by the college for a Bachelor of Arts degree. Bolded courses from the list below may be applied to portions of the University Core requirements.

Select one of the following: 3

- MATH 2033 Mathematical Thought (Sp, Su, Fa)
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (Sp, Su, Fa)
- MATH 2053 Finite Mathematics (Sp, Su, Fa)
- MATH 2183 Mathematical Reasoning in a Quantitative World (Sp, Fa)
- MATH 2183 or Higher Level MATH

- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) (Sp, Su, Fa)

**Intermediate I (course number 2003) of a World Language 1** 3-6

Select one of the following: 3

- WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa)
- WLIT 1123 World Literature II (ACTS Equivalency = ENGL 2123) (Sp, Su, Fa)
- An Advanced Literature Course
- A Language Literature Course

Select one of the following: 3

- PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa)
- PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa)
- Any Philosophy Course at the 3000-level or higher (recommended: PHIL 3103 Ethics and the Professions)

A second PLSC course (the following are recommended options): 3

- PLSC 2813 Introduction to International Relations (Sp, Fa)
- PLSC 3233 The American Congress (Fa)
- PLSC 4233 The American Chief Executive (Sp)
- ECON 2143 Basic Economics: Theory and Practice (Sp, Su, Fa) or ECON 2013 & ECON 2023 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) (Sp, Su, Fa) and Principles of Microeconomics (ACTS Equivalency = ECON 2203) (Sp, Su, Fa)

- COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa)

- 3000-4000 Level HIST Course * 3
3 hours of cultural/diversity studies to be selected from the following or as approved by the School of Journalism and Strategic Media.

Select one of the following:

**ATHL 4533**  Middle East Cultures (Sp)  **COMM 4343**  Intercultural Communication (Sp)

**HIST 3233**  African American History to 1877 (Sp, Fa)  **HIST 3243**  African American History Since 1877 (Sp, Fa)  
**HIST 3263**  History of the American Indian (Fa)  
**SCWK 3193**  Human Diversity and Social Work (Sp, Su, Fa)  **JOUR 3263**  African Americans in Film (Irregular)

**JOUR 4923**  History of the Black Press (Even years, Sp)  
**SOCI 3193**  Race, Class, and Gender in America (Sp, Fa)

Other cultural/diversity-related topics as approved by the School of Journalism and Strategic Media

1. The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.

2. A cultural/diversity-approved HIST course is allowed to also satisfy the major's 3000-4000 level HIST course requirement.

3. A cultural/diversity-approved JOUR course is also allowed to satisfy the major's 3000-4000 level JOUR course requirement.

**Political Science Requirements**

The political science requirement for the combined major may be satisfied by 24 semester hours of courses, including PLSC 2003, PLSC 2223, PLSC 2373, and either an additional 15 hours of advanced political science courses elected entirely from American political affairs courses:

**American Political Affairs**

</table>
JOUR 3023 News Reporting II (Sp, Fa) 3
or JOUR 4503 Magazine Writing (Sp)
or JOUR 4553 Magazine Editing and Production I (Sp)
JOUR 4043 Government and the Media (Fa) 3
One additional Journalism course 3

Writing Requirement: Students pursuing the journalism/political science combined major may satisfy the college writing requirement through either the Department of Journalism or through the Department of Political Science.

In Journalism: Successful completion of JOUR 4981 with a grade of "C" or better will satisfy the Fulbright College Writing Requirement.

In Political Science: The college writing requirement is fulfilled by submitting an acceptable research/analytical paper to the department for approval at least four weeks prior to graduation. The paper may be derived from completion of an honors essay (PLSC 499V), a senior thesis (PLSC 498V), or some other advanced course in political science. The student is urged to consult with his or her faculty adviser no later than early in the first semester of the senior year.

Journalism/Political Science B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Journalism School and College Honors students must:

1. Enter the program no later than the first semester of their junior year, and register for JOUR 498 VH Honors Journalism Writing Requirement beginning with the first semester of the junior year,
2. Take at least 1 credit of JOUR 498 VH every fall and spring semester of the junior and senior year,
3. Complete at least one journalism honors colloquium,
4. Complete the journalism honors core research course JOUR 4943 H (offered every spring semester only),
5. Complete an approved honors colloquium in a second discipline,
6. Complete and orally defend an honors thesis based on honors courses of study, and
7. Earn an overall cumulative 3.50 grade-point average and a cumulative 3.50 grade-point average in journalism courses.

In addition, journalism majors pursuing college honors must also satisfy all requirements for the Fulbright College Honors Program and the Honors Core Curriculum for a Bachelor of Arts found elsewhere in this catalog.

More specific information on the requirements for honors in Journalism is available from the School of Journalism and Strategic Media Honors adviser.

Journalism (B.A.) Teacher Licensure Requirements: Students interested in obtaining teacher licensure may not obtain licensure in journalism alone. Licensure in another discipline must be obtained, and journalism may be added as an additional area of licensure. Please refer to the Secondary Education Requirements for Fulbright College Students (p. 186) or contact your departmental adviser or an adviser in the College of Education and Health Professions.

Latin American and Latino Studies (LAST)

Kirstin Erickson
Director of Studies
330 Old Main
479-575-5600
http://last.uark.edu/

Students interested in Latin America and wishing to maximize their potential for academic, business, professional, or government careers related to the area, may earn a second major or a minor in Latin American and Latino studies together with a primary major in another discipline in Fulbright College. Advice on appropriate combinations of Latin American and Latino studies with other primary majors as well as individual approval of such combinations may be obtained from the Latin American and Latino studies program director. New students in this program must officially declare both majors and notify the Latin American and Latino studies program director. Degree checks must also be cleared with the program director. Freshmen and sophomores considering this program are advised to begin their study of Spanish or Portuguese as early as possible.

Requirements for a Second Major in Latin American and Latino Studies

In addition to the requirements of a primary departmental major, students pursuing a second major in Latin American and Latino Studies must complete the following:

Language Competence: The student must complete SPAN 2013, PORT 2013, or equivalent. Provisions are available for recognition of
language skills gained by other means than formal course work taken at the University of Arkansas: See information under the entry in the department of world languages. Further functional work in Spanish or Portuguese as well as study and residence in a Latin American nation can serve to strengthen language competence and are encouraged.

**Colloquium:** The student must complete at least three hours in the interdepartmental colloquium, LAST 4003. The colloquium may be repeated, with the advisor’s approval, provided the topic is different.

**Electives:** The student must complete 18 hours, in addition to the Colloquium (LAST 4003), and the language requirements described above, and must complete at least 12 hours from among the electives listed above. Electives must include courses from at least two different departments.

1. Courses must be selected from at least three different departments, any one department.

The following courses may be taken in fulfillment of elective requirements:

**Anthropology**
- ANTH 2013 Introduction to Latin American Studies (Irregular) 3
- ANTH 3503 Power and Popular Protest in Latin America (Irregular) 3
- ANTH 3553 Religion in Latin America (Irregular) 3
- ANTH 4263 Identity and Culture in the U.S.-Mexico Borderlands (Irregular) 3

**Art History**
- ARHS 4563 Pre-Columbian Art (Irregular) 3
- ARHS 4563H Honors Pre-Columbian Art (Irregular) 3
- ARHS 4573 Artists of New Spain (Irregular) 3
- ARHS 4573H Honors Artists of New Spain (Irregular) 3

**Economics**
- ECON 3843 Economic Development, Poverty & the Role of the World Bank and IMF in Low-Income Countries (Sp, Fa) 3
- ECON 3853 Emerging Markets (Fa) 3

**English**
- ENGL 3543 Topics in U.S. Latino/Latina Literature and Culture (Irregular) (English) 3
- ENGL 4523 Studies in U.S. Latino/Latina Literature and Culture (Irregular) 3

**History**
- HIST 3073 Women and Gender in Modern Latin American History (Irregular) 3
- HIST 3193 The Making of the Modern Caribbean (Fa) 3
- HIST 3203 Colonial Latin America (Odd years, Fa) 3
- HIST 3213 Modern Latin America (Even years, Sp) 3
- HIST 3283 U.S. Latinos and Latinas through Film (Sp) 3
- HIST 3303 U.S. Immigration History (Sp) 3
- HIST 3313 Latinos and Latinas in the U.S. (Fa) 3
- HIST 3843 Special Topics in Latin American and Caribbean History (Irregular) 3
- HIST 4173 The Latin American City (Irregular) 3
- HIST 4233 The Atlantic World, 1400-1850 (Irregular) 3
- HIST 4443 Frontiers and Borderlands in Colonial Latin America (Irregular) 3
- HIST 4743 The Cold War in Latin America: Revolutions, Violence, and Politics (Irregular) 3
- HIST 4783 History of Modern Mexico (Odd years, Sp) 3

- SPAN 5253 Colonial Literature and Culture (Irregular) 3
- SPAN 5393 19th Century Spanish American Literature (Irregular) 3
- SPAN 5403 Spanish American Theatre (Irregular) 3
- SPAN 5463 20th Century Spanish American Literature (Irregular) 3
- SPAN 5883 Indigenous Literatures (Irregular) 3

**Requirements for a Minor in Latin American and Latino Studies:**
- Students wishing to minor in Latin American and Latino studies must fulfill the Colloquium (LAST 4003) and the language requirements described above, and must complete at least 12 hours from among the electives listed above. Electives must include courses from at least two different departments.
academic departments. Included in the 12 hours may be 3 additional hours of LAST 4003, provided the topic is different.

Requirements for Honors in Latin American and Latino Studies: The Honors Program in Latin American and Latino studies gives junior and senior students of high ability the opportunity to enroll in enriched courses and conduct independent research culminating in an honors thesis. In addition to satisfying the general Fulbright College requirements for graduation and the basic eligibility requirements for honors as established by the Honors Council, candidates for honors in Latin American and Latino studies must complete 12 hours of honors credit in partial satisfaction of requirements for the co-major. One to six of these may be thesis hours (LAST 399VH). The preferred method for satisfying the remaining hours is to enroll in the colloquium at least once for honors credit (LAST 4003H) and to take relevant honors colloquia or graduate courses (with permission) in one of the departments contributing to this interdisciplinary area study. The thesis committee shall include a representative from the major discipline (in the case of multiple majors, from the discipline contributing most significantly to the topic). Successful completion of these requirements will be recognized by the award of the distinction “Latin American and Latino Studies Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in exceptional cases and are based upon the whole of the candidate’s program of honors studies.

fulbright.uark.edu/departments/math

The Department of Mathematical Sciences is committed to high-level mathematics instruction, preparing students for careers in secondary education, actuarial science and industry, and for entrance into graduate studies in mathematics and statistics. The department offers two majors, one leading to a Bachelor of Arts degree and a second leading to a Bachelor Science degree.

The Bachelor of Arts degree is often sought by future secondary education majors or by students wishing a broader exposure to the humanities. The Bachelor of Science degree is sought by students who intend to go on to graduate studies or who would like a deeper and broader understanding of higher mathematics. The Department of Mathematical Sciences is committed to the values of a broad, interdisciplinary education, highlighting the utility and value of the mathematics degree in a wide variety of careers and disciplines.

Enrollment in or completion of any course at the level of MATH 2554 or higher is required to enter into the mathematics program.

Advising Note: Students in Fulbright College of Arts and Sciences who, in the opinion of the Department of Mathematical Sciences, need additional work in the fundamentals are required to take MATH 0003. Using the student’s record and their ACT or Mathematics Placement Test scores, a student’s adviser will suggest enrollment in appropriate courses (a mathematics ACT score below 19 indicates placement in MATH 0003).

Requirements for a Major in Mathematics, B.A. Degree: Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 81), the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), and the following course requirements. Bolded courses from the list below may be applied to portions of the University Core requirements.

Eight hours from the following science courses: 8

Phys 2054
University Physics I (ACTS Equivalency = Phys 2034) (Sp, Su, Fa)

Phys 2074
University Physics II (ACTS Equivalency = Phys 2044 Lecture) (Sp, Su, Fa)

An approved course with substantial programming experience, typically satisfied by CSCE 2004. Other courses may be applied towards this requirement with prior departmental approval.

Completion of a minor other than in Mathematics or Statistics, completion of the UTeach curriculum, completion of an additional major or completion of the Four-Year Fulbright Honors Core for a Bachelor of Arts. Hours required will vary.

Major Course Requirements

MATH 2574 Calculus III (ACTS Equivalency = Math 2603) (Sp, Su, Fa) (MATH 2554 and MATH 2564 are prerequisites) 4

MATH 2803 Transition to Advanced Mathematics (Sp, Fa) 3

MATH 3093 Abstract Linear Algebra (Sp, Fa) 3

MATH 3113 Introduction to Abstract Algebra I (Sp, Fa) 3

MATH 3513 Elementary Analysis (Sp, Fa) 3

MATH 4933 Mathematics Major Seminar (Sp, Fa) 3

Twelve semester hours of courses in mathematics selected from MATH 2584 or MATH and STAT courses numbered at the 3000-level or higher.

The completion of a senior writing project under the direction of a faculty member. This is typically carried out in MATH 4933, or is satisfied by an honors thesis.

It is recommended that MATH 2803 be taken as early as possible in the program.

Mathematics B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

\(^1\) Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).

\(^2\) Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Requirements for a Major in Mathematics, B.S. Degree:

Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 81), the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), and the following liberal arts and major course requirements. Bolded courses from the list below may be applied to portions of the University Core requirements.

Eight total hours from one of the following natural science sequences: 8

**Biology:**

<table>
<thead>
<tr>
<th>BIOL 1543 &amp; BIOL 1541L</th>

</tbody>
</table>

Completion of eight additional hours at the 3000-level or higher not in Mathematics or Statistics chosen with department approval, completion of the UTeach curriculum, or completion of the Fulbright Four Year Honors Core for a Bachelor of Science degree. (Hours required will vary.)

As a part of the requirements for a B.S. degree with a major in mathematics, the student must also complete the following 27 hours:

<table>
<thead>
<tr>
<th>MATH 2574</th>
<th>Calculus III (ACTS Equivalency = MATH 2603) (Sp, Su, Fa)</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2584</td>
<td>Elementary Differential Equations (Sp, Su, Fa)</td>
</tr>
<tr>
<td>MATH 2803</td>
<td>Transition to Advanced Mathematics (Sp, Su, Fa)</td>
</tr>
<tr>
<td>MATH 3093</td>
<td>Abstract Linear Algebra (Sp, Fa)</td>
</tr>
<tr>
<td>MATH 3113</td>
<td>Introduction to Abstract Algebra I (Sp, Fa)</td>
</tr>
<tr>
<td>MATH 4513</td>
<td>Advanced Calculus I (Sp, Fa)</td>
</tr>
<tr>
<td>MATH 4933</td>
<td>Mathematics Major Seminar (Sp)</td>
</tr>
<tr>
<td>CSCE 2004</td>
<td>Programming Foundations I (Sp, Fa)</td>
</tr>
</tbody>
</table>

And the completion of a senior writing project under the direction of a faculty member.\(^1\)

It is recommended that MATH 2803 be taken as early as possible in the program.

\(^1\) This is typically carried out in MATH 4933 or satisfied with an honors senior thesis.

**Concentration 1 (Applied)**

A program for the student who wishes to prepare for either applied work in mathematics or graduate work in some field other than mathematics or statistics. Requirements:

<table>
<thead>
<tr>
<th>STAT 3013</th>
<th>Introduction to Probability (Sp, Su, Fa)</th>
</tr>
</thead>
<tbody>
<tr>
<td>or STAT 5103</td>
<td>Introduction to Probability Theory (Fa)</td>

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

### Requirements for a Major in Mathematics, B.S. Degree:

Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 81), the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), and the following liberal arts and major course requirements. Bolded courses from the list below may be applied to portions of the University Core requirements.

Eight total hours from one of the following natural science sequences: 8

**Biology:**

- BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) (Sp, Su, Fa)
- BIOL 1541L Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) (Sp, Su, Fa)

and choose one of the following:

- BIOL 1603 Principles of Zoology (ACTS Equivalency = BIOL 1054 Lecture) (Su, Fa)
- BIOL 1601L Principles of Zoology Laboratory (ACTS Equivalency = BIOL 1054 Lab) (Su, Fa)

**Chemistry:**

- MATH 4423 Introduction to Partial Differential Equations (Sp, Su, Fa) | 3 |
- MATH 4353 Numerical Linear Algebra (Sp) | 3 |
- Humanities or fine arts University/State Core requirement, as needed | 3 |
- General Electives or coursework, as needed | 6 |
- Year Total: | 14 | 15 |
CHEM 1103 University Chemistry I (ACTS Equivalency = & CHEM 1101LCHEM 1414 Lecture) (Su, Fa) and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab) (Sp, Su, Fa)

and

CHEM 1123 University Chemistry II (ACTS Equivalency = & CHEM 1121LCHEM 1424 Lecture) (Sp, Su, Fa) and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) (Sp, Su, Fa)

Geology:

GEOS 1113 General Geology (ACTS Equivalency = GEOL 1114 Lecture) (Sp, Su, Fa) and General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab) (Sp, Su, Fa)

and

GEOS 1133 Earth Science (ACTS Equivalency = GEOL 1124 Lecture) (Sp, Fa) and Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab) (Sp, Fa)

Physics:

PHYS 2054 University Physics I (ACTS Equivalency = PHYS 2034) (Sp, Su, Fa)

and

PHYS 2074 University Physics II (ACTS Equivalency = PHYS 2044 Lecture) (Sp, Su, Fa)

Completion of eight additional hours at the 3000-level or higher not in Mathematics or Statistics chosen with department approval, completion of the UAteach curriculum, or completion of the Fulbright Four Year Honors Core for a Bachelor of Science degree. (Hours required will vary.)

As a part of the requirements for a B.S. degree with a major in mathematics, the student must also complete the following 27 hours:

MATH 2574 Calculus III (ACTS Equivalency = MATH 2603) (Sp, Su, Fa) 4

MATH 2584 Elementary Differential Equations (Sp, Su, Fa) 4

MATH 2803 Transition to Advanced Mathematics (Sp, Fa) 3

MATH 3093 Abstract Linear Algebra (Sp, Fa) 3

MATH 3113 Introduction to Abstract Algebra I (Sp, Fa) 3

MATH 4513 Advanced Calculus I (Sp, Fa) 3

MATH 4933 Mathematics Major Seminar (Sp) 3

CSCE 2004 Programming Foundations I (Sp, Fa) 4

And the completion of a senior writing project under the direction of a faculty member. 1

It is recommended that MATH 2803 be taken as early as possible in the program.

1 This is typically carried out in MATH 4933 or satisfied with an honors senior thesis.

**Concentration 2 (Pure)**

A program for the student who is seeking a broad background in mathematics or who wishes to study mathematics at the graduate level.

Requirements:

MATH 4113 Introduction to Abstract Algebra II (Sp) 3

or MATH 4523 Advanced Calculus II (Sp)

MATH 4443 Complex Variables (Sp) 3

Four MATH or STAT electives numbered 3000 or higher (students may also take CSCE 4133).

**Mathematics, B.S., Concentration 2 (Pure) Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program.

Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

And the completion of a senior writing project under the direction of a faculty member.  

It is recommended that MATH 2803 be taken as early as possible in the program.
This is typically carried out in MATH 4933 or satisfied with an honors senior thesis.

Concentration 3 (Statistics)
A program for the student who wishes to emphasize statistics or who intends to study statistics at the graduate level. Requirements:

**Mathematics, B.S., Concentration 3 (Statistics)**

**Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program.

Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Requirements for a Minor in Mathematics:
Medical Sciences and Dentistry

See under Combined Academic and Medical or Dental Degree (p. 183) and also the discussion of the pre-medical programs and the pre-dental program under the section on Health Related Professions (p. 186).

Medieval and Renaissance Studies (MRST)

Joshua Byron Smith, Director
Timothy Nelson, Assistant Director
333 Kimpel Hall
479-575-4301

Medieval and Renaissance Studies website (http://mrst.uark.edu)

The Medieval and Renaissance studies program is administered by the Humanities program. This program offers a minor that encourages undergraduate students to pursue an interdisciplinary study of all aspects of the Middle Ages and Renaissance as a complement to their major field of study.

Requirements for a Minor in Medieval and Renaissance Studies (MRST): (15-16 credit hours) Students must take MRST 2013 or HIST 1113 or HIST 1113H, or HUMN 1124H and complete at least 12 additional credit hours selected from the courses listed below. Other courses covering the chronological period between 500 C.E. and 1700 C.E. may also be accepted if approved by the program director or co-director. A maximum of 6 hours may be presented from courses taken in the student’s designated major.

Required Core Course
Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MRST 2013</td>
<td>Introduction to Medieval and Renaissance Studies (Even years, Fa)</td>
</tr>
<tr>
<td>or HIST 1113</td>
<td>Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) (Sp, Fa)</td>
</tr>
<tr>
<td>or HIST 1113H</td>
<td>Honors Institutions and Ideas of World Civilizations I (Irregular)</td>
</tr>
<tr>
<td>or HUMN 1124H</td>
<td>Honors Equilibrium of Cultures 500-1600 (Sp)</td>
</tr>
</tbody>
</table>

Twelve hours to be chosen from the following (a maximum of six hours may be presented from courses taken in the student’s major department):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MRST 2013</td>
<td>Introduction to Medieval and Renaissance Studies (Even years, Fa) (Note: MRST 2013/2013H may only satisfy either the MRST core course requirement or 3 credits of the additional MRST-approved coursework requirement, but not both.)</td>
</tr>
<tr>
<td>or MRST 2013H</td>
<td>Introduction to Medieval and Renaissance Studies (Even years, Fa)</td>
</tr>
<tr>
<td>MRST 3013</td>
<td>Special Topics in Medieval Studies (Irregular)</td>

479-575-4157
http://mest.uark.edu
mest@uark.edu

Students interested in the Middle East and North Africa and wishing to maximize their potential for academic, business, professional, or government careers related to the area, may earn a second major in Middle East studies with a required primary major in an approved area such as anthropology, economics, world languages, geography, history, journalism, and political science. New students entering the program are required to notify both the major adviser and the MEST director of their intention to participate. Freshmen and sophomores considering this program are advised to begin their study of a Middle East language as early as possible. Students may also earn a minor in Middle East studies.

Requirements for a Second Major in MEST. To attain a second major in MEST, the student is required to have a primary major in one of the following approved areas: anthropology, communication, economics (BA), French, geography, history, international relations, journalism, political science, sociology, or Spanish. Up to nine hours of courses in the primary major with Middle East content may be counted toward the MEST combined major with the permission of the MEST director.

Total Hours Required: (30 semester hours) Students must complete 3 hours in MEST 2013 Introduction to Middle East Studies (Fa), 3 hours in MEST 4003 Middle East Studies Colloquium (Sp), 6 hours of Arabic language beyond ARAB 2016, and 18 hours in additional MEST or MEST-approved core courses. MEST courses must be in at least two disciplines, with no fewer than 9 hours of MEST core courses in one discipline.

Introduction to Middle East Studies: (3 hours) Students must complete 3 hours of Introduction to Middle East Studies (MEST 2013).

Middle East Studies Colloquium: (3 hours) Students must complete at least 3 hours in MEST 4003 Middle East Studies Colloquium (Sp). The Colloquium may be repeated with a change of subject for a maximum of 6 credits.

Arabic Requirement: (6 hours of MEST credit) Students must complete 6 hours of Arabic language beyond (ARAB 2013 or ARAB 2016). Courses approved by the MEST director and completed in a summer intensive Arabic program or study-abroad program in an Arabic speaking country may substitute for all or part of this requirement.

MEST Core Courses: To count for MEST credit, courses not on the following list must be approved by the student’s MEST major adviser and the MEST director. Individualized readings, directed research courses, or courses in a second Middle Eastern language may count as MEST core courses with the approval of the MEST major adviser and MEST director.

MEST Core Courses
ANTH 3123 The Anthropology of Religion (Sp) 3
ANTH 3033 Egyptology (Irregular) 3
ANTH 4123 Ancient Middle East (Irregular) 3
ANTH 4256 Archeological Field Session (Su) 6
ANTH 4513 African Religions: Gods, Witches, Ancestors (Irregular) 3
ANTH 4533 Middle East Cultures (Sp) 3
ANTH 4913 Topics of the Middle East (Irregular) 3
GEOS 2003 World Regional Geography (ACTS Equivalency = GEOG 2103) (Sp, Fa) 3
GEOS 4043 Geography of the Middle East (Fa) 3
GEOS 410V Special Problems in Geosciences (Fa) 1-6
HIST 3033 Islamic Civilization (Irregular) 3
HIST 3043 History of the Modern Middle East (Irregular) 3
HIST 3473 Palestine and Israel in Modern Times (Irregular) 3
HIST 3923H Honors Colloquium (Irregular) (approved selected topics) 3
HIST 4353 Middle East, 600-1250 (Even years, Fa) 3

Total Hours Required: (30 semester hours) Students must complete 3 hours in MEST 2013 Introduction to Middle East Studies (Fa), 3 hours in MEST 4003 Middle East Studies Colloquium (Sp), 6 hours of Arabic language beyond ARAB 2016, and 18 hours in additional MEST or MEST-approved core courses. MEST courses must be in at least two disciplines, with no fewer than 9 hours of MEST core courses in one discipline.

Introduction to Middle East Studies: (3 hours) Students must complete 3 hours of Introduction to Middle East Studies (MEST 2013).

Middle East Studies Colloquium: (3 hours) Students must complete at least 3 hours in MEST 4003 Middle East Studies Colloquium (Sp). The Colloquium may be repeated with a change of subject for a maximum of 6 credits.

Arabic Requirement: (6 hours of MEST credit) Students must complete 6 hours of Arabic language beyond (ARAB 2013 or ARAB 2016). Courses approved by the MEST director and completed in a summer intensive Arabic program or study-abroad program in an Arabic speaking country may substitute for all or part of this requirement.

MEST Core Courses: To count for MEST credit, courses not on the following list must be approved by the student’s MEST major adviser and the MEST director. Individualized readings, directed research courses, or courses in a second Middle Eastern language may count as MEST core courses with the approval of the MEST major adviser and MEST director.
The Honors Program in Middle East Studies gives junior and senior students of high ability the opportunity to enroll in enriched courses and conduct independent research culminating in an honors thesis. In addition to satisfying the general Fulbright College requirements for graduation and the basic eligibility requirements for honors as established by the Honors Council, candidates for honors in Middle East Studies must complete 12 hours of honors credit in partial satisfaction of requirements for the co-major. One to 6 of these hours may be thesis hours (MEST 399V).

The preferred method for satisfying the remaining hours is to enroll in the colloquium at least once for honors credit (MEST 4003H) and to take relevant honors colloquia or graduate courses (with permission) in one of the departments contributing to this interdisciplinary area study. The thesis committee shall include a representative from the major discipline (in the case of multiple majors, from the discipline contributing most significantly to the topic). Successful completion of these requirements will be recognized by the award of the distinction "Middle East Studies Scholar Cum Laude" at graduation. Higher degree distinctions are recommended only in exceptional cases and are based upon the whole of the candidate’s program of honors studies.

Ronda Mains
Chair of the Department
The Department of Music offers two music majors, one leading to a Bachelor of Music and a second leading to a Bachelor of Arts. The department also offers a minor in music. The Bachelor of Music offers the choice of 11 concentrations as well as a program with elective studies in business.

The music department strives to enrich and inspire the human mind and spirit through the pursuit of excellence in creative activity, research, teaching, and service. The Department of Music is an accredited institutional member of the National Association of Schools of Music. The requirements for entrance and for graduation as set forth in this catalog are in accordance with the published regulations of that Association.

**General Music Requirements**

To achieve junior standing in the curriculum leading to the Bachelor of Arts degree with a major in music and the Bachelor of Music degree, the student must have completed 56 hours and must have maintained a cumulative grade average of “C” in all music courses, with the exception of ensemble, by the end of the fourth semester. The student must also have earned a grade average of not less than “B” in the major applied field of study during the sophomore year. This standing is prerequisite to all 3000-level courses and above in music.

Pursuant to enrolling in applied music courses, all music majors must audition for the music department faculty. Private study of the primary voice/instrument for music majors requires the successful completion of an audition for the instructor and consent of the Department of Music. Music majors are expected to own their own instruments. Some instruments are provided for student use only in certain circumstances and at the discretion of the music department.

All music majors, with exceptions noted below, are required to enroll in MUEN 1411 Men’s Chorus I (Sp, Fa) or MUEN 1591 Women’s Chorus I (Sp, Fa) during the first year of residence. Exceptions to the requirement would include all students pursuing the Bachelor of Music (B.M.) degree for whom voice or piano is the major applied area.

**Piano Proficiency Requirement**: Students pursuing a Bachelor of Music degree must pass a piano proficiency examination upon entering the University of Arkansas or must register in piano classes until this requirement is met. Students with previous piano training may take a piano placement exam and be advised to omit one or more semesters of Class Piano (MUAC 1221, MUAC 1231, MUAC 2221). Students will receive college credit for the omitted class piano courses if they validate their higher placement by passing an advanced piano course with a grade of “B” or better.

On the basis of prior study in music, a student may be advised to omit one or more semesters of Aural Perception (MUTH 1621, MUTH 1631, MUTH 2621). Students will receive college credit for the omitted aural perception courses when they have validated their higher placement by passing the course in which they are placed with a grade of “B” or better.

**Writing Requirement**: Students can meet the Fulbright College writing requirement by submission of a satisfactory term paper for MUED 4112 (music education majors) or MUHS 4253 (all other music majors).

**Requirements for a Major in Music leading to a Bachelor of Music Degree**

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

- A World Language Course at the 1013 Elementary II Level, 3
- Bachelor of Music Degree students pursuing the Voice Performance Concentration must complete this language requirement in either French, German, or Italian.

Music B.M., Music Performance-Piano
Eight Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

### Music B.M., Music Performance-String

#### Eight Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.

### Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

**Students must complete:**

- A World Language Course at the 1013 Elementary II Level. 3
- Bachelor of Music Degree students pursuing the Voice Performance Concentration must complete this language requirement in either French, German, or Italian.
- HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) (Sp, Fa) | 3 |
- HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) (Sp, Fa) | 3 |
- MUSY 2003 Music in World Cultures (Sp, Fa) | 3 |
- or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa) | 3 |

And all of the specific requirements for one of the following concentrations. 1

1. All students must complete two semesters of MUAP 110V with a grade of “A” or “B” and two semesters of MUAP 210V with a grade of “A” or “B” before enrolling in MUAP 310V.

### Woodwind, Brass, or Percussion Performance Concentration

Science University/state core lecture with corequisite lab requirement

- MUTH 4612 Orchestration (Sp) | 2 |
- MUSY 2003 or WLIT 1113, World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa) | 3 |

And all of the specific requirements for one of the following concentrations.

1. All students must complete two semesters of MUAP 110V with a grade of “A” or “B” and two semesters of MUAP 210V with a grade of “A” or “B” before enrolling in MUAP 310V.

### Total Units in Sequence:

120

1. Meets 40-hour advanced credit hour requirement.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.

### Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

- A World Language Course at the 1013 Elementary II Level.
- Bachelor of Music Degree students pursuing the Voice Performance Concentration must complete this language requirement in either French, German, or Italian.

| HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) (Sp, Fa) | 3 |
| HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) (Sp, Fa) | 3 |
| MUSY 2003 Music in World Cultures (Sp, Fa) | 3 |
| or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa) | 3 |

### Composition Concentration

| MLIT 1013 Music and Society (Sp, Fa) | 3 |
| MUTH 1603 Music Theory I (Sp) | 3 |
| MUTH 1621 Aural Perception I (Sp) | 1 |
| MUTH 1631 Aural Perception II (Fa) | 1 |
| MUTH 2603 Music Theory II (Fa) | 3 |
| MUTH 2621 Aural Perception III (Sp) | 1 |
| MUTH 2631 Aural Perception IV (Fa) | 1 |

Select two from the following:

- MUTH 3603 18th Century Counterpoint (Sp)
- MUTH 3623 Music Perception (Even years, Sp)
- MUTH 3723 Jazz Analysis (Irregular)
- MUTH 477V Special Topics in Music Theory (Irregular)

| MUTH 3613 Form and 20th Century Techniques (Fa) | 3 |
| MUTH 4612 Orchestration (Sp) | 2 |
| MUAC 1221 Piano Class for Music Majors I (Sp) | 1 |
| MUAC 1231 Piano Class for Music Majors II (Fa) | 1 |
| MUAC 2221 Piano Class for Music Majors III (Sp) | 1 |
| MUAC 2231 Piano Class for Music Major IV (Fa) | 1 |
| MUAC 2112 Music Technology (Sp, Su, Fa) | 2 |

#### Total Hours

- **Fall**: 15
- **Spring**: 17
- **Total**: 79

1. Students majoring in Composition must receive a grade of “B” or higher in MUTH 1603, MUTH 2603, and MUTH 3613.

2. Demonstration of piano skills appropriate for a composer; see Piano Proficiency Requirement above.

### Music B.M., Music Composition

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Hours  73

1 Students majoring in Theory must receive a grade of “B” or higher in MUTH 1603, MUTH 2603, and MUTH 3613.
2 Demonstration of piano skills appropriate for a composer; see Piano Proficiency Requirement above.

Music B.M., Music Theory
Eight Semester Degree Program
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Students who wish to apply for admission to the internship program in music education must complete the following stages.

Stage I: Complete an Evaluation for Internship

Students must meet the following criteria to be cleared for the internship:

1. Declare the major in music education in the Fulbright Advising Center, 518 Old Main.
2. Successful completion of the PRAXIS I test by meeting or exceeding the Arkansas Department of Education cut-off scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013, ENGL 1023, and MATH 1203.
3. Obtain a "C" or better in the following pre-education core courses: CIED 3023, CIED 3033. (PSYC 2003 is a prerequisite.)
4. Obtain a "C" or better in MUED 2012, MUED 3021, MUED 3833, MUED 4112, and one of MUED 4273, or MUED 4283, or MUED 4293.
5. Submit an online application to teach education (see the Teacher Education Office, Graduate Education Building Room 339, 518 Old Main. The completed form must be returned to the Teacher Education Office, Graduate Education Building Room 339, no later than the stated deadline.
6. Complete the B.M. degree with a cumulative GPA of 2.75 or higher. The degree must be eligible to be posted to your University of Arkansas transcript at the Registrar's Office prior to internship.
7. Obtain departmental clearance for internship based on successful completion of portfolios, evaluation for internship, GPA requirements, course work requirements, selected written recommendations, an interview, and/or other requirements specified by your program.

All requirements in Stage I must be met to be cleared for the internship. Please contact the Director of Field Placement and Licensure, Graduate
Stage II: Internship

1. Complete the one-semester internship at an approved site in Washington or Benton counties.

2. Complete PRAXIS II requirements if planning to apply for Arkansas Licensure (recommended, but not required for degree completion). See your adviser for completion dates.

NOTE: Students should always consult the Licensure Officer, Graduate Education Building Room 338, for any licensure requirement changes. Students will not be licensed to teach in Arkansas until they have met all requirements for licensure as set forth by the Arkansas Department of Education.

Usually licensure in another state is facilitated by acquiring a license in Arkansas. An application in another state must be made on the application form of that state, which can be obtained by request from the State Teacher Licensure office in the capital city. An official transcript should accompany the application. In many instances the applications are referred to the Licensure Officer, Graduate Education Building Room 338.

Music B.M., Music Education-Instrumental, Woodwind, Brass, Percussion

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Stage I: Complete an Evaluation for Internship

Music education must complete the following stages. Students who wish to apply for admission to the internship program in the fall should do so by August 1, or fall internship, GPA requirements, course work requirements, selected written recommendations, an interview, and/or other requirements specified by your program.

All requirements in Stage I must be met to be cleared for the internship. Please contact the Director of Field Placement and Licensure, Graduate Education Building Room 339, College of Education and Health Professions for more information.

Stage II: Internship

1. Complete the one-semester internship at an approved site in Washington or Benton counties.
2. Complete PRAXIS II requirements if planning to apply for Arkansas Licensure (recommended, but not required for degree completion). See your adviser for completion dates.

NOTE: Students should always consult the Licensure Officer, Graduate Education Building Room 338, for any licensure requirement changes. Usually licensure in another state is facilitated by acquiring a license in Arkansas. An application in another state must be made on the application form of that state, which can be obtained by request from the State Teacher Licensure office in the capital city. An official transcript should accompany the application. In many instances the applications are referred to the Licensure Officer, Graduate Education Building Room 338.

16 Total Units in Sequence:
MUED 4283  Teaching Vocal Music (Even years, Fa)  3
Total Hours  70

Students who wish to apply for admission to the internship program in music education must complete the following stages.

Stage I: Complete an Evaluation for Internship

Students must meet the following criteria to be cleared for the internship:

1. Declare the major in music education in the Fulbright Advising Center, 518 Old Main.
2. Successful completion of the PRAXIS I test by meeting or exceeding the Arkansas Department of Education cut-off scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013, ENGL 1023, and MATH 1203.
3. Obtain a “C” or better in the following pre-education core courses: CIED 3023, CIED 3033. (PSYC 2003 is a prerequisite.)
4. Obtain a “C” or better in MUED 2012, MUED 3021, MUED 3833, MUED 4112, and one of MUED 4273, or MUED 4283, or MUED 4293.
5. Submit an online application to teach education (see the Teacher Education Application Fee). The evaluation form must be completed by October 1 prior to doing a fall internship or March 1 prior to doing a spring internship. The completed form must be returned to the Teacher Education Office, Graduate Education Building Room 339, no later than the stated deadline.
6. Complete the B.M. degree with a cumulative GPA of 2.75 or higher. The degree must be eligible to be posted to your University of Arkansas transcript at the Registrar’s Office prior to internship.
7. Obtain departmental clearance for internship based on successful completion of portfolios, evaluation for internship, GPA requirements, course work requirements, selected written recommendations, an interview, and/or other requirements specified by your program.

All requirements in Stage I must be met to be cleared for the internship. Please contact the Director of Field Placement and Licensure, Graduate Education Building Room 339, College of Education and Health Professions for more information.

Stage II: Internship

1. Complete the one-semester internship at an approved site in Washington or Benton counties.
2. Complete PRAXIS II requirements if planning to apply for Arkansas Licensure (recommended, but not required for degree completion). See your adviser for completion dates.

NOTE: Students should always consult the Licensure Officer, Graduate Education Building Room 338, for any licensure requirement changes. Students will not be licensed to teach in Arkansas until they have met all requirements for licensure as set forth by the Arkansas Department of Education.

Usually licensure in another state is facilitated by acquiring a license in Arkansas. An application in another state must be made on the application form of that state, which can be obtained by request from the State Teacher Licensure office in the capital city. An official transcript should accompany the application. In many instances the applications are referred to the Licensure Officer, Graduate Education Building Room 338.

Music B.M., Music Education-Choral/Voice  
Eight Semester Degree Program  

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Hours: 120

Students who wish to apply for admission to the internship program in music education must complete the following stages.
**Stage I: Complete an Evaluation for Internship**

Students must meet the following criteria to be cleared for the internship:

1. Declare the major in music education in the Fulbright Advising Center, 518 Old Main.
2. Successful completion of the PRAXIS I test by meeting or exceeding the Arkansas Department of Education cut-off scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013, ENGL 1023, and MATH 1203.
3. Obtain a “C” or better in the following pre-education core courses: CIED 3023, CIED 3033. (PSYC 2003 is a prerequisite.)
4. Obtain a “C” or better in MUED 2012, MUED 3021, MUED 3833, MUED 4112, and one of MUED 4273, or MUED 4283, or MUED 4293.
5. Submit an online application to teach education (see the Teacher Education Application Fee). The evaluation form must be completed by October 1 prior to doing a fall internship or March 1 prior to doing a spring internship. The completed form must be returned to the Teacher Education Office, Graduate Education Building Room 339, no later than the stated deadline.
6. Complete the B.M. degree with a cumulative GPA of 2.75 or higher. The degree must be eligible to be posted to your University of Arkansas transcript at the Registrar’s Office prior to internship.
7. Obtain departmental clearance for internship based on successful completion of portfolios, evaluation for internship, GPA requirements, course work requirements, selected written recommendations, an interview, and/or other requirements specified by your program.

All requirements in Stage I must be met to be cleared for the internship. Please contact the Director of Field Placement and Licensure, Graduate Education Building Room 339, College of Education and Health Professions for more information.

**Stage II: Internship**

1. Complete the one-semester internship at an approved site in Washington or Benton counties.
2. Complete PRAXIS II requirements if planning to apply for Arkansas Licensure (recommended, but not required for degree completion). See your adviser for completion dates.

**NOTE:** Students should always consult the Licensure Officer, Graduate Education Building Room 338, for any licensure requirement changes. Students will not be licensed to teach in Arkansas until they have met all requirements for licensure as set forth by the Arkansas Department of Education.

Usually licensure in another state is facilitated by acquiring a license in Arkansas. An application in another state must be made on the application form of that state, which can be obtained by request from the State Teacher Licensure office in the capital city. An official transcript should accompany the application. In many instances the applications are referred to the Licensure Officer, Graduate Education Building Room 338.

**Music B.M., Music Education-Choral/Piano Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Year Total: 17 13

Total Units in Sequence: 120

Note: Licensure for teaching in the state of Arkansas requires one additional semester of internship beyond and after the completion of degree requirements. The courses required during the semester of internship are MUED 4031 Seminar for Professional Entry into Music Education (Sp, Fa), MUED 451V Student Teaching: Elementary Music (Sp, Fa) (4 or 8 hours), and MUED 452V Student Teaching: Secondary Music (Sp, Fa) (4 or 8 hours).

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations.
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.
Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

- A World Language Course at the 1013 Elementary II Level.
- Bachelor of Music Degree students pursuing the Voice Performance Concentration must complete this language requirement in either French, German, or Italian.

**Fulbright College of Arts and Sciences Graduation Requirements**

In addition to the University Core requirements (p. 81) and the Studies in Business Requirements for a Major in Music leading to a Bachelor of Music Degree, students must pursue a concentration and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in either area in music. Core requirement hours may vary by individual, based on plan that is specific to their vocal, instrumental or theoretical emphasis.

**University of Arkansas**

### Requirements for a Major in Music leading to a Bachelor of Music Degree with Elective Studies in Business

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met.

And all of the following:

- HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) (Sp, Fa) 3
- HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) (Sp, Fa) 3
- MUSY 2003 Music in World Cultures (Sp, Fa) or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa) 3

And all of the specific requirements for one of the following concentrations:

1. All students must complete two semesters of MUAP 110V with a grade of "A" or "B" and two semesters of MUAP 210V with a grade of "A" or "B" before enrolling in MUAP 310V.

### Requirements for a Major in Music leading to a Bachelor of Music Degree with Elective Studies in Business Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement
2. Meets 24-hour (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.
### Requirements for a Major in Music leading to a Bachelor of Arts Degree

This program is for undergraduates who wish to major in music as part of a liberal arts program. In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

Completion of 2013 Intermediate II of any World Language. ¹

</tbody>
</table>

4 hours of ensemble to be selected with the consent of their advisers.

1-5 hours of 3000- or 4000-level elective music courses as needed to complete 20 hours of 3000-plus level music courses.

**Total Hours**: 57-70

¹ This is usually accomplished through completion of a sequence of three language courses: 1013, 2003 and 2013.

---

### Music B.A.

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Requirements for a Minor in Music

A minimum of 18 semester hours in music courses to include MLIT 1013, MUTH 1603, MUTH 2603, and either MUHS 3703 or MUHS 3713; other courses to be determined by the student in consultation with a music faculty adviser. The student must notify the Department of Music of his/her intent to minor.

For requirements for advanced degrees in music, see the Graduate School Catalog.

Requirements for Departmental Honors in Music

The Departmental Honors Program in Music provides upper-division undergraduate students an opportunity to participate formally in scholarly, creative, or performance music activities. Honors candidates carry out independent study, research and performance under the guidance of the music faculty and participate in special honors classes and seminars. They must take 12 hours (which may include 6 hours of thesis) in Honors Studies.

Each honors student will be required to select an honors committee.

The committee will be comprised of the honors thesis adviser (a Music Department faculty member and major teacher in the area of the honors project), a second faculty member from the Music Department chosen by the student, a member from outside the music department chosen by the student, and a member of the Honors Council appointed by the Honors College. This committee is responsible for hearing and seeing the work of the student in the area of the honors project and will administer the oral examination to the candidate at the end of the last semester of the student’s work. The committee then recommends to the Honors Council whether or not the student receives honors in music. Outstanding student achievement will be recognized by awarding the distinction “Music Scholar Cum Laude” at graduation. The award of higher degree distinctions is
recommended only in truly exceptional cases and is based upon the whole of the candidate’s program of honors studies.

The student may elect to do the honors project in one of six areas: performance, music history and literature, theory, composition, music education, or ethnomusicology. Honors work may be done in an area other than the student’s major area that is, a student majoring in voice performance may elect to do honors work in music history, theory, or composition, etc.

If a student wishes to devise his or her own honors project in consultation with a supervising professor and with the permission of the department chair, he or she may be granted honors. If a student wishes to combine work in more than one field and if the committee approves, he or she may be granted honors in more than one area, although the designation on the diploma will read “in music.”

The requirements for work in each area are as follows:

1. Performance
   a. 2 semesters of MUAP 310VH or MUAP 410VH, with concurrent registration in MUAP 3201H and MUAP 4201H
   b. Other music department honors courses are recommended, see honors adviser. (A program file representing the student’s range of performance activities during the junior and senior years will be maintained for the department file and for the Honors Council. Compact discs of the junior and senior recitals will be filed with the Honors Office.)

2. History and Literature
   a. Junior year: MUHS 5973 Seminar in Bibliography and Methods of Research
   b. Senior year: MUSC 490VH Honors Essay

3. Theory
   a. Junior year: MUHS 5973 Seminar in Bibliography and Methods of Research
   b. Senior year: MUSC 490VH Honors Essay

4. Composition
   a. At least six hours of MUTH 364VH Honors Composition III or MUTH 464VH Honors Composition IV
   b. A full program of original compositions or equivalent.

5. Music Education
   a. Junior year: MUED 5513 Seminar: Resources in Music Education
   b. Senior year: MUSC 490VH Honors Essay

6. Ethnomusicology
   a. Junior year: MUHS 5973 Seminar in Bibliography and Methods of Research
   b. Senior year: MUSC 490VH Honors Essay

The Department of Philosophy offers an undergraduate major in philosophy as well as a combined major in philosophy and African and African American studies, both of which lead to a Bachelor of Arts degree. The department also offers a minor in philosophy.

The problems of philosophy include some of the deepest, most interesting, and most challenging questions that the human mind can raise. What is the difference between appearance and reality? What are the sources and limits of human knowledge? Does God exist? What is the origin of evil? Can computers think or have feelings? Do we have freedom of the will? Why be moral, and how is morality related to law? What is the proper scope of governmental authority? What is scientific explanation and why does it work? How does science differ from art? What is truth? What is the meaning of a word?

Philosophy cannot claim to have discovered fully adequate answers either to these questions or to the other questions that fall within its scope, but it has developed fruitful ways of addressing them, and it has found a number of partial answers that are both useful and exciting. Although the department’s bent is generally analytic, our course offerings cover a broad range and include every major period in the history of western philosophy and most of the major subfields of contemporary philosophy. Our areas of special concentration are the philosophy of mind, epistemology, and philosophy of religion.

For requirements for advanced degrees in philosophy, see the Graduate School Catalog (http://catalog.uark.edu/graduatescatalog/programsofstudy/philosophyphil).

Requirements for a Major in Philosophy

Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 81), the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), and following course requirements for the major. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

General Elective 3
ENGL 1023 Composition II (ACTS Equivalency = ENGL 1023) (Sp, Su, Fa) 3
University/State Core U.S. History or Fine Arts requirement 3
PHIL 2203 Logic (ACTS Equivalency = PHIL 1003) (Sp, Su, Fa) 3
General Elective 6
Year Total: 15 15

Second Year
Fall  Units  Spring
PHIL 4003 Ancient Greek Philosophy (Fa) 3
Select one of the following:
CLST 1003 Introduction to Classical Studies: Greece (Odd years, Fa) 3
HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) (Sp, Fa)
HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) (Sp, Fa) 3
University/State Core Social Science requirement 3
Science University/State Core Lecture and Corequisite Lab requirement 4
General Elective 3
PHIL 4033 Modern Philosophy-17th and 18th Centuries (Sp) 3
Advanced Level Elective 3
University/State Core Social Science requirement 3
General Electives 6
Year Total: 16 15

Third Year
Fall  Units  Spring
PHIL 3000-4000 Level Elective 3
PHIL 3000-4000 Level Elective 3
University/State Core Social Science requirement (as needed) or General Elective 3
Science University/State Core Lecture and Corequisite Lab requirement 4
Advanced Level Elective 3
PHIL course from 3000-4000 Level Elective 3
Advanced Level Elective 3
Advanced Level Elective 3
General Electives 6
Year Total: 16 15

Fourth Year
Fall  Units  Spring
PHIL course from 3000-4000 Level Elective 3
PHIL 3000-4000 Level Elective 3
General Electives 7-10
PHIL 4983 Capstone Course for Philosophy Majors (Sp) 3
PHIL 3000-4000 Level Elective 3
3000-4000 Level Elective 3
General Electives (as needed to total 120 degree credit hours) 3-6
Year Total: 14 14

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Requirements for a Minor in Philosophy
The minor requires 18 semester hours in philosophy to include PHIL 2203 or PHIL 4253, and either PHIL 4003 or PHIL 4033. A student may earn
either a minor or a combined major in philosophy but not both. A student must notify the department of his or her intent to minor.

Requirements for Honors in Philosophy: Both the College and the Departmental Honors Program in Philosophy provide undergraduate students with the opportunity to participate formally in scholarly philosophical activities, and allow for greater maturity in dealing with philosophical ideas through independent study. Admission to the Fulbright Honors Program is open to philosophy majors with a minimum, cumulative grade point average of 3.5 in all of their coursework. Honors candidates must complete a minimum of 12 hours of honors courses, which may include up to 6 hours of thesis. Honors candidates carry out independent study and research under the guidance of the philosophy faculty and participate in special honors classes, seminars, and colloquia. To successfully complete the required thesis, students should choose an honors thesis adviser as early as possible. An adviser should be selected, and an Honors Agreement completed, no later than the first semester in a student’s junior year.

Honors candidates must meet the college’s requirements for an honors degree. Students graduating with honors typically graduate with the distinction “Philosophy Scholar Cum Laude” at graduation. Higher degree distinctions (magna cum laude, summa cum laude) are awarded by the Honors Council, are recommended only in truly exceptional cases, and are based upon the whole of the candidate’s program of honors studies.

physics@uark.edu

Department of Physics website (http://www.uark.edu/depts/physics)

The Department of Physics offers two undergraduate majors, one leading to a Bachelor of Science degree in physics and a second leading to a Bachelor of Arts degree in physics.

Physicists ask questions and try to find answers to almost everything. If you have wondered about rainbows, thunderstorms, why stars shine, the colors of beetles, why curve balls curve, how the universe began, or how quarks and leptons interact – if you like to explore and figure out why things are the way they are – you might want to become a physicist.

The Bachelor of Science degree program is designed for students interested in professional employment or who want to pursue graduate work in physics or closely related fields such as astronomy, engineering, laser technology, or computational science. It offers the option of one of seven concentrations.

The Bachelor of Arts degree program provides a broad background in the physics and technology of today and tomorrow. Training in physics provides students with a unique background, the usefulness of which transcends the boundaries of the professional disciplines.

In our increasingly technological society, scientific literacy is ever more important for the successful employee. Physics, the most fundamental science, gives students the fascination of studying the deepest principles of the universe while preparing them for a wide range of practical employment.

For information on advanced degrees in physics, see the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programsofstudy/physicsphys).

Requirement for B.S. Degree with a Major in Physics

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

The student must present a minimum of 39 semester hours in physics* including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>ACTS Equivalency</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 2054</td>
<td>University Physics I (ACTS Equivalency = PHYS 2034)</td>

MATH 2574  Calculus III (ACTS Equivalency = MATH 2603)  
(Sp, Su, Fa)  4
MATH 2584  Elementary Differential Equations (Sp, Su, Fa)  4
MATH 3083  Linear Algebra (Sp, Su, Fa)  3

**Additional Science:**

At least 8 hours of other science chosen from CHEM 1103/ 
CHEM 1101L, CHEM 1123/CHEM 1121L, CSCE 2004, CSCE 2014,  
BIOI 1543/BIOI 1541L (or BIOI 1584), GEOS 1113/GEOS 1111L,  
or GEOS 1133/GEOS 1131L, or an approved 8 hours of other  
laboratory-based courses from these departments.

Physics B.S. majors must complete all the requirements for one of  
six available concentration areas. All concentrations consist of  
16 credit hours with the exception of the Geophysics concentration,  
which requires 24.

Total Hours  66

* Note: astronomy, biology, chemistry, computer science, and  
geosciences courses as specified within the concentration  
requirements listed below can be applied to this 39 hours.

1 CSCE 3513, CSCE 4423, MEEG 2703, or GEOS 4223 can be  
substituted for MATH 3083 with the adviser’s approval.

Majors must propose participation in a research experience project no  
later than the end of their junior year of study. A written report of the  
results must be submitted during Senior Seminar (PHYS 4991).

**Astronomy Concentration**

PHYS 3544  Optics (Fa)  4
6 semester hours of ASTR courses numbered 3000 or above  
(ARTS 4033, ASTR 4043, ASTR 4073)  6
6 additional hours numbered 3000 and above in physics or astronomy  
(ARTS 4033, ASTR 4043, ASTR 4073)  6
Total Hours  16

**Writing Requirement:** Students majoring in physics may satisfy  
the Fulbright College writing requirement by means of a senior  
thesis (PHYS 498V), an honors thesis submitted in fulfillment of the  
requirements of the honors program ( ), or by means of a paper submitted  
as part of PHYS 4991 or any physics or astronomy course numbered  
3000 or above. Students electing the last route must obtain approval of  
the instructor during the first three weeks of the semester. The research/  
analytical paper should demonstrate competency in the use of word  
processing software and also at least one computer analytical tool such  
as a spreadsheet, mathematical or graphics program, or an original  
program written by the student.

**Assessment of Student Learning:** In accordance with state, University,  
and college requirements, all students must have learning assessed  
before graduation. Students majoring in physics will be assessed in the  
course PHYS 4991, which must be taken in the year prior to graduation.

**Physics B.S. with Astronomy Concentration**

**Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the  
Eight-Semester Degree Policy (p. 73) in the Academic Regulations  
chapter for university requirements of the program as well as Fulbright  
College requirements.

Core requirement hours may vary by individual, based on placement and  
previous credit granted. Once all core requirements are met, students  
may substitute a three-hour (or more) general elective in place of a core  
area. Students should consult their advisers.

**First Year**

Total Hours 66

1 Note: astronomy, biology, chemistry, computer science, and geosciences courses as specified within the concentration requirements listed below can be applied to this 39 hours.
2 CSCE 3513, CSCE 4423, MEEG 2703, or GEOS 4223 can be substituted for MATH 3083 with the adviser’s approval.

 Majors must propose participation in a research experience project no later than the end of their junior year of study. A written report of the results must be submitted during Senior Seminar (PHYS 4991).

13 semester hours numbered 3000 and above in physics, astronomy, advanced computer science, or mathematics chosen with the adviser’s permission.

Total Hours 16

Writing Requirement: Students majoring in physics may satisfy the Fulbright College writing requirement by means of a senior thesis (PHYS 498V), an honors thesis submitted in fulfillment of the requirements of the honors program ( ), by means of a paper submitted as part of PHYS 4991 or any physics or astronomy course numbered 3000 or above. Students electing the last route must obtain approval of the instructor during the first three weeks of the semester. The research/analytical paper should demonstrate competency in the use of word processing software and also at least one computer analytical tool such as a spreadsheet, mathematical or graphics program, or an original program written by the student.

Assessment of Student Learning: In accordance with state, University, and college requirements, all students must have learning assessed before graduation. Students majoring in physics will be assessed in the course PHYS 4991, which must be taken in the year prior to graduation.

Physics B.S. with Computational Concentration

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations.
chapter for university requirements of the program as well as Fulbright College requirements.

Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area. Students should consult their advisers.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.
3. Nine hours of upper division computer science or mathematics courses can count toward the physics major.

Group A: Any PHYS or ASTR classes numbered 3000 or above.

** Requirement for B.S. Degree with a Major in Physics**

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.
The student must present a minimum of 39 semester hours in physics* including:

**Total Units in Sequence:** 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.

Group A: Any PHYS or ASTR classes numbered 3000 or above.
Requirement for B.S. Degree with a Major in Physics

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

The student must present a minimum of 39 semester hours in physics* including:

- PHYS 2054 University Physics I (ACTS Equivalency = PHYS 2034) (Sp, Su, Fa) 4 units
- PHYS 2074 University Physics II (ACTS Equivalency = PHYS 2044 Lecture) (Sp, Su, Fa) 4 units
- PHYS 2094 University Physics III (Fa) 4 units
- PHYS 3414 Electromagnetic Theory (Sp) 4 units
- PHYS 3613 Modern Physics (Sp, Su, Fa) 3 units
- PHYS 4073 Introduction to Quantum Mechanics (Fa) 3 units
- PHYS 4991 Physics Senior Seminar (Sp, Su, Fa) 1 unit

Mathematics Courses:
- MATH 2554 Calculus I (ACTS Equivalency = MATH 2405) (Sp, Su, Fa) 4 units
- MATH 2564 Calculus II (ACTS Equivalency = MATH 2505) (Sp, Su, Fa) 4 units
- MATH 2574 Calculus III (ACTS Equivalency = MATH 2603) (Sp, Su, Fa) 4 units
- MATH 2584 Elementary Differential Equations (Sp, Su, Fa) 4 units
- MATH 3083 Linear Algebra (Sp, Su, Fa) 3 units

Additional Science:
- At least 8 hours of other science chosen from CHEM 1103/1104, or CHEM 1121L/1122L, CSCE 2004, CSCE 2014, BIOL 1543/1544L (or BIOL 1545), GEOS 1113/1114L, or GEOS 1133/GEOS 1131L, or an approved 8 hours of other laboratory-based courses from these departments.

Physics B.S. majors must complete all the requirements for one of seven available concentration areas. All concentrations consist of 16 credit hours with the exception of the Geophysics concentration, which requires 24.

Total Hours 66

* Note: astronomy, biology, chemistry, computer science, and geosciences courses as specified within the concentration requirements listed below can be applied to this 39 hours. 1

CSCE 3513, CSCE 4423, MEEG 2703, or GEOS 4223 can be substituted for MATH 3083 with the adviser's approval.

Majors must propose participation in a research experience project no later than the end of their junior year of study. A written report of the results must be submitted during Senior Seminar (PHYS 4991).

Geophysics Concentration

- PHYS 3113 Analytical Mechanics (Fa) 3 units
- GEOS 1113 General Geology (ACTS Equivalency = GEOL 1114 Lecture) (Sp, Su, Fa) 4 units & GEOS 1111L General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab) (Sp, Su, Fa)
- GEOS 2313 Mineralogy and Petrology (Fa) 3 units
- GEOS 3413 Sedimentary Rocks & Fossils (Sp) 3 units
- GEOS 3514 Structural Geology (Sp) 4 units
- GEOS 4223 Stratigraphy and Sedimentation (Fa) 3 units
- GEOS 4924 Earth System History (ACTS Equivalency = PHSC 1104) (Sp) 4 units

Completion of GEOG 3383 Principles of Landscape Evolution and GEOL 4666 Geology Field Camp in addition to the stated requirements for a physics-geophysics major will enable a student to complete the requirements for a double major in physics and geology.

Total Hours 24

Writing Requirement: Students majoring in physics may satisfy the Fulbright College writing requirement by means of a senior thesis (PHYS 498V), an honors thesis submitted in fulfillment of the requirements of the honors program, or by means of a paper submitted as part of PHYS 4991 or any physics or astronomy course numbered 3000 or above. Students electing the last route must obtain approval of the instructor during the first three weeks of the semester. The research/analytical paper should demonstrate competency in the use of word processing software and also at least one computer analytical tool such as a spreadsheet, mathematical or graphics program, or an original program written by the student.

Assessment of Student Learning: In accordance with state, University, and college requirements, all students must have learning assessed before graduation. Students majoring in physics will be assessed in the course PHYS 4991, which must be taken in the year prior to graduation.

Physics B.S. Geophysics Concentration

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy in the Academic Regulations chapter for university requirements of the program as well as Fulbright College requirements.

Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area. Students should consult their advisers.

**Total Units in Sequence:** 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.

**Requirement for B.S. Degree with a Major in Physics**

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

The student must present a minimum of 39 semester hours in physics* including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 2054</td>
<td>University Physics I (ACTS Equivalency = PHYS 2034) (Sp, Su, Fa)</td>

<tr>
<td>MATH 2584</td>
<td>Elementary Differential Equations (Sp, Su, Fa)</td>
</tr>
</tbody>
</table>
MATH 3083  Linear Algebra (Sp, Su, Fa)  3

**Additional Science:**  8

At least 8 hours of other science chosen from CHEM 1103/CHEM 1101L, CHEM 1123/CHEM 1121L, CSCE 2004, CSCE 2014, BIOL 1543/BIOL 1541L (or BIOL 1584), GEOS 1113/GEOS 1111L, or GEOG 1133/GEOS 1131L, or an approved 8 hours of other laboratory-based courses from these departments.

Physics B.S. majors must complete all the requirements for one of seven available concentration areas. All concentrations consist of 16 credit hours with the exception of the Geophysics concentration, which requires 24.

**Total Hours**  66

* Note: astronomy, biology, chemistry, computer science, and geosciences courses as specified within the concentration requirements listed below can be applied to this 39 hours.

1 CSCE 3513, CSCE 4423, MEEG 2703, or GEOS 4223 can be substituted for MATH 3083 with the adviser’s approval.

Majors must propose participation in a research experience project no later than the end of their junior year of study. A written report of the results must be submitted during Senior Seminar (PHYS 4991).

### Optics Concentration

<table>
<thead>
<tr>

<td>Introduction to Optical Properties of Materials (Even years, Sp)</td>
</tr>
</tbody>
</table>

8-9 semester hours (to total 16 hours total for the concentration)  8-9 numbered 3000 and above in physics or astronomy.

**Total Hours**  16

**Writing Requirement:** Students majoring in physics may satisfy the Fulbright College writing requirement by means of a senior thesis (PHYS 498V), an honors thesis submitted in fulfillment of the requirements of the honors program (), or by means of a paper submitted as part of PHYS 4991 or any physics or astronomy course numbered 3000 or above. Students electing the last route must obtain approval of the instructor during the first three weeks of the semester. The research/analytical paper should demonstrate competency in the use of word processing software and also at least one computer analytical tool such as a spreadsheet, mathematical or graphics program, or an original program written by the student.

**Assessment of Student Learning:** In accordance with state, University, and college requirements, all students must have learning assessed before graduation. Students majoring in physics will be assessed in the course PHYS 4991, which must be taken in the year prior to graduation.

### Physics B.S. with Optics Concentration

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program as well as Fulbright College requirements.

Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area. Students should consult their advisers.

### First Year

### Total Units in Sequence:
120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.

Any PHYS or ASTR courses numbered 3000 or above.

### Requirements for a B.A. Degree with a Major in Physics:

This track is for students desiring a broader program in the arts, sciences, and social sciences while majoring in physics. This program is recommended for pre-medical, journalism, pre-business, pre-law and other students planning careers in fields for which a physics education would be beneficial. For B.A. students seeking teaching licensure, see the Teacher Licensure Requirements below. This program requires a total of 120 semester hours. The student must present 24 semester hours in physics or astronomy, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 2013 &amp; PHYS 2011L College Physics I (ACTS Equivalency = PHYS 2014 Lecture) (Su)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>and College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab) (Su)</td>

</tr>
<tr>
<td>PHYS 4991 Physics Senior Seminar (Sp, Su, Fa)</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>Eleven semester hours chosen from any physics or astronomy courses at the 3000 level or above.</td>
<td>11</td>
<td></td>
</tr>
</tbody>
</table>

The student must also present:

- MATH 1284C Precalculus Mathematics (ACTS Equivalency = MATH 1305) (Sp, Su, Fa) | 4    |        |
- or MATH 1203 College Algebra (ACTS Equivalency = MATH 1103) (Sp, Su, Fa) |      |        |

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.
Journalism recommended that the free electives be chosen in a second science, or in Journalism as the foundation needed for science reporting. It is courses indicated below are recommended by the Department of area. In this case, journalism was used as an example. Journalism The Physics B.A. program includes requirements for a special emphasis general elective in place of a core area.

Requirements are met, students may substitute a three-hour (or more) individual, based on placement and previous credit granted. Once all core Fulbright College requirements. Core requirement hours may vary by chapter for university requirements of the program as well as the Eight-Semester Degree Policy (p. 73) in the Academic Regulations Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Program

Writing Requirement: Students majoring in physics may satisfy the Fulbright College writing requirement by means of a senior thesis (PHYS 498V), an honors thesis submitted in fulfillment of the requirements of the honors program ( ), or by means of a paper submitted as part of PHYS 4991 or any physics or astronomy course numbered 3000 or above. Students electing the last route must obtain approval of the instructor during the first three weeks of the semester. The research/ analytical paper should demonstrate competency in the use of word processing software and also at least one computer analytical tool such as a spreadsheet, mathematical or graphics program, or an original program written by the student.

Assessment of Student Learning: In accordance with state, University, and college requirements, all students must have learning assessed before graduation. Students majoring in physics will be assessed in the course PHYS 4991, which must be taken in the year prior to graduation.

Physics B.A.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program as well as the Fulbright College requirements. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

The Physics B.A. program includes requirements for a special emphasis area. In this case, journalism was used as an example. Journalism courses indicated below are recommended by the Department of Journalism as the foundation needed for science reporting. It is recommended that the free electives be chosen in a second science, or in journalism.

**Total Units in Sequence:** 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.
3. Required for journalism emphasis.
4. Additional 9 semester hours at 3000 level or above from a single emphasis area chosen with adviser approval. This requirement is automatically fulfilled by the bold-faced upper-level journalism courses.

**Requirements for a Minor in Physics:** Students wishing to obtain a minor in physics must take either:

- Select one of the following:

**Requirements for Departmental Honors in Physics:** The Departmental Honors Program in Physics provides upper-division undergraduate students with an opportunity to formally participate in scholarly physics activities. Honors candidates carry out independent study and research under the guidance of the physics faculty and participate in special honors classes, seminars, and colloquia. Outstanding student achievement will be recognized by awarding the distinction “Physics Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies. In addition to satisfying the general college requirements for the bachelor’s degree with honors, an honors candidate in physics must

1. Become a candidate no later than the first semester of the junior year of study,
2. Enroll in honors sections of physics courses when available,
3. Complete a minimum of 12 hours of honors coursework to include:
   - Six hours of honors research PHYS 399VH and
   - Three hours of physics honors colloquium PHYS 3923H,
4. Complete and orally defend an honors thesis based upon the project carried out in PHYS 399VH,
5. Achieve a cumulative grade-point average of 3.125 in physics, and
6. Maintain a 3.50 grade-point average overall.

**Physics (B.A. or B.S.) Physical Science Teacher Licensure Requirements:**

Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students. Students wishing to pursue licensure through the UAteach undergraduate curriculum should consult with a UAteach adviser, uteach@uark.edu.

Students wanting to teach science in middle school should consult with a middle level adviser in the College of Education and Health Professions.

### Political Science (PLSC)

**Faculty**
- A. Burcu Bayram, Assistant Professor
- Patrick J. Conge, Associate Professor
- Anne B. Diallo, Visiting Assistant Professor
- Andrew J. Dowdle, Professor
- Pearl Karen Dowe, Associate Professor

E-mail: pkford@uark.edu  

Department of Political Science website (http://fulbright.uark.edu/departments/political-science)  

The Department of Political Science offers a major leading to a Bachelor of Arts degree, three combined majors, also leading to Bachelor of Arts degrees, and two minors, one in legal studies and a second interdisciplinary minor in urban planning. Political science is the traditional undergraduate degree choice for those considering law school. It is also ideal preparation for a career in government service, including internationally-oriented paths like the foreign service, intelligence, and foreign aid/development agencies, and domestic political careers like consulting, research, polling, and policy/campaign staff.  

For requirements for the M.A. degree in political science, the M.P.A degree, or the dual J.D./M.A. and J.D./M.P.A. degrees, see the Graduate School Catalog.  

Requirements for B.A. Degree with a Major in Political Science  
In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met.  

30 semester hours of PLSC courses, at least 21 of which must be above 3000.  

1. Students are required to take both:  
   and  
   PLSC 2013 Introduction to Comparative Politics (Sp, Su, Fa)  

2. Students must choose one of the following:  
   PLSC 2813 Introduction to International Relations (Sp, Fa)  
   or  
   PLSC 3103 Public Administration (Sp)  

3. Students fulfill the remaining requirements from among any of the available political science courses.  
At least 21 hours must be 3000-4000 level courses. No more than 9 hours may come from PLSC 300V, PLSC 394V, PLSC 498V, or PLSC 499VH.  

Additional Course Requirements (3-12 hours): Students must satisfy either Requirement A or Requirement B.  

Requirement A:  
Students must demonstrate proficiency in a single modern or classical language other than English by completion of a world language course numbered 2013 (Intermediate II). This is usually accomplished through completion of a sequence of four language courses: 1003, 1013, 2003 and 2013.  

Students may seek credit for any omitted courses in the language sequence (based on placement at a higher level) by passing an advanced language course with a grade of “C” or above. Such credit will be awarded at the request of the student by filing application to the World Languages, Literatures, and Cultures (WLLC) Department. Students with advanced knowledge of a language may also contact the WLLC Department regarding credit by exam.  

Students pursuing this track must complete an approved university/state core humanities course in addition to the world language 2003 Intermediate I course, if credit for 2003 is earned.  

Requirement B:  
Students must complete these three requirements:  

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 2003</td>
<td>Introduction to Philosophy</td>
<td>3</td>
</tr>
<tr>
<td>PHIL 2203</td>
<td>Logic</td>
<td></td>
</tr>
<tr>
<td>STAT 2303</td>
<td>Principles of Statistics</td>
<td>3</td>
</tr>
<tr>
<td>WCOB 1033</td>
<td>Data Analysis and Interpretation</td>
<td></td>
</tr>
</tbody>
</table>

Select one of the following:  

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2033</td>
<td>Mathematical Thought</td>
<td>3-4</td>
</tr>
<tr>
<td>MATH 2043</td>
<td>Survey of Calculus</td>
<td></td>
</tr>

<td></td>
</tr>
<tr>
<td>MATH 2183</td>
<td>Mathematical Reasoning in a Quantitative World</td>
<td></td>
</tr>
<tr>
<td>MATH 2554</td>
<td>Calculus I (ACTS Equivalency = MATH 2405)</td>
<td></td>
</tr>
</tbody>
</table>

Students pursuing this track must complete an approved university/state core humanities course in addition to either the PHIL 2003 or PHIL 2203 course used to satisfy Requirement B.  

Writing Requirement: The college writing requirement is fulfilled by submitting an acceptable research/analytical paper to the department for approval at least four weeks prior to graduation. The paper may be derived from completion of an honors essay (PLSC 499VH), a senior thesis (PLSC 498V), or some other advanced course in political science. The student is urged to consult with his or her faculty adviser no later than early in the first semester of the senior year.
Political Science B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should also see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program as well as the Fulbright College requirements. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general or advanced elective in place of a core area.

### First Year

General Electives as needed to total 120 degree credits 13
Year Total: 15 13

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).
3. Track A students must complete a university/state humanities course in addition to a 2003 Intermediate I world language course taken in progress to fulfill the Track A language requirement. Track B students must complete a university/state humanities core course in addition to the PHIL course used to satisfy the Track B philosophy requirement.

Combined Majors

Political Science and African and African American Studies: For the requirements for a combined major in political science and African and African American studies (p. 198).

Political Science and Journalism: The combined major in political science and journalism is recommended for those students who have a strong interest in the reporting of public affairs as a career. For requirements, please refer to the combined major in Journalism and Political Science (p. 278). Students should consult with their adviser in each department.

Political Science and Latin American and Latino Studies: For the requirements for a combined major in political science and Latin American and Latino studies (p. 281).

Minor in Political Science

Requirements are 18 hours including PLSC 2003 and PLSC 2013.
At least 9 hours must come from courses numbered 3000 or above.
Students should consult with the political science adviser in Fulbright College for the selection of appropriate courses.

Minor in Legal Studies

This minor will introduce undergraduate students to the study and application of law by taking law-related courses in a number of disciplines. It provides a focus for students who are interested in the law, whose careers will require a measure of legal knowledge, or for those considering entering law school.

Requirements for a Minor in Legal Studies: 15 semester hours from the following:

<table>
<thead>
<tr>

Students should consult with their adviser each semester.

Minor in Planning

The departments of Landscape Architecture and Political Science collaboratively offer an interdisciplinary minor in Planning for students interested in regional and urban planning. A student who wants to minor in Planning should notify either the Department of Landscape Architecture or Political Science and consult an academic adviser. A Planning minor consists of 18 hours of required and elective courses subdivided into three concentrations. A student should choose one concentration and take 6 hours of elective courses in that concentration. The minor's required and elective courses include:

Required Courses:

Total Hours 18

Requirements for Graduation with Honors in Political Science: Both the College and the Departmental Honors Program in Political Science provide undergraduate students the opportunity to participate in directed independent study and scholarly activity. Admission to the Fulbright Honors Program is open to Political Science majors with a minimum, cumulative grade point average of 3.5 in all their coursework. Honors candidates must complete at least 12 hours of honors courses, which will include 6 hours of thesis.

Honors candidates carry out independent study and research under the guidance of political science faculty and participate in special honors classes and colloquia. To successfully complete the required thesis, students should choose an honors thesis adviser as early as possible. An adviser should be selected and an Honors Agreement completed no later than the first semester in a student's junior year.

Honors candidates must meet the College's requirements for an honors degree. Students graduating with honors typically graduate with the distinction cum laude. Higher degree distinctions (magna cum laude, summa cum laude) are awarded by the Honors Council, are recommended only in truly exceptional cases, and are based on the whole of the candidate’s program of honors studies.

Political Science (B.A.) Social Studies Teaching Licensure Requirements:

Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students.

Students wanting to teach social studies in middle school should consult with a middle level adviser in the College of Education and Health Professions.

psycapp@uark.edu

The Department of Psychological Science offers a major leading to a Bachelor of Arts in psychology. Psychologists are the scientists of human behavior and mental processes. They approach these areas from a variety of perspectives.

Clinical psychologists seek to identify the causes of abnormal behavior and to change these behaviors so their clients can live more satisfying and rewarding lives. Cognitive psychologists are interested in how knowledge and behavior are acquired, retained, and retrieved. Developmental psychologists study physical, cognitive, and social changes that occur throughout an individual’s life. Neuroscientists are concerned with the biological bases of behavior. Social psychologists investigate how our social lives are influenced by ourselves and other people. Each of these perspectives is represented by members of the faculty in the Fulbright College Department of Psychological Science.

The Department of Psychological Science is one of the largest undergraduate programs at the university in many ways. Our faculty members are active researchers who bring their scientific excitement and curiosity into the classroom. In addition the faculty is deeply committed to providing individualized training to our students, which is accomplished through experience in a faculty member’s lab, or perhaps doing an honors project. We are one of the largest undergraduate majors, and our graduates pursue graduate training in many areas, including counseling, psychology, business, law, and medicine. Other graduates enter the workforce in diverse areas, including human and social services, business, banking, and non-profit organizations.

For requirements for advanced degrees in psychology, see the Graduate School Catalog.

Requirements for B.A. Degree with a Major in Psychology

Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 81), the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), and following course requirements for the major. Bolded courses from the list below may be applied to portions of the University Core requirements.

A minimum of 42 semester hours, including:

2003 Intermediate I of any World Language. ¹ 3-6
PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa) 3
Students with applied, paraprofessional, or human-service interests who plan to enter the job market with a B.A. in psychology are strongly encouraged to take relevant courses in other areas of interest, including, but not limited to, anthropology, sociology, social work, human development and family studies, education, and business administration.

Students interested in business applications of psychology (e.g., marketing, management) are similarly encouraged to take related courses in the Sam M. Walton College of Business; minors are also available in several areas of business. For more information concerning psychology as a major or careers in psychology and related fields, please contact the Psychology Advising Coordinator, Memorial Hall, room 203.

Writing Requirement: Students majoring in psychology will satisfy the Fulbright College writing requirement by successful completion (a grade of at least a "C") in either PSYC 328V or PSYC 428S, each of which requires a final research paper written in American Psychological Association style.

Psychology B.A.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university core requirements of the program. Courses in psychology groups A, B and Capstone courses are listed after the program plan.

<tr>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>120</td>
</tr>
</tbody>
</table>

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

### Group A

Select two of the following:
- PSYC 3013 Social Psychology (Sp, Fa)
- PSYC 3023 Abnormal Psychology (Sp, Fa)
- PSYC 3093 Developmental Psychology (Sp, Fa)
- PSYC 4063 Psychology of Personality (Irregular)
- PSYC 4053 Psychological Tests (Irregular)

### Group B

Select two of the following:
- PSYC 3103 Cognitive Psychology (Sp)
- PSYC 4073 Psychology of Learning (Sp)
- PSYC 4123 Perception (Irregular)
- PSYC 4143 History and Systems of Psychology (Irregular)
- PSYC 4183 Behavioral Neuroscience (Sp)
- PSYC 4193 Comparative Psychology (Sp)

### PSYC Capstone Courses

Three hours required with a grade of "C" or higher.
- PSYC 328V Advanced Research (Sp, Fa)
- PSYC 4283 Advanced Seminar (Sp, Fa)

### Requirements for a Minor in Psychology

Minimum of 18 hours in psychology including:
- PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103) (Sp, Su, Fa)
- PSYC 2013 Introduction to Statistics for Psychologists (Sp, Su, Fa)
- PSYC 3073 Research Methods (Sp, Fa)

A maximum of three hours of PSYC 206V and/or PSYC 207V can be counted toward meeting the minor requirement.
A grade of “C” or better is required in all psychology courses used to satisfy the 18 hours of the minor. In addition, a 2.00 cumulative grade-point average is required on all work completed in the Department of Psychology. Students must consult with, and obtain the signature of, the Director of Undergraduate Studies in the department in order to declare a minor.

Requirements for Graduation with Honors in Psychology: Both the College and the Departmental Honors Program in Psychology provide undergraduate students with an opportunity to formally participate in scholarly psychology activities. Honors candidates carry out independent study and research under the guidance of the Psychological Science faculty and participate in special honors classes, seminars, and colloquia. Admission to the Fulbright College Honors Program is open to psychology majors with a minimum, cumulative grade point average of 3.5 in all coursework. Honors candidates must complete a minimum of 12 hours of honors courses, which may include up to 6 hours of thesis. In addition to satisfying the general college honors requirements, honors candidates in psychology are required to complete and orally defend an honors thesis based upon the independent study carried out in PSYC 399VH. To complete the required thesis successfully, students should choose an honors advisor as early as possible. An advisor should be selected, and an Honors Agreement completed, no later than the first semester in a student’s junior year. Students must register for, and complete, a minimum of 6 hours of PSYC 399VH. PSYC 399VH may be taken for 1 to 6 hours of credit each semester and repeated for a maximum of 12 hours. Nine hours are ordinarily needed to complete the research project and to prepare the honors thesis.

College honors candidates must meet the college’s requirements for an honors degree. Departmental honors candidates in psychology are encouraged to enroll in as many honors classes, seminars, and colloquia as possible, or as required by the honors program in which they are enrolled. Students graduating with honors typically graduate cum laude. Higher degree distinctions (magna cum laude, summa cum laude) are awarded by the Honors Council, recommended only in truly exceptional cases, and are based upon the whole of the candidate’s program of honors studies.

Psychology (B.A.) Teacher Licensure in Social Studies Requirements:

Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students.

Students wanting to teach social studies in middle school should consult with a middle level adviser in the College of Education and Health Professions.

http://socialwork.uark.edu/

The School of Social Work offers an undergraduate major leading to a Bachelor of Social Work degree. The principal objective of the undergraduate social work program is to prepare students for beginning generalist social work practice.

Social work is the professional activity of helping individuals, groups, or communities enhance or restore their capacity for social functioning and creating societal conditions favorable to this goal. Social work is a gratifying career for people who care about others, want to relieve human suffering, like a challenge, and want their work to make a difference in the world. The profession is dedicated to assisting individuals, families, groups, organizations, and communities in reaching their full potential.

Social work is particularly concerned with achieving social and economic justice for vulnerable populations and respecting and valuing human diversity. The School of Social Work at the University of Arkansas reflects the profession’s fundamental concerns in its educational goals and objectives. In order to achieve its basic purposes, the school faculty, students, staff, and agency field instructors are involved in a variety of teaching, research, and outreach activities.

Accreditation
The social work program is fully accredited at the baccalaureate and graduate level by the Council on Social Work Education (CSWE).

Criteria for Admission to B.S.W. Program and Professional Social Work Core
Although a student may declare social work as a major at any point, admission to the B.S.W. Program is required before a student is allowed to take the following courses that comprise the Professional Social Work Core:

SCWK 4073  Social Work Research and Technology I (Sp, Fa)  3
SCWK 4103  Human Behavior and the Social Environment II (Sp, Fa)  3
SCWK 4333  Social Work Practice I (Sp, Fa)  3
SCWK 4343  Social Work Practice II (Sp, Fa)  3
SCWK 4733  Social Work Practice III (Sp, Fa)  3
SCWK 4434  Social Work Internship I (Sp, Su, Fa)  4
SCWK 4412  Field Seminar I (Sp, Su, Fa)  2
SCWK 4444  Social Work Internship II (Sp, Su, Fa)  4
SCWK 4422  Field Seminar II (Sp, Su, Fa)  2
Each student must meet the following minimum academic course requirements and complete the application process outlined below.

**Minimum Academic Course Requirements**

Cumulative GPA of 2.0.

Completion of the following 9 courses, each with a grade of "C" or better.

- **COMM 1313** Public Speaking (ACTS Equivalency = SPCH 1003) (Sp, Su, Fa) 3
- **ENGL 1013** Composition I (ACTS Equivalency = ENGL 1013) (Sp, Su, Fa) 3
- **PLSC 2003** American National Government (ACTS Equivalency = PLSC 2003) (Sp, Su, Fa) 3
- **PSYC 2003** General Psychology (ACTS Equivalency = PSYC 1103) (Sp, Su, Fa) 3
- **SCWK 2133** Introduction to Social Work (Sp, Su, Fa) 3
- **SCWK 3193** Human Diversity and Social Work (Sp, Su, Fa) 3
- **SCWK 4093** Human Behavior and the Social Environment I (Sp, Fa) 3
- **SCWK 4153** Social Welfare Policy (Sp, Fa) 3
- **SOCI 2013** General Sociology (ACTS Equivalency = SOCI 1013) (Sp, Su, Fa) 3

Completion of BIOL 1543/BIOL 1541L Principles of Biology and Lab or ANTH 1013/ANTH 1011L Biological Anthropology and Lab with a grade of "D" or better.

Students must have at least a 2.5 GPA in the ten courses listed above.

**Application Process**

The application process must be completed by the announced application deadline prior to the semester in which the student will enroll in Social Work Practice I. The application packet includes the following materials:

- **Application Form.** This form becomes the cover sheet for the application packet. Application forms are available from the online B.S.W. Student Handbook (see appendices) or from the social work office.

- **Volunteer Experience Form.** This form provides documentation of satisfactory completion of the volunteer experience assignment in Introduction to Social Work or equivalent and submission of a positive “Supervisor’s Reference Form” from the supervisor of the experience.

- **Personal Statement.** This narrative statement should include: motivation for becoming a social worker; relevant work, volunteer or life experiences; strengths and limitations for effective social work practice; personal commitment and agreement to abide by the values and ethics of the social work profession; career goals and indication of fields of practice preference or areas where one would not feel comfortable working.

- **Ethical Principles/Guidelines for University of Arkansas Social Work Students.** By signing this statement you are acknowledging that you have read, understand and agree to abide by and behave in accordance with the “Ethical Principles/Guidelines for Social Work Students.” This statement is contained in the admissions packet, and is available from the online B.S.W. Student Handbook (see appendices) or from the social work office. A copy of this signed statement will be included in the student’s advising file.

**Two Reference Letters.** The letters of reference will assess the applicant’s academic qualification, motivation and potential for success in the professional social work core. (See Appendices for additional details).

**Copy of current transcript** documenting the minimum academic course requirements listed above.

The above materials are submitted to the B.S.W. Program Director and reviewed by the B.S.W. Admission Committee. If the Admissions Committee has any questions concerning the content of the materials, the student may be asked to interview with a faculty member to resolve any questions or to provide additional information.

Upon completion of the materials review and interview (if necessary), the student will be informed in writing by the B.S.W. Program Director of his or her admission status.

There are three possible admission decisions:

- **Unconditional Admission:** These students have demonstrated through their application materials (and interview, if required) that they have the motivation and potential for competent professional social work practice and that they agree to uphold and conduct themselves in accordance with the values and ethics of professional social work practice. In addition, these students have at least a 2.5 GPA in the pre-professional core courses and have an overall GPA of 2.0.

- **Conditional Admission:** These students may continue in the major for a given period of time (usually one to two semesters) during which certain conditions must be met. Students may be admitted conditionally with a lower GPA than 2.0 overall, but the student must attain a 2.0 overall GPA during the time period required by the University for being removed from academic probation. Conditional admission related to non-GPA issues may be granted if the student agrees in writing to correct the concern. Examples of non-GPA concerns for which corrective action may be required include writing skills, assertiveness, stress management, or working with diverse populations.

- **Non-acceptance:** A decision of non-acceptance will be made when the student is found to be unsuited for professional social work practice. There are two criteria for non-acceptance: 1) the lack of acceptable academic performance necessary to successfully complete the requirements of the social work program, and/or 2) the inability to demonstrate commitment to social work values and ethics as they are reflected in the “Ethical Principles and Guidelines for UA Social Work Students” document that is available on-line in the B.S.W. Student Handbook and included with the forms for applying to the professional social work core (see Appendices). A decision of non-acceptance will result in the student’s inability to progress in the social work program. In the event of non-acceptance, assistance with a transfer to another major will be provided upon request.

**Criteria for Retention and Continuation**

In addition to the admission process, the B.S.W. Program also has requirements for retention and continuation in the major.

**Retention**

Maintenance of an overall GPA of 2.0.

Students must abide by and behave in accordance with the “Ethical Principles/Guidelines for UA Social Work Students”.

Social work students should not engage in any activity or behavior which, according to university policy or regulations, would result in dismissal from the university community. Such activity or behavior includes, but is not limited to, sexual harassment, physical or sexual assault, and academic dishonesty. (See Undergraduate Studies Catalog for description of Academic Dishonesty, and Undergraduate Studies Catalog, Appendix C: Student Handbook for details).

**Continuation and Grading Policies.**

A grade of C or better must be earned in all social work courses. If a student receives a grade of D or F in one of the professional social work core courses, the course must be retaken with a grade of C or better prior to taking the course for which that course serves as a prerequisite.

1. Once matriculated into the B.S.W. program, B.S.W. students who earn a D or F will be allowed to repeat this course one time. Students can repeat up to two different social work courses.
2. A student may repeat a course from which they earned a W no more than one time.
3. Any professional social work core course in which the student receives a grade of I (Incomplete) must be satisfactorily completed (with a grade of C or better) prior to entering the course for which the course receiving the Incomplete is a prerequisite.

**Criteria for Termination**

Students will be terminated from the B.S.W. Program for the following reasons:

1. Failure to maintain minimum GPA requirements (2.0 cumulative overall, 2.5 for all social work courses).
2. Failure to earn a C or better in a professional social work core course after the second attempt.
3. Engaging in any activity or behavior which, according to university policy or regulations, would result in dismissal from the university community. Such activity or behavior includes, but is not limited to, sexual harassment, physical or sexual assault, and academic dishonesty.

Students may be terminated from the B.S.W. Program for the following reasons: Engaging in any activity or behavior incompatible with the “Ethical Principles/Guidelines for UA Social Work Students” (available online in the B.S.W. Student Handbook and with the materials for application to the professional social work core; see Appendices). Such violations will initiate a review by the School of Social Work Student, Standards and Support Committee and may result in termination by the School of Social Work Director or a decision that continuation is contingent upon completion of a corrective action specified by the School of Social Work Director.

**Requirements for a Major in Social Work**

In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (http://catalog.uark.edu/undergraduatetcatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences), the following cognate and major course requirements must be met. Bolded courses from the list below may be applied to portions of the university/state minimum core requirements.

1 World language courses at the 1003 Elementary I level cannot be used to satisfy any part of the social work major’s six-hour world language requirement.

Students must adhere to requirements cited for each social work course. A grade of “C” or better must be earned in all core social work courses. If a student receives a grade of “D” in a core social work course, the course must be repeated with a grade of “C” or better prior to taking the course for which that course serves as a prerequisite.
**Writing Requirement:** Social work students complete the research/analytical writing requirement by passing SCWK 4073 with a C or better.

**Social Work B.S.W. Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Requirements for a Minor in Social Work
18 hours including SCWK 2133, SCWK 3193, and SCWK 4153 (required) and any other nine hours of social work electives. A student must notify the department of his or her intent to minor. The social work minor is not preparation for social work practice and is not recognized by the CSWE.

Requirements for a Minor in Child Advocacy Studies Training
The Child Advocacy Studies Training online minor program is designed to better prepare future child protection workers, law enforcement officers, and other child-serving professionals in child welfare. Students may only receive credit for the minor or the certificate below, but not both.

18 hours are required for the minor:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

</tbody>
</table>

Requirements for a Child Advocacy Studies Training Undergraduate Certificate
The Child Advocacy Studies Training online certificate program is designed to better prepare future child protection workers, law enforcement officers, and other child-serving professionals in child welfare. Students may only receive credit for the minor or the certificate, but not both. Admission requirements for the Child Advocacy Studies Training online certificate program:

- Meet the admission requirements for the University of Arkansas.
- Complete 60 semester hours of credit from a regionally accredited institution of higher education.

Course requirements for an undergraduate certificate in Child Advocacy Studies Training (CHAS) include 9 credit hours:

Requirements for Departmental Honors in Social Work: The Departmental Honors Program in Social Work is an upper-division course of study with an independent investigation on a topic in social work. Students work closely with an adviser of their choice to define the goals of an honors project and to develop it to completion. They must take 12 hours (which may include 6 hours of thesis) in Honors Studies. In developing the project, students are encouraged to take honors courses, participate in honors colloquia, and do extensive background reading. The honors thesis may entail a library research project, a social work intervention project to be conducted in the field, or a policy analysis project. A research study that requires original data collection and analysis is preferred. In any case, the honors work is a serious long-term undertaking that should have direct value in supplementing the student’s regular departmental academic program. Enrollment in SCWK 399VH takes place after the student has done background reading and has actually begun a project. Students normally enroll in this course for three hours of credit. The course may be repeated for an additional 3 hours of credit if the student’s project is an extensive one. Regardless of the type of project, it is presented in written form and defended at an oral examination before an Honors Council Committee. Projects of extraordinarily high quality may be designated High Honors by the Committee. Successful completion of the requirements will be recognized by the award of the distinction “Social Work Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

The Department of Sociology offers two majors:

- Criminal Justice (p. 236) (B.A.)
- Sociology (B.A.), listed below

A Bachelor of Arts (B.A.) degree in sociology is useful preparation not only for graduate work in sociology, but also for pre-professional training in other fields, such as medicine, law, human services, or related work in the government.

See here for a combined major in Sociology and African and African American studies (p. 198).

See here for a major in criminal justice (p. 236).

See here for a major in social work (p. 348).

For requirements for an M.A. degree in sociology, see the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programsofstudy/sociologyandcriminaljusticedepartmentofsoci).

Requirements for B.A. Degree with a Major in Sociology: In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

9 hours from sociology 3000- and 4000-level electives 37-41

Writing Requirement: To fulfill the Fulbright College writing requirement, each sociology major will submit, prior to graduation, a substantial research or analytical paper, with a grade of "A" or "B" from an upper-division sociology course (3000-, 4000-, or 5000-level) to their departmental adviser. Satisfactory completion of an honors project or a senior thesis may fulfill this requirement.

Sociology B.A.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).

2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Requirements for a Minor in Sociology: 18 semester hours in sociology to include SOCI 2013, SOCI 3313, SOCI 3423 and at least nine hours of 3000-level classes or above, of which no more than three hours can come from CMJS. A student must notify the department of her or his intent to minor.

Requirements for Departmental Honors in Sociology: The Departmental Honors Program in Sociology is an upper-division course of study based on independent investigation on a scholarly topic of sociological interest. To be eligible for sociology honors candidacy, students normally will have completed 28 semester hours and not more than 85 semester hours with a minimum cumulative grade-point average of 3.5. They must take 12 hours in Honors Studies, which may include 6 hours of thesis. In the junior year, three hours of directed reading, planning, or other work on a research problem should be selected from the following courses:

- SOCI 399VH Honors Course (Sp, Fa) 1-6
- SOCI 403V Individual Study in Sociology (Sp, Su, Fa) 1-3
- SOCI 4043 Seminar in Sociology (Sp, Fa) 3

In the senior year, the student will complete an honors project for up to six hours of credit in SOCI 399VH Honors Course. This honors research project will normally consist of an empirical investigation but may, with the approval of the honors director and the other departmental representatives, be intensive library research on a topic. All candidates must pass an oral examination given by an Honors Council Committee. Successful completion of the requirements will be recognized by the award of the distinction “Sociology Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

Sociology (B.A.) Teacher Licensure in Social Studies Requirements:

Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students.

Students wanting to teach social studies in middle school should consult with a middle level adviser in the College of Education and Health Professions.

Southern Studies (SOST)

Angie Maxwell
Director of Southern Studies
Old Main 506A
479-575-6007
amax@uark.edu

The Southern Studies minor is designed to provide students with a thorough, interdisciplinary grounding in the major themes, issues, and theoretical assumptions concerning southern history, literature, and politics. Students who secure a southern studies minor will be prepared to pursue careers in business, education, law, and in post-graduate work in history, literature, or political science, particularly as it relates to the Southern region of the United States.

Requirements for a Minor in Southern Studies: Students wishing to minor in Southern Studies must take SOST 2003 Introduction to Southern...
Studies (Odd years, Fa), a 3-credit hour interdisciplinary course that explores the history, politics, literature, and culture of the U.S. South from the colonial era to the present. Students must also take an additional 15 elective credit hours (5 courses) from among numerous options listed below. Only 6 hours can count toward the requirements of another major or minor.

Select five courses:

Department of Theatre website (http://fulbright.uark.edu/departments/theatre)

The Department of Theatre offers the Bachelor of Arts (B.A.) degree in Theatre, a broad spectrum program in the context of a liberal arts education, and the Master of Fine Arts (M.F.A.) degree in six concentrations: Acting, Directing, Playwriting, Costume Design, Scene Design and Lighting Design. (Please see the Graduate Catalog for information regarding the M.F.A. Theatre degree (http://catalog.uark.edu/graduatecatalog/programs/arts/theatrethtr).) Classes at both undergraduate and graduate levels are focused on providing a strong, professional orientation to theatre performance and technology in conjunction with appropriate research-based course work to address the required foundations in theatre history, dramatic literature and dramatic criticism.

The educational objectives of the Department of Theatre are centered on producing graduates prepared to enter the competitive world of professional play production as well as a variety of teaching and research fields. In addition a background in Theatre has proven to be a valuable asset to those wishing to pursue a wide range of corporate and industrial occupations.

The play production program is the “laboratory” for study in Theatre. To that end the department produces an average of 10 plays each year.
portions of the university/state minimum core requirements. Must be met. Bolded courses from the list below may be applied to graduation requirements (p. 183), the following course requirements (p. 81) and the Fulbright College of Arts and Sciences Requirements for a Major in Theatre:

In addition to the University Core School Catalog.

For requirements for the M.F.A. degrees in theatre, see the Graduate School Catalog.

**Requirements for a Major in Theatre:** In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the university/state minimum core requirements.

Three hours of any world language at the 1013 Elementary II level; and three hours of continued coursework in the same world language, or 3 hours of a different world language course.

**A University Core fine arts course other than THTR 1003 Theatre Appreciation**

Select one course from two of the following categories. These two courses must be completed in addition to coursework used to satisfy the University/state core.

</tbody>
</table>

¹ Students who have already taken THTR 1003 or THTR 1003H may substitute this course for THTR 1223 and must also complete one additional University Core (p. 81) fine arts course. Theatre majors may not receive credit for both THTR 1223 and THTR 1003/THTR 1003H.

² Fulfills Fulbright College writing requirement.
Requirements for Graduation with Honors in Theatre: Both the College and the Departmental Honors Program in Theatre provide undergraduate students with an opportunity to participate formally in creative and/or scholarly activities. Honors candidates carry out independent study and research under the guidance of the Theatre faculty and participate in special honors classes, seminars and colloquia. Admission to the Fulbright Honors Program is open to Theatre majors with a minimum cumulative grade point average of 3.5 in all of their coursework. Honors candidates must complete a minimum of 12 hours of honors courses, three of which will be THTR 399VH Honors Thesis (Sp, Su, Fa). (THTR 399VH may be repeated for up to six of these 12 hours.) To successfully complete the required thesis, students should choose an honors thesis adviser as early as possible. An adviser should be selected, and an Honors Agreement completed, no later than the first semester in a student’s junior year.

Honors candidates must meet the college’s requirements for an honors degree. Students graduating with honors will typically be recognized with the distinction “Theatre Scholar Cum Laude.” Higher degree distinctions (magna cum laude and summa cum laude) are awarded by the Honors Council, are recommended only in truly exceptional cases, and are based upon the whole of the candidate’s program of honors studies.

Theatre (B.A.) Theatre/Speech Teacher Licensure Requirements:

Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students.

Requirements for a Minor in Theatre: A minimum of 18 semester hours in theatre, including THTR 1223 or THTR 1003 or THTR 1003H. One of the following courses or course/lab combinations is also required: THTR 1313 and THTR 1311L, or THTR 1323 and THTR 1321L, or THTR 1683. The remaining hours must be selected from courses at the 3000- or 4000-level, the specific courses to be determined by the student in consultation with a theatre department faculty adviser. The student must notify the department of his or her intent to minor.

Requirements for Graduation with Honors in Theatre: Both the College and the Departmental Honors Program in Theatre provide undergraduate students with an opportunity to participate formally in creative and/or scholarly activities. Honors candidates carry out independent study and research under the guidance of the Theatre faculty and participate in special honors classes, seminars and colloquia. Admission to the Fulbright Honors Program is open to Theatre majors with a minimum cumulative grade point average of 3.5 in all of their coursework. Honors candidates must complete a minimum of 12 hours of honors courses, three of which will be THTR 399VH Honors Thesis (Sp, Su, Fa). (THTR 399VH may be repeated for up to six of these 12 hours.) To successfully complete the required thesis, students should choose an honors thesis adviser as early as possible. An adviser should be selected, and an Honors Agreement completed, no later than the first semester in a student’s junior year.

Honors candidates must meet the college’s requirements for an honors degree. Students graduating with honors will typically be recognized with the distinction “Theatre Scholar Cum Laude.” Higher degree distinctions (magna cum laude and summa cum laude) are awarded by the Honors Council, are recommended only in truly exceptional cases, and are based upon the whole of the candidate’s program of honors studies.

Theatre (B.A.) Theatre/Speech Teacher Licensure Requirements:

Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students.

Writing Requirement: The Fulbright College research/analytical paper requirement for theatre majors will be fulfilled in THTR 4233, THTR 4333, THTR 4453, or THTR 4733. Satisfactory completion of an honors project or senior thesis may fulfill the requirement.

Senior Progress Review: All theatre majors are required, in the semester before graduation, to successfully complete the Senior Progress Review, a faculty assessment of each student’s accomplishments in performance and production.

World Languages, Literatures and Cultures website (http://fulbright.uark.edu/departments/world-languages)  

The world languages requirement among the basic courses is satisfied based on each separate department’s undergraduate degree program. Students should consult their adviser to confirm the total number of courses needed to satisfy their departmental world language requirement. Students who, on the basis of prior knowledge of language, omit one or more courses in the basic language sequence (1003-2013) may receive college credit for omitted courses if they validate their higher placement by passing an advanced course with a grade of “C” or above.  

Conversation courses (3033, 4033) and self-paced (correspondence) courses may not be used to validate such prior knowledge.  

For majors in Greek and Latin, go to Classical Studies (p. 231).  

For information on advanced degrees in world languages, go to the Graduate School Catalog.  

French  

Requirements for a Major in French: In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following departmental and major course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.  

Six hours of language-related courses to be fulfilled by completing six hours of a single world language different than the major, or six hours from any combination of language-related area/ethnic studies courses, department-approved WLLC courses (such as WLLC 2413, WLLC 3173, WLLC 4023, WLLC 4033), or classical studies (CLST) courses.  

Humanities to be fulfilled by:  

PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa)  

or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa)  

World Civilization (Social Sciences) to be fulfilled by:  

HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) (Sp, Fa)  

24 hours in French in courses numbered 3000 or above with a minimum grade of “C” in each course. Specific courses required are:  

FREN 3003 Advanced French (Sp, Su, Fa)  
FREN 3113 Introduction to Literature (Sp)  
FREN 4003 French Grammar and Composition (Fa)  
FREN 4033 French for Oral Proficiency (Sp)  
FREN 4213 French Civilization (Sp)  

two French literature courses at the 4000-level  
FREN 3000 or above elective  

Total Hours 39  

1 Honors students who complete the HUMN 1114H, HUMN 1124H, HUMN 2114H, HUMN 2124H (H2P) sequence will have fulfilled the World Civilization HIST 1113 and HIST 1123 requirement for this major as well as the major’s 3-hour Humanities requirement.  

2 This fulfills 6 hours of social science university/state core; the remaining 3 hours in the social science core must be fulfilled by a non-HIST social science university/state core course.  

Writing Requirement: The college writing requirement may be satisfied by a term paper or other written work submitted for an upper-division world language literature class approved by the chair of the department.  

French B.A.  

Eight-Semester Degree Program  

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. The following eight-semester plan refers to both University Core and additional departmental requirements as presented above. Hours may vary by individual, based on placement and previous credit granted. Once all core and departmental requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

German 3000-level or higher electives 9

Total Hours 39

1 Honors students who complete the HUMN 1114H, HUMN 1124H, HUMN 2114H, HUMN 2124H (H2P) sequence will have fulfilled the World Civilization HIST 1113 and HIST 1123 requirement for this major as well as the major’s 3-hour Humanities requirement.

2 This fulfills 6 hours of social science university/state core; the remaining 3 hours in the social science core must be fulfilled by a non-HIST social science university/state core course.

GERM 5000-level classes such as GERM 5223 (Early German Literature), GERM 5273 (Enlightenment through Classicism), and GERM 5363 (Literature after 1945) may be taken by undergraduates with exceptional language skills after approval by the undergraduate adviser and a petition to the graduate school.

Writing Requirement: The college writing requirement may be satisfied by a term paper or other written work submitted for an upper-division world language literature class approved by the chair of the department.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).

2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 183).

Requirements for an Additional Major in German for Non-Arts and Science Students: Students in colleges other than the Fulbright College of Arts and Sciences can complete an additional major in German by completing 24 hours in German:

GERM 3003 Advanced German I (Fa) 3
GERM 3013 Introduction to Literature (Fa) 3
GERM 3033 Conversation (Sp) 3
GERM 4003 Advanced German II (Sp) 3
GERM 4213 German Civilization (Irregular) 3
9 hours of upper-level electives 9
Total Hours 24

Students must also fulfill their home college’s core and the degree requirements for the major in their college to be eligible.

Spanish

Requirements for a Major in Spanish: In addition to the University Core requirements (p. 81) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 183), the following departmental and major course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

Six hours of language-related courses to be fulfilled by completing six hours of a single world language different than the major, or six hours from any combination of language-related area/ethnic studies courses, department-approved WLLC courses (such as WLLC 2413, WLLC 3173, WLLC 4023, WLLC 4033), or classical studies (CLST) courses.

Humanities to be fulfilled by:

PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103) (Sp, Su, Fa) 3
or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113) (Sp, Su, Fa)

World Civilization (Social Sciences) to be fulfilled by:

HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) (Sp, Fa) 3
HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) (Sp, Fa) 3
27 hours in Spanish in courses numbered 3000 or above with a minimum grade of “C” in each course. Specific courses required are:

SPAN 3003 Advanced Spanish (Sp, Fa) 3
SPAN 3033 Conversation and Composition (Sp, Fa) 3
SPAN 3103 Cultural Readings (Sp, Fa) 3
SPAN 3113 Introduction to Literature (Sp, Fa) 3
SPAN 4003 Advanced Grammar (Fa) 3
3000-4000 level or higher SPAN electives, selected in consultation with the major adviser 4

Honors students who complete the HUMN 1114H, HUMN 1124H, HUMN 2114H, HUMN 2124H (H2P) sequence will have fulfilled the World Civilization (HIST 1113 and HIST 1123) requirement for this major as well as the major’s 3-hour Humanities requirement.

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 183).
This fulfills 6 hours of social science university/state core; the remaining 3 hours in the social science core must be fulfilled by a non-HIST social science university/state core course.

SPAN 1013, 2003, and 2013 or equivalent may be required prior to taking SPAN 3003.

Students considering future graduate work in Spanish are strongly advised to take both the Spanish and Latin American literature surveys (SPAN 4103 or SPAN 4113 and SPAN 4133 or SPAN 4193).  

Writing Requirement: The college writing requirement may be satisfied by a term paper or other written work submitted for an upper-division world language literature class approved by the chair of the department.

Spanish B.A.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 73) for university requirements of the program. The following eight-semester plan refers to both University Core and additional departmental requirements as presented above. Hours may vary by individual, based on placement and previous credit granted. Once all core and departmental requirements are met, students may substitute a three-hour (or more) general elective in place of a core requirement.

In some cases, elective courses may be adjusted to the individual needs of the candidate with the permission of the Japanese adviser.

Requirements for Honors in World Languages: The Honors Program in World Languages gives students of high ability the opportunity to conduct independent research culminating in an honors thesis. In addition to satisfying general graduation requirements and all requirements for honors separately established by the Honors Council, candidates for honors in World Languages must:

1. Complete 12 hours of honors credit. One to six of these may be honors thesis hours; the remaining hours should be taken in disciplines chosen in consultation with the adviser;
2. Complete an honors thesis in the major field, and pass an oral examination on the thesis conducted by an honors committee, as evidence of substantial individual research skills;
3. Demonstrate superior competence in language, culture, and literature by achieving a GPA of 3.5 in all upper-division courses submitted for the major.

Successful completion of these requirements will be recognized by the award of the distinction “Language Scholar Cum Laude.” Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

World Language (B.A.) Teacher Licensure Requirements:

Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students.

**Sam M. Walton College of Business**

**Mission and Objectives**

**Vision Statement**

Through our teaching, research, and service, the Sam M. Walton College of Business will be a thought leader and a catalyst for transforming lives in Arkansas, the United States and the world.

**Core Values**

**Excellence:** We are driven to be the best in everything we do.

**Professionalism:** We operate with integrity, humility, respect, and inclusion.

**Innovation:** We imagine possibilities, we create, and we inspire others.

**Collegiality:** We respect each individual, we value our differences, and we welcome all.

**Mission Statement**

The mission of the Sam M. Walton College of Business is to advance and disseminate business knowledge using a diverse, inclusive, and global perspective and to encourage innovation in our primary strategic endeavors: Retail, Data Analytics, and Entrepreneurship.

**Facilities and Resources**

The Walton College offers degree programs for undergraduate students and for graduate students at both the master’s and doctoral levels.

The Walton College is housed in four modern buildings supporting on-campus programs. These attractive facilities provide technology-equipped classrooms and state-of-the-art computer laboratories for both business classes and individual use. The buildings also house faculty and administrative offices, an honors program study area with computer access, the Walton College Career Development Center, the Garrison Financial Institute, and large study areas equipped for individual as well as group studying.

The library of the college is part of the general University Libraries and is housed in Mullins Library. The business and economics collection comprises approximately 55,000 volumes and makes this library one of the best in the region.

Walton College also operates centers for research, outreach, and public service. Information about these centers may be found in the University Centers and Research Units section of this catalog. Walton College centers include the following:

- Applied Sustainability Center
- Behavioral Business Research Lab
- Bessie B. Moore Center for Economic Education
- Center for Business and Economic Research
- Center for Retailing Excellence
- Executive Education

Please refer to the Secondary Education Requirements (p. 186) for Fulbright College Students.

Degrees Offered
Undergraduate students may pursue curricula leading to one of the following degrees: Bachelor of Science in Business Administration (B.S.B.A), Bachelor of Science in International Business (B.S.I.B.). In each of these degree programs, the pre-business requirements must be completed before students may enroll in upper division business courses. Students in Walton College may pursue an academic minor in business or in the J. William Fulbright College of Arts and Sciences. Walton College also offers business minors for non-business students. Degree programs and minors are outlined on subsequent pages.

College Admission Requirements
All students admitted to the University of Arkansas, Fayetteville, are eligible for admission to the Sam M. Walton College of Business. Students will be required to follow the degree program requirements set forth in the catalog corresponding to the student’s first semester in Walton College, not the first semester of enrollment at the University of Arkansas.

College Scholarships
High school graduates who expect to enroll in Walton College are encouraged to apply for scholarships made available to freshmen by individuals, business firms, and organizations. Also available to freshmen, regardless of degree program, are freshmen academic scholarships. Current Walton College students may apply for both college and departmental scholarships beginning in January of each year for the following academic year. Information on these financial awards may be secured from the University Scholarship Office and the Walton College Undergraduate Programs Office.

Student Organizations
In addition to the general university student organizations, Walton College Student Ambassadors, Leadership Walton and a Business Dean’s Student Advisory Board, there are several college societies open to Walton College students. These include the following:

- American Marketing Association
- Association for Information Systems
- Beta Alpha Psi (accounting honorary)
- Beta Gamma Sigma (business honorary)
- Enactus (formerly SIFE)
- Finance Club
- National Association of Black Accountants
- Omicron Delta Epsilon (economics honorary)
- Phi Beta Delta (international scholars honorary)
- S.A.K.E. (Students Acquiring Knowledge Through Enterprise)
- Society for Human Resource Management
- Students of Retailing Excellence (STORE)
- Transportation and Logistics Association
- Women Impacting Supply Excellence (WISE)

Eight-Semester Degree Program Policy

College Academic Regulations

Pre-Business Requirements
Students pursuing a degree in Walton College are classified as pre-business with an intended major until all pre-business requirements are fulfilled. The following policies apply to the pre-business program:

To be eligible to enroll in upper-division business courses in Walton College, a student must complete the Walton College computer competency requirement, ISYS 1123 or ISYS 1120, and maintain at least a 2.50 (on a 4.00 scale) overall grade-point average (GPA) in addition to completing the 31 credit hours listed below of pre-business core courses (or their equivalents), also with at least a 2.50 GPA. Further, a student must complete all courses offered to meet this requirement with a grade of “C” or better or the requirement for graduation. The pre-business core courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Semester</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCT 2013</td>
<td>Accounting Principles</td>

</table>

Students’ records will be evaluated each semester to determine whether a student should be moved to a major and have pre-business classification removed. After completing pre-business requirements and being admitted into his or her major, the student is expected to arrange for a pre-graduation check by the Undergraduate Programs Office to ascertain remaining degree requirements.

Business Core Requirements
Students pursuing a degree in Walton College must complete the following business core courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

Registration in Junior/Senior-Level Walton College Courses
Walton College students must complete the pre-business requirements prior to enrollment in junior- or senior-level courses in Walton College.

Non-degree seeking students and students enrolled in other colleges are subject to the same course prerequisites as students within Walton College. Specific exceptions to this policy must be addressed to the assistant dean for undergraduate programs in Walton College.

Restrictions on General Education Electives: Only three hours total of general education electives will be allowed in Physical Education Activity (PEAC) or Dance Education Activity (DEAC) courses.

Transfer of Credit Policies
In addition to the university policies controlling the granting of credit for course work taken at other institutions, the following policies apply to transfer work applied to any undergraduate business program:

1. Transfer students considering admission to pursue a major in Walton College must have completed the pre-business courses and requirements listed above and have a 2.50 (on a 4.00 scale) cumulative grade-point average in the pre-business courses and in his or her overall grade-point average. Transfer students will be classified as pre-business students until pre-business core requirements have been completed.

2. A pre-business and overall grade-point average for courses accepted for transfer by the University of Arkansas will be calculated and used to evaluate the completion of the pre-business requirements by students transferring courses from other institutions.

3. Unless exceptions are granted at the time of admission to the University of Arkansas, transfer courses accepted by the university will not be accepted by Walton College for degree purposes unless a grade of “C” or better has been earned in each of these courses. (See the transfer credit page of this catalog.)

4. A transferred course cannot carry more degree hours than are available in a similar University of Arkansas course. For example, a four-hour principles of economics course transfers as three degree hours.

5. Business courses completed at the freshman or sophomore level at another institution will not count as equivalents of junior- or senior-level courses offered in Walton College (University of Arkansas), and no transfer credit shall be granted for any course(s) in Walton College.

6. At least 50 percent of program requirements in business and economics must be taken in residence.

7. MGMT 3013, 21-24 hours of upper division courses required for the completion of the major, and 3-6 hours of additional, upper division business courses are required degree must be taken in residence at the University of Arkansas, Fayetteville.

8. Junior- or senior-level core courses in business and economics may be transferred from a school accredited by AACSB International.

9. Junior- or senior-level core courses taken at a non-AACSB International-accredited, four-year institution must either be repeated or validated by procedures specified and approved by the assistant dean for undergraduate programs.

10. Junior- or senior-level electives in business and economics taken at a non-AACSB International-accredited, four-year institution may be accepted as junior/senior business electives.

11. In cases of minors or transfer, students who take courses with different names but with similar content at different institutions or in different colleges within the University of Arkansas, may be allowed degree credit for only one of the courses (i.e.: principles of economics and agricultural economics). Students pursuing degrees and minors within the Walton College must enroll in business courses as designated by their program of study.

12. Courses taken at any higher education institution where the course content is remedial are not acceptable for degree credit.

13. The student should be prepared to submit course descriptions, syllabi, or other course-related information for transfer course work if there is any question as to whether Walton College will grant degree credit for such work.

14. Exceptions: All requests for, exceptions to, and variations from the rules, regulations, and requirements of Walton College and the university should be made in writing to the assistant dean for undergraduate programs of Walton College. Consult the Undergraduate Programs Office in Walton College for these requests.

Course Loads
The normal course load in Walton College is 15 to 17 hours per semester (and six hours per summer term). Students with a 2.75 grade-point average the previous semester may take a maximum of 18 hours. Seniors may take 18 to 19 hours, if required for graduation, during their final semester. Students on academic warning are limited to a maximum course load of 12 hours. University regulations on the number of hours allowed per semester are found in the Orientation and Registration section of this catalog.

Foreign Language Concentration
An undergraduate B.S.B.A. degree-seeking student may elect to substitute 12 hours in a single upper-level foreign language for 12-15 hours of the 12-15 hours required in the junior-senior business elective block of courses for the degree requirements. Students who choose to use 12 hours of foreign language, but who are pursuing majors requiring 15 hours of junior-senior business electives, must take an additional 3 hour junior-senior business elective to satisfy degree requirements.

Double Major
A student may elect to obtain a double major by completing all required courses for two majors in Walton College (but not in two concentrations within a single major). The minimum hour requirement for a double major is 138 degree credit hours to include all requirements for both majors. If there are courses common to both majors, the department chairs involved will agree upon and specify additional requirements in lieu of the common courses. The junior/senior business elective block is reduced by three hours; however, choice of the junior/senior business electives is restricted to no more than three total hours from each department that offers the two majors. Students who have elected to substitute a foreign language course of study for junior/senior business electives must complete 12 hours of junior/senior language courses.

The student must notify the Undergraduate Programs Office in Walton College of intent to pursue a double major. All requirements for double majors must be completed prior to awarding of a degree.
Business Minors
The Walton College offers a variety of minors for students desiring specific knowledge in another area of business (outside their major) to assist them in their business careers. Students may elect to obtain a business major and a business minor by completing all required courses for both the major and the minor in the Walton College (but not a major and minor within the same discipline). Students must complete all requirements for both the major and the minor and may not use more than six hours of major courses toward minor requirements. If there are common courses to both, the department chairs involved will agree upon and specify additional requirements. Business minors require the completion of 15 specific hours of study and all upper level courses applied toward the minor must be taken in residence.

Students may elect to obtain multiple business minors by completing all required courses for all minors in the Walton College (but not minors within the same discipline). Students must complete all requirements for minors and may not use more than three hours of courses toward each of the minor requirements. However, if there are common courses to both, the department chairs involved will agree upon and specify additional requirements.

Students who desire to earn a business minor must notify the Walton College Undergraduate Programs Office of their intent to pursue a minor. All requirements for the minor must be completed prior to the awarding of the student’s undergraduate degree. All specific course prerequisites must be met. Each student must have a 2.00 cumulative GPA in the courses offered for the minor.

Additional Bachelor’s Degrees
Students seeking a second bachelor’s degree must contact the Undergraduate Programs Office to ascertain specific requirements. Degree candidates must meet the university’s general graduation requirements. The university requires that 1) the student take a minimum of 30 semester hours over the requirements for the first degree, and 2) the 30 hours cover a minimum of 36 weeks in residency at the Fayetteville campus. Walton College also requires that the student complete all courses in the pre-business and business core and the major and any additional business requirements (if some of these have been completed on the first degree, they are waived). It is recommended that any additional courses needed to finish the university’s 30-hour requirement be junior or senior business electives. The second degree may be taken after the first is awarded, or both degrees may be awarded simultaneously after completion of all requirements for both.

College Graduation Requirements
1. University Requirements. Degree candidates must meet the following: the university’s general entrance requirements, number of credit hours required in residence, and the “requirements for graduation,” including the University Core American history.

2. Hour Requirements. Degree candidates must satisfactorily complete the total number of semester hours specified for the curriculum in courses approved for one of the majors outlined in the succeeding pages. No less than 50 percent of the total credits must be in approved subjects other than business. 

NOTE: Not all courses offered by the university will be accepted for degree credit by Walton College. Courses falling into this category are ENGL 0002, ENGL 0013, and MATH 0003. Developmental courses are defined as 1) any course so designated by the university, and 2) any lower-division course taken after a higher-level course is taken. Credit will not be given for duplicate course work.

3. Grade Requirements. Students must earn a grade of “C” or better in all pre-business core course requirements. Each student must have a 2.00 cumulative GPA in each of the following areas:
   a. All work completed at the University of Arkansas.
   b. All courses specifically designated for the major.
   c. All required business core courses and required economics courses.

4. General Education Course Work. A student’s general education course work must satisfy University Core Requirements, additional college/program course-specific requirements, as well as these two area requirements:
   a. Social Issues, Multicultural Environment, and Demographic Diversity, and
   b. Micro and Macroeconomics. If a student has not satisfied these area requirements within the fine arts and/or social sciences areas of the university core, these area requirements must be satisfied through general education electives to allow students to complete degree requirements within the hours indicated above.

Courses that satisfy these area requirements are listed below. NOTE that many of these courses will also satisfy University Core Requirements. Where possible, a student should select courses that satisfy both requirements.

A. Social Issues, Multicultural Environment, and Demographic Diversity

5. **Enrollment Requirement**: Students must earn a minimum of 30 semester hours on the Fayetteville campus – this includes study abroad classes, online and courses offered through the Global Campus. Other courses paid toward Fayetteville campus tuition and fees may be used with approval. These 30 semester hours must include MGMT 3013, 21-24 hours of upper division courses required for the completion of the major, and 3-6 hours of additional upper division courses required for the degree program. Specifically, required junior and senior courses in business or economics must be taken at the University of Arkansas or at an AACSB accredited school. At least 50 percent of the total hours in business and economics must be taken in residence.

6. **Catalog/Curriculum Changes.** Business is a dynamic profession, and the college and department curricula are updated continuously to keep pace with changes in the business world. Students entering under this catalog will be required to comply with such curricular changes to earn their degree. The total number of hours required for the degree, however, may not be increased, and all work completed in accordance with this catalog prior to the curriculum change will be applied toward the student’s degree requirements. Furthermore, courses incorporated into the curriculum at a level lower than the one the student has completed are not required for that student unless there are specific prerequisites. Students entering under earlier catalogs are responsible for completing the graduation requirements as published in the catalog in effect when they entered the program. Students having interruptions of their academic programs that exceed two calendar years must complete the requirements published in the catalog in effect when they re-enter the program. Exceptions to the graduation requirements must be approved by the assistant dean for undergraduate programs.

The Walton College offers an eight-semester degree-completion program. In each of the majors listed in this chapter, at least one eight-semester schedule is shown. Some majors offer several concentrations, and eight-semester programs are available for each of the concentrations.

See more about the university’s Eight-Semester Degree Policy (p. 73).

**Graduate Studies**

The University of Arkansas offers the following advanced degrees in business: Master of Accountancy, Master of Business Administration, Master of Arts in Economics, Master of Information Systems, Doctor of Philosophy in Business Administration, and Doctor of Philosophy in Economics.

For further information about these programs and requirements for admission, see the Graduate School Catalog or write to the assistant director of marketing and recruiting, Graduate School of Business, 475 WJWH.

**Accreditations**

The college has been a member of and accredited by AACSB International–The Association to Advance Collegiate Schools of Business since 1931. The accounting program was accredited separately in 1986 at both the bachelor’s and master’s level. The master’s degree in the business administration program was approved in 1963. Accreditation by and membership in AACSB signifies commitment by the college to the goals of promoting and actualizing the highest standards of business education.
Minors
For students majoring in a Walton College discipline, the following minors are available:

- Accounting (p. 385)
- Behavioral Economics (p. 388)
- Business Analytics (p. 399)
- Business Economics (p. 388)
- Enterprise Resource Planning (p. 416)
- Finance (p. 391)
- Financial Economics (p. 416)
- Information Systems (p. 399)
- International Business (p. 373)
- Management (p. 403)
- Marketing (p. 409)
- Nonprofit Studies (p. 416)
- Retail (p. 411)
- Supply Chain Management (p. 413)

Minors in the J. William Fulbright College of Arts and Sciences
Students in Walton College may pursue an academic minor in the J. William Fulbright College of Arts and Sciences. Academic minors usually consist of 15 to 18 hours of course work. The available minors and course requirements are specified in the Fulbright College section of this catalog. Students must notify the Undergraduate Programs Office in Walton College of their intention to pursue a minor as early as possible. Walton College will certify that the requirements of the minor have been satisfied by graduation and, with the assistance of the Fulbright College, will advise students on the requirements to complete a minor. The minor will be designated on the student’s transcript.

Courses that are part of the University Core Requirements or the additional General Education Requirements or any other non-business course that is part of a student’s course of study may also be counted for credit in a minor. For example, ANTH 1023 Introduction to Cultural Anthropology, is a concentration in the B.S.B.A. social science block and can also be used to satisfy the requirements of the anthropology minor. Other courses in a minor can be counted as general education electives. Walton College economics majors in the business economics concentration or the international economics and business concentration may not obtain a Fulbright College minor in economics.

Business Administration Minors for Non-Business Students
Read about the options for non-business students to pursue business administration minors (p. 417).

Other Programs
Cooperative Education
Cooperative education (co-op) is an academic program that enables students to gain degree-related experience prior to graduation. It is a planned, progressive educational strategy in which the student obtains work experience related to his or her academic major and career goals. Participating students earn academic credit for their work experiences and are always paid by their employers. Co-op students can maintain their status as full-time students while participating in the program, even if their co-op experience requires they spend a semester working full-time.

Walton College students are eligible for co-op credit if they have 1) completed the pre-business core and have obtained at least 60 hours of credit, 2) a cumulative grade-point average of 2.5 or better, and 3) a grade-point average of 2.5 or better for the last full-time term completed. Students may receive one hour of credit per semester for a job that requires 12-19 hours of work per week or two hours of credit per semester for a job that requires 20 or more hours per week. A maximum of six hours of degree credit may be awarded as a junior- senior-level business elective. Students may not utilize cooperative education credit toward major course requirements unless approved by department chair. Full-time students who work 40 hours or more per week in internships approved by the co-op education academic coordinator are eligible for three hours of academic credit per semester, or per full summer, provided they have a minimum GPA of 2.75, as well as having received a GPA of at least 2.75 in the prior full-time semester.

Students may seek either to qualify a job they have found themselves for co-op credit, or they may seek an employment opportunity through the Walton College Career Center, Willard J. Walker Hall 226. The employment opportunity may be either a full-time, off-campus work assignment that alternates with semesters spent on campus taking courses (an alternating co-op), or it may be a part-time job undertaken concurrently with course work (a parallel co-op). Once a student has been matched with an approved job, the co-op coordinator, the faculty co-op adviser, the student’s work place supervisor, and the student work together to formulate career-related learning objectives for the coming semester of work. These objectives must be in writing and in to the cooperative education coordinator in order for a student to be registered for co-op. At the end of each semester of work, the student is required to submit a three- to ten-page paper (depending on credit hours to be received) that re-states the student’s learning objectives for the semester and discusses how the job experience fulfilled the objectives. The student is also required to submit an employer evaluation form, and the work supervisor is asked to submit an evaluation of the student’s work.

For information on participating in Walton College co-op program, a current listing of co-op opportunities, and phone numbers of people with whom you may discuss these opportunities, visit the Cooperative Education home page on the Web at waltoncollege.uark.edu/coop/.

Honors Program
Walton College honors program consists of two components: the four-year Walton Scholars Program and the Departmental Scholars Program. Students participating in the honors program will be eligible to graduate cum laude, magna cum laude, or summa cum laude. Students who do not participate in the honors program are eligible to graduate with distinction, a classification separate from the cum laude awards. Honors program students will receive priority for participation in the Arkansas Cooperative Education Program, SAKE, the portfolio management class, and financial
support for study-abroad programs. They also have access to an honors study area.

Graduation with Honors

The bachelor’s degree summa cum laude (with highest honors), magna cum laude (with high honors), or cum laude (with honors) may be conferred only upon those students who have successfully completed the Walton College Honors Program. Both Walton Scholars and Departmental Scholars are eligible for these designations. Students whose cumulative grade-point average place them in the top 10 percent of their graduating class but who have not completed the Honors Program are eligible for the designation “With Distinction” on their official transcript. Among those students completing the Honors Program, the designations summa cum laude, magna cum laude and cum laude shall be determined as follows:

- Top 20 percent of students completing the Honors Program: Summa Cum Laude
- Next 30 percent of students completing the Honors Program: Magna Cum Laude
- Next 50 percent of students completing the Honors Program: Cum Laude

No honors degree will be conferred upon a candidate who has not completed at least 50 percent of his or her degree work at the University of Arkansas or who, in the last four semesters of attendance, has a cumulative grade-point average of less than 3.00 or has received a “D” or “F” in any course in the last semester. Certain other requirements will be outlined on request by the associate dean for undergraduate studies.

Eligibility for the Honors Program

Admission will be offered to incoming freshmen with a minimum ACT/SAT score of 28/1240 or higher and a high school GPA of 3.75. Honors students are required to maintain a cumulative GPA of 3.50 with no grades of “D” or “F” in any course to remain in the program. All honors programs each semester to monitor progress of honors requirements. Students who maintain a GPA of 3.50 but do not complete honors requirements in a timely manner are subject to removal from the Honors Program at the discretion of the director of the honors program.

Requirements for Walton Scholars Program:

1. Complete 17 hours in honors courses with a minimum of 9 hours completed from the following honors business courses: ACCT 2013H, BLAW 2013H, ECON 2013H, ECON 2023H, ISYS 2103H, MGMT 2103H, MKTG 3433H, SCMT 2103H, or WCOB 1033H (excluding WCOB 1111H). The remaining honors hours may be selected from the University Core. Completing honors courses in the Fulbright College will fulfill this requirement. MATH 2564 may be used as honors credit towards completion of the 17 required honors hours. Students must complete a minimum of 12 honors hours within the first 30 hours at the Fayetteville campus.
2. Demonstrate proficiency in a foreign language. This requires 0 to 12 hours of course work. Students may demonstrate proficiency by completing the 2013-level course in any foreign language. Students whose native language is not English must complete a 2013-level course other than their native language from Arabic, Chinese, French, German, Italian, Japanese, Spanish or COMM 2303 and COMM 2323. Students must complete a foreign language or communications course within the first 90 hours at the Fayetteville campus.
3. Students must also complete MATH 2554 with a grade of “C” within the first 45 hours at the Fayetteville campus prior to taking upper level business classes.
4. Complete the following honors courses in Walton College:
   a. Two three-hour colloquium courses chosen from the following: WCOB 3003H (may be repeated for up to 6 hours of credit), ACCT 4003H, ECON 4003H, FINN 4003H, ISYS 4003H, MGMT 4003H, MKTG 4003H, SCMT 4003H or other business honors colloquium courses offered irregularly. One three-hour colloquium must be completed within the first 90 hours at the Fayetteville campus.
   b. A three-hour thesis (WCOB 4993H): The thesis is a major independent writing project under the leadership of a Walton College or University of Arkansas faculty member and arises from a research project, business plan, business competition, or internship.
5. Complete an alternate honors capstone course MGMT 3013H Honors Strategic Management (Sp, Su, Fa), which should be completed within the first 90 hours at the Fayetteville campus.

Requirements for the Departmental Scholars program:

Admission to the Honors Program as a departmental scholar will only be offered to current University of Arkansas students who have established a cumulative GPA of 3.75 upon completion of their freshmen year at the University of Arkansas. Transfer students may also apply upon completion of one semester at the University of Arkansas with a GPA of 3.75. All students must complete an application to be considered for acceptance into the departmental scholars program.

Honors students are required to maintain a cumulative GPA of 3.50 with no grades of “D” or “F” in any course to remain in the program. All honors students are required to meet with the associate director for honors programs each semester to monitor progress of honors requirements. Students who maintain a GPA of 3.50 but do not complete honors requirements in a timely manner are subject to removal from the Honors Program at the discretion of the director of the honors program.

1. Complete nine hours of honors courses to be selected from pre-business core or University Core. MATH 2564 may be used as honors credit towards completion of the 9 required honors hours.
2. Students must demonstrate proficiency in a foreign language by completing a 2003 course in any foreign language. Students whose native language is not English must complete a 2003-level course other than their native language or a third language from Arabic, Chinese, French, German, Italian, Japanese, Spanish or COMM 2303.
3. Students must also complete with a grade of “C” or better within the first 60 hours at the Fayetteville campus and prior to taking upper level business courses.
4. Complete the following courses in Walton College:
   a. Two three-hour colloquium courses chosen from the following: WCOB 3003H (May be repeated for up to 6 hours of credit), ACCT 4003H, ECON 4003H, FINN 4003H, ISYS 4003H, MGMT 4003H, MKTG 4003H, SCMT 4003H or other business honors colloquium courses offered irregularly. One three-hour honors colloquium must be completed within the first 90 hours at the Fayetteville campus.
   b. A three-hour thesis (WCOB 4993H): The thesis is a major independent writing project under the leadership of a Walton College
5. Complete the honors capstone course MGMT 3013H Honors Strategic Management (Sp, Su, Fa), which should be completed within the first 90 hours at the Fayetteville campus.

**B.S.B.A. Requirements**

The Bachelor of Science in Business Administration (B.S.B.A.) degree is offered through an educational program in the business and organizational disciplines intended to prepare individuals to make sustained contributions to organizations and society in a global, diverse, and dynamic environment. To achieve this objective, the curriculum focuses on developing an individual's interdisciplinary problem-solving skills, interpersonal and communication skills, ability to adapt to changing technology, spirit of entrepreneurial innovation, and ethical and professional values.

Walton College offers work in the following nine majors for the B.S.B.A. degree. Some majors have concentrations to allow additional specialization.

1. Accounting (p. 385) (ACCT)
2. Business Economics (p. 388) (BECO)
   a. Business Economics Concentration
   b. International Economics and Business Concentration
3. Finance (p. 391) (FINN)
   a. Banking Concentration
   b. Energy Finance Concentration
   c. Financial Management/Investment Concentration
   d. Insurance Concentration
   e. Real Estate Concentration
4. General Business (p. 403) (GBUS)
5. Information Systems (p. 399) (ISYS)
   a. Business Analytics
   b. Enterprise Resource Planning Concentration
   c. Enterprise Systems Concentration
6. Management (p. 403) (MGMT)
   a. Human Resource Management Concentration
   b. Small Business and Entrepreneurship Concentration
   c. Organizational Leadership Concentration
7. Marketing (p. 409) (MKTG)
8. Retail (p. 409) (RETL)
9. Supply Chain Management (p. 413) (SCMT)
   a. Retail Supply Chain Management Concentration
   b. Transportation and Logistics Concentration

**Requirements for B.S.B.A. Degree**

Students pursuing a degree in Walton College are classified as pre-business with an intended major until all pre-business requirements are fulfilled. To enroll in upper-division courses, a student must obtain at least a 2.50 (on a 4.00 scale) overall grade-point average in addition to the completion of all pre-business core courses (or equivalents), also with a minimum 2.50 GPA. Further, a student must earn a grade of “C” or better in each pre-business core course for admission into the major or for the graduation requirement.

1 Pre-Business requirement: These 31 hours must be completed with a GPA of 2.50, an overall GPA of 2.5, and a grade of “C” or better in each course before a student is allowed to take upper-division business courses. Students intending to pursue a major or minor in Accounting or Finance must complete ACCT 2023.

2 Students majoring in Finance with Energy Finance Concentration must complete GEOS 1133/GEOS 1131L for one of their natural science requirements.
A total of 12 hours of general education electives are required for the Bachelor of Science in Business Administration (B.S.B.A.). General education electives should be non-business courses but may include up to six total hours of business courses and no more than three hours of PEAC or DEAC courses. Students may utilize general education electives to complete a minor outside the Walton College. In addition, these electives may fulfill requirements for Social Issues, Multicultural Environment, and Demographic Diversity if not otherwise completed in the University Core. Students majoring in Finance with an Energy Finance Concentration must complete GEOS 4253 as one of their general education elective credits.

(Total is less than the sum of the categories because some courses count in two categories and based on variation in junior-senior-level business electives and major requirements. A minimum of 120 hours is required for graduation.)

In addition to the core courses, each student will complete the required pre-business and business courses, junior-senior-level business electives, and major courses as specified by each major.

Each student must have a 2.00 cumulative grade-point average in each of the following areas: all work completed at this university, all courses specifically designated for the major, and all required Walton College core and economics courses. Students must earn a grade of “C” or better in each of the pre-business core courses.

Online B.S.B.A.

General Business is the broadest major in Walton College. It is offered by the Department of Management, which also offers a major in management (p. 403). This online program provides the student exposure to all facets of the business process. Maximum flexibility is retained by the student. At the same time, careful use of general and junior/senior business electives allows the student to concentrate additional coursework in one or more selected functional areas.

The Walton College Online Bachelor of Science in Business Administration degree is intended to provide students the opportunity to enroll in a four-year degree program online. In addition, the online degree affords students who have completed an Associate’s Degree in Business or those who are near completion of their business degree, the option to complete a B.S.B.A. with a major in General Business.

Admission
Students must apply to the University of Arkansas, Office of Admissions for consideration and indicate their interest in the online program on the admissions application. Students are required to submit an application for admission, official transcripts (either high school or college transcripts or both), and a $40 application fee.

Requirements for the Online Program

1. Walton College Policy for On-Campus Students Taking Online Courses
Any student pursuing an on-campus (face to face) undergraduate degree from the University of Arkansas may take up to 35 percent of the total credit hours of regular online (semester/summer) and self-paced online (correspondence) courses for degree credit. On-campus students will be restricted to 2 courses (8 hours) of online classes within their first 30 hours. WCOB 1111 Freshman Business Connection (Fa), however, cannot be taken online. Thereafter, students can take up to 12 hours of online classes per academic year. For students who have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular online (semester/summer) and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for. In addition, on-campus students cannot enroll in online courses unless they have a cumulative GPA of at least 2.0 (after their first 15 hours of undergraduate coursework) and they have no more than one outstanding incomplete in a previous online course.

2. Walton College Policy for Online Students Taking On-Campus Courses
Online students will be restricted to 8 hours of on-campus classes within their first 30 hours. Thereafter, students can take up to 12 hours of on-campus classes per academic year, but no more than 35 percent of their total credit hours on campus may be used in total toward their degree. Ordinarily, no more than 60 hours of coursework can be transferred from the online degree program into an on-campus degree program. Transfer credits for students who transfer into the online degree program will be evaluated the same as transfer credits for the on-campus program. For students who have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular online (semester/summer) and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for.

3. Online students will have priority registration for online courses.
For questions regarding the Online Degree in General Business, please visit online.ujrk.edu or contact the Undergraduate Programs Office at 479-575-4622.

</table>

- Maximum of 27 hours of courses in any one department (core, major, elective). More than 27 hours allowed if the extra courses are part of interdisciplinary minor or collateral track.
- Each student must have a 2.00 cumulative grade-point average in each of concentration.

**Junior/Senior Business Electives**

- Not including contributing courses in the Business Core
- American History or Government
- Laboratory Science (two courses with labs)
- Social Science (one course)
- Fine Arts and Humanities (one course)

**B.S.I.B. Requirements**

The Bachelor of Science in International Business degree is intended for students who wish to learn more about the international aspects of business. It provides preparation for a broad range of careers in business, including accounting, management, marketing, economics, information systems, finance, retail, and supply chain management. This degree is also well suited for students wishing to continue their studies in law, international affairs, or graduate education in business and economics.

This degree requires completion of the University Core and Walton College Core courses, as well as course work in international business, a single foreign language and an area of study related to that language. In addition, students must select a concentration in one of the following areas: accounting, business economics, information systems, finance, general business, management, marketing, retail or supply chain management.

Students pursuing a degree in the Sam M. Walton College of Business are classified as pre-business with an intended concentration until all pre-business requirements are fulfilled. For admission into the intended concentration, a student must obtain at least a 2.50 (on a 4.00 scale) overall grade-point average, in addition to the completion of all pre-business core courses listed elsewhere in the catalog (or equivalents), also with a minimum 2.50 grade-point average. Further, a student must earn a grade of “C” or better in each of the pre-business core courses for admission into the major or for the graduation requirement.

The International Business degree program has eight concentrations:

- Accounting
- Business Economics
- Finance
- General Business
- Information Systems
- Management
- Marketing
- Retail
- Supply Chain Management

In the eight-semester degree program for each concentration, the first four semesters of each of concentration are exactly the same.

**Graduation Requirements for the B.S.I.B. Degree**

Each student must have a 2.00 cumulative grade-point average in each of the following areas: all work completed at this university, all courses in the business core, and all designated international business courses/functional concentration/world language courses. In addition, students must earn a grade of “C” or better in each of the pre-business core courses.

Courses that are required in either Walton College or the international business core and also are required in one of the business concentrations cannot be used to satisfy both requirements. For example, students who take FINN 3703 to satisfy the finance concentration requirements cannot also use it to satisfy the international business requirements.

**A. University Core Requirements**

- Not including contributing courses in the Business Core
- American History or Government
- Laboratory Science (two courses with labs)
- Social Science (one course)
- Fine Arts and Humanities (one course)

**B. Pre-Business Core Courses**

E. World Language Requirements (9 hours)

Students whose native language is English or whose native language is not taught at the University of Arkansas must complete nine hours of university course work in a single world language — three hours of intermediate language and six hours of upper-division course work in communications and business language, or equivalent. Based on prior knowledge of language, students may receive degree credit for courses if they validate their higher placement by passing the business language course (or equivalent) with a grade of “C” or above. Students with no previous world language training or only rudimentary knowledge of a world language will be required to complete up to nine hours of additional world language requirements — in addition to the nine hours of specified language. No degree credit will be given for world language courses below 2013 course level. Students may select one of the following language tracks:

**Arabic**
- ARAB 2013 Intermediate Arabic II (Irregular)
- ARAB 2016 Intensive Arabic II (Sp)
- ARAB 3016 Intensive Arabic III (Fa)
Or Equivalent

**Chinese**
- CHIN 2003 Intermediate Chinese I (Fa)
- CHIN 2013 Intermediate Chinese II (Sp)
- CHIN 3033 Conversation (Sp)
And any other Upper Division CHIN

**French**
- FREN 2003 Intermediate French I (ACTS Equivalency = FREN 2013) (Sp, Fa)
- FREN 2013 Intermediate French II (ACTS Equivalency = FREN 2023) (Sp, Fa)
- FREN 3033 French Conversation (Fa)
- FREN 3003 Advanced French (Sp, Su, Fa)
- FREN 4333 Introduction to Business French (Irregular)

**German**
- GERM 2003 Intermediate German I (ACTS Equivalency = GERM 2013) (Sp, Su, Fa)
- GERM 2013 Intermediate German II (ACTS Equivalency = GERM 2023) (Sp, Su, Fa)
- GERM 3003 Advanced German I (Fa)
- GERM 4333 Business German I (Fa)

**Italian**
- ITAL 2003 Intermediate Italian I (Fa)
- ITAL 2013 Intermediate Italian II (Sp)

**Japanese**
- JAPN 2003 Intermediate Japanese I (Fa)
- JAPN 2013 Intermediate Japanese II (Sp)
- JAPN 3003 Advanced Japanese I (Irregular)
- JAPN 3013 Advanced Japanese II (Regular)

**Spanish**
- SPAN 2003 Intermediate Spanish I (ACTS Equivalency = SPAN 2013) (Sp, Fa)
- SPAN 2013 Intermediate Spanish II (ACTS Equivalency = SPAN 2023) (Sp, Fa)
- SPAN 3003 Advanced Spanish (Sp, Fa)
- SPAN 4333 Business Spanish I (Sp, Fa)

Students whose native language is not English but is taught at the University of Arkansas must select a third language from the list above or substitute six hours of upper-division English language courses (i.e., speech, writing, or U.S. literature), to be selected with the consent of an adviser and department chair. Those students whose native language is not taught at the University of Arkansas will normally be required to select a third language.

F. Area Studies Requirements (6 hours)

For students taking a world language, six hours of upper-division coursework in the J. William Fulbright College of Arts and Sciences are
required. Domestic students can satisfy this requirement in one of three ways:

1. Any upper division foreign language course,
2. Minor in a foreign language, and/or
3. Select upper division courses related to the world language to include:
   a. Arabic – any upper division course for Middle Eastern Studies (MEST) to include MEST 4003, MEST 4003H or additional courses listed under MEST in the university catalog
   b. Chinese/Japanese/Asian Studies – any upper division course for Asian Studies (AIST)
   c. French – any upper division course for EUST
   d. German – any upper division course for EUST Italian – any upper division course for EUST
   e. Spanish – any upper division course for Latin American Studies (LAST) or European Studies (EUST) to include LAST 4003, LAST 4003H, or additional courses listed under LAST in the university catalog, or EUST 399VH, EUST 4003, EUST 4003H, EUST 470V, or EUST 470VH or additional courses listed under EUST in the university catalog.

International students may satisfy this requirement in one of two ways:

1. For students who choose to take a third language, area studies requirements are the same as those for domestic students.
2. For students who choose to take six hours of upper division English to satisfy their language requirement, nine hours of upper division coursework in the J. William Fulbright College of Arts and Sciences pertaining to the United States to include any upper division course for American Studies (AMST) listed in the university catalog.

G. International Experience Requirement

At a minimum, a student must complete a study abroad program approved by the Walton College of at least four weeks and six credit hours, or work abroad, or work with the international division of a domestic company as part of their program. Students are strongly encouraged, but not required, to seek job experience in a company located in a country related to their foreign language requirement. International students may elect to meet this requirement by working in their home country by obtaining prior approval from their adviser and department chair.

H. Concentrations (21 hours)

Students must take seven courses in one of the following concentrations.

### Accounting Concentration

<table>

</tr>
<tr>
<td>Six hours of Junior/Senior Interdisciplinary Electives</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td>21</td>
<td></td>
</tr>
</tbody>
</table>

In the eight-semester degree programs of each concentration, the first four semesters are exactly the same. In addition to the coursework listed below, students must complete an International Experience Requirement. Courses in **BOLD** must be taken in the semester designated. Although other courses listed are not required to be completed in the designated sequence, the recommendations noted below are preferred.

### International Business B.S.I.B. with Management Concentration

#### Eight-Semester Degree Program

Students who wish to pursue the eight-semester degree program should see the Eight-Semester Degree Policy (p. 73) for requirements of the program.
