Welcome to the University of Arkansas

This catalog of studies is a comprehensive reference for your years of study – a list of degrees and courses offered at the University of Arkansas. In addition, it gives you valuable information such as suggested and required degree plans and information about costs, scholarships and financial assistance, and campus resources. Read it with pleasure and with care.

Take every opportunity to consult your academic adviser to ensure that you are taking advantage of courses and university resources that will help you reach your educational and career goals and graduate on time. If you are not sure where to find your academic adviser, contact the dean’s office of your college; the phone numbers are listed under Contact Information (p. 44). If your major is “undecided,” contact the advising office in the J. William Fulbright College of Arts and Sciences at 479-575-3307.

Remember, the University of Arkansas is committed to your success. The faculty and staff are here to support you as you work to achieve your goals. Ask for help and advice whenever you need it.

The University of Arkansas is committed to the policy of providing educational opportunities to all qualified students regardless of their economic or social status and will not discriminate on the basis of race, color, sex, creed, sexual orientation, disability, veteran’s status, age, marital or parental status, or national origin.
General Information

Vision
The University of Arkansas represents the best of public higher education, advancing Arkansas while building a better world.

Mission
The University of Arkansas is determined to build a better world by providing transformational opportunities and skills, promoting an inclusive and diverse culture, nurturing creativity, and solving problems through research and discovery, all in service to Arkansas.

Since 1871, our fundamental purpose as a land-grant institution and state flagship remains unchanged — to serve the state of Arkansas as a partner, resource and catalyst by:

• Providing access to a comprehensive and internationally competitive public education, and fostering student success across a wide spectrum of disciplines.
• Utilizing research, discovery and creative activity to improve the quality of life, develop solutions to the challenges we face and drive the state’s economy.
• Contributing service and expertise through outreach, engagement and collaboration.

Quick Facts
• Location: Fayetteville, Arkansas
• Founded: 1871
• Enrollment: 27,778 (Fall 2018)
• Average ACT: 26
• Average high school GPA: 3.72

Got to the university’s Quick Facts page (https://www.uark.edu/about/quick-facts.php) for more information.

History
Founded in 1871 as a land-grant college and state university, the University of Arkansas established its campus on a hilltop overlooking the Ozark Mountains. There were few facilities and little money that first academic year, but the eight students and three faculty members who gathered for the first classes in January 1872 showed the same dedication to learning and commitment to excellence that has carried the University of Arkansas into the 21st century.

More than 147 years later, the university’s enrollment has passed 27,000, and its students represent all 75 counties of Arkansas, all 50 states and 120 countries. The university is the state’s foremost partner and resource for education and economic development. It serves as the major provider of graduate-level instruction in Arkansas. And its public service activities reach every county in Arkansas, throughout the nation, and around the world. Read a fuller history of the university (https://www.uark.edu/about/history.php).

The University of Arkansas has 10 colleges and schools offering more than 200 academic programs including bachelor’s degrees in 75 areas of study. The university maintains a low student-to-faculty ratio of 19:1 that promotes personal attention and mentoring opportunities. Individual classes may range from a large general-lecture class of more than 400 to a focused special-topics class of 4 or 5 students. U of A students are given the tools and encouragement needed to excel. Over the last 15 years, Arkansas students have become Rhodes, Gates Cambridge, Madison, Marshall, Goldwater, Fulbright, Boren, Gilman and Truman scholars. More than 120 students have received National Science Foundation Graduate Research Fellowships.

Students pursue a broad spectrum of academic programs leading to baccalaureate, master’s, doctoral, and professional degrees, not only in traditional disciplines within arts, humanities, social sciences, and natural sciences, but also in the core professional areas of agricultural, food and life sciences; architecture; business; education; engineering; nursing; human environmental sciences; and law.

Students may also pursue a wide range of graduate degrees, including the Master’s, the Educational Specialist, the Doctor of Education, and the Doctor of Philosophy.

As you make your way around campus, you’re sure to notice something unique about many of the sidewalks. Historic Senior Walk showcases the names of more than 175,000 University of Arkansas graduates, grouped by year of graduation starting with the Class of 1876. A long tradition in both time and mileage, it’s concrete proof of the university’s commitment to students.

You won’t be able to discover everything the university has to offer in a day, but here are a few attractions that you don’t want to miss.

• The Arkansas Union — A primary gathering place for more than 40 years, the Arkansas Union serves as a place for students to attend educational and cultural events, access campus resources, eat, study and just meet friends between classes. The facility offers a food court, fitness center, technology center, bank, post office, Razorback shop, art gallery, theatre and much more.
• Jim and Joyce Faulkner Performing Arts Center — The university’s old Field House, in which such legendary performers as Chuck Berry, Louis Armstrong and Peter, Paul and Mary have performed, was renovated recently into a 600-seat acoustically tuned performance hall. More than 200 musical concerts, operas and theatrical performances occur in the course of each year.
• Chi Omega Greek Theatre — The Chi Omega Greek Theatre, based on the designs of ancient Greece, is a popular place for concerts, pep rallies or just catching some rays between classes. Chi Omega, founded at the U of A in 1895 and now the largest women’s fraternity in the nation, donated the Greek Theatre in 1930.
• Fulbright Peace Fountain and Statue — These two impressive landmarks commemorate the legacy of the late U.S. Senator J. William Fulbright, a graduate and former president of the University of Arkansas. Fulbright famously helped create the Fulbright Scholarship Program, the largest international exchange program of its kind. Internationally renowned architect E. Fay Jones, a U of A graduate and former dean of the School of Architecture, designed the Peace Statue.
• Old Main — This architectural centerpiece of campus opened for classes in 1875, making it the oldest building at the University of Arkansas. Visit the restored classrooms, take a closer look at the inner workings of the tower clock on the fourth floor and enjoy the shade of the trees on the Old Main Lawn.
• The Inn at Carnall Hall — Built in 1905, the first women’s residence hall on campus is now a historic inn. The Inn at Carnall Hall is also home to the award-winning Ella’s Restaurant and Lambeth Lounge, the perfect spot for a little R&R on campus.
• The Fine Arts Center — Designed by renowned architect Edward Durell Stone, the Fine Arts Center at the University of Arkansas was
the first complex to integrate the fine arts — theatre, music and art — in one building with the intention that students from each discipline would be inspired by each other. The center houses the University of Arkansas Theatre, the Fine Arts Gallery and the Stella Boyle Smith Concert Hall.

- **Silas Hunt Memorial Sculpture** — Near Old Main, you’ll find this tribute to the first black student to integrate a major Southern public university since Reconstruction. A veteran of World War II, Hunt was admitted without litigation into the University of Arkansas School of Law in 1948.

- **Pi Beta Phi Centennial Gate** — A new landmark, the gate serves as a formal entrance to the university’s historic core. The striking entranceway was a gift, commemorating the first 100 years of Pi Beta Phi on campus.

- **Il Porcellino** — This wild boar statue with fountain is a replica of the original *Il Porcellino*, in Florence, Italy. The Italian title of the statue means “piglet” and comes from the local Florentine nickname for the statue. One of many Razorback tributes on campus!

- **Razorback Stadium/Hall of Champions Museum** — Donald W. Reynolds Razorback Stadium is one of the finest collegiate football facilities in the nation and home to the Jerry Jones/Jim Lindsey Hall of Champions Museum, located in the Frank Broyles Athletic Center. Bud Walton Arena houses two more athletic museums.

- **Walmart On Campus** — The nation’s first Walmart on Campus is also the smallest Walmart in the country. It’s located in the Garland Center, which also includes the U of A Bookstore as well as boutiques, salons and dining options.

The campus features many other landmarks and noteworthy facilities including the Clinton House, the small brick home on campus in which future President Bill Clinton and future Secretary of State Hillary Rodham Clinton lived while both served on the U of A’s law school faculty.

Fayetteville is routinely considered among the country’s finest college towns, and the area is regularly ranked as one of the best places in the United States to live, raise a family, work, play and retire. A thriving city of 77,000, Fayetteville is located in the hilly northwest corner of the state and has been named one of the top 5 cities in America the last two years by *U.S. News & World Report*.

Quickly gaining recognition as a nationwide center for arts and culture, the region is home to Crystal Bridges Museum of American Art. This world-class museum features a permanent collection of art spanning five centuries, from the Colonial era to the current day. The collection includes several works considered masterpieces. Crystal Bridges also offers miles of wilderness trails and a unique dining experience. If that’s not enough, admission is free. Another major cultural amenity, the Walton Arts Center, is located just two blocks from campus, where Broadway touring shows appear regularly.

Dickson Street, one of the state’s most popular entertainment districts, is also just a short walk from campus. A part of Fayetteville’s downtown historic district, Dickson Street offers a variety of restaurants, boutiques, galleries, and clubs unique to the area. Fayetteville’s historic square, College Avenue and the area around the Northwest Arkansas Mall are also great places for shopping and dining. The Fayetteville Farmers’ Market, an area tradition since 1974, was recently named one of “America’s Favorite Farmers’ Markets.”

Nearby Rogers offers the region’s newest open-air shopping experience with many of the nation’s most popular shops and eateries. And Eureka Springs, a Victorian mountain village known as the “Little Switzerland of the Ozarks,” offers more than 100 specialty shops and 70 restaurants about 45 minutes from campus.

Arkansas is a natural wonder of forests, mountains and lakes framed by picturesque rivers and streams. Some of the nation’s best outdoor amenities and most spectacular hiking trails are within a short drive of campus. Devil's Den State Park is a short distance south of Fayetteville. Beaver Lake is 30 minutes to the northeast. Hawksbill Crag and the Buffalo National River, America’s first National River and one of the few remaining undammed rivers in the lower 48 states, are an hour’s drive to the east. The Razorback Greenway, a 36-mile bicycle route, runs from campus north to Bella Vista. Even closer to campus, Fayetteville’s Botanical Garden of the Ozarks offers another outdoor option.

Northwest Arkansas is one of the most economically stable regions in the nation and serves as the base of operations for Walmart, Tyson Foods Inc. and J.B. Hunt Transport Services. Because of their presence, many other corporations have established primary or secondary headquarters in the region. Their close proximity to the U of A campus, along with their executives’ and employees’ active involvement in university life, offers students and faculty exceptional opportunities for research partnerships, internships, and post-graduation employment.

The Northwest Arkansas Regional Airport has direct flights to most major metropolitan areas, including Atlanta, Chicago, Cincinnati, Charlotte, Dallas, Denver, Houston, Las Vegas, Los Angeles, Minneapolis, San Francisco, New York, Newark and Orlando; and, Fayetteville is within a day’s drive of several larger metropolitan areas, including Dallas, Kansas City, Little Rock, Memphis, St. Louis and Tulsa.

Board of Trustees

The trustees of the University of Arkansas System are appointed by the governor of Arkansas to 10-year overlapping terms. The board sets policy for the University of Arkansas as well as other universities, colleges and institutes within the system.

John Goodson, chair
John Goodson of Texarkana is a law partner at Keil & Goodson, P.A. He earned his bachelor's degree in 1987 and law degree in 1989 from the University of Arkansas. His term expires in 2021.

Mark Waldrip, vice chair
Mark Waldrip of Moro is owner of East Arkansas Seeds Inc. and Armor Seed LLC, companies that develop and sell soybeans, wheat, rice and corn. He also owns and manages Waldrip Farms Inc., a several thousand acre family farm. Waldrip is a 1977 graduate of the University of Arkansas. His term expires in 2020.

Morril Harriman, secretary
Morril Harriman of Little Rock has served as Governor Mike Beebe’s chief of staff since Beebe took office in 2007. Prior to that, Harriman served 16 years in the Arkansas Senate. He earned both his bachelor and law degrees from the University of Arkansas. His term expires in 2024.

Kelly Eichler, assistant secretary
Kelly Eichler of Little Rock is the public policy director for Gov. Asa Hutchinson. She previously served as a deputy prosecutor for Pulaski County and on the Arkansas Board of Corrections. She earned a bachelor's degree from the University of Arkansas and a law degree from the University of Arkansas at Little Rock Bowen School of Law. Her term expires in 2026.

Stephen Broughton
Dr. Stephen Broughton of Pine Bluff is a staff psychiatrist for the Southeast Arkansas Behavioral Health System. Broughton earned his bachelor's degree from the University of Arkansas at Pine Bluff and completed his medical education at the University of Arkansas for Medical Sciences. His term expires in 2022.

C.C. "Cliff" Gibson III
C.C. "Cliff" Gibson III of Monticello is founder of Gibson and Keith Law Firm and serves as county attorney for Drew County, Ark. The former president of the Monticello Economic Development Commission, Gibson attended the University of Arkansas at Monticello and earned his Juris Doctor at the UALR Bowen School of Law. His term expires in 2023.

Sheffield Nelson
Sheffield Nelson of Little Rock is a retired president and chief executive office of Arkla Gas. He has served on the board of the Arkansas Department of Higher Education and the Arkansas Game and Fish Commission. Nelson earned his undergraduate degree from Arkansas State Teachers College, now the University of Central Arkansas, and his law degree from the University of Arkansas. His term expires in 2025.

Tommy Boyer
Tommy Boyer, of Fayetteville, graduated from the University of Arkansas, Fayetteville in 1964, where he was also an All-American basketball player. He retired from the Eastman Kodak Company in 1989, and founded Micro Images in Amarillo, Texas. Within two years, Micro Images had become the largest Kodak document imaging systems broker and reseller in the United States. Boyer was inducted into the Arkansas Business Hall of Fame in 2013 and the Arkansas Sports Hall of Fame in 2000. His term expires in 2027.

Steve Cox
Steve Cox of Jonesboro graduated from the University of Arkansas in 1982 after having earned All Southwest Conference and All America honors during his football career as a punter and kicker, later playing in the NFL for the Cleveland Browns and Washington Redskins. He rose through the ranks of banking before becoming a managing partner at Rainwater and Cox LLC, which oversees ownership and management of an array of commercial, hotel and agricultural properties. His term expires in 2028.
Ed Fryar
Edward Fryar Jr. of Rogers is a graduate and former professor of the University of Arkansas. He earned degrees in economics and agricultural economics and was a professor of agricultural economics for more than 13 years. He co-founded Ozark Mountain Poultry in Rogers in 2000, which grew from 15 employees to more than 1,800 before selling it in 2018. He was inducted into the Arkansas Agriculture Hall of Fame in 2019. His term expires in 2029.
Administative Officers

System Administration
President, University of Arkansas System — Donald Bobbitt, B.S., Ph.D.

Chancellor and Vice Chancellors
Chancellor, University of Arkansas — Joseph E. Steinmetz, B.S., M.A., Ph.D.

Provost and Executive Vice Chancellor for Academic Affairs — Jim Coleman, B.S., M.S., M.Phil., Ph.D.

Vice Chancellor for Diversity and Inclusion — Yvette Murphy-Erby, B.A., M.S.W., Ph.D.

Vice Chancellor for Economic Development — Stacy L. Leeds, B.A., M.B.A., LL.M., J.D.

Vice Chancellor for Finance and Administration — Chris McCoy, B.S.Comp.S., M.B.A., M.Eng.

Vice Chancellor for Government and Community Relations — Randy Massanelli, B.S.B.A.

Vice Chancellor for Intercollegiate Athletics — Hunter R. Yurachek, B.S., M.A.

Vice Chancellor for Research and Innovation — Dan Sui, B.S., M.S., Ph.D.

Vice Chancellor for Student Affairs — Charles F. Robinson II, B.A., M.A., Ph.D.

Vice Chancellor for University Advancement — Mark Power, B.A.

Deans and Vice Provosts
Dean of Honors College — Lynda Coon, B.A., M.A., Ph.D.

Dean of Dale Bumpers College of Agricultural, Food and Life Sciences — Deacue Fields III, B.S., M.S., Ph.D.

Dean of Fay Jones School of Architecture and Design — Peter MacKeith, B.A., M.Arch.

Dean of J. William Fulbright College of Arts and Sciences — Todd Shields, B.A., M.A., Ph.D.

Dean of Sam M. Walton College of Business — Matt Waller, B.S., M.S., Ph.D.

Dean of College of Education and Health Professions — Brian Primack, B.A., Ed.M., M.D., M.S., Ph.D.

Dean of College of Engineering — John English, B.S.E.E., M.S.O.R., Ph.D.

Dean of Graduate School and International Education — Kimberly LaScola Needy, B.S.I.E., M.S.I.E., Ph.D.

Dean of School of Law — Margaret Sova McCabe, B.A., J.D.

Dean of Students — Melissa Harwood-Rom, B.A., M.F.A., M.S.Ag.E.

Dean of University Libraries — Dennis T. Clark, B.A., M.L.S.

Dean of Admissions and Vice Provost for Enrollment Services — Suzanne McCray, B.A., M.A., Ph.D.

Vice Provost for Academic Affairs — Terry Martin, B.S.E.E., M.S.E.E., Ph.D.

Vice Provost for Distance Education — Donald Judges, B.A., J.D., Ph.D.

Vice Provost for Faculty Development and Enhancement — Ro Di Brezzo, B.S., M.S., Ph.D.

Vice Provost for Planning — Colleen Briney, B.A., M.S.
University Profile

Vision
The University of Arkansas represents the best of public higher education, advancing Arkansas while building a better world.

Mission
The University of Arkansas is determined to build a better world by providing transformational opportunities and skills, promoting an inclusive and diverse culture, nurturing creativity, and solving problems through research and discovery, all in service to Arkansas.

Since 1871, our fundamental purpose as a land-grant institution and state flagship remains unchanged — to serve the state of Arkansas as a partner, resource and catalyst by:

- Providing access to a comprehensive and internationally competitive public education, and fostering student success across a wide spectrum of disciplines.
- Utilizing research, discovery and creative activity to improve the quality of life, develop solutions to the challenges we face and drive the state's economy.
- Contributing service and expertise through outreach, engagement and collaboration.

History
Founded as a land-grant college and state university in 1871, the University of Arkansas opened its doors to students on January 22, 1872. Under the Morrill Land-Grant College Act of 1862, federal land sales provided funds for the new university, which was charged with teaching "agricultural and the mechanic arts," "scientific and classical studies," and "military tactics" to Arkansas scholars.

Statewide elections, held to establish bonds to help finance the university, eventually determined the school’s location. Washington County and the city of Fayetteville submitted the highest bid, a total of $130,000, to which was added a $50,000 state appropriation for the benefit of the institution and $135,000 from the sale of federal lands. With $12,000 of this money, the university purchased a 160-acre farm, the homestead of William and Martha McIlroy, and established its campus on a hilltop overlooking the Ozark Mountains.

There were few facilities and little money that first academic year, but the eight students and three faculty members who gathered for classes in 1872 showed the same dedication to learning and commitment to excellence that has carried the University of Arkansas into the 21st century. Over the past 140 years, the university has developed into a mature institution with 10 schools and colleges, more than 1,100 full-time faculty members, and more than 26,000 students. It serves as the major provider of graduate-level instruction in Arkansas. The research and scholarly endeavors of its faculty make it an economic and cultural engine for the state. And its public service activities reach every county in Arkansas, throughout the nation, and around the world. Find out more about the university's history (http://www.uark.edu/about/history.php) or browse our timeline (http://uark.edu/about/time-line.php).

Today at the University of Arkansas Campus
Students pursue a broad spectrum of academic programs leading to baccalaureate, master’s, doctoral, and professional degrees, not only in traditional disciplines within arts, humanities, social sciences, and natural sciences, but also in the core professional areas of agricultural, food and life sciences; architecture; business; education; engineering; nursing; human environmental sciences; and law.

The University of Arkansas houses more than 200 academic programs and offers bachelor’s degrees in more than 75 areas of study. Students may also pursue a wide range of graduate degrees, including the Master’s, the Educational Specialist, the Doctor of Education, and the Doctor of Philosophy.

The Carnegie Foundation categorizes the University of Arkansas as a research institution with “highest research activity,” placing the university among only 2.7 percent of universities and colleges nationwide and in a class by itself within the state of Arkansas. U.S. News and World Report consistently ranks the university among the top tier of institutions of higher education. Faculty members perform cutting-edge research for which they annually win prestigious grants and awards, and the university encourages undergraduates to participate in the research process. Such opportunities enhance the learning process by providing hands-on experience in lab and research techniques, by developing students’ abilities to implement, experiment, discover and teach, and by fostering a mentoring relationship early in students’ academic careers.

Research programs involving both faculty and students serve as vital sources of information on the economic and social needs of Arkansas. In many fields, research performed at the University of Arkansas reaches beyond the state to provide insight and guidance on issues of national and international concern. The university provides extensive technical and professional services to varied groups and individuals throughout the state, helping to further Arkansas’ economic growth. The university operates nationally respected self-paced (correspondence) courses; it assists other institutions in developing educational programs; it offers graduate programs, both cooperatively and singly, throughout the state; and it makes specialized campus resources such as computing services and library holdings available to other institutions in the state.

Classes at the university maintain a low average ratio of students to instructor, although individual classes may range from a large general-lecture class of 200 to a focused special-topics class of 4 or 5 students. University of Arkansas students are given the tools and encouragement needed to excel. Over the last 15 years, more than 200 undergraduate Arkansas students have become Rhodes, Gates Millennium, Madison, Marshall, Goldwater, Fulbright, Boren, Gilman and Truman scholars. More than 100 graduate students have received National Science Foundation Graduate Research Fellowships. Find out more about the university’s numbers (http://www.uark.edu/about/by-the-numbers.php).
Academic Facilities

The University of Arkansas provides a variety of resources for students to enhance their ability to attend college, improve their studies in class, and aid their academic research as they advance through their curricula.

The programs and services listed at left provide advice, tools and inspiration for high school students; individual tutoring for students on campus and infrastructure such as libraries and technology support that offer University of Arkansas students ongoing support throughout their college careers.

Center for Multicultural and Diversity Education

The Center for Multicultural and Diversity Education provides academic, cultural and social programs intended to promote inclusiveness, foster achievement and assist in the development and advancement of a diverse student body.

The center is located on the fourth floor of the Arkansas Union in Room 404, and can be contacted at 479-575-8405 or by visiting multicultural.uark.edu (http://multicultural.uark.edu).

Information Technology Services

Information Technology Services, or IT Services as most people refer to it, provides technology solutions that support and enable teaching, learning, research and discovery for students, faculty and staff at the University of Arkansas.

Supported services include student information systems, learning management systems, cloud storage, email and collaboration tools, research computing resources, software, internet access and the campus network. Learn more about everything IT Services provides at its.uark.edu (https://its.uark.edu/).

New members of the university community can get started with technology using the Get Started with Tech guide (https://its.uark.edu/get-started/).

Tech support is available 7 days a week at the IT Help Desk in the Arkansas Union, by phone at 479-575-2905 or online at help.uark.edu (https://help.uark.edu/).

Student Support Services

The department of Student Support Services is designed to provide a powerful combination of programs and services to students who are first-generation, and/or modest-income, and/or individuals with disabilities. The services provided by Student Support Services place an emphasis on individual assessment, counseling, advising, and skill building. Some of these services include: academic/financial/personal counseling, financial scholarships, social etiquette instruction, career and graduate school preparation, academic/cultural enrichment, assistance with tutoring, and mentorship. The overarching goal of the University of Arkansas Student Support Services program is to empower students, assist them in achieving academic excellence, and seeing them through to graduation.

Student Support Services is a department in the Division of Student Affairs. The office is located on the Garden Level of Gregson Hall.

For more details, call Student Support Services at 479-575-3546 or visit the Student Support Services website (http://sss.uark.edu/).

Talent Search Programs

College Project Talent Search, Educational Talent Search, and University Access Talent Search

Talent Search is an early intervention/educational opportunity program. Serving students in grades 6-12, the program promotes skills and disseminates information necessary for successfully entering college and completing a baccalaureate degree. Emphasizing personal/career development, financial literacy, technological/academic skills, and ACT readiness through a developmental curriculum of college preparatory workshops, students are prepared for the rigors of higher education. Campus visits, academic monitoring/advising, and guidance in the completion of college and financial aid applications are key components for participants and their families. Summer enrichment and campus-based events are also hosted as funding permits.

Talent Search is a federal TRIO program funded by the U.S. Department of Education. The University of Arkansas has three Talent Search grant projects which serve distinct target areas in Benton, Carroll, Crawford, Sebastian and Washington counties in Arkansas, and McDonald County, Missouri. At least two-thirds of students served by the programs must be low-income and in the first generation of their family to attend college. They exhibit academic potential and attend one of the 37 target schools served. For additional information and a full listing of target schools, visit the Talent Search website (http://talentsearch.uark.edu/).

The Talent Search Programs office is located at the university's Uptown Campus East, 1083 E. Sain Street, UPTE 128, Fayetteville, Arkansas. Call 479-575-3553 for more information.

Testing Services

Testing Services is charged with the responsibility of administering standardized academic tests at the University of Arkansas. The office administers such national tests as:

- the ACT Assessment
- the Law School Admission Test (LSAT)
- the Graduate Management Admission Test (GMAT)
- the Graduate Record Examination (GRE)
- the CLEP exams in addition to others throughout the year.

National testing companies determine testing dates and deadlines. Testing Services also offers a number of institutional tests such as the Test of English as a Foreign Language (TOEFL) and the Spoken Language Proficiency Test (SLPT). These tests are scheduled at various times as demand dictates. Test fees vary depending on the test.

To obtain a registration bulletin or information about exam dates and deadlines, please stop by the Testing Center at 97 N. Razorback Road (https://campusmap.uark.edu/?pnl_disp=Y&bldg_code=TEST&parklot=Y-Staff-Parking_Meters-ADA_Parking-Remote/), Fayetteville, or call 479-575-3948.

Find out more at the Testing Services website (http://test.uark.edu/).
University Libraries

The library system of the University of Arkansas, Fayetteville, includes the David W. Mullins Library, the main research facility on campus, and four branch libraries:

• The Robert A. and Vivian Young Law Library (http://law.uark.edu/library/
  • The Fine Arts Library (http://libinfo.uark.edu/FAL/)
  • The Chemistry and Biochemistry Library (http://libinfo.uark.edu/chemistry/)
  • The Physics Library (http://libinfo.uark.edu/physics/)

The spacious Helen Robson Walton Reading Room is Mullins Library’s most popular quiet study area, but group study space and graduate student study space is also available. More than 200 databases and thousands of electronic journals are accessible from anywhere with a University ID. Librarians onsite assist in locating and using library resources, or students may send questions by email, phone, or 24/7 chat.

Subject librarians (http://libinfo.uark.edu/info/specialists.asp) are also available for one-on-one research consultations tailored to individual research questions, whether onsite, over the phone, or even remotely by video software. Librarians conduct orientation sessions on research methods and software throughout the semester and the Quality Writing Center (http://qwc.uark.edu/) has a satellite location inside Mullins Library.

With 2.1 million volumes and more than 56,000 journal titles, students will find research material for every subject. Other resources in the collections include several thousand maps, manuscripts, and more than 33,000 audio and visual materials, including music scores, recordings, and movies, available through the Performing Arts and Media (http://libraries.uark.edu/AV/default.asp) Department on the lower-level of Mullins Library.

A full-service computer commons (GACL) is located on the lobby level of Mullins, complete with printing stations and state-of-the-art scanners. Laptops and iPads are available to check-out to take advantage of wireless access anywhere in the library. Visit the University Libraries website (http://libinfo.uark.edu/) to learn more about services and collections, or access My Library (https://library.uark.edu/patroninfo~S1/) to check accounts, renew books, request holds, or save catalog searches.

Items not owned by the University Libraries may be obtained through Interlibrary Loan (http://libinfo.uark.edu/ill/default.asp). Requested items in electronic format will be sent directly to desktops, usually within 24 hours; physical items are held for pickup at the main service desk on the Lobby Level. The University Libraries have had official status as a United States government depository since 1907, and the Government Documents Department has been a depository for Arkansas state publications since 1993. The University Libraries’ map collection and GIS (http://libinfo.uark.edu/GIS/default.asp) (geographic information systems) program, including a public GIS workstation equipped with ArcGIS Desktop Suite, are also available.

In Special Collections, students can read rare books from around the world; consult the largest book collection related to Arkansas; handle historic letters, diaries, magazines, and old photographs in the archives; and watch old black and white films made in or about the state. A number of digital collections and exhibits (http://libinfo.uark.edu/eresources/digitalcollections.asp) are available through the Special Collections website (http://libinfo.uark.edu/SpecialCollections/). Special Collections also holds the University Archives, the Arkansas Collection, and the Arkansas Architectural Archives.

To stay up-to-date on the Libraries’ programs, resources, and events, follow @UARKLibraries on Facebook, Twitter, Instagram, and Pinterest. For information concerning collections and services, please inquire at 479-575-4104 or refer@uark.edu. For any other questions, please contact the Dean’s Office at 479-575-6702.

Upward Bound Programs

Upward Bound and Upward Bound Math and Science

Upward Bound (http://ub.uark.edu/) and Upward Bound Math and Science are early intervention programs that help low-income and potential first-generation college students prepare for higher education. These programs bring high school students in grades 9 – 12 to the University of Arkansas campus on weekends and during the summer to receive instruction in mathematics, laboratory sciences, composition, literature, and foreign languages. The programs also provide academic and social support through tutoring, counseling, mentoring, cultural enrichment, financial literacy, field trips, college planning, and financial aid assistance. For students just completing their senior year of high school, Upward Bound provides a summer residential bridge program that enables participants to earn up to six hours of college credit. Funding is provided through grants from the U.S. Department of Education.

Veterans Upward Bound

Veterans Upward Bound (http://vub.uark.edu/) is designed to identify and serve the unique needs of veterans who are low-income and potential first-generation college students, who have the academic potential and desire to enter and succeed in a program of higher education. Eligible veterans must have completed a minimum of 180 days of active duty in the military and hold any discharge other than dishonorable, or discharged because of a service connected disability, a member or a reserve component of the U.S. Armed Forces called to active duty for a period of more than 30 days, or a member of a reserve component of the U.S. Armed Forces who served on active duty in support of a contingency operation on or after September 11, 2001. Services include Accuplacer testing, tutoring, guidance counseling, assistance in filing financial aid and VA benefit forms, academic/career advisement, test preparation for entrance exams, and courses in English, Spanish, math, science, and computer technology. Courses are offered days and evenings each semester. Funding is provided through a grant from the U.S. Department of Education. Call 479-575-2442 for more information.

The Upward Bound and Veterans Upward Bound offices are located at the university’s Uptown Campus West, 1001 E. Sain St., Fayetteville.
Online Education

Donald P. Judges
Vice Provost for Distance Education
Global Campus
800-952-1165
globalcampus@uark.edu

Academic colleges and schools at the University of Arkansas provide flexible learning options through distance education and online learning options for undergraduate and graduate students. Traditional online courses, self-paced online (correspondence) courses, and online degree programs remove the barriers of time and distance. Support units provide the web-based resources and services necessary for distance and online students to reach their educational and professional goals.

Global Campus

The Global Campus (http://globalcampus.uark.edu/), School of Continuing Education and Academic Outreach, serves as a portal for online, distance and professional education programs and courses provided by the University of Arkansas. Experienced staff members collaborate with the university’s academic colleges and other academic units to develop and facilitate quality courses and programs that help students reach educational and professional goals.

State Authorization and Distance Education Beyond Arkansas

The University of Arkansas, Fayetteville delivers online education programs and courses throughout the United States and internationally. All programs have been approved by the Arkansas Department of Higher Education. Many states have prescribed an “authorization” process for out-of-state institutions delivering online programs to its state residents to ensure quality post-secondary education, to preserve the integrity of an academic degree and to instill greater consumer protection for its student citizens.

Authorization (sometimes referred to as “registration,” “licensure,” “approval,” etc.) indicates that certain minimum standards have been met by the institution under the laws and regulations of that state. Authorization does not constitute an endorsement of any institution, course or degree program. Credits earned at an institution may not transfer to all other institutions.

The University of Arkansas, Fayetteville, through the Global Campus, has taken steps to protect its students and operations through nationwide compliance and has been granted authorizations, exemptions and waivers from many states. In other states, the University of Arkansas, Fayetteville can operate without such authorization because the state’s laws do not pertain to a public institution, to an accredited institution or to the University of Arkansas activities in that state. More specific information about state authorization can be found at the University of Arkansas Online Web page (http://online.uark.edu/about/state-authorization.html). The Global Campus supports the university’s development and delivery of online and distance education.
Student Affairs

The Division of Student Affairs supports students in pursuing knowledge, earning a degree, finding meaningful careers, exploring diversity, and connecting with the global community. We provide students housing, dining, health care resources, and create innovative programs that educate and inspire. We enhance the University of Arkansas experience and help students succeed, one student at a time.

The Office of the Vice Chancellor for Student Affairs provides leadership for the division and serves as a liaison to other administrative offices, faculty, and student governing groups. The office is a central source of information concerning university policies and procedures affecting student life and co-curricular programs and services.

The Office of the Dean of Students under the Vice Chancellor for Student Affairs emphasizes student advocacy while broadening the development of services and programs that address a range of student and campus needs. Departments in the Division of Student Affairs are dedicated to developing exceptional programs and services that enhance the University of Arkansas experience and enrich the quality of student life on campus. Staff members are available and willing to assist with any issue or question that a student, staff, or faculty member may have regarding student and campus life at the University of Arkansas. The office is available for the clarification of university policies and procedures, confidential consultation, personal and family crisis assistance for students, and referral to all campus and community services. The office also seeks to assist students and faculty members in cases of emergency or extenuating circumstances. Student Affairs staff members are firmly committed to addressing the challenges and individual needs of the University of Arkansas family.

Arkansas Union

The Arkansas Union is the community center of campus; serving students, faculty, staff, alumni, and guests. Through its facilities, programs, and services, the Arkansas Union is the place to build relationships, enrich academics, and experience campus life to the fullest. But more importantly, the Arkansas Union plays a pivotal role in putting University of Arkansas students first. It is home to essential student needs, such as food service, computer technology, student accounts, banking, and the Campus Card Office. The Arkansas Union provides social and educational programming space, as well as lounge and study areas. Additionally, recreational opportunities are available in the Arkansas Union, through the satellite fitness center, cinema, and Student Technology Center. Located inside the Arkansas Union are:

Retail Outlets

• ATMs (various banks)
• Au Bon Pain
• Catering and Dining Services
• Club Red Convenience Store
• Where the Wild Greens AR
• Passport Office
• PMC – Drop-Off Copy Center
• Razorback Shop
• U.S. Post Office
• Union Hair Care

Union Market

• Chick-fil-A
• BRIC Subs, Pizza, Pasta, Salads and Bakery
• True Burger
• Pei Wei
• Flying Burrito Co.

Facilities

• Anne Kittrell Art Gallery
• Computer Lab and Help Desk
• Verizon Ballroom
• International Connections Lounge
• Student Technology Center
• Meeting rooms
• Reception rooms
• Union Living Room
• Union Information Center
• Union Theatre
• University Recreation Fitness Center
• UP Theater

Student Services

• Academic Initiatives and Integrity
• Arkansas Union Administration & Event Services
• Associated Student Government
• Campus Card Office
• Career Development Center
• Center for Community Engagement
• Center for Educational Access
• Multicultural Center
• New Student and Family Programs
• Off-Campus Student Services
• Student Activities
• Treasurer’s Office and Student Accounts
• University Productions

Campus Life

Center for Community Engagement

The purpose of the Center for Community Engagement is to promote civic engagement and leadership by connecting University of Arkansas students, faculty, and staff with nonprofit organizations in the Northwest Arkansas area and beyond.

In order to serve this purpose, the center maintains uark.givepulse.com (http://volunteer.uark.edu/), which enables the University of Arkansas community to search for agencies and volunteer opportunities. It allows users to log volunteer hours, or “impacts,” and earn opportunities for community recognition, such as the Presidential Volunteer Service Award and Chancellor’s Community Service Award. Northwest Arkansas agencies and University of Arkansas registered student organizations also utilize the site to post service opportunities and recruit volunteers. Over 350 organizations and subgroups are registered on the site, such as Habitat for Humanity, Uark Cardinal Nights, and Potter’s House Thrift.
Volunteer Action Center
The Center for Community Engagement also houses the Volunteer Action Center, a student-led volunteer coordination board with 45 members who are dedicated to active service in the community. Each year the Volunteer Action Center provides meaningful service opportunities through events and ongoing projects that engage the university and Northwest Arkansas communities. The Volunteer Action Center sponsors programs and events including the Jane B. Gearhart Full Circle Food Pantry, Make a Difference Day, Dream B.I.G. (Believing in Girls) Mentoring Program, VAC Literacy Program, and Razorback Food Recovery. The Jane B. Gearhart Full Circle Campus Food Pantry is a nationally recognized program; the pantry serves students, staff and their families. Requests and more information can be found at fullcircle.uark.edu (http://service.uark.edu/foodprograms/jane-b-gearhart-full-circle-food-pantry/).

Get involved in the following ways:

- Drop by the Center for Community Engagement, Arkansas Union, Room A643, and chat with the office’s great staff and students.
- Look for service opportunities on uark.givepulse.com (http://volunteer.uark.edu/) and log your hours. Just ten hours makes you a VAC member.
- Participate in events hosted by Volunteer Action Center and the Center for Community Engagement throughout the year.
- Become a Volunteer Action Center board member or weekly program volunteer. Applications are accepted each semester.

Greek Life
The Charles and Cappy Whiteside Greek Life Leadership Center facilitates the educational process and provides resources related to programs that strengthen the growth and development of students affiliated with fraternities and sororities on campus. The overall mission is to strengthen the academic, cultural, moral, and social development of students in Greek organizations; provide training in strengths-based leadership and other personal and social skills; promote involvement in extracurricular activities and community service projects; and promote Greek Life as a productive and viable lifestyle on campus. The Greek Life Leadership Center coordinates programs such as Recruitment, Greek Getaway, Greek Life Facilitators, and Greek Summit in collaboration with the Interfraternity Council, the National Pan-Hellenic Council, the Panhellenic Council, and the United Greek Council.

The Interfraternity Council (IFC), National Pan-Hellenic Council (NPHC), Panhellenic Council (PC) and United Greek Council (UGC) govern 16 national sororities and 19 fraternities. The officers and representatives of each council work with the staff of the Greek Life Leadership Center to provide positive programs and strengths-based leadership opportunities to the members of the Greek organizations. The Charles and Cappy Whiteside Greek Life Leadership Center is in Walton Hall 101; phone 479-575-5001 or fax 479-575-3531; Web: uagreeks.uark.edu.

New Student & Family Programs
The Office of New Student & Family Programs connects students and their families to the University of Arkansas campus and community by providing diverse, innovative programs and resources that support a successful collegiate experience. The department supports and collaborates on the following major initiatives:

- Parent & Family Programs: Family Weekend, Spring Family Reunion, Regional Razorback Family Networks, and the Parent & Family Association
- Leadership & Late Night Programs: UARK Cardinal Nights, Emerging Leaders, Student Leader of the Month, and Diversity Leadership Institute
- Transition Initiatives: New Student Welcome, Alpha Lambda Delta First Year Honor Society, A-Week, and First-Yer Leadership Summit

By providing transitional support for incoming students, their parents, and family members, our programs effectively promote the students’ academic growth and support the mission of the university.

New Student & Family Programs is located in the Arkansas Union, Room A688; phone 479-575-5002; Web: nsfp.uark.edu (http://nsfp.uark.edu/).

Office of Student Activities
With a students-first philosophy, the Office of Student Activities provides an environment for involvement, empowerment, and collaboration through student organizations, programmatic experiences, and shared governance. The office maximizes the UA experience by advocating for all students, promoting intercultural understanding, and developing citizens who are prepared to positively impact their communities.

The Office of Student Activities, located in the Arkansas Union A665, is the central location for student organizations and activities for the university. The office can be reached at 479-575-5255 or visit the office’s website at osa.uark.edu (http://osa.uark.edu/). The Office of Student Activities is responsible for the oversight and administration of the following areas:

Student Organizations
All student organizations must register annually with the Office of Student Activities. The Office of Student Activities provides student organizations with assistance and services to help them succeed. The office also assists student organizations in event planning, provides information on facility reservations and fundraising, trademark forms, mailboxes, and locker space, and offers educational workshops for students and advisers. A limited number of offices are also awarded annually in the Arkansas Union to organizations. In partnership with SOOIE, the Student Organization Outreach and Involvement Experience, fall and spring involvement fairs are offered to help registered student organizations connect with interested students.

Types of registered student organizations (RSOs):

- Governing – An organization whose primary purpose is to serve as a governing body for a large or specific constituency of students.
- Honorary/Service – An organization that requires a minimum grade point average as a prerequisite to membership and/or is affiliated with a national service or honorary organization.
- International/Cultural – An organization whose primary purpose is to provide a forum in which participants create awareness for a specific culture through educational, social, and recreational activities.
- Professional – An organization whose primary purpose is to provide a forum for participants to discuss and develop professional careers and/or is affiliated with a national or regional association.
- Religious – An organization whose primary purpose is to provide information and activities associated with one or more religions.
University Career Development Center

The University Career Development Center (CDC) educates and empowers students to fulfill their career goals. All U of A students are welcome to take advantage of the center's valuable resources:

Career Advising: Career Counselors in the CDC are available to assist students who may need help selecting a college major, seeking career information, researching or exploring careers, preparing for their job search, or considering graduate school.

Career and Strength-Awareness Assessments: The STRONG Interest Assessment, FOCUS 2 and TypeFocus are career assessments that can help students make career decisions based on their interests and values. StrengthsQuest is an assessment which helps individuals discover their talents and strengths. After discovering their talents, the Career Center assists students in learning how to use their talents to achieve academic, career, and personal success.

Career Fairs: In partnership with academic areas on campus, the CDC hosts a number of career fairs each year to provide opportunities for students to connect with employers and to learn more about companies and organizations. These connections could lead to valuable internships or full-time employment.

Job Search Preparation: The CDC offers resume critiques, interview skills training, mock interviews, networking opportunities, career presentations and several professional development events throughout the academic year to prepare students for internships, co-ops or full-time jobs.

Cooperative Education Opportunities: Cooperative Education is a program that enables students to gain professional work experience in paid, degree-related positions. Co-op students earn credit, a competitive wage and valuable "real world" work experience.

Handshake: Handshake is the ultimate job and internship search tool for current UA students and recent graduates. Apply for 4000+ jobs or internships, view career fairs and events, schedule career advising appointments, and research companies all through Handshake.

Online Resources: Through the CDC’s website, students have access to a multitude of resources including Optimal Resume which contains hundreds of resume templates, cover letter examples, and interview questions for students to practice and enhance their interviewing skills. Students can also view 1000+ CandidCareer short videos featuring various careers and advice from professionals in the field or view our “What Can I Do With This Major?” pages featuring common careers and helpful job search sites for each UA major. These are just a few of the many resources which can be found at career.uark.edu.

University Programs

University Programs is a volunteer student organization responsible for planning and coordinating more than 100 events annually for the campus community. University Programs provides students with cultural and educational experiences, entertainment, and fun. Eight committees, all made up of students, select, schedule and produce events such as concerts, movies, lectures, fine arts performances, gallery exhibitions, and daytime programs. Being a part of University Programs gives the student committee members leadership training and real opportunities to gain practical planning experience. Supported by a student activity fee, University Programs events are free to students.

For further information, visit the University Programs website at up.uark.edu (http://up.uark.edu/).

Student Government

As a result of a student-led process that saw the passage of both legislation and a student referendum, student governance at the University of Arkansas is now organized under the Associated Students Supreme Constitution into two, co-equal governing bodies: the Associated Student Government and the Graduate and Professional Student Congress. Both bodies are a part of the practice of shared governance at the university.

The Associated Student Government and is an undergraduate student-led organization that enables its members to have an active voice in the decisions and policy that directly affect undergraduate students at the university. Students involved in Associated Student Government have the opportunity to positively impact the quality of student life, work with and allocate student fees, provide a voice for student concerns as well as oversee programs and policies for undergraduate students. Through the executive, legislative, and judicial branches of student government students have the opportunity to work for and among their peers to make a difference on all levels of the university. Involvement levels and time commitment vary upon duties. Visit the ASG website at asg.uark.edu (http://asg.uark.edu/) or the ASG office (Arkansas Union A669) to find out more.

As its name indicates, the Graduate and Professional Student Congress serves students who have earned a baccalaureate degree and are completing coursework for graduate certificates or degrees as well as professional practice doctoral programs. The congress works to advocate for the collective welfare of its constituents, manage and distribute student fee monies, represent the common interests of its constituents, and to speak with one voice the opinions of its members. Through its executive and legislative branches, the congress seeks to improve the lives, careers, and research of all graduate-professional students at the university. Involvement levels and time commitments vary upon duties. Visit the Graduate and Professional Student Congress website at gpasc.uark.edu (https://gpasc.uark.edu/) or the its office (Arkansas Union A647) to find out more.

Student Health and Wellness Center

Pat Walker Health Center supports students along their academic journey by providing access to professional and quality medical care, mental health care, wellness, health promotion and education.

As a department of the Division of Student Affairs, the health center strives to enrich academic and personal development by creating an inclusive environment that promotes positive behavior and healthy lifestyle changes.

Students are strongly encouraged to maintain health insurance coverage. A university-sponsored student health insurance policy is available to all students, student spouses and dependent children. Enrollment and cost information can be found at health.uark.edu (https://health.uark.edu/billing-insurance/insurance.php).

While the health center offers a variety of free programs and services, there are some charges associated for medical office visits and procedures, as well as individual counseling/psychiatry sessions. Medical services can be billed to insurance. For more information about health center billing and charges, go to the Insurance Billing page (http://health.uark.edu/billing-insurance/).

Medical Care

Pat Walker Health Center offers high-quality and affordable medical care through its signature clinics and programs. All medical services are performed by board-certified physicians and advanced practice registered nurses. Appointments can be scheduled online via the Patient Portal at myhealth.uark.edu, or by calling 479-575-4451.

- **Primary Care Clinic** offers illness and injury diagnosis and treatment, laboratory services, minor surgery, nurse triage, nutrition consultations, orthopedic consultations and X-ray.

- **Allergy, Immunization and Travel Clinic** offers allergy desensitization, immunizations, international travel consultations and tuberculosis screenings.

- **Women’s Clinic** provides comprehensive gynecological services with sensitivity to the unique needs of female clients.

Mental Health

Counseling and Psychological Services (CAPS) helps students navigate the pressures of college life and beyond with various evidence-based mental health services and programs. CAPS is staffed with licensed psychologists, counselors and social workers who work to help address common mental health issues and concerns that impact student success, such as anxiety, depression and stress.

CAPS offers services such as individual counseling, group counseling, psychiatry, emergency services, and case management. Although some services, such as ongoing individual counseling and psychiatry have minimal charges, most CAPS services and resources are offered at no charge beyond the student health fee. To learn more about CAPS services and programs, go to http://health.uark.edu/mental-health/.

24-hour emergency mental health services are available for all students.

To access CAPS services or 24-hour emergency services, call 479-575-5276.

Wellness and Health Promotion

Pat Walker Health Center’s Department of Wellness and Health Promotion inspires, motivates and supports student wellness and holistic health through a variety of academic courses, outreach presentations and events, peer education, training and wellness coaching.

The health center cultivates a campus culture of wellness through programming and services related to positive psychology and resilience, substance abuse prevention, sexual assault risk reduction, personal empowerment and lifestyle behavior change.

Employing a comprehensive holistic approach, Wellness and Health Promotion helps students maximize their personal and academic potential across eight essential dimensions of health and well-being – physical, intellectual, emotional, social, spiritual, occupational, environmental and financial.

Learn more about free Wellness services at health.uark.edu/wellness-health (http://health.uark.edu/wellness-health/).

Accreditation

Pat Walker Health Center is accredited by Accreditation Association for Ambulatory Health Care.

CAPS is accredited by the International Association of Counseling Services.

The health center is located at 525 N. Garland Ave. If you have questions about specific services, call 479-575-4451; TTY 479-575-4124. Visit us online at health.uark.edu (http://health.uark.edu/).

Housing and Dining

University Housing

University Housing is committed to providing a safe, comfortable, convenient, and reasonably priced living and learning environment that promotes student success.

Success on Campus

National research shows that academic success in the first year and beyond is directly linked to residing in an on-campus residence environment. The University of Arkansas recognizes the benefits that students receive from living on campus their first year.

Freshman Residency Requirement

All single students who are admitted to the university with a freshman classification and under 21 years of age are required to live on campus in a residence hall, or in their parent or legal guardian’s permanent home.

Students who are admitted to the University of Arkansas as transfer students from another post-secondary institution, and who have completed at least 24 credit hours at that institution are not required to live on campus.

Requests for a newly admitted freshmen to live somewhere other than with parents or a legal guardian in their permanent home will not be approved under most circumstances.

Students planning to live with their parents or legal guardian in their permanent home should complete the Living with Parent Notification form prior to attending an orientation session.
Students requesting an exemption from the University of Arkansas Freshmen Residency Requirement (http://housing.uark.edu/Freshman_Residency_Requirement.php) should send all required paperwork to University Housing at least three weeks prior to attending an orientation session. This ensures the student receives approval or denial prior to attending orientation.

Failure to do so could cause long delays in the orientation process. Students who need a Living with Parent Notification Form or who wish to apply for an exemption to the university’s requirement for single freshmen to live on campus may refer to the information on the Housing website (http://housing.uark.edu/Contracting/contracts.php), call University Housing at 479-575-3951 or email housing@uark.edu.

**Residence Hall Leadership**

Residence Halls are managed by a full-time coordinator for residence education, or CRE, who has completed a master’s degree program in higher education, counseling or a related degree. This individual is selected for his or her academic credentials and interest in helping others as well as his or her ability to work well with college students.

In addition, every area or floor is staffed by a resident assistant, or RA, who is an upper-class student with the knowledge to answer students’ questions and help students find their own answers.

Counselors in residence (doctoral graduate assistants) provide short-term counseling for students living in the residence halls in response to personal, social, academic, and developmental needs.

**Living Learning Communities**

University Housing offers several innovative Living Learning Communities (http://housing.uark.edu/Residence_Education/Living_Learning/), or LLCs, for students. These communities enhance student’s academic success.

In an LLC, students get to live with peers who have similar interests, majors, or career plans. Living Learning Communities do not cost extra. LCC members have the opportunity to participate in fun experiences that connect learning in and out of the classroom.

Some of the initiatives include faculty-led events, major specific academic learning teams, more general thematic learning communities and other programs that assist students in their academic endeavors.

**Living Facility Options**

Living options include traditional halls, suites and apartments with designations of single-gender or co-ed. Rooms are available for visually or hearing-impaired students as well as those who are physically challenged (http://housing.uark.edu/disability-accommodation.php).

Residence hall entry/exit doors are secured and/or monitored 24 hours a day. Some entries are unlocked to accommodate offices housed in our facilities and classes that are held in our classrooms. Most, but not all, of these areas have interior doors that secure the living floors.

Residents are provided access via an electronic access system. Students should be careful not to allow non-residents to follow them into their residence hall. Residents are provided access via a fob issued when they check-in. Students are responsible for escorting all visitors and guests at all times.

**Campus Dining**

Each of the three separate dining facilities (http://housing.uark.edu/campus_communities/dining_rates.php) on campus is managed by Campus Dining Services and provides a natural setting for socializing with friends and enjoying a wide variety of high quality, nutritious meals. All students living in a residence hall, except those residing in summer school housing, are required to have a meal plan. There are several meal plans available to meet the needs of both on-campus and off-campus students.

Learn more about Campus Dining Services online at campus dining services (http://dineoncampus.com/razorbacks/).

**Inclusion and Leadership Center for Multicultural and Diversity Education**

The Center for Multicultural and Diversity Education provides academic, cultural and social programs intended to promote inclusiveness, foster achievement and assist in the development and advancement of a diverse student body.

The center is located on the fourth floor of the Arkansas Union in Room 404, and can be contacted at 479-575-8405 or by visiting multicultural.uark.edu (http://multicultural.uark.edu).

**Student Support Services**

The department of Student Support Services is designed to provide a powerful combination of programs and services to students who are first-generation, and/or modest-income, and/or individuals with disabilities. The services provided by Student Support Services place an emphasis on individual assessment, counseling, advising, and skill building. Some of these services include: academic/financial/personal counseling, financial scholarships, social etiquette instruction, career and graduate school preparation, academic/cultural enrichment, assistance with tutoring, and mentorship. The overarching goal of the University of Arkansas Student Support Services program is to empower students, assist them in achieving academic excellence, and seeing them through to graduation.

Student Support Services is a department in the Division of Student Affairs. The office is located on the Garden Level of Gregson Hall. For more details, call Student Support Services at 479-575-3546 or visit the Student Support Services website (http://sss.uark.edu/).

**Talent Search**

Talent Search is an early intervention/educational opportunity program. Serving students in grades 6-12, the program promotes skills and disseminates information necessary for successfully entering college and completing a baccalaureate degree. Emphasizing personal/career development, financial literacy, technological/academic skills, and ACT readiness through a developmental curriculum of college preparatory workshops, students are prepared for the rigors of higher education.

Campus visits, academic monitoring/advising, and guidance in the completion of college and financial aid applications are key components for participants and their families. Summer enrichment and campus-based events are also hosted as funding permits.

Talent Search is a federal TRIO program funded by the U.S. Department of Education. The University of Arkansas has three Talent Search grant projects which serve distinct target areas in Benton, Carroll, Crawford, Sebastian and Washington counties in Arkansas, and McDonald County, Missouri. At least two-thirds of students served by the programs must be low-income and in the first generation of their family to attend college.
They exhibit academic potential and attend one of the 37 target schools served. For additional information and a full listing of target schools, visit the Talent Search website (http://talentsearch.uark.edu/).

The Talent Search Programs office is located at the university’s Uptown Campus East, 1083 E. Sain Street, UPTE 128, Fayetteville, Arkansas. Call 479-575-3553 for more information.

**Upward Bound**

**Upward Bound and Upward Bound Math and Science**

Upward Bound (http://ub.uark.edu/) and Upward Bound Math and Science are early intervention programs that help low-income and potential first-generation college students prepare for higher education. These programs bring high school students in grades 9 – 12 to the University of Arkansas campus on weekends and during the summer to receive instruction in mathematics, laboratory sciences, composition, literature, and foreign languages. The programs also provide academic and social support through tutoring, counseling, mentoring, cultural enrichment, financial literacy, field trips, college planning, and financial aid assistance. For students just completing their senior year of high school, Upward Bound provides a summer residential bridge program that enables participants to earn up to six hours of college credit. Funding is provided through grants from the U.S. Department of Education.

**Veterans Upward Bound**

Veterans Upward Bound (http://vub.uark.edu/) is designed to identify and serve the unique needs of veterans who are low-income and potential first-generation college students, who have the academic potential and desire to enter and succeed in a program of higher education. Eligible veterans must have completed a minimum of 180 days of active duty in the military and hold any discharge other than dishonorable, or discharged because of a service connected disability, a member or a reserve component of the U.S. Armed Forces called to active duty for a period of more than 30 days, or a member of a reserve component of the U.S. Armed Forces who served on active duty in support of a contingency operation on or after September 11, 2001. Services include Accuplacer testing, tutoring, guidance counseling, assistance in filing financial aid and VA benefit forms, academic/career advisement, test preparation for entrance exams, and courses in English, Spanish, math, science, and computer technology. Courses are offered days and evenings each semester. Funding is provided through a grant from the U.S. Department of Education. Call 479-575-2442 for more information.

The Upward Bound and Veterans Upward Bound offices are located at the university's Uptown Campus West, 1001 E. Sain St., Fayetteville.

**Student Life**

**Reasonable Accommodations for Students with Disabilities**

The Center for Educational Access, 209 Arkansas Union, is the central campus resource for students who require reasonable accommodations in order to access the programs, services and activities offered through the University of Arkansas. The center's staff work in partnership with the individual student to communicate and facilitate any accommodation needs to faculty and staff. Accommodation determination is based in part on medical or psychological documentation provided to the Center for Educational Access by the student. Students must meet with one of the center's staff for an access plan meeting to discuss their needs and provide such documentation before any accommodations can be granted. To register for services or for more information, contact the Center for Educational Access, University of Arkansas, 209 ARKU, Fayetteville, AR 72701, phone 479-575-3104 ; e-mail: ada@uark.edu; Web: Center for Educational Access (http://cea.uark.edu/) (online request for services available).

**Off-Campus Student Services**

**Off-Campus Student Services (OCSS)**

Off-Campus Student Services (formerly Off Campus Connections) provides friendly and helpful resources, services and programs for off-campus undergraduates. Off-campus students are defined as undergraduates not living in a residence hall, fraternity, or sorority house. For information, visit the Off-Campus Student Services website (http://occ.uark.edu/), make an appointment with a staff member in Arkansas Union Room 632, email iliveoff@uark.edu, or call 479-575-7351.

OCSS emphasizes two major priorities:

- Freshman Commuter Programs
- Off-Campus Living Education and Services

The University of Arkansas has more than 16,000 undergraduates living off-campus. Some off-campus students live near the university while others commute from hours away. Some students take advantage of online classes or majors and seldom visit campus. It is important that students living off-campus feel as welcome at the university as students living on-campus. Ongoing communication with off-campus students is important, so they know how to be an active part of the campus community as their schedule and other commitments allow. Additional challenges are faced by off-campus students and they need support from those who understand the differences they face.

Freshman Commuters are first-time, full-time, degree-seeking students who live at home with a parent or guardian during their first year of college. Off-Campus Student Services reaches out to more than 500 freshman commuters each summer and fall to share campus and academic resources, to provide opportunities to meet other cohort members, and to share mentorship and connection opportunities.

Finding a place to live is a basic need for many students after their freshman year. To help meet the needs of those students looking for housing near campus, OCSS provides the official, searchable off-campus housing website: offcampushousing.uark.edu (https://offcampushousing.uark.edu/). The website is free for student use, and properties on the site have an interest in student tenants. Off-Campus Living Fairs and educational resources are also offered on the site to prepare those who are planning to live on their own for the first time in our local community. Students can search for a roommate or someone to sublease when they plan to study abroad.

Off-Campus Meal Plans have proven important to student success. Meal plans of various prices have been designed to meet off-campus students’ needs for eating while on campus for class, work, or other activities. Meal plans are available for purchase through a link provided on the Off-Campus Student Services website (http://occ.uark.edu/). Around 4,000 meal plans are purchased each year are by off-campus students. Having a meal plan encourages students to eat regular meals so they can better focus on academics. Meal plans are charged to a student’s account, so costs may be covered with scholarships, financial aid awards, or paid out with tuition payments.
A friendly and comfortable Commuter Lounge — with a refrigerator, microwave, television, study tables and office spaces — is located on the Sixth Floor West of the Arkansas Union. Timely tips and information about jobs, deadlines, campus, and community life are shared through a weekly electronic newsletter published and emailed to off-campus undergraduates throughout the fall and spring semesters. Off-Campus Student Services’ desire is for each student living off-campus to feel an important part of the University of Arkansas, earn at least one degree, and have their name forever inscribed on the historic Senior Walk.

Office of Student Standards and Conduct
It is the vision of the Office of Student Standards and Conduct to foster a campus community that values citizenship, personal and civic responsibility, peer accountability, and care/concern for the university and surrounding communities.

The mission of the Office of Student Standards and Conduct (OSSC) is to create a safe and inclusive community by upholding the Code of Student Life, which promotes responsibility, accountability, and student learning through:

- Educational opportunities and outreach.
- The adjudication of Code of Student Life violations.
- Providing a consistent, fair, equitable, educational, student conduct process.
- The development of ethics and adherence to personal values.
- Education on the norms and values of the University of Arkansas.

Students who are interested in involvement with the All-University Conduct Board should contact the Director of OSSC at judicial@uark.edu. The All-University Conduct Board comprises faculty, staff, and students and is responsible for the adjudication of cases of alleged student misconduct as outlined in the Code of Student Life. This board is an advanced leadership opportunity for students who would like to gain valuable experience working with faculty and staff on an impartial peer review board.

For more information regarding the Code of Student Life, please see the Student Handbook at handbook.uark.edu (http://handbook.uark.edu/). The Office of Student Standards and Conduct is located in Pomfret B 110, phone 479-575-5170; Web: ethics.uark.edu (http://ethics.uark.edu/).

Veteran Resource and Information Center
The University of Arkansas Veterans Resource and Information Center contributes to the academic and professional success of current and prospective student veterans and their dependents by providing innovative resources and support; assisting with military educational benefits; and by serving as a central “Rally Point” for a seamless collaboration among various departments within the University of Arkansas, the U.S. Department of Veterans Affairs, and the diverse network of community partners supporting veterans.

Veterans and dependents of service members may be eligible to receive monthly educational assistance from the Veterans Administration while enrolled at the University of Arkansas. For more information, including GI Bill eligibility and scholarship opportunities, contact the Veterans Resource and Information Center at vric@uark.edu or 479-575-8742. Students may also visit the center at the Garland Center Shops, suites 115 and 116 or online at veteranscenter.uark.edu (http://veteranscenter.uark.edu/).

Student Media
The Office of Student Media administers and advises the official student media outlets of the university. These outlets are: the student newspaper, The Arkansas Traveler; the University of Arkansas yearbook, the Razorback; the student magazine, The Hill; the student television station, UATV; the student radio station, KXUA; and the student advertising agency, Main Hill Media. All provide a forum for student expression, entertainment, news and information of interest to the campus community. Other than a small professional support staff, these groups are entirely staffed by student employees and volunteers, including editors and station managers. For more information, contact Student Media at 479-575-3406.
Centers and Research Units

Research programs are the means by which the university contributes to the generation of knowledge as well as to the preservation and dissemination of it. With nationally recognized programs in many areas and funding from government, industry, and other private sources, the research effort of the university is strong and diversified and provides special learning opportunities for students as discoveries are made.

In addition to the extensive work performed by faculty through individual and team efforts in academic departments, special programs of research are conducted by the university divisions described below.

Graduate students are likely to be involved in research conducted by these research units, but the university encourages undergraduates as well to pursue research in their areas of academic interest. Students who wish to engage in research of any kind should seek the guidance of their advisors and professors to identify research teams and projects. In addition to the extensive work performed by faculty through individual and team efforts in academic departments, special programs of research are conducted by faculty members and staff in many associated university research centers. The university invites students to learn more about these centers and the research opportunities they offer by visiting the websites or by contacting the individuals listed below.

Arkansas Center for Space and Planetary Sciences

Larry Roe, director
Mechanical Engineering Building, 204D
479-575-3750
csaps@uark.edu
Arkansas Center for Space and Planetary Sciences website (http://spacecenter.uark.edu/)

The Arkansas Center for Space and Planetary Sciences is a research institute of the University of Arkansas, created by faculty from six departments, including Biological Sciences, Chemical Engineering, Chemistry and Biochemistry, Electrical Engineering, Geosciences, Mechanical Engineering, and Physics. Those departments, representing the J. William Fulbright College of Arts and Sciences and the College of Engineering, work closely with the Graduate School and the Honors College.

The center operates world-class research facilities and cutting-edge research projects. It houses the only university-based, large-scale planetary simulation chamber in the country along with major facilities for the analysis of extraterrestrial samples. Major research interests include the analysis of returned samples from space, the nature of Mars, and instrumentation for use in space. The center also operates a number of programs of interest to the university community, grade school teachers and students, and the public.

The space center administers master’s and doctoral degree programs in space and planetary science. These provide a unique integrative interdisciplinary education and research training based on a suite of core courses spread across the departments and specialist courses appropriate to the student’s specific interests. Professional development in communications, ethics and space policy is also included. Such training gives graduates a competitive edge in today’s space and planetary job market.

Additionally, the Departments of Biological Sciences, Geosciences and Physics offer space and planetary science as an option in their own graduate programs. Admission procedures are outlined on the space center Web site along with detailed information about the programs, the research areas, and current research projects.

Arkansas High Performance Computing Center

Rick McMullen, director
479-575-6794
Arkansas High Performance Computing Center website (http://hpc.uark.edu)

The Arkansas High Performance Computing Center is a campuswide provider of supercomputing resources for teaching and research by students and faculty. For nearly a decade, the university has strongly supported high-performance computing as a tool for enabling scientific discovery and making researchers more productive. With support from the university, the National Science Foundation and the state of Arkansas, the center has fielded two Top500 supercomputers and currently offers 4,985 cores, 13.4TB of memory, about 73 TFLOPS CPU peak performance, 93TB of long-term storage, 374TB of scratch storage, and 96TB of backup storage making it among the largest and most capable academic systems in the world. Staff members of the Arkansas High Performance Computing Center support a broad range of research programs in computational condensed matter physics, computational chemistry, nanotechnology and materials science, bioinformatics, astrophysics, and geospatial image analysis. The center also provides education and training in computational science, parallel programming and high-performance computer operations to provide both tools and skills needed in computationally intensive research.

Arkansas Water Resources Center

Brian E. Haggard, director
479-575-4403
awrc@uark.edu
Arkansas Water Resources Center website (https://arkansas-water-center.uark.edu/)

The Arkansas Water Resources Center, a unit of the Division of Agriculture, was established by Public Law in 1964. The Center utilizes scientific personnel and facilities of all campuses of the University of Arkansas System (and other Arkansas colleges and universities) in maintaining a water resources research program. The center supports specific research projects throughout Arkansas, which often provide research training opportunities for undergraduate and graduate students, and it disseminates information on water resources via publications and conferences. The center works closely with federal, state, municipal, educational, and other public groups concerned with water resources in development of its research, training, and dissemination programs.

Bessie Boehm Moore Center for Economic Education

Rita Littrell, director
RCED 217
CAST staff are engaged in research projects in a wide range of areas. A few recent research projects focused on areas such as the creation of a seamless, on-line spatial data warehouse; K-12 GIS education; soil survey by remote sensing; land-use/land-cover identification; remote sensing for historic resources; natural resources wetlands analyses; multi-sensor remote sensing for historic resources; and predicting red oak borer populations.

Center for Advanced Spatial Technologies
Jackson Cothren, director
J.B. Hunt Center for Academic Excellence, Room 304
479-575-6159
info@cast.uark.edu

CAST has been selected as a Center of Excellence by many corporations, including the Intergraph Corporation, Trimble Navigation Inc., the Oracle Corporation, Definiens Imaging, Sun Microsystems, Spatial Acquis, and PCI Geomatics. These and other corporate sponsors have provided more than $22 million of in-kind support of the research teaching facilities of the center. The center has extensive hardware and software capabilities, including more than 100 high-performance workstations, multiple Linux, Windows XP and Solaris servers (combined seven terabyte of on-line disk), large-format plotters, mapping and survey-grade GPS, MSS instruments, spectroradiometers, terrestrial laser scanners, and an extensive inventory of software.

University of Arkansas undergraduate and graduate students have a wide range of geomatics courses available to them that utilize CAST faculties and laboratories. These courses, taken along with related courses in cartography, remote sensing, image interpretation, photogrammetry, surveying, and spatial statistics, provide the student with a range of career options. In addition to classroom instruction, CAST facilities are used by students in both undergraduate and graduate research projects.
within the College, the Center supports economic development by providing economic and demographic data and analysis to business, government, and individuals. Over the years, the Center has grown to become a well-known point for communications and exchange of ideas, research, publications and data for universities, businesses, government, and individuals. In addition, the Center serves as a focal point in providing assistance to faculty and students in experimentation with their ideas and techniques in both theoretical and applied research.

Center for Communication and Media Research
Robert H. Wicks, director
KIMP 417
479-575-3046
rwicks@uark.edu

Center for Communication and Media Research website (http://fulbright.uark.edu/departments/communication/center-for-communication-and-media-research/)

The Center for Communication and Media Research (CCMR) advances knowledge and supports scholarly and applied inquiry into the study of interpersonal, group, organizational, and media communication. The center sponsors outreach programs designed to help under-served populations, educational institutions, media companies, businesses, and non-profit organizations.

Multidisciplinary in nature, the center facilitates scholarship among allied disciplines such as journalism, law, business, political science, psychology, sociology, and computer science. Research topics include communication and advertising, dispute resolution, education, environmental concerns, family, health, information technology, legal concerns, life stages, media audiences, organizational concerns, politics, and religion.

Center for Children and Youth
Chris Goering, director
PEAH 305
479-575-4209
ggoering@uark.edu

Center for Children and Youth website (http://cied.uark.edu/center-for-children-and-youth.php)

The Center for Children and Youth is designed to address issues of intellectual growth, social development, literacy, the arts, and techniques for addressing generational or regional poverty issues. This will be accomplished through teacher professional development, pre-service education, research, as well as curriculum development and dissemination. The center was established by a generous gift of the Windgate Family Foundation in 2006 to the College of Education and Health Professions.

In 2010, the Center for Children and Youth hosted a national conference in Springdale, Ark., focused on the confluence of literacy and the arts. The conference featured speakers from the Kennedy Center for Performing Arts, Temple University, the National Council of Teachers of English, and local experts on arts integration approaches to teaching. Later in 2010, Dr. Chris Goering in the Curriculum and Instruction Department was appointed as the center’s first director.

Center for Executive Education
Blythe Eggleston, associate director for executive education
WJWH 549
479-575-5871
execed@walton.uark.edu

Center for Executive Education website (http://execed.uark.edu/)

The Center for Executive Education in the Sam M. Walton College of Business provides executive and middle management training opportunities designed to enhance quality in leadership, management decision making, and human resource skills and abilities for corporate and public clients. Programs are custom designed for individual clients. The center serves local, national, and multinational businesses. The center operates on a fee-for-service basis, and its activities are supported from fee-based revenues.

Center for Grid-Connected Advanced Power Electronic Systems
Alan Mantooth
Executive Director
1475 W. Cato Springs Road
479-575-4985
grapes@uark.edu

The mission of this Center for Grid-Connected Advanced Power Electronic Systems is to accelerate the adoption and insertion of power electronics into the electric grid in order to improve system stability, flexibility, robustness, and economy. The members of the center expect to accomplish that mission by focusing on the following main objectives:

• Develop new technologies for advanced power electronic systems in the areas supporting grid connected distributed energy resources, power steering and routing devices, and intelligent load-side devices.
• Develop the software and tools for controlling embedded- and grid-connected power electronics to benefit the grid as well as controlled loads.
• Educate engineers who understand the power electronic technologies important to the member companies.

Center for Information Security and Reliability
Brajendra Panda, director
JBHT 504
479-575-2067
bpanda@uark.edu

Center for Information Security and Reliability website (http://isr.csce.uark.edu/)

The center was established to promote education and research in the field of computer security and information assurance at University of Arkansas. The activities of this center includes, but not limited to the following: fostering multidisciplinary research, securing large-scale funding from federal, state, and other funding agencies, providing education and training to future work-force, increasing awareness in the field of
information security and reliability by offering appropriate seminars and workshops.

**Center for Mathematics and Science Education**

Lynne Hehr, director
346 N. West Avenue, No. 102
479-575-3875

Center for Mathematics and Science Education website (http://cmase.uark.edu)

The Center for Mathematics and Science Education – a University of Arkansas K-16 education outreach facility within the College of Education and Health Professions – works in conjunction with the Arkansas Department of Higher Education as part of a network of twelve mathematics and science centers on university and college campuses around Arkansas. The main objectives of the center are to:

1. Provide science, mathematics and technology professional development for K-16 pre-service and in-service teachers;
2. Assist in statewide K-16 education initiatives;
3. Coordinate regionally beneficial grant-funded programs among universities and colleges for K-16 education;
4. Provide science, mathematics and technology educational materials, resources, and information to the K-16 community; and
5. Link common K-16 education allies throughout the state.

University Day, Science/Engineering Fairs, Springfest, and various K-16 teacher and student programs are conducted through the center. Day-to-day educational outreach information is sent to local, regional, and statewide constituencies through the center’s website and various email listservs. The Center for Mathematics and Science Education is a host site for the federally sponsored Eisenhower National Clearinghouse and the Southwest Educational Development Laboratory Consortium. The center also serves as the Arkansas National Aeronautics and Space Administration Educator Resource Center, responsible for warehousing and disseminating NASA materials and providing regular updates on NASA programs and materials to the state.

Web pages specifically designed to provide a wealth of material resources and information available for public, private and home-school educators across the state can be accessed at the website.

**Center for Protein Structure and Function**

Frank Millett and Roger Koeppe, co-directors
CHEM 119
479-575-4601

Center for Protein Structure and Function Website (http://fulbright.uark.edu/departments/chemistry/research/center-for-protein-and-structure)

The Center for Protein Structure and Function is an interdisciplinary unit for research and teaching within the departments of chemistry/ biochemistry and biological sciences in the J. William Fulbright College of Arts and Sciences. The center raises funds from federal, state, and private sources and sponsors faculty- and student-initiated basic research on the folded structures of protein molecules, their dynamic properties, and their diverse functions in biological systems. The center has been awarded funding from the National Science Foundation, the Arkansas Science and Technology Authority, and the National Institutes of Health.

**Center for Social Research**

Casey Harris, co-director
Patricia Herzog, co-director

Center for Social Research Website (https://www.ua-csr.org/

Since 1982 the Center for Social Research has provided research services to government agencies, communities and businesses. Located in the Department of Sociology, the center can conduct survey and public opinion research, impact assessment, evaluation and policy assessment. The center’s staff can provide assistance with research methodology and design, sampling, data collection and analysis.

The center’s professional staff has vast experience in virtually every aspect of social research. In addition, the center’s resources include computer-assisted telephone interviewing facilities; extensive archival data holdings, including online access to the archival holdings of the Inter-University Consortium for Political and Social Research at the University of Michigan; and, in-house statistical analysis.

**Center for Statistical Research and Consulting**

Joon Jin Song, director
479-575-6319
csrc@uark.edu

The Center for Statistical Research and Consulting is a service and research unit of the University of Arkansas, administratively housed in Department of Mathematical Sciences, providing faculty and graduate students in the university with an environment for collaboration in research and instruction emphasizing statistical and quantitative approaches. It offers statistical consulting and statistical software support to faculty, staff, graduate and undergraduate students conducting research at the university. The center will extend this statistical support to the state of Arkansas, directly providing some consulting services but primarily acting as a conduit for industry, government, and non-profit organizations to engage campus faculty and graduate students in consulting opportunities. The community support activities from the center will stimulate and enhance campus research and instructional efforts as well as provide important services to organizations throughout the region.

The mission of the Center for Statistical Research and Consulting is to participate in research to provide high quality statistical input to high quality research projects, train statisticians to interact effectively with investigators from other disciplines, and encourage collaborative research between statisticians and investigators from other disciplines.

The center is a fee-for-service unit. The initial consulting meeting with a client is provided at no cost. All subsequent and follow-up visits will require financial support.
Center for Utilization of Rehabilitation Resources for Education, Networking, Training and Services
Robin Freeman, director
121 Cedar St.
Hot Springs, AR 71901
501-623-7700

CURRENTS website (http://www.uacurrents.org/)

Established in 1974, this center provides human resource and organization development services for a broad audience in the rehabilitation and disability communities. Projects managed by CURRENTS vary in scope from state and local to regional and national levels. The center is housed on the campus of the Arkansas School for Mathematics, Sciences and the Arts, Hot Springs, Arkansas.

Center of Excellence for Poultry Science
Michael Kidd, director
POSC 114
479-575-3699

Center of Excellence for Poultry Science website (https://poultry-science.uark.edu/poultry-science-research.php)

With designation by the University of Arkansas Board of Trustees to make poultry science a center of excellence in the state’s university system, the department of poultry science became a reality in 1992.

The Center of Excellence for Poultry Science is comprised of full-time poultry science faculty members, full-time USDA/ARS Poultry Research Group faculty members, graduate assistants, adjunct faculty, and poultry science departmental staff. The center receives multidisciplinary contributions from several university departments including animal science; biological and agricultural engineering; biological sciences; crop, soil, and environmental sciences; entomology; food science; industrial engineering; the School of Human and Environmental Sciences; and the UALR College of Pharmacy.

The Department of Poultry Science and the research group are housed in the John W. Tyson Building, which is a 112,000-square-foot, state-of-the-art laboratory and office complex that was completed the fall of 1995 on the U of A campus. In addition to the John W. Tyson Building on the main campus, the Center of Excellence for Poultry Science comprises the following facilities:

- Four full-sized broiler houses equipped with computerized environmental control and data collection systems capable of commercial-type production research; and
- A broiler breeder research facility that includes two full-size broiler breeder houses, a pullet-rearing facility, and quality assurance building with offices, classroom, and egg holding capacity.

Chemical Hazards Research Center
Jerry Havens, director
BELL 3157
479-575-3857
jhavens@uark.edu

Chemical Hazards Research Center website (http://www.cheg.uark.edu/4444.php/)

The Chemical Hazards Research Center determines the consequences of atmospheric release of potentially hazardous materials with a present emphasis on liquefied natural gas in transportation and storage operations. Computational models are used in conjunction with the wind tunnel at the center, which is presently the largest low-speed wind tunnel suited for such studies.

Community and Family Institute
Kevin Fitzpatrick, director
MAIN 211
479-575-3777
kfitzpa@uark.edu

Community and Family Institute Website (https://fulbright.uark.edu/departments/sociology/research-centers/community-family-institute/)

The Community and Family Institute is a joint effort of the University of Arkansas and the Harvey and Bernice Jones Center for Families in Springdale, Arkansas. The institute is a multidisciplinary research center in the J. William Fulbright College of Arts and Sciences that conducts basic and applied research, as well as policy-related studies on the critical issues facing families and communities in the region and the nation. The institute raises funds from federal, state, and private sources and sponsors applied research by faculty and students on the family and the community.

Community Design Center
Stephen Luoni, director
1 East Center Street, Suite 220
Fayetteville, AR 72701
sluoni@uark.edu

U of A Community Design Center Website (http://uacdc.uark.edu/)

The mission of the University of Arkansas Community Design Center is to advance creative development in Arkansas through education, research, and design solutions that enhance the physical environment. As an outreach center of the Fay Jones School of Architecture and Design, the Community Design Center is developing a repertoire of new design methodologies applicable to community development issues in Arkansas, with currency at the national level. The center's design solutions introduce a multiple bottom line, integrating social and environmental measures into economic development. Integrative design solutions add long-term value and offer collateral benefits related to sustained economic...
capacity, enhanced ecologies, and improved public health. The design center also offers hands-on civic design experience to students who work under the direction of design professionals. The University of Arkansas Community Design Center was founded in 1995 and has provided design and planning services to more than 30 communities across Arkansas. The design center’s planning has helped Arkansas communities and organizations to secure nearly $62 million in grant funding to enact suggested improvements.

**David and Barbara Pryor Center for Arkansas Oral and Visual History**

Randy Dixon, director  
East Square Plaza  
1 East Center Street, Suite 216  
479-575-6829

Pryor Center website (http://pryorcenter.uark.edu/)

The mission of the Pryor Center for Arkansas Oral and Visual History is to document Arkansas' rich history by collecting the “living memories” of those who have been witness to various aspects of the state’s past. Using traditional oral history methodology, the center interviews individuals, transcribes those interviews, and maintains those collections for future generations. The center is responsible for preserving these memories and making them available to scholars and researchers interested in the culture and heritage of Arkansas. The center is located in East Square Plaza on the east side of the Fayetteville Square; to contact the center, call 479-575-6829, or visit the website.

**Diane D. Blair Center of Southern Politics and Society**

Angie Maxwell, director  
MAIN 506-A  
479-575-3356

Blair Center website (https://blaircenter.uark.edu/)

The Blair Center, located in the Department of Political Science, is dedicated to fostering political scholarship, public service, civic consciousness, and the study of Southern politics, history and culture. The center supports graduate students studying topics relevant to the South and hosts conferences and periodic speakers discussing issues relevant to Southern politics and society.

**Community and Family Institute**

Kevin Fitzpatrick, director  
MAIN 211  
479-575-3777  
kfitzpa@uark.edu

Community and Family Institute Website (https://fulbright.uark.edu/departments/sociology/research-centers/community-family-institute/)

The Community and Family Institute is a joint effort of the University of Arkansas and the Harvey and Bernice Jones Center for Families in Springdale, Arkansas. The institute is a multidisciplinary research center in the J. William Fulbright College of Arts and Sciences that conducts basic and applied research, as well as policy-related studies on the critical issues facing families and communities in the region and the nation.

The institute raises funds from federal, state, and private sources and sponsors applied research by faculty and students on the family and the community.

**Garrison Financial Institute**

Wayne Lee, executive director  
RCED 205  
479-575-4505

Garrison Financial Institute website (http://gfi.uark.edu)

The Garrison Financial Institute is an institute organized within the Sam M. Walton College of Business to advance financial education and knowledge through practice. Its mission is to enhance student learning through experience, foster research that extends and perfects best practices, and contribute to the economic development of the State of Arkansas and the welfare of its citizens. The center was founded in 2005.

**Garvan Woodland Gardens**

Bob Byers, garden director  
550 Arkridge Road, PO Box 22240  
Hot Springs National Park, AR 71913  
1-800-366-4664  
gardeninfo@garvangardens.org

Garvan Woodland Gardens website (http://www.garvangardens.org/)

Garvan Woodland Gardens is the botanical garden of the University of Arkansas, established in 1993 by an endowment from Mrs. Verna C. Garvan. Her vision is the foundation of the Garden’s mission to serve the public and provide teaching and research opportunities for the Department of Landscape Architecture and the Fay Jones School of Architecture and Design.

As early as 1985, the Department of Landscape Architecture was utilizing portions of the 210 acres on Lake Hamilton, in Hot Springs, AR, as a resource to teach local ecology and design principles. Teaching opportunities continue in these areas and currently feature urban forestry, wetland ecology, construction methods and materials, design implementation, and horticulture. Numerous designed features offer case studies for landscape architecture and architecture students as well as professionals, including the Asiatic Garden by David Slawson, a nationally recognized Japanese garden designer, and the Verna C. Garvan Pavilion, by internationally recognized architects Fay Jones and Maurice Jennings.

Research opportunities lie in wetland ecology and constructed wetland design, sustainable design, and therapeutic gardens. Ongoing public programs feature workshops on gardening techniques, bonsai collections, and perennials.

An annual symposium focuses on timely issues affecting the quality of life of people in Arkansas and the nation. Past topics include historic landscape preservation practice in Arkansas and sustainable golf course design.

Garvan Woodland Gardens is a member of the American Association of Botanical Gardens and Arboretas.

**High Density Electronics Center**

Simon Ang, director  
HiDEC/ENRC 700
The mission of the IDEALS Institute is twofold:

- To undertake cutting-edge research on issues of diversity and inclusion and be a research-hub of expertise, leadership, and support for equity, inclusion, and other dimension of diversity.
- To develop and deliver a comprehensive array of educational and training components (courses, workshops, online seminars, etc.) about diversity and inclusion that will provide knowledge, skills, and tools for stakeholders to create and sustain change in their organizations.

Such change will foster a more creative, inclusive, respectful, and productive workforce and workplace and contribute to the type of climate and culture that will yield enriched learning experiences that foster academic and workforce success for all.

**Information Technology Research Institute**

Eric Bradford, managing director
JPHT 409
479-575-4261

Information Technology Research Institute website (http://itri.uark.edu/)

The mission of the institute is to advance the state of research and practice in the development and use of information technology for enhancing the performance of individuals and organizations; provide a forum for multidisciplinary work on issues related to information technology; promote student interest in the study of information technology; and facilitate the exchange of information between the academic and business communities. The Information Technology Research Institute was established by a grant from the Walton Family Charitable Support Foundation.

**Institute for Nanoscience and Engineering**

Gregory Salamo, director
NANO 104
479-575-4187

Institute for Nanoscience and Engineering website (http://nano.uark.edu/)

The Institute for Nanoscience and Engineering is based in the Nanoscale Material Science and Engineering Building, opened in 2011 with the state-of-the-art equipment and clean rooms necessary for building materials one atom at a time. The institute provides an interdisciplinary team of researchers in the fields of physics, engineering, chemistry and biology whose mission, in part, is to develop businesses in Arkansas based on nanoscience and engineering.

**Institute of Food Science and Engineering**

Jean-Francois Meullenet, director
Food Science Building
2650 N. Young Ave., Fayetteville, AR 72704
479-575-4040

Institute of Food Science and Engineering website (http://www.uark.edu/depts/ifse/)

The Institute of Food Science and Engineering and its three technology centers grew from the commitment of the University of Arkansas Division of Agriculture to finding creative ways to bring its expertise and resources to bear on specific problems and issues that affect productivity and growth in the food processing industry, with the mission of strengthening that critical component of the agricultural sector and the entire economy.

The institute assists industry by fostering cooperative, multidisciplinary efforts that provide research to solve problems, technology transfer to put new information to work, and education in skills needed by specific industries. Alliances between the institute and private industry devise solutions to identified problems. This demand-driven approach assures a direct, positive impact on the value-added processing of food products.

The Center for Food Processing and Engineering's primary objective is to facilitate research leading to value-added products and improving the efficiency and effectiveness of the processing of agricultural products. Activities of the Center for Food Safety and Quality seek to maintain or improve the safety of foods through production, harvest, processing, distribution, and storage. The main thrust of the Center for Human Nutrition is to develop new value-added functional foods with elevated levels of health-promoting compounds and ways to motivate people to include generous amounts of these foods in their daily diets. These efforts will assure food safety and improve the sensory and nutritional quality...
of food to meet the nutritional requirements and food preferences of a changing society.

The offices of the Institute of Food Science and Engineering are located in the Food Science Building at the Arkansas Agricultural Research and Extension Center.

**International Center for the Study of Early Asian and Middle Eastern Musics**

Rembrandt Wolpert, director
MUSC 201
479-575-4701
ceam@cavern.uark.edu

International Center for the Study of Early Asian and Middle Eastern Musics website (http://www.uark.edu/ua/eeam/)

The International Center for the Study of Early Asian and Middle Eastern Musics, established in 2000, is a research center located in the Department of Music in the J. William Fulbright College of Arts and Sciences.

The center coordinates the international Tang Music Project and is linked with the Ancient Asian Music Preservation Project of the Library of Congress, a partnership that includes internships at the Library as well as an acquisitions program. The center also functions as the base for graduate training in historical ethnomusicology and related fields, specifically tailored toward early documented repertoires of ritual- and art-music and present day performance practices in historically significant musical traditions of Asia and the Middle East. The recovery of early Asian musics and the design of music-centered algorithms and their implementation in computer programs are central aspects of the center’s research and teaching activities. The center works closely with both the Department of Music and the King Fahd Center for Middle East and Islamic Studies in sponsoring lectures, seminars, concerts, and workshops, and it collaborates in developing international ties to other institutions and in promoting student and performing-artist exchanges. For more information, contact Elizabeth Markham or Rembrandt Wolpert at 479-575-4702.

**King Fahd Center for Middle East Studies**

Todd Shields, interim director
MAIN 202
479-575-2175

King Fahd Center for Middle East Studies website (http://mest.uark.edu/)

The King Fahd Center for Middle East Studies is an academic and research unit in the J. William Fulbright College of Arts and Sciences. It is an interdisciplinary and interdepartmental area studies center that offers diverse cultural, intellectual, and educational opportunities for the University of Arkansas community. Its functions include the promotion of research and teaching in interdisciplinary Middle East studies and global Islamic studies.

Through the King Fahd Middle East Studies Program, the center offers an undergraduate major in Middle East studies and supports graduate studies in Middle East-related departments and programs. Students of superior ability who are majoring in Middle East studies may apply for MEST scholarships to help fund their studies. The center also supports summer language study and research assistantships for graduate students and teaching and research by visiting scholars from affiliated universities and programs.

Through its core faculty, the center coordinates with university departments to offer a full range of Middle East courses, supports faculty research in Middle East and Islamic studies, engages in outreach activities, and supports an ambitious program of visiting speakers and workshops. The King Fahd Center currently maintains relationships with universities in Saudi Arabia, Jordan, Morocco, Tunisia, and Russia. The center also cooperates with the Aga Khan Humanities Program in Central Asia, the Middle East Institute in Washington, D.C., and the Elijah Center for the Study of Wisdom in World Religions in Jerusalem.

**Mack-Blackwell National Rural Transportation Study Center**

Heather Nachtman, director
BELL 4184
479-575-3484

Mack-Blackwell National Rural Transportation Study Center website (http://mackblackwell.uark.edu)

The Mack-Blackwell National Rural Transportation Study Center was established by a grant from the U.S. Department of Transportation to provide educational opportunities and conduct research in the area of rural transportation. Additional support is received from the Arkansas Highway and Transportation Department.

The broad objective of the center is to improve the quality of life in rural areas through transportation. The educational objective is to provide graduates qualified to enter the transportation-related professions with the diversity of backgrounds needed to lead transportation development in the 21st century. Although housed within the Department of Civil Engineering, the Mack-Blackwell Center’s activities are not limited to engineering. All disciplines related to or impacted by transportation participate in the center’s research and educational activities.

**National Agricultural Law Center**

Harrison Pittman, director
479-575-7640
nataglaw@uark.edu

National Agricultural Law Center Website (http://www.NationalAgLawCenter.org/)

The National Agricultural Law Center serves as the nation’s leading source of agricultural and food law research and information and is a unit of the University of Arkansas System Division of Agriculture. Created in 1987, the center fulfills its mission by conducting and sponsoring objective and authoritative agricultural and food law research and by providing bibliographic and other resources on agricultural and food law.

The center works closely with a diverse range of public and private sector stakeholders throughout Arkansas and the nation. The center is the only institution of its kind in the United States and has received national recognition. Publications and research assistance are available in print and through the website.
National Center for Reliable Electric Power Transmission
Alan Mantooth, executive director
2055 South Innovation Way
479-575-4838

The National Center for Reliable Electric Power Transmission in the College of Engineering is located in a new building at the Arkansas Research and Technology Park. The center seeks to research and develop prototypes of advanced power electronics systems for applications in the power grid, including both protection and storage devices.

The center also serves as a test facility for advanced power electronic circuit and package designs for distribution-level voltages and high currents. The center is a unique educational resource for students interested in working in the power utility and power electronics sectors.

Office for Studies on Aging
Michelle Gray and Barbara Shadden, co-directors
HPER 321X
479-575-5282
aging@uark.edu

The Office for Studies on Aging in the College of Education and Health Professions was established in August 1999 to coordinate the resources of the university in addressing the needs of the aging population in Arkansas and beyond. The office was developed to be the center for research and study of the physical, social, and psychological aspects of the aging process drawing on a host of disciplines across campus. The office conducts research, provides services, and acts as an interface between the university and the variety of service modalities for the aging population. Initial efforts of the office are directed toward a variety of issues facing older Americans to provide meaningful solutions so that the process of aging is a positive experience, both emotionally and physically.

Office of Education Policy
Gary Ritter, director
201 Graduate Education Building
479-575-3773

The Office of Education Policy serves as a resource to state lawmakers, educators, administrators, and other leaders, providing them with current national, state, and regional research in education to support them in thoughtful decision-making concerning K-12 education in the state of Arkansas. The Office of Education Policy strives to look at pressing issues through the lens of academic research, bridging the gap between research and practice.

Small Business and Technology Development Center
Larry Brian, director
RCED 210

Small Business and Technology Development Center website (http://sbtdc.uark.edu/)

The Walton College Arkansas Small Business and Technology Development Center is part of a national network of more than 1,000 small business development centers that provide small business training seminars, as well as free market research and consulting services from three full-time business consultants to startup and existing small businesses. The Arkansas system also provides the services of a free innovation and technology consultant for the state. The Walton College center operates as a regional office of the Arkansas Small Business and Technology Development Center half funded by the United States Small Business Administration and the Walton College located in the Donald W. Reynolds Center for Enterprise Development.

The Arkansas system serves all of Arkansas through the University of Arkansas at Little Rock's lead center and six regional offices located on college campuses throughout the state of Arkansas. Any for-profit small business intending to locate or currently located within the Walton College center’s service area may receive free assistance. This center serves the following counties: Benton, Boone, Carroll, Madison, Marion, Newton, Searcy, and Washington.

Supply Chain Management Research Center
John Kent, director
WJWH 544
479-575-6107
jkent@walton.uark.edu

Supply Chain Management Research Center website (http://scmrc.uark.edu/)

The Supply Chain Management Research Center at the Sam M. Walton College of Business sponsors and promotes supply chain, logistics, and transportation research and education. Center faculty view the supply chain as the channel that integrates business processes from suppliers through end users, providing value-added products, services, and information. Supply chain management incorporates both inter- and intra-company logistics, transportation, and management systems.

The center undertakes research and training in all aspects of the supply chain. It has sponsored research on vendor-managed inventory, trained salespersons and developed systems for material requirements planning, and simulated supply chains for logistics executives. The center has a broad range of interests and capabilities and has close ties to and cooperative programs within the Walton College, such as the Center for Retail Excellence, the Information Technology Research Center and other centers at the university, such as the Logistics Institute in the College of Engineering. The Supply Chain Management Research Center is unique in that its capabilities span the technical and managerial arenas of supply chain management.

The center’s Board of Directors includes representatives of firms such as ABF Freight Systems, American Freightways, Colgate-Palmolive, Federal Express, J.B. Hunt Transport, Pillsbury, Sunbeam, Tyson Foods, Unilever HPC, and Wal-Mart. The Board of Directors, along with notable supply chain professionals from business and academia, meet annually to discuss the state of the art in supply chain management and to provide advice and direction for the center.
For additional information about the Supply Chain Management Research Center at the Sam M. Walton College of Business contact the center at 479-575-7334.

**Terrorism Research Center**
Brent L. Smith, director
MAIN 228
479-575-3401
bls@uark.edu
Terrorism Research Center website (http://trc.uark.edu/)

The Terrorism Research Center in the J. William Fulbright College of Arts and Sciences houses the American Terrorism Study, the nation’s only comprehensive longitudinal database on American terrorism. Conducted in cooperation with the Federal Bureau of Investigation and sponsored by the U.S. Senate Judiciary Committee, the American Terrorism Study provides a record of federal terrorism cases resulting from indictment under an FBI “terrorism enterprise” investigation from 1980 to the present. The center is also engaged in several projects examining the spatial and temporal dimensions of terrorism, precursor and preparatory terrorist crimes, and prosecutorial and defense strategies in terrorism trials. The center’s research is funded by the Department of Homeland Security through the Memorial Institute for the Prevention of Terrorism and the Department of Justice through the National Institute of Justice.

**Tyson Center for Faith and Spirituality in the Workplace**
WJWH 518
479-575-3721
jan002@uark.edu
Tyson Center for Faith and Spirituality in the Workplace website (http://tfsw.uark.edu/)

The center’s vision is to be recognized as an international center networked with other international centers, where students, academics, practitioners, business leaders and faith leaders come together to understand the effects of faith and spirituality in the workplace and develop methodologies to help transform organizations in a way that has a positive impact on the world. The center teaches courses on faith and spirituality in the workplace, provides resources to businesses and community, and maintains a database of relevant research, including conducting its own case studies.

The Tyson Center for Faith and Spirituality in the Workplace was established by a grant from Tyson Foods Inc. and the Tyson Family Foundation in 2009.
Academic Dismissal. An academic status (http://catalog.uark.edu/undergradutecatalog/academicregulations/academicprobationsuspensionanddismissal/) resulting from unsatisfactory grades in which students are not permitted to enroll at the university until approved through an appeal process.

Academic Probation. An academic status (p. 83) resulting from unsatisfactory grades.

Academic Suspension. An academic status (p. 83) for unsatisfactory grades in which students are not permitted to register for courses for a specified time period.

Act 1052/467. Section 21 of Arkansas Act 467 of 1989 specifies that all first-time entering freshmen who are enrolled in a bachelor’s degree program will be placed in either college-level credit courses in English and mathematics or developmental courses in English composition, reading, and mathematics on the basis of their scores on specified tests. Find out more in the Registration (p. 69) section of the catalog.

Activity Course. Course devoted to participation in, knowledge of, or performance of some form of physical activity.

Add. See Drop/Add below.

Additional Major. Students fulfilling all requirements for the B.S., B.S.W., B.F.A. and B.M. degrees, including all core requirements and at least one major in these degree programs, may also claim an additional major in a humanistic discipline, social science, or interdisciplinary program associated with a B.A. degree. Upon completion of all major requirements of the additional discipline, the additional major will be made part of the student’s transcript; however, a B.A. degree is not awarded. This is also an option in German for any non-arts and science student.

Advance Registration. A period of time scheduled during a regular (fall or spring) semester that allows currently enrolled students to register for the next regular semester. In addition, advance registration for the summer sessions is scheduled during the spring semester.

Applied Instruction. A course that integrates both the teaching and hands-on application of knowledge or information; attends to the practical and utilitarian function of the subject (distinguished from theoretical). Examples may include: livestock judging team, music and art courses, cooperative education, and experiential learning.

Apprenticeship/Externship. Experiential learning opportunity to give students practical exposure and training in a career field. This is generally off-campus, supervised, and designed to prepare students for the transition from school to career.

Area Studies. Interdisciplinary study of geographical or cultural areas. Topics include the history, geography, politics, culture, language, and literature of the area. Generally, an area study is offered as a minor or a second major.

Audit. To take a course without credit.

Adviser. A faculty or staff member assigned to a student to advise that student on academic matters that include degree requirements and selection of courses.

Certification Requirements. The set of course, hour, and other academic requirements that must be completed to receive certification.

Class Schedule. List of courses and sections for a specific semester, including names of instructors; day, hour, and place of class meetings; and detailed registration procedures. The class schedule is available online.

Clinical Rotation/Instruction. Course that takes place in a clinical setting, including practice labs, hospitals, and other agencies; students apply methods and principles of a clinical discipline.

College or School. One of ten major divisions within the university that offers specialized curricula.

Combined Major. A combination of subsets of two primary discipline specific requirements, each of which is typically 15 to 24 hours and less than the number required for a major, which together constitute the major in a program of study leading to one bachelor’s degree with a combined major in two disciplines.

Concentration. A subset of requirements within the discipline-specific requirements of a program of study (graduate field of study or undergraduate major) leading to a graduate or bachelor’s degree.

Consent. A prerequisite that requires the student to obtain approval from the instructor or the department before he or she will be allowed to register for the course.

Core. A core of required coursework may be specified for students at the university level, the college or school level, the department level, and the program or area level. A core is what is required for all students at that level or in that program. Core and major requirements are usually stated either in terms of specific required courses or of lists of courses from which any course chosen will meet the requirement. The “list” may actually be a defined set such as lower-level courses or upper-level courses; courses in the department, in the program, or in the college; or courses identified by one or more course, program, or department codes. Elective courses may involve a greater or lesser degree of student choice. A general elective course could be one that is needed to complete the number of hours required for the degree when no other requirements remain to be met. A free elective course may be one that is not needed to complete either course requirements or hour requirements. See University Core below.

Corequisite. A course that must be taken at the same time as the course described.

Correspondence. See Self-Paced (Correspondence) below.

Course. A unit of academic instruction.

Course Deficiencies. Lacking required units of study in high school. Find out more in the Placement and Proficiency portion (p. 57) of the Enrollment Services section of the catalog.

Course Load. The number of semester credit hours a student may schedule in a given term.

Credit Hour. See Academic Policy 1200.40 (https://provost.uark.edu/policies/120040.php) for university’s credit hour definition.

Cumulative Grade-Point Average. An average computed by dividing the total number of grade points earned by the total number of credit hours attempted in all courses for which grades (rather than marks) are given.
Curriculum. A program of courses comprising the formal requirements for a degree in a particular field of study.

Degree Program. A program of study defined by sets of academic requirements that lead to a degree which the university is authorized to offer. Undergraduate degree requirements are typically stated in terms of numbers of credit hours and specific courses at the university, college or school, and discipline levels. Graduate degree requirements are typically stated in terms of number of credit hours and specific courses at the discipline level.

Department. Division of faculty or instruction within a college, such as Department of Accounting within the Sam M. Walton College of Business.

Dependent Major. See Second Major below.

Dissertation/Thesis Research. Research conducted and submitted in support of candidature for a degree or professional qualification; a formal treatise presenting the results of study submitted in partial fulfillment of the requirements of an advanced degree; process requires intensive interaction between student and professor.

Double Degree Program. A program of study that includes one set of university requirements and two sets of college or school and primary discipline-specific requirements and leads to two different bachelor’s degrees with two different majors.

Double Major. The two complete sets of primary discipline-specific requirements, typically consisting of a minimum of 30 hours each, constituting the two majors within a program of study leading to one bachelor’s degree with two complete majors.

Drill. Supplemental instruction or practice using repetition or discussion.

Drop/Add. Dropping or adding of select courses while still remaining enrolled in the university. This can only be done during specified times as published in the academic calendar (http://registrar.uark.edu/academic-dates/academic-semester-calendar/). See also Withdrawal below.

Eight-Semester Degree Completion Program. Most majors offered by the University of Arkansas can be completed in eight semesters, and the university provides plans that show students which classes to take each semester in order to finish in eight semesters. A few undergraduate majors either require a summer internship or fieldwork or are five-year professional programs, and may therefore not qualify for the eight-semester degree completion program.

Elective. Elective courses may involve a greater or lesser degree of student choice. A general elective course could be one that is needed to complete the number of hours required for the degree when no other requirements remain to be met. A free elective course may be one that is not needed to complete either course requirements or hour requirements.

Equivalent. A course allowed in place of a similar course in the same academic discipline. May require approval by an academic dean.

Externship. See Apprenticeship/Externship above.

Fees. Charges, additional to tuition, that cover specific university services, programs, facilities, activities and/or events. Find out more in the undergraduate Fee and Cost Estimates (p. 72) section or the graduate Fee and Cost Estimates (http://catalog.uark.edu/graduatemcatalog/feeandgeneralinformation/) section.

Field of Study. The primary discipline-specific (or multidisciplinary or interdisciplinary) set of requirements in a graduate program of study. The field of study typically consists of a minimum of 30 hours at the master’s degree level, of 30 hours beyond the master’s degree at the educational specialist level, and of 96 hours for the doctor of education degree. Field of study hour requirements vary more widely for the doctor of philosophy degree, but 60 hours is typical.

Field Studies. Hands-on study undertaken outside the laboratory or place of learning, usually in a natural environment or among the general public. Examples may include archeological and geological field studies.

Focused Studies. A set of courses that a student may elect to take as part of the major requirements and which provides focus in a particular area related to the major. Completing a focused study is not required for the major, but serves as a guide for students who want to further specialize their studies. Focused studies do not need Arkansas Department of Higher Education approval and do not appear on the transcript.

Grade Points. Points per semester hour assigned to a grade (not a mark), indicating numerical value of the grade. The grade-point average indicates overall performance and is computed by dividing the total number of grade points earned by the number of semester hours attempted.

Grade Sanction(s). A penalty for academic dishonesty. Grade sanctions may consist of either a grade of zero or a failing grade on part or all of a submitted assignment or examination or the lowering of a course grade, or a failing grade of XF to denote failure by academic dishonesty.

Hazing. Any activity that is required of an individual that may cause mental or physical stress and/or embarrassment when in the process of joining or belonging to any organization.

Independent Study. Project collaboratively designed by the instructor and student to pursue an area of study not covered by the established curriculum; typically completed without class attendance but through formal supervision by an instructor.

Internship. A formal program that provides practical experience in an occupation or profession; applied, monitored, and supervised, field-based learning experience for which the student may or may not be paid; may include field work/experience, supervised courses, student teaching, and cooperative education; provides opportunities for students to gain experience in a career field.

Intersession. A two-week mini-session that is held at the beginning of the regular fall, spring, and summer terms. Coursework during an intersession is very concentrated and intensive. Intersession classes are not available to new freshmen.

Laboratory. Course meeting in a defined physical setting for the hands-on application of methods and principles of a discipline; credit-bearing section which requires a registration separate from the lecture component of the course.

Lecture. A class session in which an instructor speaks on a specific topic.

Lecture/laboratory. Lecture course which integrates a lab component as part of the same course registration.

Major. The primary set of discipline-specific (or multidisciplinary or interdisciplinary) requirements in an undergraduate program of study. The major typically consists of a minimum of 30 hours and identifies by name a specific degree area.
Minor. The lesser set of discipline-specific (or multidisciplinary or interdisciplinary) requirements in an undergraduate program of study. The minor typically consists of a minimum of 15 hours or more in a designated discipline.

Noncredit Course. A course for which no credit is given. (Some credit courses will not count toward degrees.)

Overload. A course load of more semester hours than a student is normally permitted to schedule in a given period.

Practicum. Involves supervised activities emphasizing practical application of theory, especially one in which a student gains exposure to a field of study; generally required as part of the program curriculum.

Pre-Professional Requirements. The set of course, hour, and other academic requirements that must be completed before entry into a school, a program of study, or an advanced level of a program of study, either at the U of A or at another institution.

Prerequisite. A course or requirement that must be completed before the term when the described course is taken.

Private Study. Involves individual instruction with regular meetings; one-to-one demonstration, performance critique, music, fine arts or performing arts are examples.

Readings. A course where the instructor assigns readings and facilitates discussion at regular class meetings.

Registration. Enrollment at the beginning or prior to the beginning of a semester, including selection of classes and payment of fees and tuition.

Research. Research conducted that is independent of that done for a dissertation or thesis.

Sanction(s). The penalty for noncompliance to a policy. Usually a response that will redirect the individual or group's inappropriate behavior, encourage responsible judgment and ethical reasoning, protect the community's property and rights, and affirm the integrity of the institution's conduct standards.

Section. A division of a course for instruction. A course may be taught in one or more sections or classes or at different times, depending on enrollment in the course.

Second Major. (Also referred to as a Dependent Major.) A second complete set of primary discipline-specific requirements in a discipline in which only a second or dependent major may be earned. A second major must be earned in a degree program in which the first major is one authorized to be given independently. Typically a minimum of 30 hours is earned in each major area or discipline.

Self-Paced (Correspondence). Course in which instruction is web-based and students are physically separated from the instructor. Interaction between instructor and student is not regular or substantive, and is primarily initiated by the student. These courses are self-paced and are not distance education. Students are not required to be admitted to the University of Arkansas to take a self-paced course.

Semester Credit Hour. Unit of measure of college work. One semester credit hour is normally equivalent to one hour of class work or from two to six hours of laboratory work per week for a semester.

Seminar. Involves a small group of students engaged in advanced study and original research under a member of the faculty and meeting regularly to exchange information and hold discussions; highly focused and topical course; may include student presentations and discussions of reports based on literature, practices, problems, or research.

Special Problems. Individualized investigation of topics or case studies in a specific field under the supervision of an instructor for the purpose of enhancing or illuminating the regular curriculum.

Special Topics. An organized course devoted to a particular issue in a specific field; course content is not necessarily included in the regular curriculum for the major.

State Minimum Core. See University Core below.

Student Number. A number given to each student as a permanent identification number for use at the university.

Studio Course. Involves the application of design and theory in a defined physical setting; students explore and experiment under the guidance of an instructor.

Summer Sessions. Periods of time during the summer when course work is offered. (Go to the Academic Calendar (p. 13) for specific times and dates.)

Syllabus. An outline or summary of the main points of a course of study, lecture, or text.

Telecommunications. Course that utilizes technology in conveying teaching material. This only includes courses that use technology as the primary delivery method of course content, not courses that simply use technology to support another delivery method. These are distant education courses that generally: Uses one or more of the following technologies to deliver instruction to students who are separated from the instructor and to support regular and substantive interaction between the students and the instructor, synchronously or asynchronously. The technologies used may include:

- The Internet;
- One-way and two-way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices;
- Audio-conferencing, etc.; or
- Videocassettes, DVDs, and CD-Roms, if the videocassettes, DVDs, or CD-Roms are used in conjunction with any of the technologies listed in the first three options

Track. A subdivision of a concentration or certificate, which a student must select and fulfill to complete the requirements of the concentration or certificate.

Transcript. A complete record of the student's enrollment and academic history at the University of Arkansas, including all undergraduate, graduate, and law courses.

Tuition. The charge for university enrollment and registration, calculated per credit hour each semester. Tuition rates may vary depending on a student's resident status, undergraduate or graduate standing, and college affiliation. Tuition does not include cost of room and board. Additional charges will apply depending on student status. See the entry for Fees above.
UAConnect (https://uaconnect.uark.edu/). The online database that maintains student, faculty and staff records and class schedules.

**Undeclared Major.** Designation indicating students who have not selected a major.

**Undergraduate Study.** Work taken toward earning an associate or a baccalaureate degree.

**University Core.** The state of Arkansas specifies a number of core courses that students must successfully pass to obtain a degree. These are also sometimes referred to as the State Minimum Core. Find out more in the Requirements for Graduation (p. 91) and University Core (p. 97) portions of the Academic Regulations section.

**Withdrawal.** Official withdrawal (http://registrar.uark.edu/registration/withdrawal.php) from all courses during a semester at the university.

Undergraduate Programs of Study

The academic units of the University of Arkansas include the following colleges, schools and military departments:

- The Dale Bumpers College of Agricultural, Food and Life Sciences (p. 104), which includes the School of Human Environmental Sciences (p. 161)
- The Fay Jones School of Architecture and Design (p. 173)
- The J. William Fulbright College of Arts and Sciences (p. 198), which includes the School of Art (p. 218), the School of Journalism and Strategic Media (p. 289), and the School of Social Work (p. 376)
- The Sam M. Walton College of Business (p. 394)
- The College of Education and Health Professions (p. 447), which includes the Eleanor Mann School of Nursing (p. 474)
- The College of Engineering (p. 512)
- Graduate School (http://catalog.uark.edu/graduatecatalog/), which includes the Graduate School of Business (http://catalog.uark.edu/graduatecatalog/business/)
- School of Law (http://catalog.uark.edu/lawcatalog/)
- Honors College (p. 99)
- Global Campus (http://globalcampus.uark.edu/), School of Continuing Education and Academic Outreach
- Departments of Army ROTC (p. 549) and Air Force ROTC (p. 549)

The Global Campus, School of Continuing Education and Academic Outreach, serves as a portal for online, distance and professional education programs and courses provided by the University of Arkansas. Experienced staff members collaborate with the university’s academic colleges and schools and other academic units to develop and facilitate quality, cutting-edge courses and programs.

The School of Law and the Graduate School offer professional and graduate degrees. See the Graduate Catalog and the Law School Catalog for more information.

Accreditations

The University of Arkansas, Fayetteville, is accredited by the Higher Learning Commission.

Some colleges and programs are also accredited by other agencies, associations, or professional organizations, including those listed below.

Dale Bumpers College of Agricultural, Food and Life Sciences

The Bachelor of Science in Human Environmental Sciences (B.S.H.E.S.) degree programs are accredited by the Council for Professional Development of the American Association of Family and Consumer Sciences. The degree program in dietetics is accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics. The Jean Tyson Child Development Study Center is accredited by the National Association for the Education of Young Children (NAEYC). The Bachelor of Science in Agricultural, Food and Life Sciences (B.S.A.) in food science is accredited by the Institute of Food Technologists. Teacher education programs in agriculture and family and consumer sciences are coordinated with educational programs in the College of Education and Health Professions and are accredited by the National Council for Accreditation of Teacher Education (NCATE).

Fay Jones School of Architecture and Design

The Bachelor of Architecture (B.Arch.) program is accredited by the National Architectural Accreditation Board, and the Bachelor of Landscape Architecture (B.L.A.) program is accredited by the Landscape Architectural Accreditation Board of the American Society of Landscape Architects. The Bachelor of Interior Design (B.I.D.) degree is accredited by the Council for Interior Design Accreditation (CIDA).

J. William Fulbright College of Arts and Sciences

The Bachelor of Science (B.S.) degree program in chemistry is accredited by the American Chemical Society. The American Council on Education in Journalism and Mass Communications has accredited the Bachelor of Arts (B.A.) degree program in journalism. The Bachelor of Arts (B.A.), Bachelor of Music (B.M.), and Master of Music (M.M.) degree programs in the Department of Music are accredited by the National Association of Schools of Music. The Doctor of Philosophy (Ph.D.) degree program in clinical psychology is accredited by the American Psychological Association. The Bachelor of Social Work (B.S.W.) and the Master of Social Work (M.S.W.) degree programs are accredited by the Council of Social Work Education.

Sam M. Walton College of Business

The Sam M. Walton College of Business offers degree programs for undergraduate students and for graduate students at both the master’s and doctoral levels and has been a member of and accredited by AACSB International, the Association to Advance Collegiate Schools of Business, since 1931. The accounting program was separately accredited in 1986 at both the bachelor’s and master’s levels. The master’s in business administration program was approved in 1963. Accreditation by AACSB and membership in that organization signifies the college’s commitment to AACSB goals of promoting and achieving the highest standards of business education.

College of Education and Health Professions

The teacher education programs in the College of Education and Health Professions are accredited by the National Council for Accreditation of Teacher Education. The M.A.T. program in childhood education is in compliance with the standards of the National Association for the Education of Young Children. The various M.A.T. licensure programs in secondary education are in compliance with the standards of the specialty organizations including National Council of Teachers of English, National Council of Teachers of Mathematics, National Science Teachers Association, and National Council for the Social Studies. The Master of Science degree program in speech pathology-audiology is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association, but is currently on probationary status. See Graduate Catalog (http://catalog.uark.edu/graduatecatalog/programs/ofstudy/communicationdisorderscsds/) for more information. The Bachelor of Science in Nursing (B.S.N.) degree program is accredited by the National League for Nursing Accrediting Commission (61 Broadway Street, New York, NY 10006, 212-363-5555, Ext. 153) and is approved by the Arkansas State Board of Nursing. The Bachelor of Science in Education (B.S.E.) degree program in health science, kinesiology, recreation, and dance is accredited by the Council on Accreditation of the National Recreation and Park Association. The Master of Science degree
College of Engineering
The College of Engineering offers the following programs accredited by the Engineering Accreditation Commission of ABET (visit [http://www.abet.org](http://www.abet.org) for more information): Bachelor of Science in Biological Engineering (B.S.B.E.), Bachelor of Science in Chemical Engineering (B.S.Ch.E.), Bachelor of Science in Civil Engineering (B.S.C.E.), Bachelor of Science in Computer Engineering (B.S.Cmp.E.), Bachelor of Science in Electrical Engineering (B.S.E.E.), Bachelor of Science in Industrial Engineering (B.S.I.E.), Bachelor of Science in Mechanical Engineering (B.S.M.E.), Master of Science in Environmental Engineering (M.S.En.E.), and Master of Science in Biomedical Engineering (M.S.B.M.E.).

The College of Engineering offers a Bachelor of Science in Computer Science (B.S.) that is accredited by the Computing Accreditation Commission of ABET (visit [http://www.abet.org](http://www.abet.org) for more information).

School of Law
The degree programs in the School of Law on the Fayetteville campus are accredited by both the American Bar Association and the Association of American Law Schools.

Certificate Programs
- Brewing Science (p. 153)
- Child Advocacy Studies Training (p. 376)
- Geospatial Technologies (p. 272)
- Poultry Science (p. 160)

Following is a list of major programs of undergraduate study – grouped by college and school – offered at the University of Arkansas, followed by a list of minors and certificates offered by each college and school.

Majors
Dale Bumpers College of Agricultural, Food and Life Sciences
- Agricultural Business (p. 111)
- Agricultural Education, Communication and Technology (p. 119)
- Animal Science (p. 127)
- Crop Science (p. 136)
- Environmental, Soil, and Water Science (p. 142)
- Food Science (p. 145)
- Horticulture, Landscape and Turf Sciences (p. 154)
- Poultry Science (p. 157)

School of Human Environmental Sciences
- Apparel Merchandising and Product Development (p. 162)
- Birth Through Kindergarten (p. 164)
- Food, Nutrition and Health (p. 165)
- Hospitality Management (p. 167)
- Human Development and Family Sciences (p. 169)
- Human Nutrition and Dietetics (p. 171)

Fay Jones School of Architecture and Design
- Architecture (p. 183)
- Architectural Studies (p. 179)
- Interior Design (p. 187)

J. William Fulbright College of Arts and Sciences
- Anthropology (p. 214)
- Art (Studio Art) (p. 218)
- Art History (p. 216)
- Biology (p. 230)
- Chemistry (p. 235)
- Classical Studies (p. 245)
- Communication (p. 248)
- Criminology (p. 250)
- Earth Science (p. 253)
- Economics (p. 254) (Bachelor of Arts)
- English (p. 258)
- French (p. 385)
- Geography (p. 266)
- Geology (p. 268)
- German (p. 385)
- Graphic Design (p. 218)
- History (p. 274)
- Interdisciplinary Studies (p. 279)
- International and Global Studies (p. 281)
- Journalism (p. 289)
- Mathematics (p. 303)
- Music (p. 313)
- Philosophy (p. 349)
- Physics (p. 351)
- Political Science (p. 368)
- Psychology (p. 372)
- Social Work (p. 376)
- Sociology (p. 380)
- Spanish (p. 385)
- Theatre (p. 383)

Second (or dependent) Majors
A second (or dependent) major may be earned in a degree program when a student already is pursuing a first major that is authorized to be given independently.

- African and African American Studies (p. 212)
- Asian Studies (p. 228)
- Latin American and Latino Studies (p. 301)
- Middle East Studies (p. 312)

Sam M. Walton College of Business
- Accounting (p. 412)
- Business, General (p. 433)
- Business, International (p. 402)
- Economics (p. 416)
- Finance (p. 420)
- Information Systems (p. 429)
- Management (p. 433)
- Marketing (p. 438)
- Retail (p. 438)
- Supply Chain Management (p. 443)

College of Education and Health Professions
- Career and Technical Education (p. 452)
Undergraduate students are admitted into pre-majors in selected fields, including Communication Disorders (PCDIS), Nursing (PNURS), Elementary Education (PELED), and Human Resource Development (PHRWD). Students must apply to the majors associated with their pre-major in certain semesters, and should work with their advisors to determine the most appropriate time to make this application. Students are admitted directly to programs in Recreation and Sport Management, Educational Studies, Kinesiology, and Public Health. Students may also be admitted to the College as an undeclared student and should work with an academic advisor to declare a major or pre-major prior to earning 30 credit hours.

College of Engineering (ENGR) – All undergraduate engineering students are classified as pre-engineering students until they have successfully completed the two semester freshman engineering sequence and achieved a C or better in MATH 2554, Calculus 1.

Walton College of Business (WCOB) – Students pursuing a degree in Walton College are classified as pre-business until all core-business requirements are fulfilled.

Minors

Each college and school of the University of Arkansas can determine whether to offer minors within their respective departments and whether to allow a student to pursue a minor in another college or school. Most, but not all, minors are offered in fields in which a major is also offered. Students should check with academic advisers in their college or school to determine the eligibility and requirements of a minor. They are listed below.

Interdisciplinary

Microelectronics-Photonics (p. 100) (administered by the Graduate School)
Nanotechnology (p. 102) (administered by the Provost's Office)
Planning (p. 104) (administered by the departments of Landscape Architecture and Political Science)
Sustainability (p. 197) (administered by the Fay Jones School of Architecture and Design)

Dale Bumpers College of Agricultural, Food and Life Sciences

Agricultural Business (p. 111)
Agricultural Communications (p. 119)
Agricultural Education (p. 119)
Agricultural Leadership (p. 127)
Agricultural Systems Technology Management (p. 119)
Animal Science (p. 127)
Crop Biotechnology (p. 136)
Crop Science (p. 136)
Entomology (p. 141)
Equine Science (p. 127)
Event Management (p. 167)
Food Science (p. 145)
Horticulture (p. 154)
Hospitality Management (p. 167)
Human Development and Family Sciences (p. 169)
Human Nutrition (p. 165)
International Economic Development (p. 118)
Landscape Horticulture (p. 154)
Natural Resources Management (p. 144)
Pest Management (p. 157)
Plant Pathology (p. 141)

College of Engineering

Biological Engineering (p. 518)
Biomedical Engineering (p. 522)
Chemical Engineering (p. 542)
Civil Engineering (p. 524)
Computer Engineering (p. 527)
Computer Science (p. 527)
Electrical Engineering (p. 531)
Industrial Engineering (p. 534)
Mechanical Engineering (p. 537)

Undeclared Major

Degree-seeking students who are undecided about their choice of a major field of study should enroll in the college or school that best reflects their current academic interest. Advisors in each academic unit can provide guidance to students who are undecided about their choice of a major field of study. Each college has its own rules concerning the point at which a student must declare a major.

Dale Bumpers College of Agriculture and Food Life Sciences (AFLS)
- Undergraduate students are expected to officially declare a major prior to earning 30 college credit hours. Advisors in each academic unit can provide guidance regarding majors and career opportunities to students with undeclared status and transfer students who have not declared a major. An administrative advising hold, to be released after meeting with an academic advisor, will be placed on undeclared students’ records each term until a major has been declared to encourage thoughtful consideration and selection of majors.

Faye Jones School of Architecture and Design (ARCH) –
Undergraduate students must elect one of the three academic departments upon acceptance into the School. Undeclared status is not an option.

J. William Fulbright College of Arts and Sciences (ARSC) –
Undergraduate students are expected to officially declare a major prior to earning 30 college credit hours. The Fulbright College Advising Center will provide enhanced advising services specific to exploratory students regarding major and career decisions. An administrative advising hold, to be released after meeting with an academic advisor, will be placed on undeclared students’ records each term until a major has been declared to encourage thoughtful consideration and selection of majors.

College of Education and Health Professions (COEHP) –
Undergraduate students are admitted into pre-majors in selected

The honors program in the Sam M. Walton College of Business is offered to high-achieving students interested in obtaining an outstanding business education at the University of Arkansas. Students who participate in the program will take honors classes in the University Core and pre-business curriculum as well as honors colloquia in the Walton College offered exclusively to honors students. The subject matter of these colloquia varies from year to year and focuses on current business issues. Honors students complete a thesis in the senior year. Students in the honors program are entitled to register on the first day of registration week, have exclusive access to an honors computer lab and study area, and will be given priority consideration in such programs as the Arkansas Cooperative Education Program. For further information, see the Walton College (p. 394) section of this catalog.

The honors program in the College of Education and Health Professions enables undergraduate students who have demonstrated potential for outstanding scholarship achievement an opportunity to broaden and deepen their liberal and professional education. Honors students participate in honors seminars, leadership skills development and a required undergraduate thesis/project. Students are provided opportunities to enhance their learning experience through critical thinking, leadership skills development and independent study. For additional information, see the College of Education and Health Professions (p. 447) section of this catalog.

The College of Engineering has established an honors program to challenge superior students with a more in-depth academic program and research experience and to provide a structure for working more closely with faculty members and other students in a team environment. An honors program is highly recommended for individuals planning academic or research-related careers that require considerable critical and original independent thinking. Students must formally apply for admission to the Engineering Honors Program. Once accepted into the program, honors students take a minimum of 12 hours of honors courses (a minimum of 6 of these 12 hours must be in engineering), participate in undergraduate research and write an undergraduate thesis, and must fulfill any additional departmental requirements. To graduate with honors, a student must hold a cumulative GPA of 3.50 or better for all course work, computed at graduation. For more information, see the College of Engineering (p. 512) chapter of this catalog.

Campuswide Academic Honor Societies
For other academic honor societies, see the various school and college sections of this catalog.

Golden Key is an academic honor society open to selected juniors and seniors who have a minimum grade-point average of 3.50.

Order of Omega honor society is exclusive to members of the Greek community on the university campus. Selection of members is based upon leadership in the inter-Greek activities, academic honors, and contributions to the University community. A 2.50 GPA is necessary for membership consideration.

Phi Eta Sigma is an academic honor society for freshman students. Membership is selected in the spring each year, and the only requirement is a minimum GPA of 3.50 or better for the first semester of the freshman year.

Phi Kappa Phi is a national honor society whose primary objective is the recognition and encouragement of superior scholarship in all academic disciplines. Junior and senior undergraduate students who have a minimum GPA of 3.85 are eligible for membership. Also eligible are

Honors Studies
Interested students should write to the Director of Honors Program in the appropriate college.

The honors program in the Dale Bumpers College of Agricultural, Food and Life Sciences provides students with opportunities for intellectual enrichment beyond the traditional undergraduate experience. This is accomplished through honors courses, completion of an undergraduate capstone honors project or thesis, and other significant activities including interactions with students in honors programs in other colleges. The results of the student's original research or creative project may be published in Discovery, the undergraduate research journal of the Bumpers College, or Inquiry, the university-wide journal of undergraduate research and creative activity. In support of these efforts, participants in the Honors Program are eligible to receive an honors stipend in support of their research projects. The transcript and diploma of each honors graduate will designate the student as an honors graduate of the college. At the college commencement ceremony, each honors graduate will wear special regalia and have the title of their honors thesis and their mentors' names listed in the graduation program. Students must maintain a cumulative grade-point average of 3.50 and subscribe to the Statement of Ethical Standards to remain in the program. For additional information, see the Bumpers College (p. 104) section of this catalog.

The Fay Jones School of Architecture and Design provides opportunities for students of superior academic and creative ability to enhance and enrich their professional and liberal education by participating in the School's honors programs. For additional information, please see the Fay Jones School of Architecture and Design (p. 173) section of this catalog.

To create an intellectual environment that will challenge the best of students, the J. William Fulbright College of Arts and Sciences provides a comprehensive program of honor studies. From the first year to the senior year, an honors student is provided the opportunity to study with other superior students in small distinctive classes taught by highly motivated and skilled faculty members. There are also opportunities for independent study so that students learn to work on their own and to develop their abilities and interests in ways that are not normally possible in regular college course work. Students participating in a program of honors studies also receive special academic counseling to satisfy their future career objectives. Students are offered every opportunity to achieve a high level of intellectual maturity and accomplishment. For additional information, see the Fulbright College (p. 198) section of this catalog.
graduated students, registered for one year, who have a minimum GPA of 3.85.

Tau Alpha Upsilon is an honor society that honors outstanding students who live in the University of Arkansas Residence Hall system.

Who’s Who, a general honor society, honors students who have excelled in scholarship, leadership and campus activities throughout their college careers. Membership requirements are a minimum cumulative GPA of 2.00, completion of 85 credit hours, and at least two full semesters attendance at the University of Arkansas, Fayetteville, prior to application.

Campuswide Leadership Honor Societies

Blue Key is a service-oriented honor fraternity that recognizes outstanding scholarship, leadership and involvement in campus activities. Applicants must be classified as juniors and meet a minimum GPA of 2.75 for membership consideration.

Cardinal Key is a junior service-oriented honor society whose membership selection is based on scholarship, leadership, and community and campus activities. A 3.00 GPA requirement must be met in order to be considered for membership at the end of the sophomore year.

Cardinal XXX is a service-oriented honor society whose membership consists of a select group of sophomores. Membership selection is based on scholarship, leadership, and community and campus service. A 3.00 GPA requirement must be met for consideration, and selection is made at the end of the freshman year.

Gamma Beta Phi is a service-oriented honor society established to recognize and encourage excellence in education. Membership in the organization is open to students who are in the top 20 percent of their class.

Mortar Board is a senior honor society that considers outstanding scholarship, leadership, and service to the campus and community when selecting members. Applicants must have a 3.00 GPA in order to be eligible for consideration.

Reserve Officers’ Training Corps

A true job training program, ROTC is offered at the University of Arkansas through both the U.S. Air Force and the U.S. Army. Each department provides a unique, career-oriented set of courses relevant to future leadership positions within its particular branch. In addition to studying Aerospace Education or Military Science, students interact with one another in a practical setting as they examine and apply the dynamics of leadership, management, ethics, communication, and teamwork. Participants are given the background and comprehensive building blocks to become commissioned officers in the U.S. military, if qualified. Physical activities and summer orientation programs are enhanced with continually updated curricula. Classes are taught by military personnel, ensuring realistic perspectives on the military professions.

In the finest traditions of the University of Arkansas and the ROTC programs, students are challenged to grow, develop and assume responsibilities throughout their academic years. Underlying that teaching is a foundation of service, integrity and excellence – expected and demanded of all officer candidates. Scholarships and details of the two programs are found in the ROTC chapter of this catalog. Army ROTC is located in the Army ROTC building, 479-575-4251 or toll free 1-866-891-5538, armyrotc.uark.edu (http://armyrotc.uark.edu/). Air Force ROTC is located in 319 Memorial Hall, 479-575-3651, afrotc.uark.edu (http://afrotc.uark.edu/).

Cooperative Education Program

Cooperative Education is a unique program offered by the Office of Career Services that allows students to alternate between going to school and working in their chosen vocation. In addition, the program allows employers the opportunity to train and evaluate future employees before offering them positions.

Employment assignments are diversified to provide students with a variety of experiences related to their major field and with work of increasing difficulty and responsibility. Although the primary objective is to supplement theoretical knowledge with practical experience, students earn full-time pay while on work assignments. This benefit produces welcome income while the students are still pursuing a degree.

Positions are available to students in many disciplines, primarily engineering, architecture, landscape architecture, business, agriculture, natural science and mathematics. Co-op students must be in good academic standing, must be at least 18 years of age, must be making normal progress toward a degree, and must meet the specific requirements of their college. (For example: the College of Engineering and Dale Bumpers College of Agricultural, Food and Life Sciences require completion of the freshman year; Fulbright College of Arts and Sciences requires 45 credit hours and a 2.5 grade-point average; the Walton College of Business requires completion of pre-business program requirements; and the Fay Jones School of Architecture requires completion of the junior year.) In addition, employers may establish their own academic criteria for selecting students.

For further information, contact the Career Development Center, 607 Arkansas Union, 479-575-2805.

Study Abroad

The university encourages the expansion of students’ educational experiences through study abroad. Student exchange programs have been established with Kansai University and Shimane University (Japan), Hankuk University (Korea), Al-Akhawayn University (Morocco), University of Graz (Austria), University of Essex (England), University of Maine (France), and Carlos III University of Madrid (Spain). Other UA study abroad programs include summer/semester/year-long programs in Austria, England, Scotland, Ireland, France, Germany, Italy, Mexico, and Spain. A limited number of scholarships and travel grants are available each year for these programs.

For more information about study, work, and travel abroad, contact the Office of Study Abroad, 722 W. Maple, 479-575-7582. Students in the Dale Bumpers College of Agricultural, Food and Life Sciences may contact Dr. Andrew Proctor, Director of International Agricultural Programs, Bumpers College Dean’s Office, E-108 AFLS Building, 479-575-2252, aproctor@uark.edu. Students in the Walton College of Business may contact the Undergraduate Programs Office at 479-575-4622. Students in the College of Engineering may contact the Assistant Dean for International Programs at 479-575-7236.

Graduate and Professional Study

The University of Arkansas is the major center for comprehensive graduate-level instruction in the state, offering students the opportunity to continue their studies or to specialize in a particular field through the Graduate School. The university offers a wide range of graduate degrees, including the master’s, the Educational Specialist, the Doctor
of Education, and the Doctor of Philosophy. Non-degree graduate
certificates are also offered. Information about graduate programs may
be found in the Graduate School Catalog or at grad.uark.edu (http://
grk.uark.edu/).

The School of Law on the Fayetteville campus offers a juris doctor degree
program for qualified students with a bachelor’s degree, and it offers
the nation’s only master’s program in agricultural law for students with
a law degree. Further information concerning professional study may
be obtained by contacting the School of Law dean’s office for a copy of
the current catalog: University of Arkansas School of Law, Leflar Law
Center, 107 Waterman Hall, Fayetteville, AR 72701, 479-575-3102 or at
law.uark.edu (http://law.uark.edu/).

Pre-Law
The University of Arkansas School of Law does not prescribe a specific
pre-law curriculum and does not require any single “pre-law major.”
Prospective students are encouraged to select baccalaureate majors best
suited to individual interests and abilities, and writing courses are often
very valuable.

A baccalaureate degree is required for admission to the University of
Arkansas School of Law, except for those students in the Dale Bumpers
College of Agricultural, Food and Life Sciences or the Fulbright College of
Arts and Sciences who are admitted to the special six-year program. All
applicants for admission are required to take the Law School Admission
Test.

Other Pre-Professional Programs
Fulbright College offers pre-professional programs and advisers in law,
medicine, dentistry, optometry, medical technology, chiropractic, physical
therapy, pharmacy, dental hygiene, occupational therapy, social work,
and theology. The Dale Bumpers College of Agricultural, Food and Life
Sciences coordinates the pre-veterinary medicine program.
Enrollment Services

Mission
Enrollment Services seeks to enroll a diverse group of capable students, who will engage and excel at the University of Arkansas, and to assist these students in achieving their academic and career goals.

The mission of the Enrollment Services Division of the University of Arkansas is to enroll and graduate students who will engage fully in academic and service programs, develop intellectually and personally, and contribute to the campus, the state, and the global community. Encouraging academic engagement from a diverse group of communities will create a dynamic educational environment that will promote a broad learning experience for the entire campus community. To carry out this mission, the Enrollment Services Division is comprised of nine professional and service-oriented offices: Admissions, Center for Learning and Student Success, Financial Aid, Graduation and Retention, Nationally Competitive Awards, Orientation, Registrar, Scholarships, and UAConnect. Through collaborative efforts, Enrollment Services strives to:

- Promote the University of Arkansas and the pursuit of higher education;
- Foster initiatives that support diversity as a key goal of the University of Arkansas community;
- Attract, admit, and prepare new and returning students for enrollment on campus while working with academic affairs to ensure planned and sustainable growth in accordance with institutional priorities;
- Accurately and efficiently reduce financial obstacles through federal, state, institutional scholarship and aid programs;
- Commit to preparing traditional and non-traditional students, including returning adult learners, for academic achievement and success in life;
- Assist future, current, and former students as they navigate administrative requirements to achieve their academic goals;
- Ensure accuracy for registration and academic records;
- Commit to retaining students who enroll at the University of Arkansas and assisting them through academic transitions on their path to graduation;
- Prepare students to be nationally competitive;
- Craft and maintain policy that facilitates effective administration to support Division goals, including coherence of policy across all divisions;
- Develop innovations in the use of technology and information systems aimed at supporting a research engine for best practices in enrollment services and data-based decision making;
- Increase state and global knowledge by achieving a net increase in Arkansas residents holding bachelor’s, master’s, and doctoral degrees;
- Support the university’s pursuit to become a nationally recognized research institution that puts students first.

uachelp@uark.edu
Orientation
All new undergraduate students are expected to participate in an orientation experience. The orientation program is designed to introduce every aspect of the university community to our students, enabling them to establish a bond with the institution and those here to support them. A significant aspect of this experience will be to provide students with information about the learning opportunities, resources, policies, support systems, and student activities at the University. New freshmen must attend orientation before enrolling in classes. For more information on New Student Orientation, go to orientation.uark.edu (http://orientation.uark.edu/).

Academic Bankruptcy
Students returning to the University of Arkansas after an absence of five or more years may be eligible to declare academic bankruptcy if they meet the following criteria:

1. Must have been enrolled previously at the University of Arkansas, Fayetteville, as an undergraduate student and be returning as an undergraduate student.
2. Must not have been enrolled at the university during the previous five years.
3. Students who have attended another institution since their last attendance at the university must meet requirements for transfer students (2.00 GPA on all coursework attempted more than five years after last enrollment at the University of Arkansas, Fayetteville) to be eligible for readmission.
4. Must submit an application for readmission and official transcripts of all college work attempted since last attendance at the University of Arkansas by the application deadlines and submit a Declaration of Academic Bankruptcy form (http://registrar.uark.edu/1621.php) to the Office of the Registrar. The following are the conditions of academic bankruptcy:
   a. Students will forfeit all credit hours previously awarded by the University of Arkansas, Fayetteville. This includes course work completed at the university (regardless of grades earned), courses accepted in transfer, credit by examination, and any self-paced (correspondence) course work awarded.
   b. A new calculation of GPA and credit hours will begin when the student returns to the University of Arkansas.
   c. The transcript will reflect the student’s complete record (including all previous college work) with an added notation of “Academic Bankruptcy Declared.”
   d. Courses taken at another institution within five years of the last University of Arkansas enrollment will not be accepted for transfer. Coursework completed more than five years after last attending the University of Arkansas may be accepted in transfer, subject to university transfer credit policies. For purposes of this policy, University of Arkansas self-paced (correspondence) coursework will be treated in the same manner as transfer work.
   e. For the university to provide appropriate advising and (as required by Arkansas Act 1052) appropriate assessment, a student may be required to submit ACT, SAT, or ACT COMPASS test scores prior to registration for classes if, as a result of academic bankruptcy, that student is returning to the university as a freshman with fewer than 24 transfer hours.

Admission
Undergraduate Admission
Any person who intends to register for a course at the University of Arkansas must first be admitted to the university. Students returning to the university after an absence of a fall or spring semester must also complete an application.

The University of Arkansas offers a variety of services to students with physical or learning disabilities through the Center for Educational Access. Students with any type of physical or learning disability are strongly encouraged to contact the CEA in Room 209 of the Arkansas Union or call 479-575-3104 (TDD/Voice) to learn more about specific services and the overall accessibility of the university.

The university reserves the right to modify admission requirements. Application forms and the most current information about admission requirements are available from the Office of Admissions. Please send all application materials and supporting documents to the following address:

Office of Admissions
232 Silas H. Hunt Hall
1 University of Arkansas
Fayetteville, AR 72701
479-575-5346 or 1-800-377-8632
admissions.arkansas.edu (http://admissions.uark.edu)

When to Apply
Students interested in applying to the University of Arkansas for the fall semester are encouraged to apply by the November 1 priority deadline. By applying early, students take advantage of scholarship, housing, and orientation privileges; however, regular fall applications will be accepted until August 1 prior to the start of term. Applicants for freshman scholarships are encouraged to apply for admissions by November 1 and complete the separate scholarship application by the priority scholarship deadline, November 15. Applicants for entering transfer scholarships should submit completed applications to the Office of Admissions and the Office of Academic Scholarships no later than April 1, for the fall semester, and October 1, for the spring semester.

Deadlines for Admission Consideration
Applications and required transcripts must be received in the Office of Admissions by the following deadlines to be accepted for the respective enrollment periods:

- Fall – August 1
- Spring – December 20

Students who are unable to submit their applications by the deadline may be denied admission and considered for admission for the following term.

International students should refer to “International Students” in this section for application deadlines, procedures, and requirements.

Graduate School
Applications for admission to the University of Arkansas Graduate School and an official copy of transcripts of the applicant’s academic record at each college and university attended since high school graduation, and official test score on the Graduate Record Examination (GRE) or other national standard test, must be submitted to the graduate school admissions office and approved in advance of registration. The
transcripts will become a part of the student’s permanent file at the University. Applications may be obtained by writing to the Graduate and International Admissions Office, 213 Gearhart Hall, 1 University of Arkansas, Fayetteville, AR 72701; by calling 479-575-6246; by e-mailing gradinfo@uark.edu; or by applying at apply.uark.edu (http://apply.uark.edu).

Additional information and procedures for making application to the Graduate School are included in the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/admissions/).

Admission to Graduate Standing
To be admitted to graduate standing, a student must have 1) earned a baccalaureate degree from a regionally accredited U.S. institution or from an institution with substantially equivalent requirements for a baccalaureate degree and must have a GPA of 3.0 or better on the last 60.0 credit hours of attempted coursework prior to receiving the baccalaureate degree and 2) present satisfactory scores on the Graduate Record Examination (GRE) or other national standard test.

Admission to graduate standing does not admit a student to a specific program of study leading to a graduate degree. Therefore, in addition to satisfying the general requirements of the Graduate School, the applicant must also comply with the specific requirements and have the approval of the department in which graduate study is desired.

For more details, go to the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/admissions/).

How to Apply
1. Submit a completed application for undergraduate admission and the non-refundable application fee to the Office of Admissions. You may apply for admission online at apply.uark.edu (http://apply.uark.edu).

2. Request that all required transcripts be sent to the Office of Admissions. Only official transcripts will be accepted. Transcripts are not considered official unless submitted in a sealed, stamped envelope, or sent via electronic data interchange from the previous institution. Questionable or unreadable transcripts may be refused. College transcripts must be provided from each college or university attended. Transcripts must be sent directly to the Office of Admissions from each institution attended, in an official sealed school envelope, or sent via electronic data interchange.

3. All new freshmen and transfer students with fewer than 24 transferable semester hours. A preliminary admission will be provided to high school seniors on the basis of sixth- or seventh-semester transcripts. College transcripts must be provided from each college or university attended. Transcripts must be sent directly to the Office of Admissions from each institution attended, in an official sealed school envelope, or sent via electronic data interchange.

4. All new freshmen and transfer students with fewer than 24 transferable credit hours must submit ACT or SAT scores. Non-traditional students applying three or more years after high school graduation have the option of submitting the ACT COMPASS or The College Board Accuplacer to satisfy testing requirements. The University of Arkansas will not accept test scores taken more than five years prior to enrollment. Test scores should be sent directly to the university by the testing agency. The university’s institutional codes are: ACT-0144; SAT-6866.

5. English Proficiency: Applicants whose native language is not English must submit a Test of English as a Foreign Language (TOEFL) score of at least 550 (paper based), 79 (internet based), or a minimum score of 6.5 on the IELTS (writing) taken within the preceding two years. Students who have completed grades 10-12 at a U.S. accredited high school and have a satisfactory ACT English subscore may request a review for waiver of this requirement. Students transferring from an accredited U.S. institution (or institution in a country where English is the native language) with at least 24 transferable credit hours and successful completion of English Composition I and II with a grade of “C” or above will not be required to submit the TOEFL or IELTS for admission consideration. For more information about the TOEFL, you may visit toefl.org (http://www.ets.org/toefl).

6. The university shall admit only those applicants whose enrollment will not be detrimental to the quality of life and the educational programs of the university. The Admissions and Appellate Board has final authority to interpret university admission or transfer policy and to grant a variance. An applicant who has withheld pertinent information regarding educational background or who has falsified information or credentials may be denied admission to the university or, if enrolled, may be immediately withdrawn.

International Students
All international students must present officially certified academic credentials, evidence of adequate financial support, and, for non-native English speakers only, a minimum TOEFL score of 550 (paper based), 79 (Internet based), or a minimum score of 6.5 on the IELTS, taken within the preceding two years. Students who have completed grades 10-12 at a U.S. accredited high school and have a satisfactory ACT English subscore may request a review for waiver of this requirement. Students transferring from an accredited U.S. institution (or institution in a county where English is the native language) with at least 24 transferable credit hours and completion of English Composition I and II with a grade of “C” or above will not be required to submit the TOEFL or IELTS for admission consideration.

Applicants who meet the academic and financial requirements but who do not meet the English proficiency requirement of the University of Arkansas will be offered conditional admission to attend an intensive English program through the Spring International Language Center. Students will be eligible to enroll in University of Arkansas academic courses upon successful completion of the highest level of the intensive English program with a 3.00 grade average and recommendation of the director of Spring International.

An entering freshman who has completed secondary school at either U.S. or foreign institutions must have a) the equivalent of a final cumulative GPA of at least 3.0 (or its equivalent) and b) competency equivalent to that developed by taking four years of English and three years each of mathematics, natural sciences, and social studies, and an additional three units of electives chosen from English, speech, foreign languages, mathematics, natural sciences, or social studies in U.S. high schools.

A student transferring with fewer than 24 semester hours of post-secondary coursework at either U.S. or foreign institutions must a) have a cumulative GPA of at least 2.50 (or its equivalent) on all post-secondary coursework attempted, and b) meet the requirements specified for entering freshmen. A student transferring from either a U.S. or foreign post-secondary institution with at least 24 semester hours must have the
equivalent of a cumulative GPA of at least 2.50 on all post-secondary course work attempted.

A non-refundable application fee of $50 is required for all international applicants. All applications and supporting documents must be submitted by May 31 for the fall semester; October 31 for the spring semester; and March 1 for the summer sessions.

Any international student returning to the university after an absence of a full semester (fall or spring) or more must submit an application for admission. For these students, the application deadlines are August 15 for the fall term and January 1 for the spring term. It should be noted that a student previously enrolled at the University of Arkansas who takes a full term of courses elsewhere and then seeks readmission to the university returns as a transfer student and must meet university admission requirements for international transfer students, submit a photocopy of the I-20 issued by the transferring institution, and submit a new financial statement. An application fee is not required for returning students.

For specific admission requirements and application materials pertaining to students on F-1, J-1, or any non-immigrant visas, applicants should write directly to the International Admission Office, 340 N. Campus Drive, 213 Gearhart Hall, 1 University of Arkansas, Fayetteville, Arkansas 72701, or call 1-479-575-6246 or e-mail iao@uark.edu.

Please see the section Placement and Proficiency Tests (p. 57) for university policy regarding English language use by non-native speakers.

New Freshmen

Applications are reviewed on an individual basis with consideration given to the applicant’s overall grade-point average (GPA) and standardized test scores. New freshmen and those transfer students with fewer than 24 transferable credit hours should have completed or be in the process of completing the following college preparatory curriculum in high school:

16 Units Total

• **English** – 4 units

• **Mathematics** – 4 units (Units must be equivalent to or higher level than Algebra I)

• **Social Studies** – 3 units

• **Natural Sciences** – 3 units
  - 1 unit general sciences and 2 units lab sciences (Choose two courses from biology, chemistry, and physics laboratory. Two years of principles of technology will meet one unit of natural sciences [physics]. Two years of applied biology/chemistry will meet one unit of natural sciences [biology].)
  - **Others** – 2 units
  - Oral Communication – 1/2 unit
  - Physical Education – 1/2 unit
  - Health and Safety – 1/2 unit
  - Fine Art – 1/2 unit

Arkansas residents who have taken these course requirements and who have an overall high school GPA of 3.00 or better and an ACT score of 20 or an equivalent 930 SAT or 1020 Redesigned SAT score or better meet the minimum admission requirements. Out-of-state applicants must meet minimum admission requirements and may be required to meet higher standards, depending on demand. Students not meeting minimum admission requirements are still encouraged to apply and will be reviewed for possible admission by the Admissions and Appellate Board.

Accelerated Admission

Superior high school students who have completed a rigorous college preparatory curriculum may seek admission to the freshman class at the end of their junior year of high school. Applicants for accelerated admission must complete certain required subjects during three years of high school study, submit letters of recommendation, and submit an ACT or SAT score equivalent to at least the 90th percentile of the university’s previous entering class. Additional information and application materials may be obtained at the Office of Admissions, by calling 1-800-377-8632, or visiting admissions.uark.edu (http://admissions.uark.edu).

Non-Degree Seeking Students

Applicants who are not interested in working toward a degree while taking classes may, under certain conditions, be approved to do so upon submitting an application for admission. Degree-seeking students attending part-time or as an “undeclared major” should not confuse their status with this special, non-degree seeking category. Students who are admitted provisionally and placed in a non-degree seeking status until they earn a minimum 2.0 GPA on 12 credit hours should also not confuse their status with this special category. The Office of Admissions reserves the right to determine the proper category of admission and to determine what credentials may be required.

Classification as a special student permits enrollment in credit classes (or as an auditor) on a space-available basis; however, special students are not eligible for financial aid, and the university incurs no particular obligation to provide academic advisement.

Admission as a special, non-degree seeking student is not intended to serve as a means of access to regular, degree-seeking status nor is it intended for a person who has earned unsatisfactory grades in previous high school or college course work. Students who have been denied regular undergraduate admission are not eligible for this status. All special students are subject to the same regulations concerning scholastic probation, suspension, and dismissal as other undergraduate students. Students who have previously been assessed developmental course requirements or high school course deficiencies will retain that status as a special non-degree student.

Non-degree seeking students must meet course prerequisites and should be prepared to verify to the department by official documentation that university course prerequisites have been met, if appropriate. Students planning to enroll in any upper-division education courses should verify admission to the Teacher Education Program prior to registration. A non-degree seeking student may not enroll for more than nine hours of courses in a term without approval of the student’s academic dean. No more than 24 semester hours earned while in a non-degree seeking status will apply to a degree at the university.

Unless otherwise specified, students with non-degree seeking status who wish to be admitted into a degree program at the University of Arkansas must apply for admission as such prior to the beginning of the term for which the change of status is requested. All requirements for admission to regular status must then be met, except for students in the provisional non-degree-seeking status.
When to Apply

Non-degree seeking students must meet the same application deadlines as other students. See the Deadlines for Admission Consideration (p. 54) on the previous page for deadlines.

How to Apply

The following students may be considered for non-degree seeking status:

1. Visiting students who attend other colleges or universities and wish to enroll at the university to earn credits that they plan to transfer back to their home institution. It is the student’s responsibility to verify with his or her college that courses taken here will be acceptable as transfer credit.

   Application procedure: Submit a completed application, a non-refundable application fee, and a letter of good standing verifying eligibility to return to the home institution.

2. Students who want to take courses of special interest for personal or professional development but who are not interested in working toward a degree. Applicants in this category are normally expected to have been out of high school for five or more years.

   Application procedure: Submit a completed application and non-refundable application fee. Students who have been out of high school less than five years should submit a transcript and test scores verifying that admission requirements have been met.

   The application fee is not required for residents of Arkansas who are 60 years and older and wish to participate in the senior tuition waiver program (https://admissions.uark.edu/apply/seniorcitizens.php). (http://admissions.uark.edu/apply/seniorcitizens.php)

3. Students who already have a college degree and who want to take credited classes but not earn credit toward another degree at this time. Credits earned under this classification will not count toward a graduate degree.

   Application procedure: Submit a completed application and non-refundable application fee. Students who wish to enroll for successive terms should submit a transcript showing their degree.

4. Dually enrolled high school students. Dually enrolled high school students must have at least a 7 ACT score and a 3.00 high school GPA to enroll. Dually enrolled high school students are ineligible to enroll in remedial courses.

   Application procedure: Submit a completed application, a non-refundable application fee, ACT or SAT scores, a high school transcript, a letter of intent regarding courses in which the student wishes to enroll, and a letter of recommendation from the high school principal or counselor. Admissions applications should be submitted at least one month in advance of the term.

Dually enrolled high school seniors who plan to enroll in the fall as regular freshmen must submit a separate application for regular admission for the fall.

Placement and Proficiency Tests

ACT, SAT, ACT COMPASS, and College Board Accuplacer scores are used to determine placement in university courses. Students whose scores indicate the need for additional preparation may be placed in courses designed to prepare them for college-level work. (See Arkansas Requirements for Developmental Course Placement (p. 69.) Credit earned in such courses does not count toward degrees in all colleges. (See Courses That Do Not Count Toward Degrees (p. 69.)

Freshman Composition Placement

- Students who score below 19 on the English section of the ACT, below 450 on the Critical Reading section of the SAT, below 490 on the Evidence-Based Reading and Writing section of the redesigned SAT, below 80 on the Compass Writing Skills section (the test was discontinued in 2016 but scores are valid for five years), below 83 on the College Board Accuplacer Classic Sentence Skills test, or below 255 on the Accuplacer Next-Generation Writing test must enroll in ENGL 1013 and ENGL 0002.

- Students with ACT English scores of 19-27, SAT Evidence-Based Reading and Writing scores of 490-620 , ACT Compass Writing Skills scores of 80 or higher, or College Board Accuplacer Sentence Skills scores of 83 or higher should enroll in ENGL 1013 and ENGL 1023.

- Students with ACT English scores of 28-29 or SAT Evidence-Based Reading and Writing scores of 630-680 may enroll in ENGL 1013 and ENGL 1023 or in ENGL 1013H and ENGL 1023H.

- Students with ACT English scores of 30 or greater or SAT Evidence-Based Reading and Writing scores of 690 or greater may enroll in ENGL 1013H and ENGL 1023H or elect exemption. Some degree programs require credit in composition, and students should confer with their advisors before exempting.

The Math Placement Test

All students have the opportunity to take the online mathematics placement assessment, available starting in April. To take the assessment, or for more information regarding it and its requirements, visit the University of Arkansas Mathematical Sciences website (http://math.uark.edu/).

Arkansas State Requirements for Developmental Course Placement

Arkansas law specifies that all first-time entering freshmen enrolled in a bachelor’s degree program will be placed in either college-level credit courses in English and mathematics or remedial courses in English composition, reading, and mathematics on the basis of their scores on specified tests.

- Students who score below 19 on the English section of the ACT, below 450 on the Critical Reading section of the SAT, below 490 on the Evidence-Based Reading and Writing Section of the redesigned SAT, below 80 on the Compass Writing Skills section (the test was discontinued in 2016 but scores are valid for five years), below 83 on the College Board Accuplacer Classic Sentence Skills test, or below 255 on the Accuplacer Next-Generation Writing test must enroll in ENGL 1013 and ENGL 0002.

- Students who score below 19 on the Reading section of the ACT, below 470 on the Critical Reading section of the SAT, below 470 on the Evidence-Based Reading and Writing section of the redesigned SAT, below 82 on the Compass Reading section (scores are valid for five years) below 78 on the College Board Accuplacer Classic Reading Comprehension test, or below 252 on the College Board Accuplacer Next-Generation Reading test must enroll in EDHP 1012 and concurrently enroll in PLSC 2003.

- Students who score below 19 on the Mathematics section of the ACT, below 460 on the Math section of the SAT (Pre-March 2016), below 510 on the Math section of the redesigned SAT, below 41 on the Compass Algebra section (scores are valid for five years), below 42 on the College Board Accuplacer Classic College-Level Math test, or below 255 on the College Board Accuplacer Next-Generation
Qualitative Reasoning, Algebra, and Statistics (QAS) test must enroll in MATH 1203 and MATH 0002L or MATH 1313 and MATH 0131L. All new first-year freshman students are encouraged to take the online mathematics placement assessment, available starting in April. To take the assessment, or for more information regarding it and its requirements, visit the University of Arkansas Mathematical Sciences website (http://math.uark.edu/).

Students may place out of these prescribed remedial courses with appropriate scores on the relevant subject placement tests offered through the appropriate university department:

- Students may place out of ENGL 0002 by earning a score of 80 or higher on the COMPASS Writing Skills section or a score of 83 or higher on the Accuplacer Sentence Skills section, or by demonstrating college-level writing skills on a required essay administered during the first week of class. Students in ENGL 1013 who exhibit writing challenges in their first essay may be asked to enroll concurrently in ENGL 0002.
- Students who earn 80% or higher on the Pre-Algebra (PALG) section of the Math Placement Test (https://fulbright.uark.edu/departments/math/undergraduate/math_placement_test.php) may enroll in MATH 1203.

Students will be required to register for these courses during their first term at the university and, if necessary, in subsequent terms until passing grades have been earned in all required courses. Students who need further information or clarification are encouraged to discuss their course placement with their academic advisor or dean.

Courses That Do Not Count Toward a Degree

The following courses do not count toward degree credit in any college or school: ENGL 0002, ENGL 0013, MATH 0003, MATH 0001L, MATH 0002L and MATH 0131L.

The following courses do not count toward any degree in the College of Engineering: MATH 1203, MATH 1213, MATH 1284C, and ENGL 2003.

Speech Communication Exemption Examination

Students who have had speech in high school and/or experience in public speaking may elect to take this test for exemption from or credit in COMM 1313. Both the written and oral (a five-minute impromptu speech) examinations must be passed to receive exemption or credit.

World Language Placement Examinations

Students with previous world language experience in French, German, or Spanish are encouraged to take language placement examinations offered during summer orientation. Those test scores will be used by academic advisors to determine an appropriate world language placement level. Students who omit one or more course in the basic language sequence will receive credit for omitted courses when they have validated their high placement by passing the course into which they were placed with a “C” or better. Conversation courses (3033, 4033) and self-paced (correspondence) courses may not be used to validate such prior knowledge.

General Chemistry Placement Examinations

These tests will be offered throughout the year. Students who performed at above average levels in high school chemistry may find it to their advantage to enroll directly in the second semester of general chemistry. This examination is designed to provide guidance in making this course selection. Students who place into the second semester of general chemistry and earn a grade of “C” or better in the course will also receive credit for the first semester of the course.

English Language Use by Non-Native Speakers

Non-native speakers of English admitted to undergraduate study at the University of Arkansas are required to present an acceptable writing score on one of the following tests: Internet based TOEFL (iBT), IELTS PTE Academic, or ELPT. Depending on exam scores, a student may be required to take one or more English Language and Culture (ELAC) course prior to the beginning of classes in their first term of study. Non-native speakers in the following categories are exempt from this requirement:

1. Undergraduate students who transfer at least 24 hours of credit from U.S. institutions, including courses that meet the freshman composition requirement;
2. Undergraduate students who have completed grades 10 through 12 in and graduated from a U.S. high school and have obtained an ACT English section score of 19 or above or a SAT verbal score of 500 or above;
3. Undergraduate students with a TOEFL iBT writing score of 28 or IELTS writing score of 6.5 or PTE Academic writing score of 77 or ELPT writing score of 81.

Diagnostic and placement testing is designed to test students’ ability to use English effectively in an academic setting, and its purpose is to promote the success of non-native speakers in completing their chosen course of study at the University of Arkansas. Test results provide the basis for placement into English Language and Culture (ELAC) support courses or course sequences. Courses are offered by the Graduate School and International Education for those students whose language skills are diagnosed as insufficient for college-level work at the level to which they have been admitted (undergraduate or graduate study). Credit in ELAC courses may count toward University of Arkansas degrees. Non-native speakers diagnosed as having language competence sufficient for their level of study will not be required to enroll in ELAC courses.

The ELPT is administered by Testing Services during New Student Orientation, and there is a $15.00 charge.

Undergraduate and graduate students assessed ELAC courses are required to complete these courses during their first semester of enrollment at the university.

Readmission

Any former student who wishes to return to the University of Arkansas after missing a fall or spring semester should complete an application for admission. Students enrolled in University of Arkansas self-paced (correspondence) courses during their absence must be readmitted. A non-refundable application fee is required for former students.
When to Apply

An early readmission will enable a student to register during priority registration. The student should submit an application and all appropriate credentials at least one month prior to the time of registration. Registration dates and procedures are found on the Schedule of Classes (http://registrar.uark.edu/465.php).

Deadlines for Admission Consideration

Applications and required transcripts must be received in the Office of Admissions by the following deadlines to be accepted for the respective enrollment periods:

- Fall – August 1
- Spring – December 20

Students who are unable to submit their applications by the deadline may be denied admission and considered for admission for the following term.

Requirements

1. Students must be academically eligible to return to the university and are readmitted with the same academic status as held during their last attendance. Course work taken at another institution will not affect a student’s probationary status or university GPA. Students may change degree programs on re-admission to the University of Arkansas regardless of academic status, except for students entering the College of Engineering. A student who is not in good standing may not enter the College of Engineering. Students who have not satisfied their initial provisions of admission (but are still eligible to return) will be required to satisfy those conditions upon their return.

2. Students who have attended another institution while away from the University of Arkansas will be considered returning transfer students and must have either a 2.00 GPA on all college work attempted and/or a 2.00 GPA on all course work attempted since last attending the University of Arkansas. Official transcripts of all course work attempted since last attendance at the university must be submitted. (See Admission of Transfer Students.)

3. Students who previously attended or currently attend the university as special, non-degree seeking students and wish to return as degree-seeking candidates must apply for admission as freshmen or transfer students, furnishing all appropriate admission credentials, including any required test scores. All requirements for admission to regular status must be met. (See appropriate section of this catalog for requirements.)

4. Former students who are submitting petitions to either the Academic Standards Committee or the Admission and Appellate Board to request readmission must have on file all required documents by the application deadlines. (See the Academic Standards Committee Calendar (http://registrar.uark.edu/508.php) for deadlines for submitting petitions.)

School of Law

A baccalaureate degree is required for admission to the University of Arkansas School of Law, except for those students in the J. William Fulbright College of Arts and Sciences or in the Dale Bumpers College of Agricultural, Food and Life Sciences who are admitted to the special six-year program. All applicants for admission are required to take the LSAT. (See the Fulbright College Pre-Law Program (p. 201) or the Dale Bumpers College of Agricultural, Food and Life Sciences (p. 111).) For complete details concerning admission to the University of Arkansas School of Law, see the Admission page (p. 54) or write to Office of Admissions, Leflar Law Center, University of Arkansas, Fayetteville, AR 72701; or by calling 479-575-3102. Applications can be submitted online at apply.uark.edu/ (http://apply.uark.edu/).

Transfer Students

Transfer Admission Requirements

Applicants who have attended other colleges or universities after high school graduation are considered transfer students. Applicants must submit official transcripts of all previous college courses attempted, whether or not credit was earned and regardless of whether the applicant wishes to transfer any credit to the University of Arkansas. Transcripts from each institution attended should be sent directly to the Office of the Registrar. All transfer students must meet the following requirements:

1. Have a cumulative GPA of at least 2.00 on all course work attempted;
2. Be eligible to return to the last institution attended. Grade-point average is calculated on all coursework attempted.

Students who have completed fewer than 24 transferable semester hours must, in addition to the above requirements, meet all requirements for freshman admission (see Admission of Entering Freshmen (p. 56)). Test scores and transcripts are also evaluated to determine whether State of Arkansas requirements for developmental course placement have been met. (See Registration (p. 69).) For policies regarding transfer of credit from other institutions, see Academic Regulations (p. 94).
Financial Aid and Scholarships

Financial Aid
The University of Arkansas annually awards nearly $180 million of financial aid and scholarships to students. Financial aid is divided into categories of grants, work, loans, and scholarships. Unless otherwise specified, a student needs to complete only two forms to apply for federal aid: the Free Application for Federal Student Aid (FAFSA), which analyzes the ability of the student’s family to pay for college, and the university’s application for admission. These forms collect information used by the Office of Financial Aid in determining awards. In some cases, copies of the parents’ and/or student’s tax return transcripts and verification documents are needed.

The Financial Aid Office (http://finaid.uark.edu/) is part of Enrollment Services and is housed in Silas Hunt Hall, Room 114.

Scholarships
The University of Arkansas Academic Scholarship Office awards scholarships totaling more than $12 million for students each year. This total does not include funds that support external scholarships held by U of A students such as Governor’s Scholarships, Arkansas Academic Challenge Scholarships, or non-resident tuition waivers. Scholarships funded by the university fall into three broad categories: distinguished fellowships, academic scholarships, and special interest/skills scholarships. The scholarship information contained in this section applies to students entering for the 2017-18 academic year. Current high school students interested in matriculating for the 2018-19 academic year are encouraged to consult the Office of Academic Scholarships for the most up-to-date information.

The Academic Scholarship Office (http://scholarships.uark.edu/) is part of Enrollment Services and is housed in Silas Hunt Hall, Room 114.

College and Departmental Scholarships
The following college and departmental scholarships are available to both entering and currently enrolled students at the University of Arkansas. Complete addresses and phone numbers of the colleges, schools, or departments listed below may be found in the respective college or school sections of this catalog.

Fay Jones School of Architecture and Design
The Fay Jones School of Architecture and Design offers a limited number of scholarships at various amounts to entering freshman in any of the degree programs offered by the School. Several scholarships are renewable annually to the recipient who maintains all the requirements of the scholarship.

Many upper level scholarships are available to continuing students. Applications are available in the fall, and recipients are selected in the spring for the following academic year. Find out more information about the Fay Jones School's scholarship applications (http://fayjones.uark.edu/admissions/).

J. William Fulbright College of Arts and Sciences
The J. William Fulbright College of Arts and Sciences offers many outstanding scholarship opportunities. For comprehensive information about these awards, call 479-575-5219 or visit the Fulbright College’s scholarships page (http://fulbright.uark.edu/deans-office/offices-and-services/scholarships-and-fellowships/).

Three college-wide scholarships merit special attention: Through the Sturgis Fellowship Program, Fulbright College offers premier scholarships worth $70,000 over four years to exceptionally talented students with the intellectual potential to become future leaders in society. In addition, all honors students are eligible to apply for research and study abroad funding through the Sturgis Grants Program. For information or an application, contact the Director of Honors Studies at 479-575-2509.

The King Fahd Center for Middle East and Islamic Studies offers substantial four-year and two-year renewable scholarships to superior students majoring in Middle East Studies. The program also offers competitive funding for language study in Morocco, Tunisia, and Egypt. Funding for summer study abroad and research projects is considered on a case-by-case basis. Scholarship applications and information about the program can be obtained by contacting mest@uark.edu or calling 479-575-4157.

In honor of the Fulbright commitment to international education, the college offers the J.W. and Elizabeth W. Fulbright Endowed Scholarship, which supports a year of study abroad. To qualify, students must display an interest in one of the following fields: literature, history (including theatre, art, and music history), jurisprudence, philosophy, archaeology, comparative languages, and those aspects of the social sciences that employ philosophical or historical approaches. For more information about these opportunities, call 479-575-5219 or visit the Fulbright College’s scholarships page (http://fulbright.uark.edu/deans-office/offices-and-services/scholarships-and-fellowships/).

Dale Bumpers College of Agricultural, Food and Life Sciences
Scholarships for students seeking rewarding careers involving food, family, or the environment are made possible by generous gifts from many firms and individuals. The criteria for these scholarships include academics, financial need, interests, organizational involvement, and leadership. Bumpers College scholarships include the Division of Agriculture Land Grant Scholars Endowment Program which offers renewable scholarships to high achieving students; The Dale Bumpers Distinguished Scholars Program which provides an annual scholarship to an outstanding transfer student, an outstanding Ph.D. graduate student, and an outstanding M.S. graduate student; and International Study Abroad scholarships for students expanding their experiences around the world.

Information and application procedures for the more than 200 Bumpers College and departmental scholarships are available at the Bumpers College scholarship page (http://bumperscollege.uark.edu/academics/scholarships-and-financial-aid/) or by contacting the Associate Director of Scholarship at 479-575-2252, or via email to dbcafls@uark.edu.

Sam M. Walton College of Business
The Boyer Fellowship is offered to Walton College students who have achieved at an outstanding level both in and out of the classroom. High grades and standardized test scores are required along with a strong
academic curriculum and exceptional academic performance. Applicants for the Boyer Fellowship also must demonstrate financial need, be an Arkansas resident, and graduate from an Arkansas high school.

Other scholarships are available through the departments of accounting, information systems, economics, finance, management, marketing, and supply chain management, as well as through the Walton College’s general scholarship program. Scholarships are primarily awarded on the basis of academic achievement and/or financial need.

For further information on Walton College scholarships, contact the Undergraduate Programs Office at 479-575-4622.

College of Education and Health Professions

Thanks to the generosity of our donors, the College of Education and Health Professions offers several scholarship opportunities. These gifts allow us to support the university’s mission of recruiting and retaining high-achieving students who enrich and diversify the academic environment. Scholarships are available for both graduate and undergraduate students. Please visit the College’s scholarship webpage (https://coehp.uark.edu/for-students/scholarships/) for more information.

College of Engineering

The College of Engineering awards numerous scholarships and fellowships beginning with the sophomore year to continuing students, transfer students, and graduate students. Most scholarships are based primarily on academic performance. However, some scholarships are also awarded on the basis of financial need and diversity. Scholarships are available from both the college and its individual departments.

College scholarships are available to any engineering student while departmental scholarships are intended for students enrolled in a particular discipline of engineering. Students must be admitted to the University of Arkansas and accepted into the College of Engineering to qualify and receive either a college or departmental scholarship. The college has a one-step application process that allows students to be considered for all college level scholarships and departmental scholarships.

For more information concerning scholarship and diversity opportunities, please see the college’s scholarship website (http://engineering.uark.edu/academics/scholarships-and-financial-aid.php).

Music and Band

The Department of Music offers scholarships (both music scholarships and band scholarships) for talented students who sing or play instruments. All scholarships are based on musical ability, academic achievement, and potential contribution to music department ensembles. Scholarships are renewable for up to five years (ten semesters), as long as the student meets the conditions specified on the scholarship letter or contract.

Music and band scholarships are available to music majors and to students majoring in other areas who participate in certain ensembles. All scholarships require an audition. To set up an audition, contact the music department at 479-575-4701 or the band office at 479-575-4100.

Financial Aid

The University of Arkansas annually awards nearly $180 million of financial aid and scholarships to students. Financial aid is divided into categories of grants, work, loans, and scholarships. Students need to complete the Free Application for Federal Student Aid (FAFSA), which analyzes the ability of the student’s family to pay for college, as well as the various scholarship applications offered through the Academic Scholarship Office, the university’s colleges and departments, and the Arkansas Alumni Association. These forms collect information used by the Office of Financial Aid and the university’s scholarship committees in determining awards. In some cases, copies of the parents’ and/or student’s tax return transcripts and other verification documents are needed.

Determining Financial Need

To determine financial need, a student must complete the FAFSA. Students release their information to the University of Arkansas by completing the college release section with the University of Arkansas Title IV Code of 001108.

There is a priority date of March 1 for the submission of the FAFSA for the approaching school year for new students. Federally funded financial aid will be awarded on the basis of need as reflected by the FAFSA.

The Student Aid Report from the FAFSA (consisting of several pages) will be sent directly to the student by the Central Processing Service. A student needs to be enrolled or accepted for enrollment before a financial aid award may be generated. To continue receiving financial aid, the student needs to make satisfactory progress toward a degree, as defined by the University of Arkansas, and complete the FAFSA each year. (See Satisfactory Academic Progress below.)

Application Procedure

1. Apply for admission to the university, if not currently enrolled or admitted.
2. Complete the Free Application for Federal Student Aid (FAFSA) and submit it to the federal processor by mail or online. You may submit the FAFSA at the Federal Student Aid website (http://www.fafsa.ed.gov/).

To receive priority consideration for financial aid, all forms and applications need to be submitted by March 1. Students are encouraged to apply even if they miss this priority date. Funds will be available after the priority date.

A student has a couple of choices concerning processing his or her FAFSA. These include mailing the form to the Federal Student Aid Programs or submitting it electronically on the Federal Student Aid website (http://www.FAFSA.ed.gov/). The processing time for electronic applications is three days, and processing time for mailed applications is four to six weeks.

Satisfactory Academic Progress (SAP)

Federal regulation requires that a student must be making satisfactory academic progress regardless of whether he or she has previously received Title IV aid. All students enrolled at the University of Arkansas who receive financial aid through the Title IV Assistance Programs must meet satisfactory academic progress requirements as defined below to be eligible for further aid. Satisfactory academic progress is deemed to have been made by any undergraduate student who meets both the quantitative and qualitative requirements indicated below.
Quantitative Requirements
There are two quantitative requirements that the student must meet in order to remain eligible to apply for federal financial assistance. First, the student must pass, at a minimum, 67% of the credits attempted while attending the university. For the purpose of the 67% rule, grades of 'W' and 'I' are not considered passing grades and the completion percentage is truncated after the first decimal place and rounded to the nearest whole number. In addition, the student will remain eligible to apply for aid as long as the number of credits required for the student’s published degree plan.

A transfer student may have earned credits at another school that will count toward his or her degree at the University of Arkansas. Class credits transferred to the University of Arkansas and classes taken for remediation at the University of Arkansas are used in both the 67% and 150% calculation.

The determination of each student’s meeting the quantitative requirements for satisfactory academic progress will be made annually following the conclusion of the spring semester. If a student fails to pass at least 67% of the credits attempted or has attempted more than 150% of the number of credits required for graduation, then the student must appeal for reinstatement of financial aid eligibility.

Qualitative Requirements
A student is deemed to have met the qualitative requirements for satisfactory academic progress for financial aid purposes provided the student's cumulative GPA is 2.0 or greater. By default, students who do not have any university credit will pass the qualitative requirement. The determination of each student’s meeting the qualitative requirement for satisfactory academic progress will be made annually following the conclusion of the spring semester.

Additional Information About SAP Calculations
Dual majors and degrees are calculated at 150% of the total unit requirements of the primary plan. Changing of major will mean future SAP calculations will use the new primary plan or degree but all previous completed and attempted hours will still be used in SAP calculations. All transfer hours will be added into calculations as completed and attempted. Once an undergraduate degree is earned, students are only eligible for direct loans whether the degree is indicated by graduation or not. For second degrees, the calculation will monitor progress from the date of the previous degree (excluding technical certificates and associate degrees).

Graduate and Law Students
Satisfactory academic progress for graduate and law students is determined as described above with one exception. In order to meet the quantitative requirement that students pass at least 67% of credits attempted, graduate and law students must pass each course with a grade of C or better while attending the university at the graduate level.

Satisfactory Academic Policy Appeals
When a student loses federal aid eligibility because they failed to make satisfactory progress, they may appeal that result because of their injury or illness, the death of a relative, or other special circumstances. Their appeal must explain why they failed to make satisfactory progress and what has changed in their situation that will allow them to make satisfactory progress at the next evaluation. The only way to regain aid eligibility without a successful SAP appeal is by meeting the SAP criteria above.

Students who fail to meet the above requirements will be notified that their financial aid has been denied. Each student denied aid will automatically be given an option to appeal to the Student Aid Committee. The Committee will review each appeal on an individual basis to determine whether there are circumstances beyond the student’s control that prevented him or her from maintaining satisfactory progress. The decision of the Committee is final in appeal matters.

Scholarships
The Academic Scholarship Office is a part of Enrollment Services and is housed in Silas Hunt Hall, Room 114.

The Academic Scholarship Office awards over 4,000 scholarships totaling more than $12 million for students each year. This total does not include funds that support external scholarships held by UA students such as Governor’s Scholarships, Arkansas Academic Challenge Scholarships, or non-resident tuition waivers. Scholarships funded by the university fall into three broad categories: prestigious fellowships, academic scholarships, and special interest/skills scholarships. The scholarship information contained here applies to students entering for the 2016-17 academic year. Current high school students interested in matriculating for the 2017-18 academic year are encouraged to consult the Academic Scholarships Office website at Academic Scholarship Office website (http://scholarships.uark.edu) for the most up-to-date information.

Scholarships for New Students

Prestigious Fellowships
The University of Arkansas offers approximately 90 prestigious fellowships per year. The fellowships are given in one of four different programs: Honors College Fellowships, established in 2002; Bodenhamer Fellowships, established in 1998; Sturgis Fellowships, established in 1985; and Boyer Fellowships, established in 2000. The prestigious fellowships are among the most competitive in the nation and are awarded to the top 2 percent of students. U of A Fellowships are awarded competitively. Students who wish to apply should visit the Honors College website (http://honorscollege.uark.edu/).

Cumulative 3.00 GPA and 30 hours earned by the end of the second semester of each academic year. Renewable for 4 years or 8 semesters total. (For programs with degree plans longer than 4 years, extra semester(s) of funding may be available.)
Academic Scholarships

A number of academic scholarships also are awarded to entering freshmen. Selection criteria include national test scores (ACT or SAT), grade-point average, National Merit or National Achievement recognition, quality and quantity of courses taken, application materials, and other pertinent factors. For online information, go to scholarships.uark.edu. Transfer student scholarships are awarded to students transferring from two-year colleges in Arkansas in conjunction with the Arkansas Association of Two Year Colleges’ (AATYC) Academic All-Star program. Nominations are submitted to the AATYC and recognized at their annual conference. Additional transfer student scholarships are also available. See scholarships.uark.edu.

**UA Scholarships – General Information**

The following regulations govern the general university freshman scholarships described below:

1. **November 15** is the priority scholarship deadline for entering freshmen. Applicants must apply to the university by November 1 to be considered for these scholarships.

2. An “entering freshman” is defined as a student who has not enrolled in another post-secondary institution in a fall or spring semester following graduation from high school.

3. Eligibility for renewal of the Chancellor’s Scholarship and general university scholarships is determined at the end of the second semester each award year. Students may “catch up” in summer terms by taking classes at their own expense on the Fayetteville campus.

4. These scholarships are generally awarded per academic year to cover the fall and spring terms, up to an eight-semester maximum for most students, or a ten-semester maximum for students in the Bachelor of Architecture, Bachelor of Landscape Architecture and the Master of Arts in Teaching programs, each of which is a five-year program. Renewal criteria are evaluated every two semesters.

**Special Scholarships and Conditions**

**ACT 1185**

Arkansas income taxpayers who earn a minimum of $5,500 in wages and, with their dependents, reside in a bordering state in a county or parish contiguous to an Arkansas county in which a public institution of higher education is located may enroll at the University of Arkansas and receive the non-resident tuition award under the provisions of ACT 1185 of 1995, Section 34. The availability of funds may vary each year, and the students must provide certain documentation. Please contact the Academic Scholarship Office at 479-575-4464 for more information.

**Arkansas Alumni Association Scholarships**

The Arkansas Alumni Association, through its members, donors, chapters, and societies, sponsors five scholarship and grant programs. See brief information in the chart below. For information on the association’s scholarship program, visit the Arkansas Alumni Association website (http://www.arkansasalumni.org/s/1429/start.aspx).

Razorback Generations Scholarship

$2,500 per year for four years

Arkansas finalists from the Alumni Association Endowed Scholarship with a family connection to the University of Arkansas, Fayetteville. Applications from the Alumni Endowed Scholarship will be considered.

Criteria same as for Alumni Endowed Scholarship (see above).

Alumni Chapter and Society Scholarships

Variable amount based on chapter funds.

Minimum GPA of 3.50 and 24 ACT. Considered from both the Alumni Scholarship application and private chapter/society applications.

Varies

Alumni Legacy Scholarship

Partial out-of-state tuition differential. Variable amount based on hours enrolled.

Non-resident students must have a qualifying family member who is a U of A graduate and member of the Alumni Association.

Complete the Alumni Legacy Scholarship Application.

Renewable with completion of 24 hours per academic year, 2.75 minimum GPA. Up to 4 years (5 years for students in Architecture or the Master of Arts in Teaching program).

Air Force and Army ROTC

The Air Force and Army Reserve Officers' Training Corps programs offer a number of scholarship opportunities for entering freshmen and on-campus students. See the Reserve Officers' Training Corps section of this catalog for detailed information.

Military Benefits

The University of Arkansas is approved by the Arkansas Department of Higher Education and the U.S. Department of Veterans Affairs to participate in military educational benefit programs for veterans, current military members, reservists, national guard, and dependents of veterans who are working toward a degree. For more information regarding programs and eligibility please contact the university's Veterans Resources and Information Center (VRIC) at 479-575-8742 or http://veteranscenter.uark.edu.

Military Student Scholarships

The University of Arkansas provides three different scholarships to current and former military service members and the dependents of service members. The military service member scholarship provides 35 one-year scholarships in the amount of $4,000 to support current and former service members. The military dependents scholarship provides 10 one-year scholarships in the amount of $1,500 to support dependents of service members. The military book scholarship provides 10 one-semester scholarships (each fall and spring semester) in the amount of $500 to support service members and dependents with book expenses. Students should contact the Academic Scholarship Office at 479-575-4464 or http://scholarships.uark.edu for further information.
Registration

Undergraduate students, including students not declaring a major, must enroll in one of six academic units: the J. William Fulbright College of Arts and Sciences; the Dale Bumpers College of Agricultural, Food and Life Sciences, the Sam M. Walton College of Business, the College of Education and Health Professions, the College of Engineering, or the Fay Jones School of Architecture and Design. Information regarding registration periods and procedures is found on the Registrar’s website (http://registrar.uark.edu/).

Registration Periods

Students must register during one of the formal registration periods. Currently enrolled students are expected to register during the priority registration held each semester for the following semester. New freshmen are expected to register during orientation. New freshmen not already registered during orientation should register during the open registration period that immediately precedes the beginning of classes each semester. New transfer students should contact their academic college for advising and registration information. There is a late registration period of five days at the beginning of fall and spring semesters, a one-day late registration period at the beginning of intersessions and a one- or two-day late registration period at the beginning of the summer sessions, but students may find that many classes are filled.

Student Addresses

It is the responsibility of all students to maintain and correct their addresses with the university and to report any change of address promptly either in writing to the Office of the Registrar or on the Student Information System (http://sis.uark.edu/). Failure to do so may result in undelivered official correspondence and announcements. Emergency contact information is also required.

Identification Cards

Identification cards are made at orientation and at the ID Card Office during the year. Several privileges on campus require an ID card, and it can be used as a debit card for purchases at various locations throughout the campus. Part-time students are also eligible for a card.

Academic Advising

Academic advising is an active, ongoing exchange between the advisers and students, grounded in teaching and learning. Advising is based on students gaining accurate and appropriate information and direction to help make their educational experience relevant, coherent, and meaningful. It is a process that assists students in connecting with the University of Arkansas, making thoughtful decisions related to their academic experiences, and maximizing their educational and career opportunities. Quality academic advising is essential to achieving the university’s vision. (Academic Advising Council Mission Statement, 2010)

While procedures may vary among schools and colleges, all successful academic advising should include the following:

• A mutual respect between adviser and student with the student possessing final responsibility for successful completion of a degree.

• Respect for students’ ethnic and racial heritage, age, gender, culture, national origin, sexual orientation, and religion, as well as their physical, learning, and psychological abilities.

• A developmental and educational process that occurs over time.

• Consideration of individuals’ interests, abilities, and needs.

• A collaborative effort to connect students to campus resources and services.

• Reasonable availability and accessibility to advisers.

• Interpretation of University of Arkansas, college, and departmental rules and courses.

• A student’s understanding of the purpose and nature of the university core courses.

• Recommendation of appropriate courses.

• A student’s understanding of and progress toward academic requirements.

• General information regarding career options and opportunities, with appropriate referrals as necessary.

• An understanding of and adherence to laws and regulations that relate to academic advising.

• Adherence to the highest principles of ethical behavior.

The University of Arkansas is committed to developing each student to his or her fullest potential. To this end, programs in each college have been established to improve the academic achievement and persistence of students on academic warning and of other students in need of academic assistance. Such assistance is provided through a variety of instructional and informational services.

Courses That Do Not Count toward a Degree

The following courses do not count toward degree credit in any college or school: ENGL 0002 Basic Writing, ENGL 0013 Reading Strategies for College Students, MATH 0003, MATH 0001L, College Algebra Laboratory I, MATH 0002L College Algebra Laboratory II and MATH 0131L Quantitative Reasoning Laboratory.

The following courses do not count toward any degree in the College of Engineering: MATH 1203 College Algebra (ACTS Equivalency = MATH 1103), MATH 1213 Plane Trigonometry (ACTS Equivalency = MATH 1203), MATH 1284C Precalculus Mathematics (ACTS Equivalency = MATH 1305), and ENGL 2003 Advanced Composition.

Adding and Dropping Courses

A currently enrolled student who has registered during the advance registration period should make any necessary or desired schedule adjustments such as adding or dropping courses or changing course sections during the schedule-adjustment period of the same semester. Students may add courses during the first five class days of a fall or spring semester. Students who drop classes will have their fees adjusted according to Fayetteville Policies and Procedures 330.0 – Tuition and Fee Adjustment Policy for Dropping Classes (https://vcfa.uark.edu/policies/fayetteville/avcf/3300.php). Drops and withdrawals are two different functions. In a drop process, the student remains enrolled. The result of the withdrawal process is that the student is no longer enrolled for the term. Fee adjustment deadlines for an official withdrawal are noted in Fayetteville Policies and Procedures 518.0 – Tuition and Fee Adjustment Policy for Official Withdrawal (https://vcfa.uark.edu/policies/fayetteville/avcf/5180.php).
A student may drop a full-semester course during the first 10 class days of a fall or spring semester without having the drop shown on the official academic record. After the first 10 class days, and before the drop deadline of the semester, a student may drop a course, but a mark of “W,” indicating the drop, will be recorded. A student may not drop a full-semester course after the Friday of the thirteenth week of classes in a fall or spring semester. Drop-add deadlines for partial semesters, intersessions, and summer sessions are listed on the semester calendars located on the Office of the Registrar’s website (http://registrar.uark.edu/).

Audit Registration

Students wishing to audit a class should contact the instructor teaching that class and request permission to audit. If the instructor approves the audit, the academic department will register the student in that class as an audit. Auditing of a class is allowed on a space-available basis, and a student must pay fees for that class. The instructor shall notify the student of the requirements for receiving the mark of “AU” for the course being audited. The instructor and the student’s dean may drop a student from a course being audited if the student is not satisfying the requirements specified by the instructor. The student is to be notified if this action is taken. The only grade or mark that may be awarded is “AU.”

Enrollment Status and Course Load

The enrollment status of undergraduate students is based on the number of hours enrolled in a term. The university recognizes full-time status as carrying a minimum of 12 semester hours in a regular (fall and spring) and summer term. Students should be aware that the minimum number of hours is insufficient for completion of a four-year degree program in eight academic semesters (four years). Since most university degree programs require a minimum of 120 semester hours, or 30 hours per year, a student should earn 15 hours per semester to complete most degree programs in four years (eight semesters). The university offers degree-completion plans; see the Office of the Registrar’s website (http://registrar.uark.edu/425.php) or the Academic Regulations (p. 87) section of this catalog.

The chart below shows the enrollment status for each term, based on the number of hours enrolled.

<table>

Online Credit Hours for On-Campus Undergraduate Students

Any student pursuing an on-campus (face-to-face) undergraduate degree from the University of Arkansas may take up to 35 percent of the total credit hours required to complete the degree, of regular online (semester/summer) and self-paced online (correspondence) courses for degree credit.

- A freshman (first 30 hours) may take no more than two courses (8 hours) online.
- No student can enroll in more than 12 hours of online courses in any given semester.
- For students that have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular (semester/summer) online and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for.
- Exemption from this policy may apply for students in their last semester. All exemption requests must be signed by the department chair and Dean’s office that oversee the degree program the student is pursuing.
- All online courses must include the course limits in the class notes presented to students when they register on UAConnect. For instance, the class notes for each class section should include:

> “Students pursuing an on-campus (face-to-face) undergraduate degree at the University of Arkansas have the following credit-hour restrictions for online and self-paced courses:

- "Only 35 percent of the total credit hours required to complete the degree can be obtained through online and self-paced course"
- "A freshman (fewer than 30 credit hours earned) may take no more than two online and self-paced courses (8 credit hours)"
- "No student can enroll in more than 12 online and self-paced hours in any given semester"
- "For students that have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular (semester/summer) online and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for."

Number of Hours Allowed per Semester

The number of hours in which a student is allowed to register includes self-paced (correspondence) courses taken through Global Campus, School of Continuing Education and Academic Outreach.

1. Undergraduate students who wish to enroll in more than 18 hours in a regular term must be approved by their academic dean's office. Enrollment in an intersession is limited to a maximum of one lecture or lab course, with the exception of co-requisite courses, for a maximum of four hours.

2. Undergraduate students who wish to enroll in more than 21 hours in a regular term must get a recommendation from their academic dean’s office and be approved by the Academic Standards Committee.
complete the degree after transfer credits are accounted for.
• “Other restrictions may apply due to federal financial aid policies.”

* For students on financial aid, no more than 6 of these 12 credit hours can come from self-paced online (correspondence) courses. Other financial aid regulations and policies may be applicable on a case by case basis.

‡ International students enrolled full-time are limited to 3 credit hours of online courses per academic term due to federal policies.

Pass Fail
Registration for Grades of Pass-Fail for Undergraduates

Undergraduate students in some programs may register to take certain courses on a pass-fail basis. In such cases, a mark of “P” (passed) or a grade of “F” (failed) will be recorded. The grade will remain either “P” or “F” and may not be changed at a later date.

Students in the J. William Fulbright College of Arts and Sciences, the Fay Jones School of Architecture, and the Dale Bumpers College of Agricultural, Food and Life Sciences are eligible to enroll for certain courses on a pass-fail basis under the following conditions:

1. Students should contact the instructor teaching that class and request permission to enroll for a pass-fail grade. Instructors may deny this request when it is not consistent with course goals or methods (e.g., if there is significant group work or other types of collaboration by students). If the instructor approves, students should then seek approval from their adviser. (Students in Agricultural, Food and Life Sciences must also have the approval of their academic dean.)

2. That the student has attained sophomore rank or higher.

3. That the student is not on academic probation and has achieved a cumulative grade-point average of at least 2.00.

4. That such enrollment is limited to one course per semester.

5. That the total enrollment on a pass-fail basis be limited to no more than 18 hours in any student’s degree program.

6. That the courses involved are general electives and are not required as part of the student’s program, including major, minor, concentration, etc., or State Minimum Core requirements. Courses being used to fulfill any specific program requirement or to complete a State Minimum Core requirement are excluded from the pass/fail grading option and must be taken as a regularly graded course.

7. Registration for pass-fail credit must be completed prior to the final date for changing registration by adding a course.

Instructors can submit only a “P” or “F” grade on the final grade roster for a student approved for the pass-fail option. In order to receive a “P” the student must earn a grade of “C-minus” or above in the course. The “P” mark will not be counted in grade point average but will increment hours earned; the “F” grade will be counted in the grade point average.

Students in the College of Education and Health Professions may enroll in courses on a pass-fail basis under the same conditions but only in courses offered by the Fulbright College of Arts and Sciences or the College of Education and Health Professions. Walton College of Business and College of Engineering students may not take courses on a pass-fail basis.

Student Classification

Definitions of undergraduate student classification are as follows:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Course Hours Passed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>Less than 30 hours</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30 or more hours but less than 60</td>
</tr>
<tr>
<td>Junior</td>
<td>60 or more hours but less than 90</td>
</tr>
<tr>
<td>Senior</td>
<td>90 or more hours</td>
</tr>
</tbody>
</table>

Withdrawal from the University

Withdrawing from the University of Arkansas means withdrawing from all classes that have not been completed up to that time. A student who leaves the university voluntarily before the end of the fall or spring semester must withdraw from all classes on the student registration system or notify the Office of the Registrar in writing. Withdrawal may occur anytime during the semester through the last day of classes. Withdrawal deadlines for summer sessions are listed on the semester calendars located on the Office of the Registrar’s website (http://registrar.uark.edu/). Students who do not withdraw officially from a class they fail to complete will receive an “F” in that class. Students with holds on their registration should contact the Office of the Registrar for assistance in processing their official withdrawal from the university.

A currently enrolled student who has registered during the advance registration period should make any necessary or desired schedule adjustments such as adding or dropping courses or changing course sections during the schedule-adjustment period of the same semester. Students who drop classes will have their fees adjusted according to Fayetteville Policies and Procedures 330.0 – Tuition and Fee Adjustment Policy for Dropping Classes (https://vcf.uark.edu/policies/fayetteville/avcf/3300.php). Drops and withdrawals are two different functions. In a drop process, the student remains enrolled. The result of the withdrawal process is that the student is no longer enrolled for the term. Fee adjustment deadlines for an official withdrawal are noted in Fayetteville Policies and Procedures 518.0 – Tuition and Fee Adjustment Policy for Official Withdrawal (https://vcf.uark.edu/policies/fayetteville/avcf/5180.php).
Educational expenses will vary according to a student’s course of study, personal needs, and place of residence. Student progress or general course of action in pursuit of higher education at the University of Arkansas is determined during the application and acceptance process. At the conclusion of the application and acceptance process, the progress or general course of action for each student will be assigned a category, called a career.

The career categories at the University of Arkansas — in order of magnitude by the cost of tuition per credit hour — are Agricultural & Food Law, Law, Graduate, and Undergraduate. Students concurrently enrolled in multiple careers will be assigned one primary career for all tuition billing purposes, called a billing career, based on the order of magnitude listed above. The Office of the Registrar is responsible for assigning the appropriate billing career. Students pursing an Undergraduate career will also be classified by undergraduate program. The undergraduate programs of College of Education and Health Professions’ plan of Nursing and the Fay Jones School of Architecture and Design’s undergraduate program of Architecture have specific tuition rates, while all other undergraduate programs are the Undergraduate tuition rate. Similar to career, although a student may be concurrently enrolled in multiple undergraduate programs, the Office of the Registrar will assign each student only one primary undergraduate program for tuition billing purposes based on the order of magnitude by the cost of tuition per credit hour. All fees, charges, and costs quoted in this catalog are subject to change without notice. A survey tool for tuition and fee estimation is available at the Treasurer's website (http://treasurer.uark.edu/Tuition.asp?pagestate=Estimate/).

Financial obligations to the University of Arkansas must be satisfied by the established deadlines. Payment may be made at the University Cashier’s Office in the Arkansas Union, Room 214, by cash, personal check, money order or certified check. E-check (electronic check) and credit/debit payments are made online on UAConnect (http://uacconnect.uark.edu). If you pay with a debit or credit card, there is a convenience fee charged of 1.8 percent.

Acceptance of payment for fees does not imply academic acceptance to the university.

Estimated Expenses

Estimated Necessary Expenses for an Academic Year

Estimates of necessary expenses listed below are for the 2019-20 academic year for a typical undergraduate student taking 30 credit hours per academic year at the University of Arkansas:

<table>
<thead>
<tr>
<th>Name</th>

</tr>
</tbody>
</table>

** The standard undergraduate in-state tuition rate is $252.28 per credit hour. Students enrolled in College of Business courses are charged $335.53 per credit hour in-state tuition. Students in the School of Architecture and Design are charged $277.43 per credit hour in-state tuition. Students enrolled in College of Engineering courses are charged $295.17 per credit hour in-state tuition. Nursing students are charged $298.22 per credit hour in-state tuition.

University fees per year include the following student-initiated and student-approved fees:
- Student Activity fee calculated at $2.71/credit hour — $81.30
- Student Health fee, calculated at $7.25/credit hour — $217.50
- Media fee, calculated at $0.90/credit hour — $27.00
- Transit fee, calculated at $3.09/credit hour — $92.70
- Network Infrastructure and Data Systems fee at $10.78/credit hour — $335.53
- Facilities Fee, calculated at $18.85/credit hour — $555.50
- College of Arts and Sciences Fee at $14.06/credit hour — $421.80
- Library Fee, calculated at $2.91/credit hour — $87.30

* Weighted average expenses for living in a residence hall, double occupancy, with an unlimited meal plan. Actual room and board fees vary.

** Budget amounts were adjusted for rounding to accommodate UAConnect budgetary rules.

When paying tuition, room and board, and associated fees, anticipated financial aid for a current semester may be deducted when it is listed as anticipated aid on the student's account. Students receiving financial aid are strongly encouraged to have sufficient personal funds available to purchase books and to meet necessary expenses for at least one month at the start of school as some aid funds may not be available for disbursement.

The latest information regarding costs and other aspects of university life may be obtained by calling or writing the Office of Admissions, 200 Hunt Hall, University of Arkansas, Fayetteville, AR 72701. In Arkansas call 1-800-377-8632; from outside of Arkansas call 479-575-5346.

Fee Adjustments

A currently enrolled student who has registered during the advance registration period should make any necessary or desired schedule adjustments such as adding or dropping courses or changing course sections during the schedule-adjustment period of the same semester. Students who drop classes will have their fees adjusted according to Fayetteville Policies and Procedures 330.0 – Tuition and Fee Adjustment Policy for Dropping Classes (https://vcfa.uark.edu/policies/fayetteville/avcf/3300.php). Drops and withdrawals are two different functions. In a drop process, the student remains enrolled. The result of the withdrawal process is that the student is no longer enrolled for the term. Fee adjustment deadlines for an official withdrawal are noted in Fayetteville Policies and Procedures 518.0 – Tuition and Fee Adjustment Policy for Official Withdrawal (https://vcfa.uark.edu/policies/fayetteville/avcf/5180.php).

Student Invoices

Students who pre-register for a semester will be invoiced approximately six weeks prior to the first day of classes. The Treasurer's Office will send out an email notification when the student invoices are...
available on UAConnect. Students should log into UAConnect (http://uacommunity.uark.edu), navigate to the Treasurer's Office tile, and click the 'Student Invoice' link.

Late Fees
Students are required to pay all charges by the posted payment deadline. Students who fail to pay all charges or who fail to execute an installment payment plan by the deadline may be assessed a late payment fee equal to the outstanding balance, not to exceed $75.00.

Any student with an outstanding balance, to include registration-related fees and/or housing charges, by the last payment deadline will be assessed an additional late payment fee equal to the outstanding balance, not to exceed $75.00.

The late fee will not be waived because an invoice was not received.

Disbursement of Refunds
Disbursement of refunds due to overpayments by scholarships, loans, and/or grants will begin approximately five days prior to the start of classes.

The University of Arkansas has partnered with BankMobile to deliver financial aid and other school refunds to the University of Arkansas students. For more information visit the BankMobile refund page (http://bankmobiledisbursements.com/refundchoicessso/).

Addresses
Students may create a check address, which will be used specifically for overpayment checks. This address may be created in addition to the local and permanent addresses. If a check address is not created, the default address will be the permanent address. The student may change their address in the Student Center section of UAConnect (https://uacommunity.uark.edu/).

Military Service
Students Called into Active Military Service
When a student or student's spouse is activated for full-time military service and is required to cease attending the University of Arkansas without completing and receiving a grade in one or more courses, they shall receive compensation for the resulting monetary loss as provided by Fayetteville Policy 504.2. The student must cease attendance because 1) the student is activated or deployed by the military or 2) the student's spouse is activated or deployed by the military and the student or student's spouse has dependent children residing in the household.

To be eligible for the compensation, the student must provide, prior to activation or deployment for military service, an original or official copy of the military activation or deployment orders to the university's Veterans Resource and Information Center. A student whose spouse is a service member shall provide proof of registration with the Defense Enrollment Eligibility Reporting System (DEERS) of the Department of the Defense that establishes that dependent children reside in the household of the student and the service member.

Upon leaving the University of Arkansas because of active duty or deployment, the student may choose one of three compensatory options. The student may officially withdraw and receive full adjustment and refund of tuition and non-consumable fees for the term involved; the student can remain enrolled and arrange for a mark of "incomplete" for each class and finish the courses 12 months after deactivation; or the student may receive free tuition and fees for one semester after deactivation. For more detailed information, read Fayetteville Policy 504.2 (http://vcfa.uark.edu/policies/fayetteville/avcf/5042.php).

Other General Fees
Checks tendered to the university are deposited immediately. The university does not accept postdated checks. Checks returned for “insufficient funds” (NSF checks) are generally presented for payment only once. Each check returned by a bank for any reason will be assessed a returned check fee. The university may, at its discretion, verify available bank funds for any checks written for payment of indebtedness before accepting a check.

The University of Arkansas reserves the right to withhold transcripts or priority registration privileges, to refuse registration, and to withhold diplomas for students or former students who have not fulfilled their financial obligations to the university. These services may also be denied students or former students who fail to comply with the rules governing the audit of student organization accounts or to return property entrusted to them.

Requests for exceptions to university’s fees, charges, and refund policies must be made in writing. Instructions for submitting requests for exceptions to the various fees, charges, and refund policies of the university may be obtained as follows:

- For residence life and dining services fees, charges, and refund policies contact University Housing Assistant Director for Business, housing@uark.edu (%20housing@uark.edu) or (479) 575-3951.
- For parking services fees, charges, and refund policies contact: Parking and Transit, Administrative Services Building, 155 Razorback Road, (479) 575-3507.
- For other fees, charges, and refunds, contact the Treasurer’s Office, 214 Arkansas Union, Attention: Treasurer, (479) 575-5651.

Students receiving financial aid are strongly encouraged to have sufficient personal funds available to purchase books and to meet necessary expenses for at least one month at the start of school as some aid funds may not be available for disbursement.

Students are allowed to have automobiles at the university, although parking is quite limited. There is a parking permit and registration fee for each vehicle, varying in cost depending upon the parking option selected.

Resident Status
Student Residence Status for Tuition and Fee Purposes
Board Policy 520.8 (January 18, 1985, revised)

Determination of Residence Status
1. Purpose
   The purpose of these regulations is to enable the administrative officers of the University of Arkansas to classify students for the purpose of paying student fees, as either “in-state” or “out-of-state,” so as to accord fairness and equity to the students of the university and to the public that provides support for the educational services provided by the university.

2. Initial Classifications
   a. A student shall be admitted to the university in an “in-state” or “out-of-state” status for university fee purposes, as established under these regulations. Except as otherwise provided under these regulations, a student classified as “in-state” for university fee purposes at the time of admission must have established a bona fide domicile in Arkansas and must have resided continuously in this state in that bona fide domiciliary status for at least six consecutive months prior to the beginning of the term or semester for which fees are paid.
   b. A bona fide domicile is a home of apparent true, fixed, and permanent nature, a place of actual residing for all purposes of living that may be distinguished from a temporary sojourn in this state as a student. The person claiming domicile in Arkansas must provide evidence of permanent connection with the State of Arkansas and demonstrate the expectation of remaining in this state beyond graduation. For purposes of implementing these policies, the administration is directed to articulate standards that will be applied in making the determination of residence.
   c. Except as otherwise provided under these regulations, the domicile of an adult (18 years of age or older) or emancipated minor student shall be determined on the basis of his or her own domicile.
   d. Except as otherwise provided under these regulations, the domicile and residence of an unemancipated minor student (less than 18 years of age) or an unmarried dependent who has not attained the age of 23 is legally that of the parents or surviving parent; or such other person legally standing in the place of a parent to the student and with whom the student in fact makes his or her home and who has been making substantial contributions to the support of the student for at least six consecutive months prior to the term or semester for which the fees are paid.
   e. A student who cannot satisfy the criteria for Arkansas domicile and residence will be classified as an “out-of-state” student and will pay fees and tuition accordingly. The student on a temporary visa will be classified as a foreign student and will pay non-resident tuition and fees. A student who has been granted a permanent visa and has been domiciled in Arkansas for six consecutive months following receipt of the permanent visa shall be classified as an Arkansas resident for fee purposes.
   f. The responsibility for registering under a proper classification for student fee purposes is placed upon the student. It is the duty of each student at each time of registration to call any question about residency classification status to the attention of the campus classification review officer in a timely fashion in order that the question may be settled (see 4. Procedures).
   g. The six-month period required in paragraph A of these regulations may be waived for persons, their spouse, and their unmarried children who have not yet attained the age of 23 (dependents are the spouse and unmarried children who are legal dependents as defined by the IRS) and who move to Arkansas with attendance at the university only a by-product of the primary purpose of establishing domicile in this state.
   h. An unmarried student who has not reached the age of 23 years having one parent residing in Arkansas (for at least six consecutive months immediately prior to the beginning of the term or semester in which the fees are to be paid) may be considered an “in-state” student for fee purposes, even if that student resided outside the state with the other parent before coming to Arkansas to attend the university.
i. Marriage is recognized as emancipation for both females and males.

j. The spouse of a person continuously domiciled in Arkansas (for at least six consecutive months immediately prior to the beginning of the term or semester in which the fees are to be paid) upon request shall be classified as “in-state” for fee purposes.

3. Reclassifications
   a. The initial classification of a student will not prejudice a different classification for following terms or semesters. However, a student’s prior domicile is assumed to continue until he or she clearly establishes a new domicile in Arkansas (see #4 below).

   b. A student previously classified as “out-of-state” may be reclassified as “in-state” for fee purposes if he or she has established a bona fide domicile in Arkansas and has resided continuously in this state in that bona fide domiciliary status for at least six consecutive months prior to his or her reclassification by the university. In order for an adult or an emancipated minor to establish a bona fide domicile in Arkansas for fee purposes, he or she must have left the parental home, must have established in this state a home of a permanent character as manifested objectively by good faith acts, and must have the expectation of remaining in this state beyond graduation. The single fact of presence in Arkansas for at least six months of attendance as a student enrolled in the University of Arkansas, or any other educational institution, neither constitutes nor necessarily precludes reclassification as one domiciled in Arkansas but will be a factor to be considered.

4. Procedures
   a. A student shall have the burden of establishing any claim that he or she is entitled to be treated as “in-state” for fee purposes. Persuasive evidence to that effect must be presented in writing and verified under oath by the student. Mere claims of local domicile and duration of stay are of little weight. A student who knowingly gives erroneous information in an attempt to evade the payment of “out-of-state” fees may be subject to dismissal from the university.

   b. All disputed classifications for student fee purposes, whether at initial enrollment or subsequent enrollments, and all disputed reclassifications will be decided initially on each campus by a classification review officer designated by each chancellor.

   c. The chancellor of each campus will designate a campus classification appeal officer to receive petitions from decisions made by the campus classification review officer. Each campus classification appeal officer may, in his or her discretion, make investigations, receive evidence, and conduct informal hearings. After considering the case, the campus classification appeal officer will render a decision and notify the affected student of the decision in writing. Any decision of the campus classification appeal officer may be appealed to the vice president for academic affairs of the University of Arkansas System, who shall recommend final disposition to the president of the university.

   d. Written notice of the appeals procedure will be provided to each student raising a question about his or her status with the campus residency classification review officer.

   e. Determination of domicile will be based on a review of all pertinent facts, evidence, and circumstances that collectively show, in an objective and clear manner, the actual domicile of the student.

NOTE: In implementing these policies, it is presumed that dependent students who are classified as non-residents based upon parental/guardian domicile outside of Arkansas do not acquire Arkansas residency under Board of Trustees Policy 520.8 unless and until their parent(s)/guardian(s) have established a domicile in Arkansas, or the student has left the parental home and established a domicile in Arkansas evidenced by proof that he or she has established a home of a permanent character as manifested objectively by good faith acts, resided in Arkansas in bona fide domiciliary status for at least six consecutive months prior to his or her reclassification as an Arkansas resident, and demonstrates the expectation of remaining in this state beyond graduation.

Reclassification Deadlines
Students who have established a bona fide domicile in Arkansas following initial classification as a non-resident must request reclassification if they want their status recognized for fee purposes. Applications and appropriate documentation must be received by the Office of the Registrar no later than the fifth class day (second class day of a summer session) of the term for which in-state fee assessment is requested. Applications received after the deadline will be considered for the next term. All fees are to be paid by published due dates. Students who receive a favorable decision after payment will be provided a refund of out-of-state fees paid. Please direct questions about residence classification review procedures to the Office of the Registrar, 146 Silas H. Hunt Hall.

Resident Status of Native Americans
(Board Policy 520.1, “Waiver of Non-Resident Tuition for Native Americans.”)

Native American people in other states belonging to tribes that formerly lived in Arkansas before relocation, and whose names are on the rolls in tribal headquarters, shall be classified as in-state students of Arkansas for tuition and fee purposes, on all campuses of the University of Arkansas. Tribes so identified include the Caddo, Cherokee, Chickasaw, Choctaw, Creek, Delaware, Kickapoo, Osage, Peoria, Quapaw, Shawnee, and Tunica.

Resident Status of Members of the Armed Forces and Their Dependents
(Board Policy 520.7, “Fees for Members of Armed Forces and Dependents.”)

For the purpose of tuition and fees applicable for all programs of study, including distance learning programs, effective July 1, 2017, all campuses of the University of Arkansas System shall classify a student as in-state or resident, if the student meets any of the following criteria regardless of his or her residence:

1. A veteran who was honorably discharged or released from a period of not less than ninety (90) days of active duty in the United States Armed Forces within three (3) years before the date of enrollment in a program of study;

2. A dependent of a veteran under Paragraph 1.

3. A member of the armed forces.

4. A spouse of a member of the armed forces.

5. A Reserve Officers’ Training Corps cadet who has an executed armed forces service contract.

6. A dependent of a member of the active duty armed forces, when the member of the armed forces:
   a. is stationed in the State of Arkansas pursuant to permanent change of station (PCS) military orders;
   b. is continuously domiciled in Arkansas for at least six consecutive months before entering active military service and who maintains...
Arkansas as the permanent home of record while on active military duty, or
c. demonstrates a change of bona fide domicile from another state to Arkansas at least 12 consecutive months prior to separation, discharge, or retirement from active military duty. This provision is forfeited if the military person does not return to Arkansas within 36 months after separation, discharge, or retirement from active duty.

7. A veteran using educational assistance under either Chapter 30 (Montgomery G.I. Bill—Active Duty Program) or Chapter 33 (Post-9/11 G.I. Bill), of Title 38 of the United States Code, who lives in the State of Arkansas while attending a school located in the State of Arkansas (regardless of his/her formal state of residence) and enrolls in the school within three years of discharge or release from a period of active duty service of 90 days or more.

8. Anyone using transferred Post-9/11 G.I. Bill benefits (38 U.S.C. §3319) who lives in the State of Arkansas while attending a school located in the State of Arkansas (regardless of his/her formal state of residence) and enrolls in the school within three years of the transferor’s discharge or release from a period of active duty service of 90 days or more.

9. Anyone described in paragraphs 7 and 8 while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three year period following discharge or release as described in paragraphs 7 and 8 and must be using educational benefits under either chapter 30 or chapter 33, of title 38 of the United States Code.

10. Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. §§3311(b)(9)) who lives in the State of Arkansas while attending a school located in the State of Arkansas (regardless of his/her formal state of residence).

11. Anyone using transferred Post 9/11 G.I. Bill benefits (38 U.S.C. § 3319) who lives in Arkansas while attending a school located in Arkansas (regardless of his/her formal state of residence) and the transferor is a member of the uniformed service who is serving on active duty.

12. A member of the armed forces or “covered individual” as identified in Section 702 of the Veterans Access, Choice and Accountability Act of 2014.

This system-wide policy and procedure has been amended as necessary for compliance with the requirements of 38 U.S.C. 3679, as amended, and Ark. Code Ann. § 6-60-205.

For the purpose of this policy, dependents are unmarried children who are legal dependents of the military person as defined by the IRS.

Resident Status of Students from Texarkana, Texas, and Bowie County, Texas
(Board Policy 520.10)

In accordance with the reciprocity agreement described in H.C.R. 32, signed by the governor of Arkansas on February 12, 1965, Board Policy 520.10 states, “Residents of Texarkana, Texas, and Bowie County, Texas, will be classified as in-state students for university fee purposes at the University of Arkansas.”

Room and Board

Campus Housing
(Rates are subject to change)

Single freshmen under 21 years of age are required to live in University of Arkansas residence halls, fraternity or sorority houses, or with their parents, unless permission to live off-campus has been obtained through University Housing. Permission to reside off-campus is granted on a semester basis and must be obtained prior to enrolling or prior to the semester in which off-campus residency is desired.

Specific questions concerning on-campus housing may be directed to University Housing at 479-575-3951, by email at housing@uark.edu or by visiting the University Housing website (http://housing.uark.edu/).

Summer rates for a room in a university residence hall during summer sessions are available through the Housing office. Charges start on the requested move-in day and run through the date of check-out.

Dining

Specific questions concerning on-campus meal plans may be directed to University Housing 479-575-3951 or visit the Dining on Campus website (http://www.dineoncampus.com/razorbacks/).

Fraternities and Sororities

Specific questions concerning sorority and fraternity living may be directed to the Office of Greek Affairs 479-575-5001.

Off-Campus Housing

Students eligible to live off-campus may contact local real estate offices for rental information or check the Off-Campus Housing website (http://offcampushousing.uark.edu/).

Senior Citizens

Waiver of Tuition and Fees for Senior Citizens

Arkansas residents who are 60 years of age or older and show proper proof of age may choose to have tuition and fees waived for on-campus courses under the senior citizen waiver of fees. Admission and enrollment under these conditions is open only on a “space available” basis in existing classes, and students choosing to use this waiver may not register until just prior to the beginning of the term.

Tuition Fees

Students classified as “in-state” for fee payment purposes are assessed tuition. Students classified as “out-of-state” for fee payment purposes are assessed additional non-resident tuition.

Official policies of the University of Arkansas Board of Trustees provide the basis for classifying students as either “in-state” or “out-of-state” for purposes of paying student fees. Board policies relating to residency status for fee payment purposes are included at the end of this chapter of the catalog. Out-of-state students who question their residency classification are encouraged to contact the Registrar’s Office, 148 Silas H. Hunt Hall, for more information about residency classification review procedures.

The Arkansas Non-Resident Tuition Scholarship Award Fee will be assessed for undergraduate non-residents (including transfer students) and international students who are receiving the Non-Resident Tuition Award. The fee will be 10, 20, 30 or 50 percent of the difference between
the in-state and out-of-state tuition per semester as long as students are receiving the award. To view eligibility requirements, please view the Academic Scholarship Office website (http://scholarships.uark.edu/nrta/).

**Academic Year**

Undergraduate students are assessed tuition of $252.28 per credit hour. Students with out-of-state residency status are assessed tuition of $801.87 per credit hour.

Undergraduate students enrolled in developmental instruction courses are charged tuition of $134.55 per credit hour in-state and $672.54 per credit hour for out-of-state students.

Undergraduate students enrolled in the Walton College of Business courses are charged tuition of $335.53 per credit hour in-state and $1,093.75 per credit hour for out-of-state students.

Undergraduate students enrolled in the Fay Jones School of Architecture and Design are charged tuition of $277.43 per credit hour in-state and $881.90 per credit hour for out-of-state students.

Undergraduate nursing students are assessed tuition of $298.22 per credit hour. Students with out-of-state residency status are assessed tuition of $947.89 per credit hour.

Undergraduate students enrolled in College of Engineering courses are charged tuition of $295.17 per credit hour in-state and $938.19 per credit hour for out-of-state students.

Undergraduate students enrolled in Global Campus self-paced online correspondence courses are charged tuition of $135.00 per credit hour.
Academic Regulations

Academic Integrity
As a core part of its mission, the University of Arkansas provides students with the opportunity to further their educational goals through programs of study and research in an environment that promotes freedom of inquiry and academic responsibility. Accomplishing this mission is only possible when intellectual honesty and individual integrity prevail. Each University of Arkansas student is required to be familiar with and abide by the university’s Academic Integrity Policy (http://honesty.uark.edu/policy/) at honesty.uark.edu (http://honesty.uark.edu/). Students with questions about how these policies apply to a particular course or assignment should immediately contact their instructor.

Attendance Policy for Students
Attendance and Engagement: Education at the university level requires students’ active involvement in the learning process. Therefore, students have the responsibility to attend classes and to actively engage in all learning assignments or opportunities provided in their classes. Students should treat class attendance as mandatory. Instructors have the responsibility to provide a written policy on student attendance that is tied to course objectives and included in a course syllabus.

Excusable Absences: There may be times, however, when illness, family crises, or university sponsored activities require a student to be absent from class. In these situations, the student is responsible for making timely arrangements with the instructor to make up work missed. The make-up work should be completed in a timeframe that has been arranged with the instructor. Such arrangements should be made in writing and prior to the absence, when possible.

Examples of absences that should be considered excusable include those resulting from: 1) student illness, 2) serious illness or death of a member of the student’s immediate family or other family crisis, 3) University sponsored activities for which the student’s attendance is required by virtue of scholarship or leadership/participation responsibilities, 4) religious observances (see Religious Observances policy tab), 5) jury duty or subpoena for a court appearance, and 6) military duty. The instructor has the right to require that the student provide appropriate documentation for any absence for which the student wishes to be excused.

Religious Observances
When students seek to be excused from class for religious reasons, they are expected to provide their instructors with a schedule of religious holidays that they intend to observe, in writing, before the completion of the first week of classes. The Semester Calendar (http://registrar.uark.edu/academic-dates/academic-semester-calendar/) on the Office of the Registrar’s website will inform students of the university calendar of events, including class meeting and final examination dates, so that before they enroll they can take into account their calendar of religious observances. Scheduling should be done with recognition of religious observances where possible. However, faculty members are expected to allow students to make up work scheduled for dates during which they observe the holidays of their religion.

Final Examination Policy
Each faculty member is required to give final examinations at times specified in the final examination schedule. All final examinations must be given at times scheduled within the official final examination period designated for the course. A final examination represents the final assessment of each student’s knowledge of the subject material within a course. Whenever circumstances make necessary a deviation from the announced schedule, clearance for such deviation must be obtained from the appropriate dean and the Provost and Vice Chancellor for Academic Affairs.

During finals week, students are required to sit for no more than two final exams in a single calendar day period. Students with three or more finals in a single calendar day period have the right to an alternative exam date (s) for each exam exceeding two. They must submit a formal request for an alternative date in writing, along with an official copy of their class schedule for verification purposes, to the professors of those classes involved to see if one will voluntarily move the exam. If voluntary accommodation is not achieved, instructors of classes with lower enrollments will have to accommodate before classes with higher enrollments.

Requests must be submitted on or before the last day to drop a full semester class or classes with a mark of "W". Professors will provide the student with an alternative exam date and time no later than one week after the last day to drop a full semester class or classes with a mark of “W”. All rescheduled final exams are to take place during the university designated final exam dates and times. If a student has an objection to the alternative exam date/time, she or he may appeal to the instructor's department chair.

It is the policy of the University to minimize student participation in extracurricular activities during the final examination period. No meetings, social activities, athletic events, or other extracurricular activities that require student participation will be scheduled on Dead Day or during the final examination period. Any exceptions to this policy must receive prior approval from the Provost and Vice Chancellor for Academic Affairs.

Grades And Marks
Final grades for courses are “A,” “B,” “C,” “D,” and “F” (except for courses taken in the Fay Jones School of Architecture and Design and the Dale Bumpers College of Agricultural, Food and Life Sciences).

</tr>
</tbody>
</table>
No credit is earned for courses in which a grade of “F” is recorded. A final grade of “F” shall be assigned to a student who is failing on the basis of work completed and who has not completed all requirements. The instructor may change an “F” so assigned to a passing grade if warranted by satisfactory completion of all requirements. Students who fail to present an acceptable reason for not having completed all course requirements including the final examination will receive the grade they would have received had they failed such requirements. In the case of an “XF” grade given for reasons of academic dishonesty, upon graduation or completion of the period of suspension, the student may request that the “X” be removed from the transcript by submitting a written request to the Provost/Vice Chancellor for Academic Affairs.

A mark of “I” may be assigned when a legitimate circumstance has prevented the student from completing all course requirements and the work completed at the time of assigning the “I” is of passing quality. It is the discretion of the instructor that determines what qualifies as a legitimate circumstance. It is recommended that the instructor, prior to the assignment of an “I” mark, document the legitimate circumstance and conditions for completing course requirements. An “I” so assigned may be changed to a grade provided all course requirements have been completed within 12 months after the end of the term in which the “I” was assigned. If the instructor does not report the grade within the 12-month period, the “I” shall be changed to an “F.” When a mark of “I” is changed to a final grade, the grade points and academic standing are appropriately adjusted on the student’s official academic records.

A mark of “AU” (Audit) is given to a student who officially registers in a course for audit purposes (see Registration for Audit (p. 70)).

A mark of “CR” (Credit) is given for a course (for example, practice teaching, certain seminars, certain honors colloquia, and courses where credit is earned by examination) for which the university allows credit toward a degree, but for which no grade points are earned.

A mark of “R” (Registered) is given to a student who is registered in a course for no credit or grade points. This is typically used at the undergraduate level for Study Abroad or other situations where a placeholder mark is needed.

A mark of “S” (Satisfactory) is assigned in courses such as special problems and research when a final grade is inappropriate. The mark “S” is not assigned to courses or work for which credit is given (and thus no grade points are earned for such work). If credit is awarded upon the completion of such work, a grade or mark may be assigned at that time, and, if a grade is assigned, grade points will be earned.

A mark of “W” (Withdrawal) will be given for courses from which students withdraw after the first 10 days of the semester and before the drop deadline of the semester.

“I,” “AU,” “CR,” “R,” “S,” and “W” marks will not be counted in the grade-point average. Grades of plus and minus are assigned grade-point values in the Bumpers College of Agricultural, Food and Life Sciences (p. 104) and the Fay Jones School of Architecture and Design (p. 173). The grade-point average is computed by dividing the total number of grade points by the total number of credit hours attempted in courses for which grades (rather than marks) are given. Students who utilized grade renewal or grade forgiveness in retaking courses (prior to fall Semester 1986 and after fall 1996) have only the last grade used in computing grade-point averages.

Undergraduate Grade Forgiveness Policy

Under the Grade Forgiveness Policy, a student may improve the undergraduate cumulative GPA by repeating a maximum of two courses (up to nine hours) in which a grade of “D” or “F” was received and requesting that the repeat grade be the only one that is counted in the calculation. Only two such requests are available to any student in his or her undergraduate career. The repeated grade must be in the same course taken at the University of Arkansas, Fayetteville. Only a course in which a grade of “D” or “F” was earned may be repeated under the Forgiveness Policy. The student must file a written petition to use grade forgiveness indicating which course(s) he/she chooses to grade renew: the petition must be completed and approved prior to graduation. Both attempts at the course will remain on the transcript, but only the second will be used to calculate both credit and GPA. The first attempt and the grade earned will be recorded on the transcript with the symbol “R” to denote that it has been repeated. Students considering grade forgiveness should be aware that many graduate schools, professional schools, employers or other institutions, in considering admission or employment, recompute the GPA and include all courses attempted even though a course was repeated. This means that if the cumulative GPA has been raised because of grade renewal or forgiveness, the recomputed GPA will be lower. The Grade Forgiveness Policy begins with the Fall 1996 semester. This policy may be used to forgive the grade of courses taken prior to that semester as long as the retaken course was in or after the Fall 1996 semester.

Academic Bankruptcy

Students returning to the University of Arkansas after an absence of five or more years may be eligible to declare academic bankruptcy if they meet the following criteria:

1. Must have been enrolled previously at the University of Arkansas, Fayetteville, as an undergraduate student and be returning as an undergraduate student.
2. Must not have been enrolled at the university during the previous five years.
3. Students who have attended another institution since their last attendance at the university must meet requirements for transfer students (2.00 GPA on all coursework attempted more than five years after last enrollment at the University of Arkansas, Fayetteville) to be eligible for readmission.
4. Must submit an application for readmission and official transcripts of all college work attempted since last attendance at the University of Arkansas by the application deadlines and submit a Declaration of Academic Bankruptcy form (http://registrar.uark.edu/1621.php) to the Office of the Registrar. The following are the conditions of academic bankruptcy:
   a. Students will forfeit all credit hours previously awarded by the University of Arkansas, Fayetteville. This includes course work completed at the university (regardless of grades earned), courses accepted in transfer, credit by examination, and any self-paced (correspondence) course work awarded.
   b. A new calculation of GPA and credit hours will begin when the student returns to the University of Arkansas.
   c. The transcript will reflect the student’s complete record (including all previous college work) with an added notation of “Academic Bankruptcy Declared.”
   d. Courses taken at another institution within five years of the last University of Arkansas enrollment will not be accepted for transfer. Coursework completed more than five years after last attending
the University of Arkansas may be accepted in transfer, subject to university transfer credit policies. For purposes of this policy, University of Arkansas self-paced (correspondence) coursework will be treated in the same manner as transfer work.

e. For the university to provide appropriate advising and (as required by Arkansas Act 1052) appropriate assessment, a student may be required to submit ACT, SAT, or ACT COMPASS test scores prior to registration for classes if, as a result of academic bankruptcy, that student is returning to the university as a freshman with fewer than 24 transfer hours.

Academic Probation, Suspension and Dismissal

A student's academic status at the university is determined at the end of each regular term of enrollment (fall, spring, or summer) on the basis of the student's cumulative and/or term grade-point average (GPA) and number of hours attempted. The student's academic status governs his or her re-enrollment status and determines any conditions associated with re-enrollment or denial of enrollment for a subsequent term. Normally, students are notified of their status individually by the university shortly after the end of each term. However, this policy statement is the formal notification to all students of the conditions that determine academic status and the consequences for each term, regardless of individual notification.

Good Status: Upon initial admission and during a student's first term of enrollment, except for students conditionally admitted on academic probation, the student is in good status. A student remains in, or returns to, good academic status at the end of any regular term (spring, summer, fall) when the cumulative GPA is at or above the required minimum of 2.0.

Academic Probation: When a student's cumulative grade-point average at the end of any fall, spring, or summer term is less than a 2.00 with more than three cumulative hours attempted, the student will be placed on academic probation.

First-Year Freshmen: First-year freshmen who have less than a 2.00 cumulative grade-point average at the end of their first semester of enrollment are considered at risk. During the first six weeks of their second semester, these at risk students must, at a minimum, consult with an academic adviser to develop a plan to get off of probation before being eligible to register for their third semester courses.

Removal from Academic Probation: When a student's cumulative GPA at the end of any fall, spring, or summer term is a 2.00 or above, he or she will be removed from academic probation.

Continuing on Academic Probation: The semester grade point average a student on academic probation must earn to continue on academic probation and avoid academic suspension depends on the cumulative grade hours attempted as outlined in the academic probation chart below.

Academic Probation Chart

<table>
<thead>
<tr>
<th>Cumulative Hours Attempted (excludes grades of W)</th>
<th>Placed on Probation If Cumulative GPA Is:</th>
<th>Continued on Probation If Semester GPA Is:</th>
<th>Removed From Probation If Cumulative GPA Is:</th>
</tr>
</thead>
<tbody>
<tr>
<td>4-30 hours attempted</td>
<td>Less than 2.0</td>
<td>Greater than or equal to 1.8</td>
<td>Greater than or equal to 2.0</td>
</tr>
</tbody>
</table>

Academic Suspension: A student on academic probation who does not earn the minimum required term GPA will be academically suspended. No student may be academically suspended who has not spent the prior term of enrollment on academic probation. A student on academic suspension will be on academic leave from the university for one major semester (spring or fall) and all contiguous summer and intersessions from the close of the term which resulted in the academic suspension. Thus, a student academically suspended at the end of the spring semester would not be eligible to enroll until the next spring semester; a student academically suspended at the end of the summer semester would not be eligible to enroll until the following spring term; and a student academically suspended at the end of a fall semester would not be eligible to enroll until the next fall semester. The first enrollment when returning from academic suspension may not be in an intersession.

Students who sit out for one major semester after the term of the academic suspension may apply for readmission to the university.

A student who does not earn credit from another institution may be readmitted on academic probation following academic suspension. A student who earns credit from another institution(s) during or subsequent to the academic suspension must apply to the university for admission as a transfer student and, if readmitted, will be on academic probation following academic suspension. A student readmitted on academic probation after academic suspension must make a semester grade-point average of at least 2.00 for each semester, (fall, spring, or summer) until he or she is removed from probation. Failure to do so will result in academic dismissal.

Academic Dismissal: A student who returns to the university after an academic suspension is continued on academic probation following suspension and must make a semester grade-point average of at least 2.00 for each fall, spring, or summer term until he or she is removed from academic probation. Failure to do so will result in academic dismissal.

Returning after Academic Dismissal: Students who sit out for at least one full academic year and submit at least 12 hours of general education core classes or upper–level classes with at least a 3.0 grade-point average in this coursework will be eligible for automatic readmission from their first academic dismissal. This can be done by taking self-paced courses through the Global Campus (http://globalcampus.uark.edu/) at the University of Arkansas or by courses taken at another regionally accredited institution of higher education. Students meeting these requirements must complete a petition to the Academic Standards Committee (http://registrar.uark.edu/student-records/academic-standards-committee-petition.php) and submit official transcripts for all work attempted since being academically dismissed. The petition is to be submitted to the Office of the Registrar (http://registrar.uark.edu/) before applying (http://admissions.uark.edu/) for readmission.

Students who do not meet these conditions, and students who have been academically dismissed more than once, must petition to the Academic Standards Committee (http://registrar.uark.edu/student-records/academic-standards-committee-petition.php) to be considered for readmission. It is strongly recommended that students meet with an academic adviser to develop a plan for returning from academic dismissal. Students approved for readmission from academic dismissal must reapply (http://admission.uark.edu/) for admission.

A student who reenters the university by favorable action of the Academic Standards Committee after an academic dismissal is continued
on academic probation after academic dismissal and must make a semester grade-point average of at least 2.00 for each semester until the cumulative GPA reaches 2.00 and he or she is removed from academic probation. Failure to do so will result in academic dismissal.

Individual colleges or programs have the discretion to set academic admission and continuation standards for specific programs that are higher than university standards.

1. Students who are not in good academic standing at the University of Arkansas may be enrolled in no more than six hours of self-paced Global Campus courses at any one time.

Waiver of Academic Policies

The Academic Standards Committee (http://registrar.uark.edu/student-records/academic-standards-committee-petition.php), composed of faculty and students, serves as a referral body for matters of academic probation, suspension, dismissal, and other rules and regulations related to academic progress and graduation. Petitions for waiver of academic rules and information on the petitioning process may be obtained on the Office of the Registrar’s website (http://registrar.uark.edu/418.php). Students should note petitioning deadlines.

Advanced-Standing Programs

Credit by Examination

There are two ways a student enrolled at the University of Arkansas, Fayetteville, may establish undergraduate credit by examination in courses offered by the university: either through the University of Arkansas Credit by Examination Program (see the next section), or through approved national testing programs, such as the College Level Examination Program (CLEP), the Advanced Placement Program (AP), or the International Baccalaureate Program (IB).

Credit established by examination must be evaluated in terms of the specific program the student wishes to pursue. The decision regarding the appropriate application of such credit to a degree program will be made in each college or school. Credit established by examination will be applied to a degree program in the same manner as credit established in any other way. If credit is earned by examination, the mark of CR will be entered in the student’s record. Grades are not assigned.

In certain instances, however, instead of actually receiving credit in semester hours, a student may receive advanced standing and be authorized to enroll for advanced courses in the subject matter area.

Credit by examination may not be used to satisfy minimum residency requirements as established by each college or school. Credit by examination is recorded only for students currently enrolled at the University of Arkansas, Fayetteville.

University of Arkansas Program

The following conditions apply to the departmental programs for credit by examination:

1. The student must apply for such examination using forms available in the academic dean or department office. Permission to take the examination must be obtained from the faculty of the department offering the course. The faculty of each department is responsible for designating the courses in that department that may be challenged by examination.

2. The appropriate department or college offering the course will designate and administer the examination.

3. A passing grade on the examination must be “B” or above. A second trial for credit by examination in that course will not be permitted.

4. A $25 credit by examination fee will be assessed per course.

National Testing Programs

When credit by a national examination is granted, the student’s academic record will list the score used as a basis for credit as well as the type of examination used to establish credit, such as CLEP subject examination or general examination, AP examination or IB examination.

Credit is awarded on the basis of official score reports, which must be sent by the national testing service directly to the Office of the Registrar, 141 Uptown East, University of Arkansas, Fayetteville, AR 72701.

Minimum score requirements as established by the University of Arkansas, Fayetteville, must be met to receive credit.

College Level Examination Program (CLEP)

The University of Arkansas is a CLEP testing center and is authorized to administer CLEP examinations both on a national basis and on an institutional basis. However, CLEP examinations may be taken at scheduled times at any national test center, and the results sent to the University of Arkansas. The test center code number and score recipient code number for the University of Arkansas is 6866. For information or to make application, write to the Office of Testing Services, 1435 W. Walton Street, 1 University of Arkansas, Fayetteville, AR 72701, or telephone 479-575-3948.

Approval has been granted by the appropriate governing body, upon recommendation of the academic department, to award credit in the following courses by the use of CLEP examinations. Minimum scores for the paper-based version and the new computer-based version were established by the departments of the subject areas concerned.

Please note that minimum scores for credit for computer-based CLEP exams may differ from paper-based CLEP examinations.

Advanced Placement Program (AP)

The Advanced Placement (AP) Program of the College Entrance Examination Board gives students the opportunity to pursue college-level studies while still in high school and, with an appropriate score on an AP exam, to receive advanced placement and/or credit upon entering the University. The AP examinations are offered annually by high schools that participate in this program. The appropriate UA governing body, upon recommendation of the academic department, has authorized credit and/or placement for students who present qualifying scores in the AP courses listed below.

Symbols for placement and credit:

- **P** = placement;
- **Pq** = qualified placement (student may be placed in an advanced course, with credit awarded for prerequisite courses upon satisfactory completion, subject to departmental review);
- **C** = credit;
- **Cq** = qualified credit (placement and credit subject to departmental review);
- **E** = Exempt.

* Students must pass a departmental test to receive credit
** To receive credit for courses preceding the course for which AP credit was granted, students must enroll in and complete with a grade of "C" or higher, that course which follows in sequence the course for which AP credit was granted.
*** At most, 3 hours credit allowed for AP Statistics.

### International Baccalaureate

The International Baccalaureate (IB) program is a comprehensive and rigorous two-year high school curriculum offered in the United States and in 72 countries around the world. The IB program provides students with a balanced education, facilitates geographic and cultural mobility, and promotes international understanding through a shared academic experience. The IB program gives students the opportunity to pursue college-level studies while in upper secondary school and to receive credit for final examinations upon entering the University.

The IB examinations are offered annually, usually in May, by high schools participating in this program. Students seeking credit for examinations must request that a final, official IB transcript of certificate or diploma results be sent by mail to the Office of the Registrar, 146 Silas H. Hunt Hall, University of Arkansas, Fayetteville AR 72701. These materials may be requested from International Baccalaureate North America, 200 Madison Avenue, Suite 2007, New York, NY 10016, telephone: 212-696-4464.

Approval has been granted by appropriate academic departments to award credit in the following courses. The minimum scores were established by the departments of the subject areas concerned.

In some circumstances it may be in a student's best interest to decline participation or withdraw from the DCP. Examples include students who are not prepared to choose a major before enrolling for the first semester and students who feel that a full semester class load of 15 or 16 hours will be too heavy given other responsibilities. Other students may plan to study abroad for a semester in an institution where the required courses are not offered or to participate in a semester-long internship program not included in the program plan. A decision or need to work or participate in certain time-intensive curricular and extra-curricular activities such as band and intercollegiate athletics may make it impossible to schedule all requirements in some programs. A student may be required to withdraw from the DCP as a result of illness or other personal circumstances that make it impossible to do his or her best work, continue as a full-time student, or complete requirements in the time available. There are also a number of acts and events that may or will cause the DCP agreement to be voided; these are identified below in the section “Student acts and other events that will or may void the degree completion plan agreement.”

Requirements for Admission to the Eight-Semester Degree Completion Program (DCP):

1. Participants must begin their program of study in the fall semester as first-time, full-time freshmen and must be committed to be full-time students able to enroll in and successfully complete at least 31-36 hours each academic year.
2. Participants must have chosen a major included in the DCP. must meet all admission requirements for the chosen program of study including applicable program grade point average and other grade requirements, and must have been admitted to programs requiring formal program admission.
3. Participants must be qualified to begin enrollment in the fall semester without being required to take remedial courses in math, English, or reading or other course prerequisites to entry-level courses in the chosen program of study

Requirements for Continuance and Completion of the Eight-Semester Degree Completion Program:

1. Students must follow exactly the degree completion plan for the chosen major and must meet all the specified requirements in their degree plan each semester unless an alternative is approved by an authorized academic adviser for their program or unless they have already met the requirement.
2. Students must be continuously enrolled in and successfully complete at least 31-36 semester credit hours of appropriate course work each academic year as outlined in their degree completion plan.
3. Students must make satisfactory academic progress as defined by the university and degree program and must maintain the grade point average required by the university and the program of study.
4. Students must monitor their own progress in meeting the requirements identified in their degree completion plan, consistent with the program plan.
5. Students must register for classes at the first/earliest assigned time during their designated registration period each semester for the following term. For courses required for graduation, students must accept any available course or class section that does not conflict with other required courses. Students should understand that special scheduling accommodations cannot be guaranteed for work or other activities including athletics and band.

Students must seek assistance from an authorized academic adviser for their chosen program of study if they are unable to identify or

### Eight-Semester Degree Completion Policy

The University of Arkansas is committed to helping all of its students identify and achieve their educational goals. The many University of Arkansas programs of study and activities provide opportunities to students to follow varied career and learning paths and enjoy educational experiences of different kinds. Plans for degree completion are available in the Catalog of Studies and from colleges, schools, and departments. Academic advising services in each college and school assist students in making plans for their own degree completion and in carrying them out consistent with students’ abilities, circumstances, and preferences.

The Eight-Semester Degree Completion Program (DCP), makes it possible for qualified degree-seeking freshmen to express their intention — and assume the associated obligations — to complete identified bachelor’s degree programs of study in four academic years. The list of majors and degrees designed to be completed in eight semesters and for which the DCP is available is maintained by each college and school. It may be accessed from the DCP Web site and is published in the Catalog of Studies. Colleges, schools and individual departments can provide this list as well. Before registering for their first semester of study, all freshmen entering the university must accept participation, decline participation, or acknowledge ineligibility for participation in the DCP by signing the Participation Document. New freshmen will be notified regarding how to view the Participation Document on-line and learn more about registering for a Degree Completion Program. A student’s participation or nonparticipation in the DCP will not affect scholarship eligibility.

Students who are admissible to the DCP and who choose to participate have the responsibility for meeting all requirements specified by the university and their degree completion plan and the responsibility for complying with the DCP policy. The university is responsible for providing academic support and for ensuring that students can complete university, program and course requirements within eight consecutive semesters. The university will also provide students with timely notifications to the student’s official university e-mail address regarding advising, registration, and other requirement completion information.

A student may choose at any time to discontinue participation in the DCP without penalty. Students are encouraged to discuss such choices with an authorized academic adviser for the program of study. Participation and subsequent withdrawal from the DCP will not jeopardize the student’s opportunity to complete the degree program, to do so in a timely manner, or to complete another degree program or major by fulfilling program requirements.
register for any course(s) required for that semester in their degree program. For situations in which an authorized academic adviser for the program cannot identify a required course for the student to take, the adviser must notify the department chair and dean for the student’s program of study that it has not been possible for the student to complete registration for a required course for the next semester of enrollment. Notification must be made in writing immediately following the unsuccessful attempt to register. Consistent with the terms of the degree completion program, the chairperson or dean will identify an alternate course, in writing, to fulfill graduation requirements or will provide an override to allow the student to enroll in the required course(s).

Students must complete registration no later than the last official day of class for the fall or spring term preceding the next term of enrollment, unless the identification of an appropriate course to complete the student’s registration is still in progress.

6. Students must have prior written approval by an authorized academic adviser before enrolling in any course at another institution (such as concurrent enrollment, enrollment during a summer term, or study abroad) if the student wishes to transfer the course and have the course included in the coursework submitted for the degree completion plan.

7. Students must confer with an authorized academic adviser for their program before withdrawing from a required course as such a withdrawal will void the DCP agreement.

8. Students must at all times maintain an accurate local address, and telephone number in official university records. Students may make changes to such information in the Student Information System Self Service component as needed and should make them immediately following any change. Students may also make changes by written notice to the Registrar.

9. Students must respond in a timely way to any official notice or message from an authorized academic adviser and to any official notice regarding registration, degree progress, financial obligations or aid, or any other university requirement.

10. Students must make timely application for all necessary financial assistance, consistent with deadlines.

11. Students must meet all university degree requirements (including formal application for graduation consistent with deadlines and requirements as established by the Registrar for the semester in which the student is scheduled for graduation).

Student Acts and Other Events That Will or May Void the Degree Completion Plan Agreement:

1. Withdrawing from (“dropping”) a required course
2. Receiving a failing grade in a required course or receiving a grade below that required by the program
3. Changing one’s major or degree program
4. Withdrawing from the University of Arkansas
5. Failure to meet any degree requirement(s) as specified and in the time specified
6. Unauthorized non-payment or delayed payment of any tuition or fees
7. Incurring a disciplinary action affecting the student’s enrollment
8. Failing to comply with any other requirement of the Eight-Semester Degree Completion Policy.

Appeal Process
A student may appeal the voiding of the DCP to the dean of the college or school in which the student is enrolled. The appeal process requires that the student submit a statement of the basis for the appeal to the dean in writing within 30 days following notification of the voiding of the program, with a copy to an authorized academic adviser for the program. The dean will notify the student and the adviser of the outcome of the appeal within 60 days after receiving the statement.

Graduation Rates
In accordance with the Student Right-to-Know and Campus Security Act of 1990, the following table is a summary of the institution’s six-year graduation rates, those degree-seeking freshmen who enrolled in 2012 and graduated by 2018:

<table>
<thead>

</tbody>
</table>
Student-Athlete
Graduation
Success
Rate
The Student-Athlete Graduation Success Rate was developed by the NCAA to supplement the Federal Graduation Rate. It includes the Federal Graduation Rate Cohort, and also includes students who first enroll in the spring term and also students who transfer in. It discounts student-athletes who leave the institution with eligibility remaining, but would have been academically eligible to compete had they remained. It is more a reflection of the success of students who remain at the institution for all years.

| 75% | 92% | 84% |

of their athletic eligibility. The Student-Athlete Graduation Success Rate report is filed annually in conjunction with the Federal Graduation Report.

## Honors and Scholars

### Dean's and Chancellor's List

After the end of each semester, all colleges and schools in the university publish an honor roll of the names of the undergraduate students who achieve a 3.75 to 4.00 grade-point average. Students are eligible for the honor roll if they are carrying at least 12 semester hours normally required for graduation by their college for their respective year. This honor roll is the Dean’s List.

In addition, a Chancellor’s List is published each semester that recognizes those undergraduate students who achieve a 4.00 grade-point average. Students must also be carrying at least 12 semester hours normally required for graduation to be eligible for the chancellor’s list.

### First-Ranked Senior Scholars

A first-ranked senior scholar must have a cumulative grade-point average of 4.00 on all course work completed at the time selection is made, must have applied for graduation for a semester to be a member of the appropriate class and must have completed all courses required for the baccalaureate degree at the University of Arkansas, Fayetteville, or in a program of study approved by the Director of Honors or other designee in the college in which the student is enrolled. In determining the cumulative grade-point average for the purposes of such awards, grade forgiveness is not accepted.

### Senior Scholar

Selected graduating seniors who are among those with the highest grade-point average and who have completed at least half of their degree work at the University of Arkansas are recognized by each undergraduate college as a Senior Scholar.

### Graduation Honors

For detailed, discipline-specific information, see the honors section for each college or school major. Students must be members of the Honors College to earn the distinction of graduating *cum laude*, *magna cum laude* or *summa cum laude*. The honors program in the college or school of major sets specific requirements for graduating with honors including a minimum of 12 honors credit hours and the completion of an undergraduate thesis. A combination of honors credit hours, thesis quality,
and GPA requirements lead to Latin designation of *cum laude*, *magna cum laude* or *summa cum laude*.

**Requirements for Graduation**

**University Core Requirements**

In addition to the requirements listed below, undergraduate students must successfully complete 35 hours of courses in the University Core, also known as the “State Minimum Core.” See more on the University Core page (p. 97).

**Enrollment Requirement**

To ensure the opportunity to engage with faculty and peers in their area of study at the University of Arkansas, students must fulfill the U of A Enrollment Requirement:

1. Earn a minimum of 30 semester hours at the University of Arkansas, Fayetteville campus—this includes UA faculty-led study abroad classes, online/on-campus classes, and courses offered through the Global Campus (School of Continuing Education and Academic Outreach); and all other courses paid toward Fayetteville campus tuition and fees;
2. These 30 semester hours are to be upper-division semester hours required for the completion of a degree program;
3. Additional hours in residence can be required for completing a minor;
4. Hours earned in another school or college at the University of Arkansas, Fayetteville, may be used to satisfy this requirement — with appeal of appropriate faculty curriculum committee;
5. Appeals to the standards identified in this policy should be made to the Academic Standards Committee.

**Minimum Credits**

All students awarded a baccalaureate degree must have a minimum of 120 credit hours. Individual programs may require additional hours. Courses not marked in the course description as eligible to be repeated for degree credit may be included in this total only once.

**Minimum Grade-Point Average**

No student will be allowed to graduate if the student has earned below a 2.00 GPA in credit earned at this institution. No student will be allowed to graduate if that student’s academic standing is other than good standing.

**Online Credit Hours for On-Campus Undergraduate Students**

Any student pursuing an on-campus (face-to-face) undergraduate degree from the University of Arkansas may take up to 35 percent of the total credit hours required to complete the degree, of regular online (semester/summer) and self-paced online (correspondence) courses for degree credit.

- A freshman (first 30 hours) may take no more than two courses (8 hours) online.
- No student can enroll in more than 12 hours of online courses in any given semester.
- For students that have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular (semester/summer) online and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for.

- Exemption from this policy may apply for students in their last semester. All exemption requests must be signed by the department chair and Dean’s office that oversee the degree program the student is pursuing.
- All online courses must include the course limits in the class notes presented to students when they register on UAConnect. For instance, the class notes for each class section should include:

  “Students pursuing an on-campus (face-to-face) undergraduate degree at the University of Arkansas have the following credit-hour restrictions for online and self-paced courses:

  - Only 35 percent of the total credit hours required to complete the degree can be obtained through online and self-paced course
  - A freshman (fewer than 30 credit hours earned) may take no more than two online and self-paced courses (8 credit hours)
  - No student can enroll in more than 12 online and self-paced hours in any given semester
  - For students that have transferred academic credits from other institutions, the percentage of total credit hours obtained at the University of Arkansas through regular (semester/summer) online and self-paced online (correspondence) courses for degree credit cannot exceed 35 percent of the total remaining hours needed to complete the degree after transfer credits are accounted for.
  - Other restrictions may apply due to federal financial aid policies.”

* For students on financial aid, no more than 6 of these 12 credit hours can come from self-paced online (correspondence) courses. Other financial aid regulations and policies may be applicable on a case by case basis.
† International students enrolled full-time are limited to 3 credit hours of online courses per academic term due to federal policies.

**Freshman Course Requirement**

University Perspectives is an innovative required one-hour freshman course designed to enhance student success. A “flipped” class, it will have an online component in addition to in-class interaction. The course will emphasize the transition to the university and university-level work by addressing topics such as critical thinking and civic engagement. Other units intended to enhance overall student success include — but are not limited to — note-taking, time management, and academic integrity. All freshmen must complete UNIV 1001 by the end of the first academic year.

**Application for Graduation**

Students who plan to graduate must file an official application to do so. Applications should be filed for the term in which degree requirements will be completed. A graduation fee will be required at the time of application.

To ensure that students will be certified for graduation in a timely manner, the following graduation application deadlines have been established:

<table>
<thead>
<tr>
<th>Date</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>October 1</td>
<td>for students graduating in Fall</td>
</tr>
<tr>
<td>March 1</td>
<td>for students graduating in Spring</td>
</tr>
<tr>
<td>July 1</td>
<td>for students graduating in Summer</td>
</tr>
</tbody>
</table>
Students must apply by the established deadline for that term. Any student missing the deadline may apply to graduate in a subsequent term.

A student who fails to complete the degree during the intended semester must contact the Office of the Registrar to renew the application for the term in which the degree requirements will be completed.

**Other Graduation Requirements**

Individual colleges and schools may have special graduation requirements, in addition to degree program requirements. Consult the college or school section in this catalog for statements of additional requirements.

**Degree Program Requirements**

A student’s degree program requirements are normally those specified in the catalog for the student’s first year of enrollment. However, students may choose to meet the program requirements specified in a catalog for a later year and, under some circumstances, students may be required to meet degree program requirements incorporated into the curriculum at a level beyond that at which the student is enrolled.

Students who transfer from institutions with articulation agreements with the university may also be allowed to meet the university program requirements in effect during their first year of enrollment in those institutions, subject to the time limits described below and the availability of course work. Students who transfer to a different degree program may be required to meet the program requirements specified in the catalog for the year of entry into that program. Students who are not enrolled for a period of two years or longer may be required to reenter under program requirements in the current catalog. Students who wish to be granted a degree on the basis of requirements specified in a catalog more than seven years old may be required to petition the college or school to be allowed to do so.

Students are expected to keep themselves informed regarding program requirements and changes.

**Additional Bachelor's Degree**

A student seeking two or more undergraduate degrees from the University of Arkansas must meet the graduation requirements for each degree, including all university, college or school, and departmental requirements as stated in the catalog. When two or more undergraduate degrees are being completed concurrently, or while being continuously enrolled at the University of Arkansas, course work for the first degree may be used to satisfy requirements for the second degree. Students must apply to graduate individually for each degree. A student earning two or more bachelor’s degrees in a single academic year will have their name appear only once on Senior Walk.

A student who previously completed a bachelor’s degree from the University of Arkansas, or from any other institution, must complete at least 30 hours of additional, not necessarily subsequent, course work in residence from the University of Arkansas. More than 30 hours of course work may be required to satisfy all university, college or school, and departmental requirements.

**Student Grievances and Appeals**

**Informal Resolution**

Undergraduate students who wish to seek further review of an academic or non-academic decision or action by the University or a University employee (in an official capacity) that the student contends was in violation of written campus policies, or constitutes unfair or unequal application of such policies, should first seek to resolve such concerns through informal discussions. In particular, grievances regarding academic matters should generally begin with informal discussions with the student’s instructor or with the faculty member supervising a course. If such informal discussions do not reach a satisfactory resolution, then the student may pursue a grievance following the steps in this policy.

**Applicability of Policy**

This policy applies to undergraduate students enrolled in traditional courses as well as online courses. This policy does not apply to matters which are covered by other campus policies or appeal procedures, including, but not limited to, the following:

- grade appeals (see description of process below);
- allegations of discrimination or harassment (including sexual harassment) under the university’s non-discrimination policy;
- allegations of failure to provide reasonable accommodations for a disability;
- financial aid;
- enforcement of campus parking regulations;
- violations of the Code of Student Life or the university’s Academic Dishonesty Policy; or
- violations of the university’s Research Misconduct Policy.

In particular, matters involving allegations of unlawful harassment (including sexual harassment), discrimination and/or retaliation should be reported to the university’s Office of Equal Opportunity and Compliance, and matters involving alleged failure to provide reasonable accommodations for a disability should be pursued through the grievance process described on the university’s Center for Educational Access website. Additional information about each of the above policies is available on the university’s website and through the Office of the Dean of Students.

Furthermore, this grievance process is intended to address alleged violations of university policy with respect to individual students, rather than disagreements with existing policies. Questions regarding the applicability of this grievance policy to a particular issue will be determined by the dean of students, in consultation with the provost and other university officials, as necessary.

**Formal Grievance Process**

If efforts to resolve a grievance informally are not successful, no later than 60 calendar days following the decision or action that the student seeks to have reviewed, the student shall put the grievance in writing, clearly and succinctly stating the facts relating to the grievance and which policies the student contends have been violated or misapplied. For an academically related grievance, the written grievance shall be submitted to the academic unit chair, head or his or her designee; if the concern relates to the chair, then the written grievance may be submitted to the academic unit chair, head or his or her designee; if the concern relates to the chair, then the written grievance may be submitted to the Dean who may appoint an alternate official to consider the grievance. For a non-academic matter, the grievance should be considered by an administrator with authority over the relevant area. The administrator considering the grievance will review the material provided by the student, and may, at the administrator’s discretion, gather any additional information that will be helpful to a decision, whether in writing or through meeting with the student or other persons involved. The administrator reviewing the grievance shall make a decision, in writing, within 10 working days after receiving the student’s grievance (excluding the day of receipt), or as soon as possible thereafter. The decision will
explain the basis for the decision, remedial steps required, if any, and the procedure for requesting an appeal.

**Appeals**

If the student believes the grievance decision is in error, then that person may, within 10 working days after the date of the written decision, appeal the decision to the relevant dean (for an academic matter) or to the relevant vice chancellor or a designee (for non-academic matters). The administrator considering the appeal will review the material provided by the student, the grievance decision, any other material which has been assembled regarding the matter, and any applicable university policies and may, at his or her discretion, gather any additional information that will be helpful to a decision, whether in writing or through meeting or consulting with any individuals deemed necessary in the administrator's discretion. The administrator reviewing the appeal shall make a decision, in writing, within 10 working days of receiving the student's grievance, as soon as possible thereafter. The appeal decision shall be final.

**External Complaint Resolution**

If a grievance cannot be resolved internally within the university, a student may file a complaint with the appropriate authority in his/her state of residence. Arkansas residents must file complaints in writing with the Arkansas Department of Higher Education (ADHE), 423 Main Street, Suite 400, Little Rock, AR 72201, within 20 days of completing the institution's grievance process. As required by ADHE, the grievant must provide a statement from the institution verifying that the institution's appeal process has been followed. ADHE inquiries are limited to courses/degree programs certified by the Arkansas Higher Education Coordinating Board (AHECB) under Ark. Code § 6#1301 and to matters related to the criteria for certification. For other states, the State Higher Education Executive Officers Association website (http://www.sheeo.org/node/434/), provides a list of appropriate state officials and/or entities for each state. Students may also contact the Higher Learning Commission of the North Central Association of Colleges and Schools (http://www.ncahlc.org/), which is the university's regional accrediting body, at 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604, or at inquiry@hlcommission.org or 1-800-621-7440. This information is provided pursuant to 34 CFR § 668.43(b).

**Grade Appeal Structure for Undergraduate Students**

If a student questions the fairness or accuracy of a grade, there is recourse through a student grade appeal structure. Disagreements shall be heard that allege the instructor’s policy was not applied consistently to all students, differed substantially from the announced policy, or that a policy was not announced. All grievances concerning course grades must be filed within one calendar year of the end of the term in which the grade that is being appealed was assigned. The procedures are:

The student should first discuss the matter with the instructor involved, doing so as soon as possible after receiving the grade. The instructor should be willing to listen, to provide explanation, and to be receptive to changing the grade if the student provides convincing argument for doing so. The student’s questions may be answered satisfactorily during this discussion.

If the student chooses to pursue the grievance and submits an appeal, the student shall take the appeal in written form to the appropriate department or unit chairperson of the program in which the course was instructed. The appeal should present the basis of the appeal and merits of the grievance with evidence the student may have to support the appeal. If that person determines the case has no merit, that person will inform the student and the instructor. If that person believes the complaint may have merit, that person will discuss it with the instructor. In the case that the department or unit chairperson is the instructor, the student should submit an appeal in written form to the appropriate dean of the college in which the course was instructed.

If the matter remains unresolved, it will be referred to an ad hoc committee composed of programmatic or departmental faculty. This committee would be appointed by the department or unit chairperson and should have at least three faculty representing the program or department in which the course was instructed. In the case where there are fewer than three faculty within the program or department to serve on the committee, faculty members from a closely related discipline will be appointed to serve. In the case where the department or unit chairperson is the instructor of the grievance, the ad hoc committee would be appointed by the appropriate dean of the college in which the course was instructed. The instructor whose grade is being challenged shall not serve on this ad hoc committee. The committee will examine available written information on the dispute, will be available to meet with the student and with the instructor, and will meet with others as it sees fit.

If the ad hoc faculty committee majority determines, through its inquiries and deliberations, that the grade should not be changed, the committee should communicate this conclusion to the student, the faculty member, and the chairperson. If the ad hoc faculty committee majority determines that the grade should be changed, the committee will request that the instructor make the change and provide the instructor with a written explanation. Should the instructor decline, he or she must provide an explanation for refusing to write the ad hoc faculty committee.

If the ad hoc faculty committee, after considering the instructor’s written explanation, concludes it would be unjust to allow the original grade to stand, it may then recommend to the department chairperson, or dean in the case where the department chairperson is the faculty whose grade is being challenged that the grade be changed. That individual (department chair or dean) will provide the instructor with a copy of the recommendation and will ask the instructor to implement it. If the instructor continues to decline, the chairperson or dean is then obligated to change the grade, notifying the instructor and the student of this action. Only the chairperson or dean has the authority to effect a grade change over the objection of the instructor who assigned the original grade, and only after the foregoing procedures have been followed.

**Student Privacy**

**Annual Notice of Student Rights Under the Family Educational Rights and Privacy Act (FERPA)**

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are as follows:

1. The right to inspect and review the student’s education records, with some exceptions under the Act, within 45 days of the day the university receives a request for access. Students should submit to the Office of the Registrar written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. A sample form, which may be used in making this request, is contained in the appendix to UA Systemwide Policies and Procedures 515.1 (http://www.ua.edu/policies/ua-system-policies/).

If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing and is also contained in UA Systemwide Policies and Procedures 515.1 (http://www.ua.edu/policies/ua-system-policies/).

3. The right to withhold consent of disclosure of directory information, defined as the following information: the student's name; address; telephone number; email address; major field of study; classification by year; number of hours in which enrolled and number completed; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance including withdrawal dates; degrees, scholarships, honors, and awards received, including type and date granted; and photograph.

This information will be subject to public disclosure unless the student restricts such information through the appropriate settings in UAConnect, the student information system, or informs the Office of the Registrar in writing that he or she does not want this information designated as directory information.

4. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the university in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the university has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an educational record to fulfill his or her professional responsibility. Upon request, the university also discloses education records without consent to officials for another school in which a student seeks or intends to enroll.

Postsecondary institutions may also disclose personally identifiable information from education records, without consent, to appropriate parties, including parents of an eligible student, in connection with a health or safety emergency. Under this provision, colleges and universities may notify parents when there is a health or safety emergency involving their son or daughter, even if the parents do not claim the student as a dependent.

There are several other exceptions to FERPA’s prohibition against non-consensual disclosure of personally identifiable information from education records, some of which are briefly mentioned below. Under certain conditions (specified in the FERPA regulations), a school may non-consensually disclose personally identifiable information from education records:

- to authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the U.S. Secretary of Education, and State and local educational authorities for audit or evaluation of Federal or State supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs;
- to the National Student Clearinghouse for enrollment and degree reporting;
- to organizations conducting studies for or on behalf of the school making the disclosure for the purposes of administering predictive tests, administering student aid programs, or improving instruction;
- to officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student’s enrollment or transfer;
- to comply with a judicial order or a lawfully issued subpoena;
- to the victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense concerning the final results of a disciplinary hearing with respect to the alleged crime; and
- to any third party the final results of a disciplinary proceeding related to a crime of violence or non-forcible sex offense if the student who is the alleged perpetrator is found to have violated the school’s rules or policies. The disclosure of the final results only includes: the name of the alleged perpetrator, the violation related to a crime of violence or non-forcible sex offense; and any sanction imposed against the alleged perpetrator. The disclosure must not include the name of any other student, including a victim or witness, without the written consent of that other student.

5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA. The name and address of the office that administers FERPA is as follows:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington DC 20202-4605

6. UA System Policy and Procedure 515.1 (http://www.ua.edu/policies/ua-system-policies/) serves as a supplement to the campus FERPA policy.

7. FERPA applies to students at the University of Arkansas at the point of their enrollment into courses.

Photographic and Video Images

The university is proud to publish and display photographic and video images of U of A students, their activities and accomplishments. Any student who does not wish to be represented in such photographic and video images by the university should choose to withhold photos on the FERPA option on the university’s student information system.

Transfer of Credit

The following policies control the granting of credit for course work taken at other institutions:

1. Transfer credits are subject to a two-stage evaluation process. First, the eligibility of the hours for transfer is evaluated by the Office of the Registrar based upon decisions of appropriate faculty,
Major stipulations of Act 182 are outlined below:

2. Grades earned at other institutions are not calculated in the student’s grade-point average earned at the university.

3. General transfer credit is awarded for courses in which a grade of “C” or higher has been earned. Course work must be applicable to a baccalaureate degree; credit is not granted for course work that is remedial or technical in nature.

4. Students can petition to have up to six hours of “D” grades transfer for degree credit to the University of Arkansas. Students must have a 2.00 GPA on a 4.00 scale to be considered, and courses must meet core or elective requirements in the student’s degree program. Courses outside the degree program and courses in the major cannot be considered for transfer. Transfer credit policy under Arkansas Act 182 from 2009 requires students transferring credit with grades of “C” or better from the receiving four-year public institution of higher education shall make all decisions regarding “D” transfers. Petitions can be obtained from the Office of the Registrar.

5. In the case of course work taken at institutions not fully accredited by a regional accrediting agency, transfer credit may be denied altogether or may be granted provisionally subject to successful completion of specified courses at the university. Normally, credit is provisionally granted only if the institution is a candidate for regional accreditation.

6. The State Minimum Core (SMC): Act 98 of 1989 requires each institution of higher learning in Arkansas to identify a minimum core of general education courses that shall be fully transferable between state-supported institutions. Under guidelines from the State Board of Higher Education, the SMC consists of 35 hours distributed among the following education areas: English, U.S. history or government, mathematics, science, fine arts and humanities, and social sciences. Students transferring credit with grades of “C” or better from the approved SMC of another state-supported institution in Arkansas may expect to have all these hours applied toward their degree at the University of Arkansas.

7. Transfer credit policy under Arkansas Act 182 from 2009 requires a four-year public institution of higher education in Arkansas to accept all credits earned from students earning an Associate of Arts, Associate of Science or Associate of Arts in Teaching degree from a state-supported public institution in Arkansas.

Students should be prepared to submit course descriptions and syllabi of transfer work if there is any question concerning acceptance of credit toward a degree program. The university reserves the right to revise credit for advanced standing after the student has been in residence.

Please refer to the appropriate college or school section of this catalog for additional information concerning acceptance into specific degree programs.

Military Transfer Credit

The University of Arkansas accepts transfer credit based upon completed military training as evaluated by the American Council of Education (ACE) guidelines and recommendations. The evaluation must be presented to the university on an official transcript from ACE, or a Joint Services Transcript (JST). Equivalencies for military credit as recommended by ACE are evaluated by departmental faculty and may not be exactly the same as ACE. University of Arkansas equivalencies for ACE credit are displayed on the website of the Office of the Registrar in the Transfer Credit section (http://registrar.uark.edu/transfer-and-test-credit/). Students may elect to receive 6 hours of general military science credit for basic training as evaluated by presentation of the military DD214 with honorable discharge. Officer training would qualify the student for 6 additional hours of general military science credit. The same training may not be presented for both general military science credit and ACE credit.

More information on transfer credit can be found online by going to the Office of the Registrar website (http://registrar.uark.edu/410.php).

Arkansas Course Transfer System (ACTS)
The Arkansas Course Transfer System (ACTS) is a postsecondary education resource service coordinated by the Arkansas Department of Higher Education (ADHE) that provides comparable course information to facilitate student transfer within Arkansas public colleges and universities. The ACTS database contains faculty-generated comparable course information for a number of courses offered at public institutions in Arkansas. Comparable courses within ACTS are guaranteed to transfer for full credit to any Arkansas public institution. Course transferability is not guaranteed for courses listed in ACTS as “No Comparable Course.” Find out more at the Arkansas Course Transfer System website (http://acts.adhe.edu/studenttransfer.aspx). Questions regarding ACTS may be directed to an academic adviser or the Office of the Registrar.

The chart below provides the University of Arkansas course equivalents for each of the ACTS courses offered on the campus. The ACTS course numbers are also identified in the course title of the equivalent U of A course.
Both this chart and the information in the course description are designed to assist students with identifying U of A courses that are guaranteed to transfer between Arkansas public institutions.

# University Core

## University Core Requirements

The University of Arkansas has adopted a “State Minimum Core” of 35 semester-credit-hours of general education courses that are required of all baccalaureate degree candidates. This is in compliance with Arkansas Act 98 of 1989 and the subsequent action of the Arkansas State Board of Higher Education. Since 1991, all state institutions of higher education in Arkansas have had a 35-hour minimum core requirement with specified hours in each of seven academic areas in the table below. The university has identified those courses that meet the minimum requirement, and they are listed in the chart below.

Students should consult the requirements for specific colleges and programs when choosing courses for use in the University Core.

* Some students majoring in math, engineering, science and business may be required to take a higher math as part of the State Minimum Core.

** Some students majoring in math, engineering, science, education and health-related professions may be required to take higher or specific science courses as part of the State Minimum Core.

*** Numbered at the 2000 level. See Department of World Languages, Literatures and Cultures (p. 385) in the J. William Fulbright College of Arts and Sciences chapter.

**** If not selected to meet the three hours of the U.S. History requirement.

## Rationale for U of A General Education Core

In order to prepare its students for lives of the highest individual quality and the greatest potential contribution to the making of a better world, the University of Arkansas has developed a comprehensive program of general education. Although the basic skills, knowledge, methodologies,
and judgments derived from experience in the core area set forth here may provide the basis for a major or professional concentration, the aims of these core requirements are not career specific. Rather, the following areas are designed to develop the tools for critical thinking and effective communication, an understanding of our richly diverse human heritage, the flexibility to adapt successfully to a rapidly changing world, a capacity for lifelong learning, and an enthusiasm for creativity.

**English/Communication (6 hours)**
Courses offered in this area are designed to develop the ability to organize ideas and to communicate them in grammatically correct written English with clarity, precision, and syntactical maturity. Freshman English courses taken at other universities will satisfy this requirement only if they are courses in composition. Students whose ACT scores in English are 18 or below must enroll in the sequence of courses **ENGL 0002**, **ENGL 1013**, and **ENGL 1023**. Students whose ACT scores in English are between 19 and 27 should enroll in **ENGL 1013** and **ENGL 1023**. Students with English ACT scores of 28 or above may enroll in Honors English (**ENGL 1013H** and **ENGL 1023H**) or regular English (**ENGL 1013** and **ENGL 1023**). Students with English ACT scores of 30 or above may take **ENGL 1013H** and **ENGL 1023H** or elect exemption. Some programs require credit in composition, and students should confer with their advisers before choosing exemption.

**Fine Arts/Humanities (6 hours)**
Courses presented in this area are drawn from the study of human thought, emotion, values, culture, and aesthetics. They are designed to develop the capacity for reflection, an appreciation of our own diverse culture and a tolerance of those foreign to us, and a heightened aesthetic and ethical sensibility. The courses are not performance-based, but offer students a basis for the gradual acquisition of broad cultural literacy.

**Mathematics (3 hours)**
Courses offered in this area are designed to develop the student’s ability to understand the diverse mathematical concepts that shape our increasingly technical culture. Core mathematics courses presuppose the ability to apply mathematical techniques at the level of high school algebra and geometry. The specific course(s) selected will depend upon each student’s curriculum, but no course below college algebra may be used to fulfill core requirements.

**Science (8 hours)**
A primary goal of these courses is to develop an appreciation of the basic principles that govern natural phenomena and the role of experiment and observation in revealing these principles. Students should acquire an understanding of the relationship between hypothesis, experiment, and theory, and develop the skills common to scientific inquiry, including the ability to frame hypotheses and defend conclusions based on the analysis of data. These courses are designed to prepare a student for informed citizenship by illustrating the importance of science and technology to the present and future quality of life and the ethical questions raised by scientific and technological advances.

**Social Science (9 hours)**
The purpose of the social science core is to introduce students to the breadth of inquiry in the social sciences—such as the study of ideas, the behavior of individuals, groups, institutions, and their interactions. The core should expose students to the history of and the challenges encountered in our complex, culturally diverse world.
Colleges and Schools

Five colleges and six schools offer academic programs leading to undergraduate degrees.

- The Dale Bumpers College of Agricultural, Food and Life Sciences (p. 104), which includes the School of Human Environmental Sciences (p. 161)
- The Fay Jones School of Architecture and Design (p. 173)
- The J. William Fulbright College of Arts and Sciences (p. 198), which includes the School of Art (p. 218), the School of Journalism and Strategic Media (p. 289), and the School of Social Work (p. 376)
- The Sam M. Walton College of Business (p. 394)
- The College of Education and Health Professions (p. 447), which includes the Eleanor Mann School of Nursing (p. 474)
- The College of Engineering (p. 512)

Freshmen and current students in all of the colleges and schools may also be eligible for admission to the Honors College. Students may also enroll in courses offered through the University of Arkansas Global Campus. Last, there are also two interdisciplinary minors that are administered outside these colleges and schools but which use the resources of more than one of them.

Honors College

Mission and Objectives

The Honors College at the University of Arkansas brings together high-achieving students and the university’s top faculty members in a learning environment characterized by discovery, creativity, and service. Founded in 2002 with a large portion of the $300 million gift from the Walton Family Charitable Support Foundation, the Honors College has a substantial endowment for undergraduate research, service learning and international education.

The Honors College builds a diverse, transformative community of students and faculty preparing graduates who excel professionally, flourish personally and lead globally. To achieve this mission, the Honors College collaborates with honors programs across campus to provide a flexible, interdisciplinary honors curriculum that fosters creative and critical thinking and inspires action. The Honors College encompasses the honors programs from each undergraduate college or school.

Facilities and Resources

The Honors College is housed in a 21,000-square-foot addition to Gearhart Hall, a historic Collegiate Gothic structure located in the heart of campus. Honors students enjoy a spacious lounge, study areas and rooms for group discussions. A 216-seat auditorium below provides space for lectures, film screenings and other events.

Hotz Honors Hall, situated in the heart of the northwest housing area, provides housing for 400 first-year honors students in spaces designed to foster community. Hotz offers a large room for relaxation on the main floor, a computer lounge, music room, conference rooms and a small theater. Each floor is equipped with study areas, alcoves for TV viewing and video gaming, and spa-style bathrooms. The Honors College offers special programming for Hotz residents and upper-level honors students in nearby dorms.

Degrees Offered

Honors programs are offered in all disciplines, tailored to students’ academic interests, with interdisciplinary collaborations encouraged. The college or school of major confers honors degrees. Only Honors College students can earn the distinction of graduating *cum laude*, *magna cum laude* or *summa cum laude*.

Other Programs

Honors College Grants

Each year the Honors College awards more than $1 million in study abroad and undergraduate research grants, which are available to honors students who submit competitive proposals and meet all other requirements. Honors College faculty and staff work closely with the Office of Study Abroad and International Exchange to help honors students find programs that best meet their academic and professional goals. Honors College grants support domestic and international research, internships, community engagement, study abroad and travel to an archive or conference. Deadlines and application instructions are available on the Honors College website at honorscollege.uark.edu.

Nationally Competitive Awards

The Honors College coordinates with the Office of Nationally Competitive Awards to provide assistance to all students who are applying for national and international graduate fellowships and scholarships (i.e. Marshall, Rhodes, Schwarzman, Truman, Udall, Gates Cambridge, Rotary, Fulbright, and National Science Foundation). For more information, refer to the Enrollment Services section of this catalog.

College Admission Requirements

To apply for honors, students should visit the Honors College website at honorscollege.uark.edu (http://honorscollege.uark.edu) and click on Apply. There they can review admission requirements and the honors program requirements in their college. Honors-eligible new freshmen should fill out the Honors College Application, available online. To register for honors classes in their first semester, they should apply before attending freshman orientation.

New transfer students and current students should contact the honors program director or assistant director in their college to determine eligibility and, for some programs, which form of honors (four-year or departmental) would best meet their needs. Then they should fill out the Honors College Application form. The list of honors program directors and both honors application forms are available online at honorscollege.uark.edu (http://honorscollege.uark.edu/).

The chart below contains basic requirements for each of the honors programs. For detailed information, see the individual honors program sections for each college or school in this catalog. Note that honors admission is based on the highest composite ACT or SAT score, not on superscores. In calculating GPA, extra weight is given only for Advanced Placement and International Baccalaureate courses.

Interdisciplinary Studies
Mission and Objectives
The University of Arkansas provides several options for students to pursue education more broadly than one field of undergraduate study might allow, including interdisciplinary and multidisciplinary programs. These programs allow broader instruction and research opportunities, especially in emerging fields that haven’t reached the academic breadth to constitute a full academic department or in cases in which collaboration between one or more departments allows faculty from each existing department to contribute to the interdisciplinary or multidisciplinary major.

In the Catalog of Studies (http://catalog.uark.edu/catalogofstudies/), requirements for each interdisciplinary program are listed in the chapter of the college or school that oversees the program.

Three interdisciplinary minors — Microelectronics-Photonics (p. 100), Nanotechnology (p. 102), and Planning (p. 104) — are not administered by a single academic department. The minor in Microelectronics-Photonics is administered by the Division of Interdisciplinary Studies in the Graduate School. The minor in Nanotechnology is administered by the Provost’s Office. The minor in Planning is jointly administered by the departments of Landscape Architecture and Political Science. The requirements for completing each minor are at their respective links.

E-mail: microEP@uark.edu (microEP@cavern.uark.edu)
http://microEP.uark.edu

Microelectronics-Photonics (microEP) is an interdisciplinary program based in the Division of Interdisciplinary Studies in the Graduate School that prepares students for careers involving micro/nano materials, processing, and devices applied in areas such as photonics, microelectronics, bio/chemical analysis, etc. The microEP Graduate Program offers M.S. and Ph.D. degrees, as well as an undergraduate minor in Microelectronics-Photonics.

The purpose of this minor is to allow undergraduates in science and engineering to be able to capitalize on the research and educational core of the microEP Graduate Program as they prepare to enter the job market or compete for positions in top level graduate programs.

Requirements for a minor in Microelectronics-Photonics:

Select one of the following: 3
- INEG 4323 Quality Engineering and Management
- INEG 4433 Systems Engineering and Management
- INEG 4443 Project Management

Select four of the following: 12
- BENG 4123 Biosensors & Bioinstrumentation
- CHEM 4213 Instrumental Analysis
University of Arkansas

Nanotechnology Minor Faculty Coordinators and Curriculum Committee
- Gregory Salamo, Distinguished Professor, Physics
- Min Zou, Associate Professor, Mechanical Engineering
- Jin-Woo Kim, Professor, Biological and Agricultural Engineering
- David Zaharoff, Assistant Professor, Biomedical Engineering
- Donald Keith Roper, Associate Professor, Chemical Engineering
- Gregory J. Thoma, Professor, Chemical Engineering
- Jingyi Chen, Assistant Professor, Chemistry and Biochemistry
- Fisher Yu, Assistant Professor, Electrical Engineering
- Steve Tung, Associate Professor, Mechanical Engineering
- Po-Hao Adam Huang, Associate Professor, Mechanical Engineering

The Nanotechnology minor is an interdisciplinary program that provides students with foundational knowledge and skills related to the emerging field of nanotechnology, including hands-on experience in several major areas of nanotechnology, such as synthesis of nanomaterials, nanoscale imaging, nanostructure assembly and manipulation, device and system integration, and performance evaluation. The Nanotechnology minor draws faculty expertise and coursework from the College of Engineering and the J. William Fulbright College of Arts and Sciences and utilizes state-of-the-art equipment and facilities at the Institute for Nanoscience and Engineering. The Nanotechnology minor is intended to prepare participating students for a career in which nanotechnology is playing an increasingly important role, and increase students' research competitiveness for graduate studies. The Nanotechnology minor is designed to be accessible to students majoring in engineering, physics, or chemistry and biochemistry. It is open to all students who have the necessary prerequisites to enroll in the courses that constitute the minor.

Requirements for the Nanotechnology Minor

Students wishing to participate in the Nanotechnology minor must declare participation formally. The students are required to meet with the faculty coordinator of an individual department who will help the student to develop a list of courses suitable for the minor and a schedule for taking those courses. Examples of model programs for each participating department are given below.

Students need to take a total of 15 credit hours, which includes 6 credit hours of required courses and 9 credit hours of elective courses and must earn a grade of "C" or better for all courses used to fulfill the requirements of the Nanotechnology minor.

Required Courses (6 hours)

Minor in Planning
A student who wants to minor in Planning should notify either the Department of Landscape Architecture or Political Science and consult an academic adviser. A Planning minor consists of 18 hours of required and elective courses subdivided into three concentrations. A student should choose one concentration and take 6 hours of elective courses in that concentration. The minor's required and elective courses include:

Required Courses:
- LARC 5386 Landscape Architecture Design VIII
- or LARC 5493 Environmental Land Use Planning
- and one 3 credit-hour elective from the Spatial Concentration

Electives
Select two courses from one group
- Policy Group:
  - ANTH 4443 Cultural Resource Management I
  - ANTH 5113 Anthropology of the City

Dale Bumpers College of Agricultural, Food and Life Sciences

Mission and Vision
The vision of the Dale Bumpers College of Agricultural, Food and Life Sciences is to lead Arkansas and the world by delivering pre-eminent programs in agricultural, food and life sciences that produce leaders through education, research and outreach.

The mission of the Dale Bumpers College of Agricultural, Food and Life Sciences is to improve the quality of life for Arkansans by preparing students for successful careers, conducting impactful research, and sharing knowledge to promote viable food and agricultural systems, sustainable environments, healthy families and vibrant communities.

History and Organization
As the state's land-grant university, the University of Arkansas has the responsibility for leadership in teaching, research, and service in the agricultural and human environmental sciences. This responsibility is shared with the Division of Agriculture.
The Bumpers College is an integral component of the University of Arkansas and addresses the teaching responsibility of the land-grant university. Its roots lie in the First Morrill Act of 1862, which created the land-grant system by providing a grant of land to each state for the establishment of a college “where the leading objective shall be, without excluding other scientific and classical studies and including military tactics, to teach such branches of learning as are related to agriculture and the mechanical arts in such manner as the legislatures of the state may prescribe to promote the liberal and practical education of the industrial classes in the several pursuits and professions of life.” Agricultural sciences have been taught at the University of Arkansas almost from the beginning of the institution in 1872. The university conferred the first degrees in agriculture in 1904.

Early instruction and outreach efforts focused on improving rural life for men, women, and children. Farm wives were interested in beautifying the home, food preparation and safety, and gardening. Foods and nutrition, bacteriology, chemistry, and other related subjects held a common scientific interest for both agriculture and home economics, so it naturally evolved that studies in home economics should develop within the realm of agricultural education. Domestic science classes were offered as early as 1909, and a department of home economics was established in 1913. The department was elevated to school status in 1994, and its name was changed to the School of Human Environmental Sciences.

The passage of the Hatch Act in 1887 and subsequent legislation made possible the Agricultural Experiment Station, the research component of the Division of Agriculture. Most faculty who teach in the Bumpers College also hold appointments in the Experiment Station and are able to incorporate active research into their teaching.

The dissemination of university research in agriculture and human environmental sciences is carried out by personnel in the Cooperative Extension Service, created by the Smith-Lever Act of 1914. Many Extension specialists also hold adjunct faculty status and bring their expertise to the teaching program.

It is this blending of teaching, research, and service functions that create a unique learning environment in the college. As students learn to relate basic areas of science to human needs, they study in laboratory-based classes and are taught in research facilities supported by the Division of Agriculture. Similarly, students are encouraged to intern with professionals in industry and governmental agencies, including the Cooperative Extension Service.

In recognition of the land-grant mission of the university and its commitment to serve the entire state, the Dale Bumpers College of Agricultural, Food and Life Sciences has worked cooperatively with numerous community colleges to facilitate the “seamless” transfer of students to the Bumpers College. Coordinated advising, recruiting, and curricula development are working goals of the Bumpers College and students interested in transferring while enrolled at a community college should contact the Bumpers College dean’s office at 479-575-2252 or aflsdean@uark.edu (20aflsdean@uark.edu).

Facilities and Resources
The Dale Bumpers College of Agricultural, Food and Life Sciences is composed of nine academic departments and the School of Human Environmental Sciences. The college offers both undergraduate and graduate level degrees.

The Agricultural, Food and Life Sciences Building houses the Dean’s Office, the Department of Agricultural Education, Communications and Technology, and the Department of Animal Science and serves as the headquarters for the college academic functions. There are six other buildings on campus operated by the college including the Agriculture Building, Human Environmental Sciences Building, Rosen Center, Plant Science Building, Agricultural Annex, and the Center of Excellence for Poultry Science. Additionally, the Don Tyson Center for Agricultural Sciences, the Food Science Building, Alzheimer Laboratory, Abernathy Agriscience and Technology Center, Pauline Whitaker Animal Science Arena, and the Dorothy E. King Equine Science facilities are located at the Research and Extension Center north of the main campus. These serve as additional teaching laboratories or classroom facilities. Also, the Jean Tyson Child Development Study Center is managed by the college to provide instructional training for the child development program.

Several classrooms are equipped with “class capture” technology to allow students to view lectures online and to aid distance education courses. Students can receive academic assistance through resources provided by the dean’s office. Students can also seek assistance through the Class+, a campus-wide resource.

College Scholarships
In addition to the scholarships awarded by the university, there are a number of scholarships available to students in agricultural and human environmental sciences made possible by generous gifts from many firms and individuals. To be considered for a college scholarship, students must first be admitted to the university. Most scholarships require students to be enrolled full-time, at least 12 credit hours per semester. A college scholarship application, which serves as an application to all available scholarships offered by the college and/or individual departments, must be submitted each year. For additional information, please see the Bumpers College Scholarship website (https://bumperscollege.uark.edu/future-students/scholarships.php). A listing of various outside scholarships is available for review on the college’s web site. There are also miscellaneous outside scholarships for which applications are available in some departmental offices. For more information on scholarships, contact the dean’s office.

Student Organizations
Agricultural Business Club is for students interested in agricultural business and economics.

Agricultural Communicators of Tomorrow (ACT) is designed for students with an interest in agricultural communications.

Agricultural Mechanization Club is a student organization for those with an interest in agricultural systems technology management.

American Association of Family and Consumer Sciences (AAFCS) offers student membership to all human environmental sciences majors. Monthly meetings highlight various phases of human environmental sciences and provide social contact with other majors. In addition, members become involved in local service projects and may attend statewide workshops and leadership training sessions.

Association for American Textile Chemists and Colorists (AATCC) is an organization open to all students interested in the fashion industry.

Collegiate FFA is for any student who has been active in 4-H or FFA or has a current interest in service to these youth-oriented organizations. This club is especially designed for students interested in teaching agricultural education or working for the Cooperative Extension Service.
Collegiate Farm Bureau helps prepare tomorrow's agricultural leaders. Through Collegiate Farm Bureau, members get the opportunity to take part in shaping agricultural issues and in setting the current Farm Bureau legislative agenda at the county, state, and national levels.

Crop, Soil, and Environmental Science Club is a student organization for those interested in crops and soils through both an agricultural and environmental perspective.

Food Science Club is an organization for those students interested in food science.

Friends of the Infant Development Center is a student organization comprised of parents of children who are currently attending the Infant Development Center, and other friends of the IDC.

Horticulture Club is a student organization for those interested in horticulture including floriculture, ornamentals, turf, small fruits and vegetables.

Isely-Baerg Entomology Club is open to those who wish to stimulate interest in the field of entomology, perform outreach programs for the public and to promote and encourage professional exchange of ideas in the field of entomology.

Minorities in Agriculture, Natural Resources Related Sciences (MANRRS): The purpose of this organization is to promote and implement initiatives which foster inclusion and advancement of members of ethnic/cultural groups under-represented in the agricultural and natural sciences and related fields in all phases of career preparation and participation.

Block and Bridle Club is for students who are interested in any phase of animal science. Students with interests in horses, cattle, sheep, dogs, cats, or swine will find this club a good place to become involved.

Plant Pathology Graduate Student Association (PPGSA) is an organization open to graduate students interested in plant pathology or related fields.

Poultry Science Club is open to all students interested in any phase of the poultry industry or related fields.

Poultry Science Graduate Student Association is open to all graduate students interested in any phase of the poultry industry or related fields.

Pre-Vet Club is for students interested in veterinary medicine and is especially designed for those students in the pre-veterinary medicine curriculum.

Professional Convention Managers Association is for students interested in the profession of hospitality, restaurant management and related fields.

Student Dietetic Association (SDA) is open to any student interested in the field of dietetics. Activities are designed to inform members of the field of dietetics and to spread information to the public. Membership provides an excellent opportunity to interact with dietetics professionals and a change to work with the community.

Turf Club is a student organization open to all students interested in turfgrass management.

There are also numerous general organizations on the university campus, and students of the Dale Bumpers College of Agricultural, Food and Life Sciences participate in most of them. These include fraternities, sororities, honor and scholarship organizations, religious and music groups, sports organizations, and others.

Alpha Tau Alpha is a national honorary professional fraternity for those preparing to become teachers of agricultural education. Its mission is to develop a true professional spirit in the teaching of agriculture, to help train teachers of agriculture who shall be leaders in their communities, and to foster a fraternal spirit among students in teacher training in agricultural education.

Alpha Zeta is the professional honor fraternity for students of agriculture. To be invited to become a member, a student must rank in the upper two-fifths of the class and be recognized for leadership and character.

Eta Sigma Delta is the professional honor society for those students studying within the Hospitality Management major in the School of Human Environmental Sciences.

Gamma Sigma Delta is the honor fraternity for graduating seniors, graduate students, faculty, and alumni of the Dale Bumpers College of Agricultural, Food and Life Sciences. Seniors must rank in the upper 25 percent of their class to be eligible for membership, but not more than 15 percent of the class may be elected for membership. The highest-ranking sophomore and the highest-ranking senior are recognized annually by the society.

**Academic Advising**

Bumpers College advising mission is to enhance the educational experience and maximize opportunities for students. Therefore, we are committed to a strong, effective academic advising program. Advising plays a significant role in the total process of educating students for lifelong learning. The adviser assists students with the development and implementation of their educational plans.

Research demonstrates that the more contact students have with faculty, the more likely they are to persist and complete their educational goals in a timely manner. The Bumpers College adviser serves as a facilitator to assist students in maximizing their education potential. The advising relationship is a partnership between the student and the Bumpers College adviser that is dependent on effective communication and regular contact.

**Selection of a Major**

A student who elects to major in some area of study in the college should plan the program with a Bumpers College adviser. While undecided students are welcome, early selection of a major will permit better planning and proper sequencing of courses. The student and Bumpers College adviser work closely to ensure that curriculum requirements are met in a timely fashion. A student uncertain about a major will be advised as an undeclared major through the Bumpers College student services office (AFLS E202).

**Degrees Offered**

All entering students (including freshmen, international and transfer students) admitted to the University of Arkansas, Fayetteville, are eligible to pursue a degree program in the Dale Bumpers College of Agricultural, Food and Life Sciences. Undergraduate degrees offered are as follows:

- The Bachelor of Science in Agricultural, Food and Life Sciences (B.S.A.)
- The Bachelor of Science in Human Environmental Sciences (B.S.H.E.S.)
Graduate Studies
The Graduate School of the university, in cooperation with the Dale Bumpers College of Agricultural, Food and Life Sciences, offers the Master of Science degree in each of its nine departments and in the School of Human Environmental Sciences. Six doctoral degrees are offered. More detailed information regarding individual programs may be obtained by contacting the administrative office of each department, or by consulting the Graduate School Catalog.

Accreditations
The Bachelor of Science in Human Environmental Sciences (B.S.H.E.S.) degree programs are accredited by the Council for Professional Development of the American Association of Family and Consumer Sciences. The degree program in nutrition is accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics. The Jean Tyson Child Development Center is accredited by the National Association for the Education of Young Children (NAEYC). The Bachelor of Science in Agricultural, Food and Life Sciences (B.S.A.) in food science is accredited by the Institute of Food Technologists. Teacher education programs in agriculture and family and consumer sciences are coordinated with educational programs in the College of Education and Health Professions and are accredited by the National Council for Accreditation of Teacher Education (NCATE).

Study Abroad
An educational experience outside the U.S. has become an integral component for today's student in higher education. The ability to compete and perform in the global arena requires an understanding of world cultures, economic systems, religions, trends, governments and politics. Students in the Bumpers College are encouraged to engage in study abroad that will lead to life-long partnerships, cultural awareness and understanding of the global dimensions of their majors. The college years provide the best opportunity for students to gain this understanding and experience through faculty-led study tours; summer, semester or year-long study abroad; and international internships or research experiences which closely relate to their career goals.

The mission of the International Programs Office is to provide structured international experiences that enhance the marketability of students for career and academic opportunities through faculty driven, sustainable initiatives. The office serves to support faculty, students, international partners, and university leadership to increase opportunities for students to engage in faculty-led programs, internships, exchange programs, and study abroad activities that include research. The International Programs Office works closely with the UA Study Abroad Office and seeks opportunities for students to engage in international career preparation and workforce ready development. In 2017-2018, the International Programs Office provided $41,000 to support students and faculty, and 70 Bumpers College students studied abroad. For more information, visit our website at bumpersinternational.uark.edu (http://bumpersinternational.uark.edu).

Graduate opportunities are available for study in agricultural economics, agribusiness and related subjects via the UA’s TransAtlantic Master of Science program at Ghent University, Belgium. Second language capability is helpful, but not required.

Bumpers College students interested in a study abroad program or internships with full-time status usually can maintain their scholarships while abroad. Limited funding is available for travel grants through Bumpers and Honors colleges.

College Admission Requirements
All students seeking admission to the Dale Bumpers College of Agricultural, Food and Life Sciences must meet the general requirements for admission to the university. Students transferring from other colleges at the University of Arkansas or from other institutions are expected to meet the same entrance standard.

College Academic Requirements
All students must satisfy the following university graduation requirements

1. Complete a minimum of 120 semester hours.
2. Fulfill University Core Requirements of 35 hours. Go to the University Core (p. 97) for a list of courses that meet the requirements. Check requirements for each major as some majors require specific core courses as prerequisites to upper level courses.
3. Earn a grade-point average of 2.00 (“C” average) on all work attempted at the University of Arkansas.
4. All students must meet the university enrollment requirements found on the Academic Regulations (p. 91) page.

Specific Degree Requirements
1. To fulfill the residency requirements of the degree of Bachelor of Science in Agricultural, Food and Life Sciences, students must complete a minimum of 36 hours of courses at the 3000-level or above. In addition, a minimum of 9 hours of broadening electives (Bumpers College courses taken outside the departmental code) must be completed.
2. To fulfill the residency requirements of the degree of Bachelor of Science in Human Environmental Sciences, students must complete a minimum of 30 hours within the School of Human Environmental Sciences at the University of Arkansas.
3. In addition to university requirements students must meet other defined degree requirements specific to each major and concentration. Bumpers College courses outside of the major may be included in degree requirements.
4. General electives will vary by major. Electives may be selected to meet the requirements for a minor; however, all elective credits are subject to approval of the academic adviser.

Rules Applying to Course Work Used for Degree Credit
1. No credit will be given for duplicate coursework.
2. A maximum of six hours of internship and six hours of special problems may be counted for degree credit.
3. A total of six semester hours of elective credits in university band, chorus, judging teams, drama, debate, physical education, etc., may be counted toward a degree.
4. Any self-paced online (correspondence) course taken must be approved in advance in the dean’s office if the credits earned in the course are to be applied toward a degree. This rule applies regardless of the school from which the course is taken. Responsibility to secure approval is the student’s.
5. All transfer course work to be applied toward the degree must be an approved course listed in the transfer equivalency guide maintained by the Registrar’s office. For courses not listed in the guide, petitions
can be submitted to the Dean’s office by the student and his or her academic adviser.

6. All study abroad courses must be approved in advance in the student’s academic department and by the Study Abroad Office if the credits earned in the courses are to be applied toward a degree.

7. Former students of the college who are readmitted after an absence of one year may be expected to meet the curriculum requirements in effect at the time of their readmission. Students should consult their academic adviser for degree planning before registering for classes.

8. Students interested in earning an additional bachelor’s degree should refer to the university requirements (p. 91).

Honors and Scholars

After the end of each semester, all colleges and schools in the university publish an honor roll of the names of the undergraduate students who achieve a 3.75 to 4.00 grade-point average. Students are eligible for the honor roll if they are carrying at least 12 semester hours normally required for graduation by their college for their respective year. This honor roll is the Dean’s List.

In addition, a Chancellor’s List is published each semester to recognize those undergraduate students who achieve a 4.00 grade-point average. Students must also be carrying at least 12 semester hours normally required for graduation to be eligible for the chancellor’s list.

Requirements to Graduate with Honors

Students who have demonstrated exceptional academic performance in baccalaureate degree while completing the Honors Program in the Bumpers College will be recognized at graduation by the honors designations of cum laude, magna cum laude, or summa cum laude. To earn such designation, students must meet the following criteria:

1. Must have completed at least one-half of his or her degree work at the University of Arkansas.
2. Must have at least a 3.5 GPA on University of Arkansas course work, computed at graduation.
3. Must successfully complete the Bumpers College Honors Program, which includes a minimum of 9 hours of honors course work, 6 hours of honors thesis, and a completed honors capstone research or creative project culminating in a written thesis documenting the project.
4. For cum laude, the student must achieve a cumulative U of A GPA of 3.5 to 3.74.
5. For magna cum laude, the student must achieve a cumulative U of A GPA of 3.75 to 3.89.
6. For summa cum laude, the student must achieve a cumulative U of A GPA of 3.9 to 4.00.

These criteria may be evaluated and changed periodically by the College of Agricultural, Food and Life Sciences.

Requirements to Graduate with Distinction

Students who have not completed the Bumpers College Honors Program, but have demonstrated excellent academic performance in baccalaureate degree programs in the Bumpers College will be recognized at graduation by the designation of “with distinction,” “with high distinction,” and “with highest distinction.” To earn this designation, students must meet the following criteria:

1. Must have completed at least one-half of his or her degree work at the University of Arkansas.
2. Must have at least a 3.5 GPA on University of Arkansas course work, computed at graduation.
3. For “with distinction,” the student must achieve a cumulative U of A GPA of 3.5 to 3.74.
4. For “with high distinction,” the student must achieve a cumulative U of A GPA of 3.75 to 3.89.
5. For “with highest distinction,” the student must achieve a cumulative U of A GPA of 3.9 to 4.00.

These criteria may be evaluated and changed periodically by the College of Agricultural, Food and Life Sciences.

Grading System

The Dale Bumpers College of Agricultural, Food and Life Sciences utilizes a plus/minus grading system that assigns numerical values to 12 different grades. These values are used for courses when grade-point averages are calculated.

The 12-step grading system with assigned values is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>

Pre-veterinary Medicine

Because Arkansas does not have a college of veterinary medicine, the Arkansas General Assembly has authorized funds for education in veterinary medicine at out-of-state institutions. The State Board of Higher Education is the designated agent for the State of Arkansas, and the Student Loan Authority is authorized to administer the program. Terms and conditions prescribed by the Student Loan Authority are as follows: the grant will cover only out-of-state tuition, and the student will pay his or her own fees and expenses. Additional information regarding this program can be found at: www.adhe.edu (http://www.adhe.edu/)

Contracts have been negotiated with the Board of Control for Southern Regional Education for education in veterinary medicine at Louisiana State University and at Tuskegee University. Arrangements have also been made with the University of Missouri and Oklahoma State University. Under the provisions of the legislation, only citizens of Arkansas are eligible. They must enroll in and complete the pre-veterinary medicine curriculum to satisfy the admission requirements of these colleges of veterinary medicine.

Arkansas Act 881, passed in 2011, established a loan repayment program for Arkansas residents who attend Mississippi State University College of Veterinary Medicine. The loan repayment program will assist
Arkansas residents with the repayment of federally funded student loans incurred while attending veterinary school at Mississippi State University. Beginning in April 2012, participants in the program will be required to practice in the state of Arkansas for up to five consecutive years with a minimum of 30 percent of their practice devoted to food or mixed animal medicine in rural areas of Arkansas. This may include corporate or private veterinary practice.

The pre-veterinary medicine program at the University of Arkansas is administered in the departments of Animal Science and Poultry Science of the Dale Bumpers College of Agricultural, Food and Life Sciences. There are faculty in these departments who help counsel and advise students regarding their pre-veterinary medicine program. There are also faculty veterinarians who provide some insight into the practice of veterinary medicine and are knowledgeable about many of the considerations encountered in establishing a practice upon graduation. Some of these veterinarians have been in private practice; others have been involved in full-time agricultural research since graduation from veterinary medicine and graduate school. Because there is a wide cross-section of experience among these faculty, students find their counsel valuable in planning a future in veterinary medicine.

While it is possible to complete requirements for admission to some colleges of veterinary medicine in two years, most students take three years or more to complete the requirements, and most complete a B.S. degree before being admitted. Students who carefully plan their work may complete a B.S. degree by transferring hours earned in the first two years at an accredited college of veterinary medicine back to the University of Arkansas, provided they complete certain degree requirements at the university prior to entering a school or college of veterinary medicine. These students must complete a minimum of 94 hours of a 124-hour program of prescribed courses. This will require three years and one or two 6-week summer terms for most students. Therefore, students should inform their advisers early in their program that they wish to be in a pre-vet degree program.

The Bumpers College of Agricultural, Food and Life Sciences is ready to assist students in fulfilling their pre-veterinary medicine requirements whether they desire to complete them in a two-year span or over three or four years. The supporting departments at the university, including chemistry, English, and biological sciences, all offer quality courses that give a student an excellent background for the pursuit of a degree in veterinary medicine.

To earn the professional degree, a student must complete the pre-veterinary medicine requirements and the four-year prescribed curriculum in one of the colleges of veterinary medicine.

**Required Examinations:** All required examinations are given on campus and administered by testing services (97 N. Razorback Road, phone: 479-575-3948, email: testing@uark.edu). Exams must be taken by late summer of the year prior to entering vet school. Students interested in taking examinations should contact testing services to schedule an examination date. All contract schools accept the Graduate Records Exam (GRE), which is given frequently.

**Applications:** Students applying to Louisiana State University, Oklahoma State, Tuskegee University, Mississippi State University and University of Missouri must fill out a Veterinary Medical College Application Service (VMCAS) form, available at their online site (www.aavmc.org). Students must complete the application and have it submitted by September 15th of the year prior to beginning studies. Since requirements for the various veterinary schools periodically change, it is important that students check with their advisers about specific school requirements as they progress through the pre-veterinary requirements.

All students should contact the Coordinator of Veterinary Medicine, Dale Bumpers College of Agricultural, Food, and Life Sciences, AFLS B114, University of Arkansas, Fayetteville, AR 72701, phone 479-575-4351 in the spring prior to making fall application for admission to a veterinary school to verify that they can complete the requirements for the school they wish to attend. Pre-professional requirements and specific requirements for admission to colleges of veterinary medicine at Louisiana State University, Oklahoma State University, University of Missouri, Mississippi State University and Tuskegee University are listed with information on the Web at www.aavmc.org.

**Bumpers College Honors Program**

The mission of Bumpers College Honors Program is to provide students with opportunities to participate in academic, research and creative activities beyond the traditional undergraduate experience. This is accomplished through honors courses, completion of an undergraduate honors thesis, and other significant activities. Students must maintain a GPA of 3.50 and subscribe to the Statement of Ethical Standards to remain in the program.

**Statement of Ethical Standards:**

“As a member of the Bumpers College Honors Program, I pledge to uphold the ethical standards of honesty and trustworthiness in all academic and research/creative activities. I recognize that it is a privilege to be a member of the University of Arkansas Honors College and will dedicate my efforts to ensure that the highest levels of ethical standards are maintained.”

**Student Eligibility Requirements**

There are several avenues by which qualified candidates can become eligible to participate in the Bumpers College Honors Program. Students will receive an invitation to participate in the Honors Program if they are incoming freshmen with an ACT of at least 28 or a high school GPA of at least 3.50. Transfer students will be invited if they transfer no more than 62 hours with a college GPA of at least 3.50. Currently enrolled freshman and sophomore students who have completed less than 62 hours with a college GPA of 3.50 or greater may apply for admission to the Honors Program through the Honors College website (http://honorscollege.uark.edu/). Students wishing to join the Honors Program after completing 62 hours of college credit may petition for admission by submitting a plan of study to the Bumpers College Honors Program Director documenting how they propose to incorporate the Honors Program requirements into their remaining degree requirements.

To be eligible for continued participation in the Honors Program, students must maintain a cumulative 3.5 GPA and actively work toward earning an Honors degree designation. Students will be considered academically ineligible when:

- A student’s cumulative GPA is below 3.5 for two consecutive terms or
- A student’s cumulative GPA is below 3.0 for one term.

Students are required to prepare a proposal for study and identify an honors mentor who mutually agrees to the topic proposed by the end of 80 hours of course credit completion.

**Honors Orientation**
All entering freshman honors students are required to complete AFLS 1023H. This course will cover the requirements of UNIV 1001 and provides an overview of the Bumpers College Honors Program, program requirements, research and creative project requirements, and to introduce all honors students to potential undergraduate student mentors as a part of the Honors Mentor/Mentee program.

Honors Curriculum

Graduation with Honors Distinction from the College requires that each student must complete 15 credit hours in the Honors Program. Each student must complete at least 9 credit hours of Honors courses, three of which must include AFLS 3413H. In addition, each student must complete at least 3 credit hours of thesis hours with a faculty mentor on the student’s honors committee and thesis culminating their program. In addition to honors courses taken within Bumpers College, students are also encouraged to take Honors courses in other colleges as well.

Students are encouraged to complete 6 credit hours of Honors courses during their freshman year. This will qualify students for research and international program funding from the Honors College.

Honors Project

All honor students are required to develop and complete an honors thesis or creative project appropriate for their degree and interests to graduate from the Honors Program. Traditional research projects, such as laboratory and field studies and surveys are encouraged and welcomed in addition to novel methods of research that may be accomplished at sites other than on campus or on research stations. Creative projects are also allowed with the approval of the student’s Honors Committee and a final written document is required. The thesis or creative project should consist of at least one semester of proposal preparation, one semester of data collection or creative design, and one semester of thesis preparation. Honors students are encouraged to develop proposals for funding of their projects, as well as to conduct and present their results.

The student’s Honors Mentor and Honors Committee prior to graduation from the Honors Program will approve the honors thesis or creative project. Upon approval and graduation, an original copy of the honors document will be submitted to the University Library. Publication of the thesis in an appropriate venue is encouraged. Creative and research thesis project guidelines are available on the Bumpers College Honors Program website (http://bumpershonors.uark.edu/).

To support their research or creative projects, participants in the Honors Program are eligible to apply for undergraduate research grants from the Arkansas Student Undergraduate Research Fellowships (SURF) program awarded by the state, the University Honors College, and from the Bumpers College. The results of the student’s original research or creative project can be published in Discover, the undergraduate research journal of the Bumpers College or Inquiry: The University Journal of Undergraduate Research and Creative Activity. Honors students can also apply to the Honors College for Study Abroad and conference grants and to the Bumpers College Study Abroad program. Students who have fulfilled the requirements of the Bumpers College Honors Program will be recognized as graduating with Honors Program Distinction. The transcript and diploma will designate the student as an honors program graduate of the college. At the college commencement ceremony, each honors graduate will wear special regalia, have the title of his or her honors thesis and mentor’s name listed in the graduation program, and be recognized separately as part of the Bumpers College Honors Program graduates.

Honors Graduation

Honors students enrolled in the Honors Program will be expected to perform at very high levels of achievement, earning credentials beyond the classroom experiences. Therefore, they will be eligible for several privileges during commencement not accorded to other students in the College.

Bumpers College honors students will graduate as a body and as members of the Honors Program at the College Commencement each spring. Separate regalia consisting of appropriate honors hood, stole, braid, tassel, and/or mortarboard will distinguish all students in the Honors Program. Students graduating from the Honors Program will be further distinguished from students receiving traditional College and University recognition of scholastic achievement (distinction, high distinction, or highest distinction) by graduating cum Laude with Honors Distinction, Magna cum Laude with Honors Distinction, or Summa cum Laude with Honors Distinction if cumulative grade point averages of 3.5 to 3.74, 3.75 to 3.89, or above 3.9 are maintained, respectively.

Incentives for student participation in the Honors Program include:

- Transcripts of honors students will specify that they are graduates of the College Honors Program.
- Honors students may request project support by applying for a grant from Bumpers College Undergraduate Research and Creative Project Grant Program.
- Honors students have the benefit of working one-on-one with faculty members on research or creative projects.
- Honors students will be eligible to apply for competitive scholarships supporting undergraduate honors studies or research (i.e., SURF grants).
- Honors students will receive all other rights and privileges as outlined in the Honors College benefits.

Agricultural Economics and Agribusiness (AEAB)

Kelly Bryant
Interim Department Head
217 Agriculture Building
479-575-2258

Department of Agricultural Economics and Agribusiness Website (http://agribus.uark.edu/)

The Department of Agricultural Economics and Agribusiness offers a major with three concentrations that lead to a Bachelor of Science in Agriculture degree. The department also offers a minor in Agricultural Business and a minor in International Economic Development. The minor in Agricultural Business can be completed 100% online.

The agricultural business major provides education suited to career opportunities in farm management, agricultural business management, and agricultural marketing in both the domestic and international areas.

Managers of farms and agricultural businesses are continually required to make organizational and operational decisions. The basic skills and knowledge needed for making sound decisions are provided by the agricultural business curriculum. Students may elect to specialize in areas compatible with their personal objectives, depending on the extent of accounting and business orientation desired.
Students educated in agricultural business are in demand for positions in agricultural industries, farm operation, marketing agencies, agricultural service organizations, state and federal agencies, and numerous other positions. For those who go on to graduate school, teaching and research positions are available with land-grant colleges as well as with other institutions. Three concentrations are available to meet career objectives:

1. Agricultural Business Management and Marketing (ABMM)
2. Pre-Law, for students preparing to attend law school (PRLW)
3. Agricultural Economics, which emphasizes quantitative and analytical skills to prepare students for graduate school (AGEC).

**Requirements for a Major in Agricultural Business (AGBS)**

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

**Communications**

- 6-12
- Select English Core Courses (6 hours unless exempt)
  - COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003)
- Select one of the following:
  - AGED 3143 Communicating Agriculture to the Public
  - AGED 4003 Issues in Agriculture
  - AGED 4943 Communication Campaigns in Agriculture
- COMM 2303 Advanced Public Speaking
- COMM 2323 Interpersonal Communication
- COMM 2343 Introduction to Small-Group Communication
- COMM 3383 Persuasion
- CSES 3023 Crop, Soil, and Environmental Sciences Colloquium
- ENGL 2003 Advanced Composition
- ENGL 2013 Essay Writing
- ENGL 3053 Technical and Report Writing (ACTS Equivalency = ENGL 2023)

**U.S. History or Government**

- 3
- Select U.S. History or Government Core Course

**Mathematics**

- 3
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (or higher MATH course from the University Core excluding MATH 2183)

**Science**

- 8
- Select 2 Science Courses from University Core (8 total hours)

**Fine Arts and Humanities**

- 6-7
- Select Fine Arts and Humanities Core Courses

**Social Sciences (9 hours)**

- 9
- Select one of the following:
  - PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103)
  - SOCI 2013 General Sociology (ACTS Equivalency = SOCI 1013)
  - HDFS 2603 Rural Families and Communities
- Select one of the following:
  - AGEC 1103 Principles of Agricultural Microeconomics

**ECON 2023** Principles of Microeconomics (ACTS Equivalency = ECON 2203)

Select one of the following:

- AGEC 2103 Principles of Agricultural Macroeconomics
- ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103)

**AEAB Requirements**

- 33
- AGEC 2142 Agribusiness Financial Records
- AGEC 2141L and Agribusiness Financial Records Lab or ACCT 201 Accounting Principles
- AGEC 2303 Introduction to Agribusiness
- AGEC 3303 Food and Agricultural Marketing
- AGEC 3403 Farm Business Management
- AGEC 3503 Agricultural Law I

Select two of the following (AGEC 4603 may be used only in one block):

- AGEC 3413 Principles of Environmental Economics
- AGEC 4163 Agricultural and Rural Development
- AGEC 4603 Food Economics and Health
- AGEC 4613 Political Economy of Agriculture and Food
- AGEC 4623 International Agricultural Trade and Commercial Policy

Select two of the following (AGEC 4603 may be used only in one block):

- AGEC 3313 Agribusiness Sales
- AGEC 3373 Futures and Options Markets
- AGEC 4113 Agricultural Prices and Forecasting
- AGEC 4303 Agribusiness Marketing Management
- AGEC 4383 Basis Trading: Case Study
- AGEC 4603 Food Economics and Health

Select two of the following:

- AGEC 4143 Agricultural Finance
- AGEC 4313 AgriBusiness Entrepreneurship
- AGEC 4403 Advanced Farm Business Management

**Additional Requirements for Agricultural Economics Concentration (46-52 hours):**

**Math and Statistics**

- 6-7
- MATH 2053 Finite Mathematics (or higher MATH course from the University Core excluding MATH 2183)

Select one from the following:

- AGEC 2403 Quantitative Tools for Agribusiness
- AGST 4023 Principles of Experimentation
- WCOB 1033 Data Analysis and Interpretation
- STAT 4003 Statistical Methods & STAT 4001L and Statistics Methods Laboratory

**Agricultural Economics Concentration**

- 15
- ECON 3033 Microeconomic Theory
- ECON 3133 Macroeconomic Theory

Choose nine hours from MATH or STAT or upper division electives from AGEC or WCOB.
General Electives 1 24-31
Total hours 120

1 New freshmen will enroll in UNIV 1001 for 1 hour of general elective credit.

The approved list of courses, check sheet, and degree program for all concentrations is available in the Agricultural Economics and Agribusiness departmental office.

Agricultural Business B.S.A. with Agricultural Economics Concentration
Eight-Semester Degree Program

Students wishing to follow the degree plan in Agricultural Economics and Agribusiness should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. The Agricultural Economics and Agribusiness major has three concentrations: Agricultural Business Management and Marketing, Pre-Law, and Agricultural Economics.

U.S. History or Government 3
  Select U.S. History or Government Core Course

Mathematics 3
  MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (or higher MATH course from the University Core excluding MATH 2183)

Science 8
  Select 2 Science Courses from University Core (8 total hours)

Fine Arts and Humanities 6-7
  Select Fine Arts and Humanities Core Courses

Social Sciences (9 hours) 9
  Select one of the following:
    PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103)
    SOCI 2013 General Sociology (ACTS Equivalency = SOCI 1013)
    HDFS 2603 Rural Families and Communities
  Select one of the following:

  AGEC 1103 Principles of Agricultural Microeconomics
  ECON 2023 Principles of Microeconomics (ACTS Equivalency = ECON 2203)

Select one of the following:
  AGEC 2103 Principles of Agricultural Macroeconomics
  ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103)

AEAB Requirements 33
  AGEC 2142 Agribusiness Financial Records
  AGEC 2141L Agribusiness Financial Records Lab
  or ACCT 201 Accounting Principles
  AGEC 2303 Introduction to Agribusiness
  AGEC 3303 Food and Agricultural Marketing
  AGEC 3403 Farm Business Management
  AGEC 3503 Agricultural Law I
  Select two of the following (AGEC 4603 may be used only in one block):
    AGEC 3413 Principles of Environmental Economics
    AGEC 4163 Agricultural and Rural Development
    AGEC 4603 Food Economics and Health
    AGEC 4613 Political Economy of Agriculture and Food
    AGEC 4623 International Agricultural Trade and Commercial Policy
  Select two of the following (AGEC 4603 may be used only in one block):
    AGEC 3313 Agribusiness Sales
    AGEC 3373 Futures and Options Markets
    AGEC 4113 Agricultural Prices and Forecasting
    AGEC 4303 Agribusiness Marketing Management
    AGEC 4373 Basis Trading: Applied Price Risk Management
    AGEC 4383 Basis Trading: Case Study
    AGEC 4603 Food Economics and Health
  Select two of the following:
    AGEC 4143 Agricultural Finance
    AGEC 4313 Agricultural Business Management
    AGEC 4323 AgriBusiness Entrepreneurship
    AGEC 4403 Advanced Farm Business Management

Additional Requirements for Agribusiness Management and Marketing Concentration (45-52):

Statistics 3
  Select one of the following:
    AGEC 2403 Quantitative Tools for Agribusiness
    WCOB 1033 Data Analysis and Interpretation

Agribusiness Management and Marketing Concentration 18
  Select two of the following unless used to meet Departmental Core hours:
    AGEC 3313 Agribusiness Sales
    AGEC 3373 Futures and Options Markets
    AGEC 3413 Principles of Environmental Economics
    AGEC 4113 Agricultural Prices and Forecasting
    AGEC 4143 Agricultural Finance
University of Arkansas

AGEC 4163 Agricultural and Rural Development
AGEC 4303 Agribusiness Marketing Management
AGEC 4313 Agricultural Business Management
AGEC 4323 AgriBusiness Entrepreneurship
AGEC 4373 Basis Trading: Applied Price Risk Management
AGEC 4383 Basis Trading: Case Study
AGEC 4403 Advanced Farm Business Management
AGEC 4603 Food Economics and Health
AGEC 4613 Political Economy of Agriculture and Food
AGEC 4623 International Agricultural Trade and Commercial Policy

Choose 12 hours from MATH, STAT, AGEC or courses in WCOB or the Bumpers College.

General Electives

Total hours: 120

New Freshmen will enroll in UNIV 1001 for 1 hour of general elective credit.

---

Agricultural Business B.S.A. with Management and Marketing Concentration
Eight-Semester Degree Program

Students wishing to follow the degree plan in Agricultural Economics and Agribusiness should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. The Agricultural Economics and Agribusiness major has three concentrations: Agricultural Business Management and Marketing, Pre-Law, and Agricultural Economics.

Requirements for a Major in Agricultural Business (AGBS)

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

**Communications**

Select English Core Courses (6 hours unless exempt)
- COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003)

Select one of the following:
- AGED 3143 Communicating Agriculture to the Public
- AGED 4003 Issues in Agriculture
- AGED 4943 Communication Campaigns in Agriculture
- COMM 2303 Advanced Public Speaking
- COMM 2323 Interpersonal Communication
- COMM 2343 Introduction to Small-Group Communication
- COMM 3383 Persuasion
- CSES 3023 Crop, Soil, and Environmental Sciences Colloquium
- ENGL 2003 Advanced Composition
- ENGL 2013 Essay Writing
- ENGL 3053 Technical and Report Writing (ACTS Equivalency = ENGL 2023)

**U.S. History or Government**

Select U.S. History or Government Core Course

**Mathematics**

- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) (or higher MATH course from the University Core excluding MATH 2183)

**Science**

Select 2 Science Courses from University Core (8 total hours)

**Fine Arts and Humanities**

Select Fine Arts and Humanities Core Courses

**Social Sciences (9 hours)**

Select one of the following:
- PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103)
- SOCI 2013 General Sociology (ACTS Equivalency = SOCI 1013)

**Additional Requirements for Pre-Law Concentration (46-52 hours):**

**Statistics**

Select one from the following:
- AGEC 2403 Quantitative Tools for Agribusiness
- WCOB 1033 Data Analysis and Interpretation

**Pre-Law Concentration**

Select 15 hours from at least two of the following areas:

**Area 1**
- BLAW 2013 The Legal Environment of Business (ACTS Equivalency = BLAW 2003)
- BLAW 3033 Commercial Law
Area 2
COMM 2303 Advanced Public Speaking
COMM 3353 Argumentation: Reason in Communication
COMM 3383 Persuasion
COMM 3443 Introduction to Rhetorical Theory
COMM 4113 Legal Communication

Area 3
PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103)
PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003)
PHIL 2203 Logic (ACTS Equivalency = PHIL 1003)
PHIL 3103 Ethics and the Professions
PHIL 4143 Philosophy of Law

Area 4
PLSC 3103 Public Administration
PLSC 3153 Public Policy
PLSC 3243 The Judicial Process
PLSC 4193 Administrative Law
PLSC 4253 The U.S. Constitution I
PLSC 4263 The U.S. Constitution II

Area 5
AGEC (any upper level)

General Electives ¹ 25-31

Total hours 120

¹ New freshmen will enroll in UNIV 1001 for 1 hour of general elective credit.

3/3 Program – Agriculture

Exceptional students in the pre-law concentration in the Dale Bumpers College of Agricultural, Food and Life Sciences may enroll in the School of Law in their fourth year provided that all requirements have been met. Students must have:

• Completed all university, college, and major course requirements for the pre-law concentration;
• Completed 12 hours in the specialization list for pre-law;
• Earned a cumulative GPA of at least 3.50 without grade renewal; and
• Received an LSAT score of at least 159.

A student admitted to this program may substitute School of Law course work for the remaining total hours required for the bachelor’s degree in agricultural business.

It is a requirement of the School of Law’s accrediting standards that no student be admitted to the School of Law until they have completed at least three-fourths of the work necessary for the baccalaureate degree. The requirements embodied in the 3/3 programs satisfy this requirement.

Agricultural Business B.S.A. with Pre-Law Concentration

Eight-Semester Degree Program

Students wishing to follow the degree plan in Agricultural Economics and Agribusiness should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. The Agricultural Economics and Agribusiness major has three concentrations: Agricultural Business Management and Marketing, Pre-Law, and Agricultural Economics.

Agricultural Education, Communications and Technology (AECT)
George W. Wardlow
Head of the Department
205 Agriculture Building
479-575-2035

Agricultural Education, Communications and Technology Website (http://aedd.uark.edu/)

The department of agricultural education, communications and technology offers a degree program with four concentrations that lead to a Bachelor of Science in Agriculture. Students may choose one of four areas of concentration, or, with adviser’s approval, select courses from more than one concentration area.

- The Agricultural Education concentration is designed for students who wish to receive initial teacher licensure to teach agricultural science in public schools.
- The Agricultural Communications concentration is designed to produce graduates with both technical knowledge about the food and fiber industry and the communication skills needed to convey the story of agriculture to consumers, policy makers, and the public.
- Interpersonal and group communication, public relations, graphic design, electronic communication, communications campaign planning, and writing for the media are emphasized in this program.
  - The Agricultural Systems Technology Management concentration is for students who are planning a professional career related to technical operations and management in the agricultural industry. Graduates assume positions of leadership and responsibility in such areas as agricultural services and sales, agricultural management, agricultural production systems, product service, product testing, and service management. The program focuses on preparing students as problem solvers in the application, management and/or marketing of agricultural technology.
  - The Agricultural Leadership concentration incorporates interdisciplinary coursework that focuses on leadership and ethics in food and fiber systems, with courses offered from multiple disciplines. Interdisciplinary courses benefit students by offering different insights to problem solving, fostering collaboration with students from other majors, and reinforcing the importance of teamwork.

Students with this major are in constant demand due to the rapidly changing educational needs of the agricultural and natural resources industries. Graduates with this degree have a broad knowledge of agricultural disciplines. They are prepared as agricultural technology transfer specialists to enter a variety of careers in formal and non-formal teaching roles in either the public or private sector as agricultural educators, extension agents, industry-based trainers, information specialists, or technology-management specialists.

The department also offers programs for four minors: Agricultural Education, Agricultural Communications, Agricultural Systems Technology Management, and Agricultural Leadership.

Changes to the B.S.E. degree program in Agricultural Education, Communications and Technology with a concentration in agricultural communications have been added pending approval of the Arkansas Higher Education Coordinating Board.

Requirements for a Major in Agricultural Education, Communication and Technology (AECT)
State minimum core and discipline specific general education requirements:

Total Units in Sequence: 120

Changes to the B.S.E. degree program in Agricultural Education, Communications and Technology with a concentration in agricultural education have been added pending approval of the Arkansas Higher Education Coordinating Board.

Requirements for a Major in Agricultural Education, Communication and Technology (AECT)

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

University Perspectives

UNIV 1001 University Perspectives

Communications

Select English Core Courses

U.S. History or Government

Select U.S. History or Government Core Courses

Mathematics

MATH 1203 College Algebra (ACTS Equivalency = MATH 1103) (or higher excluding MATH 1313)

Science

BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture) & BIOL 1541L and Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab)

CHEM 1073 Fundamentals of Chemistry (ACTS Equivalency = CHEM 1014 Lecture) & CHEM 1071L CHEM 1214 Lecture and Fundamentals of Chemistry Laboratory (ACTS Equivalency = CHEM 1214 Lab)

Science or Math Elective (3 hours)

Fine Arts/Humanities

Choose from 3 hours Fine Arts and 3 hours Humanities from University Core

Social Science

Choose 3 hours Social Science from University Core

AGEC 1103 Principles of Agricultural Microeconomics or AGEC 214 Principles of Agricultural Macroeconomics

PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103)

AECTBS Requirements

AGME 1613 Fundamentals of Agricultural Systems Technology

AGME 2903 Agricultural and Human Environmental Sciences Applications of Microcomputers

AGED 3133 Instructional and Presentation Strategies

AGED 3143 Communicating Agriculture to the Public

AGED 3153 Leadership Development in Agriculture or AGED 3153H Honors Leadership Development in Agriculture

AGED 4003 Issues in Agriculture

AGED 475V Internship in Agricultural Education (3 hours)

Choose 9 hours from the following:

ANSC 1032 & ANSC 1051 Introductory Animal Sciences and Introduction to the Livestock Industry or ANSC 224 Behavior of Domestic Animals

ENSC 1003 Environmental Science

ENTO 1023 Insects, Science and Society

HORT 2003 Principles of Horticulture

POSC 2343 Poultry Production

FDSC 2603 Science in the Kitchen

PLPA 3004 Principles of Plant Pathology

21-24 hours from concentration requirements (AGED, ACOM, ASTM, AGLE) 21-24

Electives

27-30

Total Hours 120

Additional Requirements for the Agricultural Education Concentration

Complete an evaluation for internship. Students must also meet the following criteria to be cleared for the internship:

1. Successful completion of core competency exams by meeting or exceeding the UA Teacher Preparation Program cut-off
scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013 (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/artarts/), ENGL 1023 (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/artarts/), and MATH 1203 (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/artarts/).

Option 1 — ACT
- Reading: 20
- Writing: 7
- Math: 20

Option 2 — SAT
- Reading: 544
- Writing: 5
- Math: 533

Option 3 — GRE
- Reading: 151
- Writing: 4
- Math: 162

Option 4 — Praxis Core
- Reading: 168
- Writing: 165
- Math: 162

2. Obtain a “C” or better in the following pre-education core courses: AGED 1123, CIED 3023/CIED 4023, and CIED 3033.

3. Obtain a “C” or better in concentration education courses: AGED 3111, AGED 3133, AGED 3143, AGED 4211, AGED 4231, and AGED 4843.

4. Complete and submit the online application to teacher education through the university-wide Office of Teacher Education and pay the Teacher Education Application Fee (http://catalog.uark.edu/undergraduatecatalog/feeandcosts/othergeneralfees/). Apply to the Office of Teacher Education (https://teacher-education.uark.edu/) by Jan. 15 prior to the fall semester of the junior year. For more information, contact the Teacher Education Office in GRAD 336. Complete degree with a cumulative GPA of 2.5 or higher. The degree must be posted to your University of Arkansas transcript at the Registrar’s Office prior to certification. For more information, please contact the Office of Teacher Education in Peabody Hall (PEAH) 109.

5. Obtain departmental clearance for GPA requirements, course work requirements, an interview, and/or other requirements. Obtain clearance through an Arkansas Department of Education background check. Note: This background check may be required prior to graduation in order to be eligible for licensure.

6. Student is aware that he/she is responsible for meeting enrollment requirements for any scholarships received and is responsible for enrolling in the proper number of hours to meet graduation requirements.

Other Certification Requirements

A. NTE Principles of Learning and Teaching (7-12)
- Test Code 0524 — Minimum Score: 164

B. Subject Matter Test Agriculture
- Test Code 0700 — Minimum Score: 150

C. Criminal Background Check

| Science or Math Elective (3 hours) | 6 |

Choose from 3 hours Fine Arts and 3 hours Humanities from University Core

Social Science

Choose 3 hours Social Science from University Core

AGEC 1103 Principles of Agricultural Microeconomics
or AGEC 210 Principles of Agricultural Macroeconomics

PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103)

AECTBS Requirements

AGME 1613 Fundamentals of Agricultural Systems Technology
AGME 2903 Agricultural and Human Environmental Sciences Applications of Microcomputers
AGED 3133 Instructional and Presentation Strategies
AGED 3143 Communicating Agriculture to the Public
AGED 3153 Leadership Development in Agriculture or AGED 311 Honors Leadership Development in Agriculture
AGED 4003 Issues in Agriculture
AGED 475V Internship in Agricultural Education (3 hours)

Choose 9 hours from the following:

| ANSC 1032 Introductory Animal Sciences & ANSC 1051 and Introduction to the Livestock Industry or ANSC 22 Behavior of Domestic Animals |
| ENSC 1003 Environmental Science |
| ENTO 1023 Insects, Science and Society |
| HORT 2003 Principles of Horticulture |
| POSC 2343 Poultry Production |
| FDSC 2603 Science in the Kitchen |
| PLPA 3004 Principles of Plant Pathology |

21-24 hours from concentration requirements (AGED, ACOM, ASTM, AGLE) 21-24

Electives 27-30

Total Hours 120

Additional Requirements for Agricultural Systems Tech Concentration

ASTM Concentration Requirements (21 hours)

AGME 3102 Small Power Units/Turf Equipment 2
AGME 3101L Small Power Units/Turf Equipment Laboratory 1
AGME 3173 Electricity in Agriculture 3
AGME 4203 Mechanized Systems Management 3
AGEC 2303 Introduction to Agribusiness 3
AGEC 3303 Food and Agricultural Marketing 3
AGEC 4303 Agribusiness Marketing Management 3

Choose 3 credits from:

| AGME 1611L Fundamentals of Agricultural Systems Technology Laboratory |
| AGME 2123 Metals and Welding |
| AGME 3153 Surveying in Agriculture and Forestry |
| AGME 402V Special Topics in Agricultural Mechanization (3 hours) |
| AGME 4973 Irrigation |
| ENSC 3603 GIS for Environmental Science |
| GEOS 3543 Geospatial Applications and Information Science |
GEOS 4593  Introduction to Global Positioning Systems and Global Navigation Satellite Systems

Total Hours: 21

### Minor in Agricultural Communications (ACOM-M)

The Agricultural Communications Minor will consist of 18 hours to include the following:

- **AGED 2143** Introduction to Agricultural Communications and Leadership 3
- **AGED 3143** Communicating Agriculture to the Public 3
- **JOUR 1033** Fundamentals of Journalism 3
- Select 9 hours from the following: 9
  - **AGED 3243** Ag Reporting and Feature Writing 3
A student planning to minor in Agricultural Education must notify the program adviser.

**Minor in Agricultural Education (AGED-M)**

The Agricultural Education Minor will consist of 21 hours to include:

- AGED 1123 Foundations of Agricultural Education
- AGED 3133 Instructional and Presentation Strategies
- AGED 3162 Curriculum Development and Assessment Techniques in AGED
- AGED 4231 Program Development
- AGED 3161L Curriculum Development and Assessment Techniques in Career and Technical Education Laboratory
- AGED 4211 Teachers as Professionals
- AGED 3111 Student Management
- AGED 4843 Methods in Agricultural Laboratories
- CIED 3033 Classroom Learning Theory
- CIED 3023 Survey of Exceptionalities
- AGME 1613 Fundamentals of Agricultural Systems Technology
- AGME 2903 Agricultural and Human Environmental Sciences Applications of Microcomputers

Select 12 hours from the following:

- AGME 2123 Metals and Welding
- AGME 3153 Surveying in Agriculture and Forestry
- AGME 3102 Small Power Units/Turf Equipment & AGME 3101 Land Small Power Units/Turf Equipment Laboratory
- AGME 3173 Electricity in Agriculture
- AGME 4203 Mechanized Systems Management
- AGME 4973 Irrigation
- ENSC 3603 GIS for Environmental Science

**Minor in Agricultural Leadership (AGLE-M)**

The Agricultural Leadership Minor will consist of 18 semester hours to include:

- AGED 2143 Introduction to Agricultural Communications and Leadership
- AGED 3153 Leadership Development in Agriculture
- AGED 4153 Survey of Leadership Theory in Agriculture

Select 9 hours from the following:

- AGEC 3313 Agribusiness Sales
- AGED 3133 Instructional and Presentation Strategies
- AGED 3943 Professional Development in Agricultural Communications
- AGED 4163 Leadership Analysis Through Film
- AGED 4443 Principles of Technological Change
- EXED 4183 Management of Volunteer Programs

A student planning to minor in Agricultural Leadership should contact the program adviser for consultation and more detailed information.

A student planning to minor in Agricultural Systems Technology Management must notify the program adviser for consultation and more detailed information.

**Faculty**

- **Cox, Casandra Kay**, M.S., B.S. (University of Arkansas), Instructor, 2003.
- **Estes, Hanna**, M.S., B.S. (University of Arkansas), Instructor, 2014.
- **Graham, Donna Lucas**, Ph.D. (University of Maryland-College Park), M.Ed., B.S. (University of Arkansas), University Professor, 1985.
- **Johnson, Donald M.**, Ph.D. (University of Missouri-Columbia), M.A., B.S. (Western Kentucky University), Professor, 1993.
- **Miller, Jefferson Davis**, Ph.D., M.A. (Oklahoma State University), B.A. (Northeastern State University), Professor, 2001.
- **Miller, Rene P.**, Ed.D. (Texas Tech University/Texas A&M University), Lecturer, 2013.
- **Poling, Richard L.**, Ph.D., B.S., M.S. (Ohio State University), Adjunct Associate Professor, 2009.
- **Shoulders, Kate**, Ph.D. (University of Florida), M.S., M.A. (Murray State University), Associate Professor, 2012.
- **Wardlow, George W.**, Ph.D. (The Ohio State University), M.Ed., B.S. (University of Missouri-Columbia), Professor, 1992.

**Animal Science (ANSC)**

Michael L. Looper
Head of the Department
B114 Agricultural, Food, and Life Sciences Building
479-575-4351
http://animal-science.uark.edu/

The animal science major offers three areas of concentration designed to provide the scientific and technical education to prepare students for positions of leadership and responsibility. Students gain valuable experience pertaining to the production of beef and dairy cattle, swine, horses, sheep, and companion animals. In addition, extensive study is
offered in the specialized areas of animal health, breeding and genetics, meat science, nutrition, and physiology.

Students majoring in animal science are prepared for a variety of careers. Pre-veterinary, pre-medical, and pre-professional course requirements may be fulfilled while meeting degree requirements. Specific career opportunities include positions and services related to the production, merchandising, processing and distribution of meat, milk, and related products. Additional opportunities include field persons, farm and herd managers, and other agribusiness-related positions. With additional academic training, animal science majors may become extension livestock specialists, nutritionists, geneticists, and physiologists.

The General Animal Science Concentration is a science-based degree program designed for students desiring a broader general background in animal science and offers students the greatest degree of flexibility in adapting their degree program to a wide variety of career paths. It offers a larger list of elective classes and opportunity to minor in other disciplines.

The Pre-Professional/Science Concentration is designed primarily for students who intend to compete for admission to professional schools, advanced post-graduate degree programs, or other career paths that require a strong background and understanding of basic and applied sciences.

The Equine Concentration is designed for students who desire a sound science-based background in Animal Science, but desire a more intense study of equine management and equine science.

Students should consult an animal science adviser for specific course selections in the elective areas. With appropriate advising, students have an opportunity to complete at least one minor within the 120-hour degree program.

Requirements for a Major in Animal Science (ANSC) with Animal Science Concentration

State minimum core and discipline specific general education requirements:

Select four hours from the following:
- ANSC 4252 Cow-Calf Management
- ANSC 4262 Swine Production
- ANSC 4272 Sheep Production
- ANSC 4283 Horse Production
- ANSC 4452 Milk Production
- ANSC 4482 Companion Animal Management
- ANSC 4652 Stocker-Feedlot Cattle Management

Animal Science Electives 6
Select 6 hours from the following:
- ANSC 3003 Applied Animal Parasitology
- ANSC 3013 Parasitisms of Domesticated Non-Herbivores
- ANSC 3133 Animal Breeding and Genetics
- ANSC 3152 Applied Animal Nutrition
& ANSC 3151L Applied Animal Nutrition Laboratory
- ANSC 3333 Diseases of Livestock
- ANSC 3613 Meat Science
- ANSC 4163 Companion Animal Nutrition
- ANSC 4303 Comparative Veterinary Anatomy
- ANSC 4552 Forage-Ruminant Relations

Pre-Professional / Science Concentration 35
- ANSC 3032 Animal Physiology I
- ANSC 3042 Animal Physiology II
- BIOL 1603 Principles of Zoology (ACTS Equivalency = BIOL 1054 Lecture)
& BIOL 1601L Principles of Zoology Laboratory (ACTS Equivalency = BIOL 1054 Lab)
- BIOL 2013 General Microbiology (ACTS Equivalency = BIOL 2004 Lecture)
& BIOL 2011L General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab)
- CHEM 1103 University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture)
& CHEM 1101LCHEM 1414 Lecture)
- CHEM 2013 Organic Chemistry I
& CHEM 2011Land Organic Chemistry I Laboratory
- CHEM 3603 Organic Chemistry II
& CHEM 3611Land Organic Chemistry II Laboratory
- CHEM 3813 Elements of Biochemistry
- PHYS 2013 College Physics I (ACTS Equivalency = PHYS 2014 Lecture)
& PHYS 2011L College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab)
- PHYS 2033 College Physics II (ACTS Equivalency = PHYS 2024 Lecture)
& PHYS 2031L College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab)

Discipline-Related Electives 10
Select 10 hours from the following:
Suggested electives:
- BIOL 2533 Cell Biology
- MATH 2554C Calculus I (ACTS Equivalency = MATH 2405)
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)
- or STAT 202Biostatistics

Other discipline related electives:
- ANSC 2003 Introduction to Equine Industry
- ANSC 2213 Behavior of Domestic Animals
- ANSC 2303L Introduction to Horsemanship
- ANSC 3072 Equine Selection and Evaluation
- ANSC 3282 Livestock Judging and Selection
- ANSC 3291 Livestock Junior Judging Team Activity
- ANSC 3491L Artificial Insemination in Cattle
- ANSC 3723 Horse and Livestock Merchandising
- ANSC 3753 Equine Assisted Activities and Therapies
- ANSC 400V Special Problems
- ANSC 401V Internship in Animal Sciences
- ANSC 4072 Advanced Equine Selection and Evaluation
- ANSC 410V Special Topics in Animal Sciences
- ANSC 4123 Legal Issues in Animal Agriculture
- ANSC 4173 Thoroughbred Horse Industry
- ANSC 4291 Livestock Senior Judging Team Activity
- AFLS 400V Honors Thesis
- AGEC 1103 Principles of Agricultural Microeconomics
- AGEC 2103 Principles of Agricultural Macroeconomics
- AGEC 2303 Introduction to Agribusiness
- AGME 2903 Agricultural and Human Environmental Sciences Applications of Microcomputers
- BIOL 2531L Cell Biology Laboratory
- BIOL 2533 Cell Biology
- CSES 1203 Introduction to Plant Sciences
- CSES 2013 Pest Management
- CHEM 2261L Analytical Chemistry Laboratory
- CHEM 2263 Analytical Chemistry Lecture
- POSC 2353 Poultry Breeder Management
- ACCT 2013 Accounting Principles
- BLAW 2013 The Legal Environment of Business (ACTS Equivalency = BLAW 2003)

Or any upper division course in AGEC, AGED, AGME, AGST, BIOL, CHEM, CSES, FDSC, HORT, POSC, or WCOB.

General Electives 5
Total Hours 120

Animal Science B.S.A. with Pre-Professional Science Concentration
Eight-Semester Degree Program
Students wishing to follow the degree plan should see the Eight Semester Degree Policy (p. 87) for university requirements of the program. (*See degree audit in UAConnect for complete course list.)

Minor in Animal Science (ANSC-M)

A minor in Animal Science prepares students for jobs in the animal industries. A student planning to minor in Animal Science must consult with an Animal Science adviser for more information. The Equine Science minor is only available to students outside of the ANSC major.

The minor consists of 19 hours to include the following:

Core Requirements
- ANSC 1032 Introductory Animal Sciences
- ANSC 3032 Animal Physiology I
- ANSC 3133 Animal Breeding and Genetics
- ANSC 3143 Principles of Animal Nutrition
- ANSC 4283 Horse Production
- ANSC Core Elective
- Discipline-related Electives
- General Electives
- Year Total:

Total Units in Sequence: 120

Minor in Equine Science (EQSC-M)

A minor in Equine Science prepares students for jobs in the equine industry. A student planning to minor in Equine Science should meet with an Animal Science adviser for more information. The Equine Science minor is only available to students outside of the ANSC major.

The minor consists of 19 hours to include the following:

Core Equine Electives:
- ANSC 2303L Introduction to Horsemanship
- ANSC 3072 Equine Selection and Evaluation
- ANSC 3723 Horse and Livestock Merchandising
- ANSC 401V Internship in Animal Sciences
- ANSC 4123 Legal Issues in Animal Agriculture
- ANSC 4173 Thoroughbred Horse Industry

Total Hours 19

Select two of the following:

- ANSC 4252 Fundamentals of Reproductive Physiology
- ANSC 4262 Milk Production
- ANSC 4272 Sheep Production
- ANSC 4283 Horse Production
- ANSC 4452 Cow-Call Management
- ANSC 4523 Thoroughbred Horse Industry
- ANSC 4533 Stocker-Feedlot Cattle Management

Total Hours: 20

Faculty

Ahrens, Chelsey, Ph.D. (Texas Tech), M.S. (University of Georgia), B.S.A. (University of Arkansas), Assistant Professor, 2015.
Apple, Jason, Ph.D., M.S. (Kansas State University), B.S.A. (Oklahoma State University), Professor, 1995.
Bailey, Clayton, Ph.D. (University of Arizona), M.S., B.S. (University of Arkansas), Adjunct Assistant Professor, 2015.
Baird, Douglas H., D.V.M. (Louisiana State University), Adjunct Professor, 2011.
Beck, Paul Arthur, Ph.D. (University of Arkansas), M.S., B.S. (Oklahoma State University), Professor, 1997.
Cheurning, Jeffrey, Ph.D. (University of Arkansas), M.S. (University of Missouri), B.S. (Western Kentucky University), Adjunct Professor, 1997.
Coffey, Ken, Ph.D. (University of Missouri-Columbia), M.S. (University of Kentucky), B.S. (University of Tennessee), Professor, 1996.
Gadberry, M. Shane, Ph.D., M.S., B.S. (University of Arkansas), Associate Professor, 2006.
Gunter, Stacey A., Ph.D. (Oklahoma State University), M.S. (University of Nevada Reno), B.S. (Oregon State University), Adjunct Professor, 1996.
Huang, Yan, Ph.D. (University of Wyoming), M.S. (Dankook University), B.S. (China Agricultural University), Assistant Professor, 2015.
Jennings, John A., Ph.D. (University of Missouri), M.S. (University of Arkansas), B.S. (Southwest Missouri State University), Professor, 1998.
Jogan, Kathleen, Ed.D., M.S. (University of Arkansas), B.S. (Ursinus College), Instructor, 2015.
Kegley, Beth, Ph.D., M.S. (North Carolina State University), B.S. (Virginia Polytechnic Institute and State University), Professor, 1996.
Koltes, Dawn A., Ph.D. (Iowa State University), Adjunct Assistant Professor, 2015.
Kutz, Bryan Richard, M.S. (Western Kentucky University), B.S. (Oklahoma State University), A.S. (Northern Oklahoma College), Instructor, 1997.
Looper, Daniel S., Ph.D. (University of Arkansas), M.S., B.S. (University of Arkansas), Professor, 2011.
Maxwell, Charles, Ph.D. (University of Wisconsin-Madison), M.S., B.S. (University of Georgia), Professor, 1996.
Nugent, Russell A., Ph.D., M.S. (Virginia Polytechnic Institute and State University), B.S. (Pennsylvania State University), Adjunct Professor, 2011.
Phillipp, Dirk, Ph.D. (Texas Tech University), M.S. (University of Leizig, Germany), Associate Professor, 2007.
Pohiman, Fred W., Ph.D. (Kansas State University), M.S. (University of Tennessee), B.S. (University of Missouri-Columbia), Professor, 1997.
Potter, Daniel S., M.N.A.S., B.S. (Missouri State University), Instructor, 2016.
Powell, Jeremy G., Ph.D. (University of Arkansas), D.V.M. (Oklahoma State University), B.S. (University of Arkansas), Professor, 2009.
Roeder, Richard A., Ph.D., M.S. (Texas A&M University), B.A. (Glassboro State College), Professor, 2002.
Rorie, Rick, Ph.D. (Louisiana State University), M.S., B.S. (University of Arkansas), Professor, 1989.
Rosenkrans, Charles F., Ph.D. (Kansas State University), M.S., B.S. (University of Missouri-Columbia), Professor, 1991.
Russell, Mark, Ed.D. (Texas Tech University), M.S., B.S. (Colorado State University), Assistant Professor, 2010.
Shanks, Bruce C., Ph.D. (South Dakota State University), M.S. (Montana State University), B.S. (Missouri State University), Adjunct Assistant Professor, 2011.
Opportunities for employment and post-graduate study are numerous for graduates of the Department of Crop, Soil, and Environmental Sciences. Crop Science graduates become involved in crop production or find employment in public agencies providing support services for agriculture (e.g., Extension Service, State Plant Board, Natural Resources Conservation Service), or as consultants serving production agriculture, in the agrichemical and seed industries, and in agricultural research programs.

The crop science major includes courses in crop management, production agriculture, plant breeding and genetics, crop and forage production, pest management (weeds, insects, and plant diseases), and soil fertility.

Requirements for a Major in Crop Science (CPSC)

State minimum core and discipline specific general education requirements.

(Course work that meets state minimum core requirements is in bold.)

**English/Communications**

**Minor in Crop Science (CPSC-M)**

A student planning to minor in Crop Science must notify the program adviser for consultation and more detailed information. The Crop Science Minor consists of 18 semester hours of 2000-level courses or above, including the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSES 2103</td>
<td>Crop Science</td>
<td>3</td>
</tr>
<tr>
<td>CSES 2203</td>
<td>Soil Science</td>
<td>3</td>
</tr>
</tbody>
</table>

Select 12 hours with at least 4 hours coming from Group A:

<table>
<thead>
<tr>
<th>Group A</th>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>CSES 3112</td>
<td>Forage Management</td>
</tr>
<tr>
<td></td>

- **Skinner, Jerral V.**, Ph.D. (University of Arkansas), Lecturer, 1990.
- **Slaton, Nathan A.**, Ph.D., M.S. (University of Arkansas), B.S. (Murray State University), Professor, 2001.
Crop, Soil and Environmental Sciences (CSES)

Robert K. Bacon
Head of the Department
115 Plant Science Building
479-575-2354

Crop, Soil and Environmental Sciences Website (http://cropsoilandenvironmentalsciences.cses/)

Courses in the Department of Crop, Soil and Environmental Sciences provide fundamental and applied studies in two majors:

- Crop Science (p. 136)
- Environmental, Soil and Water Science (p. 142)

Areas studied within the Crop Science major include crop science, production agriculture, plant breeding and genetics, crop and forage production, pest management (weeds, insects, and plant diseases), and soil fertility. The Environmental, Soil and Water Science major includes courses in areas such as environmental science, water quality, soil science, soil and water conservation, and the sustainable productivity of natural resources.

Many graduates from both majors also choose to continue their education in graduate programs in a wide variety of disciplines both related and complementary to the B.S.A. degrees.

Butts, Thomas R., Ph.D. (University of Nebraska), M.S., B.S.A., (University of Wisconsin), Assistant Professor, Department of Crop, Soil, and Environmental Sciences, 2018.

Sharpley, Andrew N., Ph.D. (Massey University, New Zealand), B.S. (University College of North Wales), Distinguished Professor, 2006.
Skinner, Jerral V., Ph.D. (University of Arkansas), Lecturer, 1990.
Slaton, Nathan A., Ph.D., M.S. (University of Arkansas), B.S. (Murray State University), Professor, 2001.
Srivastava, Vibha, Ph.D. (Jawaharlal Nehru University, New Delhi), M.S. (Govind Ballabh Pant University of Agriculture and Technology), B.S. (D.E.I. University), Professor, 2001.
Willett, Cammy, Ph.D., M.S. (University of Missouri), B.S. (Evangel University), Assistant Professor, 2016.
Wilson, Charles E., Ph.D., M.S. (University of Arkansas), B.S. (Arkansas State University), Professor, 2011.
Wood, Lisa S., Ph.D., M.S., B.S. (University of Arkansas), Clinical Assistant Professor, 2012.
Entomology and Plant Pathology (ENTO-PLPA)

Ken Korth
Interim Department Head
217 Plant Science Building
479-575-5191

Entomology Website (http://entomology.uark.edu/)
Plant Pathology Website (https://plant-pathology.uark.edu/)

The Department of Entomology and Plant Pathology offers two undergraduates minors:

- Entomology (http://catalog.uark.edu/undergraduatetcatalog/collegesandschools/dalebumperscollegeofagriculturalfoodandlifesciences/entomologyento/)
- Plant Pathology (http://catalog.uark.edu/undergraduatetcatalog/collegesandschools/dalebumperscollegeofagriculturalfoodandlifesciences/plantpathologyplpa/)

Full degree programs are offered only at the graduate level.

Entomology is the branch of science concerned with the study of insects and related organisms. It involves studies of their biology, structure, identification, economic significance, and population management.

The major emphasis of the curriculum is understanding insect biology and applying that knowledge in an integrated approach to insect-pest management.

Plant pathology is the study of interrelationships of plants with the abiotic and biotic agents that affect plant health and productivity. The goal of the discipline is to minimize the impact of plant diseases on agricultural production and human health. Scientific training within the department focuses on the nature, cause, and management of plant diseases.

Undergraduate students interested in graduate work in entomology or plant pathology should pursue one of the minors here or the Pest Management minor. See Pest Management (p. 157) for degree requirements.

Minor in Entomology (ENTO-M)
The Entomology minor will consist of a minimum of 15 semester hours to include the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENTO 3013</td>
<td>Introduction to Entomology</td>
<td>3</td>
</tr>
<tr>

Graduate Faculty

**Bateman, Nick**, Ph.D. (Mississippi State University), B.S. (University of Arkansas-Monticello), Assistant Professor, 2016.

**Bluhm, Burt H.**, Ph.D., M.S. (Purdue University), B.S. (University of Oklahoma), Associate Professor, 2008.

**Cartwright, Richard D.**, Ph.D. (University of California at Davis), M.S., B.S. (University of Arkansas), Extension Professor, 1993.

**Correll, Jim**, Ph.D., M.S. (University of California-Berkeley), B.S. (Pennsylvania State University), Distinguished Professor, 1989.

**Dowling, Ashley Patrick Gregg**, Ph.D. (University of Michigan-Ann Arbor), B.S. (University of Arizona), Associate Professor, 2008.

**Egan, Martin J.**, Ph.D., B.Sc. (University of Exeter, United Kingdom), Assistant Professor, 2016.

**Faske, Travis**, Ph.D. (Texas A&M University), M.S. (Oklahoma State University), B.S. (Tarleton State University), Associate Professor, 2015.

**Goggin, Fiona**, Ph.D. (University of California-Davis), B.S. (Cornell University), Professor, 2001.

**Hopkins, John D.**, Ph.D. (University of Arkansas), M.S., B.S. (Clemson), Associate Professor, 2002.

**Johnson, Donn T.**, Ph.D., M.S. (Michigan State University), B.S. (University of Minnesota, Duluth), Professor, 1978.

**Joshi, Neelendra**, Ph.D. (Pennsylvania State University), Assistant Professor, 2015.

**Kirkpatrick, Terry**, Ph.D. (North Carolina State University), M.S., B.S. (University of Arkansas), Professor, 1984.

**Korth, Ken L.**, Ph.D. (North Carolina State University), B.S. (University of Nebraska), Professor, 1999.

**Loftin, Kelly M.**, Ph.D. (New Mexico State University), M.S. (University of Arkansas), B.S. (Arkansas Tech), Associate Professor, 2002.

**Lorenz, Gus M.**, Ph.D., B.S.A., M.S. (University of Arkansas), Distinguished Professor, 1997.

**Robbins, Robert Thomas**, Ph.D. (North Carolina State University), M.S., B.S. (Kansas State University), Professor, 1979.

**Rojas, Clemencia**, Ph.D. (Cornell University), M.S. (Purdue University), B.S. (Universidad de Los Andes, Colombia), Assistant Professor, 2015.

**Rojas, Alejandro**, Ph.D. (Michigan State University), M.S., B.S. (Los Andes University), Assistant Professor, 2018.

**Rupe, John C.**, Ph.D., M.S. (University of Kentucky), B.S. (Colorado State University), Professor, 1984.
Spalding, J. Ples, M.S. (University of Arkansas), B.S. (Hendrix College), Extension Associate Professor, 1984.

Spurlock, Terry, Ph.D. (University of Arkansas), Extension Assistant Professor, 2015.

Steinkraus, Donald C., Ph.D. (Cornell University), M.S. (University of Connecticut), B.A. (Cornell University), Professor, 1989.

Stephen, Fred M., Ph.D. (University of California-Berkeley), B.S. (San Jose State University), University Professor, 1974.

Studebaker, Glenn, Ph.D., M.S. (University of Arkansas), B.S. (Missouri Southern State University). Associate Professor, 1993.

Szalanski, Allen Lawrence, Ph.D. (University of Nebraska-Lincoln), M.S. (Kansas State University), B.S. (University of Manitoba), Professor, 2001.

Tharsh, Ben, Assistant Professor, 2018.

Tzanetakis, Ioannis E., Ph.D. (Oregon State University), M.S., B.S. (Agricultural University of Athens, Greece), Professor, 2008.

Wamishe, Yeshi Andenow, Ph.D. (University of Arkansas) M.S., B.S. (Addis Ababa University, Ethiopia), Associate Professor, 2011.

Wiedenmann, Robert N., Ph.D., B.S. (Purdue University), Professor, 2005.

Environmental, Soil, and Water Science (ESWS)

Mary C. Savin
ESWS Coordinator
115 Plant Science Building
479-575-5740

Opportunities for employment and post-graduate study are numerous for graduates of the Department of Crop, Soil, and Environmental Sciences. Environmental, Soil, and Water Science graduates find jobs with environmental consulting companies, environmental education organizations, state agencies (e.g., Extension Service, Department of Environmental Quality, Health Department), federal agencies (e.g., Environmental Protection Agency, Natural Resources Conservation Service), municipalities and local environmental services (e.g., waste management and recycling, water and wastewater treatment facilities, parks and tourism departments), a wide variety of private businesses, and environmental research.

The Environmental, Soil, and Water Science major includes courses in areas such as environmental science, water quality, soil science, soil and water conservation, and the sustainable productivity of natural resources.

Requirements for a Major in Environmental, Soil, and Water Science (ESWS)

State minimum core and discipline specific general education requirements:

Total Hours: 18

#### Minor in Soil Science (SOIL-M)

A student planning to minor in Soil Science must notify the program adviser for consultation and more detailed information.

The Soil Science minor will consist of a total of 18 hours comprising the following required and elective courses. No more than 9 hours can be counted towards a Soil Science minor with an Environmental Soil and Water Science major. Those students interested in obtaining certification in the area of soil science will need at least 15 soil science
hours, preferably covering each of the sub-disciplines (i.e., fertility, genesis, morphology, and classification, chemistry, physics, soil biology and ecology, and land use and management).

**Required Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSES 2203</td>
<td>4</td>
</tr>
<tr>
<td>&amp; CSES 2201L</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Elective Courses**

Select the remaining 14 hours from the following courses:

- Undergraduate Courses
  - CSES 3214 Soil Resources and Nutrient Cycles
  - CSES 355V Soil Profile Description (1 hour; may be taken for up to 2 hours credit)
  - CSES 4224 Soil Fertility
  - CSES 4253 Soil Classification and Genesis
  - CSES 4553 Wetland Soils
  - ENSC 3263 Soil and Water Conservation
  - ENSC 4263 Environmental Soil Science
  - ENSC 4401 Professional Certification Preparation (soils exam)

- Graduate Courses
  - CSES 5033 Advanced Soil Fertility and Plant Nutrition
  - CSES 5224 Soil Physics
  - CSES 5264 Microbial Ecology
  - CSES 5453 Soil Chemistry

**Total Hours** 18

**Food Science (FDSC)**

Jeyam Subbiah
Department Head
N-201 Food Science Building
479-575-4605
jsubbiah@uark.edu

Department of Food Science Website (http://food-science.uark.edu)

Food science is the application of science and technology to processing, packaging, safety, product innovation and distribution of food products. Food science deals with all aspects of food between production and consumption and involves many disciplines, including chemistry, microbiology, nutrition, engineering and sensory science.

Food science prepares students for many interesting, rewarding and challenging professional career opportunities in industry, business, governmental and educational organizations associated with food and food-related products. Due to the diversity and abundance of opportunities available, students graduating with a B.S.A. in food science readily obtain employment or continue studies for graduate school. Additionally, requirements for several pre-professional programs can be fulfilled while meeting requirements for the food science degree.

Students may choose one of three areas of concentration for their degree program: Food Science (FDSC), Food Technology (FDTN) or Food and Culinary Sciences (FDCU). The FDSC concentration at the University of Arkansas is one of only 40 programs in the United States and the only one in Arkansas that is approved by the Institute of Food Technologists. It provides students with a strong background in basic and applied sciences and food chemistry, microbiology, analysis, quality and engineering.

The FDTN concentration provides students interested in food technology careers with an integrated background in food science and business or nutrition. Students in the food technology concentration will complete a minor in agribusiness, general business, or nutrition while completing their core requirements, thus leaving elective hours available for further educational enhancement.

The FDCU concentration provides students interested in product development careers with an interdisciplinary background in food science and culinary arts. This concentration is a partnership program with Northwest Arkansas Community College (NWACC). Students complete their culinary arts coursework for transfer credit to the UA at Brightwater: A Center for the Study of Food (an academic division of NWACC located in Bentonville, AR) and are eligible to receive a Certificate of Proficiency in Culinary Arts from NWACC with no additional coursework. Culinary coursework can be taken prior to admission to the UA or taken while in residence at the UA. Food and Culinary Sciences concentration will provide students with the course work necessary to be eligible to become a Certified Culinary Scientist through the Research Chef’s Association.

Students in each concentration are offered opportunities for research, internships, international experiences and selection of a minor.

**Requirements for a Major in Food Science (FDSC)**

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

**Communication (6-12 hours)**

<table>

Select three Social Science Core courses

AGST 4023 Principles of Experimentation

FDSC Concentration: 11-15

CHEM 1123 University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture)
& CHEM 1121L University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab)

Select one of the following concentrations:

FDSC Concentration: 11-15

CHEM 2613 Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture)
& CHEM 2611L Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab)

or CHEM 361 Organic Chemistry I
& CHEM 361L and Organic Chemistry II Laboratory
& CHEM 361V and Organic Chemistry II Laboratory

CHEM 3813 Elements of Biochemistry

PHYS 2013 College Physics I (ACTS Equivalency = PHYS 1014 Lecture)
& PHYS 2011L College Physics I Laboratory (ACTS Equivalency = PHYS 1014 Lab)

FDTN Concentration: 4-7

CHEM 2613 Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture)
& CHEM 2611L Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab)

CHEM 3813 Elements of Biochemistry (for students declaring Food Science or Food Science minor only)

FDSC Concentration: 4

CHEM 2613 Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture)
& CHEM 2611L Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab)

Fine Arts and Humanities (6 hours)

Select two Fine Arts, Humanities Core courses

Social Sciences (9 hours)

Select three Social Science Core courses

Students declaring Agricultural Business minor must take AGEC 1103 Agricultural Microeconomics and students declaring General Business minor must take ECON 2143 Basic Economics - Theory & Practice, or both ECON 2013 Macroeconomics and ECON 2023 Microeconomics

FDSC Degree Requirements (26 hours)

UNIV 1001 University Perspectives 1
FDSC 1011 Exploring Topics in Food Science 1
FDSC 1103 Introduction to Food Science 3
FDSC 3103 Principles of Food Processing 3
FDSC 3202 Introduction to Food Law 2
FDSC 4304 Food Chemistry 4
FDSC 4113 Food Analysis & FDSC 4111L and Food Analysis Lab 4
FDSC 431V Internship in Food Science 3
FDSC 4413 Sensory Evaluation of Food 3
FDSC 4713 Product Innovation for the Food Scientist 3

General Electives (9-19 hours) 9-19

Additional Requirements for Food Science Concentration (10 hours)

NUTR 1213 Fundamentals of Nutrition 3
FDSC 4122 Food Microbiology 3
& FDSC 4121L and Food Microbiology Lab 3
FDSC 4754 Engineering Principles of Food Processing 4

Food Science B.S.A., Food Science Concentration

Nine-Semester Degree Program

Because the Food Science Concentration requires an internship one summer, students cannot enroll in an Eight-Semester Program. See the Eight-Semester Degree Policy (p. 87) for requirements of the eight-semester programs.

- MATH 1213 Plane Trigonometry (ACTS Equivalency = MATH 1203)  
- MATH 2554 Calculus I (ACTS Equivalency = MATH 2405)

Select one of the following:
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)
- STAT 2023 Biostatistics
- AGST 4023 Principles of Experimentation

FDSC Degree Requirements (26 hours)
- PHYS 2013 College Physics I (ACTS Equivalency = PHYS 1203) and College Physics I Laboratory (ACTS Equivalency = PHYS 1204 Lab)
- CHEM 2613 Organic Physiological Chemistry (ACTS & CHEM 2611 Equivalency = CHEM 1224 Lecture) and Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab)
- CHEM 3813 Elements of Biochemistry (for students declaring General Foods and Nutrition minor only)

FDTN Concentration:  
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)
- MATH 2053 Finite Mathematics (for students declaring Agricultural Business or General Business minors only)

Select one of the following:
- AGEC 2403 Quantitative Tools for Agribusiness
- WCOB 1033 Data Analysis and Interpretation
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)
- AGST 4023 Principles of Experimentation

FDTN Degree Requirements (24 hours)
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)
- MATH 2053 Finite Mathematics (for students declaring Agricultural Business or General Business minors only)

Select one of the following:
- AGEC 2403 Quantitative Tools for Agribusiness
- WCOB 1033 Data Analysis and Interpretation
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)
- AGST 4023 Principles of Experimentation

FDSC Concentration:  
- MATH 1213 Plane Trigonometry (ACTS Equivalency = MATH 1203)  
- MATH 2554 Calculus I (ACTS Equivalency = MATH 2405)

Select one of the following:
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)
- STAT 2023 Biostatistics
- AGST 4023 Principles of Experimentation

FDSC Degree Requirements (26 hours)
- PHYS 2013 College Physics I (ACTS Equivalency = PHYS 1203) and College Physics I Laboratory (ACTS Equivalency = PHYS 1204 Lab)
- CHEM 2613 Organic Physiological Chemistry (ACTS & CHEM 2611 Equivalency = CHEM 1224 Lecture) and Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab)
- CHEM 3813 Elements of Biochemistry (for students declaring General Foods and Nutrition minor only)

FDCU Concentration:  
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)
- MATH 2053 Finite Mathematics (for students declaring Agricultural Business or General Business minors only)

Select one of the following:
- AGEC 2403 Quantitative Tools for Agribusiness
- WCOB 1033 Data Analysis and Interpretation
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)
- AGST 4023 Principles of Experimentation

FDCU Degree Requirements (26 hours)
- PHYS 2013 College Physics I (ACTS Equivalency = PHYS 1203) and College Physics I Laboratory (ACTS Equivalency = PHYS 1204 Lab)
- CHEM 2613 Organic Physiological Chemistry (ACTS & CHEM 2611 Equivalency = CHEM 1224 Lecture) and Organic Physiological Chemistry Laboratory (ACTS Equivalency = CHEM 1224 Lab)
Select one 3000-4000 level business course from the departmental codes: ACCT, AGEC, ECON, FINN, ISYS, MGMT, MKTG, SPCM or WCOB.

Option 2: General Business Minor (GBUS-M)

<table>

**Food Science B.S.A., Food Technology Concentration**

**Nine-Semester Degree Program**

Because the Food Technology Concentration requires an internship one summer, students cannot enroll in an Eight-Semester Program. See the Eight-Semester Degree Policy (p. 87) for requirements of the eight-semester programs. Students in the Food Technology Concentration must also minor in agribusiness, general business or nutrition.

### Requirements for a Major in Food Science (FDSC)

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

**Communication (6-12 hours)**

- ENGL 1013 Composition I (ACTS Equivalency = ENGL 1013) (unless exempt) 3
- ENGL 1023 Composition II (ACTS Equivalency = ENGL 1023) (unless exempt) 3

Select two courses from approved list of communication intensive courses (FDCU must choose 3000-4000 level courses) 6

**U.S. History and Government (3 hours)**

Select one U.S. History Core course 3

**Mathematics and Statistics (9-13 hours)**

- MATH 1203 College Algebra (ACTS Equivalency = MATH 1103) 3
- FDSC Concentration: MATH 1213 Plane Trigonometry (ACTS Equivalency = MATH 1203) 10
- MATH 2554 Calculus I (ACTS Equivalency = MATH 2405) 3

</table>

Total Hours: 18

A student planning to minor in food science must consult a Department of Food Science adviser.

Requirements for Certificate of Proficiency in Brewing Science

This program is designed to provide students with a theoretical and practical introduction to brewing and fermentation. This certificate requires 15 credit hours of work, selected from the list below. Students must take two courses in brewing, one lecture and one lab, complete three credit hours of an internship, research, or special problems course, and then take two additional courses in FDSC, BIOC, CHEM, BENG, or CHEG. To broaden the student's exposure to the skills needed in brewing and fermentation, for currently enrolled undergraduate students, at least one of these additional courses must be in a different department from the department of the student's major, and that course must also be outside of those already required for the student's major(s). If the student already holds a degree, the course must be a new one outside of the previous degree program.

Required courses

</tr>
</tbody>
</table>

Required internship, special problems, or honors research project

Internship

Students could participate in an approved three credit hour internship with a brewing industry partner. A three credit hour internship should involve approximately 120-130 hours of work with the partner. The internship need not be completed in a single semester, although that is acceptable. At the end of the final semester of the internship, students would have to present a written and oral report of the work performed and lessons learned.

Special problems or research hours

Students could complete three credit hours working on a practical research problem under the supervision of a faculty member in FDSC, BISC, CHEM, BENG, or CHEG. The topic of this work should be approved for relevance to the certificate before the work begins and reviewed if it changes substantially during the course of the work. Work that involves industry partners is particularly encouraged. At the end of the final semester of the work, students would have to present a written and oral report of the work performed and lessons learned. Credit hours and work done for an honors degree can satisfy this requirement, but if honors work is used, it must include at least one credit hour in three different semesters.

Horticulture (HORT)

Wayne A. Mackay
Head of the Department
316 Plant Sciences Building
479-575-2603

The Department of Horticulture offers a broad, science-based degree with comprehensive and technical training: Horticulture, Landscape and Turf Sciences (HLTS).

Horticulture, landscape, and turf management involves selection, production, management, marketing, use, and research of ornamental crops (shrubs, trees, flowers, and turf), edible crops (herbs, vegetables, and fruits) and turf grasses for the economic, nutritional, aesthetic and recreational well-being of society. The major provides education and training in basic and applied sciences, arts and humanities, communication, and business and economics to provide an understanding of the underlying principles in plant growth and development and use of new technologies, and the operation of a horticultural enterprise. In consultation with an academic adviser and mentor, students may individually focus their academic programs through required and elective courses to focus training in specialized areas such as production, greenhouse and floriculture sciences, turfgrass management, golf course management, nursery production and management, edible crop production, pest management, sales and support services, education and training, and horticultural consulting. An internship in the industry is required to gain practical, hands-on experience.

Job opportunities for horticulturists include horticulture crop production and management, horticulture merchandising and business, consulting, inspection, research, teaching, Extension, communications, allied industries serving horticultural producers, journalism, and developing private business. Students who specialize in landscape and aspects of ornamental horticulture will be prepared for careers in the landscape service industry, landscape nurseries, landscape design firms, private and public gardens, and public agencies such as parks and recreation. Job opportunities for students studying turfgrass management include golf course superintendent, sports field manager, turfgrass science companies, seed or sod production, commercial landscape turfgrass management, research, sales, teaching, or private consulting. Advanced study may be required for some careers.

Requirements for a Major in Horticulture, Landscape and Turf Sciences (HLTS)
The HLTS major will consist of 120 hours to include the following:

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

Total Units in Sequence: 120

**Minor in Horticulture (HORT-M)**
The Horticulture minor is only available to students outside the Horticulture, Landscape and Turfgrass Sciences (HLTS) major. The minor will consist of 18 hours to include:

- HORT 2003 Principles of Horticulture 3
- HORT 4403 Plant Propagation 3
- Select a minimum of 9 hours from the following: 9-11
  - HORT 2303 Introduction to Turfgrass Management
  - HORT 3303 Vegetable Crops
  - HORT 400V Special Problems
  - HORT 4103 Fruit Production Science and Technology
  - HORT 4503 Sustainable Nursery Production
  - HORT 4703 Greenhouse Management and Controlled Environment Horticulture Laboratory
  - HORT 4803 Greenhouse Crops Production & HORT 4801L Greenhouse Crops Production Laboratory

**Minor in Landscape Horticulture (LHRT-M)**
The Landscape Horticulture minor is only available to students outside the Horticulture, Landscape and Turfgrass Sciences (HLTS) major. The minor will consist of 18 hours to include:

- HORT 2003 Principles of Horticulture 3
- HORT 4043 Professional Landscape Management 3
- Select 3 hours from the following: 3
  - HORT 4603 Practical Landscape Planning
  - LARC Studio Course
- Select one of the following: 3
  - HORT 3103 Woody Landscape Plants
  - HORT 3113 Herbaceous and Indoor Plant Materials
- Select 6-8 hours from the following: 6-8
  - HORT 2303 Introduction to Turfgrass Management
  - HORT 3103 Woody Landscape Plants
  - HORT 3113 Herbaceous and Indoor Plant Materials
  - HORT 3403 Turfgrass Management
  - HORT 400V Special Problems
  - HORT 4033 Professional Landscape Installation and Construction
  - HORT 4403 Plant Propagation
  - HORT 4503 Sustainable Nursery Production
**Minor in Turf Management (TURF-M)**

The Turf Management minor is only available to students outside the Horticulture, Landscape and Turfgrass Sciences (HLTS) major. The Turf Management minor is comprised of 18 to 20 hours to include the following:

- **HORT 2303** Introduction to Turfgrass Management 3
- **HORT 3403** Turfgrass Management (with lab component) 3

Select one of the following:

- **HORT 4903** Golf and Sports Turf Management (with lab component) 3
- **HORT 4913** Rootzone Management for Golf and Sports Turf (with lab component) 3

Select 3-4 hours from the following:

- CSES 2003 Introduction to Weed Science
- ENTO 3013 Introduction to Entomology (with lab component)
- PLPA 3004 Principles of Plant Pathology (with lab component)

Select two of the following:

- AGME 4973 Irrigation
- AGME 3102 Small Power Units/Turf Equipment & AGME 3101L Small Power Units/Turf Equipment Laboratory
- CSES 2003 Introduction to Weed Science (with lab component)
- CSES 2203 Soil Science & CSES 2201L Soil Science Laboratory
- ENTO 3013 Introduction to Entomology (with lab component)
- PLPA 3004 Principles of Plant Pathology (with lab component)
- HORT 4903 Golf and Sports Turf Management (with lab component)
- HORT 4913 Rootzone Management for Golf and Sports Turf (with lab component)
- HORT 3103 Woody Landscape Plants (with lab component)
- HORT 4033 Professional Landscape Installation and Construction
- HORT 4043 Professional Landscape Management

**Total Hours** 18

**Pest Management (PMGT)**

Nilda Burgos
Program Coordinator
ALTH 222
479-575-2445

All faculty in the Department of Plant Pathology, Entomology, and the discipline of Weed Science in the Department of Crop, Soil, and Environmental Sciences are faculty in the discipline of Pest Management.

**Minor in Pest Management (PMGT-M)**

Students interested in this area of study must declare their intention to the program coordinator. A minor in Pest Management consists of 19 hours to include two courses from each pest discipline: Entomology (ENTO), Plant Pathology (PLPA), and Weed Science (CSES):

- ENTO 3013 Introduction to Entomology 3
- PLPA 3004 Principles of Plant Pathology 4

Select four of the following:

- CSES 2003 Introduction to Weed Science
- CSES 4133 Ecology and Morphology of Weedy and Invasive Plants
- CSES 4143 Principles of Weed Control
- ENTO 4123 Insect Pest Management
- ENTO 4133 Advanced Applied Entomology
- PLPA 4223 Plant Disease Control
- PLPA 4304 Applied Plant Disease Management

**Total Hours** 19

**Poultry Science (POSC)**

Michael T. Kidd
Head of the Department
0114 Poultry Science Center
479-575-3699

Department of Poultry Science Website (https://poultry-science.uark.edu/)
The Department of Poultry Science offers a major in poultry science leading to a Bachelor of Science in Agriculture. The department also offers coursework for a minor and a certificate of excellence program.

A major in poultry science is designed to provide the scientific and technical education to prepare students for positions of leadership and responsibility in the expanding fields of production, processing, marketing, and distribution of meat, eggs, and related poultry products. The curriculum also prepares students for career opportunities in specialized areas of nutrition, breeding, genetics, physiology, management, food science, immunology, and disease.

Elective hours allow students to select a minor and thus personalize their degree.

Elective hours can also be used to emphasize areas of business, production, processing or science. Pre-veterinary medicine, pre-medical, or pre-pharmacy requirements may be fulfilled while meeting degree requirements.

Curricula are designed to permit the student to obtain the necessary foundation to pursue graduate study for the master’s and doctoral degrees. Advanced degrees are offered but not limited to the areas of nutrition, genetics, physiology, management, food science, immunology, and disease.

Poultry Science B.S.A.  
Eight-Semester Degree Program  

Students wishing to follow the degree plan should go to the Eight-Semester Degree Policy (p. 87) for university requirements of the program.

Total Units in Sequence: 120

Minor in Poultry Science (POSC-M)

A student planning to minor in poultry science should consult a departmental adviser. The minor consists of 15 hours to include the following:

POSC 1002 Introduction to Careers in Poultry Science | 2 |
POSC 1012 Avian Biology | 2 |
POSC 2343 Poultry Production | 3 |
POSC 2353 Poultry Breeder Management | 3 |
Select 5 hours from any POSC course listing. | 5 |
Total Hours | 15 |

Requirements for Undergraduate Certificate of Excellence in Poultry Science

Students entering the Certificate of Excellence Program must 1) meet the admission requirements for the University of Arkansas and 2) have completed 90 hours of coursework with a 2.0 or higher from a regionally accredited institution of higher education.

Students who have completed a Bachelor of Science degree may also consider this program. Typical careers include production/processing/allied positions in the poultry industry, graduate studies are also an option.

Curriculum Outline:

POSC 3032 Animal Physiology I | 2 |
POSC 3042 Animal Physiology II | 2 |
POSC 3223 Poultry Diseases | 3 |
POSC 3554 Avian Anatomy | 4 |
POSC 4213 Integrated Poultry Management Systems | 3 |
POSC 4314 Egg and Meat Technology | 4 |
POSC 4343 Poultry Nutrition | 3 |
POSC 4801 Seminar: Research Topics | 1 |
or POSC 4821 Seminar: Problem Solving | | |
POSC 4811 Seminar: Professionalism | 1 |
or POSC 4831 Seminar: Processing Regulations | | |
POSC 401V Internship in Poultry Science | 3 |
POSC 410V Special Topics in Poultry Science | 3 |

Faculty

Anthony, Nick, Ph.D. (Virginia Polytech Institute and State University), M.S., B.S. (The Ohio State University), Professor, 1990.
Bottje, Walter G., Ph.D. (University of Illinois-Urbana-Champaign), M.S. (Southern Illinois University), B.S. (Eastern Illinois University), Professor, 1985.
Coon, Craig N., Ph.D., M.S., B.S. (Texas A&M University), Professor, 1997.
Donoghue, Dan, Ph.D. (Texas A&M University), M.S. (Brigham Young University), B.S. (Medical University of South Carolina), Professor, 2000.
Donoghue, Annie F., Ph.D. (F. Edward Herbert School of Medicine), M.S. (Texas A&M University), B.S. (San Diego State University), Research Professor, 2000.
Dridi, Sami, Ph.D. (National Polytechnic Institute of Lorraine, France), B.S. (Superior Institute of Mateur, Tunisia), Professor, 2013.
Erf, Gisela F., Ph.D. (Cornell University), M.S., B.S. (University of Guelph, Canada), Professor, 1994.
Hanning, Casey Owens, Ph.D., M.S., B.S. (Texas A&M University), Professor, 2000.
Hargis, Billy M., Ph.D., D.V.M. (University of Minnesota-Twin Cities), M.S. (University of Georgia), B.S. (University of Minnesota), Distinguished Professor, 2000.
Kidd, Michael T., Ph.D. (North Carolina State University), M.S., B.S.A. (University of Arkansas), Professor, 2010.
Kong, Byungwhi, Ph.D., M.S. (University of Minnesota-Twin Cities), B.S. (Korea University), Associate Professor, 2006.
Kuenzel, Wayne J., Ph.D. (University of Georgia), M.S., B.S. (Bucknell University), Professor, 2000.
Kwon, Young Min, Ph.D. (Texas A&M University), M.S., B.S. (Seoul National University), Associate Professor, 2002.
Marcy, John A., Ph.D., M.S. (Iowa State), B.S. (University of Tennessee), Extension Professor, 1993.
Rath, Narayan C., Ph.D., M.S. (University of Delhi-India), B.S. (University of Delhi-India), Research Professor, 1992.
Rochell, Samuel J., Ph.D. (University of Illinois at Urbana-Campaign), M.S., B.S. (Auburn University), Assistant Professor, 2016.
Sun, Xiaolun, Ph.D., M.S. (Virginia Polytech Institute and State University), B.S. (Southern China Agricultural University), Assistant Professor, 2016.
Tellez-Izais, Guillermo, Ph.D. (Texas A&M University), Visiting Professor, 2002.
Wideman, Robert F., Ph.D. (University of Connecticut), B.A. (University of Delaware), Professor, 1993.

School of Human Environmental Sciences (HESC)

M.E. Betsy Garrison
Director
118 Home Economics Building
479-575-4305

School of Human Environmental Sciences Website (http://catalog.uark.edu/undergraduateguides/catalogsandschools/daubersmierescollegeagriculturefoodanddifferences/schoolofhumanenvironmentalsciences chỗ%20http://hesc.uark.edu/)

The School of Human Environmental Sciences at the University of Arkansas prepares students for a wide variety of professional careers in education, industry, business, government, and community services. The school is concerned with improving the quality of life for individuals and families as they exist and function in society. Human environmental sciences draws knowledge from research, from the physical, biological, and social sciences, and from arts and humanities. It relates this knowledge to an understanding of individuals’ and families’ needs and goals for food, clothing, shelter, management of resources, and human development and relationships. The School of Human Environmental Sciences has made a substantial contribution to the development of individuals and families through undergraduate and graduate preparation of human environmental scientists and through research in human nutrition, foods, human development, family sciences, apparel and textiles.

Six majors are offered in the School of Human Environmental Sciences:

• Apparel Merchandising and Product Development (p. 162)
• Birth through Kindergarten (p. 164)
• Food, Nutrition and Health (p. 165)
• Hospitality Management (p. 167)
• Human Development and Family Sciences (p. 169)
• Human Nutrition and Dietetics (p. 171)

Faculty

Apple, Laurie Marie McAlister, Ph.D. (Oklahoma State University), M.S., B.S. (University of Arkansas), Associate Professor, 2000.
Bailey, Mechelle, M.S. (University of Tennessee), B.S. (University of Arkansas), Clinical Instructor, 2012.
Balasubramanian, Mahendran, Ph.D. (Oklahoma State University), M.S. (Auburn University), B.Tech. (Anna University), Assistant Professor, 2017.
Becnel, Jennifer N., Ph.D. (Arizona State University), M.A. (University of California-San Francisco), B.A. (San Diego State University), Assistant Professor, 2014.
Blalock, Lydia, Ph.D., M.S. B.G.S (Louisiana State University), Instructor, 2016.
Buckley, Nancy, M.S., B.S. (University of Arkansas), Instructor, 2014.
Cheamie, Lance M., Ph.D., M.S. (University of Arkansas), B.S. (Nicholls State University), Instructor, 2002.
Cho, Eunjoo, Ph.D. (Iowa State University), M.S., B.S. (Hanyang University, Seoul), Assistant Professor, 2013.
Fuller, Serena M., Ph.D. (University of California, Davis), Associate Professor, 2014.
Garrison, Mary Elizabeth, Ph.D., M.S. (Iowa State University), B.S. (Benedictine College), Professor, 2014.
Hamm, Cora, M.S. (New York University), Instructor, 2016.
Harding, Lorna, M.S. (University of Alberta, Canada), B.A. (University of Western Ontario, Canada), Instructor, 2004.
Herold, Laura K., Ph.D., M.A. (University of Michigan), B.A. (Oberlin College), Clinical Assistant Professor, 2015.
Hubert, Stephanie K., M.S. (University of Arkansas), B.S. (Kansas State University), Instructor, 2015.
Kilian, Timothy Scott, Ph.D. (University of Missouri-Columbia), M.A. (Wheaton College), B.A. (Central Bible College), Associate Professor, 2001.
Ma, Weiyi, Ph.D. M.A. (University of Delaware), B.A. (China West Normal University), Assistant Professor, 2017.
McNally, Shelley Ann, Ph.D. (University of Toledo), M.S., B.S. (Ohio University), Clinical Assistant Professor, 2016.
Moon, Zola, Ph.D., M.A. (University of Arkansas), B.A. (Hendrix College), Clinical Associate Professor, 2001.
Mosley, Jacquelyn Dee, Ph.D. (Texas Tech University), M.S. (Arizona State University), B.A. (University of Northern Iowa), Associate Professor, 2010.
Moxley, Shari Coleman, Ph.D. (University of North Carolina), Instructor, 2013.
O’Brien, Catherine, Ph.D. (University of Illinois, Chicago), M.P.H. (San Diego State University), M.A. (University of California, San Diego), B.S.Ed. (University of Wisconsin, Madison), Instructor, 2016.
Robertson, Lona, Ed.D. (Indiana University, Bloomington), M.S., B.S. (Florida State University), Professor, 2006.
Siahmokou, Lobot, M.S. (University of Arkansas), B.S. (Missouri Southern State University), Instructor, 2015.
Smith, Kathy, Ed.D., M.S. (University of Arkansas), B.S. (The Ohio State University), Clinical Associate Professor, 1999.
Southward, Cheryl Leigh, Ph.D., M.S., B.S. (University of Tennessee), Associate Professor, 2008.
Traywick, La Vona, Ph.D. (University of Kentucky), Associate Professor, 2007.
Trudo, Sabrina P., Ph.D. (University of Washington), B.S. (Brigham Young University), Associate Professor, 2015.
Wang, Yao-Chin, Ph.D. (Oklahoma State University), M.B.A., B.Ec. (National Chung Cheng University), Assistant Professor, 2017.
Way, Kelly Ann, Ph.D., M.S., B.S. (Oklahoma State University), Associate Professor, 2006.
Williams, Amanda, Ph.D., M.S., B.S. (Oklahoma State University), Assistant Professor, 2017.

Apparel Merchandising and Product Development (AMPD)

M.E. Betsy Garrison
Interim Assistant Director
118 Home Economics Building
479-575-4305

The Apparel Merchandising and Product Development (AMPD) program opens the door to careers in the fashion industry. Buyer, product development specialist, fashion coordinator, sales consultant, visual display artist, and quality assurance technician are only a few of the possibilities. Classes in business, retailing, apparel production, science, social science, and the liberal arts give students a basic knowledge about the textile and apparel industries. By selecting from a variety of minors, students can tailor this program to meet their goals. Program strengths include guest speakers who provide insight into today’s careers, tours of major fashion centers, and internships, which provide valuable career experience.

Requirements for a Major in Apparel Merchandising and Product Development (AMPD)

State minimum core and discipline specific general education requirements:

| General Electives | 2    |
|                  |      |

Suggested Electives

| AMPD 4011 History of Apparel Through Film to 1900 |      |
| AMPD 4103 Evolution of Fashion and Society Through Television Media |      |
| AMPD 4111 History of Apparel Through Film from 1900 to Present |      |
| MKTG 3433 Introduction to Marketing ((Required for Business Minor -- additional pre-reqs required)) |      |

Any 3000-4000 level MKTG

TOTAL HOURS 120

1 Students may substitute AGEC 1103 and AGEC 2103 or ECON 2013 and ECON 2023 for ECON 2143.

2 Elective hours will vary based on exemptions and study tour credits.
A minimum of 36 hours must be completed at the 3000-4000 level, a maximum of 42 hours of online courses allowed. UNIV 1001 must be taken for incoming freshmen.

Apparel Merchandise and Product Development B.S.H.E.S. Ten-Semester Degree Program

Because the Apparel Merchandise and Product Development program requires a summer tour and an internship, it doesn't qualify for the Eight-Semester Degree Program. Go to the Eight-Semester Degree Policy (p. 87) for university requirements of the program. The program plan below, though, gives a path for completing required courses in a four-year period.

Birth through Kindergarten (BRKD)

Timothy Killian
Assistant Director
HOEC 16C
479-575-7214

The major in Birth through Kindergarten prepares educators to teach infants, toddlers, preschoolers and kindergarteners including those children with disabilities. The program offers students a chance to work in settings that serve young children, including public schools, early-intervention programs, child care and education centers, and residential placement centers. Successful completion of this degree, as specified in the requirements for a major in Birth through Kindergarten, leads to Arkansas’ Integrated Birth through Kindergarten/Special Education teacher license.

Passing scores on the Praxis Core (Reading, Writing, and Math) or equivalent ACT, SAT or GRE scores are a requirement for formal admission into the Birth through Kindergarten major. Passing scores on the relevant Praxis Content exams (Interdisciplinary Early Childhood Education 5023, Education of Young Children 5024 and Principles of Learning and Teaching: Early Childhood 5621) are requirements for teacher licensure. Other specific application procedures and degree requirements are available from Birth through Kindergarten faculty advisers.

Other Requirements for the B.S.H.E.S. Degree in Birth through Kindergarten major:

Both candidacy and retention eligibility for the Arkansas Birth through Kindergarten Integrated Licensure Program require that students meet a set of criteria listed in the catalog. These include the submission of a transcript showing a cumulative grade point average of at least 3.0, with grades of C or better in all BRKD courses. Students should consult their academic adviser as they near completion of the above requirements to discuss the application process for the Integrated Birth through Kindergarten/Special Education teacher license in Arkansas. Additional requirements for application to teacher licensure with the State of Arkansas Department of Education include: Praxis Core: (Reading,
Writing, and Mathematics) Praxis Content: (Interdisciplinary Early Childhood Education 5023 & Education of Young Children 5024).

1. Please visit the Bumpers College Majors and Minors page (http://bumperscollege.uark.edu/academics/majors-and-minors/) for a list of communication/intensive courses.

2. Go to the University Core Requirements (p. 97).

3. HDFS 2473/HDFS 2471L Child Guidance/Lab must be taken prior to enrolling in HDFS 4463.

4. Child Maltreatment Certification must be completed.

**Birth through Kindergarten B.S.H.E.S. Eight-Semester Degree Program**

Students wishing to follow the degree plan should go to the Eight-Semester Degree Policy (p. 87) for university requirements of the program.

**Food, Nutrition and Health (FNAH)**

Kelly A. Way
Assistant Director
17D Home Economics Building
479-575-4985

Program Description: The School of Human Environmental Sciences offers a major program in Food, Nutrition and Health leading to a B.S.H.E.S. degree. The school also offers a minor in Human Nutrition.
Interest and aptitude for the biological and physical sciences as well as public health fields that support nutrition science are central to successfully completing the major program.

### Requirements for B.S.H.E.S. in Food, Nutrition and Health

State minimum core and discipline specific general education requirements:

(Course work that meets state minimum core requirements is in bold.)

#### University Requirements
- **UNIV 1001** University Perspectives

#### Communications
- **ENGL 1013** Composition I (ACTS Equivalency = ENGL 1013)
- **ENGL 1023** Composition II (ACTS Equivalency = ENGL 1023)
- **COMM 1313** Public Speaking (ACTS Equivalency = SPCH 1003)

Select one of the following:
- **AGED 3143** Communicating Agriculture to the Public
- **ENGL 3053** Technical and Report Writing (ACTS Equivalency = ENGL 2023)

#### U.S. History and Government
- Choose from U.S. History and Government Core Courses

#### Mathematics
- **MATH 1203** College Algebra (ACTS Equivalency = MATH 1103)
- **STAT 2303** Principles of Statistics (ACTS Equivalency = MATH 2103)

#### Sciences
- **CHEM 1073** Fundamentals of Chemistry (ACTS Equivalency = CHEM 1214 Lecture)
- **CHEM 1103** University Chemistry I (ACTS Equivalency = CHEM 1101 Lecture)
- **CHEM 1123** University Chemistry II (ACTS Equivalency = CHEM 1121 Lab)
- **CHEM 2613** Organic Physiological Chemistry (ACTS Equivalency = CHEM 1224 Lecture)

AND 4 hours from University science core list

Or
- **CHEM 1103** University Chemistry I (ACTS Equivalency = CHEM 1101 Lecture)
- **CHEM 1123** University Chemistry II (ACTS Equivalency = CHEM 1121 Lab)

#### Fine Arts and Humanities
- Choose from Fine Arts and Humanities Core Courses (Select 3 hours from each)

#### Social Sciences
- **PSYC 2003** General Psychology (ACTS Equivalency = PSYC 1103)
- **HDFS 2413** Family Relations

Choose 3 hours from University Social Science Core List

#### FNAH Requirements
- **NUTR 1213** Fundamentals of Nutrition

Students wishing to follow the degree plan in Food, Nutrition and Health major should go to the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program.

### Minor in Hospitality Management

This minor degree is designed to give students the expertise needed to pursue careers in the growing hospitality management industry. This minor degree is open to all students at the University of Arkansas.

**Requirements for the minor in Hospitality Management:** Students must complete 15 credit hours to earn this minor, including courses on tourism, finance, event management, and human resources. To earn a minor Hospitality Management, a student must earn a "C" or better in the five courses required for the minor.

### Human Development and Family Sciences (HDFS)

**Requirements for a Major in Human Development and Family Sciences (HDFS)**

Students majoring in human development and family sciences prepare for one of the fastest growing employment opportunities in the country. The human services area includes jobs that serve people from conception through the last stages of life. Students develop skills for working with individuals and families in governmental, private, and nonprofit organizations. In addition to the major in Human Development and Family Sciences, the program offers a major in Birth through Kindergarten (p. 164).

**Program Description:** Nutrition and Dietetics is for the student who intends to become a Registered Dietitian (RD), a credential that is required for one to counsel individuals related to any type of diet. Courses required are those necessary as prerequisites to application for a post-baccalaureate dietetic internship. Upon successful completion of the post-baccalaureate dietetic internship, the graduate is eligible to take the Registration Exam, the board examination for the RD credential. Graduates of this program who choose not to apply for a post-baccalaureate dietetic internship are eligible upon completion of the Bachelor’s degree to take the board examination to become a Dietetic Technician, Registered (DTR).

  - NUTR 4243 Community Nutrition

**Total Units in Sequence:** 120

### Fay Jones School of Architecture and Design

#### Mission and Objectives

The Fay Jones School of Architecture and Design, founded in 1946 by John G. Williams at the University of Arkansas, houses professional design programs of architecture, landscape architecture and interior design together with liberal studies programs. The architecture and landscape architecture departments offer five-year accredited professional degree programs and four-year pre-professional degrees; the interior design department offers a four-year accredited professional degree, all of which combine studio design education with innovative teaching in history and theory; building and intelligent technologies and urban design and resiliency. A broad range of course offerings equips graduates with the knowledge and critical agility required to meet the challenges of designing for a changing world. Design instruction occurs in studio sequences that provide educational experiences appropriate for students who wish to pursue both traditional and non-traditional forms of professional practice. Fundamental principles and techniques design and design thinking are stressed and all curriculums empower students by developing skill, knowledge, and a deep sense of responsibility to their environment and to the cultures they will serve. The school's curriculum surveys issues and theoretical frameworks for professional skills, and applied learning experiences that equip them to assume leadership roles in the profession and in their communities.

#### Facilities and Resources

The three academic units of the Fay Jones School — architecture, interior design and landscape architecture — together with its administrative offices are located in Vol Walker Hall and its state of the art addition, the Steven L. Anderson Design Center. Harmoniously combining traditional and contemporary architecture, our award-winning facilities not only offer students in the Fay Jones School extraordinary opportunities for collaboration among its three design disciplines, but also model best practices for new and historic preservation construction, all adhering to high standards of sustainable design. Similarly, the university’s location in Northwest Arkansas, affords opportunity to study the impact of urbanization in a traditionally agricultural setting. At the same time, we value making connections with the entire state and our nation, pursuing...

learning experiences for our students that foster civic engagement and responsibility. So too, the school is aware of the increasing global nature of design practice and offers field trips, guest lectures, learning opportunities in applied design and research, and, especially, a variety of study abroad programs in the University of Arkansas Rome Center as well as our Latin America Program and diverse options across Europe.

**Design Studio**

The design studio sequence is the core of each discipline within the school. Studio projects are complemented by topical lectures that inform the design process. These learning experiences develop and nurture the intellectual and creative skills of students and allow them to approach problem solving in a disciplined, logical, and analytical manner. The amount and complexity of material covered, the fast pace of assignments, and the presentation of work for critical discussion among faculty and other students combine to produce a challenging learning atmosphere.

**Library Resources**

The C. Murray Smart Multimedia Center, located in Vol Walker Hall contains a vast online digital image database relating to architecture, architectural history, interior design, landscape architecture and urban design. This resource, along with a large array of archival collections of slides, photographs and video programs, is available to faculty and students of the school. The center also provides assistance to students with digital imaging technology, including the use of scanners and digital cameras.

**Digital Drawing and Fabrication Resources**

Fabrication Laboratories Website (https://fayfabricationlabs.uark.edu)

Located in the lower levels of Vol Walker Hall and an annex location in Fayetteville, the Fabrication Laboratories are an open environment for all Fay Jones School of Architecture and Design students & faculty. Material experimentation, prototyping, and representing scale models is an essential part of the design culture at the Fay Jones School. The Fabrication Labs support this hands-on learning and research through offering the use of a variety of equipment in four facilities; Wood Lab, 3D Print Lab, Laser and CNC Lab, and the Build Lab.

The materials laboratory is a learning resource providing access to timeless, innovative, emerging, and sustainable materials and technologies that enables students to grow creatively and to become socially and environmentally responsible professionals. The tangible collection offers students the opportunity to engage a material’s composition, physical structure, function, and environmental impact while exploring diverse design applications and assemblies. Searching materials is available through an online database organized by composition, manufacturing process, form, and application.

**Garvan Woodland Gardens**

Garvan Woodland Gardens Website (http://www.garvangardens.org/)

Located on Lake Hamilton in Hot Springs, Arkansas, Garvan Woodland Gardens is an integral unit of the school. The land and endowment were the result of a bequest to the department of landscape architecture in 1985. This 210-acre woodland habitat features a variety of garden settings and unique architectural structures designed and developed by world-renowned specialists in botanical gardens, landscape architecture and architecture.

Garvan Woodland Gardens’ mission is to preserve and enhance a unique part of the Ouachita environment; provide people with a place of learning, research, cultural enrichment, and serenity; develop and sustain gardens, landscapes, and structures of exceptional aesthetics, design, and construction; and partner with and serve communities of which the Gardens is a part.

An internship program offers opportunities for summer study and employments.

**University of Arkansas Community Design Center**

Community Design Center Website (http://uacdc.uark.edu/)

Since 1995 the University of Arkansas Community Design Center (UACDC) has provided award-winning, innovative planning to communities and organizations throughout Arkansas. A nationally recognized leader in urban design, sustainable development, and education UACDC design solutions advance triple-bottom line thinking: simultaneously solving for economic, ecological, and social criteria. The center’s work is multi-disciplinary as it addresses new challenges in affordable housing, context sensitive highway design, low impact development, transit-oriented development, big box urbanism, watershed urbanism, and agricultural urbanism. In the tradition of a teaching office, students collaborate with the center’s professional design staff and allied consultants while authoring their own proposals. The goal is to prepare designers for leadership in “wicked problem solving” that leads to intelligent development of the built environment.

**Degrees Offered**

The Fay Jones School of Architecture and Design offers five-year professional programs in architecture and landscape architecture and
a four-year professional program in interior design. Each program culminates in a professional degree, the Bachelor of Architecture (B.Arch.), Bachelor of Landscape Architecture (B.L.A.) or Bachelor of Interior Design (B.I.D).

The Bachelor of Science in Architectural Studies and the Bachelor of Science in Landscape Architectural Studies serve students who are interested in the design disciplines, but not professional practice. The four-year programs are well suited for students who seek careers in allied design disciplines, including historic preservation, environmental law, and history of architecture, as well as for students looking forward to graduate education in architecture, landscape architecture and the allied disciplines.

Minors
Students in architecture, landscape architecture and interior design may pursue academic minors in approved degree programs of other colleges on campus, providing they meet the specific requirements for that minor, as well as any of the school’s minors in History of Architecture and Design, Planting Design, Planning and Sustainability. An Interior Design minor is available only to students in the Fay Jones School of Architecture and Design.

Accreditations
All three professional degree programs in the Fay Jones School are nationally accredited.

The architecture program was founded in 1946 and has been accredited by the National Architectural Accrediting Board (NAAB) since 1958. The landscape architecture program was established in 1975 and has been accredited by the Landscape Architecture Accreditation Board (LAAB) of the American Society of Landscape Architects (ASLA) since 1983. The Interior Design program was established in 1974 and has been accredited by the Council for Interior Design Accreditation (CIDA) since 1993. The school holds memberships in the Association of Collegiate Schools of Architecture (ACSA) and the Council of Educators in Landscape Architecture (CELA) and the Interior Design Educators Council (IDEC), organizations that comprise North American schools of architecture, landscape architecture and interior design.

Off-Campus Study Requirement
Each student in the professional program in architecture, landscape architecture and interior design is required to complete an approved off-campus study experience focusing upon complex urban relationships, and fostering cultural diversity. Approved programs in the Fay Jones School vary. They range from a semester in Rome to five- to ten-week programs in Europe or Latin America.

A special international programs fee supports the school’s international programs. These fees are assessed to all students participating in the professional (five-year) degrees in architecture, landscape architecture and interior design designated in the “Fees and Cost Estimates” section of this catalog. The international program and any travel fees offsets the costs of maintaining off-campus programs that are not a part of the school’s university-funded budget, as well as enhancing student-centered activities. Students are assessed the international fee each semester up until the semester they study abroad. At that time, they will be assessed for any remaining semesters plus any additional program costs not covered by the international study fees. The fee is assessed for each study abroad program and is not regulated by the catalog year of the students’ first enrollment in the Fay Jones School of Architecture and Design. All travel fees are non-refundable under any circumstances including withdrawal from the respective professional programs. For further information, see notes on related program fees under “Fees and Cost Estimates” for the university.

School Academic Regulations

Plus/Minus Grading System
The Fay Jones School of Architecture and Design utilizes a plus/minus grading system that assigns numerical values to 12 different grades. These values are used for architecture, interior design and landscape architecture courses when grade-point averages are calculated. The 12-step grading system with assigned values is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

School Scholarships

More than 90 awards and scholarships, including both merit and need-based scholarships, are available to students in the Fay Jones School of Architecture and Design. Most are awarded annually on the basis of recommendations made by the scholarship committee of the school. Only work accomplished since entering the school will be considered in determining merit awards based on grade-point averages. Applications for scholarships are available for prospective and currently enrolled students at scholarships.uark.edu.

Student Organizations

American Institute of Architecture Students
The American Institute of Architecture Students (AIAS) is a national organization whose purpose is “to organize architecture students and combine their efforts to advance the science and art of architecture, to promote excellence in architectural education, training and practice, and to foster an appreciation of architecture and related disciplines among all persons.” All students in the school’s architecture program are eligible for membership.

American Society of Landscape Architects, Student Chapter
The purpose of the student chapter of the American Society of Landscape Architects is to bring together the landscape architecture students to combine their interests and efforts, to extend their knowledge of the profession of landscape architecture, and to help advance the profession while preparing for a professional career. All students in the school’s landscape architecture program are eligible for membership.
American Society of Interior Designers Student Chapter
The American Society of Interior Design Student Chapter (ASID) is dedicated to representing the entire profession and encouraging the highest possible standards for the practice of interior design. Their purpose is to encourage interaction with professionals in interior design and allied professions and to develop leadership qualities. All students in the school’s interior design program are eligible for membership.

National Organization of Minority Architects
The National Organization of Minority Architects (NOMA) mission is to champion diversity within the design professions by promoting the excellence, community engagement, and professional development of its members.

Tau Sigma Delta Honor Society
The Alpha Eta Chapter of Tau Sigma Delta is the only national collegiate honor society recognized in the fields of architecture, landscape architecture, interior design and allied arts. All students in the school are eligible for membership.

Elections to membership are made by the existing membership, subject to approval by the faculty, from the top 20 percent of each class of fourth-year and fifth-year students maintaining a minimum 3.00 cumulative grade-point average. In addition, leadership, character, and promise of professional merit are considered in making selections.

Sigma Lambda Alpha
Sigma Lambda Alpha, founded and chartered by the Council of Educators in Landscape Architecture (CELA), is an international honor society that encourages, recognizes and rewards academic excellence in preparation for the profession of landscape architecture. Any landscape architecture junior or senior with an average of 3.2 or higher is eligible for membership.

Ownership of Work
All original work submitted for credit, including design studio projects, becomes the property of the Fay Jones School of Architecture and Design. Students are required to maintain portfolios documenting all academic and design studio work. Digital copies (compact discs) of all work completed in a studio must be submitted to the studio year coordinator in order to receive a grade for the studio.

School Computer Policy
archlabs.uark.edu (http://archlabs.uark.edu/)

All students enrolled in the school are required to purchase, for their first year, a personal computer matching or exceeding specifications issued by school. The specifications are the same for all departments. All students will need their computers in the fall semester of the first year.

Recommendations for educationally priced computers are available on the UA Computer Store website (http://uofastore.com/computer/tech-guide/). Looking under the Fay Jones School.

A substantial amount of software may be required depending on specific course requirements, most of which is free for students to download at school’s Technical Support page (http://fayjones.uark.edu/people/current-students/technical-support.php).

Other software is available educational discount prices through the UA Computer Store (https://shop.uofastore.com/c-297-software.aspx).

School Admission Requirements
Each program within the Fay Jones School of Architecture and Design has its own requirements for admission to their general and professional programs. The page below provides admission requirements for:

- The Department of Architecture
- The Department Interior Design
- The Department of Landscape Architecture

Department of Architecture Admissions
The department of architecture maintains two distinct tracks of study for entering freshmen to accommodate all students interested in pursuing a degree in architecture. The two tracks of study are designed to foster learning and to build strong foundations for entering students with different skill levels and high school backgrounds. Students accepted to the University of Arkansas with the intention to participate in the B.Arch. or B.S. programs in the department of architecture will be classified as fall/spring studio students or summer/summer studio students and assigned to either the fall/spring studio track or summer/summer studio track based upon department admissions policies described below.

Fall/Spring Studio

Students must meet all of the following requirements:

- 25 ACT or better
- 3.5 GPA in high school
- College preparatory curriculum to include physics and an upper level math (Pre-Calculus or higher)

Space in the studio is limited to 120 students with priority given to first year students who are admitted to the University of Arkansas and indicate architecture or architectural studies as their intended degree program by Nov. 15.

Students are reviewed at the end of the fall semester and may continue in the program if they meet the following criteria:

- “C” or better in ARCH 1015, Architectural Design I
- “C” or better in PHYS 1044, Physics for Architects I or an approved equivalent
• "C" or better in ARCH 1212, Design Thinking I: Foundations in Technology
• Present a 2.0 GPA

Students who do not meet those criteria will receive a letter and be advised accordingly.

Summer/Summer Studio

Summer studio students meet the University of Arkansas minimum requirements for admission but do not meet the above noted department criteria for the fall/spring studio. These students can enroll in ARCH 1015, Architectural Design I in the summer if they meet the following criteria:

• "C" or better in PHYS 1044, Physics for Architects I or an approved equivalent
• Present a 2.0 GPA

Students who do not meet these criteria will be delayed until they satisfy the admissions criteria for the Department of Architecture. Students will be reviewed at the end of the first summer session and will not be allowed to continue in the program if they do not meet the following criteria:

• "C" or better in ARCH 1015, Architectural Design I
• "C" or better in ARCH 1212, Design Thinking I: Foundations in Technology
• Maintain a 2.0 GPA

Architecture Department Transfer Students

Transfer students who are admitted to the Fay Jones School of Architecture start the design studio sequence in the summer and must meet the following requirements:

• Completion of an approved general physics course and an approved mathematics course.
• To enter Design I in the summer, students must successfully pass Physics for Architects I (or another approved upper level physics course) with a minimum of C or better, complete an approved math course and present a 2.0 GPA overall.
• Students admitted to the university with a completed two-year associate of arts or associate of science degree from an Arkansas state-supported two-year or four-year college or university, as stated in ACT 182, will have general education (core) requirements waived. All students must complete any lower division discipline specific courses required for the major, as well as all courses required to comply with the conditions of accreditation.

Lack of knowledge or misinterpretation of policies and/or regulations on the part of individual students will not be considered a valid reason for failure to fulfill requirements.

Transferring from Accredited Schools of Architecture: Students transferring from an accredited professional program in architecture must have their architecture courses reviewed for acceptance and for determination of studio placement by submitting materials for review. Please contact the school’s advising center for a specific list of required materials.

NOTE: All students must complete or receive transfer credit for either PHYS 1044 Physics for Architects I or PHYS 2013 and PHYS 2011L College Physics I, MATH 1213 Plane Trigonometry, MATH 2033 Mathematical Thought, MATH 2043 Survey of Calculus or MATH 2053 Finite Mathematics and all other first year university core curriculum courses prior to entry into ARCH 2016 Architectural Design III and its co-requisites in architectural structures and history.

Ultimate responsibility for completion of entrance requirements rests with each student. For questions concerning admissions, please contact the school’s advising center for additional information.

Admission to the Professional Program

The department of architecture offers students the opportunity to prepare for architectural practice or related endeavors. With this opportunity comes a responsibility for demonstrating a commitment to personal growth and success in the professional program.

Students are admitted to the first year of the architecture curriculum based on the above described by the university and the school. Every semester, students’ grades in all architecture courses, especially the design studio, are evaluated to assess their progress and performance.

Upon completion of the third year of the five-year architecture curriculum, including completion of the 35 semester-credit hour university’s state minimum (general education) core required, students will be evaluated for admission to the professional program. Admission to the Professional Degree Program in the Department of Architecture requires a minimum 2.00 grade-point average in the University Core and each of the sub-disciplines of Architecture: History/Theory, Technology and Design.

Students admitted to the professional program will continue in the established studio curriculum sequence and are to complete the final two years of design studio at the school. In addition to completing the design studio sequence, students are encouraged to take maximum advantage of the opportunities that professional and free electives provide for pre-professional development, cultivation of specialization in and related to the profession, and/or preparation for graduate education.

Interior Design Program Admissions

Students are admitted to the first year of the interior design curriculum based on criteria established by the university and by the program. They are evaluated each semester by grades in lecture courses and by grades for performance and progress in the design studio sequence.

Admission to the Professional Program for Interior Design

The interior design program offers prospective students the opportunity to prepare for professional practice or related endeavors. With this opportunity comes a responsibility for demonstrating a commitment to personal growth and success in the professional program.

At the completion of the first year of the interior design curriculum, students will be evaluated for admission into the professional program on the basis of academic performance in the university core and the required interior design and architecture curriculum. Admission is based on available desks and requires a majority vote of the departmental admissions committee. Students admitted to the professional program will continue in the established studio curriculum sequence and are to complete the final three years of design studio at the school. Students with less than a cumulative 2.5 GPA in IDES and ARCH courses will not be admitted to the professional program. Students who are not admitted are encouraged to consider alternative programs in the school and the university.
Students are encouraged to maximize opportunities that professional and free electives provide for pre-professional development, specialization in areas related to the profession, and/or preparation for graduate education.

Department of Landscape Architecture Admissions

All students (including freshmen, international, and transfer students) admitted to the University of Arkansas are eligible for participation in the landscape architecture program in the school. Space in the studio is limited with priority given to first year students who are admitted and indicate landscape architecture or landscape architectural studies on their admissions application by November 15th. Students who require developmental work because of low ACT or SAT scores or university-administered math placement examinations or who require courses to remove deficiencies may not register for courses carrying LARC departmental designations. Upon completion of required developmental work and maintaining a grade-point average of 2.00 or more on at least 12 credit hours, students may enroll in landscape architecture (LARC) courses.

Admission to the Professional Program in Landscape Architecture

The department of landscape architecture offers a professional education grounded in liberal arts studies, which prepares students for landscape architecture practice in the private, public, and not-for-profit sectors. Successful completion of the program requires commitment to personal growth and excellence.

Students are admitted to the first year of the landscape architecture program based upon the established criteria by the University of Arkansas. Academic and professional performance is evaluated by grades in the course work, design studios, and construction labs. After two years in the program, students submit a portfolio of work at the end of the spring semester for application to continue in the professional program. Applicants who have a grade-point average below a 2.5 will not be allowed to continue in the program. Contact the department head for specific portfolio submission requirements and schedule of deadlines. All candidates will be notified of their acceptance or rejection in writing, normally by the first of August.

Students will be evaluated on general academic performance and in the landscape architecture curriculum as well as professional conduct. All department faculty serve on the admissions committee. Any appeal to the committee’s decision may be made by submitting a letter to the department head one week before the first week of the subsequent fall semester. The appeal will be presented to the entire faculty for consideration and will require the candidate to present their case in person.

Students who fail to gain admission to the Bachelor of Landscape Architecture degree program will be referred to the department head and the school’s academic adviser for appeal procedures and alternative degree programs in the school and the university.

Honors

Fay Jones School of Architecture and Design Honors Program

The Honors Program of the Fay Jones School of Architecture and Design is proud to be one of the six individual honors programs partnered with the University of Arkansas Honors College. The Fay Jones School Honors Program is rooted in the best traditions of design education: responsibility and service to the societies and cultures to which we are inextricably connected, and the nurturing of the individual curiosity and capabilities of our students. Honors requirements are the same in all departments (Architecture, Interior Design and Landscape Architecture) and can be found below.

The Fay Jones School of Architecture and Design Honors Program provides opportunities for students of superior academic and creative ability to enhance and enrich their professional and liberal education. Students in the Architecture Honors Program are eligible to graduate cum laude, magna cum laude, and summa cum laude. All other students who attain a cumulative GPA of 3.5 or higher will be eligible to graduate with distinction, a classification separate from the cum laude awards. The school's Honors Program requires 18 credits of honors coursework.

Admission to the Fay Jones School Honors Program

The Honors College will automatically enroll freshmen who are accepted as honors students before summer orientation in the Fay Jones School Honors Program. At summer orientation, these honors students will fill out the Fay Jones School Honors Program enrollment form.

Freshmen who were not admitted by the Honors College before orientation but who come to orientation with the qualifying 28 composite ACT score and 3.5 high school GPA will also fill out the Fay Jones School Honors Program Enrollment form at orientation. Students who do not present both 28 composite ACT and 3.5 high school GPA, but who subsequently earn and maintain a 3.5 GPA in their coursework at the U. of A., will be invited to enroll in the Fay Jones Honors Program as soon as they attain a 3.5 GPA, provided it is still possible for them to complete all of the Honors program requirements at the time of their enrollment.

From the second semester of the third year onward, the Fay Jones School Honors Scholars are required to maintain a minimum cumulative GPA of 3.33 to remain in the program.

Transfer students may be invited to join the Fay Jones School Honors Program if they maintain a cumulative GPA of 3.5 or higher in courses completed at the University of Arkansas by the end of the first semester of their third year of study, and a 3.33 GPA thereafter.

Every semester, the school's advising center will apprise the Fay Jones School Honors Program Committee of students who have achieved this level of excellence and are eligible to join the Fay Jones School Honors Program. Invitations are extended to students by the end of the semester in which the candidacy is advanced.

Confirmation of Intent to Complete the Fay Jones School Honors Program

At the end of the first semester of the third year, students will sign a form, confirming their intention to complete the remaining requirements for their honors degree. Students found not to have successfully completed the honors core course(s) needed to satisfy their Honors degree requirements (i.e., sufficient credits in University Core and/or Professional Core Honors courses) will be dismissed from the honors program at this time.

Dismissal from the Fay Jones School Honors Program

The Fay Jones School Honors Program students who fail to maintain a 3.5 or 3.33 cumulative GPA, depending on their year level, will receive a one-semester probation period prior to dismissal from the program.

Honors Independent Study Policy

Honors students may take as many regular or honors independent study credits as they deem desirable, but only one three-credit honors
independent study course may be substituted for an Honors Professional Elective course. Furthermore, the substitution will be permitted only if all of the following conditions are satisfied:

• That the honors independent study course not be taken concurrently with capstone credit studio.
• That the honors independent study course not be taught by the student’s capstone director.
• That honors independent study course be substituted for no more than three credits of a student’s required professional electives.

It is recommended that students considering this option seek special advising from their faculty mentor. As it is helpful for students to know what is expected of them, the work of the honors independent study (research paper, models, prototypes, etc.) should be determined, and agreed upon, by the professor and student before the student registers for the credits. The school’s advising center will register a student for an Honors Special Projects course only upon request of a syllabus or prospectus for the independent study from the student.

Honors Capstone

All honors students will pursue a capstone project during the final year of their undergraduate program. Honors students will invest three credit hours in the development of a capstone project that will articulate research topics identified in the FJAD 3153H Honors Methods of Design Inquiry course taken spring semester in a students’ third year. Guidelines for topic selection and preparation of the honors capstone project are available from the Honors Committee.

All Fay Jones Honors students are held to the highest standard with regard to academic achievement and academic integrity. Students violating the Academic Integrity policy that receive a sanction of # 1.0 at the University of Arkansas will be permanently removed from the Fay Jones Honors Program without the ability to reapply. The student may appeal the decision to the University's Academic Integrity Board; if the sanction is overturned and removed, the student will be reinstated into the Fay Jones Honors Program.

The honors capstone is a student-directed project supervised by a capstone director with expertise in the capstone topic. The capstone director, who must be a faculty member in the Fay Jones School, chairs a capstone committee to be comprised of two other members, typically, a departmental faculty member and a non-departmental faculty member who brings additional fields of knowledge to the project. In rare cases when the capstone director, in consultation with the School’s Honors Committee and the student, determines that a non-departmental faculty member with expertise appropriate to the capstone in question cannot be identified on campus, an extra-disciplinary member from within the Fay Jones School (e.g., faculty in architectural history, technology, or other allied field) may fill the position of the non-departmental member. Any such exceptions to the standard membership of a capstone committee should be infrequent. The point of including non-departmental participation is to help ensure that a student’s research is understandable and valid to an informed community outside of the disciplines of architecture, interior design or landscape architecture. Additional faculty, both departmental or non-departmental, as well as non-academic experts, may participate in any honors capstone as non-committee members, if the capstone director welcomes their involvement. Students will complete and present a written prospectus for the Honors Capstone no later than the Friday before summer break in their third year of study. The prospectus will be a product of the FJAD 3153H Honors Methods of Design Inquiry course. Students shall meet a schedule of interim requirements established by the capstone committee in consultation with the School’s Honors Committee.

Requirements for Fay Jones School of Architecture and Design Honors Program Scholars

Completion of 18 hours of honors designated courses, to include a minimum of:

Architectural Studies (ARCH)

Department Office
120 Vol Walker Hall
479-575-4705

Bachelor of Science in Architectural Studies

The Bachelor of Science in Architectural Studies incorporates course work from the school with liberal studies for students with interests that fall outside the parameters of the accredited professional degree program. The architectural studies program provides opportunities for students who wish to prepare for graduate study in an accredited architecture program or in an allied discipline, such as architectural history, historic preservation, urban planning, or construction management, as well as serving students who seek opportunities in related fields that may not require the five-year accredited degree.

Architectural Studies degree candidates may pursue an academic minor. The minor must be in a field other than the major area, and students must notify the department of their intention to minor. An academic minor ordinarily consists of 15-18 hours.

Although foreign study is not required of candidates for the four-year degree, students in the architectural studies curriculum are encouraged to participate in the school's off-campus study programs in Europe and Latin/ Central America.

To take maximum advantage of the opportunities the four-year degree offers for pre-professional development (cultivation of specialization in and related to the field, and/or preparation for graduate study) each candidate for the Architectural Studies degree will work with a faculty adviser to develop a program of study emphasizing a student’s special interests.

Requirements for a Bachelor of Science Degree in Architectural Studies:

1. Completion of the following 31-hour architectural studies program:

<table>
<thead>

**Upper Division Electives outside of FJSOA**

Nine hours to include at least one course in IDES and one course in LARC

Total Hours 42

4. **Free Electives**

12

5. A minimum of 120 hours with a 2.00 cumulative grade-point average at this institution both in all work attempted and in course work completed in the Fay Jones School of Architecture.

6. Presentation of at least 40 semester hours in courses numbered 3000 or above or courses in the Fay Jones School of Architecture (or allied discipline) numbered 2000 with specific course prerequisites.

7. University Perspectives (UNIV 1011) does not count towards degree credit.

**Architectural Studies B.S. Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. During the first year, students who have been admitted to the fall-spring design studio and students who have been to the summer-summer design studio follow different schedules, both of which are listed below, with the fall-spring studio first and then the summer-summer studio. The second, third and fourth years are identical for both scenarios.

**Fall-Spring Design Studio**

 Academic Policies

1. Any student receiving a grade of “D (+/-)” in a pre-professional program studio course is subject to a comprehensive review of his/her semester’s work by the Design Review Committee. The committee can require the student to retake the studio, prior to advancing to the next studio in sequence, in order to demonstrate competence by achieving a grade of “C” (2.00) or better. A student receiving an “F” in any required design studio must repeat that studio before progressing.

2. Each student’s progress through the Design Studio sequence is monitored and governed by the faculty and subject to a design review process.

3. Any student receiving an “I” in a design studio must complete all work necessary to receive a grade in that studio prior to the first day of the next studio in the student’s prescribed sequence. Students carrying a grade of “I” will not be permitted to enroll in subsequent studios.

4. Prior to graduation, a student must present a 2.00 cumulative grade-point average in all work at this institution.

 Faculty

Baker, Emily, M.Arch. (Cranbrook Academy of Art), B.Arch. (University of Arkansas), Assistant Professor, 2017.
Blackwell, Marlon, M.Arch. (Syracuse University), B.Arch. (Auburn University), Distinguished Professor, 1992.
Boelkins, Jonathan, M.Arch. (Washington University in St. Louis), B.Arch. (University of Arkansas), Instructor, 2017.
Buege, David, M.A. (Princeton University), Professor, 2009.
Colangelo, Jessica L., M.Arch. (Princeton University), B.Arch. (Rice University), Assistant Professor, 2018.
Del Gesso, Emilio, B.A. (University of Rome), Assistant Professor, 1997.

Holland, Brian, M.Arch. (University of Pennsylvania), B.Arch., (California State Polytechnic University, Pomona), Assistant Professor, 2018.
programs may require a pre-professional undergraduate degree in depending on the extent of its conformance with established educational be granted an eight-year, three-year, or two-year term of accreditation, Master of Architecture, and the Doctor of Architecture. A program may recognizes three types of degrees: the Bachelor of Architecture, the National Architectural Accrediting Board (NAAB), which is the accredited professional degree program as a prerequisite for licensure. In the United States, most registration boards require a degree from an architecture for admission. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The University of Arkansas Fay Jones School of Architecture and Design’s department of architecture offers the following NAAB-accredited degree program:

- B.Arch. (159 undergraduate credits)

The last accreditation visit for the B.Arch. programs was conducted in February 2014; the date of the next visit will be announced in spring 2022.

The National Architectural Accrediting Board (NAAB) only accredits professional programs offering the Bachelor of Architecture, which requires a minimum of five years of study, and the Master of Architecture degrees. These professional degrees are structured to educate those who aspire to registration and licensure as architects. The curricular requirements for awarding these degrees must include three components — general studies, professional studies, and electives. Together these three components comprise a liberal education in architecture and ensure that graduates will be technically competent, critical thinkers who are capable of defining multiple career paths within a changing societal context.

No four-year degrees are accredited by NAAB, but the Bachelor of Science in Architectural Studies degree is excellent for those who want a foundation in the field of architecture as preparation for either continued education in a professional degree program or for employment in fields related to architecture.

Architecture (ARCH)

Department Office
115 Vol Walker Hall
479-575-4705

The Bachelor of Architecture prepares students for registration and licensure to practice architecture. Architects are licensed professionals trained in the art and science of the design and construction of buildings and structures that primarily provide shelter. Additionally, architects may be involved with designing the total built environment—from how a building integrates with its surrounding landscape to architectural or construction details that involve the interior of the building to designing and creating furniture to be used in a specific space. An architect will create the overall aesthetic and look of buildings and structures, but the design of a building involves far more than its appearance. Buildings also must be functional, safe and economical and must suit the specific needs of the people who use them. Most importantly, they must be built with the public’s health, safety and welfare in mind.

The Department of Architecture also offers a minor in History of Architecture and Design with different courses available for students in the Fay Jones School of Architecture and Design and for those students from outside the school.

Architecture – National Architectural Accrediting Board

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year, three-year, or two-year term of accreditation, depending on the extent of its conformance with established educational standards. Doctor of Architecture and Master of Architecture degree programs may require a pre-professional undergraduate degree in
ARCH 1003 Architectural Theory 3

Professional Practice
ARCH 5314 Architectural Professional Practice 4

Total Hours 94

2. Completion of the 35-hour general University Core requirements (p. 97). In addition, specific requirements are listed below:

Mathematics
Select one of the following: 3
MATH 1213 Plane Trigonometry (ACTS Equivalency = MATH 1203)
MATH 2033 Mathematical Thought
MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)
MATH 2053 Finite Mathematics

Laboratory Science
Required
Select one of the following: 4
PHYS 1044 Physics for Architects I
PHYS 2013 College Physics I (ACTS Equivalency = PHYS & PHYS 2011L2014 Lecture)
and College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab)

Strongly Recommended
Select one of the following: 4
PHYS 1054 Physics for Architects II
PHYS 2033 College Physics II (ACTS Equivalency = PHYS & PHYS 2031L2024 Lecture)
and College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab)

3. Completion of 30 hours of electives, as follows:

Professional Electives 15
Chosen from upper-level courses (courses numbered 3000 or above) taught on the Fayetteville campus in the Fay Jones School of Architecture and Design and allied disciplines. Students participating in the Rome program may present Architecture of the City (ARCH 4653) for professional elective credit. All other elective courses will be used to fulfill free elective requirements.

Free Electives 13

Total Hours 28

4. A minimum of 157 hours with a 2.00 cumulative grade-point average at this institution both in all work attempted and in all professional course work attempted is required.

5. Participation for at least one semester in an approved international educational experience. (See Off-Campus Study Requirement (p. 173).)

NOTE: No more than three hours of physical education and/or R.O.T.C. may be counted toward a degree. Courses not acceptable toward degree credit include those of a remedial or orientation nature and whose content are considered to be measurably duplicated elsewhere in the curriculum. ARCH 1003 is not counted toward degree credit for architecture majors.

University Perspectives (UNIV 1001) does not count towards degree credit.

By following the preceding curriculum, students will meet the state-mandated University Core Requirements. They must also meet all other university requirements for graduation. See the university Academic Regulations (p. 81).

Sample curriculum for the Bachelor of Architecture degree can be obtained from the school’s advising center.

Professional Licensure Degree Requirement

The National Architectural Accrediting Board (NAAB) only accredits professional programs offering the Bachelor of Architecture, which requires a minimum of five years of study, and the Master of Architecture degrees. These professional degrees are structured to educate those who aspire to registration and licensure to practice as architects. The curricular requirements for awarding these degrees must include three components—general studies, professional studies, and electives. Together these three components comprise a liberal education in architecture and ensure that graduates will be technically competent, critical thinkers who are capable of defining multiple career paths within a changing societal context.

While no four-year degrees are accredited by NAAB, the Bachelor of Science in Architectural Studies degree is excellent for those who want a foundation in the field of architecture as preparation for either continued education in a professional degree program or for employment in fields related to architecture.

Architecture B.Arch.
Ten-Semester Degree Program

The professional program for a Bachelor of Architecture Degree requires 10 semesters of coursework and is not eligible for the Eight-Semester Degree Completion Program. It also requires admission to the professional program after the third year of classes. However, the following 10-semester sample plan shows how a first-year student could obtain a Bachelor of Architecture Degree in five years if the student is admitted to the Fall-Spring Architectural Design Studio and subsequently is admitted to the professional program. Students not accepted into the fall studio will begin ARCH 1015 in the first summer session (granted all fall requirements are met) followed by ARCH 1025 in the second summer session.

Students should be aware that PHYS 1044, PHYS 1054 (or an approved alternate laboratory science in the University Core) and one of the listed MATH courses must be completed before students can begin second-year courses in Architecture. Transfer students and students who change majors and seek exceptions to the sample curriculum will be reviewed on an individual basis.

Students in the professional program are required to participate in an approved study abroad experience. Students can chose from either a fall or spring semester of 4th year in Rome, Italy or a summer program (summer prior to 4th or 5th year) in a designated Latin or Central American country. Students can elect to participate in both but only one program can serve as a substitution for ONE fourth year studio semester. Should a student participate in both study aboard programs, the additional program would go to professional elective hours.

| Total Units in Sequence: | 159 | | |

Note 1: Students are reviewed at the end of the fall semester and may continue the program if they meet the following criteria: “C” or better in ARCH 1015, Architectural Design I; “C” or better in PHYS 1044, Physics for Architects I or an approved equivalent; “C” or better in ARCH 1212, Design Thinking I: Foundations in Technology; Maintain a 2.0 GPA. Students who do not meet these criteria will receive a letter and be advised accordingly.

Note 2: All university core courses must be completed by the end of the third year. Admission to ARCH 4016 is contingent upon admission to the professional program.

Note 3: If the student participates in the Rome program in the spring semester, the course plan for fourth year is reversed. Students may also choose to participate in the 10-week Latin American study abroad program in the summer before their 3rd or 4th year. If a student chooses to do both programs, only one studio will count towards the required studio sequence. The additional hours may count towards professional programs.

**Academic Policies**

In addition to the requirements of the university, the following academic policies are applicable to all students in the Department of Architecture.
1. Any student receiving a grade of "D (+/-)" in a pre-professional program studio course is subject to a comprehensive review of his/her semester's work by the Design Review Committee. The committee can require the student to retake the studio, prior to advancing to the next studio in sequence, in order to demonstrate competence by achieving a grade of "C" (2.00) or better. A student receiving an "F" in any required design studio must repeat that studio before progressing.

2. Each student's progress through the Design Studio sequence is monitored and governed by the faculty and subject to a design review process.

3. Admission to the Professional Degree Program in the Department of Architecture requires a minimum 2.00 grade-point average in the University Core and each of the sub-disciplines of Architectural History/Theory, Technology, and Design.

4. Enrollment in any 4th year design studio, including comprehensive design studio (ARCH 4016 or ARCH 4026), the Rome Center Design Studio (ARCH 4116), and the Latin American summer studio (ARCH 4126) is contingent upon admission to the professional program in architecture as described above.

5. Successful completion of the upper level studios of the professional degree program (ARCH 4016, ARCH 4026, ARCH 4116, ARCH 4126, ARCH 5016, and ARCH 5026) requires demonstration of competence as evidenced by achieving a grade of "C" (2.00) or better in those courses. Failure to achieve this minimum standard will require retaking the studio.

6. Any student receiving an "I" in a design studio must complete all work necessary to receive a grade in that studio prior to the first day of the next studio in the student's prescribed sequence. Students carrying a grade of "I" will not be permitted to enroll in subsequent studios.

7. Prior to graduation, a student must present a 2.00 cumulative grade-point average in all work at this institution.

## Design Review (Grade Appeal) Procedure

### The Design Review Process

Design Review is a process initiated by a faculty member, the Department Head or a student in order that (1) a faculty member may review a student's design work within a studio course, or (2) a student may appeal grades and/or seek resolution of conflicts with studio faculty in which it is believed that questions of fairness and equity have been raised by the application of the published grading policy of the faculty member. Faculty reviews are predicated upon, but are not limited to, the review of student work that has received a "D" grade or lower.

The Department Head will appoint a Design Review (Appeals) Committee at the beginning of each academic year. The Committee shall be composed of three (3) members of the permanent faculty. Additional or alternate members of the Committee may be appointed at the discretion of the Department Head or the Associate Dean.

Grade appeals initiated by students will occur during the week prior to the start of classes in the subsequent semester. Grade appeals may be filed through petition to the Office of the Associate Dean as soon as the student receives his or her final grade, but no later than the first day of the subsequent semester, (Monday of the week prior to the start of classes). In instances when the appeal concerns a change of an incomplete grade, petition for review should be made as soon as possible after the award of the final grade, and the review will be scheduled at the discretion of the Associate Dean.

### Protocol for the Design Review (Appeal) Process

1. Students are encouraged to meet with the faculty member(s) who has awarded the contested grade prior to filing a grade appeal. The student may request that his/her faculty advisor, a member of the professional advising staff, or the Associate Dean facilitate this meeting.

2. When a Design Review (Appeal) has been scheduled, the student shall exhibit, at the place and time specified by the Associate Dean's office, ALL work assigned and attempted for the studio in the semester under review. Faculty are required to provide the Design Committee with the course syllabus, grading policy, semester assignments, mid-term course assessment, and a written evaluation (a one-page rationale) of the full semester's work at least 48-hours in advance of the Design Review.

3. The Design Review (Appeal) will consist of separate and independent meetings of the Design Review (Appeal) Committee with the student and the faculty member(s). Following these meetings, the Committee will convene to evaluate the merits of the review (appeal). The Committee is expected to serve as both objective reviewers of the work and as advisers to the student.

4. The Design Review (Appeal) committee will keep minutes of its deliberations. All recommendations from the Committee shall have written explanations and/or justifications, which will be provided to the student, the faculty member, and the Associate Dean, and made part of the student's academic file. The Associate Dean is responsible for communicating the results of a Review (Appeal) to the student.

### The Outcome of the Design Review

1. A recommendation to the faculty member regarding the grade appeal of the student. Action upon that recommendation is undertaken solely at the discretion of the faculty member. No faculty member is compelled to change a grade in response to the recommendation of the Design Review Committee.

2. A requirement for the student to repeat the design studio course and any co-requisite.

3. A recommendation for enrollment in the subsequent studio course, while advising the student of the need to achieve and maintain a cumulative 2.00 (in the studio sequence) for admission to the professional program.

4. An academic advising plan to guide the student toward successful completion of his/her degree requirements or the pursuit of an alternate career path.

All efforts shall be made to achieve clarity and reconciliation, so that the student is able to move forward positively in his/her academic career.

## Requirements for a Minor in History of Architecture and Design

### Pre-requisites for the Minor in History of Architecture and Design (HARD-M):

For Fay Jones School students:

Total Hours: 18

1. A Fay Jones School student can present only 9 hours of courses required for the major field of study for credit for the minor. 3000-plus courses that are not required for the major can be presented for “advanced” credit in the minor.

2. Only 3 hours of credit earned in Study Abroad courses can be presented for credit toward the History of Architecture and Design minor.

3. A menu of variable topics courses that will qualify for credit toward the History of Architecture and Design Minor is published every semester.

Faculty

Baker, Emily, M.Arch. (Cranbrook Academy of Art), B.Arch. (University of Arkansas), Assistant Professor, 2017.

Blackwell, Marlon, M.Arch. (Syracuse University), B.Arch. (Auburn University), Distinguished Professor, 1992.
Council for Interior Design Accreditation

The Bachelor of Interior Design (B.I.D.) degree is accredited by the Council for Interior Design Accreditation (CIDA). CIDA, an independent, nonprofit accrediting organization, is the sole agency authorized to accredit professional degree programs in interior design. To ensure conformance with educational standards, programs must seek re-accreditation every six years. The program is the oldest accredited interior design program in the state of Arkansas.

The University of Arkansas Fay Jones School of Architecture and Design's department of Interior Design offers the following CIDA-accredited degree program:

- B.I.D. (121 undergraduate credits)

The last accreditation visit for the Interior Design program was conducted in April 2012; the next site visit is spring 2024.

Requirements for B.I.D. in Interior Design

Interior Design Program Admissions

Students are admitted to the first year of the interior design curriculum based on criteria established by the university and by the program. They are evaluated each semester by grades in lecture courses and by grades for performance and progress in the design studio sequence.

Admission to the Professional Program for Interior Design

The interior design program offers prospective students the opportunity to prepare for professional practice or related endeavors. With this opportunity comes a responsibility for demonstrating a commitment to personal growth and success in the professional program.

At the completion of the first year of the interior design curriculum, students will be evaluated for admission into the professional program on the basis of academic performance in the university core and the required interior design and architecture curriculum. Admission is based on available desks and requires a majority vote of a departmental admissions committee. Students admitted to the professional program will continue in the established studio curriculum sequence and are to complete the final three years of design studio at the school. Students with less than a cumulative 2.5 GPA in IDES and ARCH courses will not be admitted to the professional program. Students who are not admitted are encouraged to consider alternative programs in the school and the university.

Students are encouraged to maximize opportunities that professional and free electives provide for pre-professional development, specialization in areas related to the profession, and/or preparation for graduate education.

Internship Requirement: In addition to the requirements listed in the nine-semester degree program, a supervised 200-hour internship experience is required for graduation. The one-credit hour summer internship generally occurs in the summer before the fourth year. Students have been placed in interior design firms, architectural offices, Main Street programs, governmental agencies, hospitality and casino design firms, and a wide range of other allied industries. Geographically, students have completed internships in Los Angeles, San Francisco, Seattle, New York, Las Vegas, Washington, D.C., Denver, Dallas, Chicago, Kansas City, and other major cities in the United States, as well as international locations such as London and Edinburgh.

Interior Design B.I.D.

Nine-Semester Degree Plan

The Bachelor of Interior Design can be completed in nine semesters that includes a summer internship. The one-credit hour summer internship occurs in the summer before fourth year. University Perspectives (UNIV 1001) does not counts towards degree credit. Please see the Fay Jones School of Architecture Advising Center for specific core course requirements and elective options.
Design Review Procedure – Department of Interior Design

Design Review is a process initiated by a faculty member, department head, or by a student. The committee composed of interior design faculty may review a student’s design work within a studio course as well as other professional courses. The review process may be used by students to appeal grades and to seek resolution of conflicts with faculty when there are questions of fairness and equity in grading. Grade appeals initiated by students will occur during the week prior to the start of class in the subsequent semester. Petitions for this review must be made through the advising center prior to the scheduled meeting of the Design Review Committee. Grade appeals may be filed as soon as the student receives his or her final grade. In all cases, the student shall exhibit, at the place and time specified by the Design Review Committee, ALL work assigned and attempted for the course in the semester under review. Faculty are required to provide appropriate documentation including, but not limited to, the course syllabus, grading policy, and semester assignments. In the case of an appeal, the appeal will be presented to the entire Interior Design faculty for consideration and may require the students to present their case in person.

The outcome of the Design Review process may include:

1. A recommendation to the faculty member regarding the grade appeal of the student.
2. A requirement for the student to repeat the design studio course or lecture course.
3. A recommendation for enrollment in the subsequent studio course, while advising the student of the need to achieve and maintain a cumulative 2.00 (in the studio sequence) to progress in the program.

Minor in Interior Design

All students in the Fay Jones School of Architecture seeking an Interior Design minor are required to complete 17 hours in the following courses or their equivalencies:

Landscape Architectural Studies (LARC)

Ken McCown
Department Head
Vol Walker Hall
479-575-4907
Department of Landscape Architecture Website (http://architecture.uark.edu/academics/landscape-architecture/)

The Department of Landscape Architecture offers a Bachelor of Science in Landscape Architectural Studies as well as several options for minors for landscape architecture students, horticulture students and other students.

The Bachelor of Science in Landscape Architectural Studies degree is offered to those who wish to gain considerable knowledge of the ecological, social, cultural and historical factors that have shaped landscapes of the western and non-western world. This degree will provide a comprehensive theoretical framework that will suit students wishing to enter careers at the municipal, state and federal levels. This degree will also serve students who wish to pursue a career in environmental design but do not seek landscape architecture licensure.

Requirements for B.S. in Landscape Architectural Studies
The minimum number of hours of credit required for graduation is 120.

Requirements for a bachelor of Science in Landscape Architectural Studies
1. Completion of the following 26-hour landscape architecture studies program:

   A minimum of 120 hours with a 2.00 cumulative grade-point average at this institution both in all work attempted and in course work completed in the Department of Landscape Architecture and the School of Architecture.

   Course work taken to remove course deficiencies assigned during admission or transfer will not be counted toward the degree. Similarly, courses considered to be remedial or developmental will not count toward the degree.

   Students admitted to the university with a completed two-year associate of arts or associate of science degree from an Arkansas state-supported two-year or four-year college or university will receive credit for general education (core) requirements in accordance with ACT 182. All students also must complete any lower division discipline specific courses required for the major.

   Although not a requirement in the four-year degree, students are encouraged to participate in the department’s summer study abroad program. The course work will count towards professional elective requirements.

   Landscape Architectural Studies B.S. Eight-Semester Degree Program

   Students wishing to follow the eight-semester degree plan while pursuing a Bachelor of Science in Landscape Architectural Studies should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program.

**Minors for Landscape Architectural Studies Students**

Landscape Architectural Studies candidates may pursue an academic minor. The minor must be in a field other than the major area, and the students must notify the department of their intention to minor. An academic minor ordinarily consists of 15-18 hours, which are dictated by the department of the minor. Students in Landscape Architectural Studies may choose from any recognized minor offered by the University; however, they are encouraged to consider the following fields:

- Public Policy, Planning, History, Geography, and Horticulture, and further encouraged to consider cross-disciplinary study in African-American Studies, Anthropology, Art History, Business Administration, Classical Studies, Communication, Computer Sciences, Economics, English, European Studies, Gender Studies, Latin-American Studies, Philosophy, Political Science, Psychology, Sociology and Sustainability.

Although foreign study is not required for candidates in Landscape Architectural Studies, students in the curriculum are encouraged to participate in the School of Architecture's off-campus study abroad programs in Europe, Rome and Latin or Central America.

To take maximum advantage of the opportunities of the four-year degree program, each student in the Landscape Architectural Studies program shall work with the department faculty advisers to develop a program of study emphasizing special interests, to cultivate a specialization related to the field, and to guide preparation for graduate study, if desired.

**Minor in Planting Design (for Horticulture majors)**

17 Hours Total Required

Minor in Planning

A student who wants to minor in Planning should notify either the Department of Landscape Architecture or Political Science and consult an academic adviser. A Planning minor consists of 18 hours of required and elective courses subdivided into three concentrations. A student should choose one concentration and take 6 hours of elective courses in that concentration. The minor’s required and elective courses include:

| Required Courses: | | | |
|-------------------|--------------------------|---|
| LARC 5386        | Landscape Architecture Design VIII | 6 |
| or LARC 5493     | Environmental Land Use Planning | 6 |
| and one 3 credit-hour elective from the Spatial Concentration | | |
| PLSC 3253        | Urban Politics | 3 |
| PLSC 4103        | Introduction to Urban Planning | 3 |
| Electives        | Select two courses from one group | 6 |

Policy Group:

- ANTH 4443 Cultural Resource Management I
- ANTH 5113 Anthropology of the City
- ENSC 3413 Principles of Environmental Economics
- LARC 4033 Landscape Architecture Theory
- LARC 4743 Public Participation in Design and Planning (Public Participation in Design and Planning not offered until 2014)
- PLSC 390V Special Topics
- PLSC 4283 Federalism and Intergovernmental Relations
- HDFS 4603 Environmental Sociology
- SCMT 3443 Transportation and Distribution Management

Spatial Group:

- ARCH 5493 History of Urban Form
- ARCH 5933 Preservation and Restoration
- ANTH 5113 Anthropology of the City
- ENSC 3413 Principles of Environmental Economics
- GEOS 4073 Urban Geography
- LARC 402V Special Studies
- LARC 4033 Landscape Architecture Theory
- LARC 4753 Incremental Sprawl Repair (Incremental Sprawl Repair not offered until 2014)
- LARC 5053 Historic Landscape Preservation
- HDFS 4603 Environmental Sociology

Environmental Group:

- ANTH 4443 Cultural Resource Management I
- ANTH 4603 Landscape Archaeology
- BIOL 3863 General Ecology
- ENSC 3223 Ecosystems Assessment
- ENSC 3223L Ecosystems Assessment Laboratory
- ENSC 3413 Principles of Environmental Economics
- LARC 4033 Landscape Architecture Theory
- LARC 5053 Historic Landscape Preservation
- HDFS 4603 Environmental Sociology

Total Hours: 18

Academic Policies

Grade Appeals – Department of Landscape Architecture

Students in the Department of Landscape Architecture may appeal grades in the design studios as well as other professional courses in which it is believed that there are questions of fairness or equity in the application of the published grading policy of the faculty member. Appeals must be made in writing to the department head one week before the first week of the subsequent semester. The appeal will be presented to the entire Landscape Architecture faculty for consideration and may require the students to present their case in person. Outcomes of grade appeals may result in one of the following:

1. A recommendation to the faculty member regarding the grade appeal of the student.
2. A requirement for the student to repeat the design studio course and any co-requisite.
3. A recommendation for enrollment in the subsequent studio course, while advising the student of the need to achieve and maintain a cumulative 2.00 (in the studio sequence) for admission to the professional program.

Faculty

Biehle, Scott, M.L.A. (University of Texas at Austin), B.A. (St. Olaf College), Clinical Assistant Professor, 2012.
Billig, Noah Scott, Ph.D. (Clemson University), M.Ur.P., M.L.A., B.A. (University of Minnesota), Associate Professor, 2011.
Smith, Carl Alan, Ph.D., M.A. (University of Sheffield), B.Sc. (University of Lancaster), Associate Professor, 2008.

Landscape Architecture (LARC)

Ken McCown
Department Head
Vol Walker Hall
479-575-4907

Department of Landscape Architecture Website (http://architecture.uark.edu/academics/landscape-architecture/)

The Bachelor of Landscape Architecture prepares students to practice landscape architecture as a licensed professional. Landscape Architecture is the sustainability profession. The discipline of landscape architecture balances human requirements with landscape concerns. Landscape architects design, plan, and manage the land through understanding the interrelationships among the spirit of place, local ecology, individuals, and communities. They create outdoor spaces
and rebuild ecological systems that meet societal needs, protect or
enhance the natural environment, and respond to cultural conditions.
Design and planning projects span the breadth of the profession to
include urban design and town planning, public parks and community
gardens, green infrastructure, land conservation and preservation,
stormwater management systems, green roofs, ecological rehabilitation,
historic landscape preservation, private gardens, housing developments,
institutional and business campuses, and golf courses.

The Bachelor of Science in Landscape Architectural Studies serve
students who are interested in the design disciplines, but not professional
practice. The four-year programs are well suited for students who seek
careers in allied planning and design disciplines, including historic
preservation, environmental law, and history of architecture, as well as for
students looking forward to graduate education in architecture, landscape
architecture and the allied disciplines.

Landscape Architecture – Landscape Architectural Accreditation
Board

The Landscape Architecture Accreditation Board (LAAB) is the sole
agency authorized to accredit U.S. professional degree programs in
Landscape Architecture. LAAB recognizes the Bachelor of Landscape
Architecture, Bachelor of Science in Landscape Architecture, and Masters
of Landscape Architecture. It accredits each program every six years,
evaluating degree of conformance with established education standards.

Masters degree programs may consist of a pre-professional
undergraduate degree and a professional graduate degree, which, when
earned sequentially, comprise an accredited professional education.
However, the pre-professional degree is not, by itself, recognized as an
accredited degree.

The University of Arkansas Fay Jones School of Architecture and
Design's department of landscape architecture offers the following LAAB-
accredited degree program:

- B.L.A. (160 undergraduate credits)

The next accreditation visit for the B.L.A. program is 2022.

Bachelor of Landscape Architecture Degree

Completion of the University Core (http://catalog.uark.edu/
undergraduatetocatalog/academicregulations/universitycore/).

As part of the University Core, the department recommends the
following:

Laboratory Science
Select two of the following natural sciences for a total of eight hours:

Practice Components
LARC 4811 Landscape Architecture Interns 1
LARC 5613 Landscape Architectural Professional Practice 3

**Professional Electives**

Students may select courses from the Departments of Landscape Architecture, Interior Design and Architecture as well as courses in history, geography, horticulture, art, sociology, environmental studies, and business. These courses can be thematically selected to emphasize urban studies, ecological planning, construction management, and land development.

**Free Electives**

Students are encouraged to take courses outside the Department to broaden their education.

Total Hours 145

1. Candidates seeking graduation shall achieve a minimum of 145 hours and a minimum of a “C-” in each course within the professional curriculum. The remaining balance of hours shall have a minimum of 2.00 cumulative grade point average. Students must maintain a minimum 2.0 cumulative grade-point average to continue in the studio sequence. Any student receiving a “D+/-” or below in the professional core shall repeat the course. Any student with a second “D+/-” or below shall be considered for non-continuance in the program as determined by the department head and faculty. To continue in the professional program, the student must submit a portfolio after their second year for faculty review. Please see section “Admission to the Professional Program in Landscape Architecture.”

2. Students in landscape architecture are required to complete the department’s summer study abroad program, after their second year.

NOTE: No more than four hours of physical education and/or R.O.T.C. may be counted toward a degree. Courses not acceptable toward degree credit include those of a remedial or orientation nature and whose content are considered to be measurably duplicated elsewhere in the school’s curriculum. University Perspectives (UNIV 1001) does not count towards degree credit.

By following the preceding curriculum, students will meet the state-mandated University Core requirements. They must also meet all other University Requirements (p. 91) for graduation. The department strongly recommends that transfer students present eight hours of laboratory science courses selected from botany, biology, geology, and physical science as part of the State Minimum Core.

Students admitted to the university with a completed two-year associate of arts or associate of science degree from an Arkansas state-supported two-year or four-year college or university will receive credit for general education (core) requirements in accordance with ACT 182. All students also must complete any lower division discipline specific courses required for the major as well as all courses required to comply with the conditions of accreditation.

**Grade Appeals – Department of Landscape Architecture**

Students in the Department of Landscape Architecture may appeal grades in the design studios as well as other professional courses in which it is believed that there are questions of fairness or equity in the application of the published grading policy of the faculty member. Appeals must be made in writing to the department head one week before the first week of the subsequent semester. The appeal will be presented to the entire Landscape Architecture faculty for consideration and may require the students to present their case in person. Outcomes of grade appeals may result in one of the following:

1. A recommendation to the faculty member regarding the grade appeal of the student.

2. A requirement for the student to repeat the design studio course and any co-requisite.

3. A recommendation for enrollment in the subsequent studio course, while advising the student of the need to achieve and maintain a cumulative 2.00 (in the studio sequence) for admission to the professional program.

**Professional Licensure Degree Requirement**

The School’s Bachelor of Landscape Architecture program is accredited by LAAB, which requires that specific criteria be met in a professional program. This five-year professional program gives its graduates the required prerequisite degree to qualify to take the licensing exam and prepares them for practice.

All fifty states require licensure for landscape architects. The primary purpose of this licensure is to “protect the health, safety, and welfare of the public.” Most states require that candidates possess an accredited degree in landscape architecture and complete a period of professional experience, working with a licensed landscape architect. Once these requirements are complete, candidates must pass a national, uniform exam, sometimes with additional sections unique to that state.

**Landscape Architecture B.L.A. Ten-Semester Degree Program**

The professional program for a Bachelor of Landscape Architecture Degree must be completed in 10 semesters of coursework and is not eligible for the Eight-Semester Degree Completion Program. However, the following 10-semester sample plan shows how a first-year student could obtain a Bachelor of Landscape Architecture degree in five years if the student is admitted to the Landscape Architecture Design Studio and subsequently is admitted to the professional program.

Minor in Planning

A student who wants to minor in Planning should notify either the Department of Landscape Architecture or Political Science and consult an academic adviser. A Planning minor consists of 18 hours of required and elective courses subdivided into three concentrations. A student should choose one concentration and take 6 hours of elective courses in that concentration. The minor’s required and elective courses include:

Professional Licensure Degree Requirement

The School’s Bachelor of Landscape Architecture program is accredited by LAAB, which requires that specific criteria be met in a professional program. This five-year professional program gives its graduates the required prerequisite degree to qualify to take the licensing exam and prepares them for practice.

All fifty states require licensure for landscape architects. The primary purpose of this licensure is to “protect the health, safety, and welfare of the public.” Most states require that candidates possess an accredited degree in landscape architecture and complete a period of professional experience, working with a licensed landscape architect. Once these requirements are complete, candidates must pass a national, uniform exam, sometimes with additional sections unique to that state.

Faculty

Biehle, Scott, M.L.A. (University of Texas at Austin), B.A. (St. Olaf College), Clinical Assistant Professor, 2012.

Billig, Noah Scott, Ph.D. (Clemson University), M.Ur.P., M.L.A., B.A. (University of Minnesota), Associate Professor, 2011.

Erdman, Kimball Douglas, M.A. (University of Oregon), B.L.A. (Utah State University), Associate Professor, 2009.

Smith, Carl Alan, Ph.D., M.A. (University of Sheffield), B.Sc. (University of Lancaster), Associate Professor, 2008.

Planning (PLAN)

The departments of Landscape Architecture and Political Science collaboratively offer an interdisciplinary minor in Planning for students interested in regional and urban planning.

Minor in Planning

A student who wants to minor in Planning should notify either the Department of Landscape Architecture or Political Science and consult an academic adviser. A Planning minor consists of 18 hours of required and elective courses subdivided into three concentrations. A student should choose one concentration and take 6 hours of elective courses in that concentration. The minor’s required and elective courses include:

The purpose of the minor in Sustainability is to provide foundational knowledge and skills related to the emerging discipline of sustainability, organized around four thematic areas reflecting strength in scholarship of University of Arkansas academic colleges: Sustainability of Social Systems, Sustainability of Natural Systems, Sustainability of Built Systems, and Sustainability of Managed Systems. Students who complete the minor in Sustainability will be expected to:

- Articulate commonly accepted definitions of sustainability and discuss various nuances among those definitions;
- Have an understanding of the interdisciplinary nature of sustainability issues, particularly as they pertain to the thematic areas of knowledge addressed by the minor (sustainability of natural systems, sustainability of managed systems, sustainability of built systems, and sustainability of human social systems);
- Be conversant regarding acquisition and analysis of data pertinent to sustainability issues;
- Communicate orally and in writing organized thoughts defining sustainability issues;
- Identify appropriate potential strategies to address sustainability issues using data and provide results of rudimentary analyses of data using novel metrics or statistics;
- Make recommendations, based on data analysis and interpretation, to advance sustainability of individuals or institutions.

The program also offers a graduate certificate in sustainability (http://catalog.uark.edu/graduatecatalog/programsofstudy/sustainabilitysust/) through the Graduate School.

**Required Courses for a Minor in Sustainability**

Students must earn a grade of ‘C’ or better for all courses used to fulfill requirements of the minor in Sustainability.

Elective courses are categorized as Tier 1 and Tier 2. Tier 1 courses are those with dominant sustainability content or fundamental principles related to understanding sustainability. Tier 1 courses must comprise at least 6 hours of the 9 elective hours. Tier 2 courses are those with subordinate sustainability content or associated principles related to understanding sustainability, but with content useful in preparing students with prerequisite knowledge for Tier 1 courses. Only 3 hours of Tier 2 courses will be accepted in fulfillment of the elective hours in the Minor in Sustainability.

Complete lists of Tier 1 and Tier 2 courses by thematic areas are presented below.

<table>

<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SUST 4103</td>
<td>Capstone Experience in Sustainability</td>
</tr>
</tbody>
</table>

**Total Hours**: 18

**List of Available Elective Courses**: Students choose 9 hours from menus provided on the Sustainability website (http://sustainability.uark.edu/academics/minor/minor-courses.php); at least...
six hours must be chosen from Tier 1 courses (with prerequisites, if applicable).

**Capstone Experience**

All students participating in the minor in Sustainability must complete a capstone experience focused on service learning, research learning, or internship in sustainability. Student engagement in community service, research, or relevant work on sustainability through a summer internship provides opportunities for students to apply sustainability theories and principles learned from prior coursework toward advancing sustainability across society.

Students may formally petition the University of Arkansas Sustainability Curriculum Steering Committee to substitute sustainability-oriented senior design projects, Honors College research projects, other service learning courses, or equivalent internship experiences for SUST 4103 to satisfy the capstone element of minor in Sustainability. Details of the procedure to substitute alternative experiences for SUST 4103 can be found in the Foundations of Sustainability Program Handbook.

To qualify for SUST 4103 or other sustainability capstone experience, students must have successfully completed SUST 1103, SUST 2103, and 6 hours of elective course work toward the minor in Sustainability.

**J. William Fulbright College of Arts and Sciences**

**Mission and Objectives**

Few in 20th century America did more to advance the study of international relations or promote human understanding than J. William Fulbright. Committed to the idea that a free society and a peaceful world require, above all, an educated citizenry, he urged with unflagging energy the use of historical perspective, cultural relativity, and scientific objectivity in the study of human affairs. Senator Fulbright, like Thomas Jefferson, Andrew Jackson, and Abraham Lincoln before him, was committed to the belief that an educated, enlightened electorate will act not only in its own self-interest but also in the interest of all the people of the world.

In recognition of J. William Fulbright’s contribution to the cause of liberal education and of his many services to his native state, the Board of Trustees of the University of Arkansas on November 20, 1981, resolved...

The College of Arts and Sciences at the University of Arkansas, Fayetteville, shall be named, henceforth, the J. WILLIAM FULBRIGHT COLLEGE OF ARTS AND SCIENCES. His name will imbue that college, and the University, with his reputation and image for a devoted interest in higher education and its accomplishments through its scholars as reflected in its students.

The college has adopted as its mission the following statement from Fulbright’s writings:

> ... the highest function of higher education is the teaching of things in perspective, toward the purposes of enriching the life of the individual, cultivating the free and inquiring mind, and advancing the effort to bring reason, justice, and humanity into the relations of men and nations.

Consisting of 19 departments and numerous centers and research units, Fulbright College has a twofold mission: to provide a broad, liberal education to all students within the university community and to furnish specialized knowledge at the upper division and graduate levels leading to a professional career. The general education curriculum within the college is designed to assure students’ mastery of the English language, provide knowledge of the historical, social, intellectual, and linguistic bases of human culture, provide habits of thought useful in later life, encourage the development of aesthetic, political, and ethical values, and offer the necessary foundation for professional competence or further training in professional or graduate schools. The general education curriculum of the college is based on the Platonic assumption that the pursuit of knowledge is an intrinsically good activity and that it is incumbent upon all members of an enlightened society to engage in that pursuit.

Recognizing that its students must become productive members of contemporary American society, Fulbright College offers undergraduate majors in fields ranging from chemistry and art to journalism, physics, social work and psychology. In addition, the college, in cooperation with the Graduate School, offers course work leading to master’s degrees and doctoral degrees. As a natural corollary of their instructional role, faculty members of the college pursue active research programs that enable them simultaneously to provide state-of-the-art education to their students and bring national and international recognition to the university.

In sum, Fulbright College lies at the very heart of the university. The seat of liberal learning within the institution and the state, it is committed to providing excellent general education to all members of the student body and specialized instruction of the highest quality to its own majors.

**Facilities and Resources**

**Academic Advising Services**

The Fulbright College of Arts and Sciences provides an adviser for each student enrolled in the college. Freshman- and sophomore-level students, including departmental honors students, are advised in the Fulbright College Advising Center in Old Main 518. All four-year honors undeclared major students and all freshman-level four-year honors declared major students receive advising from the Fulbright Honors Program office in Old Main 517. Advisers in the Fulbright College Advising Center will assist students in program planning and will help them to become aware of and familiar with the academic offerings of the university. Students should consult their advisers on a regular basis, not limited to registration matters but including all areas of their academic careers. Personnel in the Fulbright College Advising Center or the Dean’s office will direct students to the appropriate advising office.

Students should discuss with their advisers opportunities for individual variations as well as regular course requirements. Programs and facilities of particular interest to individuals may include the Honors Program, programs for advanced placement and credit by examination, study abroad and the services of the University Career Development Center.

The Career Development Center administers and interprets tests that measure individual ability, interest, and achievement, and thus may aid also in counseling students about the field of study in which they are most likely to be effective and successful.

For questions regarding advising, contact the Fulbright College Advising Center at 575-3307 or visit online at http://fcac.uark.edu.

**Degrees Offered**

The J. William Fulbright College of Arts and Sciences offers four-year curricula leading to the degrees of Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), Bachelor of Music (B.M.), and Bachelor of Social Work (B.S.W.). Each candidate for the B.A. and B.S. degrees selects a major field for specialized study. In addition
to usual departmental majors there are interdepartmental majors and special programs for students preparing for professional degrees in law, medicine, dentistry, and teaching.

**College Admissions Requirements**

Students seeking admission to the J. William Fulbright College of Arts and Sciences must meet the general requirements for admission to the university. In addition, students are expected to present two units (years) of a single modern or ancient world language. Those unable to meet this standard will be expected to begin their collegiate world language study as soon as possible after matriculation. For these students, completion of one semester of language study will be considered to satisfy the admission deficiency. Students transferring from other colleges at the University of Arkansas or from other institutions are expected to meet the same entrance standard.

**College Scholarships**

Foremost among scholarships available in the J. William Fulbright College of Arts and Sciences is the Sturgis Fellowship. This scholarship enables Fulbright College to offer outstanding graduates of secondary and preparatory schools undergraduate fellowships valued at $50,000 for four collegiate years.

Students studying in the humanities or classics may qualify for the J. William and Elizabeth W. Fulbright Scholarship for study abroad. This award is for students who are at least juniors and is intended to support a year of study abroad.

The King Fahd Center for Middle East Studies offers two-year undergraduate scholarships for superior students interested in pursuing the study of the Middle East or Islam.

In addition, students may compete for a number of privately endowed scholarships, which are awarded on a competitive basis to those who qualify. Application for these general Fulbright College scholarships and awards is made through the Office of the Dean, 525 Old Main. Students may obtain more detailed information about the above-named scholarships and other Fulbright College scholarships at http://fulbright.uark.edu/scholarships/index.php (http://fulbright.uark.edu/scholarships/).

Other scholarships are available from the departments of Fulbright College. Information may be sought from the departmental chair of the student’s major.

**Student Organizations**

There are many general-interest societies and organizations to which students may belong, and nearly every department of the university maintains an honor society through which high scholarship is rewarded. Students in Fulbright College may aspire to membership in the following organizations:

- Alpha Chi Sigma (chemistry)
- Alpha Epsilon Delta (pre-medical, medical technology, pre-dental)
- Alpha Kappa Delta (sociology)
- Alpha Phi Sigma (criminal justice)
- Alpha Psi Omega (drama)
- American Association of Petroleum Geologists (geoscience)
- American Chemical Society (chemistry)
- American Society for Photogrammetry and Remote Sensing (geoscience)
- Delta Phi Alpha (German)
- Eta Sigma Phi (Greek and Latin)
- Gamma Theta Upsilon (geography)
- Kappa Kappa Psi (band, men)
- Kappa Tau Alpha (journalism)
- Lambda Alpha (anthropology)
- Lambda Pi Eta (communication)
- Lambda Tau (writers)
- Omicron Delta Epsilon (economics)
- Phi Alpha (social work)
- Phi Alpha Theta (history)
- Phi Beta Delta (international scholarship)
- Phi Beta Kappa (arts and sciences)
- Phi Kappa Phi
- Phi Mu Alpha (music, men)
- Pi Kappa Delta (forensics)
- Pi Mu Epsilon (mathematics)
- Pi Sigma Alpha (political science)
- Psi Chi (psychology)
- Sigma Alpha Iota (music, women)
- Sigma Delta Pi (Spanish)
- Sigma Gamma Epsilon (geology)
- Sigma Pi Sigma (physics)
- Tau Beta Sigma (band, women)

**College Academic Regulations**

Courses of study in the Fulbright College of Arts and Sciences are designed to give students the comprehensive view of society that the modern world requires. Students who enroll in Fulbright College, or who elect some of its courses, have an opportunity to gain a broad cultural education, which is a part of intelligent living and, at the same time, to prepare for professions or to acquire technical training in the sciences. The college has two major teaching functions: to provide basic general education in the arts and sciences necessary to all persons for effective participation in the complex world in which we live; and, second, to furnish the student an opportunity to specialize in the field of the student’s choice.

To implement the first of these aims and to furnish a broad base for the accomplishment of the second, the faculty of Fulbright College has adopted the requirements listed below for each degree.

Specific course requirements may be fulfilled in one of four ways:

1. Establishing credit in approved courses:
   - a. By enrolling in and completing the required work in the course,
   - b. By examination (credit will be entered as CR on a student’s record as explained in Advanced-Standing Programs (p. 84)),
   - c. By advanced achievement, i.e., by satisfactory completion of a more advanced course of a sequence. For example, students who earn a grade of “C” or better in a third-semester foreign language course may be granted credit for the second semester course upon recommendation of the Department of World Languages, Literatures, and Cultures, and approval by the Dean of the
college. (This does not apply to work taken as a self-paced online [correspondence] course or in transfer.)

2. Gaining exemption by examination. Announced exemption examinations are routinely offered in several courses. Students may consult any department or the dean's office concerning exemption examinations.

3. Advanced placement by examination. A student who is granted advanced placement may elect to substitute a more advanced course for the listed required course.

4. Transfer credit. Students presenting transfer credit in lieu of stated requirements may be asked to present official course descriptions, etc. Transfer work with grades of “D” or “F” will not be accepted.

### Degree Completion Program Policy

#### Fulbright College of Arts and Sciences Graduation Requirements

In addition to the specific course requirements for the degree plan and major, be aware that there are general graduation requirements that every student in Fulbright College must complete.

1. Minimum Total Semester Hour Requirement
   - B.A., B.S. and B.S.W. Degrees: 120 hours
   - B.M.: 120 hours
   - B.F.A.: 120 - 123 hours

2. Residency Requirement
   a. University Residency (Enrollment) Requirement
      Students must earn a minimum of 30 semester hours at the University of Arkansas, Fayetteville campus – this includes UA faculty-led study abroad classes, online/on-campus classes, and Global Campus courses; and all other courses paid towards Fayetteville campus tuition and fees. These 30 semester hours are to be upper-division semester hours required for the completion of a degree program. Additional hours in residence can be required for completing a minor. Hours earned in another school or college at UA, Fayetteville, may be used to satisfy this requirement with approval of appropriate faculty curriculum committee.
   
   b. College Residency Requirement and 24 Hour Rule
      A student graduating from Fulbright College must have completed at least 30 hours of credit in courses offered by Fulbright College, at least 24 of which must be 3000 and 4000 level courses from departments in Fulbright College.

   c. Major/Minor Residency Requirement (50 Percent Rule)
      A student graduating with a major or a minor from Fulbright College must have completed a minimum of 50 percent of degree credit work within the Fulbright College major or within the Fulbright College minor at the University of Arkansas through courses completed at the University of Arkansas, Fayetteville campus as defined in the University Residency Requirement.
      This percentage completion requirement may be higher for some majors and minors. Students should review individual departmental requirements to verify if a higher percentage is required by their specific major or minor department.

3. 40-Hour Rule
   Students must present for degree credit at least 40 hours of work in courses numbered 3000 and above. Included in these 40 hours can be courses numbered 2000 if each has a specific course designated as a prerequisite. It is highly recommended that students complete all 40 hours in courses numbered 3000 and higher. These courses may be taken from other colleges or universities as long as the college residency requirement and the 24-hour rule are satisfied.

4. Grade-Point Average
   Students graduating from Fulbright College must have a minimum cumulative GPA of 2.00.

5. Writing Requirement
   Students graduating from Fulbright College must write a research/analytical paper for at least one upper-division course in his or her major. Each department has determined its own procedures for certifying completion of this requirement. Questions should be referred to the departmental chairperson. A student may choose to write a senior thesis in a major area of study. The thesis may be accorded up to six hours of credit. Defense of the thesis before a committee is required. Satisfactory completion of an honors project or a senior thesis may be submitted to meet the college writing requirement.

6. Students must complete the stated requirements for a Fulbright College major in addition to all university requirements for graduation, including the University Core requirements.

Questions concerning fulfilling the requirements should be referred to the student’s adviser or to the dean’s office, which will maintain current lists of approved courses, experimental offerings approved to fulfill requirements for a specified period of time, examination schedules, and other options available to the student.

### Graduation with Distinction

Students who have not completed a Fulbright college or departmental honors degree program but have otherwise demonstrated academic excellence in baccalaureate degree programs in the J. William Fulbright College of Arts and Sciences will be recognized at graduation by the designation of “with high distinction” or “with highest distinction.” To earn this designation, the student must meet the following criteria upon degree completion:

1. The student must have completed at least one-half of his or her degree work at the University of Arkansas.
2. For “with high distinction,” the student must achieve a cumulative U of A GPA of 3.8 to 3.899.
3. For “with highest distinction,” the student must achieve a cumulative U of A GPA of 3.9 or higher.

The criteria may be evaluated and changed periodically by the Fulbright College of Arts and Sciences.

### Combined Academic and Medical or Dental Degree

Fulbright College offers a Bachelor of Science degree in medical science or medical science (dentistry). A student may substitute the first year of regular medical or dental work taken in any standard, approved medical or dental school for 33 hours of the 120 hours required for the Bachelor of Science degree provided that the following requirements are met:

1. Completion of all university/state core requirements for a B.S. degree, as appropriate, prior to student’s entrance in medical or dental school.
2. Completion of a minimum of 12 hours of courses numbered above 3000 taken in Fulbright College.
3. Completion of at least 30 hours immediately prior to student’s entrance in medical or dental school in residence in Fulbright College.
Students interested in this degree should consult with their adviser or with the Fulbright College dean’s office early in their program. Formal application for the degree should be made to the Registrar.

This program is for highly qualified students with outstanding academic records who may be eligible for early admission to medical school or dental school programs. The year of a medical or dental study substitutes for the major in the B.S. degree program.

**Additional Majors**

Students fulfilling all requirements for the B.S., B.S.W., B.F.A. and B.M. degrees, including all core requirements and at least one major in these degree programs, may also claim an additional major in a humanistic discipline, social science, or interdisciplinary program associated with a B.A. degree. Upon completion of all major requirements of the additional discipline, the additional major will be made part of the student’s transcript; however, a B.A. degree is not awarded. Students interested in this option should consult regularly with an academic adviser in the additional major and must notify the Fulbright College dean’s office (MAIN 525) when degree application is made.

**Graduate Studies**

The Graduate School, in cooperation with the faculty of Fulbright College of Arts and Sciences, offers work leading to the graduate certificate or to the degrees of Master of Arts, Master of Science, Master of Music, Master of Fine Arts, Master of Public Administration, Master of Social Work, and Doctor of Philosophy.

Students interested in any of these advanced degrees should consult the Graduate School Catalog or the Dean of the Graduate School.

**Accreditations**

The American Council on Education in Journalism and Mass Communications has accredited the Bachelor of Arts (B.A.) degree program in journalism. The Bachelor of Arts (B.A.), Bachelor of Music (B.M.), and Master of Music (M.M.) degree programs in the Department of Music are accredited by the National Association of Schools of Music. The Doctor of Philosophy (Ph.D.) degree program in clinical psychology is accredited by the American Psychological Association. The Bachelor of Social Work (B.S.W.) degree and the Master of Social Work (M.S.W.) degree are accredited by the Council on Social Work Education.

World Wide Web: fulbright.uark.edu (http://fulbright.uark.edu/)

E-mail: fulbright@uark.edu

After majors and minors are listed, other programs of study, such as pre-professional programs are listed.

**Majors and Minors**

**Majors**

- Anthropology (p. 214)
- Art (Studio Art) (p. 218)
- Art History (p. 218)
- Biology (p. 230)
- Chemistry (p. 235)
- Classical Studies (p. 245)
- Communication (p. 248)
- Criminology (p. 250)
- Earth Science (p. 253)
- Economics (p. 254) (Bachelor of Arts)
- English (p. 258)
- French (p. 385)
- Geography (p. 266)
- Geology (p. 268)
- German (p. 385)
- Graphic Design (p. 273)
- History (p. 274)
- Interdisciplinary Studies (p. 279)
- International and Global Studies (p. 281)
- Journalism (p. 289)
- Mathematics (p. 303)
- Music (p. 313)
- Philosophy (p. 349)
- Physics (p. 351)
- Political Science (p. 368)
- Psychology (p. 372)
- Social Work (p. 376)
- Sociology (p. 380)
- Spanish (p. 385)
- Theatre (p. 383)

**Second (or dependent) Majors**

A second (or dependent) major is one that a student may pursue as a major if the student is already pursuing a first major that is authorized to be given independently.

- African and African American Studies (p. 212)
- Asian Studies (p. 228)
- Latin American and Latino Studies (p. 301)
- Middle East Studies (p. 312)
Minors
Academic minors in approved degree programs are options available to students in the Fulbright College of Arts and Sciences. The minor must be in a field other than the major, and students must notify the department of their intention to minor. An academic minor ordinarily consists of 15-18 hours. Specific requirements for the minor are given in the section entitled Departments, Majors, and Minors. Minors may be chosen from the following fields:

- African and African American Studies
- Anthropology
- Arabic
- Art History
- Asian Studies
- Biology
- Business
- Chemistry
- Child Advocacy Studies Training
- Chinese (Business Orientation)
- Classical Studies
- Communication
- Criminal Justice
- Economics
- English
- French
- Gender Studies
- Geography
- Geology
- German
- Global Studies
- Historic Preservation
- History
- Indigenous Studies
- Italian
- Japanese (Business Orientation)
- Jewish Studies
- Journalism

Fulbright College also recognizes all official minors offered by sister colleges at the University of Arkansas. Students wishing to have such minors made a part of their transcript must notify the Fulbright College dean’s office (MAIN 525) no later than when degree application is made.

Other Programs
Undergraduate Preparation for Professional Programs
The Fulbright College of Arts and Sciences offers comprehensive support for students pursuing a wide array of professional and graduate programs. Because undergraduate preparation for these programs requires diligent planning, students should contact the Advising Center or appropriate faculty advisor as soon as possible. The Fulbright College Advising Center is in Old Main 518 and can be reached at 479-575-3307 or fcac@uark.edu. Supported programs include (but are not limited to) the following:

- Dentistry
- Law
- Medicine
- Occupational Therapy
- Optometry
- Pharmacy
- Physical Therapy
- Physician Assistant
- Secondary Education

Pre-Dental Program: All dental schools require a minimum of three years of college work, and most schools give preference to applicants who have completed a baccalaureate degree. The minimum requirements for admission to most dental schools can be met at the University of Arkansas by completing the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>ACTS Equivalency</th>
<th>Credit Hours</th>

</table>
CHEM 1123 & CHEM 1121L  University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab)  4

CHEM 3603 & CHEM 3601L  Organic Chemistry I and Organic Chemistry I Laboratory  4

CHEM 3613 & CHEM 3611L  Organic Chemistry II and Organic Chemistry II Laboratory  4

CHEM 3813  Elements of Biochemistry  3

CLEP and AP credit is not accepted. Dental schools have a variety of additional course requirements and pre-dental students should check each school’s website.

Mathematics is not a general requirement, but students are expected to have a background equivalent to college algebra and trigonometry.

Students who complete a minimum of 90 hours of work may qualify for the combined degree program provided that they complete the requirements for graduation in Fulbright College of Arts and Sciences.

All dental schools require the Dental Admissions Test. It is suggested that applicants take the DAT one year prior to the time they plan to enter dental school. A student planning a career in dentistry should contact Dr. J.C. Rose, Department of Anthropology, 479-575-2508.

Pre-Law Program: While there is no prescribed pre-law curriculum, Fulbright College offers a minor in legal studies administered through the department of political science. Students considering a career in law may consult the School of Law Catalog or the Fulbright College Advising Center for information concerning certain categories of courses that may be helpful to the study and practice of law. Students uncertain about a major degree program should contact the Fulbright College Advising Center.

A baccalaureate degree is required for admission to the University of Arkansas School of Law, except for those students in the Fulbright College of Arts and Sciences who are admitted to the special six-year program referred to in the paragraph immediately following. All applicants for admission are required to take the Law School Admission Test. (See page 281.)

The University of Arkansas School of Law at Fayetteville and the Fulbright College of Arts and Sciences jointly administer a six-year program whereby highly qualified students may earn both the bachelor’s degree and the Juris Doctor degree. Any student enrolled in the J. William Fulbright College of Arts and Sciences during a spring semester shall be permitted to matriculate in the School of Law in the following fall semester if the admission complies with Section 1 of Part A of the law school’s admission policies and if the student meets the following conditions:

1. At least 30 consecutive hours of course work in Fulbright College,
2. At least 94 hours credited toward a bachelor’s degree by Fulbright College,
3. Completion of Fulbright College’s requirements for a major in connection with the bachelor’s degree,
4. A cumulative grade-point average in all college or University course work of at least 3.50, without grade renewal,
5. An LSAT score of at least 159.

A student may substitute law school course work for the remaining total hours required for the bachelor’s degree from Fulbright College. Formal application for the degree should be made to the Registrar. Information about the program may be obtained in the dean’s office or the Fulbright Advising Center.

Pre-Medical Program: Medical schools in general require a minimum of 90 semester hours of college credit exclusive of military science and physical education, and most recommend that the student complete a baccalaureate degree. All medical schools have specific course requirements, and the student should determine those requirements for the school or schools of his or her choice. The minimum requirements for many medical schools can be met by completion of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>ACTS Equivalency</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 1013</td>
<td>Composition I</td>
<td>ENGL 1013</td>
</tr>
<tr>
<td>ENGL 1023</td>
<td>Composition II</td>
<td>ENGL 1023</td>
</tr>
<tr>
<td>BIOL 1543</td>
<td>Principles of Biology</td>
<td>BIOL 1014 Lecture</td>
</tr>
<tr>
<td>&amp; BIOL 1541L</td>
<td>and Principles of Biology Laboratory</td>
<td>ACTS Equivalency = BIOL 1014 Lab</td>
</tr>
</tbody>
</table>

Plus one other course in biological sciences, or equivalent. UAMS specifically requires:

- BIOL 2323  General Genetics
- CHEM 1103 & CHEM 1101L  University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab)  4
- CHEM 1123 & CHEM 1121L  University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab)  4
- CHEM 3603 & CHEM 3601L  Organic Chemistry I and Organic Chemistry I Laboratory  4
- CHEM 3613 & CHEM 3611L  Organic Chemistry II and Organic Chemistry II Laboratory  4
- CHEM 3813  Elements of Biochemistry  3
- MATH 1203 & MATH 1213  College Algebra (ACTS Equivalency = MATH 1103) and Plane Trigonometry (ACTS Equivalency = MATH 1203)  4-6
- or MATH 2554  Calculus I (ACTS Equivalency = MATH 2405)  3
- STAT 2023  Biostatistics or STAT 2303  Principles of Statistics (ACTS Equivalency = MATH 2103)  3
- PHYS 2013 & PHYS 2011L  College Physics I (ACTS Equivalency = PHYS 2014 Lecture) and College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab)  8
- & PHYS 2033 & PHYS 2031L  and College Physics I Laboratory (ACTS Equivalency = PHYS 2024 Lecture) and College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab)  8
- or PHYS 2054 & PHYS 2074  University Physics I (ACTS Equivalency = PHYS 2034) and University Physics II (ACTS Equivalency = PHYS 2044 Lecture)  8

2 Social Sciences, preferably:

- PSYC 2003  General Psychology (ACTS Equivalency = PSYC 1103)  6
- SOCI 2013  General Sociology (ACTS Equivalency = SOCI 1013)
Most medical schools will not accept CLEP credit, and in some cases, AP credit for the required courses above is not accepted.

Most medical schools will not accept on-line or web-based classes to fulfill requirements.

Additional courses are recommended. Special opportunities and experiences are available to pre-medical students through the Liebolt Premedical Program (http://premed.uark.edu (http://premed.uark.edu)).

Pre-medical students are encouraged to complete the requirements for the B.A. or B.S. degree. As part of these requirements the student must choose a major, but the choice of a major has no direct bearing upon admission to medical school and should reflect the particular interests of the student. If a student is admitted to a medical school prior to completion of the baccalaureate degree requirements, he/she may wish to take advantage of the combined degree program in medical science. If that program is elected, the student should complete all of the basic University and college requirements for graduation during residence on the UA campus.

Most medical schools require the Medical College Admissions Test (MCAT), which is administered at several testing sites in Arkansas on specific dates from January to September each year. The MCAT normally should be taken in the spring preceding application to medical school. Admission to medical school is highly competitive, and a good grade-point average is demanded. A grade-point average of 3.30 is the minimum likely to receive favorable consideration. A grade of “D” in any course required by the medical school is not considered satisfactory.

Advising is available through Dr. Neil Allison, Department of Chemistry and Biochemistry, 479-575-5179, and Dr. Jeanne McLachlin, Department of Biological Sciences, 479-575-5348. Dr. Allison serves as chair of the University of Arkansas Pre-medical Advisory Committee. For information, visit the University of Arkansas pre-medical website at http://premed.uark.edu.

**Pre-Pharmacy Program:** Entrance requirements for pharmacy schools vary; therefore, students should research the schools of their choice to determine specific prerequisite course work. The University of Arkansas for Medical Sciences College of Pharmacy requires 69 hours of pre-professional courses to include: 4 hours of calculus, 9 hours of English/Communication, 16 hours of chemistry, 12 hours of biology, 4 hours of physics, 3 hours of economics, 6 hours of critical thinking/problem solving, and 15 hours of humanities.

Students are advised to begin taking humanities electives during the second semester of their freshman year. Since pharmacy schools have many more applicants than they can accept, the student is urged to earn a grade point average much higher than the minimum of 2.00.

Grades are a major consideration when admission committees evaluate a student’s qualifications for acceptance. The University of Arkansas College of Pharmacy and other pharmacy schools also require applicants to take the Pharmacy College Admission Test (PCAT). This may be taken in November or February. The pre-pharmacy adviser for the University of Arkansas is Lorraine Brewer, Department of Chemistry and Biochemistry, 479-575-3103.

**Secondary Education Programs:** Acceptance in a teacher education program is governed by regulations approved by the University Teacher Education Board for Initial Licensure and administered by the College of Education and Health Professions and the Fulbright College of Arts and Sciences. Students in Fulbright College can pursue secondary education licensure in the following areas: Art, Drama/Speech, English, World Languages, Mathematics, Music, Life/Earth Science, Physical/Earth Science, or Social Studies. Students in all subject areas, except Art and Music, must meet the admission requirements for the Master of Arts in Teaching (M.A.T.) (http://seed.uark.edu/mat-secondary-ed/admission-requirements.php) degree.

All students pursuing entrance into the M.A.T. degree program must complete specific coursework prior to acceptance. For more information on entry into the secondary education Master of Arts in Teaching (http://seed.uark.edu/mat-secondary-ed/degree-program, please consult with a College of Education and Health Professions advisor: Peabody Hall 109, 479-575-4209 or with an advisor in the Fulbright College of Arts and Sciences Advising Center, Old Main, Room 518, 479-575-3307.

Students intending to obtain licensure in Mathematics or the Sciences may either pursue the requirements for Fulbright College students seeking entrance into and certification through the M.A.T. program or follow the requirements set forth in the UAteach undergraduate curriculum in addition to their major requirements. Students wishing to pursue licensure through the UAteach undergraduate curriculum should consult with a UAteach adviser, uteach@uark.edu (uteach@uark.edu).

Students intending to obtain teacher licensure in Art or Music will follow the education requirements set forth in the Bachelor of Fine Arts and Bachelor of Music degrees, respectively.

**Cooperative Education**

The Cooperative Education program is designed to offer students an opportunity to participate in a work experience directly related to their academic major. The program also insists that at least minimal academic credit be awarded, thus ensuring that the work experience will be directly related to the student’s academic program. Cooperative Education offers advantages to students needing assistance in financing their education, and it offers the college a tangible way to demonstrate our conviction that although we do not stress vocational or professional training per se, there is nothing inimical between a liberal arts education and the world of work. Prerequisites include 45 credit hours, a cumulative GPA of 2.50, and consent of the academic coordinator. A maximum of 4 credit hours of ARSC 310V (Cooperative Education) may be applied toward the student’s degree.

Detailed information about Cooperative Education may be obtained from the Office of the Dean, Fulbright College, 525 Old Main.
Honors Program

Kirstin Erickson
Director of Honors Studies
517 Old Main
479-575-2509
http://fulbrighthonors.uark.edu

To create an intellectual environment that challenges the best of students, the J. William Fulbright College of Arts and Sciences provides a comprehensive program of honors studies. This includes the College Honors Program, a four-year interdisciplinary honors program for students of superior academic ability or artistic talent, and the Departmental Honors Program, an honors program emphasizing directed independent study within a department or discipline of the college.

For admission into the Fulbright College Honors Program, an incoming student must have at least a 3.75 high school grade point average and a minimum ACT composite score of 28 or 1310 SAT. A current Fulbright College student must have a University of Arkansas grade point average of 3.5 or above and a faculty recommendation from the department of study.

A student who successfully completes a program of honors studies within Fulbright College is eligible to receive a baccalaureate degree with the distinction College Scholar *cum laude*, or Departmental Scholar *cum laude* in the major field of study. Higher distinctions of *magna cum laude* or *summa cum laude* may be awarded to outstanding honors students by recommendation of the Fulbright College Honors Council.

To earn the distinction Fulbright College Scholar *cum laude* at graduation, a student must successfully complete the honors core curriculum, maintain a minimum grade-point average of 3.5, and satisfy requirements for departmental honors in the major field of study, including preparation and oral defense of an honors thesis. The Honors Council may award the higher distinctions of *magna cum laude* or *summa cum laude* based upon a student's total academic performance, including the academic transcript, the quality of the scholarly activity pursued within the major field of study, and the breadth of college study as a whole.

To earn the distinction of Departmental Scholar *cum laude* at graduation, a student must successfully complete requirements prescribed by the major department, including an honors thesis and oral examination, maintain a minimum grade-point average of 3.5, and take 12 hours (which may include six hours of thesis) in Honors Studies. Information concerning these requirements is given within each department's catalog listings.

Fulbright Honors Academic Integrity Policy

All Fulbright Honors students are held to the highest standard with regard to academic achievement and academic integrity. Any student violating the Academic Integrity Policy who receives a sanction of 1.0 or more (two 0.5 sanctions or a one-time sanction of 1.0 or more) at the University of Arkansas will be permanently removed from the Fulbright Honors Program. The student may petition for grade forgiveness and to have the X sanction removed from their transcript. If both are achieved, the student may apply for re-admission into the Fulbright Honors Program.

Any student suspended or expelled due to dishonesty will be permanently removed from Honors and will be denied the opportunity to reapply.

For more information about honors studies within Fulbright College, visit the college's honors website (https://fulbright.uark.edu/honors-program/).

Degrees with Honors

The J. William Fulbright College of Arts and Sciences is dedicated to providing students a liberal education in the arts, humanities, and sciences. Such an education should be soundly based, innovative, and enriched by a creative faculty. This is especially true for students with superior academic ability or artistic talent. To achieve these aims, the college faculty has developed and participates in the College Honors Program and the Departmental Honors Program.

Requirements for the College Honors Program: Credit or exemption for University Core in English composition, including ENGL 1013 and ENGL 1023, and in American history or American government, completion of the requirements for honors in a department or study area of the college, including preparation and oral defense of an honors thesis, a cumulative grade-point average of 3.5 or above, and completion of the honors core curriculum. Students who do not have at least a 3.5 GPA will not be allowed to graduate with honors.

Requirements for the Departmental Honors Program: Specific academic requirements including course work, participation in departmental honors colloquia or seminars, and independent study projects are established by the faculty of the individual departments or study areas and are approved by the Honors Council. However, all departmental honors students must have a 3.5 cumulative grade-point average, complete and defend an honors thesis, and take 12 hours (which may include six hours of thesis) in Honors Studies. Information concerning these requirements is given within each department's catalog listings.

The minimum academic requirements of the honors core curriculum for the B.A./B.S.W., B.S., B.M., and B.F.A. degree programs can be found in the degree requirements for each program listed below.

Honors Core Curriculum

Bachelor of Arts or Bachelor of Social Work Degree

Requirements for graduating with honors: Specific academic requirements including course work, participation in departmental honors colloquia or seminars, and independent study projects are established by the faculty of the individual departments or study areas and are approved by the Honors Council. However, all honors students must have a 3.5 cumulative grade-point average, complete and defend an honors thesis, and take 12 hours (which may include six hours of thesis) in Honors Studies. Information concerning these requirements is given within each department's catalog listings.

The following outlines the minimum academic requirements of the honors core curriculum for the B.A. and B.S.W. degree programs. The university/state minimum core is fulfilled by completing the college honors core.

Honors Core Curriculum

Humanities and Social Sciences Option 1

Core – 27 hours; 15 hours must be at honors level

World Civilization
Select two of the following:

- Fine Arts
- Philosophy

Select one additional Humanities course from the following:

- WLIT 1113H Honors World Literature I
- WLIT 1123H Honors World Literature II

World Literature

- WLT 1113H Honors World Literature I 3
- WLT 1123H Honors World Literature II (ACTS Equivalency = ENGL 2113)

Select one additional Humanities course from the following:

- AAST 2023 The African American Experience 3
- CLST 1003H Honors Introduction to Classical Studies: Greece
- CLST 1013H Honors Introduction to Classical Studies: Rome
- COMM 1233H Honors Media, Community and Citizenship
- GNST 2003H Honors Introduction to Gender Studies
- MUSY 2003H Honors Music in World Cultures
- WLT 1123H Honors World Literature II (ACTS Equivalency = ENGL 2123)

Any 2000+ WLT Course

Any World Language Literature Course

Philosophy

- PHIL 2003H Honors Introduction to Philosophy
- PHIL 2003H Honors Introduction to Philosophy (ACTS Equivalency = PHIL 1103)

Fine Arts

Select two of the following:

- ARCH 1003H Honors Basic Course in the Arts: Architecture Lecture
- ARHS 1003H Honors Basic Course in the Arts: Art Lecture
- COMM 1003H Honors Basic Course in the Arts: Film Lecture
- DANC 1003H Honors Basic Course in the Arts: Movement and Dance
- ENGL 2023 Creative Writing I (ACTS Equivalency = ENGL 213)
- MLIT 1003H Honors Experiencing Music (ACTS Equivalency = MUSC 1003)
- MLIT 1013H Honors Music and Society
- MLIT 1013H Honors Music and Society
- MLIT 1333 Popular Music
- THTR 1003H Honors Basic Course in the Arts: Theatre Appreciation

or THTR 1003 Basic Course in the Arts: Theatre Appreciation (ACTS Equivalency = DRAM 1003)

Social Sciences

Select two of the following:

- ANTH 1023H Honors Introduction to Cultural Anthropology
- COMM 1023H Honors Communication in a Diverse World
- ECON 2013H Honors Principles of Macroeconomics
- ECON 2143H Honors Basic Economics: Theory and Practice
- GEOG 2003H Honors World Regional Geography
- PSYC 2003H Honors General Psychology
- SOCI 2013H Honors General Sociology

Total Hours 24

Humanities and Social Sciences Option 2

Core – 28 hours; 15 hours must be at honors level

- HUMN 1113H Honors Roots of Culture to 500 C.E. 4
- HUMN 1124H Honors Equilibrium of Cultures 500-1600 4
- HUMN 2114H Honors Birth of Modern Culture 1600-1900 4

Select one additional Humanities course from the following:

- AAST 2023 The African American Experience 3
- CLST 1003H Honors Introduction to Classical Studies: Greece
- COMM 1233H Honors Media, Community and Citizenship
- GNST 2003H Honors Introduction to Gender Studies
- MUSY 2003H Honors Music in World Cultures
- WLT 1123H Honors World Literature II

Any 2000+ WLT Course

Any World Language Literature Course

Philosophy

- PHIL 2003H Honors Introduction to Philosophy
- PHIL 2003H Honors Introduction to Philosophy (ACTS Equivalency = PHIL 1103)
Fine Arts

Select two of the following: 6

- ARCH 1003H Honors Basic Course in the Arts: Architecture Lecture
- ARHS 1003H Honors Basic Course in the Arts: Art Lecture
- COMM 1003H Honors Basic Course in the Arts: Film Lecture
- DANC 1003H Honors Basic Course in the Arts: Movement and Dance
- ENGL 2023 Creative Writing I (ACTS Equivalency = ENGL 2023)
- MLIT 1003H Honors Experiencing Music
- THTR 1003H Honors Basic Course in the Arts: Theatre Appreciation
- THTR 1013 Musical Theatre Appreciation
- ANTH 1023H Honors Introduction to Cultural Anthropology
- COMM 1023H Honors Communication in a Diverse World
- ECON 2013H Honors Principles of Macroeconomics
- ECON 2023H Honors Principles of Microeconomics
- ECON 2143H Honors Basic Economics: Theory and Practice
- GEOS 2033H Honors World Regional Geography
- PSYC 2003H Honors General Psychology
- SOCI 2013H Honors General Sociology

Total Hours 24

Students pursuing either option must also complete the following:

English

- ENGL 1013H Honors Composition I (ACTS Equivalency = ENGL 1013)
- ENGL 1023H Honors Composition II (ACTS Equivalency = ENGL 1023)
- HIST 2003 History of the American People to 1877 (ACTS Equivalency = HIST 2113)
- HIST 2013 History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123)

World Language

See your adviser. Students must demonstrate proficiency in a single modern or classical language other than English (2013 Intermediate II of a world language). Usually this is accomplished by completing a sequence of world language courses (1003, 1013, 2003, 2013). See Fulbright College Admission Requirements. Students meeting the normal admission standard (two years of high school language) may expect to satisfy this requirement with fewer courses, depending upon placement. In cases of unusually thorough preparation, or in the case of international students, exemption may be sought from the department of world languages.

Natural Science and Mathematics 15-17

Core – 15-17 hours; 8 hours must be at honors level

Natural Sciences (12 hours)

At least 4 hours must be chosen from biological and 4 hours from physical

Biological Sciences

- ANTH 1013H Honors Introduction to Biological Anthropology
- ECON 1543 Principles of Biology (ACTS Equivalency = BIOL 1543 & BIOL 1541M 1014 Lecture) 3
- BIOL 1584 Biology for Majors (ACTS Equivalency = BIOL 1014 Lecture)
- BIOL 1603 Principles of Zoology (ACTS Equivalency = BIOL 1584 & BIOL 1601M 1054 Lecture) 3

or HIST 2113 History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123)

or PLSC 2003 American National Government (ACTS Equivalency = PLSC 2003)

or PLSC 2003 Honors American National Government

Honors Colloquium – one from each approved area. No more than 3 hours of required colloquia may be earned either abroad or in an intersession.

**Humanities Colloquium**

Social Science Colloquium

**Natural Sciences and Mathematics**

Core – 20-21 hours; 16 hours must be at honors level

Complete sixteen honors hours from at least two of the five different areas below. At least one class from Area 5 is required, although not necessarily at the Honors level.

**Natural Sciences** 16

**Area 1**

ASTR 2003H Honors Survey of the Universe
& ASTR 2001M and Honors Survey of the Universe Laboratory

PHYS 2054H Honors University Physics I (PHYS 2054H(M))

PHYS 2074H Honors University Physics II (PHYS 2074H(M))

**Area 2**

ANTH 1013H Honors Introduction to Biological Anthropology
& ANTH 1011N and Honors Introduction to Biological Anthropology Laboratory

BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture)
& BIOL 1541M Honors Principles of Biology Laboratory

BIOL 1584 Biology for Majors (ACTS Equivalency = BIOL 1014 Lecture)

BIOL 1603 Principles of Zoology (ACTS Equivalency = BIOL 1054 Lecture)
& BIOL 1601M Honors Principles of Zoology Laboratory

**Area 3**

CHEM 1103 University Chemistry I (ACTS Equivalency = CHEM 1101 Lecture)

& CHEM 1101L and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1101 Lab)

CHEM 1123H Honors University Chemistry II
& CHEM 1121L and Honors University Chemistry II Laboratory 1

CHEM 1203 Chemistry for Majors I
& CHEM 1201L and Chemistry for Majors I Laboratory 1

CHEM 1223 Chemistry for Majors II
& CHEM 1221L and Chemistry for Majors II Laboratory 1

CHEM 3603H Honors Organic Chemistry I
& CHEM 3602M and Honors Organic Chemistry I Laboratory

CHEM 3703 Organic Chemistry I Lecture for Chemistry Majors
& CHEM 3702L and Organic Chemistry I Lab for Chemistry Majors 1

CHEM 3613H Honors Organic Chemistry II
& CHEM 3612M and Honors Organic Chemistry II Laboratory

CHEM 3713 Organic Chemistry II Lecture for Chemistry Majors
& CHEM 3712L and Organic Chemistry II Lab for Chemistry Majors 1

**Area 4**

GEOS 1113H Honors General Geology
& GEOS 1111H and Honors General Geology Laboratory

GEOS 1133 Earth Science (ACTS Equivalency = GEOL 1124)
& GEOS 1131L Lecture

and Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab)

**Mathematics** 4-5

MATH 2445 Calculus I with Review (ACTS Equivalency = MATH 2405)

MATH 2554H Honors Calculus I
or MATH 25C and Calculus I (ACTS Equivalency = MATH 2405)

MATH 2564H Honors Calculus II
or MATH 256 and Calculus II (ACTS Equivalency = MATH 2505)

MATH 2574H Honors Calculus III
or MATH 25C and Calculus III (ACTS Equivalency = MATH 2603)

**World Language: (depending upon placement)** 0-9

See your adviser. Students must demonstrate proficiency in a single modern or classical language other than English (2003 Intermediate I of a world language). Usually this is accomplished by completing a sequence of courses (1003, 1013, and 2003). See Fulbright College Admission Requirements. Students meeting the normal admission standard (two years of high school language) may expect to satisfy this requirement with fewer courses, depending upon placement. In cases of unusually thorough preparation, or in the case of international students, exemption may be sought from the department of world languages.

Total Hours 38-48
Bachelor of Music Degree

Requirements for graduating with honors: Specific academic requirements including course work, participation in departmental honors colloquia or seminars, and independent study projects are established by the faculty of the individual departments or study areas and are approved by the Honors Council.

All honors students must have a 3.5 cumulative grade-point average, complete and defend an honors thesis, and take 12 hours (which may include six hours of thesis) in Honors Studies. Information concerning these requirements is given within each department's catalog listings.

The following outlines the minimum academic requirements of the honors core curriculum for the B.F.A. degree program. The university/state minimum core is fulfilled by completing the college honors core.

## African and African American Studies (AAST)

### World Literature
- **HIST 1123H** Honors World Literature I 3

### Fine Arts, World Literature II, and Philosophy
Select two of the following from two different areas:

**Fine Arts**
- **COMM 1003H** Honors Basic Course in the Arts: Film Lecture
- **DANC 1003H** Honors Basic Course in the Arts: Movement and Dance
- **MLIT 1003H** Honors Experiencing Music
- **THTR 1003H** Honors Basic Course in the Arts: Theatre Appreciation

**Philosophy**
- **PHIL 2003H** Honors Introduction to Philosophy

**World Literature II**
- **WLIT 1123H** Honors World Literature II

### Colloquium in Humanities

Course offerings vary each semester.

Total Hours 18

### Humanities Option 2

**Honors Roots of Culture**
- **HUMN 1114H** Honors Roots of Culture to 500 C.E. 4
- **HUMN 1124H** Honors Equilibrium of Cultures 500-1600 4
- **HUMN 2114H** Honors Birth of Modern Culture 1600-1900 4

**Philosophy and Humanities**
- **PHIL 2003H** Honors Introduction to Philosophy 3
- Humanities Colloquium – course offerings vary each semester. 1 3

Total Hours 18

### Students pursuing either option must also complete the following:

**English**

- **ENGL 1013H** Honors Composition I 3
  - or **ENGL 1013** Composition I (ACTS Equivalency = ENGL 1013)
- **ENGL 1023H** Honors Composition II 3
  - or **ENGL 1023** Composition II (ACTS Equivalency = ENGL 1023)

**U.S. History/American National Government**

- **HIST 2003** History of the American People to 1877 (ACTS Equivalency = HIST 2113) 3
  - or **HIST 2013** History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123)
- or **PLSC 2003H** Honors American National Government

**World Language:** (depending on placement) 0-9

See your adviser. (This is usually accomplished by successful completion of a 2003 Intermediate I world language course.)

**Social Science**

- **ANTH 1023H** Honors Introduction to Cultural Anthropology 3
- **COMM 1023H** Honors Communication in a Diverse World
- **ECON 2013H** Honors Principles of Macroeconomics
- **ECON 2023H** Honors Principles of Microeconomics
- **ECON 2143H** Honors Basic Economics: Theory and Practice

**GEOS 2003H** Honors World Regional Geography
**PSYC 2003H** Honors General Psychology
**SOCI 2013H** Honors General Sociology

### Colloquia in Social Sciences

Course offerings vary each semester.

Total Hours 3

### Natural Science

Eight hours of honors to be chosen from lab sciences. See adviser for specific course science listing.

### Mathematics

Select one of the following:

- **MATH 2043** Survey of Calculus (ACTS Equivalency = MATH 2203)
- **MATH 2053** Finite Mathematics
- **MATH 2183** Mathematical Reasoning in a Quantitative World
- **MATH 2445** Calculus I with Review (ACTS Equivalency = MATH 2405)
- **MATH 2554** Calculus I (ACTS Equivalency = MATH 2405)
- **STAT 2303** Principles of Statistics (ACTS Equivalency = MATH 2103)

Total Hours 26-37

1. No more than a total of 3 hours of required colloquia may be earned either abroad or in an intersession.

---

### African and African American Studies (AAST)

Dr. Valandra
Director
230 Memorial Hall
479-575-3001
aast.uark.edu (http://aast.uark.edu)

The African and African American Studies (AAST) program promotes an interdisciplinary approach to the study of the history, culture, and identity of Africans and African Americans. Students may pursue African and African American Studies as a second major alongside a primary major in Fulbright College. Students in any college may declare a minor. Advice on suitable primary majors to be taken with an AAST second major may be obtained from the AAST Program Director.

### Requirements for a Second Major in African and African American Studies:

A total of 21 hours in African and African American Studies courses in addition to the requirements for the departmental major including the following:

#### Requirement 1

- **AAST 1003** Introduction to African and African American Studies 3
  - or **AAST 2023** The African American Experience

#### Requirement 2

Select one of the following: 3

- **AAST 3233/HIST 3233** African American History to 1877
- **AAST 3243/HIST 3243** African American History Since 1877
- **AAST 3253/HIST 3253** The History of Sub-Saharan Africa
- **AAST 3293/PLSC 3293** African American Politics
AAST 3853/ENGL 3853 Topics in African American Literature and Culture
AAST 4153/SOCI 4153 Race and Society

Requirement 3
Fifteen hours from the following courses under the following conditions:

a. A maximum of nine of the fifteen hours may come from courses taken in any one department
b. At least six hours must be at the 4000 level or above

AAST 3023 African Americans in Sport
AAST 3123 African American Students in Higher Education
AAST 3923H Honors Colloquium
AAST 399VH Honors African & African American Studies Thesis
AAST 4003 African & African American Studies Study Abroad
AAST 4003H Honors African & African American Studies Study Abroad
AAST 489V African & African American Independent Study
AAST 499V African and African American Studies Seminar
ANTH/AAST 4063 Women in Africa
ANTH/AAST/ WLLC 4073 African Sociolinguistics
ANTH/AAST 4083 African Popular Culture
ANTH 4513 African Religions: Gods, Witches, Ancestors
ANTH 4583 Cultures of Africa
ENGL/AAST 3853 Topics in African-American Literature and Culture
ENGL/AAST 4853 Studies in African American Literature and Culture
JOUR/AAST/ COMM/ENGL 3263 African Americans in Film
JOUR/AAST 4923 History of the Black Press
HIST/AAST 3183 Popular Culture in the Caribbean
HIST/AAST 3193 The Making of the Modern Caribbean
HIST/AAST 3233 African American History to 1877
HIST/AAST 3243 African American History Since 1877
HIST/AAST 3253 The History of Sub-Saharan Africa
HIST/AAST 4093 The History of African Americans and Social Justice
HIST/AAST 4123 Africa and the Trans-Atlantic Slave Trade
HIST/AAST 4263 Modern Africa
HIST/AAST 4273 Comparative Slavery
HIST/AAST 4383 The American Civil Rights Movement
HIST/AAST 4483 African American Biographies
HIST/AAST 4563 The Old South, 1607-1865
HIST/AAST 4573 The New South, 1860 to the Present
HIST/AAST 4823 Black Freedom in the Age of Emancipation
HIST/AAST 4953 The History of Sub-Saharan African Women
HIST/AAST 4963 Third World Underdevelopment and Modernization
PLSC/AAST 3283 Civil Rights Policy and Politics
PLSC/AAST 3293 African American Politics
PLSC/AAST 4323 Racial Identity, Politics, and Public Policy
PLSC/AAST 4933 African American Political Ideology
SCWK/AAST 4163 African American Perspectives of Trauma, Loss, and Recovery
SCWK/AAST 4173 Social Work with African American Families
SOCI/AAST 4153 Race and Society
SWAH 1003 Elementary Swahili I
SWAH 1013 Elementary Swahili II
SWAH 1116 Intermediate Swahili I
SWAH 2003 Intermediate Swahili II
SWAH 2013 Intermediate Swahili II
SWAH 2116 Intensive Swahili II
THTR/AAST 4463 African American Theatre History -- 1950 to Present
WCOB 3033 The African American Experience in Business
ENGL 3853/AAST 3853, HIST 3233/AAST 3233, HIST 3243/AAST 3243, HIST 3253/AAST 3253, PLSC 3293/AAST 3293, or SOCI 4153/AAST 4153 may be used to satisfy Requirement 3 if not already used to satisfy Requirement 2.

Additional Special Topics and Independent Study courses may be used to satisfy this requirement if the courses have been approved by the AAST Director. Check the program website for a list of these approved courses.

Interested students or those wanting further information should consult with the African and African American Studies Director for selection of appropriate classes and for information on other courses that can apply to the major and/or minor.

Requirements for a Minor in African and African American Studies:
A total of 15 hours in African and African American Studies courses in addition to the requirements for the departmental major including the following:

AAST 1003 Introduction to African and African American Studies
or AAST 2023 The African American Experience

Select one of the following

- AAST 3233/HIST 3233 or
- AAST 3243/HIST 3243 or
- AAST 3253/HIST 3253 or
- AAST 3293/PLSC 3293 or
- AAST 3853/ENGL 3853 or
- AAST 4153/SOCI 4153

The remaining nine hours shall be selected from the courses listed in Requirement 3 of the Requirements for a Second Major in African American Studies. A maximum of six of the nine hours may be submitted from courses taken in any one department.

Total Hours: 15

Interested students or those wanting further information should consult with the African and African American Studies Director for selection of appropriate classes and for information on other courses that can apply to the major and/or minor.

**Requirements for Honors in African and African American Studies:**

The Honors Program in African and African American Studies gives junior and senior students of high ability the opportunity to enroll in enriched courses and conduct independent research culminating in an honors thesis. In addition to satisfying the general Fulbright College requirements for graduation and the basic eligibility requirements for honors as established by the Honors Council, candidates for honors in African and African American Studies must complete 12 hours of honors credit in partial satisfaction of requirements for the co-major. One to six of these may be thesis hours (AAST 399VH). The remaining six hours must be relevant honors colloquia or graduate courses (with permission) in one of the departments contributing to this interdisciplinary area of study. The 12 hours of honors credit will satisfy elective requirements in co-major requirement three above. The thesis committee shall include at least two faculty members affiliated with African and African American Studies. Successful completion of these requirements will be recognized by the award of the distinction “African and African American Studies Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in exceptional cases and are based upon the whole of the candidate’s program of honors studies.

**Faculty**

- Banton, Caree A., Ph.D. (Vanderbilt University), M.A. (University of Ghana), M.A. (University of New Orleans), B.A./B.P.A. (Grambling State University), Associate Professor, Department of History, 2013.
- Cleveland, Todd, Ph.D. (University of Minnesota), M.A., B.A. (University of New Hampshire), Associate Professor, Department of History, 2015.
- D’Alisera, JoAnn, Ph.D., A.M. (University of Illinois-Urbana-Champaign), B.A. (State University of New York at New Paltz), Associate Professor, Department of Anthropology, 1999.
- Dowe, Pearl Karen, Ph.D. (Howard University), M.A. (Georgia Southern University), B.S. (Savannah State University), Associate Professor, Department of Political Science, 2008.
- Gigantino, Jim, Ph.D. (University of Georgia), B.A. (University of Richmond), Professor, Department of History, 2010.
- Jackson, Brandon, Ph.D. (Florida State University), Associate Professor, Department of Sociology and Criminology, 2013.
- Robinson, Charles F., Ph.D. (University of Houston), M.A. (Rice University), B.A. (University of Houston), Professor, Department of History, 1999.
- Valandra, Ph.D., M.S.W. (University of Minnesota), M.B.A., B.S. (University of Nebraska at Omaha), Assistant Professor, School of Social Work, 2013.
- White, Calvin, Ph.D. (University of Mississippi), M.A., B.A. (University of Central Arkansas), Associate Professor, Department of History, 2007.

**Anthropology (ANTH)**

JoAnn D’Alisera
Acting Chair of the Department
330 Old Main
479-575-2508
anth@uark.edu (%20anth@uark.edu)

Department of Anthropology Website (http://fulbright.uark.edu/departments/anthropology/)

Courses in anthropology provide an introduction to world peoples, their ways of living, and world views. Anthropology helps students to better understand human similarities and differences.

The Department of Anthropology offers both a Bachelor of Science and a Bachelor of Arts degree in anthropology.

The Bachelor of Science degree program is geared toward students with specializations in anthropological sciences. It is recommended for students planning to continue their education in basic or applied anthropological sciences in graduate or professional school. A B.S. degree in anthropology is also useful students planning to continue their education toward health or medical related careers.

The Bachelor of Arts degree program allows students to take additional coursework in any of four areas of focused study: archeology, biological anthropology, cartography/remote sensing/GIS, or cultural anthropology.

For the combined major in Anthropology and African American Studies, see the African and African American Studies (p. 212) listing.

For requirements for the M.A. and Ph.D. degrees in anthropology, see the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programsandstudy/anthropologyyanth/)

**Requirements for a B.S. Degree with a Major in Anthropology**

The department of anthropology offers the Bachelor of Science degree in anthropology. The Bachelor of Science degree program is geared toward students with focused studies in anthropological sciences. It is recommended for students planning to continue their education in basic or applied anthropological sciences in graduate or professional school. A B.S. degree in anthropology is also useful students planning to continue their education toward health or medical related careers.

**Program Requirements:** A minimum of 120 hours is required, including 57 hours specified as designated below.

**Required Anthropology Core Courses:**

ANTH 1013 Introduction to Biological Anthropology
& ANTH 1011L and Introduction to Biological Anthropology Laboratory
Anthropology B.S.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

### Requirements for a Bachelor of Arts Degree with a Major in Anthropology

34 Semester Hours including:

| ANTH 1013 | Introduction to Biological Anthropology | 3 |
| ANTH 1011L | Introduction to Biological Anthropology Laboratory | 1 |
| ANTH 1023 | Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2013) | 3 |
| ANTH 1033 | Introduction to Archaeology | 3 |
| ANTH 4013 | History of Anthropological Thought | 3 |

These 34 hours must also include:

- One course in each ANTH subfield (Cultural, Archeology, Biological) beyond the core (9 hours).

- 3 hours from each of two different geographical areas in ANTH for a total of 6 hours.
- 6 elective credit hours in anthropology. These may satisfied in concert with an optional focused study as described below.

### Focused Studies

#### Focused Study in Archeology:

To complete the focused study, a student is required to fulfill the following course requirements:

| ANTH 3023 | Approaches to Archeology | 3 |
| ANTH 4093 | The Archeology of Death |
| ANTH 4353 | Laboratory Methods in Archeology |
| ANTH 4443 | Cultural Resource Management I |
| ANTH 4603 | Landscape Archaeology |
| ANTH 4633 | Archeological Prospecting and Remote Sensing |
| ANTH 4813 | Ethnographic Approaches to the Past |
| Archeological Field Session | 6 |
| ANTH 4256 | Archeological Field Session |

#### Focused Study in Biological Anthropology:

To complete the focused study, a student is required to fulfill the following course requirements:

Four of the following courses in biological anthropology, including any 3000-4000 special topics or seminar courses offered that are deemed appropriate for training in any of the subdisciplines of biological anthropology (12-13 credits).

| ANTH 3423 & ANTH 3421L | Human Osteology and Human Osteology Laboratory | 4 |
| ANTH 3433 | Human Evolution |
| ANTH 3443 | Criminalistics: Forensic Sciences |
| ANTH 3533 | Medical Anthropology |
| ANTH 3923H | Honors Colloquium |
| ANTH 4523 | Dental Science |
| ANTH 4613 | Primate Adaptation and Evolution |

#### Focused Study in Cartography/Remote Sensing/GIS:

This focused study gives students an opportunity to develop expertise in (1) cartography, map design and computer-assisted map production, (2) remote sensing and image interpretation, including photographic systems, sensor systems, and digital image processing, and (3) geographic information systems, including data sources, analytical techniques, and hardware/software systems.

To complete the focused study, a student is required to fulfill the following course requirements.

#### Required Courses:

| GEOS 3023 | Introduction to Cartography | 3 |
| GEOS 3213 | Principles of Remote Sensing |
| ANTH 3543 | Geospatial Applications and Information Science |
| Elective Courses - Select three of the following: | 9 |
Focused Study in Cultural Anthropology:
To complete the focused study, a student is required to fulfill the following course requirements:

Students must take a world language through the 2013 level 12
Two of the following method and theory courses or equivalent classes 6 offered under ANTH 3903 and ANTH 4903 approved as having a cultural anthropology method and theory focus.

- ANTH 3123 The Anthropology of Religion
- ANTH 3143 Language and Expressive Culture
- ANTH 3163 Male and Female: A Cultural and Biological Overview
- ANTH 3533 Medical Anthropology
- ANTH 4033 Popular Culture
- ANTH 4143 Ecological Anthropology
- ANTH 4363 Museums, Material Culture, and Popular Imagination
- ANTH 4813 Ethnographic Approaches to the Past

Writing Requirement: The Fulbright College research/analytical paper requirement for anthropology majors is fulfilled by completing an intensive writing requirement (15 pages) with a grade of “B” or higher in a successfully completed 4000-level ANTH course and with instructor approval.

Anthropology B.A.
Eight-Semester Degree Program
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Minor in Anthropology

Requirements for a Minor in Anthropology: 15 hours including ANTH 1023. At least 9 hours must be in courses numbered 3000 or above. Students who minor in anthropology should consult with an anthropology adviser to select appropriate courses. A student must notify the department of his or her intent to minor.

Requirements for Departmental Honors in Anthropology: The Departmental Honors Program in Anthropology provides an opportunity for outstanding undergraduate majors to conduct independent research under the supervision of a faculty member. The research project culminates in an honors thesis, which is primary for the award "Anthropology Scholar Cum Laude." Higher degree distinctions are recommended only in truly exceptional cases and are based upon the candidate’s entire program of honors studies.

Honors candidates must meet the college requirements for an honors degree. They must complete and defend an honors thesis and take 12 hours, which may include 6 hours of thesis, in Honors Studies. The candidate is expected to maintain a minimum 3.5 cumulative grade-point average in anthropology and other course work.

Please refer to the Secondary Education Requirements (http://catalog.uark.edu/undergraduateguides/fieldofstudytext) for Fulbright College Students.

Students wishing to pursue licensure through the UAteach undergraduate curriculum should consult with a UAteach adviser, uteach@uark.edu.

Faculty

Brandon, Jamie, Ph.D. (University of Texas), M.A. (University of Arkansas), B.A. (University of Memphis), Associate Research Professor, 2014.

D’Alisera, JoAnn, Ph.D., A.M. (University of Illinois-Urbana-Champaign), B.A. (State University of New York at New Paltz), Associate Professor, 1999.

Delezene, Lucas, Ph.D., M.A. (Arizona State University), B.S. (Emory University), Instructor, 2011.

Erickson, Kirstin C., Ph.D., M.A. (University of Wisconsin-Madison), B.A. (St. Olaf College), Associate Professor, 2001.

Griffith, Lauren Miller, Ph.D., M.A. (Indiana University), B.A. (Texas A&M University), Visiting Assistant Professor, 2013.

Kay, Marvin, Ph.D. (University of Colorado-Boulder), M.A., B.A. (University of Missouri-Columbia), Professor, 1980.

Kwame, Kenneth L., Ph.D. (University of California-Santa Barbara), M.A., B.A. (Colorado State University), Professor, 1999.

Lee, Christine, Ph.D. (Arizona State University), Assistant Professor, 2012.

Marion, Jonathan S., Ph.D., M.A. (University of California-San Diego), B.A. (University of Redlands), Associate Professor, 2012.

Natarajan, Venkatesan Ram, Ph.D., M.A. (New York University), B.A. (Johns Hopkins University), Assistant Professor, 2015.

Nolan, Justin Murphy, Ph.D., M.A. (University of Missouri-Columbia), B.A. (Westminster College), Associate Professor, 2002.

Rose, Jerry, Ph.D., M.A. (University of Massachusetts), B.A. (University of Colorado), University Professor, 1976.

Sabo, George, Ph.D., M.A., B.S. (Michigan State University), Professor, 1980.

Stoner, Wesley, Ph.D., M.A. (University of Kentucky), B.A. (Pennsylvania State University), Assistant Professor, 2014.

Swedenburg, Ted R., Ph.D., M.A., (University of Texas at Austin), B.A. (University of Beirut), Professor, 1996.

Terhune, Claire E., Ph.D., M.A. (Arizona State University), B.A., B.S. (College of Charleston), Assistant Professor, 2013.

Ungar, Peter S., Ph.D., M.A. (State University of New York at Stony Brook), B.A. (State University of New York, Binghampton), Distinguished Professor, 1995.

Vining, Benjamin R., Ph.D., M.A. (Boston University), B.A. College University, Assistant Professor, 2016.

Art (ARTS)

Gerry Snyder
Director of the School of Art
116 Fine Arts Center
479-575-5202
http://art.uark.edu

The School of Art offers two undergraduate programs leading to degrees:

• Bachelor of Arts
• Bachelor of Fine Arts

Separate requirements for each program and its concentrations are listed under the tabs. Requirements for honors are listed separately for the program. The School of Art also offers a minor in art history.

Under direction of accomplished faculty, the School of Art offers professional art degrees in many media areas, including art education, art history, ceramics, drawing, painting, photography, printmaking, sculpture, and visual design. Students enjoy a close proximity to the Crystal Bridges Museum of American Art, with which the School of Art has a strong relationship. The school also works closely with other local arts organizations and maintains an active presence in the communities of Northwest Arkansas. The school’s Fine Arts Gallery (http://art.uark.edu/fineartsgallery), in the impressive Fine Arts Center designed by architect Edward Durell Stone, shows both student and professional works on a near-constant basis.

Bachelor of Arts Degree

Transfer students should confer with the School of Art advisers prior to entrance for information concerning entrance requirements and transfer credits. Transfer credit will be allowed from other accredited and recognized art departments and schools if the credit earned is compatible with program and course requirements within the University of Arkansas School of Art and reflects a grade of “C” or higher. In addition, a student must spend a minimum of 2 semesters in residence. Credit for advanced studio classes in the school is contingent upon presentation of a portfolio of works created in a college-level class equivalent to the class the student is seeking credit for in the School of Art. Professors in the relevant studio area will evaluate portfolios and determine transfer credits.
Requirements for a Major in Art History

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

A minimum of 51 semester hours:

Completion of 2013 Intermediate II of a world language, 1 3-9
Nine hours of courses from outside the department of art (as approved by a departmental adviser)

39 Semester Hours Including:

6 hours in ARTS courses 6
ARHS 2913  Art History Survey I (ACTS Equivalency = ARTA 2003) 3
ARHS 2923  Art History Survey II (ACTS Equivalency = ARTA 2103) 3

In addition to the preceding requirements, 18 hours of upper division art history courses to include:

At least two courses selected from: (Group 1)
ARHS 4563  Pre-Columbian Art
ARHS 4573  Artists of New Spain
ARHS 4733  Saint Peter's and the Vatican
ARHS 4743  Medieval Architecture
ARHS 4753  Renaissance and Baroque Architecture
ARHS 4833  Ancient Art
ARHS 4843  Medieval Art
ARHS 4853  Italian Renaissance Art
ARHS 4863  Northern Renaissance Art
ARHS 4873  Baroque Art
ARHS 4983  Special Topics in Art History

And at least two courses selected from: (Group 2)
ARHS 4763  Seminar in Critical Theory
ARHS 4813  The History of Photography
ARHS 4883  18th and 19th Century European Art
ARHS 4893  20th Century European Art
ARHS 4913  American Art to 1860
ARHS 4923  American Art 1860-1960
ARHS 4933  Contemporary Art
ARHS 4993  Special Topics in Modern Art

And 2 additional courses (6 hours) from any upper-division ARHS courses

In addition, two seminar courses in art history, and one elective course in art history or studio art.

Total Hours  51-57

1 This is usually accomplished through completion of a sequence of language courses: 1003, 1013, 2003 and 2013.

Art majors must complete a basic fine arts course that satisfies the University Core requirement from outside the department of Art.

Writing Requirement: Students majoring in art will satisfy the Fulbright College writing requirement by successful completion (a grade of at least a “C”) in the final paper in one of the following:

ARHS 3923H  Honors Colloquium  3
ARHS 4563  Pre-Columbian Art  3
ARHS 4573  Artists of New Spain  3
ARHS 4743  Medieval Architecture  3
ARHS 4753  Renaissance and Baroque Architecture  3
ARHS 4763  Seminar in Critical Theory  3
ARHS 4833  Ancient Art  3
ARHS 4843  Medieval Art  3
ARHS 4853  Italian Renaissance Art  3
ARHS 4863  Northern Renaissance Art  3
ARHS 4873  Baroque Art  3
ARHS 4883  18th and 19th Century European Art  3
ARHS 4893  20th Century European Art  3
ARHS 4913  American Art to 1860  3
ARHS 4923  American Art 1860-1960  3
ARHS 4933  Contemporary Art  3
ARHS 4963  Individual Research in Art History  3
ARHS 4973  Seminar in Art History  3
ARHS 4983  Special Topics in Art History  3
ARHS 4993  Special Topics in Modern Art  3

or by successful completion (a grade of at least a “C”) in a thesis in art history.

Art History B.A.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).

2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

Upper Level ARHS Group 1
Choose at least two courses from the following:
- ARHS 4563 Pre-Columbian Art
- ARHS 4573 Artists of New Spain
- ARHS 4733 Saint Peter's and the Vatican
- ARHS 4743 Medieval Architecture
- ARHS 4753 Renaissance and Baroque Architecture
- ARHS 4833 Ancient Art (ARHS 2913)
- ARHS 4843 Medieval Art (ARHS 2913)
- ARHS 4853 Italian Renaissance Art (ARHS 2923)
- ARHS 4863 Northern Renaissance Art (ARHS 2923)
- ARHS 4873 Baroque Art (ARHS 2923)
- ARHS 4983 Special Topics in Art History

Upper Level ARHS Group 2
Choose at least two courses from the following:
- ARHS 4763 Seminar in Critical Theory
- ARHS 4813 The History of Photography
- ARHS 4883 18th and 19th Century European Art (ARHS 2923)
- ARHS 4893 20th Century European Art (ARHS 2923)
- ARHS 4913 American Art to 1860 (ARHS 2923)
- ARHS 4923 American Art 1860-1960 (ARHS 2923)
- ARHS 4933 Contemporary Art
- ARHS 4993 Special Topics in Modern Art

Bachelor of Arts Degree
Transfer students should confer with the departmental advisers prior to entrance for information concerning entrance requirements and transfer credits. Transfer credit will be allowed from other accredited and recognized art departments and schools if the credit earned is compatible with program and course requirements within the University of Arkansas School of Art and reflects a grade of "C" or higher. In addition, a student must spend a minimum of 2 semesters in residence. Credit for advanced studio classes in the school is contingent upon presentation of a portfolio of works created in a college-level class equivalent to the class the student is seeking credit for in the School of Art. Professors in the relevant studio area will evaluate portfolios and determine transfer credits.

Requirements for a Major in Studio Art
In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met.

A minimum of 51 semester hours to include:
- ARTS 1919C Studio Foundation I 9
- ARTS 1929C Studio Foundation II 9
- 12 Hours of Art History to include:
  - ARHS 2913 Art History Survey I (ACTS Equivalency = ARTA 2003) 3
  - ARHS 2923 Art History Survey II (ACTS Equivalency = ARTA 2103) 3
Select one of the following: (Group 1)
- ARHS 4563 Pre-Columbian Art
Select one of the following: (Group 2)

ARHS 4763 Seminar in Critical Theory
ARHS 4813 The History of Photography
ARHS 4823 History of Graphic Design
ARHS 4833 18th and 19th Century European Art
ARHS 4893 20th Century European Art
ARHS 4913 American Art to 1860
ARHS 4923 American Art 1860-1960
ARHS 4933 Contemporary Art
ARHS 4993 Special Topics in Modern Art

Students may take ARHS 4973 Seminar in Art History to fulfill their ARHS requirement, but designation as Group 1 or 2 will depend on the specific seminar taken.

In addition, students must complete a minimum of 21 hours of studio art courses, with at least one course from each media category. Within these 21 hours, students must complete at least 6 hours of studio art courses at the 4000-level.

Media Categories
- 2D (drawing, printmaking, painting)
- 3D (sculpture, ceramics)
- Digital/Lens (photography, graphic design (digital tools), time & motion)

Studio Art majors must complete a basic fine arts course that satisfies the University Core requirement from outside the School of Art.

Writing Requirement: Students majoring in art will satisfy the Fulbright College writing requirement by successful completion (a grade of at least a "C") in the final paper in one of the following:

ARHS 3923H Honors Colloquium
ARHS 4563 Pre-Columbian Art
ARHS 4573 Artists of New Spain
ARHS 4743 Medieval Architecture
ARHS 4753 Renaissance and Baroque Architecture
ARHS 4833 Ancient Art
ARHS 4843 Medieval Art
ARHS 4853 Italian Renaissance Art
ARHS 4863 Northern Renaissance Art
ARHS 4873 Baroque Art
ARHS 4883 18th and 19th Century European Art
ARHS 4893 20th Century European Art
ARHS 4913 American Art to 1860
ARHS 4923 American Art 1860-1960

or by successful completion (a grade of at least a "C") in a thesis in art history.

**Studio Art B.A. Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

- ARHS 4863 Northern Renaissance Art (ARHS 2923)
- ARHS 4873 Baroque Art (ARHS 2923)
- ARHS 4983 Special Topics in Art History (ARHS 2923, or ARHS 2923)

### Upper Level ARHS Group 2

Select one of the following: 3

- ARHS 4763 Seminar in Critical Theory
- ARHS 4813 The History of Photography

---

**Requirements for B.F.A. in Art Education with Concentration in Community Practice**

In addition to the University Core requirements and the Fulbright College of Arts and Sciences Graduation Requirements (see under College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

- A minimum of 72 hours to include:
  - 2003 Intermediate I of a world language. This is usually accomplished through completion of a sequence of two language courses: 1013 and 2003
  - 3-6
  - COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003)
  - 3
  - PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103)
  - 3
  - PHIL 4403 Philosophy of Art
  - 3
  - ARTS 1919C Studio Foundation I
  - 9
  - ARTS 1929C Studio Foundation II
  - 9
  - ARED 4773 Professional Development in Art Education
  - 3
  - A minimum of 12 hours in selected studio focus
  - 12
  - At least 12 hours in Art History including:
    - ARHS 2913 Art History Survey I (ACTS Equivalency = ARTA 2003)
    - 3
    - ARHS 4853 Italian Renaissance Art
    - 3
    - ARHS 4863 Northern Renaissance Art
    - 3
    - At least 12 hours of 3000- or 4000-level studio art electives exclusive of the studio focus
    - 12
    - ARHS 2923 Art History Survey II (ACTS Equivalency = ARTA 2103)
    - 3
    - ARHS 4933 Contemporary Art

**Writing Requirement:** Students majoring in art will satisfy the Fulbright College writing requirement by successful completion (a grade of at least a "C") in the final paper in one of the following:

- ARHS 3923H Honors Colloquium
- 3
- ARHS 4563 Pre-Columbian Art
- 3
- ARHS 4573 Artists of New Spain
- 3
- ARHS 4743 Medieval Architecture
- 3
- ARHS 4753 Renaissance and Baroque Architecture
- 3
- ARHS 4763 Seminar in Critical Theory
- 3
- ARHS 4833 Ancient Art
- 3
- ARHS 4843 Medieval Art
- 3
- ARHS 4853 Italian Renaissance Art
- 3
- ARHS 4863 Northern Renaissance Art
- 3
- ARHS 4873 Baroque Art
- 3

---
or by successful completion (a grade of at least a "C") in a thesis in art history.

Total Units in Sequence: 120

The Bachelor of Fine Arts in Art Education has been added pending approval of the Arkansas Higher Education Coordinating Board.

Requirements for B.F.A. in Art Education with Concentration in K-12 Teaching

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198) (see under College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list
below may be applied to portions of the University/state minimum core requirements.

Students who wish to apply for admission to the K-12 Teaching Concentration internship program in art education must complete the following Stages.

**Stage I:** Complete an evaluation for internship. Students must also meet the following criteria to be cleared for the internship:

1. Obtain a "C" or better in the following pre-education core courses: ARED 1003, CIED 3023, and CIED 3033.
2. Obtain a "C" or better in ARED 2003, ARED 3003, and ARED 4003.
3. Obtain clearance through the Office of Teacher Education upon completion of the pre-education core courses. (Clearance includes passing scores on accepted basic skills assessments and cleared background checks.) For admission requirements and application go to the Teacher Education website (https://teacher.education.uark.edu). Please contact the Director of Field Placement and Licensure, Graduate Education Building, Room 339, College of Education and Health Professions for more information.
4. Prior to enrollment in ARED 476V Student Teaching and ARED 4773 Professional Development, complete other degree requirements with a cumulative GPA of 2.50 or higher and a 3.0 in all School of Art coursework.
5. Obtain departmental clearance for internship based on successful completion of portfolio review, GPA and coursework requirements, an interview with Art Education faculty, and/or other specified recommendations by your program.

**Stage II: Internship**

1. Complete the one-semester internship at one elementary and one secondary placement at approved locations.
2. Complete Praxis II requirements. See your adviser for details.

Students should always consult the Coordinator of Teacher Education for any licensure requirement changes. Students will not be licensed to teach in Arkansas until they have met all requirements for licensure as set forth by the Arkansas Department of Education.

Usually licensure in another state is facilitated by qualifying for a license in Arkansas. An application in another state must be made on the application form of that state, which can be obtained by request from the State Teacher Licensure office in the capital city. An official transcript should accompany the application. In many instances the applications are referred to the Coordinator of Teacher Education to verify program completion in teacher education.

**Requirements for the B.F.A. in Art Education with Concentration in K-12 Teaching**

A minimum of 72 hours to include:

2003 Intermediate I of a world language. This is usually accomplished 3-6 through completion of a sequence of two language courses: 1013 and 2003.

or by successful completion (a grade of at least a "C") in a thesis in art history.

## Art B.F.A. in Art Education with a Concentration in K-12 Teaching
### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

---

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

Students completing the Bachelor of Fine Arts may substitute ARHS 2913 or ARHS 2923 to satisfy the content covered in the Fine Arts University/State Core Requirement.

B.F.A. in Graphic Design

The Bachelor of Fine Arts degree in Graphic Design — often also referred to as visual design, visual communication design or visual communication — will prepare students to be proficient makers and thoughtful problem seekers and solvers in a four-year professional degree program. Students will work seamlessly across a range of media, working to identify appropriate solutions for audience and context. Students will be exposed to a rigorous curriculum covering research, theory, critical thinking, professional practices, conceptual idea-making, all while asking them to formally experiment and refine. The Graphic Design degree focuses on: typography, interactivity, branding and design research, each identified as strongly connected to the design industry, while incorporating the university research initiatives of the School of Art at the University of Arkansas.

Requirements for Admission to the Fine Arts Degree in Graphic Design

For admission to the B.F.A. in Graphic Design, a student must be a declared Art major in the School of Art and successfully complete the art foundation course sequence of ARTS 1919C Studio Foundation I and ARTS 1929C Studio Foundation II. Students also must be enrolled in, or have completed, GDES 2313 Digital Tools and Concepts and GDES 3313 Introduction to Typography. Students must have a 3.0 grade point average and submit an application and a portfolio for review.

Requirements for the Bachelor of Fine Arts Degree in Graphic Design

In addition to the University Core requirements and the Fulbright College Arts and Sciences Graduation Requirements (see under College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the university/state minimum core requirements.

Total Units in Sequence: 120

Internship credit considered in lieu of required studies upon approval of professors, based on content and merit of internship.

**Minor in Art History**

**Requirements for a Minor in Art History:** A minimum of 18 semester hours to include:

- One course either in art history or studio art - 3 units
- Three additional art history courses - 9 units
- A minimum of 18 semester hours

A student must notify the department of his or her intent to minor. The minor is especially suitable for students majoring in anthropology, English, foreign languages, history, philosophy, and music.

**Requirements for Departmental Honors in Art:** As part of the Honors Studies Program of the J. William Fulbright College of Arts and Sciences, the School of Art provides the opportunity for academically superior junior- and senior-level students to acquire broader and deeper knowledge and skills in the visual arts and related disciplines. This is accomplished through independent research projects in studio art and/or art history under the direction of the art faculty. Outstanding achievement is recognized by awarding the distinction “Art Scholar Cum Laude.” Students may apply for honors studies beginning in the second semester of their sophomore year and normally will not be accepted into the program after completion of the second semester of their junior year. The school requires each applicant to have a minimum cumulative grade-point average of 3.5 in all college course work, a minimum grade-point average of 3.5 in all course work taken in the School of Art, completed ARHS 2913 and ARHS 2923, completed at least 20 semester hours of work in art school courses, and at least 30 semester hours of general education requirements. Included in those hours, a student must complete and defend an honors thesis and take 12 hours, which may include 6 hours of thesis, in honors studies. Higher degree distinctions take into consideration the student’s entire academic career and are recommended for only those students whose honors projects and programs of study demonstrate a truly exceptional degree of creativity and scholarship.

**Faculty**

**Andree, David,** M.F.A. (State University of New York), B.F.A. (Minneapolis College of Art and Design), Assistant Professor, 2015.

**Andree, Kara M.** M.F.A. (State University of New York at Buffalo), B.F.A. (Minneapolis College of Art and Design), Instructor, 2016.

**Callander, Adrienne,** M.F.A. (Rutgers University), B.A. (Reed College), Visiting Assistant Professor, 2017.

**Callander, Neil,** M.F.A. (Rutgers University), B.F.A. (Indiana University at Bloomington), Assistant Professor, 2017.

**Chioffi, David Charles,** M.A. (Wesleyan University), B.F.A. (The Rochester Institute of Technology), Professor, 2013.

**Cromer, Jonathan Barrett,** M.F.A. (University of Arkansas), Instructor, 2016.

**DeWitt, Dylan,** M.F.A. (Yale University), Assistant Professor, 2014.

**Drolen, Rebecca,** M.F.A., B.A. (Indiana University, Bloomington), Assistant Professor, 2015.

**Grant, Alphonso W.**, Ph.D. (Pennsylvania State University), Assistant Professor, 2017.

**Hanson, Alexander J.,** M.F.A. (University of Iowa), Instructor, 2015.

**Hapgood, Thomas Layley,** M.F.A., B.A. (University of Arizona), Associate Professor, 2005.

Hogan, Adam S., M.A., M.F.A. (Washington University in St. Louis), Assistant Professor, 2014.
Hulen, Jeannie, M.F.A. (Louisiana State University), B.F.A. (Kansas City Art Institute), Professor, 2002.
King, Sam, M.F.A. (Indiana University at Bloomington), B.F.A. (University of Tulsa), Assistant Professor, 2011.
Lane, Marty Maxwell, M.G.D. (North Carolina State University), B.F.A. (University of Illinois at Chicago), Associate Professor, 2014.
LaPorte, Angela M., Ph.D. (Pennsylvania State University), M.A. (Arizona State University), B.S. (La Roche College), Professor, 1998.
Levenson, Abra, Ph.D., M.A.(Princeton), B.A. (University of California, Berkeley), Assistant Professor, 2018.
McConnell, Mathew S., M.F.A. (University of Colorado-Boulder), B.F.A. (Valdosta State University), Associate Professor, 2011.
McMahon, Bree, M.A., B.A. (North Carolina State University), Assistant Professor, 2018.
Meares, Ian, M.F.A (Penn State), M.F.A (University of California at Irvine), Instructor, 2017.
Mitchell, Marc E., M.F.A. (Boston University), Associate Professor, 2014.
Morrissey, Sean P., M.F.A. (University of Nebraska-Lincoln), B.F.A. (Bowling Green State University), Assistant Professor, 2014.
Murff, Zora J., M.F.A. (University of Nebraska), Assistant Professor, 2018.
Place, Alison L., M.F.A (Miami University), Assistant Professor, 2017.
Posnak, Adam, M.F.A (Louisiana State University and A&M College), Instructor, 2010.
Pulido Rull, Ana, Ph.D., M.A. (Harvard University), B.A. (National Autonomous University of Mexico), Associate Professor, 2012.
Ramirez, Kasey, M.F.A. (Indiana University, Bloomington), B.F.A. (Rhode Island School of Design), Assistant Professor, 2015.
Springer, Bethany Lynn, M.F.A. (University of Georgia), B.A. (Virginia Polytechnic Institute and State University), Associate Professor, 2006.
Taoka, Loring, M.F.A (University of North Texas), Instructor, 2012.
Turner, Aaron, M.F.A (Rutgers State University), B.A (University of Memphis), Research Associate, 2016.
Yoon, InJeong, Ph.D. (University of Arizona), Assistant Professor, 2017.

Students may enroll in college and off-campus programs (ARSC) under special circumstances and with the approval of the Associate Dean of Fulbright College.

Asian Studies (AIST)
Ka Zeng
Chair of Studies
428 Old Main
479-575-3356
Asian Studies Website (http://aisu.uark.edu)

Students may pursue Asian studies as a second major alongside a primary major in Fulbright College. The program also offers a minor in Asian Studies.

The Asian Studies Program draws on the strength of faculty both in the Fulbright College of Arts and Sciences and in other colleges on campus to provide resources and training in Asian languages, cultures, history, politics and economics. The program strives to provide students with a well-rounded education essential for careers in which knowledge of Asia is vital, promote interdisciplinary research on the Pacific region, and serve as a source of knowledge and expertise for the community.

Requirements for the Asian Studies Second Major:

Language Competence: Students must complete CHIN 2013 (or equivalent) or JAPN 2013 (or equivalent). Subject to the approval of the Director of Studies, students with language competence in one language (Chinese or Japanese) may receive some elective credit for competence level courses in the other language. Proficiency in other Asian languages may also satisfy this requirement.

In addition to the above language requirement, students must complete 21 hours in Asia-related courses, subject to the following conditions:

Colloquium (3-6 hours): Students must complete at least three hours in the interdisciplinary colloquium, AIST 4003/AIST 4003H. The AIST Colloquium may be repeated, provided the topic is different.

Electives (15-18 hours): In addition to the above requirements and the requirements for the departmental major, students must complete 15-18 hours of Asia-related courses (AIST-approved electives listed below) subject to the following conditions of distribution:

1. Students must complete 6 hours of history courses;
2. Students must complete 6 hours of social science courses;
3. Courses must be selected from at least three different departments;
4. A maximum of nine hours may be submitted from any one department;
5. In addition, the following may be applied toward the major:
   a. Up to 6 hours of upper-level language courses (such as CHIN 3003, CHIN 3033, CHIN 3103, JAPN 3003, JAPN 3013, JAPN 3033);
   b. Up to 6 hours of credits in an approved study-abroad program;
   c. Up to 6 hours of CHIN 3983 or JAPN 3983/JAPN 3983H (Special Studies)
   d. Other Asia-related courses with approval of the director of Asian Studies.

PLSC 4823  Foreign Policy of East Asia  3

Requirements for a Minor in Asian Studies:

Students may earn a minor in Asian Studies by taking courses in art, anthropology, economics, geography, history, languages, sociology, political science, and literature of Asia. Students must fulfill the language requirement described below and complete 15 hours in Asia-related courses in order to earn the minor.

Language Requirement: Students must complete CHIN 2013 (or equivalent) or JAPN 2013 (or equivalent). At the discretion of the chair of studies, proficiency in other Asian languages may also satisfy this requirement.

Beyond the language requirement, students must complete 15 credit hours of approved courses, including at least three hours in the Asian Studies Colloquium (AIST 4003). The following courses may be taken in fulfillment of the elective requirements:

Approved AIST Electives

CHIN 4313  Culture and Society in China  3
ECON 3933  The Japanese Economic System  3
ECON 4633  International Trade  3

PLSC 3503  Governments and Politics of East Asia  3
PLSC 4823  Foreign Policy of East Asia  3

Students may also apply three hours of credit in an approved study-abroad program in an Asian country and three hours of upper-level Chinese or Japanese toward the minor.

Other courses that include Asia-specific content may be taken for credit toward the secondary major or minor with the approval of the Chair of Asian Studies.

Minor in East Asian History and Politics

The East Asian history and political science minor is designed to enhance students’ understanding of the historical and political development of East Asia, in particular China and Japan. Students must complete 15 hours in courses related to East Asian history and political science in order to earn the minor. The interdisciplinary nature of this degree will allow students to use a variety of courses on East Asia to develop their own B.A. degree and thus prepare for a career related to the region.

Students must complete 15 hours from the following:

Required Courses (6 hours)

PLSC 3503  Governments and Politics of East Asia  3
HIST 3523  Modern China  3

Electives (9 hours)

Choose any three courses

AIST 4003  Asian Studies Colloquium
or AIST 400H Honors Asian Studies Colloquium
CHIN 3103  Chinese Culture through Film
CHIN 4313  Culture and Society in China
HIST 3513  History of China to 1644
HIST 4403  Islam in Asia
HIST 4553  The Recluse in Early East Asia
HIST 4633  Heian Japan (794-1192)
or HIST 4633H Honors Heian Japan (794-1192)
HIST 4853 Early Chinese Empires: Mythology, Archeology, and Historiography
HIST 4863 Classical Thought in East Asia
HIST 4903 Music and the Arts of Edo Japan 1600-1868
HIST 4913 Reading Japanese Noh as Cultural History
or HIST 491H: Honors Reading Japanese Noh as Cultural History

Students can apply up to 3 hours of upper level Chinese or Japanese language courses and 3 hours in an approved study abroad program toward the minor.

Department of Biological Sciences Website (http://fulbright.uark.edu/departments/biology/)

The Department of Biological Sciences offers a supportive training environment across the full spectrum of biology, bridging the disciplines of cell and molecular biology, physiology, development, genetics, molecular systematics, microbiology, neurobiology, ecology, and evolutionary biology. Through course selection both within and outside the department, our students are prepared to enter research and professional training programs (health, secondary education, law, etc.) or enter careers in government and a broad range of businesses that rely on a technology-literate workforce with analytical and problem-solving skills.

For information on advanced degrees in biology, see the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programsofstudy/biologicalsciencesbisc/).

Requirements for a B.S. Degree with a Major in Biology
A minimum of 120 hours is required, including 40 hours in the major as specified below:

1. BIOL 1584 Biology for Majors
2. Biology Core (13 hours):
   - BIOL 2533 Cell Biology
   - BIOL 2323 General Genetics
   - BIOL 3023 Evolutionary Biology
   - BIOL 3863 General Ecology
   and a minimum of 1 hour of Core Laboratory selected from:
   - BIOL 2531L Cell Biology Laboratory
   - BIOL 2321L General Genetics Laboratory
   - BIOL 3861L General Ecology Laboratory
3. An additional 23 hours of electives in biology and/or biology related electives including:

   - At least 2 elective courses numbered 2000 or higher which are lab courses. This includes Core Labs taken in addition to the basic Core requirement. Courses whose catalog description explicitly excludes them from counting toward the major may not be used to meet this requirement. (Laboratory courses also include BIOL 480V, BIOL 480VH, BIOL 499V, and BIOL 499VH.)
   - At least 18 hours in BIOL courses numbered 3000 or higher, of which at least 12 hours must be from courses numbered 4000 or higher.
   - A course meeting the Fulbright College writing requirement. (The means of meeting the writing requirement are listed following the description of Requirements for Departmental Honors in Biology.)
   - No more than 4 hours of elective courses at the 1000 level are permitted. BIOL 1543/BIOL 1541L Principles of Biology/Principles of Biology Laboratory may not be applied to the elective requirement.

Note: Biology related electives that are not taught by the Department of Biological Sciences must be approved using the “Exception Request for Major or Minor Requirements” form.

A student who, after completing BIOL 1543/BIOL 1541L Principles of Biology/Lab with a grade of B or better in both courses, wishes to substitute BIOL 1543/BIOL 1541L for the required BIOL 1584 may petition the Department of Biological Sciences to do so. These petitions will be considered on a case by case basis for approval.

Requirements in cognate science and mathematics include the following:

Requirement in Philosophy, must include one of the following: PHIL 2103 or PHIL 2203 or PHIL 3113 or PHIL 4213.

Writing Requirement: The college writing requirement for majors in biology may be met by one of the following:

1. Completion of an honors thesis,
2. Completion of a senior thesis (BIOL 498V) supervised by a faculty member in biological sciences,
3. Completion of a required term paper with a grade of B or above in a BIOL course numbered 3000 or above on a topic approved by the instructor, or
4. Completion of a paper, supervised by a Biological Sciences faculty member, in Special Topics (BIOL 480V)

Note: A student exercising Option 3 or 4 may not use the paper written for that option for credit in BIOL 498V

Biology B.S.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area. Students must complete at least 120 hours, and this must be considered when scheduling upper-level hours in the senior year.

### Requirements for a B.A. Degree with a Major in Biology:

A minimum of 120 hours is required, including:

1. **BIOL 1584 Biology for Majors.** Majors may substitute another 1000-level BIOL course (BIOL 1603/BIOL 1601L Principles of Zoology or BIOL 1613/BIOL 1611L Plant Biology) for BIOL 1584; a maximum of four 1000-level credits may be applied toward the major. A student who, after completing BIOL 1543/BIOL 1541L Principles of Biology/
4. Requirement in Philosophy
Select one of the following:
- PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003)
- PHIL 2203 Logic (ACTS Equivalency = PHIL 1003)
- PHIL 3113 Environmental Ethics
- PHIL 4213 Philosophy of Science

5. Students must complete a minimum of 20 credit hours at the 3000-level or higher from requirements 2, 3, and 4 listed above or from a combination of requirements 2, 3, and 4 above and from additional 3000-level or higher BIOL upper-level electives.

**Writing Requirement:** The college writing requirement for majors in biology may be met by one of the following:

1. Completion of an honors thesis,
2. Completion of a senior thesis (BIOL 498V) supervised by a faculty member in biological sciences,
3. Completion of a required term paper with a grade of B or above in a BIOL course numbered 3000 or above on a topic approved by the instructor, or
4. Completion of a paper, supervised by a Biological Sciences faculty member, in Special Topics (BIOL 480V)

---

### Biology B.A.

**Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

<tr>
<td>16</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Total Units in Sequence:

120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).

2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

Requirements for a Minor in Biology:

Students must complete at least 19 credit hours of BIOL courses that include:

1. BIOL 1584 Biology for Majors (ACTS Equivalency = BIOL 1014 Lecture) or BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture)/BIOL 1541L Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab)

2. Three of the four biology core courses: BIOL 2533 Cell Biology, BIOL 2323 General Genetics, BIOL 3023 Evolutionary Biology, BIOL 3863 General Ecology.

3. Two additional BIOL courses, one of which must be a BIO1 course numbered 3000 or above. This may include an additional BIOL core course.

Students must notify their academic dean’s office of their intent to minor in biology.

Requirements for Departmental Honors in Biology:

The biological sciences honors program is designed to provide students an opportunity to investigate questions in biology through an expanded reading program and research experience. Biological science majors may apply to enter the program between the second semester of the sophomore year and the end of the junior year. Application is made through both Honors Studies (MAIN 517) and the Department of Biological Sciences (SCEN 601). Applicants must have a 3.5 grade-point average. Students should consult with their adviser to identify and contact a potential faculty research mentor. The student’s research activities will then be directed by the departmental faculty member who agrees to sponsor the student.

Students may enroll for up to four hours of credit in BIOL 499VH during the junior year and up to eight hours of credit in BIOL 499VH during the senior year. A maximum of six of these credits may be applied toward a major. Participants must complete and defend an honors thesis and take 12 hours in Honors Studies, which may include six hours of research mentorship. The student’s research activities will then be directed by the departmental faculty member who agrees to sponsor the student.

Students who successfully complete the departmental honors program usually graduate as “Departmental Scholar Cum Laude.” Higher degree distinctions are recommended only in exceptional cases and are based upon the candidate’s entire involvement in the honors program. Completion of an honors thesis fulfills the writing requirement in...
biological sciences, which precludes credit for BIOL 498V (Senior Thesis) for the same body of work.

**Biology (B.A. or B.S.) Life/Earth Science Teacher Licensure Requirements:** Please refer to the Secondary Education Requirements (p. 201) for Fulbright College Students.

Students wishing to pursue licensure through the UAteach undergraduate curriculum should consult with a UAteach adviser, uteach@uark.edu.

**Faculty**

Alrubaye, Adnan Ali Khaif, Ph.D., M.Ed. (University of Arkansas), M.S., B.V.M. (University of Baghdad, Iraq), Clinical Assistant Professor, 2013.

Alverson, Andrew James, Ph.D. (University of Texas at Austin), M.S. (Iowa State University), B.S. (Grand Valley State University), Associate Professor, 2012.

Beaulieu, Jeremy M., Ph.D. (Yale University), M.S., B.S. (California Polytechnic State University), Assistant Professor, 2016.

Beaupre, Steven J., Ph.D. (University of Pennsylvania), M.S., B.S. (University of Wisconsin), Professor, 1995.

Catanzano, Donald G., Ph.D. (University of Arkansas), A.B. (University of California, Los Angeles), Research Assistant Professor, 2014.

Ceballos, Ruben M., Ph.D. (University of Montana), M.A. (University of Alabama-Birmingham), B.S.(University of Alabama-Huntsville), Assistant Professor, 2016.

Coleman, James S., Ph.D., M.S., M.Phil (Yale University), B.S. (University of Maine), Professor, 2017.

DeGregorio, Brett A., Ph.D. (University of Illinois at Urbana-Champaign), M.S. (Purdue University), B.S. (University of Massachusetts at Amherst), Research Associate Professor, 2019.

Douglas, Michael Edward, Ph.D. (University of Georgia), M.S., B.S. (University of Louisville), Professor, 2011.

Douglas, Marlis R., Ph.D., M.S., B.S. (University of Zurich), Professor, 2012.

Du, Yuchun, Ph.D. (Kagoshima University, Japan), B.S. (Shaanxi University of Technology, China), Associate Professor, 2007.

DuRant, Sarah Elizabeth, Ph.D. (Virginia Polytechnic Institute and State University), B.S. (University of South Carolina), Assistant Professor, 2017.

Durlik, Jeannine M., Ph.D. (Johns Hopkins University), B.S. (Purdue University), Professor, 1994.

Etges, William J., Ph.D. (University of Rochester), M.S. (University of Georgia), B.S. (North Carolina State University), Professor, 1987.

Evans, Timothy A., Ph.D. (Indiana University), B.S. (Slippery Rock University), Assistant Professor, 2013.

Evans-White, Michelle Allayne, Ph.D. (University of Notre Dame), M.S., B.S. (Kansas State University), Professor, 2008.

Forbes, Kristian M., Ph.D. (University of Jyväskylä), M.P.H. (La Trobe University), B.Sc. (La Trobe University), Assistant Professor, 2018.

Henry, Ralph Leroy, Ph.D., M.S. (University of Florida), B.S.E. (University of Kansas), Distinguished Professor, 1996.

Ivey, Mack, Ph.D., B.S. (University of Georgia), Associate Professor, 1992.

Iyer, Shilpa, Ph.D. (University of Georgia), M.Sc., B.Sc. (University of Pune, India), Assistant Professor, 2016.

Jennings, Tameka A., Ph.D. (University of Arkansas), B.S. (University of Arkansas-Pine Bluff), Clinical Assistant Professor, 2017.

Kral, Timothy Alan, Ph.D. (University of Florida), B.S. (John Carroll University), Professor, 1981.

Lehmann, Michael Herbert, Ph.D., Diploma in Biology (Philipps University of Marburg, Germany), Professor, 2002.

Lessner, Daniel J., Ph.D. (University of Iowa), B.S. (University of Wisconsin-Stevens Point), Associate Professor, 2008.

Lessner, Faith H., Ph.D. (University of Iowa), B.S. (Cornell University), Teaching Assistant Professor, 2016.

Lewis, Jeffrey A., Ph.D. (University of Wisconsin-Madison), B.S. (University of California-Santa Barbara), Assistant Professor, 2013.

Magoulick, Daniel D., Ph.D. (University of Pittsburgh), M.S. (Eastern Michigan University), B.S. (Michigan State University), Research Professor, 2000.

McNabb, David S., Ph.D. (Louisiana State University Health Sciences Center), B.S. (University of Texas at Arlington), Associate Professor, 2000.

Naithani, Kusum, Ph.D. (University of Wyoming), M.Sc. (G.B. Pant University of Agriculture and Technology-India), B.Sc. (University of Lucknow-India), Assistant Professor, 2014.

Nakanishi, Nagayasu, Ph.D. (University of California, Los Angeles), B.S. (University of California, San Diego), Assistant Professor, 2017.

Paré, Adam C., Ph.D. (University of California, San Diego), B.S. (Cornell University), Assistant Professor, 2019.

Pinto, Ines, Ph.D. (Louisiana State University Health Sciences Center), M.S., B.S. (University of Chile), Associate Professor, 2000.

Rhoads, Douglas Duane, Ph.D. (Kansas State University), M.A., B.A. (Wichita State University), University Professor, 1999.

Shadwick, John D.L., M.S. (University of Arkansas), B.S. (University of Central Arkansas), Instructor, 2011.

Siepelski, Adam M., Ph.D. (University of Wyoming-Laramie), M.S. (New Mexico State University), B.S. (Pennsylvania State University-Park), Assistant Professor, 2015.

Spiegel, Frederick W., Ph.D. (University of North Carolina at Chapel Hill), B.A. (Drew University), Distinguished Professor, 1982.

Stephenson, Steven Lee, Ph.D., M.S. (Virginia Polytechnic Institute and State University), B.S. (Lynchburg College), Research Professor, 2003.

Tipsmark, Christian K., Ph.D., M.S. (University of Southern Denmark), Associate Professor, 2010.

Walker, James M., Ph.D. (University of Colorado-Boulder), M.S. (Louisiana Polytechnic Institute), Professor, 1965.

Walker, Kate Iretón, M.S. (University of Arkansas), B.S. (Kansas State University), Instructor, 2014.

Westerman, Erica L., Ph.D. (Yale University), M.Sc. (University of New Hampshire), B.S. (Yale University), Assistant Professor, 2016.

Willson, John David, Ph.D. (University of Georgia), B.S. (Davidson College), Associate Professor, 2012.

### Chemistry and Biochemistry (CHBC)

Wesley Stites
Chair of the Department

Matt McIntosh
Vice Chair of the Department

119 Chemistry
479-575-4601
cheminfo@uark.edu

Department of Chemistry and Biochemistry Website (http://fulbright.uark.edu/departments/chemistry/)

The Department of Chemistry and Biochemistry offers two degree programs leading to either Bachelor of Science degree or a Bachelor of Arts degree.
The Bachelor of Science degree offers students one of three concentrations: a chemistry concentration, a biophysical concentration and a biochemistry concentration.

The Bachelor of Arts degree offers students the choice of two concentrations: a chemistry concentration and a biochemistry concentration.

Students with satisfactory performance on the chemistry proficiency exam and who completed CHEM 1123 on the Fayetteville campus with grade of "C" or better can request credit for CHEM 1103.

**Requirements for a B.S. degree with a Major in Chemistry**

In addition to the University Core requirements and the Fulbright College requirements for a B.S. degree with a Major, students must complete at least 124 hours and this must be considered when scheduling upper-level hours in the senior year.

This program meets the minimum requirements for certification by the American Chemical Society if CHEM 3813 (or CHEM 4813H/CHM 4843H or CHEM 5813/5843) is included. Sample schedules may be obtained from the department of chemistry and biochemistry. Prospective students should consult a departmental adviser.

**Writing Requirement:** Chemistry majors will satisfy the Fulbright College writing requirement by satisfactory completion of the formal research/analytical reports required in Physical Chemistry Laboratory, CHEM 3451L or CHEM 3512L.

**Chemistry B.S. Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area. Students must complete at least 124 hours and this must be considered when scheduling upper-level hours in the senior year.

This program meets the minimum requirements for certification by the American Chemical Society if CHEM 3813 (or CHEM 4813H/CHM 4843H or CHEM 5813/5843) is included.

Total Units in Sequence: 120

- Meets 40-hour advanced credit hour requirement. See College Academic Regulations on page 131 of this chapter
- Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations on page 131 of this chapter.

Requirements for a B.S. degree with a Major in Chemistry, Biophysical Concentration

In addition to the University Core requirements and the Fulbright College of Arts and Sciences Graduation Requirements (see College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

A Minimum of 43 Semester Hours in Chemistry including:

One of the following sequences: 8

- CHEM 1203 Chemistry for Majors I & CHEM 1201L Chemistry for Majors I Laboratory
- CHEM 1223 Chemistry for Majors II & CHEM 1221L Chemistry for Majors II Laboratory

or

- CHEM 1103 University Chemistry I (ACTS Equivalency = & CHEM 1101L University Chemistry I Laboratory (ACTS Equivalency = CHEM 1141 Lab)

and

- CHEM 1123 University Chemistry II (ACTS Equivalency = & CHEM 1121L University Chemistry II Laboratory (ACTS Equivalency = CHEM 1142 Lab)

Select one of the following sequences: 8 - 10

- CHEM 3603 Organic Chemistry I & CHEM 3601L Organic Chemistry I Laboratory
- CHEM 3613 Organic Chemistry II & CHEM 3611L Organic Chemistry II Laboratory

or

- CHEM 3703 Organic Chemistry Lecture for Chemistry Majors & CHEM 3702L Organic Chemistry I Lab for Chemistry Majors

and
### Chemistry B.S. with Biophysical Option

**Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations.

2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations.
research/analytical reports required in Physical Chemistry Laboratory, CHEM 3451L or CHEM 3512L.

**Chemistry B.S. with Biochemistry Option**

**Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

This program meets the minimum requirements for certification by the American Chemical Society if CHEM 3813 (or CHEM 4813H/CHEM 4843H) is included.

Select one of the following:

- CHEM 3453 Elements of Physical Chemistry & CHEM 3451L and Elements of Physical Chemistry Laboratory 1

- CHEM 3504 Physical Chemistry I & CHEM 3514 and Physical Chemistry II & CHEM 3512L and Physical Chemistry Laboratory 2

Two Additional Lecture Courses Numbered Above 3000. 6

Total Hours 30-36

1. PHYS 2033/PHYS 2031L and MATH 2554 or MATH 2043 are prerequisites for CHEM 3453
2. PHYS 2074 and MATH 2574 are prerequisites for the alternate physical chemistry course sequence CHEM 3504 and CHEM 3514/CHEM 3512L.

These physics and mathematics prerequisite requirements are substantial, and these courses and their prerequisites should be scheduled early in the student’s program. Sample schedules may be obtained from the department of chemistry and biochemistry. Prospective students should consult a departmental adviser.

**Writing Requirement:** Chemistry majors will satisfy the Fulbright College writing requirement by satisfactory completion of the formal research/analytical reports required in Physical Chemistry Laboratory, CHEM 3451L or CHEM 3512L.

**Chemistry B.A. Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

**First Year**

Requirements for a B.A. degree with a Major in Chemistry with Biochemistry Concentration
In addition to the University Core requirements and the Fulbright College of Arts and Sciences Graduation Requirements (see College Academic
Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

A minimum of 32 semester hours in chemistry including:

Total Hours 56-63

The mathematics and physics courses are prerequisites for some advanced courses and should be scheduled early in the student’s program.

Writing Requirement: Chemistry majors will satisfy the Fulbright College writing requirement by satisfactory completion of the formal research/analytical reports required in Physical Chemistry Laboratory, CHEM 3451L or CHEM 3512L.

Chemistry B.A. with Biochemistry Option

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. The following eight-semester plan refers to additional B.A. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

A student must notify the department of his or her intent to minor.

Requirements for Departmental Honors in Chemistry: Students with good academic backgrounds and strong interests in research are encouraged to participate in the department of chemistry and biochemistry honors program. Entrance into the program is normally during the sophomore year or the first semester of the junior year, and a minimum cumulative GPA of 3.5 is required. Entrance is initiated by consulting the faculty academic adviser, who will help arrange conferences with potential faculty research project advisers. When there is agreement between the student and the adviser on a research project or area, an Honors Advisory Committee is set up to supervise the honors candidate’s program. The heart of the program is the research project, but students...
are encouraged to broaden their experience beyond required courses within chemistry, the natural sciences, the social sciences, and the humanities. Participation in Honors Colloquia, honors sections of regular courses, and chemistry departmental and divisional seminars is especially recommended. All honors candidates enroll in the spring semester Honors Seminar (CHEM 4011H), and senior honors students must make at least one seminar presentation. All honors candidates will be required to complete and defend an honors thesis and take 12 hours (which may include 6 hours of thesis) in Honors Studies. The thesis is required in the spring semester of the senior year, followed by an oral presentation. On the basis of these written and oral reports and their evaluation of all aspects of the student’s honor program, the candidate’s Honors Advisory Committee will recommend whether or not the distinction “Chemistry or Biochemistry Scholar Cum Laude” should be awarded. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

Chemistry (B.A. or B.S.) Physical/Earth Science Teacher Licensure Requirements: Students wanting to pursue licensure through the MAT program should please refer to the Secondary Education Requirements for Fulbright College Students. Students wishing to pursue licensure through the UTeach undergraduate curriculum should consult with a UTeach adviser, uteach@uark.edu.

Students wanting to teach science in middle school should consult with a middle level adviser in the College of Education and Health Professions.

Faculty

Adams, Paul D., Ph.D. (Case Western Reserve University), B.S. (Louisiana State University), Associate Professor, 2006.
Allison, Neil T., Ph.D. (University of Florida), B.S. (Georgia College), Associate Professor, 1980.
Beyzavi, M. Hassan, Ph.D. (Freie Universität Berlin, Germany), Assistant Professor, 1977.
Chen, Jingyi, Ph.D. (University of Washington), M.A. (State University College at Buffalo), B.S. (Zhongshan University), Associate Professor, 2010.
Coridan, Robert, Ph.D., M.S. (University of Illinois-Urbana-Champaign), B.S. (The Ohio State University), Assistant Professor, 2015.
Fan, Chenguang, Ph.D. (Iowa State University), B.S. (Nanjing University), Assistant Professor, 2016.
Fritsch, Ingrid, Ph.D. (University of Illinois-Urbana-Champaign), B.S. (University of Utah), Professor, 1992.
Greathouse, Denise A., Ph.D. (University of Arkansas), Research Associate Professor, 1997.
Hayes, David, M.S. (Murray State University), B.S. (University of Arkansas), Instructor, 2007.
Hershberger, Margaret, Ph.D., M.S. (University of Chicago), B.S. (The Ohio State University), Instructor, 2015.
Heyes, Colin David, Ph.D. (Georgia Institute of Technology), B.S. (Loughborough University), Associate Professor, 2008.
Kilyanek, Stefan M., Ph.D., M.S. (University of Chicago), B.S. (Grand Valley State University), Assistant Professor, 2014.
Koepe, Roger E., Ph.D. (California Institute of Technology), A.B. (Haverford College), Distinguished Professor, 1979.
Lay, Jackson, Ph.D. (University of Nebraska-Lincoln), Professor, 2002.
Margaret, Hershberger, Ph.D., M.S. (University of Chicago), B.S. (The Ohio State University), Instructor, 2015.
Mazzanti, Chris, Ph.D., M.S. (University of Arkansas), B.S. (University of Arkansas at Monticello), Instructor, 2012.

McIntosh, Matt, Ph.D. (Pennsylvania State University), B.A. (Virginia Tech), Professor, 1996.
Millett, Francis, Ph.D. (Columbia University), B.S. (University of Wisconsin), Distinguished Professor, 1972.
Moradi, Mahmoud, Ph.D. (North Carolina State University), M.S., B.S. (Sharif University of Technology), Assistant Professor, 2015.
Norman, Mya A., Ph.D. (University of Colorado-Boulder), M.S., B.S. (University of Arkansas), Instructor, 2006.

Zheng, Nan, Ph.D. (University of Michigan-Ann Arbor), M.S. (University of Rochester), B.S. (University of Science and Technology of China), Associate Professor, 2008.

Classical Studies (CLST)

Daniel B. Levine
Chair of Studies
502 Kimpel Hall
479-575-2951

Classical Studies Website (http://fulbright.uark.edu/departments/world-languages/undergraduate/our-languages/classics.php)

The Classical Studies Program offers a major leading to a Bachelor of Arts degree. The program also offers a minor in classical studies.

Classical studies are the oldest discipline in the humanities and will teach you a lot about why our world is the way it is. Based on the Greek and Latin literature, the Classics remain essential to many fields in the liberal arts, including the study of ancient art, architecture, history, mythology, and philosophy. Based on Greek and Latin literature, the program draws faculty from five different departments. In addition to Greek and Latin, courses are offered on various aspects of classical civilization. Study abroad options in Greece and Italy are available.

Requirements for a Major in Classical Studies: In addition to the University Core (p. 97) requirements and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following departmental and major course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.
<table>
<thead>

<td></td>
</tr>
</tbody>
</table>

**Students should also complete appropriate courses from the following:**

- 15 hours of Ancient Greek or 15 hours of Latin. 
- 18 hours of additional work in classical languages and/or specific classical studies-related electives, to be selected from the following courses: 
  - ARCH 2233 History of Architecture I
  - ARHS 4833 Ancient Art (prerequisite ARHS 2913 Art History Survey I)
  - ARHS 4843 Medieval Art (prerequisite ARHS 2913 Art History Survey I)
  - CLST 2323 Greek and Roman Mythology
  - HIST 4003 Democratic Athens
  - HIST 4013 Alexander the Great and the Hellenistic World
  - HIST 4023 Roman Republic
  - HIST 4043 Late Antiquity and the Early Middle Ages
  - HIST 4053 Late Middle Ages
  - PHIL 4003 Ancient Greek Philosophy (prerequisite 3 hours of philosophy)
  - PHIL 4013 Platonism and Origin of Christian Theology (prerequisite 3 hours of philosophy)
  - PHIL 4023 Medieval Philosophy
  - 3 Hours of Classical Studies Colloquium
  - CLST 4003H Honors Classical Studies Colloquium

**Total Hours:** 54

---

1. Honors students who complete the HUMAN 1114H, HUMAN 1124H, HUMAN 2114H, HUMAN 2124H (H2P) sequence will have fulfilled the World Civilization HIST 1113 and HIST 1123 requirement for this major as well as the major's 6-hour Humanities requirement (equivalent of WLIT 1113 and WLIT 1123).

2. This fulfills 6 hours of social science university/state core; the remaining 3 hours in the social science core must be fulfilled by a non-HIST social science university/state core course.

3. No more than nine hours of electives from the medieval period may be applied to the major requirements.

---

**Classical Studies B.A. Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).
* Note: 1003 Elementary I world language courses may not count towards the 120 hours required for degree credit; see College Admission Requirements for further details.

Requirements for a Minor in Classical Studies:

Students should select appropriate courses from the following areas:

1. 9 hours of Ancient Greek or Latin courses numbered above 2000,
2. 6 hours of additional work in classical languages and/or specific classical studies-related electives, to be selected from the following courses:

<table>

Requirements for Honors in Classical Studies: The Honors Program in Classical Studies gives students of high ability the opportunity to strengthen their study of classics by intensifying their experience with ancient languages and cultures.

In addition to the requirements for graduation with a major in classical studies and the general college requirements for a B.A. degree, honors candidates in classical studies must

1. Be accepted as honors candidates by the Classical Studies Committee,
2. Complete at least three semesters in a second classical language,
3. Enroll in at least two 1-hour units of CLST 399VH and pursue independent-study topics under the guidance of classical studies faculty,
4. Enroll for two hours of CLST 399VH and write an honors thesis, and
5. Defend and discuss their entire honors program in an oral examination.

Successful completion of the requirements will be recognized by the award of the distinction "Classical Studies Scholar Cum Laude" at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.
Faculty

Coon, Lynda L., Ph.D., M.A. (University of Virginia), B.A. (James Madison University), Professor, Department of History, 1990.
Fredrick, David Charles, Ph.D. (University of Southern California), M.A., B.A. (University of Kansas), Associate Professor, Department of World Languages, Literatures and Cultures, 1991.
Levine, Daniel, Ph.D. (University of Cincinnati), B.A. (University of Minnesota), University Professor, Department of World Languages, Literatures and Cultures, 1980.
Maksymchuk, Oksana, Ph.D. (Northwestern University), B.A. (Bryn Mawr College), Assistant Professor, Department of Philosophy, 2013.
Muntz, Charles E., Ph.D. (Duke University), B.A. (Swarthmore College), Associate Professor, Department of History, 2008.

Communication (COMM)

Robert M. Brady
Chair of the Department
417 Kimpel Hall
479-575-3046
http://communication.uark.edu
comm@uark.edu

The Department of Communication offers a major leading to the Bachelor of Arts degree in communication as well as a minor in communication.

As a subject for academic study, communication bridges the humanities and the social sciences. It focuses on all forms and modes of communication and its consequences for individuals, groups, organizations, communities, and cultures. Our program of study applies communication theory and principles to a wide variety of settings, including interpersonal relationships, business and political systems, cultural interaction and communication technologies.

Communication students may concern themselves with the dynamics of persuasion, media technologies, gender roles, the family, organizational structures, cultural myths, and rhetoric. Because the program offers many diverse interests, there is a place for anyone with a genuine curiosity about human communication and its effect upon society.

The Department of Communication offers courses in five principal areas of study, though students can also choose to follow a broad range of courses across these areas:

- Film studies
- Interpersonal communication
- Mediated communication
- Organizations and communities
- Rhetoric and public communication

Communication majors from recent graduating classes now hold positions in government and public affairs, business, public relations, non-profit organizations, education, and media. Many others successfully pursue further education in graduate and professional schools.

Admission Requirements for a Major in Communication: For standing as a major, entering freshmen must have ACT composite scores of 20 or higher, and those transferring into the program after the first semester of college study must have a cumulative grade-point average of 2.00 or higher.

University and College Requirements for a Major in Communication: In addition to the university/state core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (see under College Academic Regulations and Degree Completion Policy (p. 198)), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/ state minimum core requirements.

University/State Core Requirements

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3-6 hours – Completion of a world language course at the 2003 Intermediate I level is preferred. (This is usually accomplished through completion of a sequence of two language courses: 1013 and 2003.) Alternatively, 6 hours of courses from a single culture or world region including African, Asian, European, Latin American and Latino, or Middle Eastern and Islamic may be used to fulfill this requirement.</td>
<td>3-6</td>
</tr>
<tr>
<td>Courses must be approved by a departmental adviser.</td>
<td></td>
</tr>
</tbody>
</table>

36 hours - Communication courses:

*Two required courses (completed with a grade of C or higher): 6

- COMM 1313  Public Speaking (ACTS Equivalency = SPCH 1003)
- COMM 2333  Introduction to Communication Research

*At least two of the following introductory courses (completed with a grade of C or higher): 6

- COMM 1003  Basic Course in the Arts: Film Lecture
- COMM 2323  Interpersonal Communication
- COMM 2343  Introduction to Small-Group Communication
- COMM 2353  Argumentation and Advocacy
- COMM 2813  Introduction to Mediated Communication

3 hours of communication elective (numbered 2000 or higher) 3
3000 or 4000-level COMM electives 1,2 21

40 hours - Electives

<table>

</tr>
</tbody>
</table>

Communication courses that may satisfy the college or University Core requirements will not count toward the communication electives. To graduate, students must have a cumulative grade-point average of 2.00 or above within the major.

1 Meets 40-hour advanced credit hour requirement. See College Academic Requirements (http://catalog.uark.edu/undergraduatetocatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/).
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (http://catalog.uark.edu/undergraduatetocatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/).

Writing Requirement: The college writing requirement may be satisfied by a research paper achieving a grade of “C” or better submitted for an
upper-division communication class and approved by the chair of the department.

**Communication B.A.**

**Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).
Requirements for a Minor in Communication: 21 hours including at least 12 hours must be numbered 3000 or above. A student should consult with an adviser in the department for appropriate courses.

Requirements for Honors in the Department of Communication: The Honors Program in communication gives an opportunity for a student to achieve an additional level of intellectual growth and a satisfaction of accomplishment. A student engages in independent research and writing, under the supervision of a member of the communication faculty, and participates in special honors classes, seminars, and colloquia.

Faculty recognize outstanding achievement by a student by recommending that the bachelor’s degree in communication be awarded with the distinction “Communication Scholar Cum Laude.” Higher distinctions may be awarded to truly outstanding students based upon the whole of their academic program and quality of honors research.

To enter the Honors Program, a student must possess a 3.5 minimum grade-point average on all academic work and receive the recommendation of a faculty member in communication to the Honors Council of Fulbright College. A student may pursue an independent research program of a historical, critical, descriptive, or experimental nature, within any of the areas of rhetorical or communication theory, history of public address, interpersonal, small-group, or organizational communication, persuasion, argumentation, political communication, freedom of speech, communication education, or in any closely related areas of inquiry. A student interested in mass communications, broadcasting, or film may choose to pursue either a research project or a creative study. In addition to satisfying the general college and departmental requirements for a bachelor’s degree, a student must satisfy departmental honors requirements, which include the following:

1. Become an honors candidate no later than the junior year of study. Students are encouraged to establish honors candidacy as early as possible.
2. Enroll in COMM 3991H no later than the junior year of study.
3. Enroll in COMM 499VH a minimum of one hour of credit each semester after the completion of COMM 3991H and until completion of the honors thesis.
4. Achieve a 3.5 minimum grade-point average in communication.
5. Complete 12 hours (which may include 6 hours of thesis) in Honors Studies, and
6. Write and successfully defend before a faculty examining committee a thesis based on the investigative or creative project undertaken in COMM 499VH.

For a full description of the Honors Program and its requirements, consult with the Undergraduate Director in the Department of Communication.

Communication (B.A.) Drama/Speech Teacher Licensure Requirements: Please refer to the Secondary Education Requirements (p. 201) for Fulbright College Students in the "Other Programs" section of the page.

**Criminology (CRIM)**

Anna Zajicek
Department Chair
211 Old Main
479-575-3205

Department of Sociology and Criminology Website (https://fulbright.uark.edu/departments/sociology/) The Department of Sociology and Criminology offers a major leading to a Bachelor of Arts degree in criminology. The Criminology BA provides marketable skills and knowledge that relate to crime prevention, law enforcement, and the court system. The program in criminology is comprehensive, adding the skills in research, theory, and data analytics that prepare students beyond an understanding of criminal procedures or evidence. This major will educate students in the complexities of criminal behavior and familiarize them with the justice system processes and the causes, correlations and consequences of criminal behavior. The department offers robust undergraduate internship opportunities (https://fulbright.uark.edu/departments/sociology/internships/) that help criminology students develop a better understanding of a prospective
career and determine whether their interests match a chosen career path, while simultaneously gaining experience with professionals in the field.

The department also offers a major in sociology (p. 380), double major in criminology and sociology, a minor in sociology (https://fulbright.uark.edu/departments/sociology/undergraduate/minor-in-sociology.php) and a fully online minor in criminal justice (https://online.uark.edu/programs/minor-criminal-justice.php).

For requirements for an M.A. degree in sociology, with criminology concentration, see the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programsofstudy/sociologyandcriminologysoci/).

University and College Requirements for a Bachelor of Arts in Criminology: In addition to the Fulbright College of Arts and Sciences Graduation Requirements (see under Degree Completion Program Policy (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/), the following course requirements must be met. Bolded courses from the course list below may be applied to portions of the University/state minimum core requirements (p. 97).

| University/State Minimum Core | 35 |
| Select one of the following: | 3-4 |
| MATH 2033 Mathematical Thought | |
| MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) | |
| MATH 2053 Finite Mathematics | |
| MATH 2183 Mathematical Reasoning in a Quantitative World | |
| MATH 2554 Calculus I (ACTS Equivalency = MATH 2405) | |
| ENGL 2003 Advanced Composition (see course description for exemption requirements) | 3 |
| Three hours of a world language at the Elementary II level (1013) or higher | 3 |
| 37 credit hours in criminology (CRIM) and sociology (SOCI) courses: | 37 |
| CRIM 2003 Introduction to Criminology and Criminal Justice (ACTS Equivalency = CRJU 1023) | |
| SOCI 2013 General Sociology (ACTS Equivalency = SOCI 1013) | |
| CRIM 2043 Sociology of Criminal Law | |
| CRIM 3023 Criminological Theory or SOCI 302 Criminological Theory | |
| SOCI 3193 Race, Class, and Gender in America | |
| SOCI 3301L Social Data and Analysis Laboratory | |
| SOCI 3303 Social Data and Analysis | |
| SOCI 3313 Social Research | |
| 15 hours of criminology (CRIM) courses not taken above, 6 hours of which must be sociology (SOCI) or cross-listed. | |
| University Residency Requirement Electives | 2 |
| 40-hour Rule Electives | 2 |
| General Electives | 33 |
| Total Hours | 120 |

For transfer students, a minimum of 18 hours of coursework in the major at the University of Arkansas is required.

Writing Requirement: To fulfill the Fulbright College writing requirement, each criminology major will submit, prior to graduation, a substantial research or analytical paper, with a grade of “A” or “B” from an upper-division criminology course (3000-, 4000-, or 5000-level) to their departmental adviser. Satisfactory completion of an honors project or a senior thesis may fulfill this requirement.

Criminology B.A. Eight-Semester Degree Program
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

**Total Units in Sequence:** 120

**Requirements for a Minor in Criminal Justice:** 18 semester hours in criminal justice and sociology to include CRIM 2003, CRIM 3023, SOCI 3313, and at least nine hours of 3000-level classes or above (no more than 3 hours may be SOCI). A student must notify the department of her or his intent to minor.

**Requirements for Departmental Honors in Criminology:** The Departmental Honors Program in Criminology is an upper-division course of study based on a topic in the area of criminology. To be eligible for criminology honors candidacy, students normally will have completed 28 semester hours and not more than 85 semester hours with a minimum cumulative grade-point average of 3.5. They must take 12 hours (which may include 6 hours of thesis) in Honors Studies. The honors project may be an intensive study of a topic in criminology or an empirical research investigation. The candidate is expected to pass an oral examination given by an Honors Council Committee. Projects of extraordinarily high quality may be designated High Honors by the Committee. Successful completion of the requirements will be recognized by the award of the distinction Criminology Scholar *cum laude* at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

- **Schwab, Bill**, Ph.D., M.A. (The Ohio State University), M.A. (University of Akron), B.A. (Miami University), University Professor, 1976.
- **Shields, Christopher A.**, Ph.D., J.D. (University of Arkansas), M.A., B.A. (Arkansas State University), Clinical Assistant Professor, 2003.
- **Smith, Brent Lamar**, Ph.D., M.S. (Purdue University), B.A. (Ouachita Baptist University), Distinguished Professor, 2003.
Thomas, Shaun A., Ph.D., M.A. (Louisiana State University), B.A. (University of Akron), Associate Professor, 2015.

Worden, Steven K., Ph.D. (University of Texas at Austin), M.A., B.A. (Portland State University), Associate Professor, 1986.

Yang, Song, Ph.D., M.S. (University of Minnesota-Twin Cities), M.A. (Nankai University, China), B.A. (Branch College of Nankai, China), Professor, 2002.

Zajicek, Anna, Ph.D. (Virginia Polytechnic Institute and State University), M.S., B.S. (University of Silesia, Poland), Professor, 1994.

Earth Science (ERSC)

Fulbright College offers a major in earth science leading to the Bachelor of Science degree. Prospective secondary teachers may plan a program, in cooperation with the College of Education, which will satisfy the teacher licensure requirements. Students interested in environmental problems, teaching earth science in public schools, or wishing to pursue graduate work in either geography or geology may obtain much of the necessary foundation through this degree. Because the program outlined below lists only minimum science requirements, it is expected that most students will use some of their elective credit hours to strengthen their mathematics and science backgrounds in areas other than geography and geology. These areas of additional study will be determined through consultation between the student and the adviser. Students interested in this major should contact either Professor Ralph Davis or Professor J.C. Dixon.

Requirements for the B.S. Degree with a Major in Earth Science: In addition to the University Core (p. 97) requirements and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

Basic Courses

<table>
<thead>
<tr>
<th>Course</th>

or GEOS 4363 Climatology

GEOS 2313 Mineralogy and Petrology 3
GEOS 3413 Sedimentary Rocks & Fossils 3
GEOS 4033 Hydrogeology 3
GEOS 4924 Earth System History (ACTS Equivalency = PHSC 1104) 4

At least 6 additional hours, at the 3000 level or above, in GEOS. 6

Total Hours 65-66

1 World language courses taken are dependent on placement level in sequence.

Writing Requirement: The college writing requirement is to be met by completion of a term paper deemed satisfactory by the student’s adviser and instructor of an upper-level geoscience course. The college writing requirement may also be met by the completion of an honors thesis.

Earth Science B.S.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Economics (ECON)

William P. Curington
Chair of the Department
402 Business Building
479-575-ECON (3266)

Department of Economics website (http://catalog.uark.edu/undergraduaticatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/economicsecon/%20http://waltoncollege.uark.edu/ECON/default.asp)

Students in Fulbright College may pursue one of two degree plans leading to a Bachelor of Arts degree in economics. The first is a traditional major in business economics and the second includes a concentration international business and economics.

The concentration in business economics is intended for those students who are interested primarily in business, but at the same time have a desire to understand the more advanced tools of economic analysis. Such a background is excellent preparation for careers in corporate research and planning, as well as careers with government and regulatory agencies, for graduate study in business and economics, and for law school.

The international economics and business concentration is intended for students who wish to learn more about the international aspects of economics and business. It provides preparation for a broad range of careers in business, including management, marketing, and finance.

Requirements for a Major in Economics

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

30 hours of ECON courses including:

- ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103)
- ECON 2023 Principles of Microeconomics (ACTS Equivalency = ECON 2203)
## ECON 3033  Microeconomic Theory
ECON 3133  Macroeconomic Theory

Choose two of the following three courses:
ECON 4743  Introduction to Econometrics
or ECON 4753  History of Economic Thought
or ECON 4033  Forecasting

12 hours of ECON Electives

| COMM 1313 | Public Speaking (ACTS Equivalency = SPCH 1003) | 3 |
| Select one of the following: | 4-6 |
| MATH 2043 | Survey of Calculus (ACTS Equivalency = MATH 2203) and Finite Mathematics | 3 |
| MATH 2554 | Calculus I (ACTS Equivalency = MATH 2405) | 3 |
| WCOB 1033 | Data Analysis and Interpretation (ACTS Equivalency = MATH 2103) | 3 |

Note: It is strongly recommended that economics majors who plan to continue their studies at the graduate level take at least two semesters of calculus (MATH 2554 and MATH 2564) and linear algebra (MATH 3083).

### Writing Requirement:
Students may satisfy their senior writing requirement with a paper in any 3000 or 4000-level ECON class. A student must inform their professor in writing by the end of the second week of class that they would like to use a particular course to fulfill this requirement. Work cannot involve a group project, and students must have senior standing. Completion of an honors thesis will also satisfy this requirement.

### Economics B.A.
#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight Semester Degree Policy (p. 87) for requirements. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

## Requirements for a Major in Economics with Concentration in International Economics and Business

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 98), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Thirty Semester Hours of Courses, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Type</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 2013</td>
<td>Principles of Macroeconomics (ACTS Equivalency = ECON 2103)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 2023</td>
<td>Principles of Microeconomics (ACTS Equivalency = ECON 2203)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 3033</td>
<td>Microeconomic Theory</td>
<td>3</td>
</tr>
<tr>
<td>ECON 3133</td>
<td>Macroeconomic Theory</td>
<td>3</td>

<td>3</td>
</tr>
<tr>
<td>ECON 3933</td>
<td>The Japanese Economic System</td>
<td>3</td>
</tr>
<tr>
<td>ECON 410V</td>
<td>Special Topics in Economics</td>
<td>1-6</td>
</tr>
<tr>
<td>ECON 468V</td>
<td>International Economics and Business Seminar</td>
<td>1-6</td>
</tr>
</tbody>
</table>

Course pre-requisites for non-economics international business courses will count toward this 12-hour requirement and include FINN 3703, MGMT 4583, MKTG 4633 and SCMT 3643. Thus, if a student wants to take MKTG 4633 as an international economics and business elective, the student must also take the prerequisite MKTG 3433. These two courses would then satisfy 6 hours of the elective requirement.

Nine hours of upper-division course work in Fulbright College that focuses on a country or region of the world related to the foreign language, which might include upper-division courses in the same language, which should emphasize literature or cultural topics. Courses must be approved by the departmental adviser. Students who meet the requirements of the Fulbright College area studies programs in Asian Studies, Middle East Studies, Latin American and Latino Studies, or European Studies will be considered to have fulfilled this requirement.

Select one of the following sequences:

<table>
<thead>
<tr>
<th>Course</th>

Six hours of a World Language at the intermediate level, or above. 2 6

Three hours of upper-division world language in the same language covering business communications, or equivalent. Any student whose minimum 6-hour requirement under (#6) above includes an upper-division course may choose to include business communications among the 6 hours of required University course work in the world language.

Total Hours 65-75

1 Course pre-requisites for non-economics international business courses will count toward this 12-hour requirement. Thus, if a student wants to take MKTG 4633 Global Marketing as an international economics and business elective, he/she also must take the prerequisite MKTG 3433 Introduction to Marketing Strategy. These two courses will satisfy 6 hours of the elective requirement.

2 This is usually accomplished through completion of a sequence of world language courses: 1013 Elementary II, 2003 Intermediate I and 2013 Intermediate II.

Note: It is strongly recommended that economics majors who plan to continue their studies at the graduate level take at least two semesters of calculus (MATH 2554 and MATH 2564) and linear algebra (MATH 3083).

Total Units in Sequence: 120

Requirements for a Minor in Economics: 18 hours in economics. Required courses are ECON 3033 Microeconomic Theory, and ECON 3133 Macroeconomic Theory, plus 12 additional hours in economics, six of which must be in courses numbered 3000 or above.

Note: ECON 2013 and/or ECON 2023, or ECON 2143, are prerequisites to all economics courses numbered above 3000.

Requirements for Departmental Honors in Economics: The Departmental Honors program provides upper-division students the opportunity to engage in independent study or research under the guidance of an individual member of the faculty. In addition to satisfying the general college requirements for the bachelor’s degree with honors, honors candidates in economics are required to complete and orally defend an honors thesis based upon independent study under ECON 399V (for 3 to 6 hours) and to have a minimum grade-point average of 3.5. Outstanding student achievement will be recognized by awarding the bachelor’s degree with the distinction “Economics Scholar Cum Laude.” Higher distinctions may be awarded to truly outstanding students based upon the whole of their academic program and quality of honors research.

Some courses in the Walton College of Business are given credit toward an economics major for the B.A. degree. See departmental adviser for designation.

Economics (B.A.) Social Studies Teacher Licensure Requirements:

Please refer to the Secondary Education Requirements for Fulbright College Students (p. 201). Students wanting to teach social studies in middle school should consult with a middle level adviser in the College of Education and Health Professions.

Faculty

Balthrop, Andrew, Ph.D. (Georgia State University), Visiting Assistant Professor, 2017.
Bhattacharya, Puja, Ph.D., M.A. (Ohio State University), M.S. (Indian Statistical Institute), B.S. (Presidency College), Assistant Professor, 2019.
Brownback, Andrew P., Ph.D. (University of California, San Diego), B.A. (Kansas State University), Assistant Professor, 2015.
Civelli, Andrea, Ph.D., M.A. (Princeton University), B.A. (Bocconi University, Milan), Associate Professor, 2010.
Embey, Abel, Ph.D. (Georgia State University), M.A. (Tilburg University), B.A. (University of Asmara), Clinical Assistant Professor, 2010.
**English (ENGL)**

Dorothy Stephens  
Chair of the Department  
338 Kimpel Hall  
479-575-4301  
Email: engl@uark.edu (English@cavern.uark.edu)

The Department of English offers a major in English, a minor in English, and a combined major in English and Journalism.

Contrary to popular opinion, English majors do quite well on the general job market. Businesses know that in addition to being good communicators, English majors are trained to approach problems creatively and from multiple angles. Through careful course selection, the student may prepare for postgraduate work in literature and language; meet the English requirements for secondary teaching licensure; develop writing skills; or receive preparation for careers outside academia (including law and business). Within the major, a student may explore many areas of special interest, such as composition pedagogy, creative writing, gender studies, literature of the American south, film as text, folklore, postcolonial literature, and literature in English by Native American, African American, Arab American, and Latino/Latina American authors, as well as the more traditional historical fields of English and American literature. All of these areas help students develop the broad, deep, flexible understanding of human expression that will help them for the rest of their lives — both culturally and in practical terms.

**Requirements for B.A. in English**

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met.

**English majors are required to complete the following:**

The 35-hour University Core  
Math or Statistics: Choose one course from the following:  
- MATH 1213 Plane Trigonometry (ACTS Equivalency = MATH 1203)  
- MATH 1284C Precalculus Mathematics (ACTS Equivalency = MATH 1305)  
- MATH 1313 Quantitative Reasoning (ACTS Equivalency = MATH 1113)  
- MATH 2033 Mathematical Thought  
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)  
- MATH 2053 Finite Mathematics  
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)  

Choose one of the following:  
- PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103)  
- PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003)  

Diversity Requirement: Choose one upper-level English course from the following:  
- ENGL 3543 Topics in U.S. Latino/Latina Literature and Culture  
- ENGL 3553 Topics in Native American Literature and Culture  
- ENGL 3573 Special Topics in Diversity  
- ENGL 3583 Topics in Arab American Literature and Culture  
- ENGL 3593 Topics in Gender, Sexuality, and Literature  
- ENGL 3853 Topics in African-American Literature and Culture  
- ENGL 4523 Studies in U.S. Latino/Latina Literature and Culture  
- ENGL 4553 Studies in Native American Literature and Culture  
- ENGL 4573 Studies in Major Literary Movements  
- ENGL 4583 Studies in Arab American Literature and Culture  
- ENGL 4593 Studies in Gender, Sexuality, and Literature  
- ENGL 4853 Studies in African American Literature and Culture

Any world language at the 2013 Intermediate II level.  

**36 Semester Hours of ENGL to include:**

- ENGL 2303 English Literature from the Beginning through the 17th Century (ACTS = ENGL 2673)
ENGL 2313  Survey of English Literature from 1700 to 1900 (ACTS Equivalency = ENGL 2683)  3
or ENGL 2323  Survey of Modern and Contemporary British, Irish, and Postcolonial Literature

ENGL 2343  Survey of American Lit from the Colonial Period through Naturalism (ACTS Equivalency = ENGL 2653)  3
or ENGL 2353  Survey of Modern and Contemporary American Literature (ACTS Equivalency = ENGL 2663)

Select one additional survey course from one of the following:  3

ENGL 2313  Survey of English Literature from 1700 to 1900 (ACTS Equivalency = ENGL 2683)
ENGL 2323  Survey of Modern and Contemporary British, Irish, and Postcolonial Literature
ENGL 2343  Survey of American Lit from the Colonial Period through Naturalism (ACTS Equivalency = ENGL 2653)
ENGL 2353  Survey of Modern and Contemporary American Literature (ACTS Equivalency = ENGL 2663)

ENGL 4303  Introduction to Shakespeare  3

Select one of the following:  3

ENGL 3713  Topics in Medieval Literature and Culture
ENGL 3723  Topics in Renaissance Literature and Culture
ENGL 3743  Topics in Nineteenth-Century British Literature and Culture
or ENGL 3753  Topics in Modern and Contemporary British Literature and Culture

Select one of the following:  3

ENGL 3833  Topics in American Literature and Culture to 1900
ENGL 3843  Topics in Modern and Contemporary American Literature and Culture
ENGL 3853  Topics in African-American Literature and Culture
ENGL 3863  Topics in Literature and Culture of the American South

The remaining twelve hours can be taken in any English course numbered above 3000, with the stipulation that at least six of these hours must be numbered above 4000.

1 This is usually accomplished through completion of a sequence of three world language courses: 1013, 2003 and 2013.
2 Not counting ENGL 0002, ENGL 1013, ENGL 1023, and ENGL 2003.

All English majors are strongly encouraged to complete a minor or a second major in one of the following: African and African American Studies, Anthropology, Art History, Classical Studies, Communication, Drama, European Studies, Gender Studies, History, Indigenous Studies, Journalism, Latin American Studies, Legal Studies, Medieval and Renaissance Studies, Middle East Studies, Music, Philosophy, Political Science, Psychology, Religious Studies, or in a world language (Arabic, French, German, Japanese, Russian, Spanish or any other language that offers a minor).

English majors are strongly encouraged to fill their elective hours with courses from the departments or programs of study listed above.

Note About Transfer Credit: In order to receive a B.A. in English from the University of Arkansas, a student must take at least 24 hours of credit at the 3000 or 4000-level in this department.

Writing Requirement: All upper-division English courses require a research or an analytical paper except ENGL 4003 and the courses in creative writing (ENGL 3013, ENGL 4013, ENGL 4023, ENGL 4073). For this reason all students who fulfill the requirements for a major in English thereby fulfill the Fulbright College writing requirement. In addition, 4000-level courses (except for those noted above) require more intensive research by, and more active participation from, students than 3000-level courses do and require each student to complete a paper that can be included as a writing sample with applications to graduate programs or professional schools.

Assessment Requirement: Every senior English major must take the program assessment exam administered by the department each spring semester to graduate. Exam results will not affect GPA, although the student’s score will be noted on his or her permanent academic record. This requirement may be waived in extraordinary circumstances by the department’s Director of Undergraduate Studies. Contact your adviser for more information.

English B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Requirements for B.A. in English with a Concentration in Creative Writing

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded course(s) from the list below may be applied to portions of the University/state minimum core requirements.

English majors are required to complete the following:

The 35-hour University Core  35
PHIL 2003  Introduction to Philosophy (ACTS Equivalency = PHIL 1103)  3
Any world language at the 2013 Intermediate II level  3-9
WLIT 1113  World Literature I (ACTS Equivalency = ENGL 2113)  3
WLIT 1123  World Literature II (ACTS Equivalency = ENGL 2123) (or any 3000+ WLIT course or any 3000+ literature course taught in the Department of World Languages )  3

36 Semester Hours  2
ENGL 3203  Poetry  3
ENGL 3213  Fiction  3
ENGL 2023  Creative Writing I (ACTS Equivalency = ENGL 2013)  3
ENGL 3013  Creative Writing II  3
ENGL 4013  Undergraduate Poetry Workshop  3
or ENGL 4023  Undergraduate Fiction Workshop  3
ENGL 2303  English Literature from the Beginning through the 17th Century (ACTS = ENGL 2673)  3

Select three of the following:  9
ENGL 2313  Survey of English Literature from 1700 to 1900 (ACTS Equivalency = ENGL 2683)  3
ENGL 2323  Survey of Modern and Contemporary British, Irish, and Postcolonial Literature  3
ENGL 2343  Survey of American Lit from the Colonial Period through Naturalism (ACTS Equiv=ENGL 2653)  3
ENGL 2353  Survey of Modern and Contemporary American Literature (ACTS Equivalency = ENGL 2663)  3
ENGL 4303  Introduction to Shakespeare  3

Six additional hours chosen from ENGL courses numbered above 3000 and WLIT courses numbered above 2333.  6

Note About Transfer Credit:  In order to receive a B.A. in English from the University of Arkansas, a student must take at least 24 hours of credit at the 3000 or 4000-level in this department.

1  This is usually accomplished through completion of a sequence of three world language courses: 1013, 2003 and 2013.
2  Not counting ENGL 0002, ENGL 1013, ENGL 1023, and ENGL 2003

Writing Requirement: All upper-division English courses require a research or an analytical paper except ENGL 4003 and the courses in creative writing (ENGL 3013, ENGL 4013, ENGL 4023, ENGL 4073). For this reason all students who fulfill the requirements for a major in English thereby fulfill the Fulbright College writing requirement. In addition, 4000-level courses (except for those noted above) require more intensive research by, and more active participation from, students than 3000-level courses do and require each student to complete a paper that can be included as a writing sample with applications to graduate programs or professional schools.

Assessment Requirement: Every senior English major must take the program assessment exam administered by the department each spring semester to graduate. Exam results will not affect GPA, although the student’s score will be noted on his or her permanent academic record. This requirement may be waived in extraordinary circumstances by the department’s Director of Undergraduate Studies. Contact your adviser for more information.

English B.A. with a Concentration in Creative Writing

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Year Total: 13 15

Total Units in Sequence: 120

---

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).

2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

### Requirements for a Combined Major in English and Journalism

All university students must fulfill the minimum University Core requirements (p. 97). A minimum of 72 hours in non-journalism courses must be applied toward the 120 hours required by the college for a Bachelor of Arts degree. Bolded courses from the list below may be counted toward some part of the University Core/state minimum core requirements, as applicable.

Select one of the following:

- **Group A**
  - ENGL 2303 English Literature from the Beginning through the 17th Century (ACTS = ENGL 2673) (Required) | 3
  - ENGL 2313 Survey of English Literature from 1700 to 1900 (ACTS Equivalency = ENGL 2863) | 3
  - or ENGL 2323 Survey of Modern and Contemporary British, Irish, and Postcolonial Literature | 3

Select from one of the following remaining survey courses:

- ENGL 2343 Survey of American Lit from the Colonial Period through Naturalism (ACTS Equiv=ENGL 2653) | 3
- or ENGL 2353 Survey of Modern and Contemporary American Literature (ACTS Equivalency = ENGL 2663) | 3

Total Hours 12

### Group B

Select one of the following:

- **Group B**
  - ENGL 3203 Poetry | 3
  - ENGL 3213 Fiction | 3
  - ENGL 4303 Introduction to Shakespeare | 3

Total Hours 9

### Group C

Select one of the following:

- **Group C**
  - Six additional hours chosen from English or World Literature courses numbered above 3000 | 6

Total Hours 6

---

Intermediate I (course number 2003) of a World Language. 1 3-6
The Journalism requirements for this combined major are as follows:

The journalism requirement may be satisfied by 24 semester hours of courses, including JOUR 1023, JOUR 1033, and JOUR 3633. The remaining 15 hours are filled from the following concentrations.

**News/Editorial Concentration:**

<table>
<thead>
<tr>
<th>Course</th>

<td></td>
</tr>
<tr>
<td>and 15 additional hours chosen from English courses numbered above 3000 and WLIT courses above 2333.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In addition, students are strongly recommended to complete up through the 2013 Intermediate II level of a world language.

**Writing Requirement:** All upper division English courses require a research or an analytical paper except ENGL 4003 and the courses in creative writing: (ENGL 3013, ENGL 4013, ENGL 4023, and ENGL 4073). For this reason, all students who fulfill the requirements for the combined major in Journalism and English thereby fulfill the Fulbright College writing requirement.

**Assessment Requirement:** Every senior English major must take the program assessment exam administered by the department each spring semester to graduate. Exam results will not affect GPA, although the student’s score will be noted on his or her permanent academic record. This requirement may be waived in extraordinary circumstances by the department’s Director of Undergraduate Studies. Contact your adviser for more information.

Requirements for a Minor in English: 18 hours of English (not counting ENGL 0002, ENGL 1013, ENGL 1023, and ENGL 2003) to include any nine hours of survey courses (chosen from ENGL 2303, ENGL 2313, ENGL 2323, ENGL 2343, and ENGL 2353) and nine additional hours chosen from English courses numbered above 3000 and WLIT courses above 2333.

Minor in Rhetoric and Writing Studies
The minor in Rhetoric and Writing Studies provides non-English majors with advanced instruction in rhetorical studies and document design. Students will learn to examine the roles of language, writing, and communication in different social and professional settings. In addition to receiving practical instruction in effective writing, students will also develop analytical tools for understanding language as social action.

Requirements for a minor in Rhetoric and Writing Studies
Students must complete 15 hours from among the following courses:

- ENGL 2003 Advanced Composition
- ENGL 2013 Essay Writing
- ENGL 2173 Literacy in America
- ENGL 3053 Technical and Report Writing (ACTS Equivalency = ENGL 2023)
- ENGL 3603 Topics in Rhetoric and Composition
- ENGL 4003 English Language and Composition for Teachers
- ENGL 4903 Studies in Rhetoric and Composition

Total Hours: 15

Requirements for Graduation with Honors in English: Both the College and the Departmental Honors Program in English allow upper-division undergraduates to strengthen their study of English and adapt it to their interests. Honors candidates enroll in special courses and do directed independent study and research. In addition to the college and departmental requirements for the major in English and the general college requirements for the B.A. degree, each honors candidate in English must

1. Be accepted as an honors candidate by the department (requiring a minimum, cumulative grade-point average of 3.5 in all course work),
2. Complete at least nine hours of non-thesis honors course work, at least three hours of which must be in English,
3. Enroll in at least three hours of Senior Thesis ENGL 498V and write an honors thesis (either a critical study or a creative writing project) under the direction of a faculty member in the Department of English, and
4. Defend the candidate’s entire honors program in an oral examination.

Candidates may petition to enroll in a departmental graduate seminar. To complete the required thesis successfully, candidates should choose an honors thesis adviser as early as possible. An adviser should be selected, and an Honors Agreement completed, no later than the first semester in a candidate’s junior year. Candidates who complete the honors program with merit will graduate with the distinction “English Scholar Cum Laude.” The distinctions of Magna Cum Laude and Summa Cum Laude will be awarded only for exceptional work and will be based on the candidate’s entire honors program.

English (B.A.) Teacher Licensure Requirements:

Please refer to the Secondary Education Requirements (p. 201) for Fulbright College Students.

Students wanting to teach English in middle school should consult with a middle-level adviser in the College of Education and Health Professions.

Faculty

Bailey, Constance, Ph.D., M.A. (University of Missouri-Columbia), B.A. (Alcorn State University), Assistant Professor, 1995.

Booker, M. Keith, Ph.D. (University of Florida), M.S., M.A. (University of Tennessee), B.A. (Vanderbilt University), Professor, 1990.

Burris, Sidney J., Ph.D., M.A. (University of Virginia), B.A. (Duke University), Professor, 1986.

Candido, Joseph D., Ph.D. (Indiana University at Bloomington), M.A. (University of New Hampshire), B.A. (Colby College), Professor, 1979.

Cochran, Robert Brady, Ph.D. (University of Toronto), M.A., B.S. (Northwestern University), Professor, 1976.

Davis, Geoffrey, Ph.D., M.F.A., M.A. (Penn State University), B.A. (Oregon State University), Assistant Professor, 2014.

Dempsey, Sean A., Ph.D., M.A. (Boston University), B.A. (Connecticut College), Assistant Professor, 2009.

Dominguez Barajas, Elias, Ph.D., M.A., B.A. (University of Illinois at Chicago), Associate Professor, 2011.

Gilchrist, Ellen Louise, B.A. (Millsaps College), Clinical Professor, 2002.

Hallett, LewElyn, M.F.A. (Bowling Green State University), B.A. (University of New Mexico), Instructor, 2013.

Heffernan, Michael Joseph, Ph.D., M.A. (University of Massachusetts), A.B. (University of Detroit), Professor, 1986.

Hinrichsen, Lisa, Ph.D., M.A. (Boston University), B.A. (Wellesley College), Associate Professor, 2008.

Hsu, V. Jo, Ph.D., M.F.A. (Pennsylvania State University), B.A. (Rice University), Assistant Professor, 2017.

Jensen, Toni, Ph.D. (Texas Tech University), M.A., B.A. (University of South Dakota), Assistant Professor, 2014.

Kahf, Mohja, Ph.D., B.A. (Rutgers State University-New Brunswick), Associate Professor, 1995.

Kayser, Casey Lee, Ph.D. (Louisiana State University), M.A. (University of Missouri-Columbia), B.A. (Westminster College), Assistant Professor, 2012.

Long, Mary Beth, Ph.D., M.A. (University of Massachusetts, Amherst), B.A. (Ouachita Baptist University), Assistant Professor, 2014.

Madison, Robert Durwood, Ph.D. (Northern Kentucky University), M.A. (Clark University), B.A. (University of Rhode Island), Instructor, 2009.

Marren, Susan M., Ph.D., M.A. (University of Michigan-Ann Arbor), B.A. (Cornell University), Associate Professor, 1995.
Padilla, Yajaira, Ph.D. (University of California, San Diego), B.A. (University of California, Santa Cruz), Associate Professor, 2013.
Pope, Adam, Ph.D. (Purdue University), M.A. (University of Arkansas), B.A. (Freed-Hardeman University), Assistant Professor, 2013.
Quinn, William A., Ph.D., M.A. (The Ohio State University), B.A. (Xavier University), Distinguished Professor, 1979.
Roberts, Robin, Ph.D., M.A. (University of Pennsylvania), B.A. (Mount Holyoke College), Professor, 2011.
Slattery, Patrick Joseph, Ph.D. (Indiana University at Bloomington), A.B. (College of the Holy Cross), Associate Professor, 1991.
Smith, Joshua Byron, Ph.D., M.A. (Northwestern University), B.A. (University of Illinois at Chicago), Assistant Professor, 2011.
Sparks, Leigh Pryor, Ph.D. (University of Arkansas), M.A., B.A. (Stanford University), Instructor, 2009.
Szwydky-Davis, Lissette López, Ph.D., M.A. (Penn State University), B.A. (University of Miami), Assistant Professor, 2013.
Teuton, Sean Kicummah, Ph.D., M.A. (Cornell University), B.A. (University of Colorado-Boulder), Professor, 2013.
Vilató, Claudia, M.A. (Penn State University), B.A. (University of Miami), Instructor, 2015.
Viswanathan, Padma, M.F.A. (University of Arizona), M.A. (Johns Hopkins University), B.A. (University of Alberta), Associate Professor, 2010.
Yandell, Kay, Ph.D., M.A. (Cornell University), B.A. (University of Arkansas), Associate Professor, 2013.

Gender Studies (GNST)

Lisa Corrigan
Director of Studies
417 Kimpel Hall
479-575-3046

The gender studies minor introduces students to the ways that various academic disciplines have examined women's and men's differing participation in work, the family, political systems, and creative endeavors. Courses explore sex and gender differences and such concepts as masculinity and femininity, essence and performance; distributions of power, work, and resources; and the symbolic representation of gender and identity in literature, religion, and art. The minor is often chosen by students interested in investigating materials previously neglected by scholars and in fresh perspectives on traditional subject matter.

Requirements for a Minor in Gender Studies: The student must complete 15 credit hours of regular courses.

Geography (GEOG)

The Geography Program offers an undergraduate major leading to a Bachelor of Arts in geography. Students may choose either the normal geography degree program or the concentration in cartography and remote-sensing GIS. The program also offers two minors: geography and historic preservation.

Undergraduates who wish to major in geography should identify themselves to the department as soon as possible in order that they may develop a meaningful sequence of courses and take part in departmental activities.

Those interested in the graduate program should consult the Graduate School Catalog (http://catalog.uark.edu/graduateschool/programsofstudy/geosciencesdepartmentofgeos/).

Requirements for a Major in Geography: In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

Six hours in a single world language at the 1013 Elementary II level or higher.  

GEOS 3023 Introduction to Cartography 3  
GEOS 3543 Geospatial Applications and Information Science 3  

In addition, students must complete a minimum of 15 hours of GEOS at the 3000-level or above, classes must include one technical, two regional and two topical courses.

Total Hours 41

1  World language courses taken are dependent on placement level in sequence.  

Students who expect to enter graduate school are encouraged to register for GEOS 410V their senior year. Electives in closely related fields are considered a part of the program and, upon prior approval of the department, six hours may be counted toward the major. Those planning to teach in secondary schools should note that they can both earn their degree in geography and qualify for a teaching certificate; they should consult with the department as early as possible.

Writing Requirement: The college writing requirement is to be met by completion of a term paper deemed satisfactory by the student’s adviser and instructor of an upper-level geoscience course. The college writing requirement may also be met by the completion of an honors thesis.

Geography B.A.  
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1  Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2  Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).
Cartography/Remote Sensing GIS Concentration

Requirements for a Major in Geography with Cartography/Remote Sensing Concentration: This program gives students an opportunity to develop expertise in (1) cartography, map design and computer-assisted map production, (2) remote sensing and image interpretation, including photographic systems, sensor systems, and digital image processing, and (3) geographic information systems, including data sources, analytical techniques, and hardware/software systems.

To complete the concentration, a student is required to fulfill certain course requirements.

Required Courses

- **GEOS 3023** Introduction to Cartography 3
- **GEOS 3213** Principles of Remote Sensing 3
- **GEOS/ANTH 3543** Geospatial Applications and Information Science 3

Elective Courses

Select three of the following: 9

- **GEOS 4523** Cartographic Design and Production
- **GEOS 5423** Remote Sensing of Natural Resources
- **GEOS/ANTH 4553** Introduction to Raster GIS
- **GEOS/ANTH 4583** Enterprise and Multiuser GIS
- **GEOS/ANTH 4593** Introduction to Global Positioning Systems and Global Navigation Satellite Systems
- **STAT 4003** Statistical Methods (or other approved statistics course)
- **CVEG 2053** Surveying Systems (or other approved surveying course)

Total Hours 18

Writing Requirement: The college writing requirement is to be met by completion of a term paper deemed satisfactory by the student’s advisor and instructor of an upper-level geoscience course. The college writing requirement may also be met by the completion of an honors thesis.

Requirements for a Minor in Geography: 15 hours in geography to include GEOS 1123. At least 6 hours must be numbered 3000 or above and must include one regional and one topical course.

Requirements for a Minor in Historic Preservation: 18 hours from:

- **ARCH 1003** Basic Course in the Arts: Architecture Lecture (or equivalent class in architecture) 3
- **or ARCH 1212 & ARCH 1222** Design Thinking I: Foundations in Technology and Design Thinking II: Foundations in History
- **GEOS 4073** Urban Geography 3
- **or LARC 3413** History of Landscape Architecture I 3
- **ANTH 4443** Cultural Resource Management I (or equivalent class in cultural resources) 3
- **GEOS 1133** Earth Science (ACTS Equivalency = GEOL 1124 Lecture) 3
- **GEOS 3023** Introduction to Cartography (or equivalent class in spatial representation and visualization) 3

GEOS 3033 Building Materials Field Studies is the required field capstone course that will require two weekends (Saturday and Sunday) for completion. The course has been specifically designed for this program and will discuss the nature of building materials (wood, brick, mortar and stone), their identification and properties, weathering and erosion theory, assessment and mitigation (i.e. cleaning, consolidants, innovative trends). It is suggested that this class be taken last in the program series.

One semester participation in the University of Arkansas’ Rome Program will substitute for six (6) credits from class requirements in Architectural History and Urban Studies listed above. A supplemental program internship is suggested in addition to the classes required if the student’s career path is in Historic Preservation.

Requirements for Departmental Honors in Geography: Admission to the Departmental Honors Program in Geography is open to geography majors with a minimum grade-point average of 3.5 in all their work. All honors candidates must take 12 hours, which may include 6 hours of thesis, in Honors Studies. During the fall semester of either the junior or senior year the candidate will enroll in GEOS 399VH (no more than three hours of credit), an undergraduate seminar in geographical philosophy and methodology. During the senior year the honors candidate will complete the program by writing a senior honors paper under GEOS 399VH (no more than three hours of credit). Successful completion of the requirements will be recognized by the award of the distinction “Geography Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

Geology (GEOL)

The Department of Geosciences offers the Bachelor of Science degree in geology and the Bachelor of Science degree in earth science (http://catalog.uark.edu/undergraduatemajor/collegesandschools/williamfulbrightcollegeofartsandsciences/earthsciences/). It is emphasized that students wishing to become practicing professional geologists should hold the Bachelor of Science degree in geology at a minimum. It is further recognized that practicing professional geologists typically hold a Master of Science degree. The education of students pursuing the Bachelor of Science in earth science degree should reflect general education in the liberal arts with emphasis in geology.

The goal of the program leading to the Bachelor of Science degree in geology is to provide students with a broad spectrum of the various subdisciplines of geology, while at the same time honoring an emphasis in the traditional areas of mineralogy, igneous, metamorphic and sedimentary petrology, structural geology and stratigraphic principles. This curriculum will prepare students to enter graduate programs without deficiencies at the University of Arkansas or other established programs.

Along with the normal degree program, the department offers a B.S. in geology with a concentration in geophysics.

For requirements for the M.S. degree in geology, see the Graduate School Catalog.

B.S. in Geology

Requirements for a Major in Geology leading to the B.S. Degree:

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the
following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

GEOS 4873 Geological Data Analysis 3

GEOS 4924 Earth System History (ACTS Equivalency = PHSC 1104) 4

And an additional 9 hours of geology courses selected from GEOS courses numbered 3000 or higher. 9

Total Hours 80-82

1 World language courses taken are dependent on placement level in sequence.

Writing Requirement: A scholarly writing assignment will be included in all geoscience courses numbered 2000 and above. Those papers submitted in geoscience courses 3000 and above will fulfill the Fulbright College writing requirement. The college writing requirement may also be met by the completion of an honors thesis.

Geology B.S. Nine-Semester Degree Program

Students wishing to follow the nine-semester degree plan should see the University Core requirements (p. 97). Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

This program does require a summer field camp after the junior year.

Year Total: 12

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

B.S. in Geology

Requirements for a Major in Geology with a concentration in geophysics leading to a B.S. degree: Completion of these requirements will result in a double major in both geology and physics. In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met.

CHEM 1103 & CHEM 1101L University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture) and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab)
CHEM 1123 & CHEM 1121L University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture) and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab)
PHYS 2054 University Physics I (ACTS Equivalency = PHYS 2034)
PHYS 2074 University Physics II (ACTS Equivalency = PHYS 2044 Lecture)
PHYS 2094 University Physics III
MATH 2554 Calculus I (ACTS Equivalency = MATH 2405)
MATH 2564 Calculus II (ACTS Equivalency = MATH 2505)
MATH 2574 Calculus III (ACTS Equivalency = MATH 2603)
MATH 2584 Elementary Differential Equations

A minimum of 45 semester hours of GEOS and PHYS courses to include:
GEOS 1113 General Geology (ACTS Equivalency = GEOL 1114 Lecture) 2-4
& GEOS 1111L and General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab)

or GEOS 3052 Geology for Engineers

GEOS 2313 Mineralogy and Petrology 3
GEOS 3383 Principles of Landscape Evolution 3
GEOS 3413 Sedimentary Rocks & Fossils 3
GEOS 3514 Structural Geology 4
GEOS 4223 Stratigraphy and Sedimentation 3
GEOS 4433 Geophysics 3
GEOS 4924 Earth System History (ACTS Equivalency = PHSC 1104) 4

GEOS 4686 Geology Field Camp 6

PHYS 3113 Analytical Mechanics 3
PHYS 3453 Electromagnetic Theory I 3
PHYS 3613 Modern Physics 3
PHYS 4073 Introduction to Quantum Mechanics 3
PHYS 4991 Physics Senior Seminar 1

Total Hours 80-82

Writing Requirement: A scholarly writing assignment will be included in all geoscience courses numbered 2000 and above. Those papers submitted in geoscience courses 3000 and above will fulfill the Fulbright College writing requirement. The college writing requirement may also be met by the completion of an honors thesis.

Geology B.S. with Geophysics Concentration

Nine-Semester Degree Program

Students wishing to follow the nine-semester degree plan should see the University Core requirements (p. 97). Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Honors candidates in geology must do the following:

1. Achieve a cumulative grade-point average of 3.30 in geology courses.
2. Meet the 40-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).
3. Meet the 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
4. Complete junior and senior honors courses GEOS 3901, GEOS 3911, GEOS 4972H, GEOS 4982H, and
5. Achieve a cumulative grade-point average of 3.30 in geology courses.
6. Complete junior and senior honors courses GEOS 3901, GEOS 3911, GEOS 4972H, GEOS 4982H, and
7. Achieve a cumulative grade-point average of 3.30 in geology courses.

**Minor in Geology**

**Requirements for a Minor in Geology:** A minor in geology shall be awarded upon completion of the following course work:

<table>
<thead>
<tr>
<th>Course Code</th>

<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>18-20</strong></td>
</tr>
</tbody>
</table>

**Required Coursework:**

- General Electives: 15-20
- University Core Fine Arts or Humanities: 3
- Academic Regulations: 11
- GEOS 4972H or GEOS 4982H: 2
- GEOS 3901: 3
- GEOS 3911: 3
- GEOS 4972H: 3
- GEOS 4982H: 3
- GEOS 1133: 4
- GEOS 1131L: 4
- GEOS 2313: 3
- Two GEOS Courses at the 3000-level: 6
- One GEOS Course at the 4000-level: 3

**Total Units in Sequence:** 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

**Requirements for Departmental Honors in Geology:** The Departmental Honors Program in Geology provides upper-division undergraduate students with an opportunity to formally participate in geologic research activities. Honors candidates carry out independent study and research under the guidance of the geology faculty. Outstanding student achievement will be recognized by awarding the distinction “Geology Scholar *Cum Laude*” at graduation. Higher degree distinctions may be awarded to truly outstanding students based upon the whole of their academic program and quality of honors research.

Honors candidates in geology must do the following:

1. Satisfy departmental and college requirements for a bachelor’s degree with honors,
2. Become a candidate no later than the second semester of their junior year,
3. Enroll in six hours of honors research GEOS 3901, GEOS 3911, GEOS 4972H, GEOS 4982H,
4. Take 12 hours in Honors Studies, which may include 6 hours of thesis,
5. Complete junior and senior honors courses GEOS 3901, GEOS 3911, GEOS 4972H, GEOS 4982H, and
6. Achieve a cumulative grade-point average of 3.30 in geology courses.

**Geology (B.S.) Teacher Licensure in Life/Earth Science or Physical/Earth Science Requirements:** Students wanting to teach science in middle or secondary school should consult with an adviser in the College of Education and Health Professions.

**Geosciences (GEOS)**

Christopher L. Liner  
Chair of the Department  
216 Gearhart Hall  
479-575-3355

Department of Geosciences Website (http://fulbright.uark.edu/departments/geosciences/)

The Department of Geosciences offers three majors, two leading to a Bachelor of Science and one leading to a Bachelor of Arts:

- Earth Science (p. 253), B.S.
- Geography (p. 266), B.A.
- Geology (p. 268), B.S.

The department also offers coursework leading to a Geospatial Technologies Certificate.

- Certificate in Geospatial Technologies, the requirements of which are in the tab on this page.

**Requirements for Geospatial Technologies Certificate**

The Department of Geosciences also offers an online Geospatial Technologies Certificate through the University of Arkansas Global Campus (http://globalcampus.uark.edu). The certificate is designed for working professionals who wish to develop basic skills in the emerging field of geospatial technologies. Instruction prepares these individuals for employment in the geosciences and collateral disciplines as well as providing a foundational skill set for additional advanced work if desired. The certificate will also benefit students in two-year associate degree programs as well as undergraduates in four-year programs who wish to strengthen their skills.

**Requirements for admission:** Candidates should possess an associate’s degree, two years of college, or equivalent work experience.

Requirements for a Geospatial Technologies Certificate: A total of 12-18 hours are required for the certificate. Students must complete:

1. It is possible to waive 3 to 6 hours of required coursework for GEOS 3013 and GEOS 3103 through successful completion of proficiency exams.
Faculty
Aly, Mohamed H., Ph.D. (Texas A&M), M.S., B.S. (Zagazig University), Assistant Professor, 2013.
Anderson, Paula, M.S., B.S. (University of Arkansas), Instructor, 2014.
Boss, Steve K., Ph.D. (University of North Carolina at Chapel Hill), M.S. (Utah State University), B.S. (Bemidji State University), Professor, 1996.
Coffen, Jackson David, Ph.D., M.S. (The Ohio State University), B.S. (United States Air Force Academy), Associate Professor, 2004.
Covington, Matthew D., Ph.D. (University of California-Santa Cruz), B.A. (University of Arkansas), Associate Professor, 2012.
Davidson, Fiona M., Ph.D., M.A. (University of Nebraska-Lincoln), B.A. (Newcastle Upon Tyne Polytechnic), Associate Professor, 1992.
Davis, Ralph K., Ph.D., M.S., B.S. (University of Nebraska, Lincoln), Professor, 1994.
Dumond, Gregory, Ph.D. (University of Massachusetts), M.S. (Texas Tech University), B.S. (University of Texas El Paso), Associate Professor, 2010.
Feng, Song, Ph.D., M.S. (Chinese Academy of Sciences), B.S. (Yunnan University), Associate Professor, 2013.
Hays, Phillip D., Ph.D., M.S. (Texas A&M University), B.S. (University of Arkansas), Research Professor, 2000.
Holland, Edward C., Ph.D., M.A. (University of Colorado, Boulder), B.A. (Princeton University), Assistant Professor, 2016.
Lamb, Andrew P., Ph.D. (Boise State University), M.S. (Florida Institute of Technology), B.S. (University of Dublin, Trinity), Assistant Professor, 2017.
Limp, Fred, Ph.D., M.A., B.A. (Indiana University at Bloomington), University Professor, 1979.
Lineman, Christopher L., Ph.D. (Colorado School of Mines), M.S. (University of Tulsa), B.S. (University of Arkansas), Professor, 2012.
Marshall, Jill A., Ph.D. (University of Oregon), Assistant Professor, 2017.
Paradise, Thomas R., Ph.D. (Arizona State University), M.A. (Georgia State University), F.G.A., G.G. (Gemological Institute of America), B.S. (University of Nevada), University Professor, 2000.
Potra, Adrian, Ph.D. (Florida International University), M.S., B.S. (University of Babes-Bolyai, Romania), Assistant Professor, 2012.
Sharman, Glenn R., Ph.D. (Stanford University), B.S. (Wheaton College), Assistant Professor, 2017.
Shaulis, Barry J., Ph.D., M.S., B.S. (University of Houston), B.B.A. (University of Georgia), Research Associate, 2016.
Shaw, John B., Ph.D. (University of Texas at Austin), B.A. (Oberlin College), Assistant Professor, 2014.
Shi, Xuan, Ph.D. (West Virginia University), M.S. (Indiana University of Pennsylvania), B.S. (Hubei University), Assistant Professor, 2012.
Stahle, David William, Ph.D. (Arizona State University), M.A. (University of Arkansas), B.A. (University of Arizona), Distinguished Professor, 1982.
Suarez, Celina A., Ph.D. (University of Kansas), M.S. (Temple University), B.S. (Trinity University), Associate Professor, 2012.
Sui, Daniel, Ph.D. (University of Georgia), M.S., B.S. (Peking University), Distinguished Professor, 2018.
Tullis, Jason A., Ph.D., M.S. (University of South Carolina at Columbia), B.S. (Brigham Young University), Professor, 2004.
Turner, Henry L., Ph.D., M.S. (University of Arkansas), B.S. (University of Oregon), Instructor, 2008.

Graphic Design (GDSB)

Jeannie Hulen
Interim Director of the School of Art
116 Fine Arts Building
479-575-5202

School of Art Website (https://fulbright.uark.edu/departments/art/)

The School of Art offers a Bachelor of Fine Arts degree program in Graphic Design. The degree prepares students to be proficient makers and thoughtful problem seekers and solvers. Students will work seamlessly across a range of media, working to identify appropriate solutions for audience and context. Students will be exposed to a rigorous curriculum covering research, theory, critical thinking, professional practices, conceptual idea-making and formal experimentation.

Requirements for Admission to the Fine Arts Degree in Graphic Design

For admission to the B.F.A. in Graphic Design, a student must be a declared Art major in the School of Art and successfully complete the art foundation course sequence of ARTS 1919C Studio Foundation I and ARTS 1929C Studio Foundation II. Students also must be enrolled in, or have completed, GDES 2313 Digital Tools and Concepts and GDES 3313 Introduction to Typography. Students must have a 3.0 grade point average and submit an application and a portfolio for review.

Requirements for the Bachelor of Fine Arts Degree in Graphic Design

In addition to the University Core requirements and the Fulbright College of Arts and Sciences Graduation Requirements (see under College Academic Regulations and Degree Completion Policy), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the university/state minimum core requirements.

<table>

**Total Units in Sequence:** 120

Internship credit considered in lieu of required studios upon approval of professors, based on content and merit of internship.

### History (HIST)

James Gigantino  
Department Chair  
416 Old Main  
479-575-3001  
jgiganti@uark.edu

History Department website ([http://fulbright.uark.edu/departments/history/](http://fulbright.uark.edu/departments/history/))

The Department of History offers an undergraduate major leading to a Bachelor of Arts in history as well as a minor in history.

The Department of History offers specialized study of world societies and their evolution to the present. Students may concentrate on areas such as Africa, the Middle East, Latin America, Asia, Europe, or the history of the United States. Undergraduate majors and minors prepare students for careers in government service, law, publishing, teaching, business school, diplomacy, journalism, archival management, communications, or graduate studies.

The Department of History also offers a highly competitive graduate program. Graduate faculty members direct both seminars and specialized training leading to the Master of Arts and Doctor of Philosophy degrees.

The Department of History also offers junior and senior history majors an opportunity to secure valuable experience working in the field of history. Previous interns have worked for the Washington County Historical Society and the Arkansas Historical Association.

For requirements for advanced degrees in history, see the Graduate School Catalog ([http://catalog.uark.edu/graduatecatalog/programsofstudy/historyhist/](http://catalog.uark.edu/graduatecatalog/programsofstudy/historyhist/)).

For information regarding departmental scholarships, visit the History Department's scholarships page ([http://fulbright.uark.edu/departments/history/undergraduate/scholarships.php](http://fulbright.uark.edu/departments/history/undergraduate/scholarships.php)).

### University and College Requirements for a Bachelor of Arts in History

In addition to the Fulbright College of Arts and Sciences Graduation Requirements (see under Degree Completion Program Policy), the following course requirements must be met. **Bolded** courses from the course list below may be applied to portions of the University/state minimum core (p. 97) requirements.

**University/State Minimum Core**  
35

Select any combination of 12 credit hours from the following list of introductory courses in world languages, area studies, and other related disciplines. Students intending to pursue a graduate degree are strongly encouraged to take a world language sequence, reaching a minimum proficiency at the Intermediate II (2013) level.
### HIST Courses (39 hours)

- **HIST 1113** Institutions and Ideas of World Civilizations I  
  (ACTS Equivalency = HIST 1113)  
  or HIST 1113H Honors Institutions and Ideas of World Civilizations I  
  3 credit hours

- **HIST 1123** Institutions and Ideas of World Civilizations II  
  (ACTS Equivalency = HIST 1123)  
  or HIST 1123H Honors Institutions and Ideas of World Civilizations II  
  3 credit hours

- **HIST 2003** History of the American People to 1877 (ACTS Equivalency = HIST 2113)  
  3 credit hours

- **HIST 2013** History of the American People, 1877 to Present  
  (ACTS Equivalency = HIST 2123)  
  3 credit hours

- **HIST 4893** Senior Capstone Seminar  
  3 credit hours

- **HIST courses** 3000-level or higher from the History Group 1-3 list. At least 12 credit hours must be 4000-level or higher.  
  24 credit hours

- **University Residency Requirement Electives** (see Degree Completion Program Policy)  
  3 credit hours

- **40-hour Rule Electives** (see Degree Completion Program Policy)  
  10 credit hours

- **General Electives**  
  21 credit hours

**Total Hours**: 120 credit hours

---

1. College Honors students must take HIST 1113H, HIST 1123H, HIST 3973H and at least 3 credit hours of HIST 399VH. College Honors students may not apply more than 6 credit hours of HIST 399VH to the history major.

2. Honors students must take HIST 3973H instead of HIST 4893. Under special circumstances, on a case by case basis, the program director may allow Honors students to take HIST 4893.

3. Students may not receive credit for both HIST 3383 and HIST 4583.

**Students must select at least 3 credit hours from each of the following groups (1-3)**

**Courses listed in more than one group may fill only one group requirement.**

### Group 1: Europe, Including Britain and Russia

- **HIST 3003** History of Christianity  
  3 credit hours

- **HIST 3013** Ancient Historians  
  3 credit hours

- **HIST 3063** Military History  
  3 credit hours

- **HIST 3083** Women and Christianity  
  3 credit hours

- **HIST 3423** British History, 1688-Present  
  3 credit hours

- **HIST 3433** Twentieth Century Britain through Film  
  3 credit hours

- **HIST 3443** Modern Imperialism  
  3 credit hours

- **HIST 3453** Modern Terrorism  
  3 credit hours

- **HIST 3533** World War II  
  3 credit hours

- **HIST 3543** Russia to 1861  
  3 credit hours

- **HIST 3553** Russia Since 1861  
  3 credit hours

- **HIST 3573** World War I  
  3 credit hours

- **HIST 3683** Europe in the 19th Century  
  3 credit hours

- **HIST 3693** Europe in the 20th Century  
  3 credit hours

- **HIST 3703** Urban History: The Modern Metropolis  
  3 credit hours

- **HIST 3803** Special Topics in Ancient History  
  3 credit hours

- **HIST 3833** Special Topics in European History  
  3 credit hours

- **HIST 3963** Art as History  
  3 credit hours

- **HIST 4003** Democratic Athens  
  3 credit hours

- **HIST 4013** Alexander the Great and the Hellenistic World  
  3 credit hours

- **HIST 4023** Roman Republic  
  3 credit hours

- **HIST 4033** Roman Empire  
  3 credit hours

- **HIST 4043** Late Antiquity and the Early Middle Ages  
  3 credit hours

- **HIST 4053** Late Middle Ages  
  3 credit hours

- **HIST 4203** History of the Holocaust  
  3 credit hours

- **HIST 4073** Renaissance and Reformation, 1300-1600  
  3 credit hours

- **HIST 4083** Early Modern Europe, 1600-1800  
  3 credit hours

</table>

In consultation with an adviser, students are encouraged to design a program of study with both breadth and depth. All history majors are also recommended to take a minor or additional major in one of the following:

- African and African American Studies
- Art History
- Asian Studies
- Classical Studies
- Gender Studies
- International Studies
- Jewish Studies
- Latin American and Latino Studies
- Medieval and Renaissance Studies
- Middle East Studies
- Religious Studies
- World Languages, Literatures, and Culture

**Writing Requirement:** To fulfill the Fulbright College writing requirement, each history major will submit, prior to graduation, a substantial research or analytical paper, with a grade of “A” or “B” from an upper-division history course (3000, 4000, 5000 level) to his or her departmental adviser. The required senior capstone seminar, HIST 4893, is designed to give history majors the opportunity and guidance to produce a paper to meet the Fulbright College requirement, but students may also submit a paper from another course. Satisfactory completion of a thesis may also fulfill this requirement.

### History B.A. Eight-Semester Degree Program

Students who elect to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. University/state minimum core may vary by individual, based on placement and previous credit granted. Once all university/state minimum core requirements are met, students may substitute general electives in its place.

**Requirements for a Minor in History**

A student must notify the department of his or her intent to minor. Requirements are 18 semester hours to include the following:

Select two of the following courses

| HIST 1113 | Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) |
| or HIST 111: Honors Institutions and Ideas of World Civilizations I or HUMN 11 Honors Roots of Culture to 500 C.E. |
| HIST 1123 | Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) |
| or HIST 112: Honors Institutions and Ideas of World Civilizations II or HUMN 211 Honors Birth of Modern Culture 1600-1900 |
| HIST 2003 | History of the American People to 1877 (ACTS Equivalency = HIST 2113) |
| HIST 2013 | History of the American People, 1877 to Present (ACTS Equivalency = HIST 2123) |

In addition, complete 12 hours of upper-level credit, at least 6 hours of which must be at the 4000-level.

**Requirements for Departmental Honors in History:** Both the College and the Departmental Honors Program in History provide undergraduates with an opportunity to carry out independent study and research under the guidance of history faculty and to participate in special honors courses, seminars, and colloquia. Admission to the Fulbright Honors Program is open to history majors with a minimum cumulative GPA of 3.5 in all of their courses. Honors candidates must complete a minimum of 12 credit hours in honors courses, including HIST 3973H and at least 3 but no more than 6 credit hours of HIST 399VH. Fulbright College honors students majoring in history must also complete either HIST 1113H or HUMN 1114H, and either HIST 1123H or HUMN 2114H. Also, honors candidates must complete a world language at the Intermediate II (2013) level or higher.

To complete the required thesis, honors candidates should choose a faculty thesis director as early as possible but no later than the first semester of the student's junior year. Honors candidates must meet the college's requirements for an honors degree. Students graduating with honors typically graduate with the distinction *cum laude*. Higher distinctions (*summa cum laude, magna cum laude*) are awarded by the Honors Council in truly exceptional cases and are based upon the whole of the candidate's program of honors studies.

**History (B.A.) Social Studies Teacher Licensure Requirements:**

Please refer to the Secondary Education Requirements for Fulbright College Students (p. 201).

Students who desire to teach social studies in middle school should consult with a middle-level adviser in the College of Education and Health Professions.

**Faculty**

- *Antov, Nikolay Atanasov*, Ph.D. (University of Chicago), M.A. (Bilkent University, Turkey), B.A. (American University in Bulgaria), Associate Professor, 2011.
- *Austin, Shawn*, Ph.D., M.A. (University of New Mexico), B.A. (Brigham Young University-Idaho), Assistant Professor, 2015.

White, Calvin, Ph.D. (University of Mississippi), M.A., B.A. (University of Central Arkansas), Associate Professor, 2007.
Williams, Patrick George, Ph.D., M.A. (Columbia University), B.A. (University of Texas at Austin), Professor, 1998.
Woods, Randall B., Ph.D., M.A., B.A. (University of Texas at Austin), Distinguished Professor, 1971.

Humanities (HUMN)
Kathryn A. Sloan
Director of Humanities
419 Old Main
479-575-5887

The Humanities Program supports the Honors Humanities Project (H2P) and promotes humanistic scholarship and inquiry, innovative and interdisciplinary teaching, and humanities scholarship to the wider community.

Indigenous Studies (INDS)
Sean Teuton
Director of Indigenous Studies
479-575-6000
Kimpel Hall 333
steuton@uark.edu

The Indigenous Studies minor invites discovery of alternative world views, ecological relationships, societies, religions, arts, and governments of indigenous peoples in North America and beyond from antiquity to the present. Immersed in this inherently interdisciplinary field of study, students have the opportunity to master and employ its many theories and methodologies, debates and issues, in often comparative contexts. Such exposure and training prepares those who achieve the minor for graduate work in the humanities, business, law, and the sciences as they pertain to indigenous peoples, but also for any career that requires a supple knowledge of cultural difference between Arkansas and an increasingly global world.

Requirements for a Minor in Indigenous Studies
Students seeking the minor in Indigenous Studies must complete three courses, one from each of three core groups: Culture, History and Literature. Students then complete two additional elective courses from the list below for a total of 15 credit hours. Other courses not listed below may serve the requirements, although only as approved by the Indigenous Studies program director. Only 6 credit hours can count toward requirements of other majors or minors.

Culture
ANTH 3213 Indigenous Peoples of North America: Anthropological Perspectives 3
ANTH 3263 Indians of Arkansas and the South 3
ANTH 3473 North American Prehistory 3
ANTH 3533 Medical Anthropology 3
ANTH 4143 Ecological Anthropology 3

History
HIST 3263 History of the American Indian 3

Literature
COMM 3983 Special Topics 3
ENGL 3553 Topics in Native American Literature and Culture 3
ENGL 4553 Studies in Native American Literature and Culture 3
WLLC 4043 The Early French in North America 3
WLLC 4053 The Colonial French in the Mississippi Valley 3

1 Topics and studies include over a dozen courses.
2 Courses focus on early indigenous and French encounters in the Canadian Quebec region and along the Lower Mississippi River Valley, including the Arkansas area, respectively, combining ethnohistory and literary study of accounts found in original documents. Taught in English language.

Interdisciplinary Studies (IDST)
Robert Brady
Program Director
Kimpel Hall 417
479-575-3048
rbrady@uark.edu

The Interdisciplinary Studies Program is targeted toward highly motivated students whose interests, needs, and talents are not reflected or met by existing majors. It is a major in which students will pursue coursework from two or more traditional disciplines in sufficient depth and breadth to
prepare them for employment or graduate/professional study. The major will lead to a Bachelor of Arts in interdisciplinary studies.

There are two options for students who wish to pursue a B.A. in Interdisciplinary Studies:

- **Option 1 – Construction of an Interdisciplinary Studies major** consisting of at least two of three thematically linked minors from within the Fulbright College of Arts and Sciences. One of the three minors may be selected from a program in another college at the university. Students interested in Option 1 will follow the specific program requirements as specified by each minor. For Option 1, a course plan of study must contain a minimum of 45 credit hours with a maximum number of hours dependent on which group of three minors are selected (in most instances this number would range from 45-57 hours). Students selecting Option 1 must consult during their first semester of enrollment with the IDSTBA Program Director to develop their course plan of study.

- **Option 2 – Construction of an Interdisciplinary Studies major** consisting of a thematically linked set of coursework primarily selected from, but not limited to, courses in Fulbright College. Students selecting Option 2 must consult during their first semester of enrollment with the IDSTBA Program Director to develop an individualized course plan of study. The course plan must contain a minimum of 45 credit hours with a maximum of 21 hours of course work from a single discipline. Thirty credit hours of the proposed coursework must be at the 3000 or 4000 level. At least two-thirds of the advanced level coursework must be completed on the UA-Fayetteville campus.

In addition to the Plan of Study, students wishing to pursue the interdisciplinary studies major must also submit a narrative statement that (1) expresses how the proposed coursework (or group of minors) fit together thematically; (2) expresses why the student’s interests and needs are not met by existing degree programs; and (3) expresses how the interdisciplinary studies major contributes to the student’s career goals and post-graduate opportunities.

**Interdisciplinary Studies Program Requirements:** A student interested in pursuing a degree in Interdisciplinary Studies must have earned less than 75 credit hours in order to select the IDSTBA major.

Students must maintain a GPA of 2.5 or better on coursework constituting the major (e.g., Option 1 or Option 2) for continuation in the program and in order to graduate with an Interdisciplinary Studies major. Should a student’s GPA in the major fall below 2.50, he or she will have one semester to bring the GPA back to an acceptable level.

Students in Option 2 of the Interdisciplinary Studies Program are strongly encouraged to include an Independent Study/Research Project as a component of the major. Students pursuing an independent study research project may add up to 6 credit hours of such activity to the 21-hour maximum in a single discipline.

In addition to the coursework defined in the student’s Interdisciplinary Studies major, the student must satisfy all College and University requirements related to the University Core (p. 97) and advanced-level courses (p. 196).

**Writing Requirement:** To complete the Fulbright College writing requirement, students must submit one of the following:

1. Complete at least one upper-division course that satisfies the College Writing Requirement in one of the disciplines contributing to the student’s course plan (Option 1 or Option 2).
2. Submit to the program director a research paper that is no less than 12 pages in length, includes 10 references, and is written in an upper-division course in one of the disciplines contributing to the student’s course plan (Option 1 or Option 2).

### Interdisciplinary Studies B.A. Eight-Semester Degree Plan

Students wishing to follow the eight-semester degree plan should see the Academic Regulations chapter for university requirements. University Core requirements may vary by individual, based on placement and previous credit granted. Once all University Core requirements are met, students may substitute a 3-hour (or more) general elective in place of a core area.

Students in the Interdisciplinary Studies Program develop individualized course plans. These courses are referred to in the plan below as IDST Course Plan hours.

#### First Year

Including the following courses.

B.A. in International and Global Studies requires 120 hours of coursework.

College of Arts and Sciences Graduation Requirements

In addition to the B.A. in International and Global Studies Concentration with European and Transatlantic Affairs

B.A. in International and Global Studies and a minor in Global Studies.

Students may not earn both a major in International anthropology, economics, geography, history, political science, sociology, or world languages. Students may not earn both a major in International and Global Studies and a minor in Global Studies.

Students who major in international and global studies are encouraged to pursue a minor or second major. Recommended fields include anthropology, economics, geography, history, political science, sociology, or world languages. Students may not earn both a major in International Studies and a minor in Global Studies.

B.A. in International and Global Studies with European and Transatlantic Affairs Concentration

B.A. in International and Global Studies

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the B.A. in International and Global Studies requires 120 hours of coursework, including the following courses.

General Requirements

A minimum of 42 hours to include:

<table>
<thead>
<tr>
<th>Course Plan</th>
<th>Units in Sequence</th>
</tr>
</thead>
<tbody>
<tr>
<td>INST 2013 Introduction to International and Global Studies</td>
<td>3</td>
</tr>
<tr>
<td>INST 4003 International Studies Seminar</td>
<td>3</td>
</tr>
<tr>
<td>or INST 4003H Honors International Studies Seminar</td>
<td></td>
</tr>
</tbody>
</table>

Economics Requirement

(Also meets University Core Requirement)

<table>
<thead>
<tr>
<th>Course Plan</th>
<th>Units in Sequence</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 2143 Basic Economics: Theory and Practice (recommended)</td>
<td>1</td>
</tr>
<tr>
<td>or ECON 201 Principles of Macroeconomics (ACTS Equivalency = ECON 2103)</td>
<td></td>
</tr>
<tr>
<td>or ECON 202 Principles of Microeconomics (ACTS Equivalency = ECON 2203)</td>
<td></td>
</tr>
</tbody>
</table>

World Culture Requirement

Choose two of the following (ANTH 1023, GEOS 2003, and HIST 1123 also meets University Core Requirements):

<table>
<thead>
<tr>
<th>Course Plan</th>
<th>Units in Sequence</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 1023 Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2103)</td>
<td></td>
</tr>
<tr>
<td>GEOS 2003 World Regional Geography (ACTS Equivalency = GEOG 2013)</td>
<td></td>
</tr>
<tr>
<td>HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123)</td>
<td></td>
</tr>
<tr>
<td>PLSC 2813 Introduction to International Relations</td>
<td></td>
</tr>
</tbody>
</table>

Mathematics Requirement

Choose one of the following:

<table>
<thead>
<tr>
<th>Course Plan</th>
<th>Units in Sequence</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2033 Mathematical Thought</td>
<td></td>
</tr>
<tr>
<td>MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)</td>
<td></td>
</tr>
<tr>
<td>MATH 2053 Finite Mathematics</td>
<td></td>
</tr>
<tr>
<td>MATH 2183 Mathematical Reasoning in a Quantitative World</td>
<td></td>
</tr>
<tr>
<td>STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)</td>
<td></td>
</tr>
</tbody>
</table>

Language Requirement

Six credit hours of 3000-level or higher modern world language instruction in one of the following languages: Arabic, Chinese, French, German, Italian, Japanese, Russian, or Spanish. Students completing the European and Transatlantic Affairs Concentration must select a language from French, German, Italian, Russian, or Spanish. Students completing the Global South Concentration must select a language from Arabic, French, Portuguese, or Spanish. This requirement cannot be fulfilled with 3 credits in one language and three credits in another language. Students may need to fulfill prerequisites in a world language at the 1003, 1013, 2003, or 2013 levels, depending on placement in that language. Students may meet this requirement with the study of other languages with permission of the International and Global Studies director.

1 Students are encouraged to take ECON 2143, which will satisfy the prerequisite for most upper-level ECON courses. Students who select either ECON 201 or ECON 202 to meet the Economics Requirement for the major will have to complete both ECON 2013 and ECON 2023 if they wish to take upper-level ECON courses.

Internships: All International Studies majors are strongly encouraged to seek out an internship of international focus. Up to six hours of INST 300V Internship in International Studies may be earned and applied to the Concentration requirement.

Independent Study: With prior approval of the International Studies program director or designee, up to three credit hours of independent study (INST 406V) may be earned and applied to the Concentration requirement.
Capstone Experience and Fulbright College Writing Requirement:
The International Studies Seminar (INST 4003/INST 4003H) provides the capstone experience for International Studies majors. Successful completion of INST 4003 or INST 4003H with a grade of "C" or better satisfies the Fulbright College Writing Requirement for International Studies majors.

Additional Requirements for the European and Transatlantic Affairs Concentration: Students must complete 18 credit hours from the following:

**Global Topics**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INST 3303</td>
<td>European Integration and Globalization</td>
<td>3</td>
</tr>
</tbody>
</table>

Choose one course from the following: 3

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 3453</td>
<td>Modern Terrorism</td>
<td></td>

**International and Global Studies B.A. with European and Transatlantic Affairs Concentration Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

European and Transatlantic Affairs Elective 3  
3000-plus General Electives, as needed 9  
European and Transatlantic Affairs Elective 3  
3000-plus General Electives, as needed 9  
Year Total: 15 12

Total Units in Sequence: 120

**B.A. in International and Global Studies with Global South Concentration**

**B.A. in International and Global Studies**

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the B.A. in International and Global Studies requires 120 hours of coursework, including the following courses.

**General Requirements**

A minimum of 42 hours to include:

- INST 2013 Introduction to International and Global Studies 3
- INST 4003 International Studies Seminar 3
- or INST 4003H Honors International Studies Seminar

**Economics Requirement**

3

(Also meets University Core Requirement)

- ECON 2143 Basic Economics: Theory and Practice (recommended) 1
- or ECON 20 Principles of Macroeconomics (ACTS Equivalency = ECON 2103)
- or ECON 20 Principles of Microeconomics (ACTS Equivalency = ECON 2203)

**World Culture Requirement**

6

Choose two of the following (ANTH 1023, GEOS 2003, and HIST 1123 also meets University Core Requirements):

- ANTH 1023 Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2013)
- GEOS 2003 World Regional Geography (ACTS Equivalency = GEOG 2103)
- HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123)
- PLSC 2813 Introduction to International Relations

**Mathematics Requirement**

3

Choose one of the following:

- MATH 2033 Mathematical Thought
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)
- MATH 2053 Finite Mathematics
- MATH 2183 Mathematical Reasoning in a Quantitative World
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)

**Language Requirement**

6-18
Six credit hours of 3000-level or higher modern world language instruction in one of the following languages: Arabic, Chinese, French, German, Italian, Japanese, Russian, or Spanish. Students completing the European and Transatlantic Affairs Concentration must select a language from French, German, Italian, Russian, or Spanish. Students completing the Global South Concentration must select a language from Arabic, French, Portuguese, or Spanish. This requirement cannot be fulfilled with 3 credits in one language and three credits in another language. Students may need to fulfill prerequisites in a world language at the 1003, 1013, 2003, or 2013 levels, depending on placement in that language. Students may meet this requirement with the study of other languages with permission of the International and Global Studies director.

1 Students are encouraged to take ECON 2143, which will satisfy the prerequisite for most upper-level ECON courses. Students who select either ECON 2013 or ECON 2023 to meet the Economics Requirement for the major will have to complete both ECON 2013 and ECON 2023 if they wish to take upper-level ECON courses.

Internships: All International Studies majors are strongly encouraged to seek out an internship of international focus. Up to six hours of INST 300V Internship in International Studies may be earned and applied to the Concentration requirement.

Independent Study: With prior approval of the International Studies program director or designee, up to three credit hours of independent study (INST 406V) may be earned and applied to the Concentration requirement.

Additional requirements for the Global South Concentration

| Required Course |  
|-----------------|--------------------------------------------------|
| INST 3503       | Issues in the Global South                      |
| ECON 4173       | Nation Model United Nations                     |
| ECON 4633       | International Trade                             |
| ECON 3843       | Economic Development, Poverty & the Role of the World Bank and IMF in Low-Income Countries |
| ECON 3853       | Emerging Markets                                |
| ENGL 3763       | Topics in Postcolonial Literature and Culture |
| HIST 3443       | Modern Imperialism                              |
| HIST 4233       | The Atlantic World, 1400-1850                   |
| HIST 4473       | Environmental History                           |
| HIST 4963       | Third World Underdevelopment and Modernization |
| INST 3303       | European Integration and Globalization          |
| INST 3603       | Universal Human Rights: History and Practice since 1945 |
| INST 4103       | Geography of Political Violence                 |
| INST 4103H      | Honors Geography of Political Violence          |
| INST 4653       | International Food Security and Food Sovereignty |
| INST 4693       | Approaching Global History                      |
| INST 4873       | International Communication and Globalization  |
| INST 4893       | International Negotiation and Mediation         |
| MGMT 3673       | Social Entrepreneurship                         |
| PLSC 3803       | International Organization                      |
| PLSC 3813       | International Law                               |

Area Studies

Four Area Studies and Additional Electives courses chosen from the list of electives below. Students must select courses from at least two different area studies categories

### B.A. in International and Global Studies

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the B.A. in International and Global Studies requires 120 hours of coursework, including the following courses.

#### General Requirements

A minimum of 42 hours to include:

- INST 2013 Introduction to International and Global Studies 3
- INST 4003 International Studies Seminar 3
  - or INST 4003H Honors International Studies Seminar

#### Economics Requirement

(Also meets University Core Requirement)

- ECON 2143 Basic Economics: Theory and Practice (recommended) 3
- or ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) 3
- or ECON 2023 Principles of Microeconomics (ACTS Equivalency = ECON 2203) 3

#### World Culture Requirement

Choose two of the following (ANTH 1023, GEOS 2003, and HIST 1123 also meets University Core Requirements):

- ANTH 1023 Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2013) 3
- GEOS 2003 World Regional Geography (ACTS Equivalency = GEOG 2103) 3
- HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) 3
- PLSC 2813 Introduction to International Relations 3

#### Mathematics Requirement

Choose one of the following:

- MATH 2033 Mathematical Thought 3
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203) 3
- MATH 2053 Finite Mathematics 3
- MATH 2183 Mathematical Reasoning in a Quantitative World 3
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103) 3

#### Language Requirement

6-18

Six credit hours of 3000-level or higher modern world language instruction in one of the following languages: Arabic, Chinese, French, German, Italian, Japanese, Russian, or Spanish. Students completing the European and Transatlantic Affairs Concentration must select a language from French, German, Italian, Russian, or Spanish. Students completing the Global South Concentration must select a language from Arabic, French, Portuguese, or Spanish. This requirement cannot be fulfilled with 3 credits in one language and three credits in another language. Students may need to fulfill prerequisites in a world language at the 1003, 1013, 2003, or 2013 levels, depending on placement in that language. Students may meet this requirement with the study of other languages with permission of the International and Global Studies director.

1 Students are encouraged to take ECON 2143, which will satisfy the prerequisite for most upper-level ECON courses. Students who select either ECON 2013 or ECON 2023 to meet the Economics Requirement for the major will have to complete both ECON 2013 and ECON 2023 if they wish to take upper-level ECON courses.

#### Internships: All International Studies majors are strongly encouraged to seek out an internship of international focus. Up to six hours of INST 300V Internship in International Studies may be earned and applied to the Concentration requirement.

#### Independent Study: With prior approval of the International Studies program director or designee, up to three credit hours of independent study (INST 406V) may be earned and applied to the Concentration requirement.

## Area Studies

Four Area Studies and Additional Electives courses chosen from the list of electives below. Students must select courses from at least two different area studies categories.

### African and African-American Studies
- AAST 3133 History of Sports in Africa
- AAST 3183 Popular Culture in the Caribbean
- AAST 3193 The Making of the Modern Caribbean
- AAST 3253 The History of Sub-Saharan Africa
- AAST 4003 African & African American Studies Study Abroad
- AAST 4003H Honors African & African American Studies Study Abroad
- AAST 4063 Women in Africa
- AAST 4073 African Sociolinguistics
- AAST 4083 African Popular Culture
- AAST 4123 Africa and the Trans-Atlantic Slave Trade
- AAST 4263 Modern Africa
- AAST 4273 Comparative Slavery
- AAST 4583 Cultures of Africa
- AAST 4813 Africans and Slavery in Colonial Latin America
- AAST 4823 Black Freedom in the Age of Emancipation
- AAST 4953 The History of Sub-Saharan African Women

### Latin American and Latino Studies
- ANTH 3503 Power and Popular Protest in Latin America
- ANTH 3553 Religion in Latin America
- ARHS 4563 Pre-Columbian Art
- ARHS 4563H Honors Pre-Columbian Art
- ARHS 4573 Artists of New Spain
- ARHS 4573H Honors Artists of New Spain
- HIST 3073 Women and Gender in Modern Latin American History
- HIST 3203 Colonial Latin America
- HIST 3213 Modern Latin America
- HIST 3843 Special Topics in Latin American and Caribbean History
- HIST 4173 The Latin American City
- HIST 4293 Latin American Environmental History
- HIST 4443 Frontiers and Borderlands in Colonial Latin America
- HIST 4783 History of Modern Mexico
- LALS 4003 Latin American Studies Colloquium
- PLSC 3573 Governments and Politics of Latin America
- PLSC 4873 Inter-American Politics
- SPAN 4223 Latin American Civilization
- SPAN 4253 Latin American Cinema and Society
- SPAN 4883 Indigenous Literatures of Mesoamerica, the Andes and the Amazon

### Middle East Studies
- ANTH 4533 Middle East Cultures
- ANTH 4913 Topics of the Middle East
- GEOS 4043 Geography of the Middle East
- HIST 3033 Islamic Civilization
- HIST 3043 History of the Modern Middle East
- HIST 3473 Palestine and Israel in Modern Times
- HIST 4393 Early Modern Islamic Empires, 1300-1750
- HIST 4413 New Women in the Middle East
- HIST 4433 Social and Cultural History of the Modern Middle East
- MEST 4003 Middle East Studies Colloquium
- MEST 4003H Honors Middle East Studies Colloquium
- PLSC 3523 Politics of the Middle East
- PLSC 4593 Islam and Politics
- PLSC 4843 The Middle East in World Affairs

### Additional Electives
- INST 300V Internship in International Studies
- INST 399VH Honors Thesis
- INST 406V Independent Study in International Studies

### B.A. in International and Global Studies with Peace, Security and Human Rights Concentration

#### B.A. in International and Global Studies

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the B.A. in International and Global Studies requires 120 hours of coursework, including the following courses.

#### General Requirements

A minimum of 42 hours to include:
- INST 2013 Introduction to International and Global Studies 3
- INST 4003 International Studies Seminar 3
- or INST 4003H Honors International Studies Seminar

#### Economics Requirement

3

(Also meets University Core Requirement)

- ECON 2143 Basic Economics: Theory and Practice (recommended) 1
  - or ECON 20 Principles of Macroeconomics (ACTS Equivalency = ECON 2103)
  - or ECON 20 Principles of Microeconomics (ACTS Equivalency = ECON 2203)

#### World Culture Requirement

6

Choose two of the following (ANTH 1023, GEOS 2003, and HIST 1123 also meets University Core Requirements):

- ANTH 1023 Introduction to Cultural Anthropology (ACTS Equivalency = ANTH 2013)
- GEOS 2003 World Regional Geography (ACTS Equivalency = GEOS 2003)
- HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123)
- PLSC 2813 Introduction to International Relations

#### Mathematics Requirement

Choose one of the following:

- MATH 2033 Mathematical Thought
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2043)
- MATH 2053 Finite Mathematics
- MATH 2183 Mathematical Reasoning in a Quantitative World
and Human Rights Concentration.

Concentration:

Additional Requirements for the Peace, Security and Human Rights Studies majors.

satisfies the Fulbright College Writing Requirement for International completion of the capstone experience for International Studies majors. Successful The International Studies Seminar (INST 406V) may be earned and applied to the Concentration requirement. Up to six hours of INST 300V Internship in International Studies may be earned and applied to the Concentration requirement.

Independent Study: With prior approval of the International Studies program director or designee, up to three credit hours of independent study (INST 406V) may be earned and applied to the Concentration requirement.

Capstone Experience and Fulbright College Writing Requirement:
The International Studies Seminar (INST 4003/INST 4003H) provides the capstone experience for International Studies majors. Successful completion of INST 4003 or INST 4003H with a grade of "C" or better satisfies the Fulbright College Writing Requirement for International Studies majors.

B.A. in International and Global Studies with Peace, Security and Human Rights Concentration

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Choose one Global Issues elective from the following:

- HIST 3453 Modern Terrorism
- HIST 4473 Environmental History
- HIST/INST 4693 Approaching Global History
- HIST 4963 Third World Underdevelopment and Modernization
- INST 3603 Universal Human Rights: History and Practice since 1945
- INST 4003 International Studies Seminar
- INST 4653 International Food Security and Food Sovereignty
- PLSC 3803 International Organization
- PLSC 3813 International Law

Total Units in Sequence: 120

---

International and Global Studies (INST)
Intercultural Requirement 9
Choose from one of two options.

Option 1
Three courses of language instruction in a single world language, including at least two courses at the 3000-level or higher taught in the target language.

Option 2
Any combination of the following:
- 3-hour course of language instruction in any world language at the 2003 level or higher.
- Up to three Area Studies Electives listed in the undergraduate catalog as approved electives for one of the following: African and African-American Studies, Asian Studies, Latino and Latin American Studies, Middle East Studies, or the European and Transatlantic Concentration in International Studies. At least one course must be at the 3000-4000 level.
- 3 hours in an approved international experience, such as a study abroad program, international internship, or international research experience. The three credit hours may not be applied to other requirements of the minor.

Total Hours 15

Honors Requirements
Admission to the Fulbright Honors Program is open to majors in the international and global studies program who have a minimum cumulative grade-point average of 3.5 in all of their coursework. College and Departmental Honors candidates must complete a minimum of 12 hours in honors courses, including at least 3 but no more than 6 hours of INST 399VH. Hours earned in INST 399VH may be applied to the Global Studies Requirement for the international studies major.

To complete the required thesis, honors candidates should choose a faculty thesis director as early as possible but no later than the first semester of the student's junior year. Honors candidates must meet the college's requirements for an honors degree. Students graduating with honors typically graduate with the distinction cum laude. Higher distinctions (magna cum laude, summa cum laude) are awarded by the Honors Council in truly exceptional cases and are based upon the whole of the candidate's program of honors studies.

Jewish Studies (JWST)
Jennifer Hoyer
Director of Jewish Studies
Kimpel Hall 425
479-575-2951
jhoyer@uark.edu

Jewish Studies website (https://fulbright.uark.edu/programs/jewish-studies/)

The Jewish Studies minor introduces students to Jewish history, thought, and lifeways, through the millennia and around the globe. Students take courses introducing them to the basic tenets of Judaism, to fundamentals of Jewish languages (Aramaic, Biblical Hebrew, Modern Hebrew, and Yiddish), and to major strands in European, American, and Middle Eastern Jewish thought. Affiliated courses will cover Jewish literature; religious dialogue and history; current politics; ancient, medieval, early modern, and modern Jewish history; and discourse on gender, multiculturalism, and social justice. Jewish Studies offers a broad interdisciplinary context of coursework that can complement most programs of study.

Requirements for a Minor in Jewish Studies: Students who minor in Jewish Studies will take JWST 2003 Introduction to Judaism, a 3-credit hour introductory interdisciplinary course that lays out historical, religious, cultural, linguistic, and philosophical foundations and questions critical to any exploration of any branch of Jewish Studies. Students must take an additional 12 hours of elective coursework from among options listed below. Other courses with significant Jewish Studies-related content and the possibility for an additional Jewish Studies project (for example Religious Studies courses, Middle East Studies courses, or appropriate literature or cinema courses), subject to approval by the chair of the Jewish Studies program, will also be considered.

Choose 12 hours from the following:

Journalism and Strategic Media (JOUR)
Larry Foley
Chair of the School
205 Kimpel Hall
479-575-3601

School of Journalism and Strategic Media Website (http://uark.edu/journalism/)

The School of Journalism and Strategic Media offers an undergraduate major leading to a Bachelor of Arts degree and gives students a choice of three concentrations. The school also offers two combined majors — a Journalism/English combined major and a Journalism/Political Science combined major — as well as a minor in journalism.

The purpose of the School of Journalism and Strategic Media is to provide students with knowledge of the history, theory, and ethics of mass communications, to educate students in journalistic skills, including the ability to express themselves logically and clearly, and to guide them
in securing specialized knowledge of society appropriate to journalistic careers.

Concentrations

Journalism majors must also fulfill the requirements for either the news/editorial concentration, the advertising/public relations concentration, or the broadcast concentration. Students must select a concentration when they enter the department. Specific non-journalism courses in addition to the journalism courses are required for the advertising/public relations concentration. The requirements for each concentration are listed in the tabs.

Combined Majors

The School of Journalism and Strategic Media cooperates with the Department of Political Science and the Department of English to offer two combined majors, each of which leads to a Bachelor of Arts degree. Requirements for each combined major are listed in the tabs.

Requirements for a B.A. degree in Journalism and Strategic Media: All university students must fulfill the minimum University Core requirements (p. 97). A minimum of 72 hours in non-journalism courses must be applied toward the 120 hours required by the college for a Bachelor of Arts degree.

Bolded courses from the list below may be counted toward some part of the University Core requirements, as applicable.

Select one of the following: 3

- MATH 2033 Mathematical Thought
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)
- MATH 2053 Finite Mathematics
- MATH 2183 Mathematical Reasoning in a Quantitative World
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)

Or a higher level math.

Intermediate I (course number 2003) of a World Language 1 3-6

Select one of the following: 3

- WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113)
- WLIT 1123 World Literature II (ACTS Equivalency = ENGL 2123)
- An Advanced Literature Course
- A Language Literature Course

Select one of the following: 3

- PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103)
- PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003)
- Any Philosophy Course at the 3000-level or higher (recommended: PHIL 3103 Ethics and the Professions)
- A second PLSC course (the following are recommended options): 3
  - PLSC 2813 Introduction to International Relations
  - PLSC 3233 The American Congress
  - PLSC 4233 The American Chief Executive
- ECON 2143 Basic Economics: Theory and Practice 3-6

or ECON 2013 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) and Principles of Microeconomics (ACTS Equivalency = ECON 2203)

- COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003)

- 3000-4000 level HIST course 3

- Cultural/Diversity Requirement: 3 hours of cultural/diversity studies to be selected from the following or as approved by the School of Journalism and Strategic Media: 3
  - ANTH 4533 Middle East Cultures
  - COMM 4343 Intercultural Communication
  - HIST 3233 African American History to 1877
  - HIST 3243 African American History Since 1877
  - HIST 3263 History of the American Indian
  - JOUR 3263 African Americans in Film
  - JOUR 4923 History of the Black Press
  - SCWK 3193 Human Diversity and Social Work
  - SOCI 3193 Race, Class, and Gender in America

Other cultural/diversity courses as approved by the School of Journalism and Strategic Media.

Journalism and Strategic Media Courses

A minimum of 34 semester hours in journalism are required, including 21 hours of journalism in one of the concentrations below. A minimum grade of “B” is required.

Journalism and Strategic Media Core

- JOUR 1023 Media and Society
- JOUR 1033 Fundamentals of Journalism
- JOUR 3633 Media Law
- JOUR 4333 Ethics in Journalism
- JOUR 4981 Journalism Writing Requirement

1. The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.
2. A cultural/diversity-approved HIST course is allowed to also satisfy the major’s 3000-4000 level HIST course requirement.
3. A cultural/diversity-approved JOUR course is also allowed to satisfy the major’s 3000-4000 level HIST course requirement.
4. SOCI 2013 is a prerequisite to SOCI 3193.

Advertising/Public Relations Concentration:

- JOUR 3723 Advertising Principles
- JOUR 3743 Public Relations Principles
- JOUR 4143 Public Relations Writing
- JOUR 4423 Creative Strategy and Execution
- JOUR 4453 Media Planning & Strategy
- or JOUR 4473 Account Planning

Plus any two additional journalism courses. It is recommended that one course be an internship.

- MKTG 3433 Introduction to Marketing
- MKTG 3553 Consumer Behavior
- MKTG 3653 Sales and Personal Selling
Students seeking admission to the Advertising/Public Relations Concentration must have an overall GPA of 2.5 or higher: 1) to be admitted to the Ad/PR Sequence, and 2) to enroll in JOUR 3723 and JOUR 3743.

Students in the Advertising/Public Relations Concentration are required to earn a grade of “B” or higher in both JOUR 3723 and JOUR 3743 to qualify to take all upper level Advertising/Public Relations Concentration courses. Students may retake JOUR 3723 and JOUR 3743 only once to earn a grade of “B” or higher.

Writing Requirement: Successful completion of JOUR 4981 with a grade of “C” or better satisfies the Fulbright College Writing Requirement for journalism majors.

Journalism B.A. with Advertising-PR Sequence
Eight-Semester Degree Program
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. The journalism major includes three sequences: News/Editorial, Broadcast, and Advertising/Public Relations. Each is shown below. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all university/state core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

</tr>
<tr>
<td>JOUR 4981</td>
<td>Journalism Writing Requirement</td>
</tr>
</tbody>
</table>

1 The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.
A cultural/diversity-approved HIST course is allowed to also satisfy the major’s 3000-4000 level HIST course requirement.

A cultural/diversity-approved JOUR course is also allowed to satisfy a JOUR elective.

SOCI 2013 is a prerequisite to SOCI 3193.

Broadcast Concentration:

JOUR 2032 Broadcast News Reporting I 3
& JOUR 2031L and Broadcast News Reporting I Laboratory 3
JOUR 3072 Broadcast News Reporting II 3
& JOUR 3071L and Broadcast News Reporting II Laboratory 3
JOUR 4863 Television News Reporting I 3
JOUR 4873 Television News Reporting II 3
JOUR 4893 Television News Producing 3

Plus any two additional journalism courses 6

It is recommended that one course choice be an internship and another choice be JOUR 4883.

Writing Requirement: Successful completion of JOUR 4981 with a grade of “C” or better satisfies the Fulbright College Writing Requirement for journalism majors.

Journalism B.A. with Broadcast Concentration

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

An Advanced Literature Course
A Language Literature Course

Journalism and Strategic Media Courses
A minimum of 34 semester hours in journalism are required, including 21 hours of journalism in one of the concentrations below. A minimum grade of "C" is required in all journalism courses that serve as prerequisites for advanced journalism courses. In certain courses a minimum grade of "B" is required.

Journalism and Strategic Media Core

JOUR 1023 Media and Society 3
JOUR 1033 Fundamentals of Journalism 3
JOUR 3633 Media Law 3
JOUR 4333 Ethics in Journalism 3
JOUR 4981 Journalism Writing Requirement 1

Select one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 2003</td>
<td>Introduction to Philosophy (ACTS Equivalency = PHIL 1103)</td>
</tr>
<tr>
<td>PHIL 2103</td>
<td>Introduction to Ethics (ACTS Equivalency = PHIL 1003)</td>
</tr>
</tbody>
</table>

Any Philosophy Course at the 3000-level or higher (recommended: PHIL 3103 Ethics and the Professions)

PLSC 2813 Introduction to International Relations 3
PLSC 3233 The American Congress 3
PLSC 4233 The American Chief Executive 3
ECON 2143 Basic Economics: Theory and Practice 3-6
ECON 2023 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) 3
ECON 2013 Principles of Microeconomics (ACTS Equivalency = ECON 2203)

COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003) 3

3000-4000 level HIST course 3

Cultural/Diversity Requirement: 3 hours of cultural/diversity studies to be selected from the following or as approved by the School of Journalism and Strategic Media:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 4533</td>
<td>Middle East Cultures</td>
</tr>
<tr>
<td>COMM 4343</td>
<td>Intercultural Communication</td>
</tr>
<tr>
<td>HIST 3233</td>
<td>African American History to 1877 2</td>
</tr>
<tr>
<td>HIST 3243</td>
<td>African American History Since 1877 2</td>
</tr>
<tr>
<td>HIST 3263</td>
<td>History of the American Indian 2</td>
</tr>
<tr>
<td>JOUR 3263</td>
<td>African Americans in Film 3</td>
</tr>
<tr>
<td>JOUR 4923</td>
<td>History of the Black Press 3</td>
</tr>
<tr>
<td>SCWK 3193</td>
<td>Human Diversity and Social Work</td>
</tr>
<tr>
<td>SOCI 3193</td>
<td>Race, Class, and Gender in America 4</td>
</tr>
</tbody>
</table>

Other cultural/diversity courses as approved by the School of Journalism and Strategic Media.

1 The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.
2 A cultural/diversity-approved HIST course is allowed to also satisfy the major's 3000-4000 level HIST course requirement.
3 A cultural/diversity-approved JOUR course is also allowed to satisfy a JOUR elective.
4 SOCI 2013 is a prerequisite to SOCI 3193.
News/Editorial Concentration:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 2013 News Reporting I</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 3013 Editing</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 3123 Feature Writing</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 3023 News Reporting II</td>
<td>3</td>
</tr>
<tr>
<td>or JOUR 4503 Magazine Writing</td>
<td></td>
</tr>
<tr>
<td>or JOUR 4553 Magazine Editing and Production I</td>
<td></td>
</tr>
</tbody>
</table>

Plus any three additional journalism courses. 9

It is recommended that one course choice be an internship.

Writing Requirement: Successful completion of JOUR 4981 with a grade of "C" or better satisfies the Fulbright College Writing Requirement for journalism majors.

Journalism B.A. with News/Editorial Sequence

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. The journalism major includes three sequences: News/Editorial, Broadcast, and Advertising/Public Relations. Each is shown below. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

</tbody>
</table>

Other cultural/diversity-related topics as approved by the School of Journalism and Strategic Media

1. The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.

2. A cultural/diversity-approved HIST course is allowed to also satisfy the major’s 3000-4000 level HIST course requirement.

3. A cultural/diversity-approved JOUR course is also allowed to satisfy a JOUR elective.

**The Journalism requirements for this combined major are as follows:**

The journalism requirement may be satisfied by 24 semester hours of courses, including JOUR 1023, JOUR 1033, and JOUR 3633. The remaining 15 hours are filled from the following concentrations.

**News/Editorial Concentration:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 2013 News Reporting I</td>
<td>3</td>
</tr>
<tr>

<td>3</td>
</tr>
<tr>
<td>JOUR 4863 Television News Reporting I</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 4873 Television News Reporting II</td>
<td>3</td>
</tr>
</tbody>
</table>
The English requirements for this combined major are as follows:

24 hours of English courses (not counting ENGL 0002, ENGL 1013, ENGL 1023, and ENGL 2003) to include any nine hours of survey courses chosen from:

- ENGL 2303 English Literature from the Beginning through the 17th Century (ACTS = ENGL 2673)
- ENGL 2313 Survey of English Literature from 1700 to 1900 (ACTS Equivalency = ENGL 2683)
- ENGL 2323 Survey of Modern and Contemporary British, Irish, and Postcolonial Literature
- ENGL 2343 Survey of American Lit from the Colonial Period through Naturalism (ACTS Equivalent = ENGL 2653)
- ENGL 2353 Survey of Modern and Contemporary American Literature (ACTS Equivalency = ENGL 2663)

and 15 additional hours chosen from English courses numbered above 3000 and WLIT courses above 2333.

In addition, students are strongly recommended to complete up through the 2013 Intermediate II level of a world language.

Writing Requirement: All upper division English courses require a research or an analytical paper except ENGL 4003 and the courses in creative writing: (ENGL 3013, ENGL 4013, ENGL 4023, and ENGL 4073). For this reason, all students who fulfill the requirements for the combined major in Journalism and English thereby fulfill the Fulbright College writing requirement.

Assessment Requirement: Every senior English major must take the program assessment exam administered by the department each spring semester to graduate. Exam results will not affect GPA, although the student’s score will be noted on his or her permanent academic record. This requirement may be waived in extraordinary circumstances by the department’s Director of Undergraduate Studies. Contact your adviser for more information.

Combined Major in English and Journalism
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

Requirements for the Combined Major in Journalism and Political Science

All university students must fulfill the minimum University Core requirements (p. 97). A minimum of 72 hours in non-journalism courses must be applied toward the 120 hours required by the college for a Bachelor of Arts degree. Bolded courses from the list below may be applied to portions of the University Core requirements.

Select one of the following: 3

- MATH 2033 Mathematical Thought
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)
- MATH 2053 Finite Mathematics
- MATH 2183 Mathematical Reasoning in a Quantitative World or Higher Level MATH
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)

Intermediate I (course number 2003) of a World Language 1 3-6

Select one of the following: 3

- WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113)
- WLIT 1123 World Literature II (ACTS Equivalency = ENGL 2123)
- An Advanced Literature Course
- A Language Literature Course

Select one of the following: 3

- PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103)
- PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003)
- Any Philosophy Course at the 3000-level or higher (recommended: PHIL 3103 Ethics and the Professions)
- A second PLSC course (the following are recommended options): 3
  - PLSC 2813 Introduction to International Relations
  - PLSC 3233 The American Congress
  - PLSC 4233 The American Chief Executive
- ECON 2143 Basic Economics: Theory and Practice 3-6
  - or ECON 2013 & ECON 2023 Principles of Macroeconomics (ACTS Equivalency = ECON 2103) and Principles of Microeconomics (ACTS Equivalency = ECON 2203)
- COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003) 3
- 3000-4000 Level HIST Course 3
- 3 hours of cultural/diversity studies to be selected from the following or as approved by the School of Journalism and Strategic Media. Select one of the following: 3
  - ANTH 4533 Middle East Cultures
  - COMM 4343 Intercultural Communication
  - HIST 3233 African American History to 1877
  - HIST 3243 African American History Since 1877
  - HIST 3263 History of the American Indian
  - SCWK 3193 Human Diversity and Social Work
  - JOUR 3263 African Americans in Film
  - JOUR 4923 History of the Black Press
  - SOCI 3193 Race, Class, and Gender in America
- Other cultural/diversity-related topics as approved by the School of Journalism and Strategic Media

1 The number of credit hours taken to complete this level of proficiency depends on placement level in the language course sequence.

* A cultural/diversity-approved HIST course is allowed to also satisfy the major’s 3000-4000 level HIST course requirement.
** A cultural/diversity-approved JOUR course is also allowed to satisfy a JOUR elective.

### Political Science Requirements

The political science requirement for the combined major may be satisfied by 24 semester hours of courses, including PLSC 2003, PLSC 2013, PLSC 4373, and either an additional 15 hours of advanced political science courses elected entirely from American political affairs courses:

#### American Political Affairs

### Journalism Requirements

The journalism requirement may be satisfied by a minimum of 24 semester hours of JOUR courses, including JOUR 1023, JOUR 1033, and JOUR 3633. The remaining hours are filled from the following options.

Those wishing to emphasize Political Advertising and Promotion take the following courses:

#### Advertising/Public Relations Concentration, Political Advertising and Promotion Track:

- JOUR 3723 Advertising Principles: 3
- JOUR 3743 Public Relations Principles: 3
- JOUR 4043 Government and the Media: 3
- Six hours of Advanced Journalism Courses: 6

Students should check course prerequisites.

Those wishing to pursue the Public Affairs Reporting track can choose from either news/editorial or broadcast concentration:

#### Broadcast Concentration, Public Affairs Reporting Track:

- JOUR 2032 & JOUR 2031L Broadcast News Reporting I and Broadcast News Reporting I Laboratory: 3
- JOUR 3072 & JOUR 3071L Broadcast News Reporting II and Broadcast News Reporting II Laboratory: 3
- JOUR 4863 Television News Reporting I: 3
- JOUR 4873 Television News Reporting II: 3

#### News/Editorial Concentration, Public Affairs Reporting Track:

- JOUR 2013 News Reporting I: 3
- JOUR 3013 Editing: 3
- JOUR 3023 News Reporting II or JOUR 4503 Magazine Writing: 3
- or JOUR 4553 Magazine Editing and Production I: 3
- JOUR 4043 Government and the Media: 3
- One additional Journalism course: 3

### Writing Requirement

Students pursuing the journalism/political science combined major may satisfy the college writing requirement through either the Department of Journalism or through the Department of Political Science.

**In Journalism:** Successful completion of JOUR 4981 with a grade of “C” or better will satisfy the Fulbright College Writing Requirement.

**In Political Science:** The college writing requirement is fulfilled by submitting an acceptable research/analytical paper to the department for approval at least four weeks prior to graduation. The paper may be derived from completion of an honors essay (PLSC 499VH), a senior thesis (PLSC 498V), or some other advanced course in political science. The student is urged to consult with his or her faculty adviser no later than early in the first semester of the senior year.

### Journalism/Political Science B.A.

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on
placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Requirements for Honors in Journalism and Strategic Media

The Journalism and Strategic Media Honors Program gives undergraduates a chance to pursue journalistic research in the context of other academic disciplines. Honors candidates carry out independent study and research under the guidance of the journalism faculty and participate in honors classes in journalism and at least one other discipline. Outstanding student achievement will be recognized by the award of distinction “Journalism Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in cases of exceptional achievement and are based on the candidate’s total honors studies program. To be considered for such distinctions, students must earn a minimum cumulative 3.50 grade-point average in journalism.

Journalism School and College Honors students must complete a minimum of 13 hours in honors credits and a thesis. These requirements are specified as follows:

Journalism School and College Honors students must:

1. Enter the program no later than the first semester of their junior year, and register for JOUR 498VH Honors Journalism Writing Requirement beginning with the first semester of the junior year,
2. Take at least 1 credit of JOUR 498VH every fall and spring semester of the junior and senior year,
3. Complete at least one journalism honors colloquium,
4. Complete the journalism honors core research course JOUR 4943H (offered every spring semester only),
5. Complete an approved honors colloquium in a second discipline,
6. Complete and orally defend an honors thesis based on honors courses of study, and
7. Earn an overall cumulative 3.50 grade-point average and a cumulative 3.50 grade-point average in journalism courses.

In addition, journalism majors pursuing college honors must also satisfy all requirements for the Fulbright College Honors Program and the Honors Core Curriculum for a Bachelor of Arts found elsewhere in this catalog.

More specific information on the requirements for honors in Journalism is available from the School of Journalism and Strategic Media Honors adviser.

Journalism (B.A.) Teacher Licensure Requirements: Students interested in obtaining teacher licensure may not obtain licensure in journalism alone. Licensure in another discipline must be obtained, and journalism may be added as an additional area of licensure. Please refer to the Secondary Education Requirements for Fulbright College Students (p. 201) or contact your departmental adviser or an adviser in the College of Education and Health Professions.

Faculty

Brown, Lucy M., Ph.D., M.A. (University of Texas, Austin), M.S. (Pratt Institute), Dip.G.A. (Edna Manley School for the Visual Arts, Jamaica), Clinical Assistant Professor, 2013.

Carpenter, Dale, M.A. (Emory University), B.A. (Vanderbilt University), Professor, 1994.

Chung, Jee-Young, Ph.D. (University of Alabama), M.A. (University of Houston), B.S., B.A. (Seoul Women’s University), Assistant Professor, 2015.

Foley, Larry D., M.S. (University of Central Arkansas), B.A. (University of Arkansas), Professor, 1993.

Foster, Bobbie, M.A. (University of Arkansas), Instructor, 2015.

Fosu, Ignatius, Ph.D., M.A. (University of Alabama), B.A. (University of Ghana, Accra), Associate Professor, 2005.

Gould, Kara, Ph.D. (University of Utah), M.A. (Wheaton College), B.A. (Wheaton College), Assistant Professor, 2016.

Jordan, Gerald Bernard, M.S.J. (Northwestern University), B.A. (University of Arkansas), Associate Professor, 1995.

King, Tiffany, M.A. (University of Arkansas), B.J. (University of Missouri), Instructor, 2014.

McCaflrey, Raymond, Ph.D. (University of Maryland), M.A. (University of Colorado), M.A. (Columbia University), B.A. (Fairfield University), Assistant Professor, 2014.

Schulte, Bret J., M.F.A. (George Mason University), B.A. (University of Nebraska-Lincoln), Associate Professor, 2008.

Shelton, Gina, B.A. (Mississippi State University), Instructor, 2013.

Stockdell, Rick, M.A. (Kansas State University), B.S. (Northwest Missouri State University), Associate Professor, 1980.

Thein, Ricky, M.A. (Southern Illinois University), B.A. (University of Central Florida), Clinical Assistant Professor, 2013.

Watkins, Patsy, Ph.D. (University of Iowa), M.A., B.A. (University of Texas, Austin), Associate Professor, 1983.

Wells, Rob, Ph.D. (University of Maryland), M.A. (St. John’s College), Assistant Professor, 2016.

Wicks, Jan L., Ph.D., M.A. (Michigan State University), B.A. (University of Southwest Louisiana), Professor, 1994.

Latin American and Latino Studies (LALS)

Kirstin Erickson
Director of Studies
330 Old Main
479-575-5600
http://lasst.uark.edu/

Students interested in Latin America and wishing to maximize their potential for academic, business, professional, or government careers related to the area, may earn a second major or a minor in Latin American and Latino studies together with a primary major in another discipline in Fulbright College. Advice on appropriate combinations of Latin American and Latino studies with other primary majors as well as individual approval of such combinations may be obtained from the Latin American and Latino studies program director. New students in this program must officially declare both majors and notify the Latin American and Latino studies program director. Degree checks must also be cleared with the program director. Freshmen and sophomores considering this program are advised to begin their study of Spanish or Portuguese as early as possible.
Requirements for a Second Major in Latin American and Latino Studies

In addition to the requirements of a primary departmental major, students pursuing a second major in Latin American and Latino Studies must complete the following:

**Language Competence**: The student must complete SPAN 2013, PORT 2013, or equivalent. Provisions are available for recognition of language skills gained by other means than formal course work taken at the University of Arkansas: See information under the entry in the department of world languages. Further functional work in Spanish or Portuguese as well as study and residence in a Latin American nation can serve to strengthen language competence and are encouraged.

**Colloquium**: The student must complete at least three hours in the interdepartmental colloquium, LALS 4003. The Colloquium may be repeated, with the adviser's approval, provided the topic is different.

**Electives**: The student must complete 18 hours, in addition to LALS 4003, in courses with specific Latin American or Latino content, or individualized study options under instructors teaching Latin American or Latino Studies. Students choosing to take individualized readings or directed research courses must obtain the approval of the director of the area studies program. In the selection of the electives, the following conditions apply:

1. Courses must be selected from at least three different departments.
2. A maximum of nine hours may be submitted from courses taken in any one department.

The following courses and individualized study options may be taken in fulfillment of elective requirements:

**Anthropology**
- ANTH 2013 Introduction to Latin American Studies 3
- ANTH 3503 Power and Popular Protest in Latin America 3
- ANTH 3553 Religion in Latin America 3
- ANTH 4263 Identity and Culture in the U.S.-Mexico Borderlands 3

**Art History**
- ARHS 4563 Pre-Columbian Art 3
- ARHS 4563H Honors Pre-Columbian Art 3
- ARHS 4573 Artists of New Spain 3
- ARHS 4573H Honors Artists of New Spain 3

**Economics**
- ECON 3843 Economic Development, Poverty & the Role of the World Bank and IMF in Low-Income Countries 3
- ECON 3853 Emerging Markets 3

**English**
- ENGL 3543 Topics in U.S. Latino/Latina Literature and Culture (English) 3
- ENGL 4523 Studies in U.S. Latino/Latina Literature and Culture 3

**History**
- HIST 3073 Women and Gender in Modern Latin American History 3
- HIST 3193 The Making of the Modern Caribbean 3
- HIST 3203 Colonial Latin America 3
- HIST 3213 Modern Latin America 3
- HIST 3283 U.S. Latinos and Latinas through Film 3
- HIST 3303 U.S. Immigration History 3
- HIST 3313 Latinos and Latinas in the U.S. 3
- HIST 3843 Special Topics in Latin American and Caribbean History 3
- HIST 4173 The Latin American City 3
- HIST 4233 The Atlantic World, 1400-1850 3
- HIST 4443 Frontiers and Borderlands in Colonial Latin America 3
- HIST 4743 The Cold War in Latin America: Revolutions, Violence, and Politics 3
- HIST 4783 History of Modern Mexico 3
- HIST 4813 Africans and Slavery in Colonial Latin America 3
- HIST 4823 Black Freedom in the Age of Emancipation 3
- HIST 7313 Reading Seminar in Latin American History 3
- HIST 7323 Research Seminar in Latin American History 3

**Latin American and Latino Studies**
- LALS 2013 Latin American Studies 3
- LALS 399VH Honors Thesis 1-6
- LALS 4003 Latin American Studies Colloquium 3

**Music**
- MUHS 4253 Special Topics in Music History (Latin American Music) 3

**Political Science**
- PLSC 3263 Latino Politics 3
- PLSC 3573 Governments and Politics of Latin America 3
- PLSC 3593 Politics of Mexico 3
- PLSC 4793 Latino/Hispanic Political Thought 3
- PLSC 4873 Inter-American Politics 3

**Portuguese**
- PORT 3013 Brazilian Cinema 3
- PORT 3103 Introduction to Luso-Afro-Brazilian Literature 3
- PORT 3203 Brazilian Cultural and Social Issues 3

**Sociology**
- SOCI 3173 Latinos, Migration, and the U.S. South 3

**Spanish**
- SPAN 3103 Cultural Readings 3
- SPAN 3113 Introduction to Literature 3
- SPAN 3123 Spanish for Heritage Speakers II 3
- SPAN 4133 Survey of Spanish-American Literature I 3
- SPAN 4193 Survey of Spanish-American Literature II 3
- SPAN 4223 Latin American Civilization 3
- SPAN 4243 Literature and Culture in the Hispanic United States 3
- SPAN 4253 Latin American Cinema and Society 3
- SPAN 475V Special Investigations 1-6
- SPAN 5253 Colonial Literature and Culture 3
- SPAN 5393 19th Century Spanish American Literature 3
- SPAN 5403 Spanish American Theatre 3
- SPAN 5463 20th Century Spanish American Literature 3
- SPAN 5703 Special Topics 3
- SPAN 5943 U.S. Latino/a Literatures and Cultures 3
Requirements for a Minor in Latin American and Latino Studies:
Students wishing to minor in Latin American and Latino Studies must fulfill the Colloquium (LALS 4003) and the language requirements described in the combined major, and must complete at least 12 hours from among the electives listed in the combined major. Electives must include courses from at least two different academic departments. Included in the 12 hours may be 3 additional hours of LALS 4003, provided the topic is different.

Requirements for Honors in Latin American and Latino Studies: The Honors Program in Latin American and Latino Studies gives junior and senior students of high ability the opportunity to enroll in enriched courses and conduct independent research culminating in an honors thesis. In addition to satisfying the general Fulbright College requirements for graduation and the basic eligibility requirements for honors as established by the Honors Council, candidates for honors in Latin American and Latino Studies must complete 12 hours of honors credit in partial satisfaction of requirements for the co-major. One to six of these may be thesis hours (LALS 399VH). The preferred method for satisfying the remaining hours is to enroll in the colloquium at least once for honors credit (LALS 4003H) and to take relevant honors colloquia or graduate courses (with permission) in one of the departments contributing to this interdisciplinary area study. The thesis committee shall include a representative from the major discipline (in the case of multiple majors, from the discipline contributing most significantly to the topic). Successful completion of these requirements will be recognized by the award of the distinction "Latin American and Latino Studies Scholar Cum Laude" at graduation. Higher degree distinctions are recommended only in exceptional cases and are based upon the whole of the candidate’s program of honors studies.

Mathematical Sciences (MASC)
Mark Johnson
Chair of the Department
309 Science Engineering Building
479-575-3351

Department of Mathematical Sciences Website (http://fulbright.uark.edu/departments/math/)

The Department of Mathematical Sciences is committed to high-level mathematics instruction, preparing students for careers in secondary education, actuarial science and industry, and for entrance into graduate studies in mathematics and statistics. The department offers two majors, one leading to a Bachelor of Arts degree and a second leading to a Bachelor Science degree.

The Bachelor of Arts degree is often sought by future secondary education majors or by students wishing a broader exposure to the humanities. The Bachelor of Science degree is sought by students who intend to go on to graduate studies or who would like a deeper and broader understanding of higher mathematics. The Department of Mathematical Sciences is committed to the values of a broad, interdisciplinary education, highlighting the utility and value of the mathematics degree in a wide variety of careers and disciplines.

Enrollment in or completion of any course at the level of MATH 2554 or higher is required to enter into the mathematics program.

Requirements for a Major in Mathematics, B.A. Degree: Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 97), the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), and the following course requirements. Bolded courses from the list below may be applied to portions of the University Core requirements.

Eight hours from the following science courses:

MATH 3113  Introduction to Abstract Algebra I 3
MATH 3513  Elementary Analysis 3
MATH 4933  Mathematics Major Seminar 3

Twelve semester hours of courses in mathematics selected from MATH 2584, CSCE 4133 or MATH and STAT courses numbered at the 3000-level or higher.

The completion of a senior writing project under the direction of a faculty member. This is typically carried out in MATH 4933, or is satisfied by an honors thesis.

It is recommended that MATH 2803 be taken as early as possible in the program.

Mathematics B.A.
Eight-Semester Degree Program
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1  Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2  Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

Requirements for a Major in Mathematics, B.S. Degree:

Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 97), the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), and the following liberal arts and major course requirements. Bolded courses from the list below may be applied to portions of the University Core requirements.

Eight total hours from one of the following natural science sequences:

Biology:

<table>
<thead>
<tr>
<th>Course</th>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL &amp; BIOL 1541L 1014 Lecture)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>and Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

and choose one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 1603 Principles of Zoology (ACTS Equivalency = BIOL &amp; BIOL 1601L 1054 Lecture)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>and Principles of Zoology Laboratory (ACTS Equivalency = BIOL 1054 Lab)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
BIOL 1613 & BIOL 1611L  Plant Biology (ACTS Equivalency = BIOL 1034 Lecture) and Plant Biology Laboratory (ACTS Equivalency = BIOL 1034 Lab)

BIOL 2013 & BIOL 2011L  General Microbiology (ACTS Equivalency = BIOL 2004 Lecture) and General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab)

Chemistry:
- CHEM 1103  University Chemistry I (ACTS Equivalency = & CHEM 1101LCHEM 1414 Lecture) and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab)
- CHEM 1123  University Chemistry II (ACTS Equivalency = & CHEM 1121LCHEM 1424 Lecture) and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab)

Geology:
- GEOS 1113  General Geology (ACTS Equivalency = GEOL & GEOS 1111L1114 Lecture) and General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab)
- GEOS 1133  Earth Science (ACTS Equivalency = GEOL 1124 & GEOS 1131L1114 Lecture) and Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab)

Physics:
- PHYS 2054  University Physics I (ACTS Equivalency = PHYS 2034)
- PHYS 2074  University Physics II (ACTS Equivalency = PHYS 2044 Lecture)

Completion of eight additional hours at the 3000-level or higher not in Mathematics or Statistics chosen with department approval, completion of the UAteach curriculum, or completion of the Fulbright Four Year Honors Core for a Bachelor of Science degree. (Hours required will vary.)

As a part of the requirements for a B.S. degree with a major in mathematics, the student must also complete the following 27 hours:

MATH 2574  Calculus III (ACTS Equivalency = MATH 2603) 4
MATH 2584  Elementary Differential Equations 4
MATH 2803  Transition to Advanced Mathematics 3
MATH 3093  Abstract Linear Algebra 3
MATH 3113  Introduction to Abstract Algebra I 3
MATH 4513  Advanced Calculus I 3
MATH 4933  Mathematics Major Seminar 3
CSCE 2004  Programming Foundations I 4

And the completion of a senior writing project under the direction of a faculty member. 1

It is recommended that MATH 2803 be taken as early as possible in the program.

1  This is typically carried out in MATH 4933 or satisfied with an honors senior thesis.

Concentration 1 (Applied)
A program for the student who wishes to prepare for either applied work in mathematics or graduate work in some field other than mathematics or statistics. Requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

And the completion of a senior writing project under the direction of a faculty member. 1
It is recommended that MATH 2803 be taken as early as possible in the program.

1 This is typically carried out in MATH 4933 or satisfied with an honors senior thesis.

## Concentration 2 (Pure)
A program for the student who is seeking a broad background in mathematics or who wishes to study mathematics at the graduate level.

**Requirements:**

MATH 4113 Introduction to Abstract Algebra II or MATH 4523 Advanced Calculus II 3

MATH 4443 Complex Variables 3

Four MATH or STAT electives numbered 3000 or higher (students may also take CSCE 4133). 12

Total Hours 18

---

### Mathematics, B.S., Concentration 2 (Pure) Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program.

Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

<td></td>
<td></td>
</tr>
</tbody>
</table>
and choose one of the following:

**BIOL 1603**  
Principles of Zoology (ACTS Equivalency = BIOL 1054 Lecture)  
and Principles of Zoology Laboratory (ACTS Equivalency = BIOL 1054 Lab)

**BIOL 1613**  
Plant Biology (ACTS Equivalency = BIOL 1034 Lecture)  
and Plant Biology Laboratory (ACTS Equivalency = BIOL 1034 Lab)

**BIOL 2013**  
General Microbiology (ACTS Equivalency = BIOL 2004 Lecture)  
and General Microbiology Laboratory (ACTS Equivalency = BIOL 2004 Lab)

**Chemistry:**

**CHEM 1103**  
University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture)  
and University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab)

**CHEM 1123**  
University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture)  
and University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab)

**Geology:**

**GEOS 1113**  
General Geology (ACTS Equivalency = GEOL 1114 Lecture)  
and General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab)

**GEOS 1133**  
Earth Science (ACTS Equivalency = GEOL 1124 Lecture)  
and Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab)

**Physics:**

**PHYS 2054**  
University Physics I (ACTS Equivalency = PHYS 2034)

**PHYS 2074**  
University Physics II (ACTS Equivalency = PHYS 2044 Lecture)

Completion of eight additional hours at the 3000-level or higher  
and the completion of a senior writing project under the direction of a faculty member.  
It is recommended that MATH 2803 be taken as early as possible in the program.

1 This is typically carried out in MATH 4933 or satisfied with an honors senior thesis.

### Concentration 3 (Statistics)

A program for the student who wishes to emphasize statistics or who intends to study statistics at the graduate level. Requirements:

- **MATH 4353**  
Numerical Linear Algebra  
3

- **STAT 3013**  
Introduction to Probability  
3

- **STAT 4003**  
Introduction to Probability Theory  
3

- **STAT 4001L**  
Statistics Methods Laboratory  
1

- **STAT 4101L**  
Introduction to R  
3

Two MATH or STAT electives numbered 3000 or higher (students may also take CSCE 4133).

Strongly recommended electives in this program are STAT 5103 and STAT 5113.

Total Hours  
19

A 2.00 cumulative grade-point average on all work completed in the department of mathematical sciences will be required for graduation with a B.A. or B.S. degree.

### Mathematics, B.S., Concentration 3 (Statistics)

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program.

Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Year Total: 14 14
A grade of C or better in the following courses:

**Requirements for a Minor in Mathematics**

MATH 2603  
MATH 2564  
CSCE 2004 Programming Foundations I  
General elective or coursework, as needed  
MATH 2584 Elementary Differential Equations  
STAT 3013 Introduction to Probability  
U.S. History University/State Core requirement  
Fine Arts or Humanities University/State Core requirement, as needed  
General elective or coursework, as needed  
Year Total: 15  

**Total Units in Sequence:** 120

**Requirements for a Minor in Statistics**

Coursework used toward the mathematics major may not be applied toward a statistics minor.

MATH 2554  
12 hours of STAT courses, including 9 hours in courses numbered 3000 and above  
Year Total: 16

**Requirements for Departmental Honors in Mathematics:**

The Departmental Honors Program in Mathematics is designed for the superior student and is intended to help the student develop a more comprehensive view of the nature of mathematics. The program provides a vehicle for the recognition of the achievements of work beyond the usual course of study and earns the student the distinction “Mathematics Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

**Graduation with honors:** The candidate must satisfy the requirements set forth by the Honors Council. The candidate must also obtain at least a 3.50 grade-point average in CSCE 2004 and all 2000-level or higher MATH/STAT courses required for the degree. In addition, a grade of “D” or “F” in any other course offered by the department disqualifies a student for honors.

Candidates must take 2-4 hours of MATH 498V at least one semester before the student’s graduating semester. This course will require significant progress toward an honors thesis to be presented and defended before the student’s honors committee. The quality of this paper and its defense, along with the execution of the rest of the student’s honors program and overall academic performance, will be used in determining the distinction between Honors and High Honors.

**Mathematics (B.A. or B.S.) Teacher Licensure Requirements:**

Students wishing to pursue licensure through the UTeach undergraduate curriculum should consult with a UTeach adviser, uteach@uark.edu.

Students wanting to teach mathematics in middle school should consult with a middle level adviser in the College of Education and Health Professions.

**Faculty**

Akeroyd, John R., Ph.D., M.A. (Indiana University at Bloomington), B.A. (University of Louisville), Professor, 1986.

Arnold, Mark E., Ph.D., B.S. (Northern Illinois University), A.S. (Rock Valley College), Associate Professor, 1993.

Barton, Ariel, Ph.D., M.S. (University of Chicago), B.S. (Harvey Mudd College), Assistant Professor, 2016.
Bradshaw, Zachary, Ph.D. (University of Virginia), B.S. (Virginia Commonwealth University), Assistant Professor, 2017.
Brewer, Dennis W., Ph.D., M.A. (University of Wisconsin), B.A. (Sterling College), Professor, 1975.
Chakraborty, Avishek, Ph.D (Duke University), M.S., B.S. (Indian Statistical Institute), Assistant Professor, 2014.
Clay, Matt, Ph.D., M.S. (University of Utah), B.S. (University of Oregon), Associate Professor, 2012.
Cleaveland, Lynn L., Ed.D. (University of Arkansas), M.S. (Clemson University), Instructor, 1997.
Crisel, Brandon L., M.S., B.S. (Arkansas State University), Instructor, 2009.
Datta, Jyotishka, Ph.D. (Purdue University), M.Stat., B.Stat. (Indian Statistical Institute, Kolkata, India), Assistant Professor, 2016.
Day, Matthew B., Ph.D., M.S. (University of Chicago), B.S. (University of Texas), Associate Professor, 2011.
Dickerson, Elizabeth B., B.S. (Mississippi State University), Lecturer, 2013.
Dingman, Shannon Wayne, Ph.D., M.S. (University of Missouri-Columbia), M.S. (Pittsburg State University), Associate Professor, 2007.
Feldman, William A., Ph.D. (Queen’s University), M.S. (Northwestern University), B.S. (Tufts University), Professor, 1971.
Fincher, Samuel Mack Edwin, M.S. (University of Arkansas), B.S. (University of the Ozarks), Instructor, 2009.
Gastineau, Jana M., M.S., M.A., B.S. (Arkansas State University), Instructor, 2011.
Goodman-Strauss, Chaim, Ph.D., B.S. (University of Texas at Austin), Professor, 1994.
Harrington, Phil, Ph.D., M.S. (University of Notre Dame), B.S. (Whitworth College), Associate Professor, 2009.
Harris, Edmund O., Ph.D. (Imperial College, London), M.M. (University of Warwick), Clinical Assistant Professor, 2010.
Johnson, Mark, Ph.D. (Michigan State University), M.S. (Purdue University), B.S. (City University of New York, Brooklyn College), Professor, 1995.
Kaman, Tunlin, Ph.D. (Stony Brook University), M.S. (Istanbul Technical University), B.S. (Yildiz Technical University), Assistant Professor, 2017.
Luecking, Daniel H., Ph.D., M.S., B.A. (University of Illinois-Urbana-Champaign), Professor, 1981.
Mantero, Paolo, Ph.D. (Purdue University), M.Sc., B.Sc. (University of Genova, Italy), Assistant Professor, 2015.
Miller, Lance E., Ph.D. (University of Connecticut), M.S. (New Mexico State University), Assistant Professor, 2013.
Niu, Wenbo, Ph.D. (University of Illinois at Chicago), M.S., B.S. (Fudan University, China), Assistant Professor, 2015.
Petris, Giovanni, Ph.D., M.S., Ph.D. (Duke University), B.S. (Universita degli Studi di Milano, Italy), Professor, 1999.
Price, Heather Arielle, M.S., B.S. (University of Arkansas), Lecturer, 2006.
Raich, Andrew Seth, Ph.D., M.A. (University of Wisconsin-Madison), B.A. (Williams College), Professor, 2008.
Rieck, Yo’av, Ph.D. (University of Texas at Austin), B.A. (Israel Institute of Technology), Professor, 2000.
Ryan, John, Ph.D. (University of York), M.Sc. (University of Warwick), B.A. (University of York, Britain), Professor, 1990.
Stephenson, Barbara C., M.S. (West Virginia University), Instructor, 2004.
Tjani, Maria, Ph.D. (Michigan State University), M.S. (Purdue University), B.S. (University of Ioannina, Greece), Associate Professor, 2003.

Van Horn-Morris, Jeremy, Ph.D. (University of Texas at Austin), B.S. (University of Oregon), Associate Professor, 2012.
Woodland, Janet C., Ph.D., M.A. (State University of New York at Stony Brook), B.A. (King’s College), Clinical Assistant Professor, 1993.
Zhang, Qingyang, Ph.D. (Northwestern University), M.S. (Loyola University–Chicago), B.S. (Beijing Normal University), Assistant Professor, 2015.

Medical Humanities (MEDH)
The Medical Humanities Steering Committee includes:
• Trish Starks, history
• Jonathan Marion, anthropology
• Casey Kayser, English
• Warren Herold, philosophy

The medical humanities minor is designed to give students an overview of the ways in which various disciplines in the humanities inform, intersect with, and apply to understandings of the medical arts and sciences. The medical humanities minor is beneficial for students preparing for careers in health care, social services, and health-related fields, especially those who wish to understand how cultural, social, ethical, religious, literary, artistic, and other such perspectives can enrich conceptualizations and approaches to patient care.

Approaching medicine from a humanistic perspective will help future health care and social service practitioners view patients and individuals with greater empathy and awareness, as well as provide them with the tools to critically analyze their own experiences. The minor is also appropriate for students from disciplines within the humanities and social sciences interested in researching and practicing in such areas related to the historical, social, and cultural dynamics that have informed medical institutions and treatment; patient advocacy; medical law and ethics; narrative medicine; and art, music, or narrative therapies.

Requirements for Minor in Medical Humanities
A minimum of 18 hours consisting of the following:
Choose one introductory course:

<table>

PSYC 3013 Social Psychology
PSYC 3023 Abnormal Psychology
PSYC 3093 Developmental Psychology (ACTS Equivalency = PSYC 2103)
HDFS 4423 Adult Development

Total Hours 18

At least 9 hours must be in courses numbered 3000 or higher. A maximum of 6 hours will be allowed from any one department.

Students may petition the Medical and Health Humanities Steering Committee to have other courses accepted as requirements for the minor. Additionally, the committee intends to update these elective options if and when relevant new courses become available.

Medical Sciences and Dentistry
See under Combined Academic and Medical or Dental Degree (p. 198) and also the discussion of the pre-medical programs and the pre-dental program under the section on Health Related Professions (p. 201).

Medieval and Renaissance Studies (MRST)
Joshua Byron Smith, Director
Timothy Nelson, Assistant Director
333 Kimpel Hall
479-575-4301

Medieval and Renaissance Studies website (http://mrst.uark.edu)

The Medieval and Renaissance studies program is administered by the Humanities program. This program offers a minor that encourages undergraduate students to pursue an interdisciplinary study of all aspects of the Middle Ages and Renaissance as a complement to their major field of study.

Requirements for a Minor in Medieval and Renaissance Studies (MRST): (15-16 credit hours) Students must take MRST 2013 or HIST 1113 or HIST 1113H, or HUMN 1124H and complete at least 12 additional credit hours selected from the courses listed below. Other courses covering the chronological period between 500 C.E. and 1700 C.E. may also be accepted if approved by the program director or co-director. A maximum of 6 hours may be presented from courses taken in the student’s designated major.

Required Core Course
Select one of the following:

MRST 2013 Introduction to Medieval and Renaissance Studies (Note: MRST 2013/2013H may only satisfy either the MRST core course requirement or 3 credits of the additional MRST-approved coursework requirement, but not both.)

or
MRST 2013H Honors Introduction to Medieval and Renaissance Studies

of the additional MRST-approved coursework or the MRST core course requirement or 3 credits of

Twelve hours to be chosen from the following (a maximum of six hours may be presented from courses taken in the student’s major department):

MRST 3013 Special Topics in Medieval Studies
or MRST 30: Honors Special Topics in Medieval Studies
MRST 3023 Special Topics in Early Modern Studies
or MRST 30: Honors Special Topics in Early Modern Studies
MRST 4003 Medieval and Renaissance Studies Colloquium
or MRST 40: Honors Medieval and Renaissance Studies Colloquium
MRST 470V Special Topics in Medieval and Renaissance Studies
or MRST 470VH Honors Special Topics in Medieval and Renaissance Studies

ARHS 4843 Medieval Art
ARHS 4853 Italian Renaissance Art
ARHS 4863 Northern Renaissance Art
ARCH 2233 History of Architecture I
ARCH 4023 Advanced Architectural Studies
ENGL 3433 Introduction to Chaucer
ENGL 4303 Introduction to Shakespeare
LATN 5633 Medieval Latin
SPAN 5203 Medieval Spanish Literature
HIST 3033 Islamic Civilization
HIST 3513 History of China to 1644
HIST 4043 Late Antiquity and the Early Middle Ages
HIST 4053 Late Middle Ages
HIST 4073 Renaissance and Reformation, 1300-1600
HIST 4163 Tudor-Stuart England, 1485-1714
HIST 4393 Early Modern Islamic Empires, 1300-1750
HUMN 3923H Honors Colloquium (when offered as an approved MRST course)
HUMN 425V Colloquium (when offered as an approved MRST course)
Students interested in the Middle East and North Africa and wishing to maximize their potential for academic, business, professional, or government careers related to the area, may earn a second major in Middle East studies with a required primary major in an approved area in Fulbright College such as anthropology, economics, world languages, geography, history, journalism, and political science. New students entering the program are required to notify both the major adviser and the MEST director of their intention to participate. Freshmen and sophomores considering this program are advised to begin their study of a Middle East language as early as possible. Students may also earn a minor in Middle East studies.

Requirements for a Second Major in MEST. To attain a second major in MEST, the student is required to have a primary major in one of the following approved areas: anthropology, communication, economics (BA), French, geography, history, international relations, journalism, political science, sociology, or Spanish. Up to nine hours of courses in the primary major with Middle East content may be counted toward the MEST combined major with the permission of the MEST director.

Total Hours Required: (30 semester hours) Students must complete 3 hours in MEST 2003 Middle East Studies Colloquium, 6 hours of Arabic language beyond ARAB 2016, and 18 hours in additional MEST or MEST-approved core courses. MEST courses must be in at least two disciplines, with no fewer than 9 hours of MEST core courses in one discipline.

Introduction to Middle East Studies: (3 hours) Students must complete 3 hours of Introduction to Middle East Studies (MEST 2013).

Middle East Studies Colloquium: (3 hours) Students must complete at least 3 hours in MEST 4003 Middle East Studies Colloquium. The Colloquium may be repeated with a change of subject for a maximum of 6 credits.

Arabic Requirement: (6 hours of MEST credit) Students must complete 6 hours of Arabic language beyond (ARAB 2016 or ARAB 2013). Courses approved by the MEST director and completed in a summer intensive Arabic program or study-abroad program in an Arabic speaking country may substitute for all or part of this requirement.

MEST Core Courses: To count for MEST credit, courses not on the following list must be approved by the student’s MEST major adviser and the MEST director. Individualized readings, directed research courses, or courses in a second Middle Eastern language may count as MEST core courses with the approval of the MEST major adviser and MEST director.

Requirements for a Minor in Middle East Studies:

Total Hours Required: (18 semester hours)

Students must complete MEST 2003 Introduction to Middle East Studies (3 hours), MEST 4003 Middle East Studies Colloquium, 6 hours of Arabic beyond ARAB 2016, and a minimum of 6 additional hours of MEST core courses.

Introduction to Middle East Studies: (3 hrs) Students must complete three hours in the MEST 2013 Introduction to Middle East Studies.

Middle East Studies Colloquium: (3 hours) Students must complete three hours in MEST 4003 Middle East Studies Colloquium.

Arabic Requirement: (6 hours of MEST credit) Students must complete 6 hours of Arabic language beyond the Fulbright College language proficiency requirement (ARAB 2013). Courses approved by the MEST director and completed in a summer intensive Arabic program or study-abroad program in an Arabic speaking country may substitute for all or part of this requirement.

MEST Core Courses: (6 hours) Students must complete an additional 6 hours of MEST core courses supervised by faculty participating in the program. Students choosing to take individualized reading or directed research courses as a part of the minor must obtain the approval of the MEST director and their major adviser.
Requirements for Honors in MEST:
The Honors Program in Middle East Studies gives junior and senior students of high ability the opportunity to enroll in enriched courses and conduct independent research culminating in an honors thesis. In addition to satisfying the general Fulbright College requirements for graduation and the basic eligibility requirements for honors as established by the Honors Council, candidates for honors in Middle East Studies must complete 12 hours of honors credit in partial satisfaction of requirements for the co-major. One to 6 of these hours may be thesis hours (MEST 399V).

The preferred method for satisfying the remaining hours is to enroll in the colloquium at least once for honors credit (MEST 4003H) and to take relevant honors colloquia or graduate courses (with permission) in one of the departments contributing to this interdisciplinary area study. The thesis committee shall include a representative from the major discipline (in the case of multiple majors, from the discipline contributing most significantly to the topic). Successful completion of these requirements will be recognized by the award of the distinction “Middle East Studies Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in exceptional cases and are based upon the whole of the candidate’s program of honors studies.

Faculty
Angel, Christopher C., M.A. (University of Arkansas), B.A. (Arkansas Tech University), Instructor, Middle East Studies, 2015.
Haydar, Paula Marie, Ph.D., M.F.A. (University of Arkansas), M.Ed., B.S. (University of Massachusetts), Clinical Assistant Professor, Department of World Languages, Literatures and Cultures, 2006.

Music (MUSC)

Chair of the Department
201 Music Building
479-575-4701
music@uark.edu

Department of Music Website (https://fulbright.uark.edu/departments/music/)
The Department of Music offers two music majors, one leading to a Bachelor of Music and a second leading to a Bachelor of Arts. The department also offers a minor in music. The Bachelor of Music offers the choice of 11 concentrations as well as a program with elective studies in business.

The music department strives to enrich and inspire the human mind and spirit through the pursuit of excellence in creative activity, research, teaching, and service. The Department of Music is an accredited institutional member of the National Association of Schools of Music. The requirements for entrance and for graduation as set forth in this catalog are in accordance with the published regulations of that Association.

General Music Requirements
To achieve junior standing in the curriculum leading to the Bachelor of Arts degree with a major in music and the Bachelor of Music degree, the student must have completed 56 hours and must have maintained a cumulative grade average of “C” in all music courses, with the exception of ensemble, by the end of the fourth semester. The student must also have earned a grade average of not less than “B” in the major applied field of study during the sophomore year. This standing is prerequisite to all 3000-level courses and above in music.

Pursuant to enrolling in applied music courses, all music majors must audition for the music department faculty. Private study of the primary voice/instrument for music majors requires the successful completion of an audition for the instructor and consent of the Department of Music. Music majors are expected to own their own instruments. Some instruments are provided for student use only in certain circumstances and at the discretion of the music department.

All music majors, with exceptions noted below, are required to enroll in MUEN 1411 Men’s Chorus I or MUEN 1591 Women’s Chorus I during the first year of residence. Exceptions to the requirement would include all students pursuing the Bachelor of Music (B.M.) degree for whom voice or piano is the major applied area.

Piano Proficiency Requirement: Students pursuing a Bachelor of Music degree must pass a piano proficiency examination upon entering the University of Arkansas or must register in piano classes until this requirement is met. Students with previous piano training may take a piano placement exam and be advised to omit one or more semesters of Class Piano (MUAC 1221, MUAC 1231, MUAC 2221). Students will receive college credit for the omitted class piano courses if they validate their higher placement by passing an advanced piano course with a grade of “B” or better.

On the basis of prior study in music, a student may be advised to omit one or more semesters of Aural Perception (MUTH 1621, MUTH 1631, MUTH 2621). Students will receive college credit for the omitted aural perception courses when they have validated their higher placement by passing the course in which they are placed with a grade of “B” or better.

Writing Requirement: Students can meet the Fulbright College writing requirement by submission of a satisfactory term paper for MUED 4112 (music education majors) or MUHS 4253 (all other music majors).

Piano Performance Concentration
Requirements for a Major in Music leading to a Bachelor of Music Degree
In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

University Core Requirements including: 35

Total Hours: 120
MUPD 3801 Conducting I 1
Social Science Course (non-HIST) (University Core, Social Sciences) 3

Select one of the following not selected in second year spring semester: 2
MUTH 3603 18th Century Counterpoint
or MUTH 3623 Music Perception
or MUTH 3723 Jazz Analysis
or MUTH 477V Special Topics in Music Theory
MUAP 410V Applied Major Voice/Instrument IV 1
MUPD 4863 Piano Pedagogy 2
or MUHS 4813 Survey of Keyboard Literature II
MUAP 4201 Applied Recital II 1
MUAP Secondary Applied or MUAC (see adviser) 1
MUEN 4541 Accompanying IV 1
Year Total: 16 15

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement.
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.

Voice Performance Concentration
Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

University Core Requirements including: 35
MLIT 1013 Music and Society (Also counts as supporting music course.)
MLIT 2013 Music and Society (Also counts as supporting music course.)
MUSY 2003 Music in World Cultures
or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113)
HIST 1113 Institutions and Ideas of World Civilizations I
(ACTS Equivalency = HIST 1113)
HIST 1123 Institutions and Ideas of World Civilizations II
(ACTS Equivalency = HIST 1123)
A World Language Course at the 1013 Elementary II Level. 3

Music Theory
MUTH 1603 Music Theory I 3
MUTH 2603 Music Theory II 3
Select two of the following (Jazz Concentration students must include MUTH 3723 in their selections): 1
MUTH 3603 18th Century Counterpoint
or MUTH 3623 Music Perception
or MUTH 3723 Jazz Analysis
or MUTH 477V Special Topics in Music Theory
MUTH 3613 Form and 20th Century Techniques 3

Aural Perception
MUTH 1621 Aural Perception I 1
MUTH 1631 Aural Perception II 1

MUTH 2621 Aural Perception III 1
MUTH 2631 Aural Perception IV 1

Music History
MUHS 3703 History of Music to 1750 (Students completing the Jazz Concentration substitute MUHS 3503 Jazz History for MUHS 3703.) 3
MUHS 3713 History of Music from 1750 to Present 3
MUHS 4253 Special Topics in Music History 3

Music Technology and Conducting
MUAC 2112 Music Technology (Music Technology) 2
MUPD 3801 Conducting I 1

Ensemble/ Accompanying
MUAP 310V Ensemble (See adviser for ensemble selections.) (Students with a Concentration in Piano Performance select 6 credits from MUEN 1541, MUEN 2541, MUEN 3541, MUEN 4541 and MUEN 4841 and one additional credit of Men's Chorus or Women's Chorus.) 7

Piano (Students completing the Piano Concentration substitute MUPD 4863 Piano Pedagogy.)
MUAC 1221 Piano Class for Music Majors I 1
MUAC 1231 Piano Class for Music Majors II 1
MUAC 2221 Piano Class for Music Majors III 1

Vocal/Diction (Students in the Voice Concentration substitute MUAC 1121 for this credit of MUEN 1411 or MUEN 1591.)
MUEN 1411 Men's Chorus I 1
or MUEN 1591 Women's Chorus I

Applied Lessons (Students in the Theory or Composition Concentrations may include MUAP 130V, MUAP 230V, MUAP 330V, and MUAP 415V to fulfill this category.) 2
MUAP 110V Applied Major Voice/Instrument I
MUAP 210V Applied Major Voice/Instrument II
MUAP 310V Applied Major Voice/Instrument III
MUAP 3201 Applied Recital I
MUAP 410V Applied Major Voice/Instrument IV
MUAP 4201 Applied Recital II

And all of the specific requirements for the following concentration. 24

Total Hours 120

1 Students completing the Jazz Concentration must select MUTH 3723.
2 All students must complete two semesters of MUAP 110V with a grade of “A” or “B” and two semesters of MUAP 210V with a grade of “A” or “B” before enrolling in MUAP 310V.

Voice Performance Concentration

University Core Requirements including: 35
MLIT 1013 Music and Society (Also counts as supporting music course.)
MLIT 2013 Music and Society (Also counts as supporting music course.)
MUSY 2003 Music in World Cultures
or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113)
HIST 1113 Institutions and Ideas of World Civilizations I
(ACTS Equivalency = HIST 1113)
HIST 1123 Institutions and Ideas of World Civilizations II
(ACTS Equivalency = HIST 1123)
A World Language Course at the 1013 Elementary II Level. 3
Music Theory
MUTH 1003 Basic Musicianship (if required based on placement test, see adviser) 3
MUTH 1603 Music Theory I 3
MUTH 2603 Music Theory II 3
Select two of the following: 6
MUTH 3603 18th Century Counterpoint or MUTH 3633 Music Perception
or MUTH 3723 Music Perception
or MUTH 4723 Special Topics in Music Theory
MUTH 3613 Form and 20th Century Techniques 3

Aural Perception
MUTH 1621 Aural Perception I 1
MUTH 1631 Aural Perception II 1
MUTH 2621 Aural Perception III 1
MUTH 2631 Aural Perception IV 1

Music History
MUHS 3703 History of Music to 1750 3
MUHS 3713 History of Music from 1750 to Present 3
MUHS 4253 Special Topics in Music History 3

Music Technology and Conducting
MUAC 2112 Music Technology 2
MUPD 3801 Conducting I 1

Piano
MUAC 1221 Piano Class for Music Majors I 1
MUAC 1231 Piano Class for Music Majors II 1
MUAC 2221 Piano Class for Music Majors III 1
MUAC 2231 Piano Class for Music Major IV (Concentration credit) 1

Applied Voice (16 credits count as B.M. core and 8 are concentration credits)
MUAP 110V Applied Major Voice/Instrument I (3 credits for each of two semesters)
MUAP 210V Applied Major Voice/Instrument II (3 credits for each of two semesters)
MUAP 310V Applied Major Voice/Instrument III (3 credits one semester and then 2 credits when taking MUAP 3201)
MUAP 410V Applied Major Voice/Instrument IV (3 credits one semester and then 2 credits when taking MUAP 4201)
MUAP 3201 Applied Recital I
MUAP 4201 Applied Recital II

Ensemble
Ensemble (7 hours; see adviser for ensemble selection) 7

Voice/Diction
MUAC 1121 English and Italian Diction for Singers 1
MUAC 1141 German and French Diction for Singers (Concentration credit) 1

Additional Concentration Credits
MUHS 4763 Survey of Vocal Literature I 3
MUHS 4773 Survey of Vocal Literature II 3
MUPD 477V Special Topics in Pedagogy (Vocal Pedagogy) 2

6 hours of World Language (in addition to the language requirement listed as part of the Bachelor of Music core.) 6

Total Hours 120

Music B.M., Voice Performance Concentration Eight Semester Degree Program
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (http://catalog.uark.edu/undergraduatecatalog/academicregulations/eightsemesterdegreecompletionpolicy/) for university requirements of the program, and should consult with their music adviser about the requirements in their concentration’s eight-semester plan. Music core requirement hours may vary, based on placement and previous credit granted. If a music core requirement is met without taking a class, students will substitute an elective for the core class.

A World Language Course at the 1013 Elementary II Level.

Music Theory

MUTH 1003 Basic Muscianship (if required based on placement test, see adviser)

MUTH 1603 Music Theory I

MUTH 2603 Music Theory II

Select two of the following:

- MUTH 3603 18th Century Counterpoint
- or MUTH 3623 Music Perception
- or MUTH 3723 Jazz Analysis
- or MUTH 4723 Special Topics in Music Theory

MUTH 3613 Form and 20th Century Techniques

Aural Perception

MUTH 1621 Aural Perception I

MUTH 1631 Aural Perception II

MUTH 2621 Aural Perception III

MUTH 2631 Aural Perception IV

Music History

MUHS 3703 History of Music to 1750

MUHS 3713 History of Music from 1750 to Present

MUHS 4253 Special Topics in Music History

Music Technology and Conducting

MUAC 2112 Music Technology

MUPS 3801 Conducting I

Piano

MUAC 1221 Piano Class for Music Majors I

MUAC 1231 Piano Class for Music Majors II

MUAC 2221 Piano Class for Music Majors III

MUAC 2231 Piano Class for Music Majors IV (Concentration credit)

Applied String (16 credits count as B.M. core and 12 are concentration credits)

MUAP 110V Applied Major Voice/Instrument I

MUAP 210V Applied Major Voice/Instrument II

MUAP 310V Applied Major Voice/Instrument III

MUAP 4201 Applied Major Voice/Instrument IV

And all of the specific requirements for the following concentration.

Total Hours 120

1 Students completing the Jazz Concentration must select MUTH 3723.

2 All students must complete two semesters of MUAP 110V with a grade of “A” or “B” and two semesters of MUAP 210V with a grade of “A” or “B” before enrolling in MUAP 310V.

String Performance Concentration

University Core Requirements including:

- MLIT 1013 Music and Society (Counts as supporting music course)
- MUSY 2003 Music in World Cultures
- or WLIT 111 World Literature I (ACTS Equivalency = ENGL 2113)
- HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113)
- HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123)

A World Language Course at the 1013 Elementary II Level.

Music Theory

MUTH 1003 Basic Muscianship (if required based on placement test, see adviser)

MUTH 1603 Music Theory I

MUTH 2603 Music Theory II

Select two of the following:

- MUTH 3603 18th Century Counterpoint
- or MUTH 3623 Music Perception
- or MUTH 3723 Jazz Analysis
- or MUTH 4723 Special Topics in Music Theory

MUTH 3613 Form and 20th Century Techniques

Aural Perception

MUTH 1621 Aural Perception I

MUTH 1631 Aural Perception II

MUTH 2621 Aural Perception III

MUTH 2631 Aural Perception IV

Music History

MUHS 3703 History of Music to 1750

MUHS 3713 History of Music from 1750 to Present

MUHS 4253 Special Topics in Music History

Music Technology and Conducting

MUAC 2112 Music Technology

MUPS 3801 Conducting I

Piano

MUAC 1221 Piano Class for Music Majors I

MUAC 1231 Piano Class for Music Majors II

MUAC 2221 Piano Class for Music Majors III

MUAC 2231 Piano Class for Music Majors IV (Concentration credit)

Applied String (16 credits count as B.M. core and 12 are concentration credits)

MUAP 110V Applied Major Voice/Instrument I (6 Hours (3+3))

MUAP 210V Applied Major Voice/Instrument II (6 Hours (3+3))

MUAP 310V Applied Major Voice/Instrument III (4 credits one semester and then 3 credits when taking MUAP 3201)

MUAP 410V Applied Major Voice/Instrument IV (4 credits one semester and then 3 credits when taking MUAP 4201)

MUAP 3201 Applied Recital I

MUAP 4201 Applied Recital II

Ensemble

Ensemble (7 hours, see adviser for selections)

Chamber Music (Concentration credits) Choose from:

- MUEN 1411 Men’s Chorus I
- or MUEN 1591 Women’s Chorus I

Applied Lessons (Students in the Theory or Composition Concentrations may include MUAP 130V, MUAP 230V, MUAP 330V, and MUAP 415V to fulfill this category).

MUAP 110V Applied Major Voice/Instrument I

MUAP 210V Applied Major Voice/Instrument II

MUAP 310V Applied Major Voice/Instrument III

MUAP 4201 Applied Major Voice/Instrument IV

And all of the specific requirements for the following concentration.

Total Hours 120

Music B.M., String Performance Concentration

Eight Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy for university requirements of the program, and should consult with their music adviser about the requirements in their concentration’s eight-semester plan. Music core requirement hours
may vary, based on placement and previous credit granted. If a music core requirement is met without taking a class, students will substitute an elective for the core class.

### Total Units in Sequence: **120**

1. Meeting 40-hour advanced credit hour requirement.
2. Meeting 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.
Woodwind, Brass or Percussion Performance Concentration
Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

**University Core Requirements including:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MLIT 1013</td>
<td>Music and Society (Also counts as supporting music course.)</td>

**Total Units in Sequence:** 120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198) of this chapter.

**Guitar Performance Concentration Requirements for a Major in Music leading to a Bachelor of Music Degree**

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

**University Core Requirements including:**

- MLIT 1013 Music and Society (Also counts as supporting music course.)
- MUSY 2003 Music in World Cultures
- or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113)
- HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113)
- HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123)
- A World Language Course at the 1013 Elementary II Level.

**Music Theory**

- MUTH 1603 Music Theory I
- MUTH 2603 Music Theory II
- Select two of the following (Jazz Concentration students must include MUTH 3723) in their selections.:
  - MUTH 3603 18th Century Counterpoint
  - MUTH 3623 Music Perception
  - MUTH 3723 Jazz Analysis
  - MUTH 477V Special Topics in Music Theory

- MUTH 3613 Form and 20th Century Techniques

**Aural Perception**

- MUTH 1621 Aural Perception I
- MUTH 1631 Aural Perception II
- MUTH 2621 Aural Perception III
- MUTH 2631 Aural Perception IV

**Music History**

- MUHS 3703 History of Music to 1750 (Students completing the Jazz Concentration substitute MUHS 3503 Jazz History for MUHS 3703.)
- MUHS 3713 History of Music from 1750 to Present
- MUHS 4253 Special Topics in Music History

**Music Technology and Conducting**

- MUAC 2112 Music Technology (Music Technology)
- MUPD 3801 Conducting I

**Ensemble/ Accompanying**

- Ensemble (See adviser for ensemble selections.) (Students with a Concentration in Piano Performance select 6 credits from MUEN 1541, MUEN 2541, MUEN 3541, MUEN 4541 and MUEN 4841 and one additional credit of Men's Chorus or Women's Chorus.)

**Piano** (Students completing the Piano Concentration substitute MUPD 4803 Piano Pedagogy.)

- MUAC 1221 Piano Class for Music Majors I
- MUAC 1231 Piano Class for Music Majors II
- MUAC 2221 Piano Class for Music Majors III

**Vocal/Diction** (Students in the Voice Concentration substitute MUAC 1121 for this credit of MUEN 1411 or MUEN 1591.)

- MUEN 1411 Men's Chorus I
- or MUEN 1591 Women's Chorus I

**Applied Lessons** (Students in the Theory or Composition Concentrations may include MUAP 130V, MUAP 230V, MUAP 330V, and MUAP 415V to fulfill this category.)

- MUAP 110V Applied Major Voice/Instrument I
- MUAP 210V Applied Major Voice/Instrument II
Music Performance Concentration

University Core Requirements including:  

- MLIT 1013 Music and Society  
- MUSY 2003 Music in World Cultures  
  or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113)  
- HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113)  
- HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123)  
- A World Language Course at the 1013 Elementary II Level.  

Music Technology  

- MUTH 1603 Music Theory I  
- MUTH 2603 Music Theory II  
- Select two of the following:  
  - MUTH 3603 18th Century Counterpoint  
  - or MUTH 376 Music Perception  
  - or MUTH 377 Music Perception  
  - or MUTH 47 Special Topics in Music Theory  
- Aural Perception  
  - MUTH 1621 Aural Perception I  
  - MUTH 1631 Aural Perception II  
  - MUTH 2621 Aural Perception III  
  - MUTH 2631 Aural Perception IV  

Music History  

- MUHS 3703 History of Music to 1750  
- MUHS 3713 History of Music from 1750 to Present  
- MUHS 4253 Special Topics in Music History  

Music Technology and Conducting  

- MUAC 2112 Music Technology  
- MUPD 3801 Conducting I  

Piano  

- MUAC 1221 Piano Class for Music Majors I  
- MUAC 1231 Piano Class for Music Majors II  
- MUAC 2221 Piano Class for Music Majors III  
- MUAC 2231 Piano Class for Music Major IV (Concentration credit)  

Applied Guitar (16 credits count as B.M. core and 12 are concentration credits)  

- MUAP 110V Applied Major Voice/Instrument I (3 credits each semester)  
- MUAP 210V Applied Major Voice/Instrument II (3 credits each semester)  
- MUAP 310V Applied Major Voice/Instrument III (4 credits one semester and then 3 credits when taking MUAP 3201)  
- MUAP 410V Applied Major Voice/Instrument IV (4 credits one semester and then 3 credits when taking MUAP 4201)  
- MUAP 3201 Applied Recital I  
- MUAP 4201 Applied Recital II  

Ensemble  

- Ensemble (7 hours; See adviser for ensemble selections)  

Voice/Dictation  

- MUEN 1411 Men's Chorus I  
- or MUEN 1591 Women's Chorus I  

Additional Concentration Credits  

- MUTH 4612 Orchestration  
- MUHS 4703 Survey of String Literature  
- Electives (6 credits)  

Total Hours  

- Music B.M., Guitar Performance Concentration  
- Eight Semester Degree Program  
- Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program, and should consult with their music adviser about the requirements in their concentration’s eight-semester plan. Music core requirement hours may vary, based on placement and previous credit granted. If a music core requirement is met without taking a class, students will substitute an elective for the core class.

</tr>
<tr>
<td>MUTH 3603 18th Century Counterpoint or MUTH 3623 Music Perception or MUTH 3723 Jazz Analysis</td>
</tr>
</tbody>
</table>

1. Meets 40-hour advanced credit hour requirement.

2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College).
or MUTH 477 Special Topics in Music Theory

MUTH 3613 Form and 20th Century Techniques 3

Aural Perception

MUTH 1621 Aural Perception I 1
MUTH 1631 Aural Perception II 1
MUTH 2621 Aural Perception III 1
MUTH 2631 Aural Perception IV 1

Music History

MUHS 3703 History of Music to 1750 (Students completing the Jazz Concentration substitute MUHS 3503 Jazz History for MUHS 3703.) 3
MUHS 3713 History of Music from 1750 to Present 3
MUHS 4253 Special Topics in Music History 3

Music Technology and Conducting

MUAC 2112 Music Technology (Music Technology) 2
MUPD 3801 Conducting I 1

Ensemble/ Accompanying

Ensemble (See adviser for ensemble selections) (Students with a Concentration in Piano Performance select 6 credits from MUEN 1541, MUEN 2541, MUEN 3541, MUEN 4541 and MUEN 4841 and one additional credit of Men's Chorus or Women's Chorus.)

Piano (Students completing the Piano Concentration substitute MUPD 4863 Piano Pedagogy.)

MUAC 1221 Piano Class for Music Majors I 1
MUAC 1231 Piano Class for Music Majors II 1
MUAC 2221 Piano Class for Music Majors III 1

Vocal/Diction (Students in the Voice Concentration substitute MUAC 1121 for this credit of MUEN 1411 or MUEN 1591.)

MUEN 1411 Men's Chorus I 1
or MUEN 1591 Women's Chorus I

Applied Lessons (Students in the Theory or Composition Concentrations may include MUAP 130V, MUAP 230V, MUAP 330V, and MUAP 415V to fulfill this category.) 2

MUAP 110V Applied Major Voice/Instrument I 1
MUAP 210V Applied Major Voice/Instrument II 1
MUAP 310V Applied Major Voice/Instrument III 1
MUAP 3201 Applied Recital I 1
MUAP 410V Applied Major Voice/Instrument IV 1
MUAP 4201 Applied Recital II 1

And all of the specific requirements for the following concentration. 24

Total Hours 120

1 Students completing the Jazz Concentration must select MUTH 3723.
2 All students must complete two semesters of MUAP 110V with a grade of “A” or “B” and two semesters of MUAP 210V with a grade of “A” or “B” before enrolling in MUAP 310V.

Composition Concentration

University Core Requirements including:

MLIT 1013 Music and Society
MUSY 2003 Music in World Cultures
or WLIT 111 World Literature I (ACTS Equivalency = ENGL 2113) 35

HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) 3
HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) 3

A World Language Course at the 1013 Elementary II Level. 3

Music Theory

MUTH 1003 Basic Musicianship (if required based on placement test, see adviser) 3
MUTH 1603 Music Theory I 3
MUTH 2603 Music Theory II 3

Select two of the following:

MUTH 3603 18th Century Counterpoint
or MUTH 362 Music Perception
or MUTH 372 Jazz Analysis
or MUTH 477 Special Topics in Music Theory

MUTH 3613 Form and 20th Century Techniques 1 3

Aural Perception

MUTH 1621 Aural Perception I 1
MUTH 1631 Aural Perception II 1
MUTH 2621 Aural Perception III 1
MUTH 2631 Aural Perception IV 1

Music History

MUHS 3703 History of Music to 1750 3
MUHS 3713 History of Music from 1750 to Present 3
MUHS 4253 Special Topics in Music History 3

Music Technology and Conducting

MUAC 2112 Music Technology (Music Technology) 2
MUPD 3801 Conducting I 1

Piano

MUAC 1221 Piano Class for Music Majors I 2
MUAC 1231 Piano Class for Music Majors II 2
MUAC 2221 Piano Class for Music Majors III 2
MUAC 2231 Piano Class for Music Major IV (Concentration credit) 2

Ensemble

Ensemble (7 hours; See adviser for ensemble selections) 7

Vocal/Diction

MUEN 1411 Men's Chorus I 1
or MUEN 1591 Women's Chorus I

Applied Major-Level Courses (16 credits count as B.M. core and 1 is concentration credit)

MUAP 110V Applied Major Voice/Instrument I (2 credits per semester)
or MUAP 130V Applied Skills Voice/Instrument I

MUAP 210V Applied Major Voice/Instrument II (2 credits per semester)
or MUAP 230V Applied Skills Voice/Instrument II

MUAP 310V Applied Major Voice/Instrument III (2 credits per semester)
or MUAP 330V Applied Skills Voice/Instrument III

MUAP 410V Applied Major Voice/Instrument IV (2 credits per semester)
or MUAP 41V Applied Skills Voice/Instrument IV

MUPD 4201 Applied Recital II
or MUAP 430V Composition Recital

Total Hours 120

1 Students majoring in Composition must receive a grade of "B" or higher in MUTH 1603, MUTH 2603, and MUTH 3613.

2 Demonstration of piano skills appropriate for a composer; see Piano Proficiency Requirement above.

**Music B.M., Music Composition Concentration**

**Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program, and should consult with their music adviser about the requirements in their concentration's eight-semester plan. Music core requirement hours may vary, based on placement and previous credit granted. If a music core requirement is met without taking a class, students will substitute an elective for the core class.

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement.
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.

Jazz Studies Concentration
Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

University Core Requirements including:

- MLIT 1013 Music and Society (Also counts as supporting music course.)
- MUSY 2003 Music in World Cultures
  - or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113)
- HIST 1113 Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113)
- HIST 1123 Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123)
- A World Language Course at the 1013 Elementary II Level.

Music Theory

- MUTH 1603 Music Theory I
- MUTH 2603 Music Theory II
- Select two of the following (Jazz Concentration students must include MUTH 3723 in their selections.):
  - MUTH 3603 18th Century Counterpoint
  - MUTH 3621 Music Perception
  - MUTH 3722 Jazz Analysis
  - MUTH 4773 Special Topics in Music Theory
- MUTH 3613 Form and 20th Century Techniques

Aural Perception

- MUTH 1621 Aural Perception I
- MUTH 1631 Aural Perception II
- MUTH 2621 Aural Perception III
- MUTH 2631 Aural Perception IV

Music History

- MUHS 3703 History of Music to 1750 (Students completing the Jazz Concentration substitute MUHS 3503 Jazz History for MUHS 3703.)
- MUHS 3713 History of Music from 1750 to Present
- MUAP 4201 Music Technology (Music Technology)
- MUPD 3801 Conducting I
- MUPD 4863 Piano Pedagogy
- MUAC 1121 Piano Class for Music Majors I
- MUAC 1231 Piano Class for Music Majors II
- MUAC 2221 Piano Class for Music Majors III
- MUAC 3411 Applied Lessons (Students in the Theory or Composition Concentrations may include MUAP 130V, MUAP 230V, MUAP 330V, and MUAP 415V to fulfill this category.)
- MUAC 3401 Jazz Improvisation I
- MUAC 3411 Jazz Improvisation II
- MUEN 1411 Men's Chorus I
- MUEN 1591 Women's Chorus I
- MUEN 1541 Men's Chorus II
- MUEN 3541 Men's Chorus III
- MUEN 4541 Men's Chorus IV
- MUHS 3503 Jazz Perception
- MUHS 3503 Jazz Composition
- MUHS 3703 History of Music (ACTS Equivalency = ENGL 2113)
- MUPD 3801 Conducting I
- MUPD 4863 Piano Pedagogy

And all of the specific requirements for the following concentration.

Total Hours: 120

1 Students completing the Jazz Concentration must select MUTH 3723.
2 All students must complete two semesters of MUAP 110V with a grade of “A” or “B” and two semesters of MUAP 210V with a grade of “A” or “B” before enrolling in MUAP 310V.

Jazz Studies Concentration

Students completing the Jazz Studies Concentration will complete the following requirements:

- MUTH 3742 Jazz Arranging
- MUAC 2231 Piano Class for Music Major IV
- MUAC 3401 Jazz Improvisation I
- MUAC 3411 Jazz Improvisation II
- MUAC 3411 Jazz Improvisation III
- MUAC 3411 Jazz Improvisation IV
- MUAC 3411 Jazz Improvisation V
- MUAC 3411 Jazz Improvisation VI
- MUAC 3411 Jazz Improvisation VII
- MUAC 3411 Jazz Improvisation VIII
- MUAC 3411 Jazz Improvisation IX
- MUAC 3411 Jazz Improvisation X
- MUAC 3411 Jazz Improvisation XI
- MUAC 3411 Jazz Improvisation XII
- MUAC 3411 Jazz Improvisation XIII
- MUAC 3411 Jazz Improvisation XIV
- MUAC 3411 Jazz Improvisation XV
- MUAC 3411 Jazz Improvisation XVI
- MUAC 3411 Jazz Improvisation XVII
- MUAC 3411 Jazz Improvisation XVIII
- MUAC 3411 Jazz Improvisation XIX
- MUAC 3411 Jazz Improvisation XX
- MUAC 3411 Jazz Improvisation XXI
- MUAC 3411 Jazz Improvisation XXII
- MUAC 3411 Jazz Improvisation XXIII
- MUAC 3411 Jazz Improvisation XXIV
- MUAC 3411 Jazz Improvisation XXV
- MUAC 3411 Jazz Improvisation XXVI
- MUAC 3411 Jazz Improvisation XXVII
- MUAC 3411 Jazz Improvisation XXVIII
- MUAC 3411 Jazz Improvisation XXIX
- MUAC 3411 Jazz Improvisatio

Total Hours: 120

1 Students completing the Jazz Concentration must select MUTH 3723.
2 All students must complete two semesters of MUAP 110V with a grade of “A” or “B” and two semesters of MUAP 210V with a grade of “A” or “B” before enrolling in MUAP 310V.
MUAC 4401  Jazz Improvisation III  1
MUAC 4411  Jazz Improvisation IV  1

Select 3 hours from the following:
- MUHS 4253  Special Topics in Music History
- MUPD 3883  Jazz Pedagogy
- MUTH 3733  Functional Jazz Piano

**Electives**  6

**Total Hours**  16

1. Meets 40-hour advanced credit hour requirement.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.

## Theory Concentration

### Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

### University Core Requirements including:

<table>
<thead>
<tr>

</table>

Select 3 hours from the following:
- MUAP 310V  (Music Technology II)
- MUPD 4863  Piano Pedagogy
- MUAP 320V  Applied Recital I
- MUAP 410V  Applied Major Voice/Instrument IV
- MUAP 420V  Applied Recital II

And all of the specific requirements for the following concentration.  24

**Total Hours**  120

1. Students completing the Jazz Concentration must select MUTH 3723.
2. All students must complete two semesters of MUAP 110V with a grade of “A” or “B” and two semesters of MUAP 210V with a grade of “A” or “B” before enrolling in MUAP 310V.

---

*Note: HIST 1123 and HIST 1113 fulfill the same ACTS equivalency with a grade of 3.*
## Music B.M., Music Theory Concentration

### Eight Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program, and should consult with their music adviser about the requirements in their concentration’s eight-semester plan. Music core requirement hours may vary, based on placement and previous credit granted. If a music core requirement is met without taking a class, students will substitute an elective for the core class.

</tbody>
</table>

### Total Hours

120

---

1. Students majoring in Theory must receive a grade of “B” or higher in MUTH 1603, MUTH 2603, and MUTH 3613.

2. Demonstration of piano skills appropriate for a composer; see Piano Proficiency Requirement above.
Instrumental/Woodwind/Brass/Percussion Concentration

Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

**University Core Requirements including:**

- MLIT 1013 Music and Society (Also counts as supporting music course.)
- MUSY 2003 Music in World Cultures or WLIT 1113 World Literature I (ACTS Equivalency = ENGL 2113)
- HIST 1113 Institutions and ideas of World Civilizations I (ACTS Equivalency = HIST 1113)
- HIST 1123 Institutions and ideas of World Civilizations II (ACTS Equivalency = HIST 1123)

A World Language Course at the 1013 Elementary II Level.

**Music Theory**

- MUTH 1603 Music Theory I
- MUTH 3613 Form and 20th Century Techniques
- MUTH 3623 Music Perception
- MUTH 477V Special Topics in Music Theory
- MUAP 410V Applied Major Voice/Instrument IV

**Aural Perception**

- MUTH 1621 Aural Perception I
- MUTH 3621 Aural Perception II
- MUTH 3631 Aural Perception III
- MUTH 3633 Aural Perception IV

**Music History**

- MUHS 3703 History of Music from 1750 to Present

**Music Technology and Conducting**

- MUAP 310V Applied Major Voice/Instrument III
- MUAP 310V Applied Major Voice/Instrument IV
- MUPD 3801 Conducting I

**Elective**

- 20-50 hour advanced credit hour requirement.

**Year Total: 16 15**

Total Units in Sequence: 120

1. Meets 40-hour advanced credit hour requirement.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.

Total Hours: 120
Students who wish to apply for admission to the internship program in music education must complete the following stages.

Stage I: Complete an Evaluation for Internship

Students must meet the following criteria to be cleared for the internship:

1. Declare the major in music education in the Fulbright Advising Center, 518 Old Main.
2. Successful completion of the PRAXIS I test by meeting or exceeding the Arkansas Department of Education cut-off scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013, ENGL 1023, and MATH 1203.
3. Obtain a “C” or better in the following pre-education core courses: CIED 3023, CIED 3033, (PSYC 2003 is a prerequisite.)
4. Obtain a “C” or better in MUED 2012, MUED 3021, MUED 3833, MUED 4112, and one of MUED 4273, or MUED 4283, or MUED 4293.
5. Submit an online application to teach education (see the Teacher Education Application Fee). The evaluation form must be completed by October 1 prior to doing a fall internship or March 1 prior to doing a spring internship. The completed form must be returned to the Teacher Education Office, Graduate Education Building Room 339, no later than the stated deadline.
6. Complete the B.M. degree with a cumulative GPA of 2.75 or higher. The degree must be eligible to be posted to your University of Arkansas transcript at the Registrar’s Office prior to internship.
7. Obtain departmental clearance for internship based on successful completion of portfolios, evaluation for internship, GPA requirements, course work requirements, selected written recommendations, an interview, and/or other requirements specified by your program.

All requirements in Stage I must be met to be cleared for the internship. Please contact the Director of Field Placement and Licensure, Graduate Education Building Room 339, College of Education and Health Professions for more information.

Stage II: Internship

1. Complete the one-semester internship at an approved site in Washington or Benton counties.
2. Complete PRAXIS II requirements if planning to apply for Arkansas Licensure (recommended, but not required for degree completion).

NOTE: Students should always consult the Licensure Officer, Graduate Education Building Room 338, for any licensure requirement changes. Students will not be licensed to teach in Arkansas until they have met all requirements for licensure as set forth by the Arkansas Department of Education.

Usually licensure in another state is facilitated by acquiring a license in Arkansas. An application in another state must be made on the application form of that state, which can be obtained by request from the State Teacher Licensure office in the capital city. An official transcript should accompany the application. In many instances the applications are referred to the Licensure Officer, Graduate Education Building Room 338.

---

### Music B.M., Music Education-Instrumental, Woodwind, Brass, Percussion

#### Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

| Total Units in Sequence:                       | 120 |

**Note:** Licensure for teaching in the state of Arkansas requires one additional semester of internship beyond and after the completion of degree requirements. The courses required during the semester of internship are MUED 4031 Seminar for Professional Entry into Music Education, MUED 451V (4 or 8 hours) Student Teaching: Elementary Music, and MUED 452V or 8 hours) Student Teaching: Secondary Music.

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).  
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).  

**Instrument/Strings Concentration Requirements for a Major in Music leading to a Bachelor of Music Degree**

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

### Total Units in Sequence: 120 Units

Licensure for teaching in the State of Arkansas requires one additional semester of internship beyond and after the completion of the degree requirements. The courses required during the semester of internship are MUED 4031 Seminar for Professional Entry into Music Education, MUED 451V Student Teaching; Elementary Music, and MUED 452V Student Teaching; Secondary Music (4 or 8 hours). 1

Meets 40-hour advanced credit hour requirement. 2

Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.

### Choral/Voice Concentration Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

<table>

Total Hours (120)

Students who wish to apply for admission to the internship program in music education must complete the following stages.

Stage I: Complete an Evaluation for Internship

Students must meet the following criteria to be cleared for the internship:

1. Declare the major in music education in the Fulbright Advising Center, 518 Old Main.
2. Successful completion of the PRAXIS I test by meeting or exceeding the Arkansas Department of Education cut-off scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013, ENGL 1023, and MATH 1203.
3. Obtain a "C" or better in the following pre-education core courses: CIED 3023, CIED 3033, and PSYC 2003 (PSYC 2003 is a prerequisite.)
4. Obtain a "C" or better in MUED 2012, MUED 3021, MUED 3833, MUED 4112, and one of MUED 4273, or MUED 4283, or MUED 4293.
5. Submit an online application to teach education (see the Teacher Education Application Fee). The evaluation form must be completed by October 1 prior to doing a fall internship or March 1 prior to doing a spring internship. The completed form must be returned to the Teacher Education Office, Graduate Education Building Room 339, no later than the stated deadline.

6. Complete the B.M. degree with a cumulative GPA of 2.75 or higher. The degree must be eligible to be posted to your University of Arkansas transcript at the Registrar’s Office prior to internship.

7. Obtain departmental clearance for internship based on successful completion of portfolios, evaluation for internship, GPA requirements, course work requirements, selected written recommendations, an interview, and/or other requirements specified by your program.

All requirements in Stage I must be met to be cleared for the internship. Please contact the Director of Field Placement and Licensure, Graduate Education Building Room 339, College of Education and Health Professions for more information.

**Stage II: Internship**

1. Complete the one-semester internship at an approved site in Washington or Benton counties.

2. Complete PRAXIS II requirements if planning to apply for Arkansas Licensure (recommended, but not required for degree completion). See your adviser for completion dates.

NOTE: Students should always consult the Licensure Officer, Graduate Education Building Room 338, for any licensure requirement changes. Students will not be licensed to teach in Arkansas until they have met all requirements for licensure as set forth by the Arkansas Department of Education.

Usually licensure in another state is facilitated by acquiring a license in Arkansas. An application in another state must be made on the application form of that state, which can be obtained by request from the State Teacher Licensure office in the capital city. An official transcript should accompany the application. In many instances the applications are referred to the Licensure Officer, Graduate Education Building Room 338.

**Music B.M., Music Education-Choral/Voice Eight Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

Licensure for teaching in the State of Arkansas requires one additional semester of internship beyond and after the completion of the degree requirements. The courses required during the semester of internship are MUED 4031 Seminar for Professional Entry into Music Education, MUED 451V Student Teaching: Elementary Music, and MUED 452V Student Teaching: Secondary Music (4 or 8 hours).

1. Meets 40-hour advanced credit hour requirement.
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule.

**Choral/Piano Concentration**

**Requirements for a Major in Music leading to a Bachelor of Music Degree**

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

**University Core Requirements including:**

MUED 4112 Pedagogy in Music Education 2
MUED 4283 Teaching Vocal Music 3

Total Hours 70

Students who wish to apply for admission to the internship program in music education must complete the following stages.

**Stage I: Complete an Evaluation for Internship**

Students must meet the following criteria to be cleared for the internship:

1. Declare the major in music education in the Fulbright Advising Center, 518 Old Main.
2. Successful completion of the PRAXIS I test by meeting or exceeding the Arkansas Department of Education cut-off scores. This test should be taken after the student has completed 30 credit hours and upon completion of ENGL 1013, ENGL 1023, and MATH 1203.
3. Obtain a “C” or better in the following pre-education core courses: CIED 3023, CIED 3033. (PSYC 2003 is a prerequisite.)
4. Obtain a “C” or better in MUED 2012, MUED 3021, MUED 3833, MUED 4112, and one of MUED 4273, or MUED 4283, or MUED 4293.
5. Submit an online application to teach education (see the Teacher Education Office). The evaluation form must be completed by October 1 prior to doing a fall internship or March 1 prior to doing a spring internship. The completed form must be returned to the Teacher Education Office, Graduate Education Building Room 339, no later than the stated deadline.
6. Complete the B.M. degree with a cumulative GPA of 2.75 or higher. The degree must be eligible to be posted to your University of Arkansas transcript at the Registrar’s Office prior to internship.
7. Obtain departmental clearance for internship based on successful completion of portfolios, evaluation for internship, GPA requirements, course work requirements, selected written recommendations, an interview, and/or other requirements specified by your program.

All requirements in Stage I must be met to be cleared for the internship. Please contact the Director of Field Placement and Licensure, Graduate Education Building Room 339, College of Education and Health Professions for more information.

**Stage II: Internship**

1. Complete the one-semester internship at an approved site in Washington or Benton counties.
2. Complete PRAXIS II requirements if planning to apply for Arkansas Licensure (recommended, but not required for degree completion).

See your adviser for completion dates.

NOTE: Students should always consult the Licensure Officer, Graduate Education Building Room 338, for any licensure requirement changes. Students will not be licensed to teach in Arkansas until they have met all requirements for licensure as set forth by the Arkansas Department of Education.

Usually licensure in another state is facilitated by acquiring a license in Arkansas. An application in another state must be made on the application form of that state, which can be obtained by request from the State Teacher Licensure office in the capital city. An official transcript should accompany the application. In many instances the applications are referred to the Licensure Officer, Graduate Education Building Room 338.

**Music B.M., Music Education-Choral/Piano Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

### Total Units in Sequence:

120

Note: Licensure for teaching in the state of Arkansas requires one additional semester of internship beyond and after the completion of degree requirements. The courses required during the semester of internship are MUED 4031 Seminar for Professional Entry into Music Education, MUED 451V Student Teaching: Elementary Music (4 or 8 hours), and MUED 452V Student Teaching: Secondary Music (4 or 8 hours).

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations.
Students must complete:

**Elective Studies in Business**

Requirements for a Major in Music leading to a Bachelor of Music Degree

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Students must complete:

**University Core Requirements including:**

MUEN 1411 Women's Chorus I 1
or MUEN 1591 Women's Chorus I
7 MUEN to be selected with the consent of the student's adviser. 7
Student must declare one concentration for a Business Administration 21
Minor for Non-Business Students and fulfill all requirements for that declared minor.

Total Hours 86

1 All students must complete two semesters of MUAP 110V with a grade of "A" or "B" and two semesters of MUAP 210V with a grade of "A" or "B" before enrolling in MUAP 310V.

Music B.M., with Elective Studies in Business Eight-Semester Degree Program
Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

</table>

4 hours of ensemble to be selected with the consent of their advisers.

1-5 hours of 3000- or 4000-level elective music courses as needed to complete 20 hours of 3000-plus level music courses.

Total Hours 57-70

1. This is usually accomplished through completion of a sequence of three language courses: 1013, 2003 and 2013.

Music B.A.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program, and should consult their music adviser for an eight-semester plan that is specific to their vocal, instrumental or theoretical emphasis area in music. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Requirements for a Minor in Music

A minimum of 18 semester hours in music courses to include MLIT 1013, MUTH 1603, MUTH 2603, and either MUHS 3703 or MUHS 3713; other courses to be determined by the student in consultation with a music faculty adviser. The student must notify the Department of Music of his/her intent to minor.
For requirements for advanced degrees in music, see the Graduate School Catalog.

**Requirements for Departmental Honors in Music**

The Departmental Honors Program in Music provides upper-division undergraduate students an opportunity to participate formally in scholarly, creative, or performance music activities. Honors candidates carry out independent study, research and performance under the guidance of the music faculty and participate in special honors classes and seminars. They must take 12 hours (which may include 6 hours of thesis) in Honors Studies.

Each honors student will be required to select an honors committee. The committee will be comprised of the honors thesis adviser (a Music Department faculty member and major teacher in the area of the honors project), a second faculty member from the Music Department chosen by the student, a member from outside the music department chosen by the student, and a member of the Honors Council appointed by the Honors College. This committee is responsible for hearing and seeing the work of the student in the area of the honors project and will administer the oral examination to the candidate at the end of the last semester of the student’s work. The committee then recommends to the Honors Council whether or not the student receives honors in music. Outstanding student achievement will be recognized by awarding the distinction “Music Scholar Cum Laude” at graduation. The award of higher degree distinctions is recommended only in truly exceptional cases and is based upon the whole of the candidate’s program of honors studies.

The student may elect to do the honors project in one of six areas: performance, music history and literature, theory, composition, music education, or ethnomusicology. Honors work may be done in an area other than the student’s major area that is, a student majoring in voice performance may elect to do honors work in music history, theory, or composition, etc.

If a student wishes to devise his or her own honors project in consultation with a supervising professor and with the permission of the department chair, he or she may be granted honors. If a student wishes to combine work in more than one field and if the committee approves, he or she may be granted honors in more than one area, although the designation on the diploma will read “in music.”

The requirements for work in each area are as follows:

1. **Performance**
   a. 2 semesters of MUAP 310VH or MUAP 410VH, with concurrent registration in MUAP 3201H and MUAP 4201H
   b. Other music department honors courses are recommended, see honors adviser. (A program file representing the student’s range of performance activities during the junior and senior years will be maintained for the department file and for the Honors Council. Compact discs of the junior and senior recitals will be filed with the Honors Office.)

2. **History and Literature**
   a. Junior year: MUHS 5973 Seminar in Bibliography and Methods of Research
   b. Senior year: MUSC 490VH Honors Essay

3. **Theory**
   a. Junior year: MUHS 5973 Seminar in Bibliography and Methods of Research
   b. Senior year: MUSC 490VH Honors Essay

4. **Composition**
   a. At least six hours of MUTH 364VH Honors Composition III or MUTH 464VH Honors Composition IV
   b. A full program of original compositions or equivalent.

5. **Music Education**
   a. Junior year: MUED 5513 Seminar: Resources in Music Education
   b. Senior year: MUSC 490VH Honors Essay

6. **Ethnomusicology**
   a. Junior year: MUHS 5973 Seminar in Bibliography and Methods of Research
   b. Senior year: MUSC 490VH Honors Essay

Warren, W., Dale, M.M. (University of Kentucky), B.S. (Austin Peay State University), Professor, 1991.

Philosophy (PHIL)

Edward Minar
Department Chair
313 Old Main
479-575-8712
http://philosophy.uark.edu
phildept@uark.edu

The Department of Philosophy offers an undergraduate major in philosophy as well as a combined major in philosophy and African and African American studies, both of which lead to a Bachelor of Arts degree. The department also offers a minor in philosophy.

The problems of philosophy include some of the deepest, most interesting, and most challenging questions that the human mind can raise. What is the difference between appearance and reality? What are the sources and limits of human knowledge? Does God exist? What is the origin of evil? Can computers think or have feelings? Do we have freedom of the will? Why be moral, and how is morality related to law? What is the proper scope of governmental authority? What is scientific explanation and why does it work? How does science differ from art? What is truth? What is the meaning of a word?

Philosophy cannot claim to have discovered fully adequate answers either to these questions or to the other questions that fall within its scope, but it has developed fruitful ways of addressing them, and it has found a number of partial answers that are both useful and exciting. Although the department’s bent is generally analytic, our course offerings cover a broad range and include every major period in the history of western philosophy and most of the major subfields of contemporary philosophy. Our areas of special concentration are the philosophy of mind, epistemology, and philosophy of religion.

For requirements for advanced degrees in philosophy, see the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programs/philosophy).

Requirements for a Major in Philosophy

Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 97), the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), and following course requirements for the major. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

Select one of the following: 3

<table>
<thead>
<tr>
<th>Course Code</th>

<td>Capstone Course for Philosophy Majors</td>
</tr>
</tbody>
</table>

Or a successfully defended honors thesis in philosophy.

Total Hours 36

Writing Requirement: The writing requirement can be satisfied either by completion of an acceptable thesis or by approval of a research/analytical paper from any 4000-level course in philosophy submitted by the student to the Philosophy Department’s Undergraduate Committee.
Philosophy B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program as well as College requirements (p. 198). Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

Requirements for a Minor in Philosophy

The minor requires 18 semester hours in philosophy to include PHIL 2203 or PHIL 4253, and either PHIL 4003 or PHIL 4033. A student may earn either a minor or a combined major in philosophy but not both. A student must notify the department of his or her intent to minor.

Requirements for Honors in Philosophy: Both the College and the Departmental Honors Program in Philosophy provide undergraduate students with the opportunity to participate formally in scholarly philosophical activities, and allow for greater maturity in dealing with philosophical ideas through independent study. Admission to the Fulbright Honors Program is open to philosophy majors with a minimum, cumulative grade point average of 3.5 in all of their coursework. Honors candidates must complete a minimum of 12 hours of honors courses, which may include up to 6 hours of thesis. Honors candidates carry out independent study and research under the guidance of the philosophy faculty and participate in special honors classes, seminars, and colloquia. To successfully complete the required thesis, students should choose an honors thesis adviser as early as possible. An adviser should be selected, and an Honors Agreement completed, no later than the first semester in a student’s junior year.

Honors candidates must meet the college’s requirements for an honors degree. Students graduating with honors typically graduate with the distinction “Philosophy Scholar Cum Laude” at graduation. Higher degree distinctions (magna cum laude, summa cum laude) are awarded by the
Honors Council, are recommended only in truly exceptional cases, and are based upon the whole of the candidate’s program of honors studies.

Faculty

Adler, Jacob, Ph.D., A.B. (Harvard University), Associate Professor, 1984.
Funkhouser, Eric M., Ph.D. (Syracuse University), M.A., B.A. (University of Nebraska-Lincoln), Professor, 2002.
Glazer, Trip, Ph.D. (Georgetown University), M.A. (Georgia State University), B.A. (American University), Visiting Assistant Professor, 2017.
Herold, Warren, Ph.D. (University of Michigan), Assistant Professor, 2014.
Lee, Richard N., Ph.D. (Stanford University), B.A. (Luther College), Associate Professor, 1982.
Lyons, Jack C., Ph.D. (University of Arizona), B.A. (Valparaiso University), Professor, 2001.
Maksymchuk, Oksana, Ph.D. (Northwestern University), B.A. (Bryn Mawr College), Assistant Professor, 2013.
Minar, Edward H., Ph.D., A.M. (Harvard University), M.A. (University of California at Los Angeles), A.B. (Harvard University), Professor, 1994.
Senor, Thomas D., Ph.D., M.A. (University of Arizona), B.S. (University of Oregon), Professor, 1989.
Stevens, Christopher W., Ph.D. (University of Maryland College Park), M.A. (City University of New York-The Graduate Center), B.A. (Humboldt State University), Instructor, 2015.
Ward, Barry M., Ph.D. (Rutgers State University-New Brunswick), M.Sc., B.A. Mod. (Trinity College, Dublin), Associate Professor, 2002.

Physics (PHYS)

William Oliver
Chair of the Department
226 Physics Building
479-575-7932
physics@uark.edu

Department of Physics website (http://www.uark.edu/depts/physics/)

The Department of Physics offers two undergraduate majors, one leading to a Bachelor of Science degree in physics and a second leading to a Bachelor of Arts degree in physics.

Physicists ask questions and try to find answers to almost everything. If you have wondered about rainbows, thunderstorms, why stars shine, the colors of beetles, why curve balls curve, how the universe began, or how quarks and leptons interact – if you like to explore and figure out why things are the way they are – you might want to become a physicist.

The Bachelor of Science degree program is designed for students interested in professional employment or who want to pursue graduate work in physics or closely related fields such as astronomy, engineering, laser technology, or computational science. It offers the option of one of seven concentrations.

The Bachelor of Arts degree program provides a broad background in the physics and technology of today and tomorrow. Training in physics provides students with a unique background, the usefulness of which transcends the boundaries of the professional disciplines.

In our increasingly technological society, scientific literacy is ever more important for the successful employee. Physics, the most fundamental science, gives students the fascination of studying the deepest principles of the universe while preparing them for a wide range of practical employment.

For information on advanced degrees in physics, see the Graduate School Catalog (http://catalog.uark.edu/graduatecatalog/programsofstudy/physicsphys/).

Requirement for B.S. Degree with a Major in Physics

University and College Requirements for a Bachelor of Science in Physics: In addition to the Fulbright College of Arts and Sciences Graduation Requirements (see under Degree Completion Program Policy), the following course requirements must be met. Bolded courses from the course list below may be applied to portions of the University state minimum core (p. 97) requirements.

University/State Minimum Core

</table>
Students should consult with their academic advisor.

University/state minimum core requirements may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute with general electives. Based on placement and previous credit granted, which requires 24.

Concentration Requirements

Physics B.S. majors must complete all the requirements for one of seven available concentration areas. All concentrations consist of 16 credit hours with the exception of the Geophysics concentration, which requires 24.

University Residency Requirement Electives (See Degree Completion Program Policy)

General Electives

Total Hours

1 Majors must propose participation in a research experience project no later than the end of their junior year of study. A written report of the results must be submitted during Senior Seminar (PHYS 4991).

2 CSCE 3513, CSCE 4423, MEEG 2703, or GEOS 4223 can be substituted for MATH 3083 with the adviser’s approval.

Astronomy Concentration

PHYS 3544 Optics

6 semester hours of ASTR courses numbered 3000 or above (ASTR 4033, ASTR 4043, ASTR 4073)

6 additional hours numbered 3000 and above in physics or astronomy

Total Hours

Writing Requirement: Students majoring in physics may satisfy the Fulbright College writing requirement by means of a senior thesis (PHYS 498V), an honors thesis submitted in fulfillment of the requirements of the honors program (), or by means of a paper submitted as part of PHYS 4991 or any physics or astronomy course numbered 3000 or above. Students electing the last route must obtain approval of the instructor during the first three weeks of the semester. The research/analytical paper should demonstrate competency in the use of word processing software and also at least one computer analytical tool such as a spreadsheet, mathematical or graphics program, or an original program written by the student.

Assessment of Student Learning: In accordance with state, University, and college requirements, all students must have learning assessed before graduation. Students majoring in physics will be assessed in the course PHYS 4991, which must be taken in the year prior to graduation.

Physics B.S. with Astronomy Concentration Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program as well as Fulbright College requirements.

University/state minimum core requirements may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute with general electives. Students should consult with their academic advisor.

**Requirement for B.S. Degree with a Major in Physics**

**University and College Requirements for a Bachelor of Science in Physics:** In addition to the Fulbright College of Arts and Sciences Graduation Requirements (see under Degree Completion Program Policy), the following course requirements must be met. **Bolded** courses from the course list below may be applied to portions of the University/state minimum core (p. 97) requirements.

**University/State Minimum Core**

Students must complete the following:

<table>
<thead>
<tr>
<th>Units</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 2054 University Physics I (ACTS Equivalency = PHYS 2034)</td>
<td>4</td>
</tr>
<tr>
<td>PHYS 2074 University Physics II (ACTS Equivalency = PHYS 2044 Lecture)</td>
<td>4</td>
</tr>
<tr>
<td>PHYS 2094 University Physics III</td>
<td>4</td>
</tr>
<tr>
<td>PHYS 3453 Electromagnetic Theory I</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 3613 Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 4073 Introduction to Quantum Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 4991 Physics Senior Seminar</td>
<td>1</td>
</tr>
</tbody>
</table>

**Mathematics Courses:**

<table>
<thead>
<tr>
<th>Units</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2554 Calculus I (ACTS Equivalency = MATH 2405)</td>
<td>4</td>
</tr>
<tr>
<td>MATH 2564 Calculus II (ACTS Equivalency = MATH 2505)</td>
<td>4</td>
</tr>
<tr>
<td>MATH 2574 Calculus III (ACTS Equivalency = MATH 2603)</td>
<td>4</td>
</tr>
<tr>
<td>MATH 2584 Elementary Differential Equations</td>
<td>4</td>
</tr>
<tr>
<td>MATH 3083 Linear Algebra</td>
<td>3</td>
</tr>
</tbody>
</table>

**Additional Science**

At least 8 hours of other science chosen from:

<table>
<thead>
<tr>
<th>Units</th>
<th></th>
</tr>
</thead>
</table>
| CHEM 1103 University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture)  
& CHEM 1101L University Chemistry I Laboratory (ACTS Equivalency = CHEM 1414 Lab) | 4 |
| CHEM 1123 University Chemistry II (ACTS Equivalency = CHEM 1424 Lecture)  
& CHEM 1121L University Chemistry II Laboratory (ACTS Equivalency = CHEM 1424 Lab) | 4 |
| CSCE 2004 Programming Foundations I |  |
| CSCE 2014 Programming Foundations II |  |
| BIOL 1543 Principles of Biology (ACTS Equivalency = BIOL 1014 Lecture)  
& BIOL 1541L Principles of Biology Laboratory (ACTS Equivalency = BIOL 1014 Lab) | 4 |
| BIOL 1584 Biology for Majors (ACTS Equivalency = BIOL 1014 Lecture) |  |
| GEOS 1113 General Geology (ACTS Equivalency = GEOL 1114 Lecture)  
& GEOS 1111L General Geology Laboratory (ACTS Equivalency = GEOL 1114 Lab) | 4 |

**Total Units in Sequence:**

120
GEOS 1133  Earth Science (ACTS Equivalency = GEOL 1124 & GEOS 1131L Lecture)
and Earth Science Laboratory (ACTS Equivalency = GEOL 1124 Lab)

Concentration Requirements  16-24
Physics B.S. majors must complete all the requirements for
one of seven available concentration areas. All concentrations
consist of 16 credit hours with the exception of the Geophysics
concentration, which requires 24.

University Residency Requirement Electives (See Degree Completion 1
Program Policy)
General Electives  11-19
Total Hours  120

1 Majors must propose participation in a research experience project
no later than the end of their junior year of study. A written report of
the results must be submitted during Senior Seminar (PHYS 4991).

2 CSCE 3513, CSCE 4423, MEEG 2703, or GEOS 4223 can be
substituted for MATH 3083 with the adviser’s approval.

**Biophysics Concentration**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>

</table>

A Junior Level Laboratory Course chosen from PHYS 361VL,
PHYS 3544, or PHYS 3213  1-4
6-9 semester hours numbered 3000 and above in physics,
astronomy, biology, and chemistry chosen with the adviser’s permission.  6-9

Total Hours  16

**Writing Requirement:** Students majoring in physics may satisfy
the Fulbright College writing requirement by means of a senior
thesis (PHYS 498V), an honors thesis submitted in fulfillment of the
requirements of the honors program ( ), or by means of a paper submitted
as part of PHYS 4991 or any physics or astronomy course numbered
3000 or above. Students electing the last route must obtain approval of
the instructor during the first three weeks of the semester. The research/
analytical paper should demonstrate competency in the use of word
processing software and also at least one computer analytical tool such as
a spreadsheet, mathematical or graphics program, or an original
program written by the student.

**Assessment of Student Learning:** In accordance with state, University,
and college requirements, all students must have learning assessed
before graduation. Students majoring in physics will be assessed in the
course PHYS 4991, which must be taken in the year prior to graduation.

**Physics B.S. with Biophysics Concentration**

**Eight-Semester Degree Plan**

Students wishing to follow the eight-semester degree plan should see
the Eight-Semester Degree Policy (p. 87) in the Academic Regulations
chapter for university requirements of the program as well as Fulbright
College requirements.

University/state minimum core requirements may vary by individual,
based on placement and previous credit granted. Once all core
requirements are met, students may substitute with general electives.
Students should consult with their academic advisor.

</tbody>
</table>

Completion of GEOG 3383 Principles of Landscape Evolution and GEOL 4666 Geology Field Camp in addition to the stated requirements for a physics-geophysics major will enable a student to complete the requirements for a double major in physics and geology.

Total Hours: 24

### Writing Requirement:

Students majoring in physics may satisfy the Fulbright College writing requirement by means of a senior thesis (PHYS 498V), an honors thesis submitted in fulfillment of the requirements of the honors program, or by means of a paper submitted as part of PHYS 4991 or any physics or astronomy course numbered 3000 or above. Students electing the last route must obtain approval of the instructor during the first three weeks of the semester. The research/analytical paper should demonstrate competency in the use of word processing software and also at least one computer analytical tool such as a spreadsheet, mathematical or graphics program, or an original program written by the student.

**Assessment of Student Learning:** In accordance with state, University, and college requirements, all students must have learning assessed before graduation. Students majoring in physics will be assessed in the course PHYS 4991, which must be taken in the year prior to graduation.

---

### Physics B.S. Geophysics Concentration Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy in the Academic Regulations chapter for university requirements of the program as well as Fulbright College requirements.

Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area. Students should consult their advisers.

Concentration Requirements 16-24

- Physics B.S. majors must complete all the requirements for one of seven available concentration areas. All concentrations consist of 16 credit hours with the exception of the Geophysics concentration, which requires 24.

University Residency Requirement Electives (See Degree Completion Program Policy) 1

- General Electives 11-19

Total Hours 120

1. Majors must propose participation in a research experience project no later than the end of their junior year of study. A written report of the results must be submitted during Senior Seminar (PHYS 4991).

2. CSCE 3513, CSCE 4423, MEEG 2703, or GEOS 4223 can be substituted for MATH 3083 with the adviser’s approval.

Requirements for a B.A. Degree with a Major in Physics:

This track is for students desiring a broader program in the arts, sciences, and social sciences while majoring in physics. This program is recommended for pre-medical, journalism, pre-business, pre-law and other students planning careers in fields for which a physics education would be beneficial. For B.A. students seeking teaching licensure, see the Teacher Licensure Requirements below. This program requires a total of 120 semester hours. The student must present 24 semester hours in physics or astronomy, including:

PHYS 2013 College Physics I (ACTS Equivalency = PHYS 2014 Lecture) & PHYS 2011L and College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab)
Journalism as the foundation needed for science reporting. It is recommended that the free electives be chosen in a second science, or in journalism.

Physics B.A.

Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program as well as the Fulbright College requirements. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

The Physics B.A. program includes requirements for a special emphasis area. In this case, journalism was used as an example. Journalism courses indicated below are recommended by the Department of Journalism as the foundation needed for science reporting. It is
PHYS 2033 College Physics II (ACTS Equivalency = PHYS 2024 Lecture)

A student must notify the department of his or her intent to minor.  

Requirements for Departmental Honors in Physics: The Departmental Honors Program in Physics provides upper-division undergraduate students with an opportunity to formally participate in scholarly physics activities. Honors candidates carry out independent study and research under the guidance of the physics faculty and participate in special honors classes, seminars, and colloquia. Outstanding student achievement will be recognized by awarding the distinction “Physics Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies. In addition to satisfying the general college requirements for the bachelor’s degree with honors, an honors candidate in physics must  

1. Become a candidate no later than the first semester of the junior year of study,  
2. Enroll in honors sections of physics courses when available,  
3. Complete a minimum of 12 hours of honors coursework to include: Six hours of honors research PHYS 399VH and Three hours of physics honors colloquium PHYS 3923H,  
4. Complete and orally defend an honors thesis based upon the project carried out in PHYS 399VH,  
5. Achieve a cumulative grade-point average of 3.125 in physics, and  
6. Maintain a 3.50 grade-point average overall.  

Physics (B.A. or B.S.) Physical Science Teacher Licensure Requirements:  

Please refer to the Secondary Education Requirements (p. 201) for Fulbright College Students. Students wishing to pursue licensure through the UAteach undergraduate curriculum should consult with a UAteach adviser, uateach@uark.edu.
Students wanting to teach science in middle school should consult with a middle level adviser in the College of Education and Health Professions.

**Faculty**

**Barraza-Lopez, Salvador**, Ph.D. (University of Illinois-Urbana-Champaign), B.S. (Instituto Politecnico Nacional de Mexico), Associate Professor, 2011.

**Bellaiche, Laurent**, Ph.D., M.S., B.S. (University of Paris VI, France), Distinguished Professor, 1999.

**Fu, Huaxiang**, Ph.D., M.S. (Fudan University), B.S. (University of Science and Technology of China), Professor, 2002.

**Gea-Banacloche, Julio R.**, Ph.D. (University of New Mexico), Licenciado en Ciencias Fisicas (Universidad Autonoma de Madrid), Professor, 1989.

**Hamad, Bothina**, Ph.D. (University of Jordan), Research Associate Professor, 2016.

**Harter, William G.**, Ph.D. (University of California-Irvine), B.S. (Hiram College), Professor, 1986.

**Hu, Jin**, Ph.D. (Tulane University), B.S. (University of Science and Technology of China), Assistant Professor, 2017.

**Joffe Minor, Tacy Marie**, Ph.D. (Northwestern University), M.A., B.S. (University of Arkansas), Teaching Assistant Professor, 2011.

**Kennefick, Julia Dusk**, Ph.D. (California Institute of Technology), B.S. (University of Arizona), Associate Professor, 2003.

**Kumar, Pradeep**, Ph.D. (Boston University), M.Sc. (Indian Institute of Technology, Mumbai, India), Associate Professor, 2013.

**Lehmer, Bret Darby**, Ph.D. (Pennsylvania State University), B.S. (University of Iowa), Assistant Professor, 2015.

**Li, Jiali**, Ph.D., M.S. (City University of New York-City College), M.S. (University of Science and Technology of China), B.S. (Hei Long Jiang University), Professor, 2002.

**Manasreh, Bothina H.**, Ph.D., M.Sc. (University of Jordan), Research Assistant Professor, 2017.

**Oliver, William**, Ph.D., M.S. (University of Colorado-Boulder), B.S. (University of Arizona), Associate Professor, 1992.

**Prosandeev, Sergey**, Ph.D., M.S. (Rostov State University), Research Professor, 2005.

**Rawwagah, Fuad**, Ph.D., M.A. (University of Arkansas), B.S. (Yarmouk University), Assistant Professor, 2010.

**Ren, Wei**, Ph.D. (University of Hong Kong), B.S. (Shanxi University), Assistant Professor, 2008.

**Salamo, Gregory J.**, Ph.D. (City University of New York), M.S. (Indiana University-Purdue University-Indianapolis), B.S. (City University of New York, Brooklyn College), Distinguished Professor, 1975.

**Shew, Woodrow L.**, Ph.D. (University of Maryland-College Park), B.A. (College of Wooster), Associate Professor, 2012.

**Singh, Surendra P.**, Ph.D., M.A. (University of Rochester), M.Sc., B.Sc. (Banaras Hindu University, India), University Professor, 1982.

**Snyder, Tamara D.**, M.S. (University of Arkansas), B.S. (University of California-Los Angeles), Clinical Assistant Professor, 2004.

**Thibado, Paul M.**, Ph.D. (University of Pennsylvania), B.S. (San Diego State University), Professor, 1996.

**Vyas, Reeta**, Ph.D. (State University of New York at Buffalo), M.S., B.S. (Banaras Hindu University), Professor, 1984.

**Wang, Yong**, Ph.D., M.S. (University of California, Los Angeles), B.S. (University of Science and Technology of China), Assistant Professor, 2016.

**Wise, Rick**, Ph.D., M.S. (Southern Methodist University), B.S. (University of Arkansas), Research Professor, 2014.

**Xiao, Min**, Ph.D. (University of Texas at Austin), B.S. (Nanjing University), Distinguished Professor, 1990.

**Zajac, Mark**, Ph.D., M.Sc. (University of Notre Dame), B.Sc. (McMaster University, Hamilton Ontario, Canada), Visiting Assistant Professor, 2013.

Email: pkford@uark.edu

Department of Political Science Website (http://fulbright.uark.edu/departments/political-science/)

The Department of Political Science offers a major leading to a Bachelor of Arts degree, three combined majors, also leading to Bachelor of Arts degrees, and two minors, one in legal studies and a second interdisciplinary minor in urban planning. Political science is the traditional undergraduate degree choice for those considering law school. It is also ideal preparation for a career in government service, including internationally-oriented paths like the foreign service, intelligence, and foreign aid/development agencies, and domestic political careers like consulting, research, polling, and policy/campaign staff.

For requirements for the M.A. degree in political science, the M.P.A degree, or the dual J.D./M.A. and J.D./M.P.A. degrees, see the Graduate School Catalog.

**Requirements for B.A. Degree with a Major in Political Science**

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met.

30 semester hours of PLSC courses, at least 21 of which must be above 3000.

1. Students are required to take both:
   - PLSC 2013 Introduction to Comparative Politics

2. Students must choose one of the following:
   - PLSC 2813 Introduction to International Relations
   - PLSC 3103 Public Administration

3. Students fulfill the remaining requirements from among any of the available political science courses.

At least 21 hours must be 3000-4000 level courses. No more than 9 hours may come from PLSC 300V, PLSC 394V, PLSC 498V, or PLSC 499VH.

**Additional Course Requirements (3-12 hours):** Students must satisfy either Requirement A or Requirement B.
Requirement A:

Students must demonstrate proficiency in a single modern or classical language other than English by completion of a world language course numbered 2013 (Intermediate II). This is usually accomplished through completion of a sequence of four language courses: 1003, 1013, 2003 and 2013.

Students may seek credit for any omitted courses in the language sequence (based on placement at a higher level), by passing an advanced language course with a grade of “C” or above. Such credit will be awarded at the request of the student by filing application to the World Languages, Literatures, and Cultures (WLLC) Department. Students with advanced knowledge of a language may also contact the WLLC Department regarding credit by exam.

Students pursuing this track must complete an approved university/state core humanities course in addition to the world language 2003 Intermediate I course, if credit for 2003 is earned.

Requirement B:

Students must complete these three requirements:

- PHIL 203 Introduction to Philosophy (ACTS Equivalency = PHIL 1103)
- or PHIL 2203 Logic (ACTS Equivalency = PHIL 1003)
- STAT 2303 Principles of Statistics (ACTS Equivalency = MATH 2103)
- or WCOB 1033 Data Analysis and Interpretation

Select one of the following:

- MATH 2033 Mathematical Thought
- MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)
- MATH 2053 Finite Mathematics
- MATH 2183 Mathematical Reasoning in a Quantitative World
- MATH 2554 Calculus I (ACTS Equivalency = MATH 2405)

Students pursuing this track must complete an approved university/state core humanities course in addition to either the PHIL 2003 or PHIL 2203 course used to satisfy Requirement B.

Writing Requirement: The college writing requirement is fulfilled by submitting an acceptable research/analytical paper to the department for approval at least four weeks prior to graduation. The paper may be derived from completion of an honors essay (PLSC 499VH), a senior thesis (PLSC 498V), or some other advanced course in political science. The student is urged to consult with his or her faculty adviser no later than early in the first semester of the senior year.

Political Science B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should also see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program as well as the Fulbright College requirements. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general or advanced elective in place of a core area.

Total Units in Sequence:  
120

1. Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2. Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).

### Combined Majors

**Political Science and African and African American Studies:** For the requirements for a combined major in political science and African and African American studies (p. 212).

**Political Science and Journalism:** The combined major in political science and journalism is recommended for those students who have a strong interest in the reporting of public affairs as a career. For requirements, please refer to the combined major in Journalism and Political Science (p. 298). Students should consult with their adviser in each department.

**Political Science and Latin American and Latino Studies:** For the requirements for a combined major in political science and Latin American and Latino studies (p. 301).

### Minor in Political Science

Requirements are 18 hours including PLSC 2003 and PLSC 2013. At least 9 hours must come from courses numbered 3000 or above. Students should consult with the political science adviser in Fulbright College for the selection of appropriate courses.

### Minor in Legal Studies

This minor will introduce undergraduate students to the study and application of law by taking law-related courses in a number of disciplines. It provides a focus for students who are interested in the law, whose careers will require a measure of legal knowledge, or for those considering entering law school.

**Requirements for a Minor in Legal Studies:** 15 semester hours from the following:

- AGEC 3503 Agricultural Law I  
- BLAW 3033 Commercial Law  
- CRIM 2043 Sociology of Criminal Law  
- CRIM 3503 Criminal Procedures  
- CRIM 3513 Criminal Evidence  
- COMM 4113 Legal Communication  
- FDSC 3202 Introduction to Food Law  
- JOUR 3633 Media Law  
- OMTG 4313 Law and Ethics  
- PHIL 4143 Philosophy of Law  
- PLSC 3203 Introduction to Legal Studies  
- PLSC 3213 The South and the Law: Race, Gender, and Citizenship  
- PLSC 3243 The Judicial Process  
- PLSC 3813 International Law  
- PLSC 4193 Administrative Law  
- PLSC 4253 The U.S. Constitution I  
- PLSC 4263 The U.S. Constitution II

Students should consult with their adviser each semester.
The departments of Landscape Architecture and Political Science collaboratively offer an interdisciplinary minor in Planning for students interested in regional and urban planning.

**Minor in Planning**

A student who wants to minor in Planning should notify either the Department of Landscape Architecture or Political Science and consult an academic adviser. A Planning minor consists of 18 hours of required and elective courses subdivided into three concentrations. A student should choose one concentration and take 6 hours of elective courses in that concentration. The minor's required and elective courses include:

**Required Courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LARC 5386</td>
<td>Landscape Architecture Design VIII</td>
<td>6</td>
</tr>
<tr>
<td>or LARC 5493</td>
<td>Environmental Land Use Planning</td>
<td>6</td>
</tr>
<tr>
<td>and one 3 credit-hour elective from the Spatial Concentration</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Electives:**

<table>

**Requirements for Graduation with Honors in Political Science:** Both the College and the Departmental Honors Program in Political Science provide undergraduate students the opportunity to participate in directed independent study and scholarly activity. Admission to the Fulbright Honors Program is open to Political Science majors with a minimum, cumulative grade point average of 3.5 in all their coursework. Honors candidates must complete at least 12 hours of honors courses, which will include 6 hours of thesis.

Honors candidates carry out independent study and research under the guidance of political science faculty and participate in special honors classes and colloquia. To successfully complete the required thesis, students should choose an honors thesis adviser as early as possible. An adviser should be selected and an Honors Agreement completed no later than the first semester in a student's junior year.

Honors candidates must meet the College's requirements for an honors degree. Students graduating with honors typically graduate with the distinction _cum laude_. Higher degree distinctions (_magna cum laude, summa cum laude_) are awarded by the Honors Council, are recommended only in truly exceptional cases, and are based on the whole of the candidate’s program of honors studies.

**Political Science (B.A.) Social Studies Teaching Licensure Requirements:**

Please refer to the Secondary Education Requirements (p. 201) for Fulbright College Students.

Students wanting to teach social studies in middle school should consult with a middle level adviser in the College of Education and Health Professions.

**Faculty**

- **Dowdle, Andrew J.**, Ph.D. (Miami University), M.A. (University of Iowa), B.A. (University of Tennessee), Professor, 2003.
- **Dowe, Pearl Karen**, Ph.D. (Howard University), M.A. (Georgia Southern University), B.S. (Savannah State University), Associate Professor, 2008.
- **Flanigan, J. Michael**, Ph.D. (University of Arkansas), M.P.H., M.A., B.A. (University of Minnesota), Lecturer, 2016.
- **Gaber, John**, Ph.D. (Columbia University), M.A. (University of Southern California), B.A. (University of California-Los Angeles), Professor, 2009.
- **Ghadbian, Najib**, Ph.D. (City University of New York), M.A. (Rutgers University), M.A. (City University of New York), B.Sc. (United Arab Emirates University), Associate Professor, 1999.
- **Hunt, Valerie H.**, Ph.D., J.D., B.A. (University of Arkansas), Associate Professor, 2005.
- **Kerr, Brinck**, Ph.D. (Texas A&M University), B.A. (University of Texas at Austin), Professor, 1994.
Looney, Nathan C., J.D. (University of Arkansas at Little Rock), M.P.S. (University of Arkansas Clinton School of Public Service), B.A. (University of Arkansas), Lecturer, 2012.
Maxwell, Angie, Ph.D., M.A. (University of Texas at Austin), B.A. (University of Arkansas), Associate Professor, 2008.
Medina Vidal, D. Xavier, Ph.D. (University of California-Riverside), M.A., B.A. (University of New Mexico), Assistant Professor, 2015.
Mitchell, Joshua Lee, Ph.D. (Southern Illinois University), M.P.A., B.S. (Murray State University), Assistant Professor, 2010.
Nakamura, Brian S., Ph.D., M.P.A. (University of Southern California), B.A. (California State University), Lecturer, 2017.
Naylor, Zoe E., J.D., M.A. (University of Arkansas), B.A. (Graceland University), Instructor, 2000.
Reid, Margaret F., Ph.D. (University of Oklahoma), M.B.A. (Central State University), M.P.A. (University of Oklahoma), M.A. (University of Bonn), B.A. (University of Marburg, West Germany), Professor, 1993.
Ryan, Jeffrey J., Ph.D., M.A. (Rice University), B.A. (Colorado State University), Associate Professor, 1990.
Saeidi, Shirin, Ph.D. (University of Cambridge, United Kingdom), M.A. (George Mason University), B.A. (University of Maryland-College Park), Assistant Professor, 2018.
Schreckhise, William D., Ph.D., M.A., B.A. (Washington State University), Associate Professor, 1998.
Sebold, Karen Denice, Ph.D., M.A. (University of Arkansas), B.S. (Campbell College), B.S. (Rogers State University), Clinical Assistant Professor, 2011.
Shields, Todd G., Ph.D., M.A. (University of Kentucky), B.A. (Miami University), Professor, 1994.
Song, Geoboo, Ph.D. (University of Oklahoma), B.A. (Korea University), B.A. (Hanyang University), Assistant Professor, 2012.
Stewart, Patrick A., Ph.D., (Northern Illinois University), M.A., B.A. (University of Central Florida), Associate Professor, 2008.
Sullivan, W. Curt, M.A. (University of Arkansas), B.A. (Harding University), Lecturer, 2015.
Zeng, Ka, Ph.D. (University of Virginia), M.A. (Virginia Polytech Institute and State University), B.A. (Foreign Affairs College, Beijing), Professor, 2000.

Psychology (PSYC)

Douglas A. Behrend
Chair of the Department
216 Memorial Hall
479-575-4256
Email: psycapp@uark.edu

Department of Psychological Science (http://psyc.uark.edu)

The Department of Psychological Science offers a major leading to a Bachelor of Arts in psychology. Psychologists are the scientists of human behavior and mental processes. They approach these areas from a variety of perspectives.

Clinical psychologists seek to identify the causes of abnormal behavior and to change these behaviors so their clients can live more satisfying and rewarding lives. Cognitive psychologists are interested in how knowledge and behavior are acquired, retained, and retrieved. Developmental psychologists study physical, cognitive, and social changes that occur throughout an individual’s life. Neuroscientists are concerned with the biological bases of behavior. Social psychologists investigate Social psychologists study our thoughts and feelings about ourselves and other people. Each of these perspectives is represented by members of the faculty in the Fulbright College Department of Psychological Science.

The Department of Psychological Science is one of the largest and most productive departments in the university in many ways. Our faculty members are active researchers who bring their scientific excitement and curiosity into the classroom. In addition the faculty is deeply committed to providing individualized training to our students, which is accomplished through experience in a faculty member’s lab, or perhaps doing an honors project. We are one of the largest undergraduate majors, and our graduates pursue graduate training in many areas, including counseling, psychology, business, law, and medicine. Other graduates enter the workforce in diverse areas, including human and social services, business, banking, and non-profit organizations.

For requirements for advanced degrees in psychology, see the Graduate School Catalog.

Requirements for B.A. Degree with a Major in Psychology

Students must complete 120 degree credit hours to include the minimum University Core requirements (p. 97), the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), and following course requirements for the major. Bolded courses from the list below may be applied to portions of the University Core requirements.

A minimum of 42 semester hours, including:

2003 Intermediate I of any World Language. 1 3-6
PHIL 2003 Introduction to Philosophy (ACTS Equivalency = PHIL 1103) 3
or PHIL 2103 Introduction to Ethics (ACTS Equivalency = PHIL 1003)
Select one of the following. Must complete with a grade of "C" or better: 3-4
MATH 2043 Survey of Calculus (ACTS Equivalency = MATH 2203)
MATH 2053 Finite Mathematics
MATH 2554 Calculus I (ACTS Equivalency = MATH 2405)

33 semester hours in psychology to include:

PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103) 3
PSYC 2013 Introduction to Statistics for Psychologists 3
PSYC 3073 Research Methods 3
Select two of the following: 6
PSYC 3013 Social Psychology
PSYC 3023 Abnormal Psychology
PSYC 3093 Developmental Psychology (ACTS Equivalency = PSYC 2103)
PSYC 4053 Psychological Tests
PSYC 4063 Psychology of Personality
Select two of the following: 6
PSYC 3103 Cognitive Psychology
PSYC 4073 Psychology of Learning
PSYC 4123 Perception
PSYC 4143 History and Systems of Psychology
PSYC 4183 Behavioral Neuroscience
PSYC 4193  Comparative Psychology
Select three hours from one of the following: 3
PSYC 4083  Advanced Research
PSYC 4283  Advanced Seminar
Nine hours of electives and may be chosen from any psychology course in this catalog, with no more than a total of six hours in PSYC 206V, PSYC 207V, and PSYC 399VH combined.
A grade of “C” or better is required in all psychology courses used to satisfy the 33 hours of psychology courses. In addition, a 2.00 cumulative grade-point average is required on all work completed in the Department of Psychology.
Total Hours 42-46
1 This is usually accomplished through completion of a sequence of two language courses: 1013 and 2003.

Students who want to pursue graduate training in psychology are advised to begin preparations early in their undergraduate careers. Grade-point average, scores on the Graduate Record Examinations, effective communications skills, preparation in the natural sciences and mathematics, and research experience (e.g., honors project, directed readings, laboratory experience) are the major criteria considered by admissions committees. To gain this research experience students are strongly encouraged to take the advanced research course, PSYC 4083.

Students with applied, paraprofessional, or human-service interests who plan to enter the job market with a B.A. in psychology are strongly encouraged to take relevant courses in other areas of interest, including, but not limited to, anthropology, sociology, social work, human development and family studies, education, and business administration.

Students interested in business applications of psychology (e.g., marketing, management) are similarly encouraged to take related courses in the Sam M. Walton College of Business; minors are also available in several areas of business. For more information concerning psychology as a major or careers in psychology and related fields, please contact the Psychology Advising Coordinator, Memorial Hall, room 203.

Writing Requirement: Students majoring in psychology will satisfy the Fulbright College writing requirement by successful completion (a grade of at least a “C”) in either PSYC 4083 or PSYC 4283, each of which requires a final research paper written in American Psychological Association style.

**Psychology B.A.**

**Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university core requirements of the program. Courses in psychology groups A, B and Capstone courses are listed after the program plan.

### Requirements for a Minor in Psychology

Minimum of 18 hours in psychology including:
- PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103) 3
- PSYC 2013 Introduction to Statistics for Psychologists 3
- PSYC 3073 Research Methods 3

A maximum of three hours of PSYC 206V and/or PSYC 207V can be counted toward meeting the minor requirement.

### Requirements for Graduation with Honors in Psychology:

Both the College and the Departmental Honors Program in Psychology provide undergraduate students with an opportunity to formally participate in scholarly psychology activities. Honors candidates carry out independent study and research under the guidance of the Psychological Science faculty and participate in special honors classes, seminars, and colloquia. Admission to the Fulbright College Honors Program is open to psychology majors with a minimum, cumulative grade point average of 3.5 in all coursework. Honors candidates must complete a minimum of 12 hours of honors courses, which may include up to 6 hours of thesis. In addition to satisfying the general college honors requirements, honors candidates in psychology are required to complete and orally defend an honors thesis based upon the independent study carried out in PSYC 399VH. To complete the required thesis successfully, students should choose an honors adviser as early as possible. An adviser should be selected, and an Honors Agreement completed, no later than the first semester in a student’s junior year. Students must register for, and complete, a minimum of 6 hours of PSYC 399VH. PSYC 399VH may be taken for 1 to 6 hours of credit each semester and repeated for a maximum of 12 hours. Nine hours are ordinarily needed to complete the research project and to prepare the honors thesis.

College honors candidates must meet the college’s requirements for an honors degree. Departmental honors candidates in psychology are encouraged to enroll in as many honors classes, seminars, and colloquia as possible, or as required by the honors program in which they are enrolled. Students graduating with honors typically graduate *cum laude*. Higher degree distinctions (*magna cum laude, summa cum laude*) are awarded by the Honors Council, recommended only in truly exceptional circumstances.
cases, and are based upon the whole of the candidate’s program of honors studies.

Psychology (B.A.) Teacher Licensure in Social Studies Requirements:

Please refer to the Secondary Education Requirements (p. 201) for Fulbright College Students.

Students wanting to teach social studies in middle school should consult with a middle level adviser in the College of Education and Health Professions.

Alwood, Nancy D., Ph.D., M.S. (University of Arkansas), Instructor, 2012.

Veilleux, Jennifer Celene, Ph.D., M.A. (University of Illinois at Chicago), B.A. (Macalaster College), Associate Professor, 2011.
Zabelina, Darya, Ph.D. (Northwestern University), Assistant Professor, 2017.
Zies, Brenda June, Ph.D., M.A. (University of Arkansas), B.S. (East Texas State University), Teaching Assistant Professor, 2005.

Religious Studies (RLST)

Nikolay Antov
Director of Religious Studies

University of Arkansas

503 Old Main
479-575-5882
rlst.uark.edu (http://rlst.uark.edu)

Minor Program Requirements: Students must complete at least 15 credit hours for the minor. Of those 15 credit hours, only 3 credit hours may be from the introductory courses listed below. The remaining 12 hours must come from upper-level courses (3000-4000) selected from the 3 areas of emphasis listed below. Students must take at least one course in each area of emphasis. A maximum of six credit hours from the student’s major may be applied toward the minor. Students may petition the Director of Religious Studies to count toward the minor special topics courses or Honors colloquia not listed below but containing significant religious studies content.

Introductory Courses:
HUMN 2013 Introduction to Buddhism ( )
JWST 2003 Introduction to Judaism
MEST 2003 Introduction to Islam

Areas of Emphasis:

History
ARHS 4843 Medieval Art
HIST 3003 History of Christianity
HIST 3033 Islamic Civilization
HIST 3083 Women and Christianity
HIST 3513 History of China to 1644

**Social Work (SCWK)**

Yvette Murphy-Erby, Director of the School of Social Work  
Sara Collie, Graduate Program Director  
Carly Franklin, Undergraduate Program Director  
Ananda Rosa, Field Education Program Director

106 SCSW  
479-575-5039  
School of Social Work Website (http://socialwork.uark.edu/)

The School of Social Work offers an undergraduate major leading to a Bachelor of Social Work degree. The principal objective of the undergraduate social work program is to prepare students for beginning generalist social work practice.

Social work is the professional activity of helping individuals, groups, or communities enhance or restore their capacity for social functioning and creating societal conditions favorable to this goal. Social work is a gratifying career for people who care about others, want to relieve human suffering, like a challenge, and want their work to make a difference in the world. The profession is dedicated to assisting individuals, families, groups, organizations, and communities in reaching their full potential.

Social work is particularly concerned with achieving social and economic justice for vulnerable populations and respecting and valuing human diversity. The School of Social Work at the University of Arkansas reflects the profession's fundamental concerns in its educational goals and objectives. In order to achieve its basic purposes, the school faculty, students, staff, and agency field instructors are involved in a variety of teaching, research, and outreach activities.

**Accreditation**

The social work program is fully accredited at the baccalaureate and graduate level by the Council on Social Work Education (CSWE).

**Criteria for Admission to B.S.W. Program and Professional Social Work Core**

Although a student may declare social work as a major at any point, admission to the B.S.W. Program is required before a student is allowed to take the following courses that comprise the Professional Social Work Core:

- SCWK 4073 Social Work Research and Technology I 3  
- SCWK 4103 Human Behavior and the Social Environment II 3  
- SCWK 4333 Social Work Practice I 3  
- SCWK 4343 Social Work Practice II 3  
- SCWK 4733 Social Work Practice III 3  
- SCWK 4434 Social Work Internship I 4  
- SCWK 4412 Field Seminar I 2  
- SCWK 4444 Social Work Internship II 4  
- SCWK 4422 Field Seminar II 2

Each student must meet the following minimum academic course requirements and complete the application process outlined below.

**Minimum Academic Course Requirements**

Cumulative GPA of 2.0.

Completion of the following 9 courses, each with a grade of “C” or better.

- COMM 1313 Public Speaking (ACTS Equivalency = SPCH 1003) 3  
- ENGL 1013 Composition I (ACTS Equivalency = ENGL 1013) 3  
- PSYC 2003 General Psychology (ACTS Equivalency = PSYC 1103) 3  
- SCWK 2133 Introduction to Social Work 3  
- SCWK 3193 Human Diversity and Social Work 3  
- SCWK 4093 Human Behavior and the Social Environment I 3  
- SCWK 4153 Social Welfare Policy 3  
- SOCI 2013 General Sociology (ACTS Equivalency = SOCI 1013) 3

Completion of BIOL 1543/Biol 1541L Principles of Biology and Lab or ANTH 1013/Anth 1011L Biological Anthropology and Lab with a grade of “D” or better.

Students must have at least a 2.5 GPA in the ten courses listed above.

**Application Process**

The application process must be completed by the announced application deadline prior to the semester in which the student will enroll in Social Work Practice I. The application packet includes the following materials:

- **Application Form.** This form becomes the cover sheet for the application packet. Application forms are available from the online B.S.W. Student Handbook (see appendices) or from the social work office.

- **Volunteer Experience Form.** This form provides documentation of satisfactory completion of the volunteer experience assignment in Introduction to Social Work or equivalent and submission of a positive “Supervisor’s Reference Form” from the supervisor of the experience.

- **Personal Statement.** This narrative statement should include: motivation for becoming a social worker; relevant work, volunteer or life experiences; strengths and limitations for effective social work practice; personal commitment and agreement to abide by the values and ethics of the social work profession; career goals and indication of fields of practice preference or areas where one would not feel comfortable working.

- **Ethical Principles/Guidelines for University of Arkansas Social Work Students.** By signing this statement you are acknowledging that you have read, understand and agree to abide by and behave in accordance with the “Ethical Principles/Guidelines for Social Work Students.” This statement is contained in the admissions packet, and is available from the online B.S.W. Student Handbook (see appendices) or from the social work office. A copy of this signed statement will be included in the student’s advising file.

- **Two Reference Letters.** The letters of reference will assess the applicant’s academic qualification, motivation and potential for success in the professional social work core. (See Appendices for additional details).

- **Copy of current transcript** documenting the minimum academic course requirements listed above.
The above materials are submitted to the B.S.W. Program Director and reviewed by the B.S.W. Admission Committee. If the Admissions Committee has any questions concerning the content of the materials, the student may be asked to interview with a faculty member to resolve any questions or to provide additional information.

Upon completion of the materials review and interview (if necessary), the student will be informed in writing by the B.S.W. Program Director of his or her admission status.

There are three possible admission decisions:

**Unconditional Admission:** These students have demonstrated through their application materials (and interview, if required) that they have the motivation and potential for competent professional social work practice and that they agree to uphold and conduct themselves in accordance with the values and ethics of professional social work practice. In addition, these students have at least a 2.5 GPA in the pre-professional core courses and have an overall GPA of 2.0.

**Conditional Admission:** These students may continue in the major for a given period of time (usually one to two semesters) during which certain conditions must be met. Students may be admitted conditionally with a lower GPA than 2.0 overall, but the student must attain a 2.0 overall GPA during the time period required by the University for being removed from academic probation. Conditional admission related to non-GPA issues may be granted if the student agrees in writing to correct the concern. Examples of non-GPA concerns for which corrective action may be required include writing skills, assertiveness, stress management, or working with diverse populations.

**Non-acceptance:** A decision of non-acceptance will be made when the student is found to be unsuited for professional social work practice. There are two criteria for non-acceptance: 1) the lack of acceptable academic performance necessary to successfully complete the requirements of the social work program, and/or 2) the inability to demonstrate commitment to social work values and ethics as they are reflected in the “Ethical Principles and Guidelines for UA Social Work Students” document that is available on-line in the B.S.W. Student Handbook and included with the forms for applying to the professional social work core (see Appendices). A decision of non-acceptance will result in the student’s inability to progress in the social work program. In the event of non-acceptance, assistance with a transfer to another major will be provided upon request.

**Criteria for Retention and Continuation**

In addition to the admission process, the B.S.W. Program also has requirements for retention and continuation in the major.

**Retention**

- Maintenance of an overall GPA of 2.0.
- Maintenance of a 2.5 GPA in social work courses.

Students must abide by and behave in accordance with the “Ethical Principles/Guidelines for UA Social Work Students”.

Social work students should not engage in any activity or behavior which, according to university policy or regulations, would result in dismissal from the university community. Such activity or behavior includes, but is not limited to, sexual harassment, physical or sexual assault, and academic dishonesty. (See Undergraduate Studies Catalog for description of Academic Dishonesty, and Undergraduate Studies Catalog, Appendix C: Student Handbook for details).

**Continuation and Grading Policies.**

A grade of C or better must be earned in all social work courses. If a student receives a grade of D or F in one of the professional social work core courses, the course must be retaken with a grade of C or better prior to taking the course for which that course serves as a prerequisite.

1. Once matriculated into the B.S.W. program, B.S.W. students who earn a D or F will be allowed to repeat this course one time. Students can repeat up to two different social work courses.
2. A student may repeat a course from which they earned a W no more than one time.
3. Any professional social work core course in which the student receives a grade of I (Incomplete) must be satisfactorily completed (with a grade of C or better) prior to entering the course for which the course receiving the Incomplete is a prerequisite.

**Criteria for Termination**

Students will be terminated from the B.S.W. Program for the following reasons:

1. Failure to maintain minimum GPA requirements (2.0 cumulative overall, 2.5 for all social work courses).
2. Failure to earn a C or better in a professional social work core course after the second attempt.
3. Engaging in any activity or behavior which, according to university policy or regulations, would result in dismissal from the university community. Such activity or behavior includes, but is not limited to, sexual harassment, physical or sexual assault, and academic dishonesty.

Students may be terminated from the B.S.W. Program for the following reasons: Engaging in any activity or behavior incompatible with the “Ethical Principles/Guidelines for UA Social Work Students” (available online in the B.S.W. Student Handbook and with the materials for application to the professional social work core; see Appendices). Such violations will initiate a review by the School of Social Work Student, Standards and Support Committee and may result in termination by the School of Social Work Director or a decision that continuation is contingent upon completion of a corrective action specified by the School of Social Work Director.

**Requirements for a Major in Social Work**

In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (http://catalog.uark.edu/undergraduatecatalog/collegesandschools/jwilliamfulbrightcollegeofartsandsciences/), the following cognate and major course requirements must be met. Bolded courses from the list below may be applied to portions of the university/state minimum core requirements.

    SCWK 4333  Social Work Practice I  3
    SCWK 4343  Social Work Practice II  3
    SCWK 4412  Field Seminar I  2
    SCWK 4422  Field Seminar II  2
    SCWK 4434  Social Work Internship I  4
    SCWK 4444  Social Work Internship II  4
    SCWK 4733  Social Work Practice III  3
Two Social Work Electives  6

1 World language courses at the 1003 Elementary I level cannot be
   used to satisfy any part of the social work major's six-hour world
   language requirement.

Students must adhere to requirements cited for each social work course. A grade of "C" or better must be earned in all core social work courses. If a student receives a grade of "D" in a core social work course, the course must be retaken with a grade of "C" or better prior to taking the course for which that course serves as a prerequisite.

Writing Requirement: Social work students complete the research/analytical writing requirement by passing SCWK 4073 with a C or better.

Social Work B.S.W.
Eight-Semester Degree Program
Students wishing to follow the eight-sememster degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

1 Meets 40-hour advanced credit hour requirement. See College Academic Regulations (p. 198).
2 Meets 24-hour rule (24 hours of 3000-4000 level courses in Fulbright College), in addition to meeting the 40-hour rule. See College Academic Regulations (p. 198).
3 3000-4000 level social science electives to be selected from Sociology, Psychology, Anthropology, Gender Studies, Political Science, Communications, Geosciences, African and African American Studies, or Human Environmental Sciences.

Requirements for a Minor in Social Work
18 hours including SCWK 2133, SCWK 3193, and SCWK 4153 (required) and any other nine hours of social work electives. A student must notify the department of his or her intent to minor. The social work minor is not preparation for social work practice and is not recognized by the CSWE.

Requirements for a Minor in Child Advocacy Studies Training
The Child Advocacy Studies Training online minor program is designed to better prepare future child protection workers, law enforcement officers, and other child-serving professionals in child welfare. Students may only receive credit for the minor or the certificate below, but not both.

18 hours are required for the minor:

<table>

</tr>
</tbody>
</table>

Requirements for a Child Advocacy Studies Training Undergraduate Certificate
The Child Advocacy Studies Training online certificate program is designed to better prepare future child protection workers, law enforcement officers, and other child-serving professionals in child welfare. Students may only receive credit for the minor or the certificate, but not both. Admission requirements for the Child Advocacy Studies Training online certificate program:

- Meet the admission requirements for the University of Arkansas.
- Complete 60 semester hours of credit from a regionally accredited institution of higher education.

Course requirements for an undergraduate certificate in Child Advocacy Studies Training (CHAS) include 9 credit hours:

Requirements for Departmental Honors in Social Work: The Departmental Honors Program in Social Work is an upper-division course of study with an independent investigation on a topic in social work. Students work closely with an adviser of their choice to define the goals of an honors project and to develop it to completion. They must take 12 hours (which may include 6 hours of thesis) in Honors Studies. In
developing the project, students are encouraged to take honors courses, participate in honors colloquia, and do extensive background reading. The honors thesis may entail a library research project, a social work intervention project to be conducted in the field, or a policy analysis project. A research study that requires original data collection and analysis is preferred. In any case, the honors work is a serious long-term undertaking that should have direct value in supplementing the student’s regular departmental academic program. Enrollment in SCWK 399 VH takes place after the student has done background reading and has actually begun a project. Students normally enroll in this course for three hours of credit. The course may be repeated for an additional 3 hours of credit if the student’s project is an extensive one. Regardless of the type of project, it is presented in written form and defended at an oral examination before an Honors Council Committee. Projects of extraordinarily high quality may be designated High Honors by the Committee. Successful completion of the requirements will be recognized by the award of the distinction “Social Work Scholar Cum Laude” at graduation. Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

Allbright, Sara, M.S.W (University of Arkansas), B.S. (John Brown University), Lecturer, 2018.

Atwood, Casey, B.S.W. (University of Arkansas), Lecturer, 2013.

Department of Sociology and Criminology Website (http://fulbright.uark.edu/departments/sociology/)

The Department of Sociology and Criminology offers a major leading to a Bachelor of Arts degree in sociology. Sociology is a comprehensive liberal arts degree that provides an excellent foundation and springboard for working in today’s diverse social, organizational and business environments. The Sociology major provides marketable skills in research, theory, and data analytics and knowledge related to social institutions, interactions, cultures, social inequality, and organizations. We offer robust undergraduate internship opportunities (https://fulbright.uark.edu/departments/sociology/internships/) that help sociology students develop a better understanding of a prospective career and determine whether their interests match a chosen career path, while simultaneously gaining experience with professionals in the field.

The department also offers a major in criminology (p. 250), double major in sociology and criminology, a minor in sociology (https://fulbright.uark.edu/departments/sociology/undergraduate/minor-in-sociology.php) and a fully online minor in criminal justice (https://online.uark.edu/programs/minor-criminal-justice.php). Our students also may pursue a dependent major in sociology and African and African American studies (p. 212).

For requirements for an M.A. degree in sociology, including criminology concentration, see the Graduate School Catalog (http://catalog.uark.edu/graduatedevelopment/programsofstudy/sociologyandcriminologysocii).

Requirements for B.A. Degree with a Major in Sociology: In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course
requirements must be met. Bolded courses from the list below may be applied to portions of the University/state minimum core requirements.

Select one of the following: 3-4

9 hours from sociology 3000- and 4000-level electives

Total Hours 37-41

Writing Requirement: To fulfill the Fulbright College writing requirement, each sociology major will submit, prior to graduation, a substantial research or analytical paper, with a grade of "A" or "B" from an upper-division sociology course (3000-, 4000-, or 5000-level) to their departmental adviser. Satisfactory completion of an honors project or a senior thesis may fulfill this requirement.

Sociology B.A.
Eight-Semester Degree Program

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) in the Academic Regulations chapter for university requirements of the program. Core requirement hours may vary by individual, based on placement and previous credit granted. Once all core requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Sociology (B.A.) Teacher Licensure in Social Studies Requirements:

Please refer to the Secondary Education Requirements (p. 201) for Fulbright College Students.

Students wanting to teach social studies in middle school should consult with a middle level adviser in the College of Education and Health Professions.

Adams, Douglas James, Ph.D., M.A. (University of Arizona), Associate Professor, 1995.

Barnum, Anthony Justin, Ph.D. (Howard University), M.A. (University of Arkansas), B.A. (Hendrix College), Visiting Assistant Professor, 2016.

Bustamante, Juan Jose, Ph.D. (Michigan State University), M.S., B.A. (University of Texas Pan American), Associate Professor, 2012.

Dawwe, Grant R., Ph.D. (University of Arkansas at Little Rock), M.A., B.A. (Southern Illinois University), Assistant Professor, 2016.

Engen, Mindy Sue, Ph.D., M.A. (Pennsylvania State University), B.S. (Georgia State University), Professor, 2005.

Engen, Rodney L., Ph.D. (University of Washington), M.S., B.S. (University of Wisconsin-Milwaukee), Associate Professor, 2009.

Fitzpatrick, Kevin M., Ph.D. (State University of New York at Albany), M.A. (University of South Carolina at Columbia), B.A. (Susquehanna University), University Professor, 2005.

Gruenwald, Jeffrey A., Ph.D. (Michigan State University), Associate Professor, 2019.

Harris, Casey Taggart, Ph.D., M.A. (Pennsylvania State University), B.S. (Texas A&M University), Associate Professor, 2011.

Hearn, Brittany Nicole, Ph.D., M.A., (Vanderbilt University), B.S. (Texas A&M), Assistant Professor, 2018.

Holyfield, Lori C., Ph.D. (University of Georgia), M.A., B.S.E. (University of Arkansas), Professor, 1995.

Jackson, Brandon, Ph.D. (Florida State University), Associate Professor, 2013.

Koski, Patricia, B.A., M.A., Ph.D. (Washington State University), Associate Professor, 1984.

Morimoto, Shauna, Ph.D., M.S. (University of Wisconsin-Madison), B.A. (University of Pittsburgh), Associate Professor, 2008.

Paez, Rocio Alejandra, Ph.D., M.A., B.A. (University of Arkansas at Little Rock), Visiting Assistant Professor, 2018.

Park, Kiwoong, Ph.D. (University of Albany), Assistant Professor, 2019.

Sabin, Lauren, Ph.D. (University of Tennessee-Knoxville), M.S.M.A. (Marshall University), B.S., A.A. (West Virginia University), Clinical Assistant Professor, 2014.

Schwab, Bill, Ph.D., M.A. (The Ohio State University), M.A. (University of Akron), B.A. (Miami University), University Professor, 1976.

Shields, Christopher A., Ph.D., J.D. (University of Arkansas), M.A., B.A. (Arkansas State University), Clinical Assistant Professor, 2003.

Smith, Brent Lamar, Ph.D., M.S. (Purdue University), B.A. (Ouachita Baptist University), Distinguished Professor, 2003.

Thomas, Shaun A., Ph.D., M.A. (Louisiana State University), B.A. (University of Akron), Associate Professor, 2015.

Worden, Steven K., Ph.D. (University of Texas at Austin), M.A., B.A. (Portland State University), Associate Professor, 1986.

Yang, Song, Ph.D., M.S. (University of Minnesota-Twin Cities), M.A. (Nankai University, China), B.A. (Branch College of Nankai, China), Professor, 2002.

Zajicek, Anna, Ph.D. (Virginia Polytechnic Institute and State University), M.S., B.S. (University of Silesia, Poland), Professor, 1994.
Southern Studies (SOST)

Angie Maxwell  
Director of Southern Studies  
Old Main 506A  
479-575-6007  
amax@uark.edu

The Southern Studies minor is designed to provide students with a thorough, interdisciplinary grounding in the major themes, issues, and theoretical assumptions concerning southern history, literature, and politics. Students who secure a southern studies minor will be prepared to pursue careers in business, education, law, and in post-graduate work in history, literature, or political science, particularly as it relates to the Southern region of the United States.

Requirements for a Minor in Southern Studies: Students wishing to minor in Southern Studies must take SOST 2003 Introduction to Southern Studies, a 3-credit hour interdisciplinary course that explores the history, politics, literature, and culture of the U.S. South from the colonial era to the present. Students must also take an additional 15 elective credit hours (5 courses) from among numerous options listed below. Only 6 hours can count toward the requirements of another major or minor.

Theatre (THTR)

Michael Riha  
Chair of the Department  
619 Kimpel Hall  
479-575-2953

Department of Theatre website (http://fulbright.uark.edu/departments/theatre/)

The Department of Theatre offers the Bachelor of Arts (B.A.) degree in Theatre, a broad spectrum program in the context of a liberal arts education, and the Master of Fine Arts (M.F.A.) degree in six concentrations: Acting, Directing, Playwriting, Costume Design, Scene Design and Lighting Design. (Please see the Graduate Catalog for information regarding the M.F.A. Theatre degree (http://catalog.uark.edu/graduatecatalog/programs/ofstudy/theatrethtr/).) Classes at both undergraduate and graduate levels are focused on providing a strong, professional orientation to theatre performance and technology in conjunction with appropriate research-based course work to address the required foundations in theatre history, dramatic literature and dramatic criticism.

The educational objectives of the Department of Theatre are centered on producing graduates prepared to enter the competitive world of professional play production as well as a variety of teaching and research fields. In addition a background in Theatre has proven to be a valuable asset to those wishing to pursue a wide range of corporate and industrial occupations.

The play production program is the “laboratory” for study in Theatre. To that end the department produces an average of 10 plays each year involving students in virtually all aspects of production. Auditions are open to all students on campus.

The Department of Theatre also supports course work in Dance, offering a variety of basic and advanced studio courses.
For requirements for the M.F.A. degrees in theatre, see the Graduate School Catalog.

Requirements for a Major in Theatre: In addition to the University Core requirements (p. 97) and the Fulbright College of Arts and Sciences Graduation Requirements (p. 198), the following course requirements must be met. Bolded courses from the list below may be applied to portions of the university/state minimum core requirements.

Three hours of any world language at the 1013 Elementary II level; and three hours of continued coursework in the same world language, or 3 hours of a different world language course.

A University Core fine arts course other than THTR 1003 Theatre Appreciation

Select one course from two of the following categories. These two courses must be completed in addition to coursework used to satisfy the University/state core.

<table>

In addition, all theatre majors must complete 21 hours from one of two concentration areas of study: Design and Technology or Performance.

1 Students who have already taken THTR 1003 or THTR 1003H may substitute this course for THTR 1223 and must also complete one additional University Core course (p. 97) fine arts course. Theatre majors may not receive credit for both THTR 1223 and THTR 1003/THTR 1003H.

2 Fulfills Fulbright College writing requirement.

Writing Requirement: The Fulbright College research/analytical paper requirement for theatre majors will be fulfilled in THTR 4233 or THTR 4333. Satisfactory completion of an honors project or senior thesis may fulfill the requirement.

Senior Capstone: All theatre majors are required, in the semester before graduation, to successfully complete the Senior Capstone, a faculty assessment of each student’s accomplishments in performance and production.

Requirements for a Minor in Theatre: A minimum of 18 semester hours in theatre, including THTR 1223 or THTR 1003 or THTR 1003H. One of the following courses or course/lab combinations is also required: THTR 1313 and THTR 1311L, or THTR 1323 and THTR 1321L, or THTR 1683. The remaining hours must be selected from courses at the 3000- or 4000-level, the specific courses to be determined by the student in consultation with a theatre department faculty adviser. The student must notify the department of his or her intent to minor.

Requirements for Graduation with Honors in Theatre: Both the College and the Departmental Honors Program in Theatre provide undergraduate students with an opportunity to participate formally in creative and/or scholarly activities. Honors candidates carry out independent study and research under the guidance of the Theatre faculty and participate in special honors classes, seminars and colloquia. Admission to the Fulbright Honors Program is open to Theatre majors with a minimum cumulative grade point average of 3.5 in all of their coursework. Honors candidates must complete a minimum of 12 hours of honors courses, three of which will be THTR 399VH Honors Thesis. (THTR 399VH may be repeated for up to six of these 12 hours.) To successfully complete the required thesis, students should choose an honors thesis adviser as early as possible. An adviser should be selected, and an Honors Agreement completed, no later than the first semester in a student’s junior year.

Honors candidates must meet the college’s requirements for an honors degree. Students graduating with honors will typically be recognized with the distinction “Theatre Scholar Cum Laude.” Higher degree distinctions (magna cum laude and summa cum laude) are awarded by the Honors Council, are recommended only in truly exceptional cases, and are based upon the whole of the candidate’s program of honors studies.

Theatre (B.A.) Theatre/Speech Teacher Licensure Requirements:

Please refer to the Secondary Education Requirements (p. 201) for Fulbright College Students.

Burrow, Jason E., M.M. (Ohio University), B.M. (University of Arkansas), Assistant Professor, 2015.

Cohea, Ashley, B.A. (University of Arkansas), Instructor, 2013.

Dwyer, Mavourneen, M.F.A. (University of Texas at Austin), B.A. (University of Montreal), Associate Professor, 1998.

Frank, Kate L., M.F.A. (University of Arkansas), B.F.A. (California State University-Los Angeles), Lecturer, 2006.

Hicks, Morgan, M.F.A. (University of Arkansas), M.A. (Missouri State University), B.F.A. (Arkansas State University), Assistant Professor, 2007.

Irish, Shawn D., M.F.A. (University of Arkansas), B.A. (Missouri Southern State University), Assistant Professor, 2013.

Jilka, Elizabeth C., M.F.A., B.A. (University of Arkansas), Lecturer, 2017.

Landman, Michael, M.F.A. (Columbia University), B.A. (State University of New York at Binghamton), Associate Professor, 2004.

Lee, Jeannie A., B.A. (University of Arkansas), Lecturer, 2000.

Leftwich, Gail, B.S. (University of Arkansas), Lecturer, 1997.

Martin, Patricia, M.F.A. (Purdue University), B.A. (Rollins College), Professor, 1995.

Marzolf, Steven, M.F.A. (University of San Diego), B.A. (University of Wisconsin–Green Bay), Lecturer, 2015.

Millett, Joseph D., M.F.A. (University of Southern California), B.A. (Union College), Visiting Assistant Professor, 2015.

Wade, Les, Ph.D. (University of California-Santa Barbara), M.F.A. (University of Georgia), M.A. (Duke University), B.A. (Tulane University), Professor, 2013.

Walch, John S., M.F.A. (University of Texas at Austin), B.A. (Colorado College), Assistant Professor, 2016.

Wilkinson, Weston, M.F.A. (University of Tennessee), B.A. (Texas A&M University), Assistant Professor, 2014.

World Languages, Literatures, and Cultures (WLLC)

Steven M. Bell
Chair of Department
425 Kimpel Hall
479-575-2951

World Languages, Literatures and Cultures website (http://fulbright.uark.edu/departments/world-languages/)
The world languages requirement among the basic courses is satisfied based on each separate department’s undergraduate degree program. Students should consult their adviser to confirm the total number of courses needed to satisfy their departmental world language requirement. Students who, on the basis of prior knowledge of language, omit one or more courses in the basic language sequence (1003-2013) may receive college credit for omitted courses if they validate their higher placement by passing an advanced course with a grade of “C” or above.

Conversation courses (3033, 4033) and self-paced (correspondence) courses may not be used to validate such prior knowledge.

For majors in Greek and Latin, go to Classical Studies (p. 245).

For information on advanced degrees in world languages, go to the Graduate School Catalog.

Requirements for B.A. in Arabic

Requirements for a Major in Arabic: In addition to the University Core requirements (http://catalog.uark.edu/undergraduatecatalog/academicregulations/universitycore/) and the Fulbright College of Arts and Sciences Graduation Requirements (http://catalog.uark.edu/undergraduatecatalog,collegesandschools/jwilliamfulbrightcollegeofartsandsciences/), the following departmental and major course requirements must be met. Bolded courses from the list below may be applied to portions of the University Core requirements.

Choose one:

| Two language-related courses of a single world language different from the student’s major | 6 |
| Six hours from any combination of language-related area/ethnic studies courses, department-approved WLLC courses (such as WLLC 2413, WLLC 3173, WLLC 4023, WLLC 4033, or Classical Studies (CLST) courses) | |

**Humanities Core**

| PHIL 2003  | Introduction to Philosophy (ACTS Equivalency = PHIL 1103) | 3 |
| or WLIT 1113  | World Literature I (ACTS Equivalency = ENGL 2113) | |

**Social Sciences Core**

| HIST 1113  | Institutions and Ideas of World Civilizations I (ACTS Equivalency = HIST 1113) | 3 |
| HIST 1123  | Institutions and Ideas of World Civilizations II (ACTS Equivalency = HIST 1123) | 3 |

**Non-HIST social science elective in University Core**

**Arabic Courses**

Complete 27 hours in Arabic courses 3000-level or higher with a minimum grade of “C” in each course. Required courses include:

| ARAB 3016  | Intensive Arabic II | 6 |
| ARAB 4016  | Intensive Arabic IV | 6 |
| ARAB 4023  | Advanced Arabic I | 3 |
| ARAB electives at 3000-level or higher in language, literature, and culture, selected in consultation with the major adviser. | 12 |

| Total Hours | 45 |

| Total Hours | 45 |

1 Honors students who complete the H2P Sequence (HUMN 1114H, HUMN 1124H, HUMN 2114H and HUMN 2124H) will have fulfilled the World Civilization (HIST 1113 and HIST 1123) requirement as well as the Arabic major’s 3-hour Humanities core requirement.

2 ARAB 1016 and ARAB 2016 or equivalent may be required prior to taking ARAB 3016.

Writing Requirement: The college writing requirement may be satisfied by a term paper or other written work submitted for an upper-division Arabic class approved by the chair of the department.

**Additional Studies Requirement**

55 additional credit hours required for the degree must include whatever coursework is necessary for the completion of an additional major or minor in any field other than French, or completion of the College Honors core. Within these 55 hours, also, 6 credit hours must be completed towards the University Residency Requirement, and 16 credit hours must be completed towards the 40-hour Rule. Any remaining credit hours can be completed as general electives or applied towards further additional minor or major requirements.

| Total Hours | 120 |

1 FREN 1003, 1013, 2003, and 2013 or equivalent may be required prior to taking FREN 3003.

**Writing Requirement:** The college writing requirement may be satisfied by a term paper or other written work submitted for an upper-division world language literature class approved by the chair of the department.

**French B.A. Eight-Semester Degree Program**

Students wishing to follow the eight-semester degree plan should see the Eight-Semester Degree Policy (p. 87) for university requirements of the program. The following eight-semester plan refers to both University Core and additional departmental requirements as presented above. Hours may vary by individual, based on placement and previous credit granted. Once all core and departmental requirements are met, students may substitute a three-hour (or more) general elective in place of a core area.

Total Units in Sequence: 120

Requirements for and Additional Major in French for Non-Arts and Science Students

Students in colleges and schools other than the Fulbright College of Arts and Sciences (Business; Education; Engineering; Agricultural, Food, & Life Sciences; Architecture) must complete 24 hours of coursework in French at the 3000-level and above. This is the same amount of coursework in French in the undergraduate major in French in Fulbright College.

The normal course sequence of FREN courses fulfilling the major requirements for non-native speakers is as follows:

<table>
<thead>
<tr>
<th>Units</th>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN 3003 Advanced French</td>
<td>3</td>
<td>3</td>
</tr>
<tr>
<td>FREN 3000 or higher elective</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>FREN 3113 Introduction to Literature</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>FREN 4003 French Grammar and Composition</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>FREN 4033 French for Oral Proficiency</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>FREN 4213 French Civilization</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>FREN 4000-level literature electives</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>Total Hours</td>
<td>24</td>
<td></td>
</tr>
</tbody>
</table>

Substitutions for courses in this list can be approved by French major advisers (for example, for study abroad credits and transfer credits).

Requirements for B.A. in German

University and College Requirements for a Bachelor of Arts in German: In addition to the Fulbright College of Arts and Sciences Graduation Requirements (see under Degree Completion Program Policy), the following course requirements must be met. Total Units in Sequence: 120

---

1 Heritage speakers may also take SPAN 2123 as an equivalent to SPAN 2013.

Requirements for an Additional Major in Spanish for Non-Arts and Sciences Students:

Students with majors in colleges and schools other than the Fulbright College of Arts and Sciences (Business, Education, Engineering, Agriculture, Architecture) can complete an additional major in Spanish by completing 27 hours of coursework in Spanish at the 3000-level and above. This is the same amount of coursework in Spanish in the undergraduate major in Spanish in Fulbright College.

The normal course sequence of SPAN courses fulfilling the major requirements for non-native speakers is as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 3003</td>
<td>Advanced Spanish</td>
<td>3</td>

Spanish: 15 hours in courses numbered 3000 or above. Specific courses required are:

- **SPAN 3003** Advanced Spanish 3
- **SPAN 3103** Cultural Readings 3
  or **SPAN 3123** Spanish for Heritage Speakers II
- **SPAN 3113** Introduction to Literature 3
- **SPAN 4003** Advanced Grammar 3
  or **SPAN 4123** Spanish for Heritage Speakers III
- And one of the following:
  - **SPAN 3033** Conversation and Composition 3
  - or higher-numbered SPAN elective

Total Hours 15

1 Heritage Speakers may take **SPAN 4123** Spanish for Heritage Speakers III in lieu of **SPAN 4003** Advanced Grammar.

### Spanish for the Professions

### Spanish: Courses required are:

- **SPAN 3003** Advanced Spanish 3
- **SPAN 3103** Cultural Readings 3
  or **SPAN 3123** Spanish for Heritage Speakers II
- **SPAN 4003** Advanced Grammar 3
  or **SPAN 4123** Spanish for Heritage Speakers III
- **SPAN 4333** Business Spanish I
  or **SPAN 4563** Latino Youth Biliteracy Service Learning Project
  or **SPAN 4583** Advanced Spanish for Health Professions
- **SPAN 3033** Conversation and Composition (or higher-numbered SPAN elective) 3

In some cases, specific course requirements may be adjusted to the individual needs of the candidate with the permission of the Spanish adviser.

1 Heritage Speakers may take **SPAN 4123** in lieu of **SPAN 4003** Advanced Grammar.

### Requirements for a Minor in World Languages with a Business Orientation

**Chinese:** Students in the Minor program in Chinese with a Business Orientation must complete 15 credit hours of upper-level Chinese courses.

#### Required Courses

- **CHIN 3003** Advanced Chinese 3
- **CHIN 3033** Conversation 3
- **CHIN 3103** Chinese Culture through Film 3
- **CHIN 4333** Business Chinese Language in Speaking and Writing 3

Choose one of the following elective courses:

- CHIN 3983 Special Studies
- CHIN 4313 Culture and Society in China

In some cases, elective courses may be adjusted to the individual needs of the candidate with the permission of the Chinese adviser.

**Japanese:** Students in the Minor program in Japanese with a Business Orientation must complete 15 credit hours of upper-level Japanese courses. Required courses are:

- **JAPN 3033** Advanced Japanese Conversation 3
- **JAPN 4333** Professional Japanese I: Business Writing 3

#### Electives

Select one of the following:

- JAPN 3983 Special Studies
- JAPN 4033 Oral Communication & Composition in Japanese
- JAPN 4213 Japanese Culture
- JAPN 4313 Language and Society of Japan
- JAPN 4343 Professional Japanese II: Translation

In some cases, elective courses may be adjusted to the individual needs of the candidate with the permission of the Japanese adviser.

### Requirements for Honors in World Languages:

The Honors Program in World Languages gives students of high ability the opportunity to conduct independent research culminating in an honors thesis. In addition to satisfying general graduation requirements and all requirements for honors separately established by the Honors Council, candidates for honors in World Languages must:

1. Complete 12 hours of honors credit. One to six of these may be honors thesis hours; the remaining hours should be taken in disciplines chosen in consultation with the adviser;
2. Complete an honors thesis in the major field, and pass an oral examination on the thesis conducted by an honors committee, as evidence of substantial individual research skills; 
3. Demonstrate superior competence in language, culture, and literature by achieving a GPA of 3.5 in all upper-division courses submitted for the major.

Successful completion of these requirements will be recognized by the award of the distinction “Language Scholar Cum Laude.” Higher degree distinctions are recommended only in truly exceptional cases and are based upon the whole of the candidate’s program of honors studies.

World Language (B.A.) Teacher Licensure Requirements:

Please refer to the Secondary Education Requirements (p. 201) for Fulbright College Students.

Sam M. Walton College of Business

Mission and Objectives
Vision Statement
Through our teaching, research, and service, the Sam M. Walton College of Business will be a thought leader and a catalyst for transforming lives in Arkansas, the United States and the world.

Core Values
Excellence: We are driven to be the best in everything we do.
Professionalism: We operate with integrity, humility, respect, and Inclusion.
Innovation: We imagine possibilities, we create, and we inspire others.
Collegiality: We respect each individual, we value our differences, and we welcome all.

Mission Statement
The mission of the Sam M. Walton College of Business is to advance and disseminate business knowledge using a diverse, inclusive, and global perspective and to encourage innovation in our primary strategic endeavors: Retail, Data Analytics, and Entrepreneurship.

Facilities and Resources
The Walton College offers degree programs for undergraduate students and for graduate students at both the master’s and doctoral levels.

The Walton College is housed in four modern buildings supporting on-campus programs. These attractive facilities provide technology-equipped classrooms and state-of-the-art computer laboratories for both business classes and individual use. The buildings also house faculty and administrative offices, an honors program study area with computer access, the George W. Edwards Jr. Career Suite, the Garrison Financial Institute, and large study areas equipped for individual as well as group studying.

The library of the college is part of the general University Libraries and is housed in Mullins Library. The business and economics collection comprises approximately 55,000 volumes and makes this library one of the best in the region.

Walton College also operates centers for research, outreach, and public service. Information about these centers may be found in the University Centers and Research Units section of this catalog. Walton College centers include the following:

• Applied Sustainability Center
• Behavioral Business Research Lab
• Bessie B. Moore Center for Economic Education
• Center for Business and Economic Research
• Executive Education
• Garrison Financial Institute
• McMillon Innovation Studio
• Supply Chain Management Research Center
• Tyson Center for Faith and Spirituality in the Workplace

Degrees Offered
Undergraduate students may pursue curricula leading to one of the following degrees: Bachelor of Science in Business Administration (B.S.B.A), Bachelor of Science in International Business (B.S.I.B.). In each of these degree programs, the pre-business requirements must be completed before students may enroll in upper division business courses. Students in Walton College may pursue an academic minor in business or in the J. William Fulbright College of Arts and Sciences. Walton College also offers business minors for non-business students. Degree programs and minors are outlined on subsequent pages.

College Admission Requirements
All students admitted to the University of Arkansas, Fayetteville, are eligible for admission to the Sam M. Walton College of Business. Students will be required to follow the degree program requirements set forth in the catalog corresponding to the student’s first semester in Walton College, not the first semester of enrollment at the University of Arkansas.

College Scholarships
High school graduates who expect to enroll in Walton College are encouraged to apply for scholarships made available to freshmen by individuals, business firms, and organizations. Also available to freshmen, regardless of degree program, are freshmen academic scholarships. Current Walton College students may apply for both college and departmental scholarships beginning in January of each year for the following academic year. Information on these financial awards may be

College Admission Requirements

Also available to freshmen, regardless of degree program, are freshmen academic scholarships. Current Walton College students may apply for both college and departmental scholarships beginning in January of each year for the following academic year. Information on these financial awards may be
secured from the University Scholarship Office and the Walton College Undergraduate Programs Office.

Student Organizations
In addition to the general university student organizations, Walton College Student Ambassadors, Leadership Walton and a Business Dean’s Student Advisory Board, there are several college societies open to Walton College students. These include the following:

- American Marketing Association
- Association for Information Systems
- Beta Alpha Psi (accounting honorary)
- Beta Gamma Sigma (business honorary)
- Enactus (formerly SIFE)
- Finance Club
- National Association of Black Accountants
- Omicron Delta Epsilon (economics honorary)
- Phi Beta Delta (international scholars honorary)
- S.A.K.E. (Students Acquiring Knowledge Through Enterprise)
- Society for Human Resource Management
- Students of Retailing Excellence (STORE)
- Transportation and Logistics Association
- Women Impacting Supply Excellence (WISE)

Eight-Semester Degree Program Policy

College Academic Regulations

Pre-Business Requirements
Students pursuing a degree in Walton College are classified as pre-business with an intended major until all pre-business requirements are fulfilled. The following policies apply to the pre-business program:

To be eligible to enroll in upper-division business courses in Walton College, a student must complete the Walton College computer competency requirement, ISYS 1123 or ISYS 1120, and maintain at least a 2.50 (on a 4.00 scale) overall grade-point average (GPA) in addition to completing the 31 credit hours listed below of pre-business core courses (or their equivalents), also with at least a 2.50 GPA. Further, a student must complete all courses offered to meet this requirement with a grade of “C” or better or the requirement for graduation. The pre-business core courses are as follows:

<table>

Transfer of Credit Policies

In addition to the university policies controlling the granting of credit for course work taken at other institutions, the following policies apply to transfer work applied to any undergraduate business program:

1. Transfer students considering admission to pursue a major in Walton College must have completed the pre-business courses and requirements listed above and have a 2.50 (on a 4.00 scale) cumulative grade-point average in the pre-business courses and in his or her overall grade-point average. Transfer students will be classified as pre-business students until pre-business core requirements have been completed.

2. A pre-business and overall grade-point average for courses accepted for transfer by the University of Arkansas will be calculated and used to evaluate the completion of the pre-business requirements by students transferring courses from other institutions.

3. Transfer students considering admission to a major in Walton College must have completed the pre-business courses and requirements listed above and have a 2.50 (on a 4.00 scale) cumulative grade-point average in the pre-business courses and in his or her overall grade-point average. Transfer students will be classified as pre-business students until pre-business core requirements have been completed.

Restrictions on General Education Electives: Only three hours total of general education electives will be allowed in Physical Education Activity (PEAC) or Dance Education Activity (DEAC) courses.

Business Core Requirements

Students pursuing a degree in Walton College must complete the following business core courses:

<table>
<thead>

Registration in Junior/Senior-Level Walton College Courses

Walton College students must complete the pre-business requirements prior to enrollment in junior- or senior-level courses in Walton College.

Non-degree seeking students and students enrolled in other colleges are subject to the same course prerequisites as students within Walton College. Specific exceptions to this policy must be addressed to the assistant dean for undergraduate programs in Walton College.

Restrictions on General Education Electives: Only three hours total of general education electives will be allowed in Physical Education Activity (PEAC) or Dance Education Activity (DEAC) courses.
grade of "C" or better has been earned in each of these courses. (See the university Transfer of Credit page (p. 94).)

4. A transferred course cannot carry more degree hours than are available in a similar University of Arkansas course. For example, a four-hour principles of economics course transfers as three degree hours.

5. Business courses completed at the freshman or sophomore level at another institution will not count as equivalents of junior- or senior-level courses offered in Walton College (University of Arkansas), and no transfer credit shall be granted for any such course(s) in Walton College.

6. At least 50 percent of program requirements in business and economics must be taken in residence.

7. MGMT 3013, 21-24 hours of upper division courses required for the completion of the major, and 3-6 hours of additional, upper division business courses are required degree must be taken in residence at the University of Arkansas, Fayetteville.

8. Junior- or senior-level core courses in business and economics may be transferred from a school accredited by AACSB International.

9. Business courses completed at the freshman or sophomore level at a non-AACSB International-accredited, four-year institution must either be repeated or validated by procedures specified and approved by the assistant dean for undergraduate programs.

10. Junior- or senior-level electives in business and economics taken at a non-AACSB International-accredited, four-year institution may be accepted in transfer as junior/senior business electives.

11. In cases of minors or transfer, students who take courses with different names but with similar content at different institutions or in different colleges within the University of Arkansas, may be allowed degree credit for only one of the courses (i.e.: principles of economics and agricultural economics). Students pursuing degrees and minors within the Walton College must enroll in business courses as designated by their program of study.

12. Courses taken at any higher education institution where the course content is remedial are not acceptable for degree credit.

13. The student should be prepared to submit course descriptions, syllabi, or other course-related information for transfer course work if there is any question as to whether Walton College will grant degree credit for such work.

14. Exceptions: All requests for, exceptions to, and variations from the rules, regulations, and requirements of Walton College and the university should be made in writing to the assistant dean for undergraduate programs of Walton College. Consult the Undergraduate Programs Office in Walton College for these requests.

Course Loads

The normal course load in Walton College is 15 to 17 hours per semester (and six hours per summer term). Students with a 2.75 grade-point average the previous semester may take a maximum of 18 hours. Seniors may take 18 to 19 hours, if required for graduation, during their final semester. Students on academic warning are limited to a maximum course load of 12 hours. University regulations on the number of hours allowed per semester are found in the Orientation and Registration section of this catalog.

Foreign Language Concentration

An undergraduate B.S.B.A. degree-seeking student may elect to substitute 12 hours in a single upper-level foreign language for 12-15 hours of the 12-15 hours required in the junior-senior business elective block of courses for the degree requirements. Students who choose to use 12 hours of foreign language, but who are pursuing majors requiring 15 hours of junior-senior business electives, must take an additional 3 hour junior-senior business elective to satisfy degree requirements.

Double Major

A student may elect to obtain a double major by completing all required courses for two majors in Walton College (but not in two concentrations within a single major). The minimum hour requirement for a double major is 138 degree credit hours to include all requirements for both majors. If there are courses common to both majors, the department chairs involved will agree upon and specify additional requirements in lieu of the common courses. The junior/senior business elective block is reduced by three hours; however, choice of the junior/senior business electives is restricted to no more than three total hours from each department that offers the two majors. Students who have elected to substitute a foreign language course of study for junior/senior business electives must complete 12 hours of junior/senior language courses.

The student must notify the Undergraduate Programs Office in Walton College of intent to pursue a double major. All requirements for double majors must be completed prior to awarding of a degree.

Business Minors

The Walton College offers a variety of minors for students desiring specific knowledge in another area of business (outside their major) to assist them in their business careers. Students may elect to obtain a business major and a business minor by completing all required courses for both the major and the minor in the Walton College (but not a major and minor within the same discipline). Students must complete all requirements for both the major and the minor and may not use more than six hours of major courses toward minor requirements. If there are common courses to both, the department chairs involved will agree upon and specify additional requirements. Business minors require the completion of 15 specific hours of study and all upper level courses applied toward the minor must be taken in residence.

Students may elect to obtain multiple business minors by completing all required courses for all minors in the Walton College (but not minors within the same discipline). Students must complete all requirements for minors and may not use more than three hours of courses toward each of the minor requirements. However, if there are common courses to both, the department chairs involved will agree upon and specify additional requirements.

Students who desire to earn a business minor must notify the Walton College Undergraduate Programs Office of their intent to pursue a minor. All requirements for the minor must be completed prior to the awarding of the student's undergraduate degree. All specific course prerequisites must be met. Each student must have a 2.00 cumulative GPA in the courses offered for the minor.

Additional Bachelor’s Degrees

Students seeking a second bachelor’s degree must contact the Undergraduate Programs Office to ascertain specific requirements. Degree candidates must meet the university’s general graduation requirements. The university requires that 1) the student take a minimum of 30 semester hours over the requirements for the first degree, and 2) the 30 hours cover a minimum of 36 weeks in residency at the Fayetteville campus. Walton College also requires that the student complete all courses in the pre-business and business core and the major and any additional business requirements (if some of these have been completed
on the first degree, they are waived). It is recommended that any additional courses needed to finish the university’s 30-hour requirement be junior or senior business electives. The second degree may be taken after the first is awarded, or both degrees may be awarded simultaneously after completion of all requirements for both.

**College Graduation Requirements**

1. **University Requirements.** Degree candidates must meet the following: the university’s general entrance requirements, number of credit hours required in residence, and the “requirements for graduation,” including the University Core American history.

2. **Hour Requirements.** Degree candidates must satisfactorily complete the total number of semester hours specified for the curriculum in courses approved for one of the majors outlined in the succeeding pages. No less than 50 percent of the total credits must be in approved subjects other than business.

**NOTE:** Not all courses offered by the university will be accepted for degree credit by Walton College. Courses falling into this category are ENGL 0002, ENGL 0013, MATH 0003, MATH 001L, MATH 002L, and MATH 013L. Developmental courses are defined as 1) any course so designated by the university, and 2) any lower-division course taken after a higher-level course is taken. Credit will not be given for duplicate course work.

3. **Grade Requirements.** Students must earn a grade of “C” or better in all pre-business core course requirements. Each student must have a 2.00 cumulative GPA in each of the following areas:
   a. All work completed at the University of Arkansas.
   b. All courses specifically designated for the major.
   c. All required business core courses and required economics courses.

4. **General Education Course Work.** A student’s general education course work must satisfy University Core Requirements, additional college/program course-specific requirements, as well as these two area requirements:
   a. Social Issues, Multicultural Environment, and Demographic Diversity, and
   b. Micro and Macroeconomics. If a student has not satisfied these area requirements within the fine arts and/or social sciences areas of the university core, these area requirements must be satisfied through general education electives to allow students to complete degree requirements within the hours indicated above.

Courses that satisfy these area requirements are listed below. NOTE that many of these courses will also satisfy University Core Requirements. Where possible, a student should select courses that satisfy both requirements.

**A. Social Issues, Multicultural Environment, and Demographic Diversity**

5. **Enrollment Requirement:** Students must earn a minimum of 30 semester hours on the Fayetteville campus – this includes study abroad classes, online and courses offered through the Global Campus. Other courses paid toward Fayetteville campus tuition and fees may be used with approval. These 30 semester hours must include MGMT 3013, 21-24 hours of upper division courses required for the completion of the major, and 3-6 hours of additional upper division courses required for the degree program. Specifically, required junior and senior courses in business or economics must be taken at the University of Arkansas or at an AACSB accredited school. At least 50 percent of the total hours in business and economics must be taken in residence.

6. **Catalog/Curriculum Changes.** Business is a dynamic profession, and the college and department curricula are updated continuously to keep pace with changes in the business world. Students entering under this catalog will be required to comply with such curricular changes to earn their degree. The total number of hours required for the degree, however, may not be increased, and all work completed in accordance with this catalog prior to the curriculum change will be applied toward the student’s degree requirements. Furthermore, courses incorporated into the curriculum at a level lower than the one the student has completed are not required for that student unless there are specific prerequisites. Students entering under earlier catalogs are responsible for completing the graduation requirements as published in the catalog in effect when they entered the program. Students having interruptions of their academic programs that exceed two calendar years must complete the requirements published in the catalog in effect when they re-enter the program. Exceptions to the graduation requirements must be approved by the assistant dean for undergraduate programs.

The Walton College offers an eight-semester degree-completion program. In each of the majors listed in this chapter, at least one eight-semester schedule is shown. Some majors offer several concentrations, and eight-semester programs are available for each of the concentrations.

See more about the university’s Eight-Semester Degree Policy (p. 87).
Graduate Studies
The University of Arkansas offers the following advanced degrees in business: Master of Accountancy, Master of Business Administration, Master of Arts in Economics, Master of Information Systems, Doctor of Philosophy in Business Administration, and Doctor of Philosophy in Economics.

For further information about these programs and requirements for admission, see the Graduate School Catalog or write to the assistant director of marketing and recruiting, Graduate School of Business, 475 Willard J. Walker Hall.

Accreditations
The college has been a member of and accredited by AACSB International-The Association to Advance Collegiate Schools of Business since 1931. The accounting program was accredited separately in 1986 at both the bachelor’s and master’s level. The master’s degree in the business administration program was approved in 1963. Accreditation by and membership in AACSB signifies commitment by the college to the goals of promoting and actualizing the highest standards of business education.
