Courses

ARSC 104V. Special Topics in Student Success. 1-3 Hour.
Empowers students to explore various ARSC topics and programs under the guidance of ARSC faculty and/or advisors to advance student success. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

ARSC 1201. Introduction to Teaching STEM Subjects. 1 Hour.
This course provides a preview of what it is like to teach STEM subjects. Engaging activities that model effective teaching practices, discussions of STEM education issues, and optional school observations will help STEM majors clarify interest in teaching as a career or as an additional skill as a STEM professional. (Typically offered: Fall and Spring)

ARSC 1212. Inquiry Approach to Teaching STEM Subjects. 2 Hours.
Along with learning classroom strategies for engaging students and organizing a lesson, student pairs plan and teach three inquiry-based lessons (choice of math, science, or computer science) in a local school classroom, assess student understanding, and reflect on feedback. For STEM majors exploring teaching as an additional career option. (Typically offered: Fall and Spring)

ARSC 1600. Undergraduate Research Assistant. 0 Hours.
Undergraduate research. (Typically offered: Fall, Spring and Summer)

ARSC 2003. Second Year Experience. 3 Hours.
